Welcome to UW-La Crosse’s undergraduate and graduate catalog site. These catalogs contain important information about undergraduate and graduate programs, courses, policies, faculty/staff, and facilities.

UW-L catalogs do not establish a contractual relationship. Instead, they summarize the total requirements a student must meet before qualifying for a degree and exist, not only to help prospective students and others learn about UW-L, but also to provide a statement of policies, requirements, regulations, and procedures in a form helpful to all.

These catalogs are published yearly and are a snapshot of UW-L at the time of publication in June. Changes that occur after publication will be included in the next catalog.

Start learning more about UW-L by selecting one of the categories on the left.
Undergraduate

This catalog is a record of undergraduate programs, courses, policies, staff, and facilities as of June 1, 2015. Changes that occur after the June publication date will be included in the next catalog.

Welcome

Welcome to the University of Wisconsin-La Crosse. We’re delighted that you have selected our campus for your education and look forward to working with you as you pursue your goals.

This catalog is your guide to planning for your degree. You’ll find it helpful now through commencement; virtually every question you might have about UW-L is answered in this book. I encourage you to read and continually refer to this essential publication. In addition, you should talk frequently with your college and departmental advisors to ensure that you are taking the right steps toward your educational goals.

Best wishes for success in your academic pursuits!
Joe Gow
Chancellor

Student responsibilities and this catalog

All departments, schools and colleges within the university establish certain requirements that must be met before a degree program is completed. These requirements concern such things as curricula and courses, majors and minors, and residence at the university. Advisors, department chairpersons, academic staff members and deans are available to help you understand and meet these requirements, but you are responsible for fulfilling them. At the end of your selected course of study, the faculty decides whether you will receive a degree. If requirements of graduation have not been satisfied, the degree will not be granted. For this reason, it is important for you to become acquainted with university requirements and regulations, to continue to keep information about them throughout your college career, and to be responsible for the completion of all requirements.

Also, it is necessary, in the general administration of the university, to establish broad policies and to provide certain regulations and procedures by which they may be carried out. It is important that you understand the policies and know the regulations and procedures that you are expected to follow. This catalog will serve as your curriculum guide throughout your education at UW-L, provided you maintain uninterrupted attendance and complete your degree within six calendar years. In compiling our catalog, we have used the most current and accurate information available to us at this time. However, we reserve the right to add, revise, or delete any of the information at any time and without giving prior notice. Often when changes are made, you may follow either your original catalog or the catalog containing the changed curriculum requirements, whichever you prefer; however, you must choose one catalog or the other, not a mixture of the two. At times, changes are applicable to all students, regardless of what catalog you are following. This decision, which is in the best interest of your education, may be based on accreditation or certification requirements, campus or UW System policies, or program quality. Curriculum changes are reflected in your advisement report, which makes it the most up-to-date source of information. Changes, such as prerequisites and credits, which affect individual courses, are applicable to all students.

This catalog does not establish a contractual relationship. It summarizes the total requirements you must meet before qualifying for a degree, and is presented, therefore, not only to enable prospective students and others to learn about UW-L, but also to provide a statement of policies, requirements, regulations, and procedures in a form helpful to you during your college career.
About UW-La Crosse

- Civil rights (p. 10)
- Accommodation of religious beliefs (p. 10)
- Accessibility for individuals with disabilities (p. 11)

UW-La Crosse: a profile

The University of Wisconsin-La Crosse continues to position itself among the country’s elite public universities. The university is the state’s top-ranked public or private higher education institution by the US News & World Report for master’s degree institutions and has been ranked among the top four Midwestern public institutions for the past decade. UW-L is also listed annually among Kiplinger’s Top 100 Best Values. In 2015, Kiplinger placed UW-L on its national list of the “25 Best College Values Under $30,000 a Year” for the second year in a row.

The student body of just more than 10,550 from 37 states and more than 40 countries is impressive. The retention rate is an outstanding 86 percent. The six-year graduation rate for students beginning in fall 2008 was 70 percent, well above the national average. Around 20 percent of students study abroad. International impact shapes the campus with nearly 400 students from 44 countries.

UW-L offers 91 undergraduate programs in at least 30 disciplines and 25 graduate programs and emphases. Students learn directly from professors, not assistants. A 19:1 student-faculty ratio means small classes.

The university is organized into three academic colleges and two schools: the College of Business Administration, College of Science and Health, College of Liberal Studies, the School of Arts and Communication (housed within the College of Liberal Studies), and the School of Education. Teacher education is a campus wide commitment. Descriptions of the departments and programs within the colleges as well as general information, college curriculum requirements, and any requirements that apply to specific colleges can be found in the undergraduate (http://catalog.uwlax.edu/undergraduate) and graduate (http://catalog.uwlax.edu/graduate) catalogs or through UW-L’s Academics (http://www.uwlax.edu/academics) page. Descriptions of pre-professional programs are included in the College of Science and Health. Wisconsin teacher licensure information is included in the School of Education section.

The university’s intercollegiate athletic teams, the Eagles, compete in 19 sports, predominately in the NCAA Division III, and as of May 31, 2015, have earned 67 national titles, 33 since 2001. The university is proud of the Veterans Memorial Field Sports Complex, a $16.6 million athletic complex completed in 2009 and funded entirely by private donations. The site is home to the annual WIAA State High School Track and Field Championships and has hosted the NCAA Division III National Track and Field Championships numerous times.

The campus lies in a residential section of the city of La Crosse (population 52,000, metro 133,665). La Crosse is a major point of interest on the Great River Road that winds north and south through 10 states along the Mississippi River. The city is nestled on the east bank of the river below towering 500-foot bluffs separated by steep-walled ravines known as coulees. See more about the city at La Crosse Area Convention & Visitors Bureau (http://www.explorelacrosse.com).

UW-L offers much to western Wisconsin by hosting cultural events, regional and national conferences, and prominent speakers. UW-L works cooperatively with other area education and medical institutions to foster cutting-edge health care in the region, as well as a state-of-the-art health research and education facility.

The university’s history dates back to 1909 when the La Crosse Normal School opened its doors as a teaching training school. It became a state teachers college in 1927, a state college in 1951, and a state university in 1964. The university became part of the University of Wisconsin System in 1971. Discover more at the University of Wisconsin-La Crosse (http://www.uwlax.edu/Home/Future-Students).

Freedom of thought and expression

The faculty and administration of the University of Wisconsin-La Crosse believe that it is the task of the university to make people safe for ideas, not to make ideas safe for people. Beyond formal lectures and laboratory experiences, the University provides opportunities for the presentation of diverse views to stimulate thought and discussion in the University community. It is the responsibility of the University to strive, over a period of time, to attain a diversified presentation of ideas by people who are engaged in research and social dialogue. Thus, the University seeks to increase student exposure to the ever-expanding world of ideas. In a democratic society we can do no less. The appearance of any particular speaker on campus implies neither approval nor disapproval by the administration or the faculty of what that speaker says.

Civil rights

The University of Wisconsin-La Crosse is totally committed to providing equal education and employment opportunity regardless of race, sex, color, creed, religion, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital, parental status, gender identity, gender expression, or veteran status. Pursuant to Title IX of the Educational Amendments of 1972, discrimination on the basis of sex is prohibited in any educational program or activity receiving federal financial assistance by way of grant, contract or loan. Pursuant to Title VI of the Civil Rights Act of 1964, discrimination on the basis of race, color or national origin is prohibited. Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 prohibit discrimination on the basis of physical or mental disability. Equal educational opportunity includes: admission, recruitment, extracurricular programs and activities, housing facilities, access to course offerings, counseling and testing, financial assistance, employment, health and insurance services, and athletics. Sexual harassment is a form of sex discrimination that is unlawful and contrary to the fundamental standards of a university community. All grievances, questions or requests for information should be referred to the Office of Affirmative Action (http://www.uwlax.edu/affirmative-action), 131 Graff Main Hall.

Accommodation of religious beliefs

It is the policy of the Board of Regents that students’ sincerely held religious beliefs shall be reasonably accommodated with respect to all examinations and other academic requirements. The university guidelines state that the claim of a religious conflict should be accepted at face value, and any student with a conflict between an academic requirement and any religious observance must be given an alternative means of meeting the academic requirement. The student must notify the instructor within the first two weeks of class of the specific days/dates for which the student will request relief. It is understood that instructors may set reasonable limits on the total number of days claimed by any one student. Instructors are not obliged to schedule make-up requirements before the regularly scheduled requirements. Complaints may be filed...
with the Affirmative Action Officer (http://www.uwlax.edu/affirmative-action).

Accessibility for individuals with disabilities

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination on the basis of disability. Ongoing efforts are being made to ensure that facilities and programs are accessible to all students with disabilities. All students must identify and present documentation (no older than three years) of their disabilities to the Disability Resources Services office in order to receive ongoing accommodations.

Direct student services to those with physical, sensory or learning disabilities/ADHD include, but are not limited to: classroom note takers, tutors, class preregistration, taped textbooks, academic advising, individual/group counseling and equipment loan. Specific requests for assistance or information should be directed to the coordinator of the Disability Resource Services office (http://www.uwlax.edu/Disability-Resource-Services), 165 Murphy Library.

Missions

UW-La Crosse's institutional priorities are guided by three important statements. The first, unique to UW-La Crosse, is the University Mission, Vision, and Values adopted by the University Joint Planning & Budget Committee in March of 2015. In addition to this statement, each institution in the University of Wisconsin System shares the System mission, which is often referenced as “The Wisconsin Idea.” Finally, all comprehensive institutions in the University of Wisconsin System share the duties and privileges outlined in the Core mission, which may be found towards the bottom of this page.

The University of Wisconsin - La Crosse: Mission, Vision, and Values

Adopted by the University Joint Planning & Budget Committee, March 2015

Mission

The University of Wisconsin-La Crosse provides a challenging, dynamic, and diverse learning environment in which the entire university community is fully engaged in supporting student success. Grounded in the liberal arts, UW-L fosters curiosity and lifelong learning through collaboration, innovation, and the discovery and dissemination of new knowledge. Acknowledging and respecting the contributions of all, UW-L is a regional academic and cultural center that prepares students to take their place in a constantly changing world community. The university offers undergraduate programs and degrees in the arts and humanities, health and sciences, education, and business administration. The university offers graduate programs related to areas of emphasis and strength within the institution, including business administration, education, health, the sciences, and the social sciences.

Vision

The University of Wisconsin-La Crosse aims to foster within each student the curiosity, creativity, and tenacity necessary to solve the regional, national, and international challenges of the 21st century. The university’s official motto mens corpusque (“mind and body”) will continue to guide our direction as a student-centered university committed to a quality education for the whole person. As such, it will continue to provide opportunities both inside and outside the classroom for the development of sound mental, emotional, and ethical skills, as well as general well-being. Our students, faculty, and staff will experience the world through constantly evolving technologies and cultures. Thus, the skills of effective communication, critical thought, leadership, and an appreciation for diversity must be the hallmarks of a UW-L education.

Values

Fassett Cotton, our institution’s first leader, serving from 1909-1924, conceived the original University of Wisconsin-La Crosse educational philosophy of the total development of the individual. Later, history professor and Dean of the College of Arts, Letters, and Sciences, William M. Laux (1922-1967), suggested the symbols of our official university seal along with the accompanying Latin phrase, mens corpusque (“mind and body”), to exemplify our collective commitment to a high quality education for the whole person. The University of Wisconsin-La Crosse values:

- The mens corpusque educational philosophy that recognizes each student as a whole person and aspires to enhance both mind and body through the noble search for knowledge, truth, and meaning central to a wide range of high quality learning experiences and scholarly pursuits.
- Diversity, equity, and the inclusion and engagement of all people in a safe campus climate that embraces and respects the innumerable different perspectives found within an increasingly integrated and culturally diverse global community.
- A high quality of life and work balance, incorporating best practices for shared governance and the acquisition and efficient management of resources, equitable compensation, general wellness, and social, environmental, and economic sustainability.
- Civic engagement and a renewed commitment to the Wisconsin Idea, in which our socially responsible campus serves as a resource for our increasingly intertwined local, state, and global communities, collaborating and sharing resources and expertise to improve the human condition.

The University of Wisconsin System Mission

The mission of the System is to develop human resources, to discover and disseminate knowledge, to extend knowledge and its application beyond the boundaries of its campuses, and to serve and stimulate society by developing in students heightened intellectual, cultural, and humane sensitivities; scientific, professional, and technological expertise; and a sense of value and purpose. Inherent in this mission are methods of instruction, research, extended education, and public service designed to educate people and improve the human condition. Basic to every purpose of the System is the search for truth.

The University of Wisconsin - La Crosse Core Mission

1. Offer associate and baccalaureate degree level and selected graduate programs within the context of its approved mission statement.
2. Offer an environment that emphasizes teaching excellence and meets the educational and personal needs of students through effective teaching, academic advising, counseling, and through university-sponsored cultural, recreational, and extracurricular programs.
3. Offer a core of liberal studies that supports university degrees in the arts, letters, and sciences, as well as specialized professional/technical degrees at the associate and baccalaureate level.
4. Offer a program of pre-professional curricular offerings consistent with the university’s mission.
5. Expect scholarly activity, including research, scholarship, and creative endeavor, that supports its programs at the associate and baccalaureate degree level, its selected graduate programs, and its approved mission statement.

6. Promote the integration of the extension function, assist the University of Wisconsin-Extension in meeting its responsibility for statewide coordination, and encourage faculty and staff participation in outreach activity.

7. Participate in inter-institutional relationships in order to maximize educational opportunity for the people of the state effectively and efficiently through the sharing of resources.

8. Serve the needs of women, minority, disadvantaged, disabled, and nontraditional students and seek racial and ethnic diversification of the student body and the professional faculty and staff.

9. Support activities designed to promote the economic development of the state.

Accreditation

The University of Wisconsin-La Crosse is accredited by:

- AACSB International - The Association to Advance Collegiate Schools of Business
- Accreditation Council for Occupational Therapy Education
- Accreditation Review Committee on Education of the Physician Assistant
- American Chemical Society
- Commission on Accreditation of Athletic Training Education
- Commission on Accreditation for Physical Therapy Education
- Council on Accreditation of the National Recreation and Park Association/American Association for Leisure and Recreation
- Council on Education for Public Health
- Joint Review Committee on Educational Programs in Radiation Technology
- National Association of Schools of Music
- National Association of Sport and Physical Education/North American Society for Sport Management
- Higher Learning Commission (https://www.ncalhc.org) and member of the North Central Association (312.263.0456)
- Program in Nuclear Medicine Technology is accredited by the Joint Review Committee of Educational Programs in Nuclear Medicine Technology through affiliated hospitals
- Program in Clinical Laboratory Science is accredited by the National Accrediting Agency for Clinical Laboratory Sciences through affiliated hospitals

State Authorization

State Authorization of Distance Education

The growth of distance education programs in recent years has brought with it greater opportunities for students as well as, unfortunately, some abuses of students which have resulted in high student debt loads and an increase in student loan defaults. As a result, the US Department of Education released in 2010 “Program Integrity Rules” (34 C.F.R. § 600.9) which require that an institution offering educational programming across state lines seek authorization in that other state first. Failing to obtain this authorization (or exemption in some cases) can result in the loss of Title IV (student loans and grants) funds for the educational institution offering the programming. Additionally, the institution offering the programming must have clear procedures and information regarding the way a student might make a complaint about the institution. These initiatives are efforts by the US Department of Education to protect its Title IV investments in the American postsecondary educational system.

File a Complaint

To file a complaint against the University of Wisconsin-La Crosse directly, students may learn about the UW System Complaint Process (http://www.uwlax.edu/finaid/UW-System-Complaint-Process) for resolving complaints and download the form (http://www.wisconsin.edu/vpacad/PIR/ComplaintForm.htm) from the Financial Aid Office’s website.

State Authorization Resources

The University of Wisconsin – La Crosse maintains an up-to-date document where students can check the status of our authorizations in other states (https://docs.google.com/document/d/1PTkq4NoftJf2WEsL0kSwJnWMDM0Zk3c04NuAf0h1ww/edit?usp=sharing).

Additionally, UW-La Crosse provides the following list of agencies where students can file a complaint (http://wcet.wiche.edu/advance/state-approval-complaint) against the university, as required in the Program Integrity Rules.

For the student’s convenience, the list of states in which the University of Wisconsin – La Crosse is officially exempted from authorization or in which it is authorized to offer educational programming is duplicated below.

¹ MINN. STAT. 136A.67: A school which is duly registered with the office, or any of its officials or employees may represent in advertisements and shall disclose in catalogues, applications, and enrollment materials that the school registered with the office by prominently displaying the following statement: “The University of Wisconsin – La Crosse is registered as a public institution with the Minnesota Office of Higher Education pursuant to Minnesota Statutes, sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.”

² TEXAS DISCLAIMER: The University of Wisconsin-La Crosse is not regulated in Texas under Chapter 132 of the Texas Education Code, as it is located in the State of Wisconsin and authorized by Chapter 36 of the Wisconsin Statutes (http://docs.legis.wisconsin.gov/statutes/statutes/36) as well as accredited by the Higher Learning Commission (http://www.ncahlc.org/component/com_directory/Itemid/form_submitted,TRUE/institution,la%20crosse/showquery/state,ANY/submit,Search).

Administration and Board of Regents

University of Wisconsin-La Crosse administration

As of July 1, 2015:

Office of the Chancellor
• Chancellor - Joe Gow
• Director of Affirmative Action – Nizam Arain

Division of Academic Affairs
• Provost & Vice Chancellor, Academic Affairs – Betsy Morgan, Interim
• Associate Vice Chancellor, Academic Affairs – Sandy Grunwald, Interim
• Associate Vice Chancellor, Enrollment Management – Fred Pierce
• Director of School of Education – Marcie Wycoff-Horn
• Director of Murphy Library - Catherine Lavallée-Welch
• Faculty Assistant to the Provost - Aaron Monte

College of Business Administration
• Dean – Laura Milner
• Associate Dean – Glenn Knowles, Interim

College of Liberal Studies/School of Arts and Communication
• Dean – Julia Johnson
• Associate Dean – Charles Martin-Stanley

College of Science and Health
• Dean – Bruce Riley
• Associate Dean – Ray Abhold

Division of Student Affairs
• Vice Chancellor, Student Affairs – Paula Knudson
• Associate Dean for Campus Climate & Diversity – Barbara Stewart

Division of Administration and Finance
• Vice Chancellor, Administration and Finance – Bob Hetzel
• Assistant Vice Chancellor, CIO – Mohamed Elhindi
• Assistant Vice Chancellor, Financial Services - Mark Reeves
• Exec. Director of Facilities Planning and Management - Doug Pearson
• Director of Human Resources - Madeline Holzem
• Interim Director of Police Services - Scott McCullough
• Office of Internal Audit - Carol Christnovich
Division of University Advancement
• Vice Chancellor, University Advancement - Greg Reichert

University of Wisconsin System Board of Regents
The University of Wisconsin-La Crosse is governed by the Board of Regents of the University of Wisconsin System. The Board of Regents as of July 2015:

• Regina Millner, Madison, President
• John R. Behling, Eau Claire, Vice President
• Mark J. Bradley, Wausau
• José Delgado, Brookfield
• Tony Evers, Madison
• Margaret Farrow, Pewaukee
• Michael M. Grebe, Milwaukee
• Eve Hall, New Berlin
• Nicolas Harsy, Madison
• Tim Higgins, Appleton
• James Langnes III, Lake Geneva
• Edmund Manydeeds, Eau Claire
• Janice Mueller, Madison
• Drew Petersen, Madison
• Charles Pruitt, Milwaukee
• José Vásquez, Wauwatosa
• Gerald Whitburn, Wausau

University of Wisconsin System administration
• Ray Cross, President
• David Ward, Interim Senior Vice President, Academic Affairs and Student Affairs
• David Miller, Senior Vice President Administration and Fiscal Affairs

University Academic Calendar
The academic calendar is based on semesters. Semester I (September through mid-December) and Semester II (January through mid-May) each contains 14 weeks of instruction plus one week of final exams. The standard class period is 55 minutes. Numerous workshops and special courses are offered throughout the year and may meet in an abbreviated time frame. Grades can be posted after a course has ended; however, official grade point averages are updated at the end of the term only.

There are two additional terms, winter intersession and summer. Winter intersession provides an intensive three-week term in January. The summer term consists of three four-week sessions, beginning in late May and ending in mid-August. The university provides many courses ranging from general education offerings to specialized courses for majors. There also are undergraduate and graduate level certification and update courses for school professionals and others. Undergraduate degree seeking students are encouraged to use the summer session to work out irregularities in their programs, to add courses beyond minimum requirements and to make up deficiencies. Complete graduate programs are available for those who wish to attend in summers only. A select number of programs require year-round attendance.

Academic Calendar (http://www.uwlax.edu/Records/Dates-and-deadlines)
Majors, minors, and programs

Browse the full list of majors, minors, and graduate programs (http://www.uwlax.edu/templates/uwlax2column.aspx?pageid=3997&id=2818) or view the list related to a particular college/school:

Admissions

Admissions office

Building address: Cleary Alumni & Friends Center, 615 East Ave N, La Crosse, WI 54601
Mailing address: Admissions Office, 1725 State Street, La Crosse, WI 54601
608.785.8939
admissions@uw lax.edu
www.uwlax.edu/admissions

No person will be denied admission to the university or to any of its programs or activities (either academic or non-academic, curricular or extracurricular) because of gender, race, color, creed, religion, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital or parental status, or relationship to employees of this university.

Visiting the campus

The Admissions Office (http://www.uwlax.edu/Admissions) provides several visit opportunities including campus tours, Group Information Sessions, Campus Close-Ups, and individual appointments for prospective first year, transfer, and graduate students.

Tours of the campus are conducted Monday through Friday at 11 a.m. and 2:15 p.m. when school is in session. Summer term tours are at 11 a.m. only. All scheduled tours originate from the Admissions Office in the Cleary Center.

Group Information Sessions are one-hour presentations by an admissions counselor designed to provide an overview of UW-L and the first year admissions process. These sessions are followed by a one-hour walking tour of campus, led by a member of the Vanguard organization. Group Information Sessions are available on selected dates during the fall and spring semesters and daily in July and August.

Campus Close-Ups are held six times during the academic year. Campus Close-Ups provide prospective first years and families the opportunity to learn more about UW-La Crosse, including our academic programs, financial aid, and the admissions process. Members of the Vanguard organization lead a panel discussion about campus life, and the day concludes with a one-hour walking tour of campus led by a current student. The only cost for attending Campus Close-Up is lunch. The program begins at 9:30 a.m. and concludes at 3:15 p.m.

Individual appointments with admissions counselors are available from September through June and are designed for prospective first year students who are unable to attend a Group Information Session or a Campus Close-Up.

Individual appointments with a transfer admissions counselor are recommended for transfer students who have not yet applied for admission. The appointment will include information about the application process and admission guidelines. Please note: Admitted transfer students who have questions regarding registration and academic advising are encouraged to contact the dean’s office of the college to which they are assigned.

For more visit information, please explore the Visit Us (http://www.uwlax.edu/Admissions/Visit-us) section of the Admissions website. If you have questions, please email admissions@uw lax.edu or call the Admissions Office at 608.785.8939.

Admissions Policies: First Year Students

Applications (https://apply.wisconsin.edu) for admission must be submitted electronically.

Applications for the fall semester are accepted beginning September 15 of the previous year. All complete applications received by February 1 will receive full consideration for admission. After February 1, applications will be considered on a space-available basis. Applications for spring semester are accepted beginning September 1 of the fall preceding that term.

To be considered for admission, individuals must submit the following items to the Admissions Office, UW-La Crosse, Cleary Center, 1725 State Street, La Crosse, WI 54601 USA:

1. Completed UW System application (https://apply.wisconsin.edu)
2. Official high school transcript
3. Non-refundable application fee
4. Official ACT or SAT scores sent directly from ACT/SAT

First year admission requirements

Applicants for admission as new first year students must satisfy the following minimum requirements to be considered:

1. Graduation from a recognized high school or the equivalent.
   a. A recognized high school is
      i. Accredited by a regional accrediting association or state university
      ii. Recognized or accredited by a state department of public instruction or its equivalent
   b. An applicant who has not graduated from a recognized high school must provide evidence of satisfactory completion of the requirements for a high school equivalency certificate or a diploma from a recognized high school, school system, or state department of public instruction based on the GED examination, the Wisconsin High School Equivalency Diploma, or other established criteria. Applicants from alternative educational backgrounds, including home-schooled students, should contact the Admissions Office for specific information. Additional documents, testing, and a personal interview may be required.

2. Completion of the following 17 high school credits is minimal preparation and is required for admission consideration. Applicants are strongly recommended to take advanced courses beyond the required 17 high school credits. Students admitted on the basis of a high school equivalency diploma are considered to have fulfilled these minimum subject matter requirements.
   a. Four credits of English.
   b. Three credits of mathematics, specifically algebra, advanced algebra, and geometry.
   c. Three credits of natural science with two credits from biology, chemistry, physics, earth science, or advanced courses in these disciplines. (Integrated Science I and II courses will be counted on a one-for-one basis.)
   d. Three credits of social science (i.e., anthropology, economics, history [U.S. or world], political science [civics/government], psychology, or sociology).
   e. Four academic credits from the above and/or in the fine arts, computer science, foreign language, or other academic areas.

   ii Recognized or accredited by a state department of public instruction or its equivalent
   iii. Accredited by a regional accrediting association or state university

   i Accredited by a regional accrediting association or state university

   iii. Accredited by a regional accrediting association or state university

   i Accredited by a regional accrediting association or state university

   ii. Recognized or accredited by a state department of public instruction or its equivalent
Wisconsin high school juniors and seniors may attend post secondary institutions and the school districts may be responsible for tuition and fees for the course(s) if a student has exhausted all high school course work in the educational disciplines for which they plan to enroll.

The Course Options (2013 Wisconsin Act 20) Program stipulates that qualified Wisconsin high school students enrolled in a public school district may attend post secondary institutions and the school districts may be responsible for tuition and fees for the course(s).

Registration for courses as a high school student is subject to course, program, and institutional enrollment limits.

Admission requirements for concurrent high school/UW-L enrollment

1. High school seniors must rank in the upper 25% of their high school class or score in the upper 10% on the ACT/SAT (26 or higher ACT composite score or SAT of 1190 in Critical Reading + Math). High school sophomores and juniors must rank in the upper 10% of their high school class. (Youth Options does not include sophomores.)

2. Completion of appropriate preparatory high school course work for college courses.

3. A personal interview may be required for sophomore candidates.

Application procedures for concurrent high school/UW-L enrollment

1. Submit a UW System application (https://apply.wisconsin.edu). Students apply as a "special non-degree" student. The application fee is not required.

3. Submit an official high school transcript and, if applicable, ACT/SAT scores.

The UW System application, High School/UW-La Crosse Enrollment information sheet, high school transcript, and, if applicable, ACT or SAT scores should be mailed to the Admissions Office, UW-La Crosse, Cleary Center, 1725 State Street, La Crosse, WI 54601 USA.

Credit by examination and retroactive credit

Students may earn university credit through a variety of options. For specific information, admitted students should contact the Admissions Office and continuing students should contact the college or school in which they are enrolled.

The five options are:

1. Advanced Placement Program: Students who have participated in the College Board Advanced Placement program (AP) in high school and have received scores of 3, 4, or 5 will receive academic credit. Transcripts of your AP scores must be submitted directly from the College Board to the Admissions Office for evaluation to determine how academic credit will be awarded.

2. College Level Entrance Program: The College Level Entrance Program (CLEP) is a national program administered through the College Board. UW-La Crosse follows the American Council on Education (ACE) guidelines and recommendations for minimum scores for awarding credit in all subject examinations.
Transcripts must be submitted directly from the College Board to the Admissions Office.

3. Departmental Credit by Exam: Each department will have on file an examination for each course the department determines to be introductory, including courses applicable to the skills component of the General Education Program.

4. Retroactive Credit: Three departments (Computer Science (http://www.cs.uwlax.edu), Modern Languages (http://www.uwlax.edu/Modern-Languages/Advising), and Mathematics (http://www.uwlax.edu/Mathematics/AP-and-retroactive-credit)) offer retroactive credit for previous course work.

5. International Baccalaureate: Credit will be granted for “Higher Level” examinations with a score of 4 or greater. Transcripts must be submitted directly from IB to the Admissions Office.

See the Admissions Office for more information on specific types of credit by examination and retroactive credit (http://www.uwlax.edu/Admissions/AP/IB/CLEP-credit/#anchorDept). Some departments include more information on their department pages in regard to their own policy and procedures.

UW-L has specific academic policies regarding how credit by examination and retroactive credit is earned and recorded on a student’s transcript. For the full university policy (p. 33), see the academic polices section.

Admissions Policies: Transfer Students and Transfer Credits

Application procedures/requirements

Applications (https://apply.wisconsin.edu) for admission are to be sent electronically. The university will begin accepting transfer applications on January 1 for the summer term or fall semester and will continue until closed. The university will begin accepting transfer applications on September 1 for the winter term or spring semester and will continue until closed. To be considered for admission, a student must submit the following items to the Admissions Office, UW-La Crosse, Cleary Center, 1725 State Street, La Crosse, WI 54601 USA:

1. A completed UW System application (https://apply.wisconsin.edu)
2. An official high school transcript if student has earned less than 60 transferable semester credits
3. All official college transcripts (transcripts must be mailed directly from the institution(s) attended to the UW-La Crosse Admissions Office)
4. A list of courses in progress, if currently enrolled, with course numbers, titles, and the number of credits for each course
5. A non-refundable application fee is required for anyone applying as a transfer student. If the student’s last institution attended is one of the two-year University of Wisconsin Colleges, the student does not need to pay the application fee.
6. ACT/SAT scores (not generally required if applicant has completed a minimum of 18 transferable credits)

Admission guidelines

All applications receive a comprehensive review. Students with at least a 2.50 cumulative grade point average in all previous college level work will be considered stronger candidates for admission. Students with a cumulative grade point average between 2.0 and 2.49 will be considered for admission on a space available basis. In addition to grade point guidelines, students must be in good standing at their previous institution to be admitted to UW-L. Students who were not admissible as new first years must earn at least 18 transferable semester credits to be considered for admission as a transfer student.

Due to enrollment limitations and the competitive nature of admission to the university, admission consideration will be primarily based on academic preparation. While academic preparation is the primary criterion used in the admissions review process, other non-academic secondary factors may contribute to the strength of an application. These may include qualities such as demonstrated leadership, extracurricular involvement, special talent, personal statement, recommendations, and/or adding a diverse dimension to our campus community.

Admission to the university does not assure admission to specific degree programs. All transfer students must meet the same criteria (i.e., grade point average, course requirements, etc.) for admission to specific majors or programs as continuing students.

Academic advising and registration

After being admitted to the university, transfer students are required to submit a $100 enrollment deposit. After the enrollment deposit is received, the Admissions Office will evaluate the courses taken to determine the number of credits that will be granted in transfer. This will be used to determine classification as first year, sophomore, junior, or senior. Information will be sent regarding web registration and academic advising in January for those students admitted to the summer term, in April for those students admitted to the fall semester and in November for those students admitted to the winter term or spring semester. In preparing to register, transfer students are encouraged to contact the academic advisor/assistant to the dean for the assigned college or school. College or school assignments are noted in the letter of admission. In the process of academic advising, should a student disagree with how a course(s) transfers or how a course(s) applies toward a program of study, a formal appeals process is available. Consult with the assistant to the dean of the college or school in which the student is enrolled. If the student is undecided about a major, the student may talk to an advisor in the Academic Advising Center.

Transfer credit policies

Credits considered for transfer to UW-L must have been earned at regionally accredited institutions, e.g., Higher Learning Commission/North Central Association. Transfer credit is allowed for appropriate college-level courses completed at four-year colleges and universities as well as from two-year colleges and vocational/technical schools with accredited college parallel programs. Credits in vocational/technical programs other than college parallel programs will not transfer to this university. (See WTCS transfer policy.) Military service school credit may be granted in transfer based upon recommendations of the American Council on Education. Credits also may be transferred from examination programs such as the Advanced Placement Program (AP), the College Level Entrance Program (CLEP), or the International Baccalaureate program (IB).

The UW System maintains a Transfer Information System (TIS) website. The site provides information about credit transfer and academic program requirements. TIS is designed to give prospective transfer students current information about transferring, including how UW System and Wisconsin Technical College System (WTCS) courses will transfer to any institution in the UW System, and which courses to take at the student’s current institution to fulfill specific requirements at the intended transfer campus.

When credits are transferred and accepted, they are recorded in terms of UW-L courses. The student’s record shows courses, grades, and credits; however, only credits are used. Grades and/or grade points are
not generally transferred. Exceptions to this policy are necessary for admission into certain programs/majors. The cumulative grade point average of each UW-L student is determined only by credits and grades earned in residence at the university.

If a student is currently enrolled at UW-L and intends to take course work elsewhere either in a summer term or during an academic year, the student must secure approval in advance of enrollment at other institutions for course work to be taken for transfer to this university. The student should see the assistant to the dean in the dean’s office of the school/college in which he or she is enrolled and complete an “Off-Campus Permit” form, which is used to secure approval to transfer credits from other institutions.

Transfer of "D" credits
A course in which a grade of "D" was earned and accepted by this university may be applied to general education and/or core requirements but will be subject to re-evaluation at a later date if the student chooses to major or minor in the subject area or discipline in which the "D" grade was earned.

Transcripts from transfer students
UW-L accepts transcripts sent directly from the issuing institution(s) or through an electronic secure document sending service. Transcripts that are marked "Issued to Student" or that are hand delivered by a student will not be accepted unless the transcript remains sealed in the original stamped envelope from the issuing institution(s).

Two-year/four-year transfer policy
Usually general education requirements will be satisfied by students who have completed associate degrees in college parallel programs at accredited four-year institutions, two-year collegiate transfer programs from two-year institutions, community colleges, or junior colleges. Students admitted with an associate degree are still required to meet all core, professional, ethnic studies, major, and minor requirements. The university reserves the right to review the student’s associate degree and require additional general education courses. The maximum number of credits transferable from a two-year institution is 72.

Guaranteed transfer program for UW college students
UW College (two-year campuses) students who intend to pursue their education at the University of Wisconsin-La Crosse will be guaranteed admission providing they meet the following criteria:

1. Submit a UW System application to the UW-L Admissions Office during the first month of the semester prior to the semester of intended enrollment.
2. Be in good standing and have completed an associate degree or 60 credits at any UW College with a minimum 2.00 cumulative grade point average.

All general education requirements will be satisfied by students who have completed associate degrees. Students accepted under this two-year transfer policy are required to meet all core, professional, ethnic studies, major, and minor requirements. Admission to the institution does not assure admission to specific degree programs. UW College students must meet the same criteria (i.e., grade point average, course requirements, etc.) for admission to specific majors or programs as continuing UW-L students.

Wisconsin Technical College System (WTCS) transfer policy
The UW System undergraduate transfer policy allows the university to transfer up to 72 general education credits in communications, behavioral sciences and social sciences, mathematics, and natural sciences from WTCS non-college parallel associate degree programs. In certain cases where the WTCS credit is not acceptable for transfer, students will have an opportunity to earn credit by examination if the academic department offers an appropriate exam. Program-to-program agreements with the Wisconsin Technical College System allow students to transfer additional credits with or without the associate degree. Currently there are agreements in the following disciplines: business and information systems, nuclear medicine technology, computer engineering technology, visual communications, early childhood education, recreation management, and radiation therapy. Most of these agreements are with Western Technical College (WTC). UW-L and WTC also have an articulation agreement for a liberal arts degree. For details, contact the UW-L Admissions Office.

Program-to-program agreements
In addition to the Wisconsin Technical College System program-to-program agreements, other agreements have been established with Lac Courte Oreilles Ojibwa Community College; College of St. Catherine; Lake Superior College; Northeast Iowa Community College; Carthage College; University of Minnesota; UW-Madison; UW-Platteville; UW-Milwaukee; Guangxi Normal University, South Central University of Nationalities, and Wuhan University, China; University of Caen, France; and University of Applied Sciences, Germany. For details, contact the UW-L Admissions Office.

Admissions Policies: International Students
International applicants seeking undergraduate admission to UW-L should follow the instructions below.

Application and fee: Applicants must complete the UW System online application (https://apply.wisconsin.edu) and pay the undergraduate application fee.

Academic records: Official copies of academic records from all previous secondary school and post-secondary institutions, whether or not the program was completed, are required. Academic records issued in languages other than English must be accompanied by literal English translations.

- Transfer students: Course descriptions from all university-level courses are required. If detailed course descriptions are not provided, transfer credit will not be awarded. English language courses are not transferable to UW-La Crosse, as they are not offered at university-level in the United States.
- A WES (www.wes.org) or ECE (www.ece.org) course-by-course evaluation is recommended along with applicant’s official transcripts to provide the fastest review of the application.

1 For spring 2016 applicants and onward, a WES or ECE course-by-course evaluation is required along with applicant’s official transcripts.
Proof of English language proficiency: Applicants for undergraduate study must meet one of the following for admission:

- Official TOEFL score of at least 73 iBT or 550 pBT - Institution Code: 1914.2
- Official IELTS score of at least 6.0 with at least 5.5 in all subscores.2

Undergraduate applicants who do not have the required English proficiency may be considered for conditional admission. Students who are conditionally admitted are required to enroll in the English as a Second Language Institute (ESL) (http://www.uwlax.edu/english-as-a-second-language). Conditionally admitted students must complete the ESL program or submit sufficient TOEFL or IELTS scores before they will be allowed to enroll in an academic program.

2 TOEFL and IELTS scores cannot be more than two years old.

Proof of funding: Bank statement with affidavit of support is required for students who are requesting an F-1 visa. Funding must be equal or greater than International Education & Engagement’s estimated costs (http://www.uwlax.edu/International-Education/Tuition-and-expenses) for undergraduate study for one year (two semesters). Students who require F-2 visas for dependents (spouse and/or children) must submit additional proof of funding.

Passport copy: Submit a photocopy of the biographical data in the applicant’s passport. If the applicant is admitted to a program, this will ensure that immigration documents are issued accurately.

Application materials can be sent to:
Admissions Office
143 Cleary Center
University of Wisconsin-La Crosse
1725 State Street
La Crosse, WI 54601
USA

For more information on international student admissions, visit the Admissions Office (http://www.uwlax.edu/Admissions/International-student).

Admissions Policies: Special Non-Degree Students

Students desiring to audit or take selected courses for credit, but who do not expect to earn a degree at this university, may enroll as special non-degree students. Applications (https://apply.wisconsin.edu) for admission are to be sent electronically. Complete transcripts of high school and college records need not be submitted; however, in some circumstances to determine eligibility for admission, the Admissions Office may request that the student submit academic records. A high school diploma or its equivalent is required. Students may be admitted to undergraduate status on a degree basis at a later date provided they submit an application as a degree seeking student, send complete transcripts of previous work, and meet admission requirements.

After admission as a degree seeking student, course work as a special non-degree student will be evaluated. Credit may be granted for courses completed during the initial period of special status, although there is no assurance that work as a special student will be credited toward degree completion. If regular undergraduate status is achieved by following this procedure, no student will be allowed to revert to a special non-degree status to avoid conforming to any prescribed course of study.

Students disqualified for entrance or continuance at another collegiate institution are not eligible to enroll as special non-degree students at the University of Wisconsin-La Crosse.

Students who already have a college degree and desire to undertake further study to earn a second undergraduate major, to qualify for teaching certification, or to remove deficiencies must complete the UW System application (https://apply.wisconsin.edu) and submit one official transcript of all previous college work.

Information regarding undergraduate enrollment in graduate courses (p. 36) may be found within the “Academic Policies” section.

Admissions Policies: Second Degree Students

A student who holds a bachelor’s degree may be admitted to the university to earn a second bachelor’s degree. Students must complete the UW System application (https://apply.wisconsin.edu) and have one official transcript sent from each university attended. Students will need to consult with the dean’s office for the college to which they are assigned (see letter of admission) to determine which courses are needed to earn a second undergraduate degree. Details covering the requirements for a second bachelor’s degree may be found in the degree requirements (p. 57) section of the catalog.

Admissions Policies: Re-Entry and Re-admission

Re-entry

If a student voluntarily interrupts university work while in good academic standing, that student may be granted re-entry status by submitting an online application (https://apply.wisconsin.edu) to the Records and Registration Office if the re-entry enrollment target has not been reached already. Due to enrollment limits, it is possible not all students who apply for re-entry will be accepted. It is advantageous to apply early in order to be approved to register as soon as possible. If a student has been out of school voluntarily for a year or more, or involuntarily for any amount of time, the student will be subject to the requirements of the catalog in effect upon return. If the student has been gone voluntarily for one semester, the student remains under the “old” catalog. Students granted re-entry status who were on scholastic probation or other conditional status at the time of last attendance at UW-L retain such status as a condition of re-entry.

If a student has attended another institution(s) after leaving UW-L, official transcripts of that academic record(s) should be mailed directly from the issuing institution(s) or sent through an electronic secure document sending service to the Records and Registration Office at the time he or she applies for re-entry. Transcripts that are marked “Issued to Student” or that are hand delivered by a student will not be accepted unless the transcript remains sealed in the original stamped envelope from the issuing institution(s).

Eligibility for re-entry is based upon previous work at this university and any others attended since leaving UW-L. A student must be eligible to return to the institution last attended. Re-entry transfers must meet the same GPA requirements for admission as other transfer students.
Re-admission after dismissal for ineligibility

If a student desires re-admission after having been declared ineligible to continue for scholastic (p. 28) or other reasons, the student must first apply to the dean of the UW-L school or college in which that student were last enrolled, and then submit an online application (https://apply.wisconsin.edu) for admission.

Students declared ineligible to continue must follow catalog requirements in effect at the time of re-admission. It is advantageous to apply for re-admission early in order to facilitate registration in a timely manner. The appropriate dean will apprise the Records and Registration Office of the student’s eligibility for re-admission. During times of controlled or limited enrollment, preference will be given to students re-entering in good standing.
Expenses, financial aid & scholarships

Paying for tuition is a significant concern for most students, and the university continually strives to provide options for those who may be struggling or who have questions. The following offices or groups are available to help students overcome the challenge of paying for college.

(Links in the following list go to the office’s outside website. Links in the site map below go to the topic’s catalog page.)

- Financial Aid Office (http://www.uwlax.edu/finaid)
- UW-L Foundation (http://www.foundation.uwlax.edu)
- It MakeS Cents! (http://www.uwlax.edu/It-Makes-Cents/IMC!-Home)
- Veterans Educational Benefits Office (http://www.uwlax.edu/veteran-services)
- Cashier’s Office (http://www.uwlax.edu/cashiers)

In addition to the contacts above, this catalog provides information about the expenses incurred at the university followed by some specific options on how to pay for the cost. This section aims to provide students with an overview of fees and billing, financial aid options, scholarship possibilities, and educational benefits for veterans.

Expenses

- Tuition and fees (p. 22)
- Electronic billing (p. 22)
- Installment billing (p. 22)
- Excess credit policy (p. 22)
- Segregated fees (p. 23)
- Textbooks (p. 23)
- Health service (p. 23)
- Residence halls (p. 23)
- UW-L dining services (p. 23)

Financial aid & scholarships

- Eligibility requirements (p. 23)
- Application procedures (p. 23)
- Notification dates (p. 24)
- Financial aid programs (p. 24)
- Satisfactory academic progress policy (p. 25)
- Evaluation process (p. 25)
- Appeal process (p. 26)
- Additional information about financial aid (p. 26)
- Scholarships, awards, and short term loans (p. 26)
- The University of Wisconsin-La Crosse Foundation, Inc. (p. 26)

Veteran benefits

- Veteran educational benefits (p. 26)
- Priority registration for veterans (p. 27)

Undergraduate Expenses

- Tuition and fees (p. 22)
- Electronic billing (p. 22)
- Installment billing (p. 22)

Tuition and Fees

The university establishes a tuition and fee schedule for each academic year. The tuition and fees for each term are published by the Cashier’s Office (http://www.uwlax.edu/cashiers/tuitionfeeschedule.htm). If there are questions about charges on a student’s WINGS account, contact the Cashier’s Office, 121 Graff Main Hall. The Board of Regents reserves the right to change tuition and fees without published notice. New students (including transfers) are required to pay a non-refundable (enrollment) tuition deposit before registering for classes.

Electronic billing

Billing reminders are sent via email to the student’s campus email address. Billing information is confidential. By law, the university cannot release this information to anyone other than the student. It is the responsibility of the student to check campus email and to make sure that the bill is routed to the proper individual for making payment.

Current billing information can also be found in the Cashier’s Office (http://www.uwlax.edu/cashiers) or, for current students, using their WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) Student Center. A student ID# and PIN are required to access the WINGS electronic bill. Because this PIN allows access to other confidential information, such as grades and schedules, it is the student’s decision as to whether or not to share the PIN with other individuals. Payment can be made electronically through the WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) Student Center.

Installment billing

Semester charges for tuition, room, and board are due no later than the posted due date. A student may elect to either pay the bill in full without interest by the billing due date or pay a portion of the balance due and be billed one month later for the remainder plus interest. All outstanding balances must be paid in full before a student will be allowed to register for future terms.

Excess credit policy

Wisconsin resident undergraduate students who have earned 165 credits or 30 credits more than required for their degree programs, whichever is greater, are charged a surcharge equal to 100% of the regular resident tuition on credits beyond that level. The policy covers all Wisconsin resident undergraduate students pursuing their first bachelor’s degree, including students pursuing a double major. Minnesota residents and non-residents graduate, post-baccalaureate, and non-degree students are exempt. All credits earned at UW-System campuses and Wisconsin Technical College System (WTCS) transfer credits accepted toward a degree are counted in the total. Retroactive, AP, military, and other college transfer credits do not count. The surcharge is applied to students in the semester following the one in which they reach the earned credit limit. Once it has been levied, a student has the right to appeal the surcharge to the assistant controller.
Segregated fees

The semester bill includes instructional fees (tuition) and segregated fees. The tuition charge is established by the Board of Regents, and the fees are determined by the student government with the support of campus administration. The fees fund student services including the Health Center, textbook rental, student centers, the childcare center, and activities such as athletics, intramurals, and other organized activities.

Textbooks

Undergraduate course textbooks are available on a rental basis through the Textbook Rental Service (http://www.uwlax.edu/textbookrental). Textbook rental, for undergraduates, is included in the semester segregated fee. Undergraduates may purchase rental textbook titles through the University Bookstore on a special order basis. Students enrolled in graduate courses are expected to purchase their textbooks, which are available through the University Bookstore (http://www.uwlax.edu/Bookstore).

Health service

If a student meets student health service requirements and pay the segregated fee at registration, the student is eligible to receive outpatient care, physical therapy, radiography, and laboratory service in the Health Center. Students carrying seven credits or more are automatically charged the segregated fee. Students carrying less than seven credits may choose to pay a health service fee. A description of health care facilities and medical requirements for entering students can be found in the Student Health Center (http://www.uwlax.edu/StudentHealth).

The following services are not provided: medicines, eye refraction, care of families of married students, medical and surgical consultation outside of the Health Center, ambulance service, emergency room visits, hospitalization, house calls or after hours visits, dental visits, premarital examinations, pregnancy care, infertility studies, sterilization procedures, or abortion.

Students should check their current insurance policies to make sure they have adequate coverage for services not provided by the Health Center. If a student does not have health insurance coverage, the student may enroll in a student group insurance plan. If the student’s current policy will expire during the school year, the student should plan to purchase student group insurance at the beginning of the semester in which existing coverage will cease.

Residence halls

According to the Board of Regents policy, first years and sophomores who are not veterans, married students, or students residing in their parent’s or guardian’s home must live in a university-operated residence hall when accommodations are available. Requests for exceptions to this policy must be made in writing to the Director of Residence Life.

Once a student has been accepted and paid the registration fee, the student will be sent directions about the online sign-up process. The student will be directed to pay a housing deposit and then complete the online housing application. Residence hall facilities, regulations, and programs are described on the Residence Life (p. 46) page.

UW-L dining services

All students living in traditional residence halls must purchase one of the traditional Basic or Plus Meal Plans and are not eligible to be on any block plans. Students on the Basic Plan can choose to have 14 or 19 meals per week. The Plus Plan offers a choice of 14 or 19 meals per week and 30 Block meals for the semester. Students living in Reuter Hall may purchase a Reuter Block Plan or choose to be on one of the traditional meal plans. The student will be given an opportunity to select a meal plan (http://www.uwlax.edu/University-Centers/Meal-plans) that best fits the student’s eating preferences. Should a student find that meal plan needs are different than the student anticipated, the student may request changes during the first two weeks of school. Students may change their meal plan at the end of the semester by visiting the Meal Plan/TowerOne Card Office, 223 Cartwright Center.

Contract board service is provided in Whitney Center. Catering and other dining areas are available in Cartwright Center for commuters as well as resident students. Dining service (http://uwlaxdining.com) is available only when the university is in session. Limited dining options are available during winter intersession and summer term. Further information may be obtained from the Meal Plan/TowerOne Card Office, 223 Cartwright Center.

Undergraduate Financial Aid and Scholarships

- Eligibility requirements (p. 23)
- Application procedures (p. 23)
- Notification dates (p. 24)
- Financial aid programs (p. 24)
- Satisfactory academic progress policy (p. 25)
- Evaluation process (p. 25)
- Appeal process (p. 26)
- Additional information about financial aid (p. 26)
- Scholarships, awards, and short term loans (p. 26)
- The University of Wisconsin-La Crosse Foundation, Inc. (p. 26)

Eligibility requirements

Most financial aid programs are based on financial need. This is demonstrated by applying a federal need analysis formula to the student and family financial information provided on the Free Application for Federal Student Aid (FAFSA). Exceptions to the financial need requirement include the Wisconsin Academic Excellence scholarship, Counselor’s Choice scholarships, Return to Wisconsin scholarships, some UW-L Foundation scholarships, Federal Unsubsidized loans, and Federal Parent PLUS loans.

Admission to the university is a prerequisite to consideration for financial aid. Special non-degree students are not eligible for aid unless they are working toward an approved license or certificate.

Students must demonstrate satisfactory academic progress (p. 25) in order to receive aid. Several other federal and state requirements need to be met in order to receive financial aid. These include proper citizenship status, registration with the Selective Service System, and not being in default on any federal student loan.

Unless previously negotiated, all aid awards are based on full-time student status. Students carrying less than a full-time load will have their aid reduced accordingly.

Application procedures

All financial aid applicants must file the Free Application for Federal Student Aid (http://www.fafsa.gov) (FAFSA). File the FAFSA by March 15 for priority consideration, although applications are accepted throughout the academic year. A paper version of the FAFSA is available by calling...
1.800.433.3243 or selecting "FAFSA: Apply for Aid" at Federal Student Aid (http://studentaid.ed.gov/fafsa).

Students whose application is selected for verification by the United States Department of Education or the Financial Aid Office will be required to submit student and parent federal income tax return transcripts (copies of tax returns do not meet this requirement) to the Financial Aid Office. Other documents may also be required.

Notification dates

Students who complete their application by the March 15 priority date can usually expect to receive a financial aid offer by July 15. Students who complete their application after March 15 will receive a financial aid offer as soon as possible after July 15. Applications received after June 1 may not be processed in time for students to receive their aid by the start of the fall semester. These students should be prepared to pay their initial expenses from their own resources.

Financial aid programs

FEDERAL PELL GRANT: These need-based grants are available to qualified undergraduate students.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT: These need-based grants are available to qualified undergraduate students.

WISCONSIN HIGHER EDUCATION GRANT: These need-based grants are available to qualified undergraduate students who are Wisconsin residents.

TALENT INCENTIVE PROGRAM GRANT: These need-based grants are available to qualified undergraduate students who are Wisconsin residents and demonstrate exceptional financial need.

FUND FOR WISCONSIN SCHOLARS: These need-based grants are available to select group of qualified lower income undergraduate students who are recent graduates of Wisconsin public high schools.

RETURN TO WISCONSIN SCHOLARSHIPS: These scholarships provide a 25% discount of non-resident tuition to children and grandchildren of UW-L graduates.

NON-RESIDENT FEE WAIVERS: These need-based grants are available to residents of states other than Wisconsin and Minnesota.

WISCONSIN GI BILL TUITION WAIVER: This program is available to eligible veterans who entered active duty as a Wisconsin resident, or a spouse or dependent of a deceased or disabled eligible veteran.

WISCONSIN STUDY ABROAD GRANT: These need-based grants are available to Wisconsin residents who study abroad through the UW-L Office of International Education.

WISCONSIN ACADEMIC EXCELLENCE SCHOLARSHIP: This program is available to top students at Wisconsin high schools. The program is administered by local school boards, the Wisconsin Department of Public Instruction, and the Wisconsin Higher Educational Aids Board.

LAWTON UNDERGRADUATE MINORITY RETENTION GRANT: These grants are available to statutorily defined ethnic minority sophomores, juniors, and seniors who are in good standing academically and are residents of Wisconsin or Minnesota.

NATIVE AMERICAN INDIAN GRANTS (FEDERAL/TRIBAL/ WISCONSIN): Native American students should file an application with their tribe.

FOREIGN STUDENT SCHOLARSHIPS: These partial non-resident fee waivers are available to qualified international students. International students should file an application with the Office of International Education.

ACADEMIC INITIATIVE AWARDS: These programs are student funded and offer funds to international students and students studying abroad. Students should file an application with the Office of International Education. Submission of a services plan does not necessarily guarantee that the student will receive an Academic Initiative Award.

FEDERAL SUBSIDIZED LOAN: This loan is available to students who demonstrate financial need. Students borrow from the Department of Education and the federal government pays the interest while the student is in school. Interest is at a fixed rate. Repayment begins six months after the student ceases to be at least a half-time student.

FEDERAL UNSUBSIDIZED LOAN: This loan does not require that the student demonstrate financial need as a result of filing the FAFSA. The terms are the same as the Federal Subsidized Loan except that the student is responsible for all interest charges from the date of disbursement of the loan forward. Interest is at a fixed rate that is determined each spring for the upcoming year.

FEDERAL PERKINS LOAN: This need-based loan is available to qualified students who demonstrate exceptional financial need. The loan is interest-free as long as the student is at least a half-time student. Repayment begins nine months after the student ceases half-time enrollment. Limited funding.

FEDERAL PARENT PLUS LOAN: Parents of dependent undergraduate students are eligible to borrow from the Department of Education under this program. Apply at the UW-L Financial Aid Office (http://www.uwlax.edu/finaid). Parents must be credit-worthy.

EMERGENCY SHORT TERM LOAN: These loans are available to students for emergency purposes only. The applicant must have completed at least one semester at UW-L, be in good academic standing, and be a full-time student. Apply at the UW-L Financial Aid Office (http://www.uwlax.edu/finaid).

FEDERAL WORK-STUDY PROGRAM: This need-based program provides on-campus and off-campus employment to qualified students. Students who do not qualify for Federal Work-Study can work on campus on the regular student help payroll. These students should apply at academic departments and administrative units. Students can also search for off-campus jobs in the private sector at the Financial Aid Office’s Job Board. Apply at the UW-L Financial Aid Office (http://www.uwlax.edu/finaid).

UW-L SCHOLARSHIPS: The UW-L Foundation awards several hundred scholarships each year to incoming first years and continuing students. For more information or an application, contact the UW-L scholarship coordinator at 608.785.8491 or visit UW-L Foundation (http://www.foundation.uwlax.edu/sch.html).

Satisfactory academic progress policy

Federal Law mandates that post secondary institutions participating in Federal Financial Aid Programs have in place and monitor an academic progress policy for financial aid. The components to the UW-La Crosse Satisfactory Academic Progress (SAP) Policy for financial aid are as follows: Grade point average (GPA), Pace (67% Rule), and Maximum Time Frame (150% Rule).

1. Grade Point Average (GPA):
   All undergraduate students receiving financial aid must maintain a 2.0 UW-L cumulative GPA, while graduate students receiving financial aid must maintain a UW-L cumulative GPA of 3.0. Note that this GPA requirement is different from the Retention, Probation and Suspension requirements listed in the Undergraduate catalog. Students receiving financial aid must follow both. Transfer credits are not included in the UW-L cumulative GPA calculation. Grades of W and P are not factored into this calculation once a cumulative GPA is established. Students enrolled in both undergraduate and graduate courses must meet the requirements of the degree seeking career, while students seeking a certificate will be required to follow the undergraduate GPA requirements.

2. Pace (67% Rule):
   All full-time and part-time undergraduate and graduate students at UW-La Crosse who receive financial aid must stay on pace to graduate on time. Pace is calculated by dividing the cumulative number of credits a student successfully completed by the cumulative number of credits they have attempted. (See note regarding completed and attempted credits). When this calculation falls below 67%, a student is no longer on pace to graduate on time. Transfer credits that count toward a student’s program are considered within this calculation as credits attempted and credits earned.

3. Maximum Time Frame (150% Rule):
   An eligible undergraduate, graduate, or second degree seeking student can receive Federal financial aid while attempting up to, but not exceeding, 150% of the published normal completion length of the student’s program, regardless of enrollment status. For example, a student seeking a degree which requires 120 credit hours could receive financial aid while attempting 180 credit hours (120 X 150% = 180). Credits transferred to UW-La Crosse, and any credits attempted at UW-L, with or without the benefit of student financial aid, must be taken into consideration. Financial aid will be suspended when our office determines that a student cannot mathematically complete their degree within this time frame.

Evaluation process

These components are evaluated every payment period (fall/spring/summer) after grades are posted. The first time that a student does not meet the GPA, Pace, or is approaching the Maximum Time Frame requirement, they will be notified via campus email that they are being automatically placed on Warning Status for one payment period. By the next evaluation, the student must be meeting all components of SAP to be placed back in good standing. If not, the student’s financial aid will be suspended, and they must complete an Appeal for Financial Aid Reinstatement and explain why they failed to meet SAP and what has changed that will allow them to meet SAP by the next evaluation.

All appeals must supply an academic plan showing when the student will be meeting all aspects of the SAP policy. If it will take more than one semester to be meeting the SAP policy, the academic plan must be signed by an academic advisor. Students with an undeclared major should meet with Academic Advising, and students with a declared major should meet with the dean of their college to create this plan. Whoever the student meets with must sign off on the academic plan. Templates are available at the Financial Aid Office (http://www.uwlax.edu/finaid). If the appeal is approved, the student is placed on Academic Plan Status for one payment period, after which, the student must be meeting SAP or be following their approved academic plan. If the student is not meeting SAP/following their approved academic plan at the next evaluation, they will be suspended again and could become ineligible to receive financial aid until they are in compliance.

Types of credit that might affect evaluation process:

- Credits Completed: The successful completion of a credit attempted is credit for which a grade of A, AB, B, BC, C, D, S, or P is received. The grade of “D” for a graduate student is not considered a successful completion of the credit(s) attempted.
- Attempted Credits: The grades of A, AB, B, BC, C, D, S, P, U, F, I, W, WP, WF, EP, EF, NA, and NR are considered credits attempted. Attempted credits are calculated after the 100% adjustment to tuition and fees period (typically the 10th day of classes).
- Any credit drop after the 100% adjustment to tuition and fees, without an equal number of credits being added the same date of the drop, or at a later date, will count as credit(s) attempted and credit(s) not earned. Credit drops affect the Pace and Maximum Time Frame components.
- Incompletes: Count as credit(s) attempted and credit(s) not earned until a passing grade is posted. It is the student’s responsibility to notify the Financial Aid Office of any change in grade using an Appeal for Financial Aid Reinstatement Form and attaching a copy of the student’s most recent, unofficial UW-L transcript. If the incomplete appeal results in the student being eligible for financial aid again, eligibility will be reinstated as of the date the appeal is approved. Lack of action from the student will cause the student’s new Pace and GPA to not be evaluated until the end of the payment period in which the incomplete grade was converted. Incompletes affect the Pace and Maximum Time Frame component.
- Remedial Credits: Counted as attempted credits as many times as the course is repeated. Repeating credits apply to GPA, Pace, and Maximum Time Frame Components. Please note that this is different from UW-L’s course repeat policy (p. 30).
- Test Credits: Counted in Pace and Maximum Time Frame. Grades of “F” are calculated into GPA.
- W, WP, WF, EP, EF, NA, and NR are considered credits attempted.

For help calculating UW-L cumulative GPA, use the Semester GPA Calculator (http://www.uwlax.edu/Academic-Advising-Center/GPA-Calculation). Remember: only include UW-L credits in the GPA calculation.

Other factors that might effect evaluation process:

- Audited Courses: Not funded by financial aid and not considered under any aspect of the SAP Policy unless a student changes their course to audit after the 100% adjustment to tuition and fee period. This would affect Pace and Maximum Time Frame.
- Consortium Agreements: Credits count in the Pace and Maximum Time Frame components.
- Double Major: Students pursuing a first and second major at the same time will only be allowed 150% of the credits needed towards their first major. This could result in needing to appeal Maximum Time Frame.
• Winter Intersession: If a students attends a Winter Intersession course that positively affects their SAP Status (bringing their GPA or Pace calculation into an acceptable range) it is the student’s responsibility to notify the Financial Aid Office of that change on an Appeal for Financial Aid Reinstatement Form.

Additional terminology
• Payment Period: fall semester/spring semester/summer (if attended).
• Warning Status: assigned to one payment period, to a student who fails to make SAP after any payment period.
• Suspension: assigned to a student who fails to meet SAP in the payment period after being placed on Warning Status. Student must complete appeal process to reinstate financial aid eligibility.
• Probation Status: assigned for one payment period, to a student who has appealed and has had eligibility for financial aid reinstated. Specific terms are given to students with this status. For example, student may have to complete a certain percentage of credits attempted in the next payment period.

Appeal process
Students with extenuating circumstances that prevented them from making SAP have the right to appeal their situation. Extenuating circumstances include, but are not limited to, student injury or illness, death of a student’s relative, or other reasons resulting in undue hardship to the student. Students must turn in the Appeal for Financial Aid Reinstatement Form, unofficial copy of their UW-L transcript, an Advisor approved academic plan, and any other related documentation. Per Federal regulations, an appeal may only be approved if the student shows that they will be able to meet SAP at the next evaluation, or the student’s academic plan ensures SAP by a specific point in time. Incomplete/inaccurate appeals or Academic Plans will not be approved. A committee of financial aid staff will act on the appeal and notify the student with the decision of the committee and the terms of their probation, if approved, via campus email. All decisions are final. There is no limit on the number of appeals allowed; however, students requesting numerous appeals may be denied. If denied, the student may attend UW-L without financial aid and re-appeal when all components of SAP are being met.

Additional information about financial aid
• It is the student’s responsibility to make sure the application is complete and moving through the processing system.
• Funding levels and regulations are subject to change at any time per state or federal budgetary and legislative mandates.
• Students who withdraw, either officially or unofficially, may need to repay money to federal and state financial aid programs and will be required to pay any resulting balance due to the university.
• For additional information, visit the Financial Aid Office (http://www.uwlax.edu/finaid). For questions, call 608.785.8604 or e-mail finaid@uwlax.edu

Scholarships, awards, and short term loans
Many scholarships and awards have been established by alumni, faculty and staff, parents, students, businesses, and organizations. Recipients are selected by scholarship committees on the basis of an application, grade point average, and other materials as deemed appropriate by departmental committees. Scholarships are presented to students whose qualifications best fit the stipulations of the donor. Approximately one-half million dollars is awarded each year. Amounts vary annually based on funding from gifts or investment earnings available from a fund. Almost all scholarships are contingent upon full-time enrollment both fall and spring semesters at UW-L. Scholarships and awards for the academic year are usually paid in two payments, the first half in the fall semester and the other half in the spring semester.

Visit the University of Wisconsin-La Crosse Foundation, Inc. for information about the scholarships they administer (http://www.foundation.uwlax.edu/sch.html).

Scholarship applications are available to currently enrolled students or admitted incoming students on the UW-L Foundation Office website. All applications (unless otherwise indicated) must be submitted to the UW-L Foundation Office. Applications are submitted to various offices that offer scholarships based on academic majors; please refer to the scholarship website. The deadline for scholarship applications is February 15 each year. Scholarships and awards are announced at the honors reception set for the last Monday in April. For more information, call 608.785.8491.

The University also administers an interest-free, short-term emergency loan program to students in need, provided they are enrolled for a full credit load of non-repeat courses. The Financial Aid Office, 215 Graff Main Hall, has more information and application forms.

The University of Wisconsin-La Crosse Foundation, Inc.
The University of Wisconsin-La Crosse Foundation, Inc. (http://www.foundation.uwlax.edu), is an independent non-profit, tax-exempt Wisconsin corporation and a tax-exempt public charity under Section 501(c)(3) of the Internal Revenue Code. Created in 1967 to promote the welfare of the University of Wisconsin-La Crosse, it accomplishes this by encouraging, soliciting, receiving, managing, and administering gifts from alumni, friends, businesses, and other programs that advance the mission of the University. Gifts to the Foundation are tax deductible to the fullest extent of the law as applied to the individual circumstances of each donor.

Veteran Benefits
The university is fully approved for the education of veterans and veterans’ dependents under both federal and state programs. New students who qualify for benefits should report to the Veterans Benefits Coordinator in the Office of Records and Registration, 116 Graff Main Hall, before or during registration. After this initial contact, registered students should keep the Benefits Coordinator apprised of their status and needs each semester.

To receive support from veteran programs, after registering for classes each semester, a student is required to report to the Veterans Benefits Coordinator to complete a certification request form (http://www.uwlax.edu/Veteran-Services/Certification-Request). The university certifies attendance and credit load to the Veterans Administration based on the certification request.

Payments of veterans’ benefits depend on the number of credits carried. Students should carry at least 12 credits during the semester to receive full benefits under most programs. Payment will be awarded according to the schedule below. Contact the Veterans Benefits Coordinator for summer term rules.

More information can be found in the Veterans Educational Benefits Office (http://www.uwlax.edu/veteran-services) and the Office of Records and Registration (http://www.uwlax.edu/Records/Veteran-students).

**Priority registration for veterans**

The State of Wisconsin provides priority registration for military service members who served under honorable conditions, including members currently serving, veterans, reservists, and members of the National Guard. At UW-La Crosse, priority registration allows students to register at the front of their class, meaning that a sophomore will be able to register in front of the other sophomores. To be eligible for this benefit, the Veterans Educational Benefit Coordinator must have a DD-214 or a Notice of Basic Eligibility (NOBE) on file.
Academic policies

Academic policies define what the institution expects from the students and what students may expect from the institution in terms of academic behavior. Undergraduate academic policies are developed and approved through the university's governance system by the Committee on Academic Policies and Standards (CAPS). CAPS membership includes representation from both faculty and students.

Below is a guide to help navigate through the undergraduate academic policies.

**Academic Eligibility**
- Retention standards (p. 28)
- Probation (p. 29)
- Academic suspension (p. 29)

- Academic suspension (p. 29)
- Appeals and petitions for academic matters (p. 29)
- Committee on Academic Policies and Standards (CAPS) (p. 30)

The academic status of a student is determined by semester grade point average (GPA), cumulative GPA, the number of credits attempted, and previous or current academic status.

Definitions of academic status as reported on students' records:
- **Good Standing** — met minimum grade point average required
- **Probation I** — failed to meet minimum grade point average required at any time within 1-44 credits attempted
- **Probation II** — failed to meet minimum grade point average required after being previously placed on probation OR failed to meet minimum grade point average required after attempting 45 or more credits
- **Ineligible to Return** — Not eligible to continue at the university

**Retention standards**
1. To remain in good standing, students' cumulative GPAs must be 1.60 if they have attempted between 1 and 18 credits; 1.80 if they have attempted between 19 and 44 credits and 2.00 or above if they have attempted 45 or more credits.
2. To assist students in their orientation to university level work, the minimum acceptable standards for retention are defined as follows:
   a. Students placed on probation after attempting 1-29 credits shall be given two probationary semesters to attain good standing. Students failing to meet this standard will be declared ineligible to return.
b. Students placed on probation after attempting 30 or more credits shall be given one probationary semester to attain good standing. Students failing to meet this standard will be declared ineligible to return.

c. Continuing students who do not remain in good standing after the completion of any two probationary semesters shall be declared ineligible to return.

3. Transfer students are required to meet the retention standards prescribed in this section. These standards are based on the total number of transferable credits attempted at all colleges and universities.

4. No academic action is taken as a result of winter intersession or summer term attendance nor is the previous semester’s academic action impacted by winter intersession or summer term attendance.

5. Deficiencies in grade point averages and failing grades in courses taken at UW-L may be improved only by taking work in residence at the university.

<table>
<thead>
<tr>

<td>1.50</td>
</tr>
<tr>
<td>45 and beyond</td>
<td>2.00</td>
<td>2.00</td>
<td>1.50</td>
</tr>
</tbody>
</table>

**Probation**

1. Students are placed on academic probation if their academic records do not meet the standard set by the university. Notice of probationary status indicates that improvement is necessary in order for students to attain the minimum cumulative grade point average of 2.00 required by the time they have attempted 45 credits or more.

2. Students will be removed from probation at the end of any term in which they attain the required cumulative GPA.

3. Policies regarding students entering on probation are:

   a. First years will be removed from probation if they attain a grade point average of 1.60 or more attempting 1-18 credits. Thereafter, probation/retention status is determined on the same basis as for first years not entering on probation. First years who enter on probation and continue on probation are ineligible to continue beyond a second semester if their cumulative GPA is below 1.80 after attempting 44 credits.

   b. Transfer students admitted on probation are allowed a maximum of two semesters in attendance to attain a grade point average that is equal to or exceeds the prescribed GPA. If they fail to do so, they are notified that they are ineligible to continue. Probationary status is removed if the cumulative GPA equals or exceeds the required standards.

4. Students who are on probation will have an academic probation registration restriction (negative service indicator) placed on their student record. Students must meet with the academic advisor of their primary major before registering for a new semester in order to remove this restriction.

**Academic suspension**

1. When the given period of academic probation has been allowed and/or satisfactory progress has not been made in meeting the required academic standard of the university, students are declared ineligible to return. The required standards are:

   a. Students attempting between 1 and 18 credits will be declared ineligible if they earn a semester GPA below 1.00.

   b. Students attempting between 18 and 29 credits will be declared ineligible if they earn a semester GPA below 1.25 or are on probation for the second time and earn a cumulative GPA below 1.80.

   c. Students attempting between 30 and 44 credits will be declared ineligible if they earn a semester GPA below 1.50 or are on probation for the second time and earn a cumulative GPA below 1.80.

   d. Students attempting 45 or more credits will be declared ineligible if they earn a semester GPA below 1.50 or are on probation for the first or second time and earn a cumulative GPA below 2.00.

2. Students who have been declared ineligible to return will not be eligible for readmission to the university for at least one academic year. After one year, ineligible students may apply to the dean of the appropriate college or school for readmission. Students who have been declared ineligible to return, and then readmitted at a later date, shall be given one semester of probation to attain good standing or become ineligible to return.

3. Students who have been declared academically ineligible to continue at the university may request a hearing from the Committee on Academic Policies and Standards (CAPS) if it can be demonstrated that their academic suspension was due to factors beyond their control and that the causes have been removed. The written request should be directed to the committee in care of the dean of the college or school in which the student is enrolled.

4. The university does not permit students who have been suspended for academic reasons at any other campus to enroll until they are eligible for re-admission at their former campus.

5. It is assumed that students declared ineligible to continue at UW-L will not be admitted to other accredited colleges or universities during their period of ineligibility. Should they be admitted, and should they earn credits at another institution, UW-L reserves the right to disallow credit for courses taken elsewhere.

**Appeals and petitions for academic matters**

1. **Academic status:** Students who have been declared academically ineligible to continue at the university may request a hearing from the Committee on Academic Policies and Standards (CAPS) if it can be demonstrated that their academic suspension was due to factors beyond their control and that the causes have been removed. The written request should be directed to the committee in care of the dean of the college or school in which the student is enrolled. See above academic eligibility policies for more information.

2. **Substitution for course or graduation requirement:** Submit petition to the dean of the school or college in which enrolled. No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.

3. **Time extension for make-up of an incomplete:** Students should contact their instructor who, if approving the extension, will then contact the Office of Records and Registration on the student’s behalf. See the incomplete (I) grade (p. 34) section in “Grades, Grading, and Testing” for more information on incompletes.

4. **Change of grade:** See the change of grade (p. 34) section in “Grades, Grading, and Testing.”
5. **Appeal of grade received**: See the appeal of final grade (p. 34) section in "Grades, Grading, and Testing."

6. **Time extension for program requirements**: Submit petition to the dean of the school or college in which enrolled.

7. **Appeal for exception to current academic policy**: Submit petition to the dean of the college or school in which enrolled for action by CAPS.

8. **Any appeal not covered above, but related to the academic activities of a department, should be made directly to the department chair who will apprise petitioning students of correct appeal procedures.**

### Committee on Academic Policies and Standards (CAPS)

CAPS is the faculty committee for formulating and reviewing local policies and standards for admissions and academic activity; ensuring equitable application of the standards by the colleges and schools; and developing procedures for hearing student appeals and petitions on academic matters. Membership of the committee consists of nine faculty and three students. The Director of Admissions and the Registrar serve as administrative consultants. The Chancellor selects an additional administrative consultant.

### Academic Records/FERPA

#### Access to academic records

Academic records are confidential between the student and the university. Students may request transcripts of their permanent academic records at any time, provided they are not financially encumbered to the university. Transcripts may be requested in person, online (https://www.studentclearinghouse.org/secure_area/Transcript/to_bridge.asp?t=180914&LoginHome=to_home.asp), or by writing (http://uw lax.edu/uploadedFiles/Offices-Services/Records-registration/Transcript%20Request%20FormUWL.PDF) to the Office of Records and Registration. There is a fee for official transcripts. Transcripts will not be released without the student’s authorizing signature. Under no circumstances will partial transcripts be issued.

#### Name and address changes

It is the student’s responsibility to keep appropriate offices advised of changes. Campus (local) or permanent home (legal) addresses may be changed through the student’s WINGS Student Center. Official name changes must be done in the Office of Records and Registration, 117 Graff Main Hall, with proper identification.

### Family Educational Rights and Privacy Act (FERPA)

---

The university follows the national guidelines for compliance with the provisions of the Act. The university posts the procedures (http://www.uwlax.edu/Records/FERPA) online. The Office of Records and Registration maintains a directory of records, which lists all education records maintained on students by this institution.

The following categories of student information are public or “directory information.” Such information may be disclosed by the institution for any purpose, at its discretion.

- Names, addresses, UW-L email address, telephone numbers, attendance (full-time/part-time, classification) and school and/or college status.
- Previous institution(s) attended, past and present participation in officially recognized sports and activities, physical factors (height, weight, etc. for athletes).
- Major/minor fields of study, awards, honors (includes Dean’s List), expected graduation date, degree(s) conferred, date(s) awarded.

Currently enrolled students may withhold disclosure of information under FERPA. To withhold disclosure, students may log into their WINGS student center personal settings prior to the end of the second week of each semester or the end of the first week of a summer term. The university assumes that failure on the part of any student to make a specific request for the withholding of directory information, within the time period mentioned above, indicates individual approval for disclosure.

For more information, review the university’s policy and implementation of the Family Education Rights and Privacy Act (http://www.uwlax.edu/Records/FERPA) (FERPA) or visit the Office of Records and Registration.

### Undergraduate Course Information

- Course repeat policy (p. 30)
- Remedial courses (p. 31)
- Cross-listed courses (p. 31)
- Course numbers (p. 31)
- Course prerequisites (p. 31)
- Curriculum requirements and course descriptions (p. 31)
- Undergraduate Curriculum Committee (p. 31)
- Department/program/course prefixes (p. 31)

### Undergraduate course repeat policy

When an undergraduate course in which a student has previously earned a “D” or “F” is repeated, the grade earned in repetition will supersede the previously recorded grade. The original grades earned are never deleted from the permanent academic record when a course is repeated; however, such grades are dropped from the calculation of cumulative grade point average. It is thereby possible to improve a grade point average. Courses for which grades of “C” or better have been recorded may not be repeated.

In compliance with established university policy, failing grades and deficiencies in grade point averages may be removed only by taking work
in residence at the University of Wisconsin-La Crosse. Courses may not be repeated at another institution and transferred to this university.

If a student withdraws from a course taken as a "repeat," the original grade earned will remain in the overall grade point average calculation.

Departments may designate courses such that class rank should not be considered with respect to registering to repeat a course.

Remedial courses policy

The UW System remedial education policy was approved by the Board of Regents in November 1988. Remediation data supports the notion that a high percentage of students needing remediation in the skills area (English/math) continue to be successful college students.

Placement and registration in English and math courses is determined by using the scores earned on the Wisconsin Regional Placement Exams and the American College Test (ACT). Students not demonstrating adequate competency in English and/or math will be required to enroll in a remedial course(s). ENG 050 Fundamentals of Composition, MTH 050 Basic Algebra, and MTH 051 Topics in Intermediate Algebra are courses designed for students whose test scores indicate a low probability for success in college-level courses. These credits do not count toward graduation. Any student may enroll in ENG 050 or MTH 050. Students who are required to take ENG 050 or MTH 050 must complete the requirement(s) prior to earning 30 degree credits or they will not be allowed to register in higher level English or math courses until they have successfully completed the remedial course(s). Students who place into MTH 045 or MTH 051 may be required to enroll in one of these courses for some majors; for other majors it is recommended. ENG 050 is graded pass/fail; MTH 050 and MTH 051 are letter-graded ("F" counts as credits attempted and is averaged into GPA; other grades do not).

Cross-listed courses

A course offered by more than one department that has the same course description, credits, and title but different prefixes (e.g., ECO/THA 376; BIO/MIC 714) is a cross-listed course. Students may earn credit only once for taking a cross-listed course.

Undergraduate course numbering policy

Courses with numbers in the 100/200 series are primarily for first years and sophomores; those in the 300/400 series, which normally carry a prerequisite, are primarily for juniors and seniors. Almost all courses in the 500 series and some in the 600 series are "slash" courses; they are graduate courses with a companion number in the 300/400 series and are open to upper level undergraduates who have earned at least 60 credits. All courses with numbers in the 700/800 series and some in the 600 series are for graduate students only.

Undergraduate students must earn at least 40 credits in the 300/400 numbered courses. See university degree requirements (p. 57) for more information.

Note: Courses listed in this catalog are subject to change through normal academic procedures. New programs and courses, and changes in existing course work are initiated by departments or programs and approved by the appropriate academic dean, the curriculum committees and the faculty senate. Additions to the curriculum for the ensuing years are published in the official curriculum committee minutes (http://www.uwlax.edu/facultysenate/committees/UCC.html) by Faculty Senate and are on file with the Office of Records and Registration.

Course prerequisites

Course prerequisites, listed in the course description, indicate the academic preparation required for successful completion of the course. Occasionally students may have sufficient knowledge to enter courses without the formal prerequisites. In these circumstances, students may ask instructors for consent to enroll; all instructors retain the right to admit any student to their classes, subject to departmental policy. Students who do not meet the stated prerequisite(s) or the required class standing must obtain permission in writing to enroll in a class. Students will not receive credit for courses for which they do not have the appropriate class standing, specified prerequisites, or written permission to override the requirements.

Curriculum requirements and course descriptions

A statement of major and minor course requirements for various curricula precedes the list of courses offered in each department and/or program, with a few exceptions. Information about curriculum requirements also is included in the appropriate school or college section of the catalog. In addition to major and minor course requirements, students also must meet general education requirements (p. 53), college, and university degree requirements (p. 57).

Many course descriptions list the semester/year during which a course is normally offered. This serves as a guide; however, actual offerings may vary depending on staffing levels and enrollment demands.

Undergraduate Curriculum Committee

The Undergraduate Curriculum Committee (UCC) is the curriculum review faculty body for all academic programs at the baccalaureate level. Membership of this committee consists of nine faculty, with proportional representation by college, and three students. The Provost, Registrar, a library representative, and the dean of each college serve as administrative consultants.

Department/program/course prefixes

The following is a list of course prefixes used by departments and programs at UW-L. Each prefix is linked to courses carrying that prefix.

- ACC: Accountancy
- ANT: Anthropology
- ARC: Archaeology
- ART: Art
- AST: Astronomy
- BIO: Biology
- BUS: Business Administration
- CEI: Cooperative Education and Internships
- CHE: Community Health Education
- CHI: Chinese
- CHM: Chemistry
- CI: Curriculum and Instruction
- CLI: Clinical Laboratory Science
- CMP: Computational Science
- CS: Computer Science
- CT: Computational Thinking
- CST: Communication Studies
- CYC: Child Youth Care
- DOS: Medical Dosimetry
• DS: Data Science
• ECE: Early Childhood Education
• ECO: Economics
• EDM: Educational Media
• EDS: Education Studies
• EDU: Education
• EFN: Educational Foundations
• ENG: English
• ENV: Environmental Studies
• ERS: Ethnic and Racial Studies
• ESC: Earth Science
• ESL: English as a Second Language
• ESS: Exercise and Sport Science
• FIN: Finance
• FRE: French
• GEO: Geography
• GER: German
• GTL: Gerontology
• HED: Health Education
• HIS: History
• HISM: Health Information System Management
• HP: Health Professions
• HWM: Health & Wellness Management
• INS: International Studies
• IS: Information Systems
• LS: Liberal Studies
• MGT: Management
• MKT: Marketing
• MTH: Mathematics
• MIC: Microbiology
• MS: Military Science
• MLG: Modern Languages
• MUA: Applied Music
• MUS: Music
• NMT: Nuclear Medicine Technology
• NUT: Nutrition
• OT: Occupational Therapy
• PAS: Physician Assistant Studies
• PH: Public Health
• PHL: Philosophy
• PHY: Physics
• POL: Political Science
• PUB: Public Administration
• PSY: Psychology
• PTS: Physical Therapy
• RT: Radiation Therapy
• RDG: Reading
• REC: Recreation Management
• RTH: Therapeutic Recreation
• RUS: Russian
• SAA: Student Affairs Administration
• SAH: Science and Health
• SHE: School Health Education
• SOC: Sociology
• SPA: Spanish
• SPE: Special Education
• STEP: Secondary Teacher Education Preparation Program
• THA: Theatre Arts
• TSL: Teaching English to Speakers of Other Languages
• UWL: University-wide Learning
• WGS: Women’s, Gender and Sexuality Studies

(See graduate catalog [http://catalog.uwlax.edu/graduate] for graduate courses and program descriptions.)

**Undergraduate Grades, Retroactive Credit, and Testing**

• Grading system (p. 34)
• Pass/fail policies (p. 33)
• Credit by examination and retroactive credit policy (p. 33)
• Final examinations (p. 33)
• Incomplete (I) grade (p. 34)
• Change of grade (p. 34)
• Appeal of final grade (p. 34)
• Report of official grades (p. 34)
• Deans’ Lists (p. 34)

**University grading system**

Scholastic standing is determined by the grade point system. Grade points are used to determine an official scholastic average for each student. A semester grade point average is calculated by dividing the grade points earned by the number of credits attempted that semester. The cumulative average is the total number of grade points earned divided by the total number of credits attempted.

Undergraduates must maintain an average of 2.00 as the minimum standard for satisfactory work after attempting 45 credits. See the retention standards (p. 28) policy for more information about academic eligibility.

**Note:** UW-L grade point averages are determined only by grades in UW-L courses. Probationary status and grade point deficiencies of students already matriculated at UW-L may not be improved by enrolling in courses at other institutions.

**Grading scale**

Effective January 1994, the university adopted a seven-step grading scale with point values assigned as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points/credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>AB</td>
<td>3.50</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>BC</td>
<td>2.50</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

Additional university grades and grade points used but not part of the scale adopted in 1994:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points/credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>incomplete / 0 (not counted as credits attempted)</td>
</tr>
</tbody>
</table>
IP in progress / 0 (not counted as credits attempted)
W, WP withdraw passing / 0 (not counted as credits attempted)
WF withdraw failing / 0 (counted as credits attempted, averaged into GPA)
EP emergency withdrawal / passing\(^1\) / 0 (not counted as credits attempted)
EF emergency withdrawal / failing\(^1\) / 0 (not counted as credits attempted)
AS audit satisfactory / 0 (not counted as credits attempted)
AU audit unsatisfactory / 0 (not counted as credits attempted)
S satisfactory / 0 (counted as credits attempted)
U unsatisfactory / 0 (not counted as credits attempted)
P pass / 0 (counted as credits earned)
F fail / 0 (counted as credits attempted; averaged into GPA)
F1-F14 not active / 0 (counted as credits attempted; averaged into GPA). Student did not officially withdraw from the course, but failed to participate in course activities through the end of the period. There is sufficient evidence to make possible a meaningful evaluation of academic performance. The N/A grade will appear as an "F" on the student record
NR no report / 0 (not averaged into GPA; the "NR" grade is posted for all missing grades

\(^1\) The faculty Committee on Academic Policies and Standards has established EP and EF as grades that are to be utilized only for the emergency medical withdrawal and military call-ups of students. These grades will be recorded on the permanent academic record to indicate level of performance at the time of withdrawal; however, such grades will not be averaged into the student’s grade point average.

**Pass/fail policies**

1. Credits taken on a P/F basis will not be averaged into a grade point average if "P" is filed by the instructor. The credits will count as credits earned. An "F" will be averaged in and will be counted as credits attempted.

2. Specific courses are approved for pass/fail grading. Students do not have the option to request to take a graded course on a P/F basis.

3. A maximum of 21 credits of P/F course work can be used toward an undergraduate degree.

4. Students should realize that P/F graded courses might not be accepted in transfer to other institutions of higher learning. Professional schools are especially reluctant to accept P/F graded course work.

Some employers, principals, and/or superintendents may be unable to acknowledge credits or reward employees, especially graduate students working on advanced degrees, when course work has been taken under the P/F grading system.

**Credit by exam and retroactive credit policy**

For details on the ways to earn credit by examination and/or retroactive credit (http://www.uwlax.edu/Admissions/AP/IB/CLEP-credit/#anchorIB), newly admitted students should contact the Admissions Office and continuing students should contact the college or school in which they are enrolled.

**University policy on credit by examination and retroactive credit**

1. All credits earned by examination or through retroactive credit will have full academic value, i.e., they will count toward the total required for graduation and, if applicable, fulfill prerequisite requirements for advanced courses, general education requirements, college core requirements and/or major/minor requirements.

2. Credit will be entered but no grade will be recorded on the permanent academic record.

3. Credits earned in this manner will not be counted in determining the grade point average.

4. Credits earned by examination or by retroactive credit will not be counted as part of a student’s course load.

5. Restrictions:
   a. No student will be permitted to attempt to receive credit by examination or retroactive credit for a particular course more than once.
   b. A student may earn credits by examination or by retroactive credit from UW-L only after admission to and enrollment at UW-L. A student will be regarded as “regularly admitted and enrolled” after attending on a full-time or part-time basis and paying the appropriate fees in a regular semester or summer term.
   c. No one who has received a final grade in a course or an "incomplete" may earn credit by examination or retroactive credit for the same course.
   d. A student may not receive credit by examination or retroactive credit for a course they are auditing or have audited at UW-L.
   e. No student who has withdrawn from a UW-L course after the first four weeks may earn credit for the course by examination or by retroactive credit.
   f. Prior or concurrent enrollment in a course as reflected on a student’s transcript negates the opportunity for retroactive credit in that course.

**Final examinations**

A final examination will be given in each course within a special examination period except for one-credit courses, which will have exams scheduled at the last regular meeting of the class. The examination periods, dates, and times are found in the Office of Records and Registration's Final Exam Schedule (http://www.uwlax.edu/Records/Final-Exam-Schedule). Final exams for online courses will be administered by the published end date of the course. The relative importance assigned to the final examination is determined by the instructor in charge of each course.

**Study Day:** No final examination shall be given to any student on Study Day. Study Day is a day to prepare for the final examination period.
No student activities of any sort with the exception of optional review sessions for final examinations shall be scheduled on Study Day. This includes make-up classes or tests, committee meetings involving students, and athletic practices or events.

Incomplete (I) grade

An incomplete (I) is a temporary grading symbol (not a final course grade) which may be reported for a student who has carried a subject through the last date that one may withdraw from a course and then, because of illness or other unusual and substantiated cause beyond the student’s control, has been unable to take or complete the final examination or to complete some limited amount of course work.

In no case may an incomplete be recorded by an instructor for a student who, through personal fault, has failed either to complete the requirements of the course on time or failed to report for the final examination as scheduled.

Before an incomplete is reported, there should be, in the judgment of the instructor, a reasonable probability that the student can complete the course successfully without attending class sessions again.

An incomplete (I) will be removed when the student submits all work due. An incomplete must be removed and a final grade recorded in the Office of Records and Registration no later than one calendar year (12 months) following the term in which the Incomplete was incurred, whether or not the student is enrolled.

In order to remove an incomplete, the student must make arrangements with the instructor for the satisfactory completion of the work remaining to be done in the course. This work was indicated on the “Incomplete Grade Record” that was submitted by the student and the instructor when the “I” was originally requested.

When the work has been completed, the instructor submits a final grade, which must also be approved by the department chair and the student’s dean. If the deadline for completion is not met, a grade of “F” will be recorded automatically at the time stated above. If the instructor indicated a grade other than “F” on the information sheet that was filed, that grade will be used instead of “F.”

Note: A student should never register again for any course to remove a previously recorded incomplete unless the “I” grade has been converted to “F.” This conversion of the “I” must be done prior to re-enrollment. The grade earned in repetition will supersede the “F” recorded, according to the established policy for course repetition.

Change of grade

An instructor may request to change a final grade for an undergraduate course three semesters immediately following the close of the semester in which the grade is first recorded, excluding summer. The instructor and department chair authorize the change by signing a “Change of Grade” form and forwarding it to the appropriate dean for signature. The dean will then file it with the Office of Records and Registration.

A change of grade after three semesters may be made only upon approval of the faculty Committee on Academic Policies and Standards (CAPS). Requests must be made in writing and must be supported in writing by the instructor and the department chair. These papers are forwarded to the student’s academic dean for presentation to the faculty committee.

Appeal of final grade

All departments have established policies and procedures which enable students to appeal final grades. These policies and procedures outline the progression of a formal appeal and specify who, if anyone, is empowered to change a final grade. All appeals for a final grade change must be initiated in writing through the department in question during the semester immediately following the semester in which the grade was earned. A copy of each department’s policies and procedures are filed in the office of the appropriate dean.

Report of official grade

Official grades are submitted at the end of each term and are available to students through the WINGS Student Center. Academic action is taken at the end of each semester. Grades are not mailed; they are available electronically via the WINGS Student Center.

Students with unsatisfactory grades are expected to seek counseling and help with their studies. Available resources include the instructor(s), advisor, and department tutors. Student services staff, particularly Counseling and Testing Center personnel, will provide assistance on a confidential basis. First years, especially, are encouraged to seek help at the earliest sign of academic difficulty. The university assumes that students will communicate regularly with interested parties (e.g. parents) with respect to academic status and progress.

Deans’ Lists

To be eligible for inclusion on any honors list compiled and published by a dean’s office at the end of each semester, students must have earned not less than a 3.50 semester grade point average and have carried a minimum of 12 semester credits.

Undergraduate Graduation/ Commencement

- Undergraduate residence requirement (p. 34)
- Four-year graduation agreement (p. 34)
- Graduation fee (p. 35)
- Commencement honors (p. 35)
- Graduation honors (p. 35)
- Mailing diplomas (p. 35)

Undergraduate residence requirement

A minimum of 30 semester credits in residence at UW-L is required for graduation. The last 24 credits to be applied toward a degree must be earned as resident credits. The appropriate academic dean may give permission for seniors to earn not more than the last ten credits at another institution. A request to earn more than the last ten credits at another institution must be submitted to and approved by the faculty through an appeal by petition to the Committee on Academic Policies and Standards (CAPS).

1 Resident credit means credit registered for and earned through UW-L.

Four-year graduation agreement

Entering first years are offered the opportunity to participate in an agreement that ensures graduation within four years of initial enrollment. If a student satisfies all of the conditions of the agreement, but degree completion is delayed because the university did not fulfill its
requirements of the agreement, then UW-L relieves the student of tuition for the required course(s) remaining after the four-year time period. Not all UW-L academic programs are included as part of this formal agreement. More information about the conditions of the four-year agreement is available from the dean’s office in each college. The agreement must be signed within the first seven weeks of the student’s initial enrollment when a student meet with a four-year agreement adviser.

Graduation fee

Upon completion of 95 semester credits toward the bachelors degree, a student is billed a graduation fee. This is a one-time fee assessed regardless of whether or not the student chooses to attend the commencement ceremony. Students earning a second degree are also assessed the graduation fee.

Commencement honors

Commencement honors determine which students may wear an honor cord, also known as a fourragère, during commencement exercises. Commencement honors are noted beside students’ names in commencement programs.

Calculations for commencement honors and highest honors are based on grade point averages earned at the end of the last term in residence prior to the term of graduation. To be eligible as a baccalaureate candidate, a student must have earned no fewer than 45 semester credits in residence at UW-L prior to the beginning date of the term in which the student intends to graduate and 30 credits as an associate candidate. A student must have a cumulative grade point average of 3.50 to wear the honor cord or at least 3.75 to wear the cord designating highest honors. Only resident credits are used in the GPA calculation. Commencement honors are calculated for baccalaureate and associate degree candidates only.

Graduation honors

Graduation honors are posted on permanent academic records if students have earned no fewer than 60 semester credits in residence for a baccalaureate degree and 30 credits in residence for an associate degree at UW-L. A student must have a cumulative grade point average of 3.50 for graduation with honors or at least 3.75 for graduation with highest honors at the end of the student’s last term in residence. Only resident credits are used in the GPA calculation. Graduation honors are calculated for baccalaureate and associate degree candidates only.

Mailing diplomas

Diplomas are mailed approximately six weeks after the ending date of the semester of graduation, to the current legal (home) address on the university computer system unless the Office of Records and Registration has been notified differently. All indebtedness to the university must be cleared before a diploma will be released.

Undergraduate Registration and Schedules

- Audit policy (p. 35)
- Changing assigned college or school (p. 35)
- Class attendance (p. 35)
- Class drops at the discretion of an instructor (p. 35)
- Schedule changes (p. 36)
- Student classifications (p. 36)
- Student load (p. 36)

- Undergraduate enrollment in graduate courses (p. 36)

University audit policy

Students may audit courses under the following arrangements:

1. Students must receive consent of the department chair and the instructor offering the course.
2. No change from audit to credit will be permitted after the first week of classes. No change from credit to audit will be permitted after the first half of a semester or summer session. Shorter courses have prorated deadlines.
3. No credit will be granted for any course that is audited. “Audit” will appear on the student’s permanent academic record. The “AS/AU” grading system is used for auditors. The grade will not affect a student’s GPA.
4. An audited course may be repeated for credit in another semester or term.
5. Appropriate tuition and fees are to be paid for the course.
6. Courses being audited are not usable to establish full-time or part-time status for any type of eligibility, such as for athletic participation, student grants/loans, or loan deferment.
7. Courses being audited may not be taken in excess of student load limits for credit generating courses without special “overload” permission from the student’s academic dean.
8. A course previously completed for credit may be audited in another term.

Changing assigned college or school

Undergraduate students, upon enrollment, are assigned immediately to one of the schools or colleges within the university for advisement, registration, and record-keeping purposes. They may transfer by meeting prescribed admission, curriculum, or other requirements of the new school or college of their choice. Intra-university transfers are initiated at the dean’s office of the college or school to which one wishes to transfer. Students wishing to transfer from one college or school to another must be in good academic standing at the time of the transfer. Students wishing to transfer who are not in good academic standing should consult with the dean’s office of the college or school to which they wish to transfer.

Admission and other requirements vary among the schools and colleges and their programs. Frequently, additional credits and time are needed to complete graduation requirements after a change of college or school. Students who decide to make such changes are responsible for familiarizing themselves with requirements.

Class attendance

Students are responsible to their respective instructors for all absences. If a student is absent an extended period of time (over one week), due to illness, family emergency, etc., the student should contact Student Life, 149 Graff Main Hall. That office will inform the instructors involved of the absence. This serves as notification only, not necessarily a formal excuse. It is the student’s responsibility to contact each instructor for make-up work, etc. There is no “cut” system. University regulations prohibit excusing students and the dismissal of classes immediately preceding or immediately following scheduled vacation or recess periods except in cases of commonly recognized and extreme emergencies.
University class drops instructor discretion policy

A student enrolled in any course is expected to be in attendance from the first day or to have notified the instructor or Student Life that attendance is not possible. A student registered in a section who fails to attend the first two class sessions or provide proper notification may be dropped from the course at the discretion of the instructor.

An instructor who wishes to drop a student from a course during the first five days of instruction should complete a drop/add form and submit it to the Office of Records and Registration during the "drop/add/change of schedule" period. A decision by an instructor to drop a student from a class may not be appealed to any other individual or body in the university. A student should not assume that an instructor will use the discretionary drop if the student does not attend class. It is a student’s responsibility to withdraw from a class.

University schedule change policy

The period of time between a student’s initial registration for any term through the first five days of instruction in any semester (three days during a summer session) are considered to be the "drop/add/change of schedule" period. During this time, a student may drop classes without affecting the permanent academic record. A student may also add classes or change sections, if the desired section is not closed. Neither the advisor’s signature nor the instructor’s signature is required for schedule changes during this period. The signatures of the department chair and the instructor will be required only if the student seeks to enter a class that is closed. Between the fifth and tenth days of instruction, to add a course, the student must obtain the instructor’s signature. After the tenth day of instruction, classes cannot be added except in unusual cases and then only with the consent of the instructor, department chair, and dean.

Student classifications

<table>
<thead>
<tr>
<th>Level</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Year</td>
<td>0-29 semester credits</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30-59 credits</td>
</tr>
<tr>
<td>Junior</td>
<td>60-89 credits</td>
</tr>
<tr>
<td>Senior</td>
<td>90 credits or more</td>
</tr>
</tbody>
</table>

Other:

- Graduate student
- special non-degree student
- student seeking certificate
- second degree student

In addition to the above classifications, undergraduate students often are classified by the college in which they are enrolled:

- College of Business Administration
- College of Liberal Studies
- School of Arts and Communication
- School of Education
- College of Science and Health

Undergraduate student credit load policy

The standard undergraduate load is 15 credits per semester. Credit loads of 19 or more constitute an “overload” and may be carried only if an application is made in writing and approved by the dean of the school or college in which the applicant is enrolled. Overloads are not approved for first semester first years or for any student with a cumulative grade point average less than a 3.25.

The standard undergraduate load during a 12-week summer term is 12 semester credits. This is the maximum number of credits that can be earned during the summer term. For winter intersession, a student may earn, as a maximum, the number of credits corresponding to the number of weeks in any interim session (i.e., three weeks: three credits).

To be considered full-time, undergraduate students must carry a minimum of 12 semester credits during the semester and six credits during summer term. Half-time is based on six credits for a semester and three credits for summer term. Credits carried on an audit basis do not count as part of a load to establish full-time or half-time status for any type of eligibility - sports, loans, etc. To qualify for federal student financial aid in the summer, students need to carry 12 credits to be full-time and six credits to be part-time.

UW-Extension Independent Learning courses taken during a regular term are considered part of an individual’s load for one term only. These courses, if properly approved, may count toward the undergraduate degree but are not averaged into the cumulative grade point average.

University undergraduate enrollment in graduate courses policy

Undergraduate students with senior status (at least 90 credits) who have at least a 3.00 cumulative grade point average, may enroll in a maximum of six graduate credits. These graduate level credits may not be used to satisfy requirements for a bachelor’s degree. Exceptions to these requirements must be approved by the Graduate Council. Maximum student credit load for dual enrollment (graduate/undergraduate) is 15 credit hours for a semester and eight credit hours for a summer term (standard university overload approval process applies). Undergraduate students are not allowed to enroll in graduate level MBA courses.

Students must submit written permission from the course instructor and their advisor, along with a graduate special non-degree application, to the Admissions Office prior to registering for a graduate course.

Undergraduate tuition and fees are charged. Students in dual-degree programs must complete the graduate program application process and pay graduate tuition fees. Students are expected to purchase texts for graduate courses.

Student Conduct

Student disciplinary procedures

In 1989, the Board of Regents adopted an administrative code Chapter UWS 14, which covers academic misconduct. Its principles state, “The Board of Regents, administrators, faculty, academic staff, and students of the University of Wisconsin system believe that academic honesty and integrity are fundamental to the mission of higher education and of the University of Wisconsin System. The University has a responsibility to promote academic honesty and integrity and to develop procedures to deal effectively with instances of academic dishonesty. Students are responsible for the honest completion and representation of their work, for the appropriate citation of sources, and for respect of others’ academic endeavors. Students who violate these standards must be confronted and must accept the consequences of their actions.”

The Board also revised Chapter UWS 17, which covers non-academic misconduct. In it, they state, “The Board of Regents, administration, faculty, academic staff, and students of the University of Wisconsin...
System believe that the teaching, learning, research, and service activities of the university can flourish only in an environment that is safe from violence and free of harassment, fraud, theft, disruption, and intimidation. The University has a responsibility to identify basic standards of non-academic conduct necessary to protect the community, and to develop procedures to deal effectively with instances of misconduct while observing the procedural and substantive rights of students. Any person who violates state or federal laws on university property may face prosecution in the appropriate courts. In addition, students, faculty, or staff who violate university standards are subject to university disciplinary action."

The procedures in both Chapters 14 and 17 describe the actions that the university may take in response to student misconduct; they define the conduct that is prohibited; and they outline the procedures that are to be used to resolve allegations of misconduct. The UW-L student disciplinary procedures are identical to those in UWS 14 and UWS 17. These documents can be found in the UW-L Eagle Eye (http://www.uwlax.edu/Student-Life/Student-handbook), also available in the Office of Student Life. It also includes UWS Chapter 18, "Conduct on University Lands," which describes prohibited behavior and parking regulations.

**Student honor code**

We, the students of UW-La Crosse, believe that academic honesty and integrity are fundamental to the mission of higher education. We, as students, are responsible for the honest completion and representation of our work and respect for others' academic endeavors. We, as students and responsible citizens of the city of La Crosse, will aim to uphold the integrity of the University throughout the La Crosse community. It is our individual responsibility as students to uphold these ethical standards and to respect the character of the individuals and the university.

**University Withdrawal Policies**

- Withdrawal from classes (p. 37)
- Medical withdrawal (p. 37)
- Withdrawal from the university (p. 37)
- Military duty withdrawal from the university (p. 38)

**Withdrawal from classes**

Any student may withdraw from a class until one week beyond mid-term of a semester or a summer session. All withdrawals from classes after the "drop/add - change-of-schedule" period are recorded with a "W" on the student's permanent academic record along with the official date of withdrawal. Half-term courses or short-term courses have withdrawal time limits established on a basis prorated to withdrawal dates for a full-term course. The student must obtain either the advisor's or the instructor's signature during this time period. No student is permitted to withdraw from a class later than one week beyond mid-term of a semester or summer term. Only a grade of "F" or "I" may be recorded for any student who enters this time period and fails to complete a course. See the withdrawal from the university (p. 37) policy for exceptions.

Failure to follow the prescribed procedures and to observe the prescribed time limits for withdrawal from classes will result in the recording of failing grades in discontinued courses. If a student withdraws from a course taken as a "repeat," the original grade earned will remain in the overall grade point average calculation.

**Medical withdrawal**

Emergency medical withdrawal may be initiated by a student or authorized agent at any time. Either a complete withdrawal from all courses at the university or a partial withdrawal from some courses may be requested. The withdrawal request must be supported by a letter from a healthcare provider which describes the limitations on the student's continued participation in courses. The nature of the limitations may necessitate withdrawal from some courses but allow continued participation in other courses. The limitations will form a consistent standard for withdrawal that can be applied to all courses in which the student is currently enrolled. The Student Health Center will verify the authenticity of the support letter and will notify Student Life. For undergraduate students, Student Life will consult the appropriate academic dean and instructors. For graduate students, Student Life will consult the appropriate academic dean, the Director of Graduate Studies, the appropriate graduate program director, and all of the student's instructors. If the withdrawal is granted, Student Life will notify the Records and Registration Office and the Cashier's Office. When the withdrawal is completed, the Records and Registration Office will notify instructors if a grade is required.

For courses in which the student has withdrawn, the permanent academic record will show no credits were earned. However, the status of the student's grades at the time of the withdrawal will be posted. The record will show one of the following grades submitted by the instructor: "EP" (emergency withdrawal passing) or "EF" (emergency withdrawal failing). Such grades will not be included in the computation of the term or cumulative grade point average.

Any exception to the policies of the emergency medical withdrawal must be appealed to the university's Committee on Academic Policies and Standards (p. 30) (CAPS).

**Withdrawal from the university**

Withdrawal from the university is a matter of major importance. Students considering withdrawal from school, should discuss the matter with an academic advisor, program director, and/or dean prior to initiating action. The official date of withdrawal from all classes will be recorded on the permanent academic record if the student withdraws after classes begin.

Forms for withdrawing from the university may be obtained from Student Life, 149 Graff Main Hall. The forms provide a checklist which withdrawing students are expected to follow carefully. Withdrawal procedures must be fully completed before a withdrawal becomes official.

An official withdrawal entitles a student to a refund of fees when the withdrawal date falls within a refund period. The official date of withdrawal is the date the withdrawal form is received in the Records and Registration Office. A "W" (Withdrawal) will appear on the student's academic transcript if the withdrawal date is prior to one week after mid-term of a given semester. A grade of "WP" or "WF" will appear if the withdrawal falls after the mid-term point. A grade of "WF" will be averaged into the GPA. Withdrawal from the university is not allowed after the three-quarter point of the term. Students who withdraw after classes have begun will be charged a withdrawal fee (http://www.uwlax.edu/Cashiers/Tuition-fee-,and-refund-information).

An unofficial withdrawal will result in recording failing grades in discontinued courses and in encumbering of student records if the following obligations to the university have not been met: release from graduate assistantship obligations, if appropriate; returning books to textbook service and Murphy Library; returning other university supplies and/or equipment issued during preceding periods of regular enrollment; clearing a record through an exit interview in the Financial Aid Office.
applicable; and securing a final clearance in the Cashier’s Office with respect to any refund(s) which may be due or obligations unfulfilled regarding university fees, housing or food service arrangements, or accounts, and relinquishing the student identification card.

In some cases, students may request an emergency medical withdrawal from the university. See policy (p. 37) above.

**Note:** Pursuant to the regulations of Title IV of the Federal Higher Education Act of 1965, as amended, students who receive student financial aid and receive all F1-F14 grades (recorded as F’s) will be subject to the federal Title IV Return of Funds Policy. These students may be required to return funds to the student financial programs and may also be liable for repayments directly to UW-La Crosse.

**Military duty withdrawal from the university**

Military duty withdrawal applies to those students who are ordered to active duty (i.e., active duty Reserve, National Guard), not to individuals who voluntarily enlist. A copy of the orders/activation papers must be submitted to Student Life, 149 Graff Main Hall. The staff in that office will provide assistance and guidance with the withdrawal process, which may occur at any time. Depending on when the withdrawal is effective, options are available for complete or partial withdrawal with grades of "EP" and "EF," or for accepting grades or "Incomplete" grades.

Refunds will be calculated based on dates and options selected. The full policy (http://www.uwlax.edu/Records/Veteran-students) can be found with the Records and Registration Office.
Cooperative Education and Internships

Internships help students integrate the classroom with practical experience through work related to their academic and occupational goals. These experiences, for which a student can receive credit, include working for regional, national, and international businesses, government agencies, and community and non-profit organizations.

To participate in the Cooperative Education and Internship Program, students must meet grade point average and course prerequisites. Students must be at their internship site during the academic term for which they are registered for internship credit. Thirty internship credits may be taken and recorded on the academic record; however no more than 15 credits are applicable to a degree. Students should contact the Career Services Office (http://www.uwlax.edu/career-services) during their sophomore year to learn more.

See below for a list of UW-L academic departments offering internship credit and the corresponding course, and see the Courses tab for the courses used in university-wide internships and off-campus cooperative internships. For more information, contact the specific department or Career Services (http://www.uwlax.edu/Career-Services/Why-do-an-internship/), 1140 Centennial Hall, 608.785.8570.

This section does not apply to internships in teacher certification programs, health, exercise and sport science non-teaching programs, nutrition, recreation, or graduate programs.

Departmental internships

Click on the course for the course descriptions and possible prerequisites, which are also listed under the appropriate departmental and/or program section.

- Accounting - ACC 450 College of Business Administration Internship
- Anthropology - ANT 450 Internship in Anthropology
- Archaeology - ARC 450 Internship in Archaeology
- Art - ART 450 Internship in Art
- Biology - BIO 450 Internship in Biology
- Child Youth Care - CYC 450 Internship in Child/Youth Care
- Communication Studies - CST 450 Internship in Communication Studies
- Economics - ECO 450 College of Business Administration Internship
- English - ENG 450 English Internship, ENG 452 Professional Writing Practicum
- Environmental Studies - ENV 450 Internship in Environmental Studies
- Finance - FIN 450 College of Business Administration Internship
- Geography/Earth Science - GEO 450 Geography Internship/ESC 450 Geography Internship
- History - HIS 450 History Internship/Field Experience
- Information Systems - IS 451 CBA Management Information Systems Internship
- International Business - IB 450 International Business Internship
- Management - MGT 450 College of Business Administration Internship, MGT 452 College of Business Administration International Internship
- Marketing - MKT 450 College of Business Administration Internship
- Microbiology - MIC 450 Internship in Microbiology
- Modern Language - FRE 450 National/International Intern Program/GER 450 National/International Intern Program/SPA 450 National/International Intern Program (listed separately under French, German and Spanish)
- Teaching English to Speakers of Other Languages - TSL 450 TESOL National/International Internship Program
- Physics and Astronomy - PHY 450 Physics and Astronomy Internship/AST 450 Physics and Astronomy Internship
- Political Science - POL 450 Internship in Political Science, POL 451 Internship in Criminal Justice
- Psychology - PSY 450 Fieldwork Experience in Psychology: Undergraduate Internship
- Sociology - SOC 450 Internship in Sociology, SOC 451 Internship in Criminal Justice
- Theatre Arts - THA 450 Internship in Theatre Arts
- Women, Gender and Sexuality Studies - WGS 450 Internship in Women's Studies
Current student information

A university education consists of more than what goes on in the classroom. A great deal of learning takes place through involvement in organizations, research, and community service. Students have an abundance of choices to develop leadership skills, form relationships, volunteer, make a difference, and have fun.

Campus resources include helpful information about UW-L academic organizations along with some community resources. The on-campus life section has information on how students can get involved and make the most of their college experience.

Academic advising

Faculty advisers are assigned to each student based on academic major. Advisor assignments can be found in the WINGS Student Center. Advisers may be consulted for major and career choices and concerns, course sequencing and selection, and a variety of other issues. Students should schedule a minimum of one conference per semester with their advisers. Frequently this is done when planning next semester's class schedule.

Other advising resources include the Academic Advising Center, Career Services Office, and the Counseling and Testing Center. The staff in these offices provide academic, career and personal counseling, and make referrals when appropriate. These resources, particularly the Academic Advising Center, are useful for students who have not declared an academic major or are uncertain about a major or career.

Academic assistants to the deans are knowledgeable about university policies and procedures. They assign faculty advisers and notify students of their academic status. They determine whether students have completed all General Education, college core, major, minor, and university requirements for graduation. You should schedule an appointment with the assistant in your college dean's office one semester prior to graduation to confirm that all requirements will be met.

The Advisement Report (AR) is an important advising tool and is available in the WINGS Student Center under "Academic Requirements." The AR identifies requirements that have been completed and those that remain. Using your AR is the best way to ensure that you are taking exactly the courses you need for graduation. You may be thinking of changing your program of study and wonder how that change would affect your progress. You can use the What If AR to set up and request a simulated or "what-if" advisement report based on alternate programs of study. This provides an opportunity to determine how one's courses fit into a different major, and what requirements would need to be met. ARs are available in the online WINGS Student Center. If you have any questions about how your courses are applying in the AR, please see your dean's office.

Academic Advising Center

1140 Centennial Hall
608.785.6950
advising@uwla.edu
www.uwlax.edu/Academic-Advising-Center

The University of Wisconsin-La Crosse Academic Advising Center is committed to providing all students developmental academic advising grounded in teaching and based on valuing a liberal arts education. Through this process, students develop the skills and self knowledge to be adaptable and reflective life-long learners. This results in the ability to set personal goals and to make intelligent educational, career, and life choices to achieve those goals.

Undeclared majors: Most of the center's work is focused on students who have not decided on an academic major. In addition to a staff of professional advisers, there are resources to assist with academic and career decision-making, including Career Locker and other web-based programs that can help students explore their interests, values, skills, potential majors and occupations. Staff members meet individually and in group advising sessions to assist students with their majors and career choices, course registration, Advisement Reports, general education requirements and academic policies and procedures.
Declared majors: The Academic Advising Center staff supports the advising that is carried out by faculty and academic staff in the colleges, departments, and other academic units. While students who have declared their major/minor should meet every semester with their designated faculty adviser, they are also welcome to utilize the services of the Academic Advising Center.

The ACCESS Center
165 Murphy Library Resource Center
608.785.6900
www.uwlax.edu/access-center
The University of Wisconsin-La Crosse is committed to providing equal educational opportunities for all students. Students with disabilities on our campus are offered a variety of services to ensure that both facilities and programs are accessible. The ACCESS Center for student with disabilities can assist students in obtaining reasonable accommodations at the university.

If you have a physical, sensory, emotional, or learning disability, you should meet with personnel from The ACCESS Center during your first semester on campus. Contact personnel at the office immediately after acceptance into the university.

Campus Climate
1120 Centennial Hall
608.785.5094
www.uwlax.edu/campus-climate

Formed in 2005 as a project of Plan 2008, the Research & Resource Center for Campus Climate envisions a campus environment where the individual and collective are committed to welcoming, including, and engaging the experiences and perspectives of all. Through fostering dialogue, respect, critical thinking, personal growth, and social action, we believe in the power of awareness, the strength of understanding, and the potential of bridging cultures across difference. To that end, our mission is to facilitate, sustain and advance an organizational culture and climate that supports principles of social justice, equity, inclusion and community.

A couple of our most recognized efforts include:

AWARENESS THROUGH PERFORMANCE (http://www.uwlax.edu/Campus-Climate/Awareness-through-Performance-%28ATP%29) - Awareness through Performance is a student group that works toward promoting greater consciousness around social justice, diversity, and climate issues on the UW-L campus and beyond. Using the stage as their forum, students creatively challenge systems of privilege and oppression and strive to plant seeds of social responsibility, inspire critical thought, and spark a campus-wide conversation.

HATE & BIAS RESPONSE (http://www.uwlax.edu/Campus-Climate/Hate-Response-Team) - The Hate Response Team (HRT) exists to combat the many forms of hate/bias and all manifestations of prejudice and intolerance through consistent assessment of the campus climate, proactive educational efforts for all, and comprehensive response and counsel to the individual and collective impacted by hate/bias. Through the online Hate/Bias Incident Report (http://www.uwlax.edu/Campus-Climate/Hate/Bias-incident-report), the Hate Response Team seeks to collect information on any and all incidents of hate, bias and discrimination motivated by a person's actual or perceived identity, which could include race, ethnic background, nationality, sex, sexual orientation, gender identity, gender expression, disability, or religious affiliation.

Campus safety and parking

Police Services
605 17th St. N.
608.789.9000
www.uwlax.edu/police
The University Police Department exists for the protection of people and property within and adjacent to the university community. The staff of certified (commissioned) police officers strives to provide a safe and secure campus environment. This is done through enforcement as well as engaging in activities with the Student Life Office and Residence Life Office to promote safety and responsible behavior. The officers are available 24 hours a day, seven days a week.

Campus Parking
605 17th St. N.
608.785.8061
www.uwlax.edu/parking/
This unit also works with the campus parking office. Parking space is very limited. Lots designated as commuter parking for students and staff are controlled by permits sold on a first-come, first-served basis. Residence hall parking permits for students living on campus are sold on a priority basis, depending on students’ year in school.

Career Services
1140 Centennial Hall
608.785.8514
www.uwlax.edu/career-services
The Career Services Office assists students in finding meaningful careers. The following services are available to assist in this process:

Career Advising: Students can meet individually with a career advisor to discuss career exploration, job and internship search strategies, resume and cover letter writing, interviewing skills, and graduate school application process.

Career Events: Each year, Career Services coordinates several major career events that allow students to meet employers on an informal basis to discuss career options, internship positions, and employment opportunities.

Online Services: From the Career Services' home page, students can view and apply for regularly updated internships and jobs, sign up for on-campus interviews and upload resumes for employers to view online. The home page also provides a complete schedule of Career Services sponsored career fairs, events and workshops, extensive "how to" information for resume writing, cover letter writing and interviewing, links to the top job web sites and major employer home pages, graduate and professional school information, links to career guidance information, and an annually updated report on employment information of recent UW-L graduates.

On-Campus Interviewing: Employers from business, industry, government, and education visit the campus to interview students for employment opportunities.

Cooperative Education and Internship Program: Internships help students integrate the classroom with practical experience through work related to their academic and occupational goals. These experiences, for which a student can receive credit, include working for regional, national,
and international businesses, government agencies, and community organizations.

To participate in the Cooperative Education and Internship Program, students must meet grade point average and course prerequisites. Students must be at their internship site during the academic term for which they are registered for academic credit. Thirty credits may be taken and recorded on the academic record; however no more than 15 credits are applicable to a degree. Students should contact the Career Services Office during their sophomore year to learn more.

Departmental internships also are offered. See Cooperative Education and Internships (p. 39) for a list of the departments.

Child Center
Eagle Rec Center
608.785.8813
www.uwlax.edu/campus-child-center

The Campus Child Center was established in 1985 to provide care for the children of University of Wisconsin-La Crosse students, staff, and faculty. The Center has built and maintained a reputation for providing quality care to the families they serve. For more information, visit the Campus Child Center (http://www.uwlax.edu/campus-child-center).

Continuing Education and Extension (CEE)
205 Morris Hall
608.785.6504
conted@uwlax.edu
www.uwlax.edu/conted

CEE works with faculty and departments to extend the instructional, research, and public service resources of UW-L to individuals and organizations in western Wisconsin communities and in other parts of the state. Some programs attract national and international audiences.

Graduate and undergraduate credit courses are offered off campus for part-time students, primarily K-12 educators, and health and human service professionals. Collaborative, online bachelor’s degree completion programs and graduate programs are also offered.

Conferences, workshops and other non-credit instructional programs are conducted for selected professional audiences, as well as the general public. A non-credit certificate program is offered in autism spectrum disorders. Learning in Retirement programs are offered specifically for older adults. Continuing education units (CE units) or health education continuing education contact hours (CECHs) are awarded when appropriate.

Science, humanities, and arts enrichment classes also are offered for upper elementary, middle, and high school students.

Credit outreach courses and most non-credit instructional programs are offered in partnership with UW-Extension. Distance learning technologies are used for selected audiences.

CEE staff work with faculty and off-campus individuals to host conferences and annual meetings of professional associations and other organizations.

Cooperative Program with Viterbo University

The University of Wisconsin-La Crosse and Viterbo University, also located in La Crosse, have an agreement for inter-institutional cooperation. The program is designed to enhance the educational opportunities for students of both institutions and to optimize the use of personnel, financial, and physical resources. Authorized students from each institution will be allowed to enroll in selected courses at the other institution.

Specific conditions:

1. Enrollment of any student in any course will be contingent upon the written permission of both institutions.
2. Students must be enrolled as full-time students at their home institution to be eligible for participation in the program.
3. Priority will be given to students from the home institution in courses where enrollments are limited.
4. Students will be allowed to carry a maximum of six credits at the sister institution.
5. Payment of general tuition and fees will be made at the institution at which the student is enrolled full-time.
6. Any special course fees, i.e. for laboratories, physical education, etc., will be paid at the institution at which the course is taken.
7. Only under special circumstances will students be allowed to enroll in courses at the sister institution that are available at the home institution. This will be determined on a case-by-case basis.
8. Summer and winter terms are excluded from the agreement.

If you are interested in participating in the program, contact the Cooperative Program Advisory Coordinator in the College of Science and Health, 205 Graff Main Hall.

Counseling and Testing Center
2106 Centennial Hall
608.785.8073
www.uwlax.edu/counseling-testing

The Counseling and Testing Center (CTC) offers a wide range of mental health and testing services designed to help college students adjust to the university environment and cope with emotional and psychological difficulties, as well as academic and social pressures. The CTC is also home to a Relaxation Room equipped with reclining chairs and massage pads, as well as computer-based biofeedback, guided relaxation, and music programs.

Individual counseling provides an opportunity to talk with a professional counselor about any topic or personal concern. Groups and workshops help students learn new interpersonal skills, improve study skills, or discuss personal concerns in a safe and supportive atmosphere. Couples therapy is also offered when indicated by treatment needs. The CTC staff works closely with the physicians, nurse practitioners, and the psychiatrist at the Student Health Center to coordinate any medical care that might be needed. Information shared in counseling sessions is confidential in accordance with Wisconsin Statutes.

Our professional staff consists of psychologists, counselors, social workers, and supervised professionals-in-training. Staff members have considerable experience in working with college students and use various short-term methods of individual and group counseling to help students achieve their goals. The CTC is a training site for graduate level practicum and intern students, as well as post-doctoral psychology fellows who work under the supervision of licensed professional
psychologists and counselors. We strive to empower students to recognize and improve their own capacity for wellness and healing. Our staff believes that good mental and emotional health are imperative to both academic and interpersonal success. Most counseling center services are funded by student segregated fees and are available to all currently enrolled students.

Several national testing programs are administered for UW-L students and community members in a paper/pencil format. Available exams include the ACT, CLEP, CHES, LSAT, Miller Analogy, SAT, and Wisconsin Placement Tests. The Counseling and Testing Center also serves as a computer-based testing center for Castle World Wide, PAN (Performance Assessment Network), and Pearson/VUE. The GRE, Praxis/PPST, TOEFL and MCAT exams are available through agreement with Education Testing Service. As a member of the National College Testing Association’s Consortium of College Test Centers, CTC also provides proctoring for UW-L students and community members for those who are taking correspondence, online or distance courses, in addition to those individuals needing professional certification for employment. For more information on proctoring services, see the National College Testing Association (http://www.ncta-testing.org/cctc).

First Year Experience
149 Graff Main Hall
608.785.8055
www.uwlax.edu/first-year-experience

Student Life - First Year Experience is responsible for programs such as New Student Orientation and Family Weekend. It exists as a resource to assist in the transition of new students and their families by building partnerships through communication, programming, and resources. Please call, email, or drop-by to ask a question or to chat about your experience as a new student at UW-L.

Information Technology Services (ITS)/Help Desk
Information Technology Services
Wing Technology Center
www.uwlax.edu/its

Eagle Help Desk
103 Wing Technology Center
608.785.8774
helpdesk@uwlax.edu
www.uwlax.edu/its/Eagle-Help-Desk

ITS provides our campus community with the technology necessary to facilitate and enhance learning through these services: computer labs and classrooms, personal file storage, distance education, lecture capture, Eagle Help Desk, EagleApps (email) powered by Google, network, and personal file storage. Students can access their academic information, tuition, and fees and register for classes online using WINGS. Many courses offer online resources through Desire2Learn (D2L), the campus supported course management system. Many of these resources are available on or off campus through a web browser. Computing and network information resources are widely used to support instruction, research, student services, and communication and to create a community of shared inquiry. Principles of responsible use, to which all users are bound, are included in the student (http://www.uwlax.edu/ITS/Student-technology-guide) and staff (http://www.uwlax.edu/ITS/Faculty-and-staff-technology-guide) handbooks.

ITS open computing access labs (http://www.uwlax.edu/ITS/Computer-classrooms-and-labs) are located in Murphy Library and Cartwright Center. The labs have computers using Windows 7 and Macintosh operating systems. A wide variety of application software including Microsoft Office is available. Pay-for-print laser printing is available in ITS computing rooms, and the Eagle Help Desk has more information about printing on campus (http://www.uwlax.edu/ITS/Pay-for-print).

The Eagle Help Desk provides free technical assistance. Assistance is available by phone, email, live chat, web, or on a walk-in basis. For self-help and more support resources, please visit the Help Desk (http://www.uwlax.edu/ITS/Eagle-Help-Desk).

The campus network reaches all buildings, including residence halls. Residence halls have individual network connections in each room; plus, a computer lab in each hall is available to residents. Wireless network connectivity is available in all academic buildings, residence halls, and many public areas on campus, both inside and outside, for students with mobile computers.

International Education & Engagement
1209 Centennial Hall
608.785.8016
www.uwlax.edu/international-education

International student services
International student advisors are located with International Education & Engagement. The advisors play an important role in assisting new international students in their adjustment to UW-L and life in the United States. Although a primary function is advising students on immigration regulations, International Education and Engagement and the international student advisors provide other important services:

• Pre-arrival information containing details about transportation and arrival, health insurance, housing, life in La Crosse, and orientation.
• Orientation programs scheduled each semester before classes to acquaint new students with university academics, facilities, procedures, life in La Crosse, money and banking, immigration laws, and campus and community organizations.
• Administration of U.S. Citizenship and Immigration Services (USCIS), Department of Homeland Security (DHS), and Department of State (DOS) regulations in areas such as work authorization, transfer of schools, practical training authorization, and extension of stay.
• Referral services to other university offices and community agencies.

The international student advisor serves as a liaison with other organizations that provide international students various opportunities to meet and interact with people from UW-L and the La Crosse community. One organization is the La Crosse Friends of International Students (LFIS). LFIS is an organization actively involved with international students at UW-L. This group organizes welcome activities for new international students and coordinates Friendship Families for all interested students.

UW-L offers many recognized university student organizations (https://uwmyorgs.collegiatealink.net) to domestic and international students. Membership provides an opportunity to become involved on campus and in the community. Many of these activities emphasize educational, social and cultural sharing, as well as the development of a more global campus perspective.

Academic programs abroad
UW-L and International Education & Engagement offer students a range of academic programs for full university credit at leading universities well matched to the needs and interests of UW-L students. Program costs
are, on average, comparatively less than many other university programs nationwide.

The university encourages students to study in a foreign country to enrich their university training and enhance career opportunities. International study programs provide special opportunities for advanced study of the humanities, social sciences, international business, and the arts. Language study programs are coordinated with modern language course work at UW-L so that students may continue their progress in an appropriate sequence.

International Education & Engagement has a resource room with information on UW-L programs including course catalogs, videos and host country information. Study abroad peer mentors are also available during regular office hours to share a student perspective on study abroad experiences in a variety of countries and programs.

**Academic program abroad categories**

1. Exchanges permit students to enroll directly at a foreign university for a semester or year by “trading places” with a student who may come to UW-L from that university. Exchange students take standard classes in the curriculum and otherwise participate fully as regular students at the host university.
2. Study abroad programs also allow students to enroll directly at a foreign university but under the auspices of a specially designed program to accommodate American students.
3. Provider programs are study abroad companies that offer international programs for American students. Their sites may be affiliated with a foreign university or designed as a study center exclusively for American students.
4. Study tours are short-term credit-bearing programs (summer, winter intersession, or spring break) led by UW-L faculty which allow students to focus on specific issues, themes, or world regions. Destinations may vary each academic year.
5. Service learning programs are non-credit bearing study tours that offer students the opportunity to take part in a volunteer or service learning experience abroad.

Listed below are the principal academic programs abroad currently available to UW-L students:

- Australia
- China
- Denmark
- Egypt
- France
- Ireland
- Germany
- Israel
- Japan
- Mexico
- National Student Exchange Program (NSE) - domestic placements
- Norway
- Spain
- Sweden
- United Kingdom (includes Scotland)
- Worldwide
  - Academic Programs International (API)
  - Cultural Experiences Abroad (CEA)
  - Council on International Educational Exchange (CIEE)
  - GlobaLinks
- International Student Exchange Program (ISEP)
- International Internship Programs
- International Undergraduate Research (http://www.uwlax.edu/urc/Funding/URCC_grants.htm)

**Academic requirements**

Selection of the appropriate program for each student requires careful consideration of the academic, personal, and financial factors that determine a successful international experience. Group and individual advising sessions with the study abroad staff assist students in choosing an appropriate program. Applicants for academic programs abroad are expected to have a good record of academic achievements. UW-L requires a minimum grade point average (GPA) of 2.50 and successful completion of one semester on campus. However, some programs may require a higher GPA and class standing in order to be eligible.

Upon acceptance into a semester or academic year program, students are required to enroll in INS 250 Orientation to Study Abroad (1 cr.), a course designed to prepare students for a successful international experience. This course examines educational, cultural, political, and other issues that affect a student’s adaptation to foreign environments. Students may also elect to enroll in INS 251 Study Abroad Practicum: Journaling (1 cr.) while abroad, and INS 252 Cross-Cultural Reentry From Study Abroad (1 cr.) upon return, which taken together fulfills a general education requirement.

Academic credit is awarded for all programs, subject to approval of transfer by specific departments. These grades are calculated in a separate transfer GPA and are not included in the student’s overall GPA. Programs offering UW-L resident credit will be included in the overall GPA.

Students wishing to participate in non-UW-L study abroad programs may do so pending review and approval by International Education & Engagement.

**Cost and financial aid**

The university makes every effort to provide academically sound exchange and study abroad programs at reasonable costs. Exchange program fees may be based on tuition, room, and board at UW-L with some additional administrative fees. Study abroad program fees are set by the sponsoring institution. Students may apply financial aid to the cost of the programs. Wisconsin residents are eligible for a need-based grant of up to $2,000. Veterans benefits may apply as well. In addition to financial aid, International Education & Engagement has information on several scholarships and grants that may be used to offset the cost of studying abroad.

**La Crosse Exercise and Health Program (LEHP)**

221 Mitchell Hall
608.785.8683
www.uwlax.edu/La-Crosse-Exercise-and-Health

The LEHP program, in conjunction with the La Crosse area medical profession, comprises two community service units, Adult Fitness and Cardiac Rehabilitation, as well as professional units in Research and Educational Services. Based on laboratory evaluations, individualized programs of diet and exercise are developed by UW-L faculty and technicians in cooperation with area medical personnel. Graduate assistants and undergraduate fitness majors assist during exercise periods in the Mitchell Hall pool and field house or during individual testing sessions in the Human Performance Laboratory. The LEHP offers
an opportunity for practical experience, particularly to students who major in exercise and sport science and health education. Both the graduate degree program in clinical exercise physiology and the undergraduate program in exercise and sport science emphasis enroll students who rely heavily on the LEHP units for their clinical work and supervision opportunities.

**La Crosse Medical Health Science Consortium, Inc.**

3065 Health Science Center
608.785.5150
www.lacrosseconsortium.org (http://www.lacrosseconsortium.org/content/home)

The La Crosse Medical Health Science Consortium (LMHSC) is an alliance of Mayo Clinic Health System-Franciscan Healthcare and Gundersen Health System, the University of Wisconsin-La Crosse, Viterbo University, Western Technical College, the La Crosse County Health Department, and the School District of La Crosse. The medical and higher education partners formed the Consortium in 1993 to provide a means for working collaboratively to provide better healthcare, strengthen the healthcare workforce, and encourage strong health science research initiatives. The Consortium continues to work toward these goals through collaborative projects in population health improvement, nursing, clinical placements, cultural competency, and workforce issues in 20 counties of Wisconsin, Iowa, and Minnesota.

The Consortium is located in, and operates, the $27.1 million Health Science Center (HSC), which opened in 2000. The HSC was built with the support of the five founding partners, the State of Wisconsin, and generous private donations. It houses classrooms and teaching laboratories, research labs, faculty offices, and meeting rooms used by UW-L, Western, and Gundersen Health System. It is also home to the Student Health Center, which serves both UW-L and Western students, and La Crosse Community Dental, a nonprofit dental provider for the community.

**Legal aid service**

The Student Association annually contracts with local attorneys to help students who need legal advice. By contacting Student Life, 608.785.8062, you can make an appointment to see an attorney on campus. All information between attorney and student is kept confidential. It should be noted that legal service is limited to advice, not court appearances. For further information contact Student Life, 149 Graff Main Hall.

**Mississippi Valley Archaeology Center (MVAC)**

Archeology Center and Laboratories Building
608.785.8464
mvac/uwlax.edu

MVAC is an archaeological research, preservation and public education unit of the Department of Archaeology and Anthropology that conducts excavations, surveys, pre-collegiate education, and public programs. MVAC preserves sites and collections and works with archaeologists in the Archaeology/Anthropology Department to provide opportunities for student participation in archaeological research and pre-professional training and experience. The archaeology laboratory is a location for much course-related student research and contains space to curate artifacts recovered from field projects. Field studies are conducted regularly to learn about the prehistoric and early historic cultures of the upper Mississippi River Valley. The MVAC website contains much information on the archaeology of the upper Mississippi River and the public events and activities that MVAC sponsors.

**Multicultural Student Services**

1101 Centennial Hall
608.785.8225
www.uwlax.edu/multicultural-student-services

In connection with the University of Wisconsin-La Crosse mission (http://catalog.uwlax.edu/undergraduate/aboutuwlax/missions), the Office of Multicultural Student Services promotes academic excellence, leadership, and the personal/social development of African American, American Indian, Hispanic/Latino(a), Asian American, and biracial or multi-ethnic students at UW-L. Our goal is to assist students to succeed academically, to enhance their sense of belonging, and to graduate from the university ready to contribute to their communities and the society at large.

**Areas of service and outreach include:** Academic Success Institute (summer bridge program); leadership development and advising for multicultural student organizations; academic and financial aid retention; peer tutoring; personal guidance, support and advocacy for students; cultural, educational, and social programming; and year-round pre-college programs and tutoring. OMSS models inclusive excellence and supports collaborative efforts that promote human understanding, shared values, and respect for individual differences.

**The Academic Success Institute (ASI)**

ASI is a bridge program designed to help first year multicultural and disadvantaged students adjust to a rigorous college routine during the summer before the regular academic year begins. Between 20 and 25 students are enrolled for six weeks of intensive instruction in college level courses and related college experiences. The institute's records have provided proof that retention and grade point averages can be improved appreciably by this transitional academic experience between high school and college.

Students interested in attending the Academic Success Institute must have a need for academic support to successfully complete a college education and must identify as being from one or more of the following groups:

1. First generation college student (neither parent earned a bachelor's degree);
2. Historically underrepresented populations (African American, Native American, South-Asian American, and Latino/Hispanic);
3. Economically disadvantaged.

Submitting an application for admission to the University of Wisconsin-La Crosse is a requirement for participation. Students will also complete an ASI application and be interviewed prior to acceptance into the program. Applications for ASI are accepted until program capacity is reached. For additional questions, please contact the Office of Multicultural Student Services, 1101 Centennial Hall, 608.785.8225.

**Murphy Library Resource Center**

608.785.8507
murphylibrary@uwlax.edu
www.uwlax.edu/murphylibrary

Murphy Library is the campus center for academic inquiry. The library provides access to a vast and diverse collection of electronic and print
resources, facilities designed to accommodate in a flexible manner a variety of learning needs, and technologies that complement and enhance the acquisition and synthesis of information.

The library building offers open, welcoming spaces for study and collaboration as well as individual study carrels, group study rooms, and a café. The open-stack print and microform collections are complemented by map collections, the pre-K-12 Curriculum Center, leisure reading materials, and a media area. A multimedia collection consisting of audio-visual materials in a variety of formats such as DVD, CD-ROM, and videotape is located on the main floor of the library. The library is also a selective depository for state and federal government documents. The Special Collections/Area Research Center contains university archives, rare books, over 3,200 hours of oral history interviews, a photographic collection of approximately 170,000 images, 5,500 books on Wisconsin history, and is a regional depository of over 900 linear feet of manuscripts and public records for the Wisconsin Historical Society. Murphy Library houses the campus’s largest General Computer Access lab. Laptops, iPads, video cameras, and other technology tools are available for checkout. Wireless access is available throughout the library, and adaptive technology is also provided.

The periodicals collection includes more than 159,874 full text journals, magazines, and newspapers available electronically through subscription databases, publisher packages, and individual subscriptions. Over 250 scholarly databases are available to library users, from EBSCOhost Academic Search Complete to Thomson’s Zoological Record. A searchable database provides specific location and linking information for all periodicals available to Murphy Library users. The library’s link resolver helps users discover full text availability from various databases, Google Scholar, Murphy Library, and UW-System holdings. In appreciation of the diverse research available to our users, a LibX toolbar enables users to link back to Murphy Library resources and services from anywhere on the web. Our growing collection of electronic books currently numbers more than 249,000 volumes. Electronic library materials are available campus-wide, and in most cases, off-campus as well.

Murphy Library is rich in international and multicultural materials, supporting campus diversity and inclusivity by providing circulating books, reference materials, multimedia collections, and electronic resources that represent a broad spectrum of groups, cultures, and viewpoints.

All of these materials can be located using our integrated search system linking library holdings, full text electronic materials, and request forms into a single interface. This integrated search system also allows users to find materials in local and regional catalogs along with resources for finding materials held in libraries worldwide. By cooperative agreement, students may use the libraries of Viterbo University, Western Wisconsin Technical College, the La Crosse Public Library, and area medical centers. Universal Borrowing allows UW-L faculty, staff, and students access to millions of items throughout the University of Wisconsin system, and Interlibrary Loan provides access to additional materials facilitated by resource-sharing partnerships throughout the world.

For more information, please visit Murphy Library (http://www.uwlax.edu/murphylibrary).

**Planetarium**

020 Cowley Hall
608.785.8669
www.uwlax.edu/planetarium

The Planetarium has served the university, area schools, private groups, and the general public since 1966. Several thousand people attend presentations at the Planetarium each school year. Bright stars and major constellations are pointed out in the simulated sky for school groups, private groups, and public programs. Each of these programs also includes a multimedia presentation on various subjects in astronomy and space science. There are monthly public programs at 1:00 pm on Saturdays in October, November, December, February, March, and April. Album Encounters are multimedia light and laser shows set to rock music. They are at 8:00 pm on Fridays when classes are in session. For information on programs, see the UW-La Crosse Planetarium (http://www.uwlax.edu/planetarium) or call 608.785.8669.

**Records and Registration**

117 Graff Main Hall
608.785.8576
www.uwlax.edu/records

**Records/transcripts**: Academic records are confidential between the student and the university. Students may request transcripts of their permanent academic records at any time, provided they are not financially encumbered to the university. Transcripts may be requested in person, online, or by writing to the Office of Records and Registration. Additional transcript information (http://www.uwlax.edu/Records/Transcript-request-procedure) is available online. There is a fee for official transcripts. Transcripts will not be released without the student’s authorizing signature. Under no circumstances will partial transcripts be issued.

**Registration**: The university has online registration via the WINGS Student Information System. Each student is assigned a registration time based on credits earned. The assigned time is listed on each student’s WINGS Student Center, as well as on a student’s Advisement Report (AR). When planning a course schedule, students consult the online Timetable (http://www.uwlax.edu/Records/registration) which contains the schedule of classes for the current and next term(s). Complete instructions for registration (http://www.uwlax.edu/wings) and later schedule changes (http://www.uwlax.edu/Records/Forms) (dropping/adding after the term has started) can be found on the Records and Registration website.

Registration for spring semester and winter intersession begins in November, summer registration begins in mid-February, and fall registration follows in mid-April. Students register at an assigned time or any time after that through the fifth day of classes (third day for summer session) unless enrollment limits have been met. New first year students register in the summer at special registration sessions. Some departments require advising prior to registration. New students (including transfers) must pay a deposit before registration. Continuing students must have a zero balance on their account. The registration system will not permit a student to enroll in a class for which a prerequisite has not been completed. Registration is closed at the end of the second week of classes in a semester and after one week in a summer session.

If the university’s enrollment management plan will permit registering additional students, late registrants for a semester or summer session will be accepted and enrolled under normal late registration policies and procedures.

**Residence Life**

Eagle Hall
608.785.8075
www.uwlax.edu/reslife
The Office of Residence Life team mission statement reads, "The University of Wisconsin-La Crosse Residence Life Program is an integral component of the University’s educational mission. We provide reasonably priced and well maintained living/learning environments which are designed to foster learning, community, personal growth, responsibility, respect, leadership, and citizenship."

Over one-third of the undergraduate students enrolled in the university reside in one of the eleven residence halls with a total occupancy of 3,200 including two new residence halls which provide apartment and suite style living for 880 students.

Residence halls are group living and learning centers financed and maintained solely by revenue from residents. Several living/learning arrangements are offered to meet individual needs: an upper-class hall, first-year experience halls, gender inclusive housing, and specialized living/learning communities exist in our newest residence halls. All halls are co-ed and smoke-free.

Halls are equipped with big screen color TVs, study areas, kitchens, computer rooms, laundry rooms, vending machines, a front desk operation, and games such as ping-pong, pool, and foosball. All student rooms have hard wired internet connection, one port per resident, and wireless connectivity throughout the hall.

Recreation, social, personal development, intramural sports, and diversity programs are some of the activities planned by residents of each hall with guidance and support from residence life staff members. Students are encouraged to assume leadership roles and take an active part of their living community via hall council or the Residence Hall Association Council (RHAC).

Entering students, after paying the $75 housing deposit, may indicate a living arrangement, specific hall, and/or roommate preference when you complete the online housing application. Priority for housing and meeting specific requests is based on the date of your housing application. In addition, a web-based roommate finder program is available.

Specific housing regulations are communicated to all residents through our polices and procedures (http://www.uwlax.edu/ResLife/Policies-and-Procedures) and the student handbook, Eagle Eye (http://www.uwlax.edu/StudentLife/Student-handbook). These regulations are consistent with the conduct code referred to in this catalog and have been formulated by the chancellor under the authorization and direction of the UW System Board of Regents.

Off-campus living opportunities (http://www.uwlax.edu/ResLife/Guide-for-living-off-campus) are also available. Rental agreements are between students and their respective landlords. The university does not inspect or approve off-campus housing.

**River Studies Center**

4043 Cowley Hall
608.785.8261
www.uwlax.edu/river-studies-center

The River Studies Center, created in 1972, is a non-curricular unit established to focus on research and informational programs pertinent to the Upper Mississippi River and its related resources. During the past 40 years, the Center has expanded its research program to other aquatic resources, including rivers, streams, lakes, and wetlands across Wisconsin, the Upper Midwest, and the nation. The Center has extensive interdisciplinary collaborative partnerships with several state and federal agencies and with other universities, including the U.S. Geological Survey, the Wisconsin Department of Natural Resources, the Minnesota Pollution Control Agency, the National Park Service, the University of Wisconsin-Madison, and the U.S. Environmental Protection Agency. The research of Center faculty addresses resource issues and environmental problems of pressing regional and national concern, such as environmental pollutants and contaminants that have caused widespread degradation of our aquatic resources. Faculty affiliated with the Center are highly competitive and successful in securing financial support for sustained aquatic environmental research. Scholarly investigations by the Center have provided research opportunities to nearly 100 graduate students and more than 250 undergraduates.

**Small Business Development Center (SBDC)**

120 Wimberly Hall
608.785.8782
www.uwlax.edu/sbdc

The SBDC helps business owners start and grow their businesses through research, on-site programs, advising and educational programming. As one of Wisconsin’s Small Business Development Centers, the SBDC taps statewide resources to help business managers solve business challenges. It provides businesses with information and guidance in starting, maintaining, and expanding a small business including innovative, high potential businesses. Funding from the Small Business Administration supports the counseling.

Case studies sometimes are conducted by advanced students under faculty supervision.

In partnership with UW-Extension, the SBDC provides non-credit continuing education programs for business people in a seven-county region. Topics include business plan development, marketing, sales, finance, human resources, and other small business concerns. The Supervisory Management Certificate Program provides practical training for both new and experienced managers. In addition, the SBDC provides speakers, programs, and trainers to individual firms and groups.

Some research, such as feasibility and impact studies, is conducted for area businesses. Local economic data is accessed through the SBDC website.

**Student Health Center**

1st Floor, Health Science Center
608.785.8558
www.uwlax.edu/student-health-center

The Student Health Center, a member of the American College Health Association, provides medical, nursing, and physical therapy services in the form of outpatient and urgent care as well as prevention of illness or injury. The staff consists of Board Certified physicians, a certified nurse practitioner, two registered nurses, physical therapists who are also certified athletic trainers, physical therapist assistants, medical lab technologists, health information managers, and office staff. The Health Center staffs are experienced in working with the health care needs of college students and are dedicated to providing high quality care and assistance.

Services are available to students who are registered for credits each semester. The student health fee is automatically included in the student fee statement.

Students are not required to have insurance to receive care at the Health Center. Payment of student fees covers this cost. However, students are strongly encouraged to obtain supplemental hospital-accident insurance to cover such expenses as hospitalization, emergency services, specialist care, pharmacy, and ambulance transport. The student health fee does
not cover these costs. If coverage is available through a family plan, students are urged to have the name of the insurance carrier and policy/subscriber numbers available on campus.

All information in a student’s health record is entirely confidential and is not released to anyone without the student’s written consent. Students may schedule an appointment to review their medical records.

Students can be seen at the Health Center by scheduled appointments, same day appointments, and urgent clinic. Appointments are available weekdays when school is in session from 8 a.m. - 4 p.m. on Monday, Thursday, and Friday; 8 a.m. - 7 p.m. on Wednesday; and 9 a.m. - 4 p.m. Tuesday. Students who need emergency medical care when the Health Center is closed should go to the emergency department or walk-in clinic of either of the La Crosse hospitals.

Student Life
149 Graff Main Hall
608.785.8062
www.uwlax.edu/student-life

Student Life staff serve as advocates to promote the interest of students within the university. Their goal is to facilitate student success by maximizing the use of the services available and to intervene on students’ behalf when requested and appropriate. Staff are prepared to address the following issues:

• advising and referral of students who experience personal crises
• investigation of student complaints (ombuds role)
• advocacy and advisement for returning adult students (non-traditional aged)

Student Life is also designated with the responsibility of enforcing the various conduct codes on campus, which can be found in the Eagle Eye. If you experience harassment, discrimination, assault (physical or sexual), or have questions regarding your rights and responsibilities, visit Student Life for confidential advice and guidance.

In addition, the staff provides mediation services to students who may experience interpersonal conflict(s) and are interested in working toward resolution.

Student Life/Violence Prevention
149 Graff Main Hall
608.785.8062
www.uwlax.edu/violence-prevention

UW-L recognizes that violence in any form interferes with the work and learning taking place in our community. Often, someone who experiences a sexual assault, stalking, or violence or abuse in a relationship, may find that they have difficulty focusing on work or on their studies. Student Life/Violence Prevention is here to assist with advocacy, information, and support, so that you can make informed choices about the options available to you in these situations. Services are free, confidential, and available to all UW-L students, faculty, and/or staff members.

In addition to advocacy, the Violence Prevention Specialist is available to provide education and training on campus. Contact us to learn more or to schedule a classroom presentation or training session.

Student Life/Wellness Resource Center
Wellness Resource Center
149 Graff Main Hall
608.785.8977

www.uwlax.edu/wellness

The mission of the Wellness Resource Center is to empower students and staff by providing them with the knowledge and tools necessary to lead a healthy, balanced lifestyle. People have a natural impulse for health and an innate wisdom about what is best for them. The Wellness Resource Center’s job is to help minimize or remove the barriers that interfere with that impulse and cultivate an environment in which the potential for health flourishes.

The Wellness Resource Center is committed to the UW-L campus community. By guiding their behaviors we allow for a more holistic, balanced lifestyle where students, staff and faculty are able to achieve their full potential.

Student Support Services
2131 Centennial Hall
608.785.8535
www.uwlax.edu/student-support-services

Student Support Services is a federally funded TRIO program that has been at the university since 1978. Each year, the program provides services to 350 students who meet federal eligibility requirements. A student must meet one of the following criteria to be considered eligible for services:

1. First generation college student (neither parent graduated from a four-year college or university);
2. Receive a substantial amount of financial aid;
3. Have a diagnosed physical and/or learning disability.

Services provided through the program include: individualized academic, personal, financial, and career advising; and professional and peer tutoring in a variety of topics including math, English, and science.

Tutoring Services
Murphy Learning Center
256 Murphy Library
www.uwlax.edu/murphy-learning-center

The Murphy Learning Center

The Murphy Learning Center is a place where all UW-La Crosse students can receive free tutoring services in a variety of general education courses. The Murphy Learning Center is located in 256 Murphy Library and is mainly staffed by peer tutors. Tutoring is available for Mathematics, Writing, Biology, Chemistry, Earth Science/Geography, Microbiology, and Physics. Tutors can assist with homework, preparation for quizzes or tests, learning vocabulary, and special projects as well as gaining an understanding of the general concepts. Hours vary depending on the subject. Visit the Murphy Learning Center (http://www.uwlax.edu/murphy-learning-center) for more details.

Mathematics: Mathematics and Statistics tutors are available in the Murphy Learning Center. In addition, the Mathematics Department keeps a list of private tutors available in the department office, 1020 Cowley Hall.

Writing: The Writing Center is housed within the Murphy Learning Center. The center is open at no cost to all students who seek help with their writing in any class. Students may be referred to the center by their professors, but many students come to the center on their own. Students should make appointments to be tutored, but drop-ins are welcome if tutors are available.
Writing Center (http://www.uwlax.edu/Murphy-Learning-Center/Writing-center) staff assists students at any stage of the composing process: understanding an assignment, finding a topic, identifying an audience, developing materials, planning and organizing, writing a rough draft, and revising. The staff does not proofread student papers. Visit the Writing Center for more information.

Upward Bound
176 Murphy Library Resource Center
608.785.8539
www.uwlax.edu/upbound

Upward Bound is a federally funded program for low income and/or first generation college bound high school students. It is funded under Title IV of the Higher Education Act of 1965 and is one of the TRIO programs created by Congress to help students overcome educational, social, cultural, and financial barriers to higher education. Services include weekly tutoring and advising, monthly Saturday activities, college visits, career exploration, and a six-week summer residential program. Funded at UW-L since 1979, the program serves eligible students from La Crosse and Monroe counties.

Veterans Educational Benefits
116 Graff Main Hall
608.785.8751
www.uwlax.edu/veteran-services

The Veterans Educational Benefits office is a resource to help facilitate the transition from the military to university life. They assist students in applying for and receiving their federal and state veteran educational benefits and understanding how those benefits are best used at UW-La Crosse. For more information, visit Veterans Educational Benefits (http://www.uwlax.edu/veteran-services).

Alumni Association
Cleary Alumni & Friends Center
608.785.8489
www.uwlalumni.org (http://www.uwlalumni.org)

The UW-La Crosse Alumni Association builds and maintains relationships among alumni, students, friends, and the university. The Association’s primary goal is to keep alumni engaged with the university and to ensure “The La Crosse Experience” lives on for generations to come.

The Alumni Association makes UW-La Crosse stronger by:
• Supporting alumni networks
• Contributing to “Legacy” scholarships
• Keeping alumni informed about what is happening on campus
• Contributing to alumni activities around the world
• Providing support for today’s students

For information regarding programs, benefits, services, and how you can get involved, visit the UW-L Alumni Association (http://www.uwlalumni.org).

The UW-La Crosse Alumni Association. For you. For La Crosse. For a lifetime.

Departmental honors programs policy

Departmental honors programs are available in the Departments of Economics, English, Geography, Microbiology, Modern Languages, Philosophy, Physics, Political Science and Public Administration, Psychology, and Sociology and Archaeology.

Designed to provide opportunities for special in-depth research, reading and writing for majors in the departments listed above, department honors programs also emphasize independent and creative work with highly personalized student-teacher contact and discussion.

The minimum requirements for all departmental honors programs are:

1. Admission: junior standing, 12 credits in major, 3.25 cumulative grade point average at graduation, recommendation of two faculty members from major department.
2. Program: completion of the regular major, one course in a seminar, independent study, research study, or other appropriate honors options within the major program of study.
3. Evaluation: a cumulative 3.50 grade point average at graduation in the major, distinguished performance on a paper or project (a project might be a ballet in the area of the arts, or a study of some aspect of local economic conditions in the area of business), and presentations of the paper or project to a colloquium of faculty and students in the major.

Honors programs may vary by department. See departmental listings underneath the colleges and schools.

Additionally, there are numerous student honor organizations. See the “Honor and Recognition Society” category in the online listing of recognized student organizations on MyOrgs (https://uwmyorgs.collegiatelink.net).

Intercollegiate athletics
126 Mitchell Hall
608.785.8616
www.uwlathletics.com (http://www.uwlathletics.com)

The University of Wisconsin-La Crosse has a longstanding commitment to excellence in both the academic and physical development of its students, as memorialized in the University’s seal, which is emblazoned with the phrase “mens corpusque” (“mind and body”). The intercollegiate athletics program sponsors 19 sports competing as a member of the National Collegiate Athletic Association (NCAA) Division III, the National Collegiate Gymnastics Association (NCGA), and the Wisconsin Intercollegiate Athletic Conference (WIAC). UW-La Crosse’s rich history in intercollegiate athletics is highlighted by 65 national championships, 376 conference championships, and thousands of All-American
performers. Just as importantly, UW-La Crosse’s student-athletes have set a high bar in the classroom, with a cumulative GPA that consistently ranks as the highest in the WIAC and, for 12 out of the last 13 years, has exceeded the GPA of UW-La Crosse’s general student body. The nearly 600 student-athletes competing in UW-L Athletics embody the program’s mission: Building Champions. In Sport. In School. In Life.

UW-La Crosse Athletics is committed to equal opportunity for student-athletes and staff. The program offers 10 women’s sports (basketball, cross country, gymnastics, soccer, softball, swimming and diving, tennis, indoor and outdoor track and field, and volleyball) and nine men’s sports (baseball, basketball, cross country, football, swimming and diving, tennis, indoor and outdoor track and field, and wrestling).

The intercollegiate athletics program is under the leadership of a director and deputy director of athletics, both of whom lend strategic direction to, and supervision of, a staff of more than 80 dedicated professionals providing comprehensive instruction and services to UW-La Crosse’s student-athletes. In addition to 14 head coaches and more than 50 assistant coaches, the staff includes an administrative assistant, four certified athletic trainers, three strength and conditioning coaches, three facility managers, two marketing and event management professionals, a sports information director, an equipment manager, and a director of camps and clinics.

UW-L Athletics is a member of the Division of Student Affairs and, as such, the director of athletics reports to the vice chancellor/associate vice chancellor of students. Two faculty athletics representatives provide academic oversight to the athletic program. In keeping with the campus commitment to shared governance, an Athletics Committee comprised of students, faculty, and staff monitors and advises the program on budgetary matters. A Student-Athlete Advisory Committee that includes representatives from every sport program meets regularly and consults with the program’s leadership.

### McNair Scholars Program

106 Graff Main Hall  
608.785.6913  
www.uwlax.edu/mcnair-scholars

The Ronald E. McNair Post-Baccalaureate Achievement Program is federally funded by the United States Department of Education to provide eligible students with support and preparation for graduate school. McNair Scholars must either be low-income, first generation college students AND/OR be members of a traditionally underrepresented group in their field (usually African American, Latino/a, Native American and/or Asian Pacific Islander). The program at UW-La Crosse began in October of 2009 and is housed in the College of Science and Health. The program considers students from all majors that would lead to a Ph.D. as the terminal degree.

### Music activities

608.785.8409  
www.uwlax.edu/music

The Department of Music welcomes all University students by audition into its performing organizations. Most of the student ensembles function as part of the curriculum for our music majors and minors, but qualified non-music major students from all colleges and programs make up a large percentage of the participants in our ensembles. There are a variety of music ensembles available including: Orchestra, Wind Ensemble, Symphonic Band, Screaming Eagles Marching Band, Jazz Bands and combos, Concert Choir, Women’s Chorus, Mannerchor, Chamber Choir, Vocal Jazz Choirs, Korean Percussion Ensemble, and various other chamber ensembles. The large ensembles regularly perform on tours in the state, nationally and internationally. Auditions are required for admission and placement. Contact the Department of Music for details on audition dates, times, and repertoire. For students who enjoy listening to music, the abundance of concerts presented by our ensembles throughout the academic year provide ample opportunities to attend a wide spectrum of musical events.

### Recognized student organizations

For a current listing of over 190 UW-La Crosse recognized student organizations, visit MyOrgs (https://uwmyorgs.collegiatelink.net).

### Recreational sports

130 Recreational Eagle Center  
608.785.5225  
www.uwlax.edu/recsports

UW-L students study hard, work hard, and play hard. Once you put down your books, check out what the Rec Sports Department has to offer. We have programs and facilities designed to help you stay active, meet new friends, and reduce your stress levels. Programs include: intramural sports, sport clubs, group fitness classes, special events, Outdoor Connection gear rental, trips, and climbing wall.

Recreational Eagle Center houses a climbing wall, 200 meter elevated track, two racquetball courts, four basketball courts, six volleyball courts, three badminton courts, multi-purpose room, strength and fitness center, cardiovascular equipment, aerobics studio, conditioning room, locker rooms with showers, outdoor trips and rental program.

Mitchell Hall houses a swimming pool, climbing wall, 200 meter track, three basketball courts, six tennis courts, indoor ropes course, dance studio, sports performance center, wrestling room, and locker rooms with showers.

### Student Association and student government

235 Cartwright Center  
608.785.8775  
www.uwlax.edu/student-association

Chapter 36 of the Wisconsin State Statutes reads: “The students of each institution or campus shall have the right to organize themselves in a manner they determine and to select their representatives to participate in institutional governance.” To exercise that right, the students have established the University of Wisconsin-La Crosse Student Association (UWL-LSA) (http://www.uwlax.edu/student-association). Each student enrolled at UW-L is a member of the UW-LSA. The student government is divided into three branches: executive, legislative (Student Senate), and judicial. The executive and legislative branches are elected by the members of the UW-LSA each year. The judicial branch is appointed by the executive branch and approved by the legislative branch. The Student Association seeks to provide a student voice by advocating for student rights and responsibilities, fostering leadership, communicating student issues, and demonstrating respect for diversity in their actions.

### Student-faculty committees

The Academic Affairs Committee is responsible for providing input on academic issues from the student perspective. This committee promotes the highest standards of academic integrity throughout the entire university community. It also reviews graduation regalia applications,
selects graduation speakers, and reviews student technology fee allocations and other technology issues.

The Academic Initiative Oversight Committee (AIOC) is responsible for the annual distribution of academic initiatives differential tuition money to programs which fall under one of four cornerstones: advising, research, internationalization and diversity. AIOC is a made up of students, faculty and staff members who must determine how to allocate the budget so as to be the best advocates of student money through program presentations and budget deliberations.

The Segregated University Fee Allocation Committee (SUFAC) recommends to the student senate the manner in which funds collected by the state for support of student activities are to be distributed among eligible organizations. The committee also allocates funds to eligible groups for equipment and supplies, reviews requests for the Sustainability Fund, and makes recommendations to the student senate.

The Athletics Committee is responsible for recommendations to SUFAC for funding of activity fees used in support of athletic programs, and for recommendations to the Student Senate regarding policies affecting the athletic program.

The Cultural Affairs Committee is responsible for making recommendations to the SUFAC Committee regarding distribution of student activity fees used for programs that enhance the UW-La Crosse environment. The committee also helps select recipients of the Academic Initiative stipend for students studying abroad.

The Legislative Affairs Committee is responsible for encouraging student participation in voting and other events and maintaining these by-laws of the various Student Senate committees.

The Organizations Committee is responsible for recommendations to the Student Senate for the formulation of general policies concerning student organizations, and for recommendations regarding the distribution of the allocable fees for programming organizations.

The Student Services and Buildings Committee recommends policy concerning services provided to students. In addition, it is responsible for making recommendations to SUFAC for distribution of segregated fees for recreation, sport clubs, and student media.

**Student governance associations**

Student governance expands beyond the UW-L Student Association on campus. There are two other communities that have a structured governance component: the Fraternity and Sorority Life Community and Residence Life. The Panhellenic Council (http://www.uwlax.edu/University-Centers/Panhellenic-Council) and the Interfraternity Council (http://www.uwlax.edu/University-Centers/Interfraternity-Council) serve as the governing bodies for the social sororities and fraternities. The Residence Hall Association Council (http://www.uwlax.edu/RHAC-Welcome) (RHAC) formulates general policies for and serves as an administrative and judiciary agency governing residence halls.

**Undergraduate Research and Creativity Program**

223 Graff Main Hall  
608.785.8040  
www.uwlax.edu/urc

Highly motivated students can gain practical experience in their field of study at UW-L by pursuing an undergraduate research/creativity project in close association with a faculty member of their choice. The undergraduate research experience is much like an apprenticeship and is most suitable for students interested in gaining additional experience in their area of discipline.

Course credit may be earned for such research or creative activity, and an undergraduate research project could serve as a basis for a departmental honors thesis. UW-L faculty also may have paid summer positions available for student researchers. Because of the wide variety of possibilities for undergraduate research or creative experiences, students should speak directly with individual faculty members to determine the types of opportunities and specific projects available.

In general, the procedure for carrying out an undergraduate research project involves four steps:

1. Selecting a topic of interest and developing an idea for a project.
2. Speak with faculty members about your interests and select one as a mentor to advise you in your research. Most faculty will have projects or research ideas that they would be happy to discuss with you. Be sure to understand the expectations and commitments required of you.
3. Plan the project, seek funding (whenever possible), and carry out the research/creative work.
4. Disseminate your results in the form of a presentation and/or written manuscript.

To assist students in their undergraduate scholarly activity, UW-L has initiated the Undergraduate Research and Creativity Program, which makes funds available to student researchers on a competitive basis for their projects, hosts the annual Celebration of Student Research and Creativity, and publishes the UW-L Journal of Undergraduate Research. Students (with the help of their faculty mentors) may apply for funding every academic year; awards are made in the fall and spring. Project options are numerous. Proposals can be in your major or another discipline of interest, and could be multidisciplinary. Students may work independently or collaboratively on scholarly work completed in the U.S. or at an international location. Recipients are expected to complete their projects and present their work at the Celebration of Student Research and Creativity one year after receipt of the award. It is advisable that interested students begin speaking and planning their work early in their academic career as possible. Visit the Undergraduate Research and Creativity (http://www.uwlax.edu/urc) website for additional information and undergraduate research proposal guidelines.

**University Centers (UC)**

212 Cartwright Center  
608.785.8888  
www.uwlax.edu/university-centers

University Centers (http://www.uwlax.edu/university-centers) is a financially self-sufficient part of the Division of Student Affairs, comprised of Cartwright Center and Whitney Center. The focus of Cartwright Center is on student involvement and development, while Whitney Center provides the main dining operations on campus. Our objective is to support the academic mission of the institution by providing a wide variety of engaging educational and cultural programs, while supporting students with a multitude of free or affordable services and amenities (http://www.uwlax.edu/University-Centers/Other-Services)

- The Campus Activities Board (CAB) (http://www.uwlax.edu/cab) is a student-run programming board that provides entertaining and educational activities for the entire campus community. Events such as small and large concerts, comedians, coffee house acts, and special events are offered to students, faculty, staff, and the community. Several educational events are offered. These activities may include fine arts programming such as theater, music, lecture, and dance.
The Distinguished Lecture Series also offers the university community an opportunity to hear speakers of national prominence due to their significant contributions to society.

- **The UW-La Crosse Dining Service** offers an assortment of different dining locations within Cartwright and Whitney Centers to meet the variety of needs and tastes of the campus community. Students may select from several contract meal plans, block meal plans, and cash/Campus Cash options.

- **The Diversity Center** is a devoted safe space for students of color, international students, women, LGBTQQQAA students, and students with disabilities. The Center offers meeting, study, and relaxation spaces, a small computer lab, comfortable furniture, a microwave, television, and refrigerator. The Diversity Center is open to ALL STUDENTS.

- **The Fraternity and Sorority Life Community (FSL)** ([http://www.uwlax.edu/University-Centers/Welcome](http://www.uwlax.edu/University-Centers/Welcome)) is rooted in the four pillars of their community: friendships, leadership development, service, and academic excellence. These are values shared by all of our social fraternities and sororities on campus. Members of the community are engaged in a variety of ways, including Brotherhood/Sisterhood programs, participating in service programs on campus and in the La Crosse community, hosting fundraisers for various philanthropic causes, and participating in regional and national leadership conferences. Their goal is to create an environment that encourages each student to reach their fullest potential, while living out their values every day.

- **The Leadership and Involvement Center (LIC)** ([http://www.uwlax.edu/University-Centers/About-leadership-and-involvement](http://www.uwlax.edu/University-Centers/About-leadership-and-involvement)) The Leadership and Involvement Center is comprised of three pillars; leadership, volunteerism, and services/support. These efforts, in collaboration with UW-La Crosse and the La Crosse community, will encourage both diversity of experience and empowerment within the student body and each individual. The LIC will assist students in getting involved; provide leadership development opportunities; outreach to student organizations and individuals regarding successful practices; work with the MyOrgs student organization database and educates campus regarding its useful application; manage the UGetConnected web platform to connect students, organizations, classes and faculty/staff to community agencies and volunteer opportunities; provide Graphics Design services and marketing support to organizations and individuals.

- **The Meal Plan/ID Card Office** is where students add meal plans ([http://www.uwlax.edu/University-Centers/Meal-plans](http://www.uwlax.edu/University-Centers/Meal-plans)), Campus Cash, access information on Higher One, and process university photo ID’s. It is also the location to activate university ID Cards ([http://www.uwlax.edu/University-Centers/Tower-One-Card](http://www.uwlax.edu/University-Centers/Tower-One-Card)) and get answers to ID card issues.

- **The Pride Center** ([http://www.uwlax.edu/pride-center](http://www.uwlax.edu/pride-center)) is devoted to serving students, faculty, staff, and members of the campus community that may or may not label themselves as queer, lesbian, bisexual, transgender, gay, pan sexual, questioning, asexual, their allies, and students with LGBTQQQAA parents. The Center offers panels, educational programs, information, and most importantly, support and advocacy. LGBTQQQAA specific magazines, books, and videos are available for check out.

- **University Reservations and Event Support** ([http://www.uwlax.edu/reservations](http://www.uwlax.edu/reservations)) assists the university community by coordinating reservations, offering information for event planning, and serving as a liaison with university services. The Reservations Office offers equipment and assistance for events and meetings occurring in Cartwright Center. In addition, they can assist with scheduling classrooms (when classes are not scheduled), fundraisers, and outdoor events. Event Support consists of experienced technicians and event planners that help student organizations develop and produce events of all sizes.

**University theatre**

608.785.6701
Box Office: 608.785.8522
[www.uwlax.edu/theatre-arts](http://www.uwlax.edu/theatre-arts)

The Department of Theatre Arts produces a theatre season of seven shows in the 418-seat Toland Theatre and in the more intimate Frederick Theatre including musicals, dance performances, and a children’s show. Additionally, Summer Stage, the summer theatre, produces a major musical each June-July. The theatre season is a thoughtful mix of contemporary plays, classics, musicals, and cutting edge new works. Tickets for all Toland Theatre productions may be purchased in advance, either as season tickets or tickets for individual performances. Reservations are strongly recommended.

Any UW-L student registered for at least three credits is eligible to audition and be cast in productions. The same applies to any student wanting to work backstage or in various capacities of the production team. Whether or not you are experienced in theatre, your participation is welcomed. Students work both with faculty and guest directors, designers, and choreographers on a wide variety of theatrical offerings. Opportunities to become involved are announced across campus, or you can contact the theatre department for more information.
General education requirements

General education is the common educational experience for all undergraduates at UW-L. It is uniquely concerned with the broad education of the whole person and plays a vital role in preparing students for life beyond the university.

The primary purpose of general education is to cultivate knowledge, skills, and dispositions essential for independent learning and thinking. As a result of general education, students will be more knowledgeable in a wide variety of subject matter areas; and also better able and more willing to ask significant questions, seek appropriate solutions to complex problems, make sound judgments and formulate rational beliefs.

To these ends, the goals of the General Education Program at UW-L are to develop:

- Communication skills in reading, writing, speaking, and listening
- Skills in analytical, logical and critical thinking in various branches of knowledge accomplished in part by each student completing at least one mathematics course
- Oral and written communications skills in a second language for students who elect to do so
- Knowledge of the development and interaction of human cultures
- Understanding of concepts, ideas, and systems of thought that underlie human activities
- Understanding of and sensitivity to cultural diversity in the United States
- Understanding of the social, political, and economic frameworks of societies within the global context
- Understanding and appreciation of the arts
- Understanding of nature, including the role of science and technology in environmental and social change
- Knowledge and skills essential to physical well-being and a healthy lifestyle

The General Education Program places special emphasis on helping students to become more intellectually skilled through inquiry-based teaching and learning. Inquiry-based general education engages students actively in learning and thinking about essential knowledge, issues, and questions. Each general education course enhances students’ intellectual growth in some way. As students gain knowledge, they also learn to use knowledge more effectively, to ask and answer questions, solve problems, develop ideas, and make sound judgments.

The UW-La Crosse General Education Program consists of two major components: Skills and Liberal Studies. Skills courses improve students’ abilities to learn, think, and communicate effectively. Liberal studies courses engage students in the study of important areas of knowledge and experience and focus on central questions, issues, and problems we share as people and as members of the same society.

General Education Committee
The General Education Committee is responsible for coordination, review, and assessment of the general education curriculum. Membership of the committee consists of nine faculty, with proportional representation from the colleges and one student. The provost, registrar, and deans of each college serve as administrative consultants.

Requirements

General education requirements

1. Students must earn a minimum of 48 credits of general education courses.
2. Students must earn the minimum credits within each category (totaling 39 credits).
3. Students earn the remaining credits from any combination of categories.
4. All students must complete the literacy requirements (ENG 110 or ENG 112, and CST 110) and a general education mathematics course prior to earning 60 university credits.

Skills

Fundamental skills are those central to learning, analyzing, evaluating, integrating, and communicating information and knowledge. These skills are essential in all fields of study and their development should be enhanced and refined throughout the college years.

(Part of the department for information.)

Literacy: tools for skilled communication (GE 01)
(Must be completed prior to earning 60 credits.)

Reading, writing, speaking, and listening are the tools by which a person becomes educated. General education skills courses improve students’ abilities to read, write, speak, and listen with clarity, precision, and depth of understanding. Courses in this area include composition and oral communication. In addition, the program includes writing emphasis courses which enhance students’ abilities to communicate and learn through writing.

CST 110 Communicating Effectively 3
ENG 110 College Writing I 3
or ENG 112 College Writing AP (Advanced Placement)

Students receiving less than a grade of "C" in CST 110, ENG 110 or ENG 112 must repeat the course.

Writing emphasis courses (two courses required)

All students must either complete two writing emphasis courses or complete a major that has a writing-in-the-major program. If completing two courses, they must be at the 200 level or above, one of which must be at the 300 level or above. One course must be in the major (not core). See the class timetable (http://www2.uwlax.edu/Records/Registration-Tips-and-Tricks) for information on offerings each semester.

The following departments/majors have writing-in-the-major programs: art, biology, biochemistry, chemistry, clinical lab science, communication studies, computer science, educational studies, English: rhetoric and writing emphasis, English: literature emphasis, exercise and sport science, health education/health promotion, mathematics, microbiology, modern languages, occupational therapy, psychology, radiation therapy, recreation management/therapeutic recreation, sociology/archaeology, STEP EA-A majors (biology education, chemistry education, physics education, general science education, computer science education, mathematics education, English education, geography education, history education, political science education, sociology education, and general social studies education), and theatre arts. They incorporate writing requirements across their curriculum rather than identifying specific classes as writing emphasis classes. Students with majors...
in these departments will fulfill their writing emphasis requirement by completing that major. Transfer students who transfer courses from another institution that are applicable to the major should consult the department about fulfillment of the writing emphasis requirement.

**Writing emphasis courses do not count toward the 48 credit general education requirement unless identified in one of the general education categories.**

### Mathematical/Logical systems and modern languages: tools for structured analysis and communication (GE 02)

(At least one math course must be completed prior to earning 60 credits.)

General education enhances students’ abilities to think, reason, and solve problems with precision and clarity. Study in this area helps students to understand that words and symbols can have exact definitions and usage, that analyses of some problems require strict use of structured rules, and that discoveries, results, and ideas must be communicated clearly to others who may be unfamiliar with such rules or language. This area of study includes courses in mathematics, computer science, logic, and foreign languages. Although these fields differ in many respects, each emphasizes the skilled use of symbols or language to analyze, evaluate, or communicate more effectively.

Minimum of seven credits required, which must include at least one math course. Non-native speakers of English may use one math course and an acceptable score on a test of English proficiency/placement exam to meet the mathematical/logical systems and modern languages requirement.

1 Non-native speakers of English may satisfy the modern language option by exhibiting proficiency (a score of 70 or above) on the La Crosse Battery of Exams for non-native speakers of English or by earning a score on the TOEFL or IELTS that results in admission to UW-L as a degree seeking student (contact the English as a Second Language Institute for eligibility and regulations). None of these exams provide college credit but will suffice to satisfy Languages and Other Logical Systems requirements above. Students utilizing the exam option will still need to complete a minimum of 48 credits applicable to the general education program. Students in the English as a Second Language (ESL) program may satisfy modern language option (Languages and Other Logical Systems) by completing ESL 252 or ESL 253 and one additional course from ESL 250, ESL 251, ESL 252, ESL 253 (maximum of four credits from these courses applicable to general education).

Non-native speakers should NOT enroll in a 101, 102, 201, or 202 level course taught in their native language. Native English speakers are not eligible to enroll in ESL 250, ESL 251, ESL 252, or ESL 253.

### Liberal Studies

The “Liberal Studies” component of general education engages students in the study of major areas of knowledge and experience. Liberal studies courses afford opportunities for students to evaluate critically their heritage and see beyond the boundaries of their culture, to think scientifically in both the natural and social spheres, to explore texts thoroughly and imaginatively, to respond sensitively to the expressive arts, and to plan a life which makes the best possible use of work and leisure time. The thematic categories and inquiry-based teaching and learning in liberal studies courses help students to see connections among fields of knowledge and to understand different perspectives and ways of thinking about important questions.

#### Minority cultures or multiracial women’s studies (GE 03)

An essential goal of general education is to improve students’ understanding of and sensitivity to cultural diversity in the United States. All students take at least one course that focuses on minority cultures in the United States or women in the United States from a multiracial perspective. All courses in this category fulfill the UW System ethnic studies (ES) requirement.

Minimum of three credits required.

International and multicultural studies: becoming world citizens (GE 04)

Knowledge about the variety of human experience is an integral part of liberal education. Moreover, the international dimensions of politics, commerce, economics, and culture touch our lives every day. We live in an interdependent world in which understanding of other cultures and societies is essential. These general education courses include world history and global studies courses that focus on the peoples, cultures, and societies of the world. Some courses in this category fulfill the UW System ethnic studies (ES) requirement.

Minimum of six credits required.

Science: understanding the natural world (GE 05)

As the health and prosperity of our society becomes more dependent on science and technology, our future becomes increasingly dependent upon a scientifically literate population. Individuals in our society must be sufficiently knowledgeable about scientific facts and applications to make skilled decisions concerning their use in addressing society’s problems. Courses in this area include the study of basic scientific knowledge, the role of applied science and technology as agents of change in society, and a laboratory component to develop an understanding of scientific inquiry.

Minimum of four credits required; one course must be a natural laboratory science from below.

Natural laboratory science
ANT 102 Introduction to Physical Anthropology 4
BIO 100 Biology for the Informed Citizen 4
BIO 105 General Biology 4
CHM 100 Contemporary Chemistry 4

BIO 102 Contemporary Issues in Biological Sciences 3
ESC 211 Global Warming and Climate Change 3

Self and society: understanding oneself and the social world (GE 06)

Each person, although unique, lives in a social world that exerts profound influence upon his or her attitudes, values, and behavior. It is important to gain a sound understanding of oneself in relation to others and an understanding of the social institutions that people create and which serve to influence our lives. Courses in this area focus on the study of human behavior and social institutions.

Minimum of three credits required.

ANT 101 Human Nature/Human Culture 3
ARC 100 Archaeology: Discovering Our Past 3
CHE 200 Public Health for the Educated Citizen 3
CST 271 Contemporary Media in Everyday Life 3
ECO 110 Microeconomics and Public Policy 3

EDS 203 School and Society 3
Humanistic studies: the search for values and meaning (GE 07)
Academic study of the humanities involves the study of language as a medium for recording human experience and the major forms of such records: philosophical, historical, and literary. Students have the opportunity to test specialized knowledge and personal experience of humanity. These courses focus on what it means to be human, and what was, is, and should be valued by human beings.

Minimum of three credits required.

Literature
- CHI 305 Introduction to Modern Chinese Literature 3
- ENG 200 Literature and Human Experience 3
- ENG 201 American Literature I 3

- PHL 100 Introduction to Philosophy 3
- PHL 200 Introduction to the Literature of Philosophy 3
- POL 251 Political Theory 3

Arts: the aesthetic experience (GE 08)
The arts represent a fusion of the emotional, spiritual, and intellectual realities of the human condition. Study of the arts leads to heightened aesthetic experiences and deepens cultural understanding. This includes courses that focus on understanding, appreciating, and experiencing the fine and performing arts.

Minimum of two courses required from different departments.

ART 102 Art Appreciation 2
ART 160 General Art Foundations 3
ART 172 Photography Survey 3
ART 302 Visual Language in the Global Classroom 3

Health and physical well-being: learning to create healthy lives (GE 09)
The miracles of modern medicine exist side by side with many kinds of limiting physical conditions such as heart disease and obesity. Many health problems could be prevented or ameliorated by alterations in the ways that people live. The courses in this area focus on knowledge and skills necessary for the appreciation and enhancement of a healthful lifestyle. They emphasize health and physical well-being throughout the life span and explore major health issues, physical fitness, and effective use of leisure.

Minimum of three credits required.

HED 207 Youth Health Issues 3
HPR 105 Creating A Healthy, Active Lifestyle 3
HP 105 Analysis of Health, Wellness and Disease for the Health Care Consumer 3

UWL 100 First Year Seminar
University-Wide Learning
Interdisciplinary course

608.785.6644 or 608.785.6950
Email: tdale@uwlaex.edu or sbrunk@uwlaex.edu

This course is offered to new students to help them transition to UW-La Crosse and to college life. The course is applicable to the General Education Program under Self and Society: Understanding Oneself and the Social World.

+UWL 100 Cr.1
First Year Student Seminar
Students in this course will individually and collaboratively pursue the question "What does it mean to be an educated person?" Consideration of this question will include exploration of the skills, habits of mind, and environments necessary for a lifetime of learning. Specifically, students will consider the college experience as an opportunity to become a more educated person, and the strategies and practices that will assist students in taking full advantage of a University of Wisconsin-La Crosse education. The course will focus on various elements of college success, including study skills, community building, and meaningful academic experiences. This course meets for 12 weeks and is designed for first year students. Offered Fall.
Degree requirements

- Baccalaureate degree (p. 57)
- Second degree (p. 57)
- Associate degree (p. 57)
- Special degree (p. 61)

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34.).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Second baccalaureate degree policy
A graduate who has earned one baccalaureate degree at UW-L and who subsequently becomes a candidate for a second baccalaureate degree must meet all core, professional, and major requirements for the second degree and must earn at least 30 resident credits beyond the first degree. Students with a previously earned baccalaureate degree from another regionally accredited institution must meet all core, professional, and major requirements for the second degree and must earn at least 30 resident credits beyond the first degree. Students wishing to use credits from their first degree to fulfill requirements of a second degree must obtain approval from the dean of the college in which they are enrolled. All general education requirements are satisfied by students who have completed the first baccalaureate degree. UW System policy requires that every student complete an ethnic studies course. If this was not done as part of the first degree, it must be fulfilled for the second degree.

Students cannot earn a second baccalaureate degree in the same major (different emphasis) as their first baccalaureate degree.

2. Resident credit means credit registered for and earned through UW-L.

Second major or minor policy
A graduate who has earned one baccalaureate degree at UW-L, who wishes to complete the requirements for another major and/or minor, must meet all professional and major/minor requirements. A notation will be made on the student’s transcript that an additional major/minor has been completed. Students with demonstrated evidence of a previously earned baccalaureate degree from another regionally accredited institution, who wish to complete the requirements for another major/minor at UW-L, must enroll as a special non-degree student and fulfill all professional and major/minor requirements. If all required courses are earned in residence, a notation will be made on the student’s transcript indicating an additional major/minor has been completed.

Associate degree requirements
Candidates for the associate degree must complete the following:

1. Earn a total of 60 or more semester credits applicable to a bachelor's degree at UW-L. At least 15 credits must be earned at UW-L.
2. Achieve a 2.00 cumulative grade point average.
3. Complete a minimum of 13 credits in general education skills courses. See "Skills" section below.
4. Complete a minimum of 36 credits of general education liberal studies courses. See "Liberal Studies" section below.
5. Complete one two-semester sequence of courses.
6. File an application for the associate degree with the Office of Records and Registration and pay the application fee.
7. Remove all indebtedness to the university.

Skills
Proficiency tests are available in skills courses. Contact appropriate department for information.

**Special degrees**

The awarding of a baccalaureate degree is the pinnacle of the undergraduate college experience. Occasionally events take place where the need to consider additional degree options arises in order to honor those who have provided exemplary service to the university or to extend sympathy and compassion to the families and friends of deceased students near completion of their degrees. UW-L has policies for awarding honorary, extraordinary, and posthumous degrees in recognition of these exceptional situations.

See the Special Baccalaureate Degrees (http://catalog.uwlax.edu/undergraduate/degreerequirements/Special_Degree_Options_Final.doc) document for UW-L’s specific policies and procedures.
The College of Business Administration's undergraduate and graduate (MBA) programs provide business education opportunities for students from across the state, the country, and the world. The undergraduate program primarily serves residential full-time students in a traditional campus learning environment. The MBA program was originally designed to serve working professionals in the region but has grown to accommodate international and domestic students who chose to attend on a full-time basis.

Departments/units (p. 62) Majors and minors (p. 62) Admission to CBA Business Program (p. 62)

CBA core requirements (p. 63) Internships (p. 64) CBA graduation requirements (p. 64)

Mission
"To provide students an exceptional business education that empowers them to serve organizations and communities as socially responsible citizens in a global environment."

Vision
"To be recognized for quality as the leading business school among regional and state comprehensive universities."

Values
• Teaching: highly effective and innovative teaching employing relevant curriculum.
• Scholarship: scholarship that advances discipline-based knowledge, best practices, and teaching pedagogy, each equally enriching student learning.
• Faculty: quality faculty who are accessible, responsive, and dedicated to student learning.
• Students: quality students who are actively engaged in their professional and personal development.
• Learning: a highly interactive learning environment that fosters strong relationships and student success.
• Global Engagement: global engagement and collaboration to increase international awareness and opportunities.
• High Standards: high standards that reflect best practices and ethical behavior, stimulate intellectual growth, and promote continuous improvement.
• Diversity: acceptance and respect for human and ideological differences.
• Sustainability: promotion of sustainable practices in the use of economic, ecological, and social resources.
• Service: service to the university, discipline, and community that promotes strong partnerships and advances professional and economic development.

Departments/units
• Accountancy
• Economics
• Finance
• Information Systems
• Management
• Marketing
• Small Business Development Center (http://www.uwlax.edu/sbdc)
• Center for Entrepreneurship, Sustainability and International Trade

Degrees offered
• Bachelor of Science
• Master of Business Administration (see graduate catalog)

 Majors and minors
The following majors and minors are available:

B.S. = Bachelor of Science m = minor
• Accountancy (p. 64) (B.S., m)
• Business Administration (p. 67) (m) (not open to business majors)
• Economics (p. 68) (B.S., m)
• Finance (p. 70) (B.S.)
• Finance with Risk, Insurance, & Financial Planning Concentration (p. 70) (B.S.)
• Health Information Systems Management (p. 75) (m)
• Information Systems (p. 75) (B.S., m)
• International Business (p. 79) (B.S., m)
• Management (p. 82) (B.S.)
• Marketing (p. 85) (B.S.)
• Sustainable Business (p. 67) (m)

Advisor assignment
Students are assigned to faculty advisors in their declared major area. Advisors help students develop programs, plan schedules, discuss major and career choices, and refer for assistance in the case of academic difficulties. Students are required to meet with their faculty advisor at least once a semester.

The final responsibility for selecting courses and meeting graduation requirements rests with the student. Students should review course prerequisites by checking course descriptions in the appropriate listings of this catalog and consult with their faculty advisor and/or seek assistance from the dean’s office. The College of Business Administration offers additional program advising (http://www.uwlax.edu/CBA/CBA-Academic-Advising).

CBA Business Program policy
Students who desire to major in business must be admitted to the CBA Business Program in order to register for the professional, upper division (300/400 numbers) courses offered by the college. An application for admission to the CBA Business Program (http://www.uwlax.edu/CBA/Admission-into-the-Business-Program) must be completed and approved.
by the dean prior to the semester the student plans to enroll in upper
division College of Business Administration course work.

Application forms for admission to the Business Program are obtained
from the CBA Dean’s Office (http://www.uwlax.edu/CBA/About-the-
CBA) in 138 Wimberly Hall, and may be submitted for either fall or spring
semesters. Applications are due by mid-semester. Late applications may
not be accepted. To avoid scheduling problems, pre-business students
should work closely with their faculty advisors in order to complete the
pre-business program within their freshman and sophomore years at UW-
L. Students who undertake their freshman and sophomore years of study
at another university should familiarize themselves with the college’s
business requirements and the university’s general education program,
and plan their program of study accordingly.

**Admission to CBA Business Program requirements**

1. "C" grades or higher earned (or in progress) in:
   
<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>

   **Total Credits:** 18-19

4. Any remaining pre-business courses not taken prior to admission
   should be completed during the first semester after admission to the
   program.

5. Earn a 2.50 cumulative grade point at time of application. This
   includes courses taken at UW-La Crosse and elsewhere.

**College of Business Administration (CBA) core requirements**

All students enrolled in any program within the college must complete the
15 business core courses listed below and all requirements for the major
(see department listings). Courses numbered at the 100 and 200 level
are considered pre-business courses.

<table>

</tr>
</tbody>
</table>

   **Students also will complete their major requirements during their junior and senior years.**

   **Total Credits:** 12

**Senior year**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 449³</td>
<td>3</td>
</tr>
</tbody>
</table>

   **Total Credits:** 48-49

¹ These courses also will fulfill Gen Ed requirements.
² Accountancy majors may complete in first year.
³ Taken final semester; requires completion of all other core requirements.
Second major in College of Business Administration

Business students may complete a second business major by completing all courses required for the second major as described in the catalog. With the exception of economics, students may not use the same courses to fulfill both majors.

Business students seeking a second major or minor in liberal studies and science areas may do so by completing all requirements of the major or minor they elect, as stated in the catalog. Double counting courses in both majors, as appropriate, is allowed.

Scholarships

Scholarships are available to students who have demonstrated outstanding leadership qualities and have achieved scholastic excellence in the College of Business Administration program. Information may be obtained from the UW-La Crosse Foundation (http://www.foundation.uwlax.edu/content/scholarships/students) office in the Cleary Alumni and Friends Center.

Internships

Students may elect to take up to 15 College of Business Administration internship credits upon receiving approval of the department chair and dean; however, a maximum of six will be counted toward the 120 credits required for graduation. Internship credits may be applied toward fulfilling major requirements.

To be eligible for a College of Business Administration internship, a student must have a cumulative grade point of 2.50 or above and have completed the following:

- ACC 221 Accounting Principles I 3
- ACC 222 Accounting Principles II 3
- BUS 205 The Legal & Ethical Environment of Business 3
- BUS 230 Business and Economics Research and Communication 3
- ECO 110 Microeconomics and Public Policy 3
- ECO 120 Global Macroeconomics 3
- FIN 355 Principles of Financial Management 3
- IS 220 Information Systems for Business Management 4
- MGT 308 Behavior and Theory in Organizations 3
- MKT 309 Principles of Marketing 3

Graduation/degree requirements

Students seeking to graduate from the College of Business Administration must:

1. Fulfill the university’s general education requirements.
2. Achieve a minimum 2.00 grade point average in the business core and the business major.
3. Fulfill all other university general requirements.
4. Complete at least 50% of the business course requirements (core and major) in residence at UW-L.

All CBA students are expected to confirm their degree completion with the dean’s office before the start of their final semester.

Accountancy Department (ACC)

Department Chair: William Maas
415B Wimberly Hall; 608.785.6830
Email: kwinter@uwlax.edu
www.uwlax.edu/accountancy

The Accountancy Program at UW-La Crosse is designed to provide students with a balanced approach of the practical and the theoretical, preparing students for not only their first job but their career. The success of the UW-La Crosse accountancy program is evidenced by the accomplishments of our alumni, the number of internship placements, and the performance of UW-La Crosse students on the CPA exam. During the 2012-2013 academic year, over 70 accountancy majors participated in well-paid internships. Essentially all UW-La Crosse accountancy graduates are placed in accountancy positions, with the lowest placement rate in the last nine years at 94 percent.

Wisconsin and Minnesota, along with most other states, require 150 credits as part of the CPA certification. UW-La Crosse offers a flexible approach to completing the 150 credits. A large number of UW-La Crosse students combine the accounting degree with another undergraduate specialty, such as finance. The advantage of this approach is that students can complete their degree, the 150 hours, and an internship in four-and-one-half years, graduating in December.

Accountancy credit by examination policy

The Department of Accountancy offers students the opportunity to attempt “credit by examination” for ACC 221 Accounting Principles I (3 cr.), ACC 222 Accounting Principles II (3 cr.), and ACC 235 Survey of Accounting (3 cr.). Information about the examination is available from the department chair.

Students in the College of Business Administration must be admitted to business (p. 62) and also complete the college core requirements.

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Major requirements

Admission

Admission to the College of Business Administration (p. 62)

The 300/400 level accountancy courses are open only to those students who have been admitted to the business program. Exceptions to this policy may be made only by the College of Business Administration Dean. Students will be allowed to register for ACC 321 Intermediate Accounting I (4 cr.), without having been admitted to the business program.

Total Credits 28

1 Accountancy majors are allowed and encouraged to register for ACC 321 Intermediate Accounting I (4 cr.), before being admitted to the business program.

2 Except for ACC 350, ACC 450, and ACC 499

Additional requirements for accountancy majors:

- A cumulative grade point average of 2.50 in the accountancy major courses.
- Most states, including Wisconsin and Minnesota, require 150 college credits to sit for the CPA exam.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 65)
- Baccalaureate degree requirements (p. 65)

College of Business Administration (CBA) core requirements

All students enrolled in any program within the college must complete the 15 business core courses listed below and all requirements for the major (see department listings). Courses numbered at the 100 and 200 level are considered pre-business courses.

Total Credits 48-49
Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprd/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Students intending to become a Certified Public Accountant (CPA)

Students intending to become a Certified Public Accountant (CPA) must earn a minimum of 150 credits (30 credits beyond the minimum 120 required for the bachelors degrees).

1. Grade of "C" or better is required for admission to the CBA Business Program.
2. Accountancy majors may complete in the first year.
3. Different electives are offered in the Spring and Fall. Be sure to plan your elective in advance.
4. Students should note that taking an internship may require an additional semester and extend the time to earn a degree past four years.
5. Taken final semester, requires completion of all other core requirements.

### Accountancy Minor

(For students not planning to become CPA)

<table>
<thead>
<tr>
<th>Course</th>

Plus any three (3) additional three (3) credit accounting courses numbered 300 or above

Total Credits: 13

1. Excluding ACC 350

### Business Administration - Undergraduate Programs (BUS)

#### Minors

- Business administration minor (non-CBA) (p. 67)
- Sustainable business minor (CBA) (p. 67)

#### Business Administration Minor

**Minor requirements**

(All colleges, excluding the College of Business Administration)

34-36 credits

### Sustainable Business Minor

The **sustainable business minor** provides students with the opportunity to explore the relation between business and natural creation, maximizing good stewardship of natural resources, even while pursuing business objectives. The goal is to achieve what some call the "Triple Bottom Line:" Pursuing Profits, Protecting People, and Preserving the Planet.

**Minor requirements**

(College of Business Administration)

Select nine credits of approved electives:

At least three of the elective credits must be from the College of Business Administration course work. Select from the following:

- **ECO 346** Environmental and Ecological Economics
- **MGT 400** Management Forum (Topic: Green Operations)
- **MKT 351** Sustainability in Marketing

Remaining elective credits may be taken outside the CBA. Select from the following:

- **ANT 266** Anthropology of Food
- **ARC 300** Cultural Resources Management
- **ESC 211** Global Warming and Climate Change
- **ENV 201** Introduction to Environmental Studies
- **ENV 303** Issues in Environmental Studies
- **GEO 200** Conservation of Global Environments
- **HIS 317** American Environmental History
- **HIS 391** History of Environmental Policy in the United States
- **PHL 341** Environmental Ethics
- **PUB 338** Environmental Policy
- **PSY 302** Environmental Issues: Applied Psychology

1. A grade of "C" or better is required.

Completion of six of the lower level courses is prerequisite for enrollment in upper level courses.
Economics Department (ECO)

The Economics major is offered through the College of Liberal Studies (p. 100) and through the College of Business Administration. The department is housed in the College of Business Administration.

College of Business Administration
Department Chair: Taggert Brooks
413A Wimberly Hall; 608.785.8099
Email: tbrooks@uw lax.edu
www.uwlax.edu/economics

Why should a student major in economics when few graduates actually become professional economists? Job recruiters and graduate schools frequently seek economics majors because economics offers a way of thinking that is clear, concise and rigorous. Economics provides a solid background for many jobs and professions, preparing students for advancement in almost any professional career. The Department of Economics' mission is "to communicate the relevance of economics through innovative and cooperative teaching, scholarship and service." The UW-La Crosse undergraduate program is extremely flexible and offers many options to accommodate a wide range of student interests.

Economics credit by examination policy

The Department of Economics awards advance placement and/or credit by examination in ECO 110 Microeconomics and Public Policy (3 cr.) and ECO 120 Global Macroeconomics (3 cr.). Each examination will consist of multiple-choice items. Information about examinations is available through the department chair’s office.

Students in the College of Business Administration must be admitted to business (p. 62) and also complete the college core requirements.

2015-16 Faculty/Staff

1 A grade of “C” or better is required for admission to the CBA Business Program.

**Economics Honors Program**

**Program**

1. Admission  
   a. Junior Standing  
   b. 12 credits in the major  
   c. Filing a statement of intent with the department chair  
   d. 3.25 cumulative grade point average in the major  
   e. Recommendation by two faculty members in the major

2. Program  
   a. Completion of the regular major program  
   b. ECO 474 Economic Forum (1-3 cr.) (Honors Seminar) - three credits  
   c. ECO 499 Independent Study (1-3 cr.) (Honors Paper) - one credit

3. Evaluation  
   a. A cumulative 3.50 grade point average in the major at graduation  
   b. Distinguished performance on a paper or project developed in ECO 499 Independent Study (1-3 cr.)  
   c. Presentation of the paper or project to a colloquium of faculty and other honors students.

**Finance Department (FIN)**

College of Business Administration  
Department Chair: Robert Wolf  
404A Wimberly Hall; 608.785.6654  
Email: rwolf@uwln.edu  
www.uwlax.edu/finance

The Department of Finance at UW-La Crosse allows many unique options that build on a strong fundamental program. The program provides a foundation in the primary financial areas: corporate finance, investments, and financial institutions. Students then have the flexibility to explore the basic areas in greater detail or to branch out in other financial areas such as international finance, real estate, financial planning or insurance. The department also offers a finance major with a risk, insurance and financial planning emphasis for those particularly interested in that area.

The UW-La Crosse program relies upon the traditional approach including text based lectures, but also includes substantial incorporation of case studies, current journal articles, and informational services as resource materials. Students also have access to databases that contain current and historical stock prices, financial statements, and other information on publicly-traded firms. Students in investment courses manage simulated million dollar portfolios with advanced students managing real money. Students can take advantage of numerous internships that provide both college credit and personal experience in the finance area. The capstone course, taken during the senior year, gives students the opportunity to draw upon all of their training in finance while working on realistic finance problems.
Students in the College of Business Administration must be admitted to business (p. 62) and also complete the college core requirements.

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Associate Lecturer
Curt Brye

Administrative Support
Maureen Spencer

Majors

- Finance major - BS (p. 71)
- Finance major: risk, insurance, and financial planning concentration - BS (p. 73)

Finance Major - Bachelor of Science (BS)

The Finance program at UW-La Crosse provides an excellent mix of theoretical and practical knowledge. Students are exposed to a variety of teaching methods, ranging from lectures and group discussions to problem-solving case analysis and independent studies. The program provides a foundation in the primary financial areas: corporate finance, investments, and financial institutions. Students then have the flexibility to explore the basic areas in greater detail or to branch out in other financial areas such as international finance, real estate, financial planning or insurance. The department also offers a finance major with a risk, insurance and financial planning emphasis for those particularly interested in that area.

A special program is designed to help students successfully complete the Level 1 examination of the Chartered Financial Analyst (CFA) program. Recently, the Spellman Fund, a student-managed investment portfolio, was initiated. Real money is invested in selected stocks and bonds recommended by students.

Major requirements

Admission

Admission to the College of Business Administration (p. 62)

The 300/400 level finance courses are open only to those students who have been admitted to the business program and students in business related programs for which such a course is specifically required. Exceptions to this policy may be made only by the College of Business Administration Dean. Students will be allowed to register for FIN 360 Principles of Insurance (3 cr.) without having been admitted to the business program.

| or MTH 207 Calculus I | 4-5 |

Total Credits 48-49

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.
### Finance Major: Risk, Insurance, and Financial Planning Concentration - Bachelor of Science (BS)

UW-La Crosse is one of few campuses that offer a major in Finance with a Risk, Insurance, and Financial Planning concentration. Students who choose to specialize in this area learn about methods of treatment of risk and the mechanism of insurance as a means of handling major risks in a business. Students are also introduced to the primary components of financial planning.

Students specializing in this area of finance can obtain professional recognition of their qualification and training by passing the examinations for designation as a Chartered Life Underwriter (CLU), Chartered Property and Casualty Underwriter (CPCU), or Certified Financial Planner (CFP).

Information Systems Department (IS)

College of Business Administration  
Department Chair: Kuang-Wei Wen  
241 Wing Technology Center; 608.785.6658  
Email: kwen@uw lax.edu  
www.uwlax.edu/information-systems

Information systems (IS) study is concerned with the planning, analysis, design, and implementation of information systems. Students develop and use computer-based information systems in business environments in preparation for careers in information technology related areas. Students in this program need to possess strong mathematics and logical reasoning skills. High school students planning collegiate programs in business, including information systems, should include advanced algebra/trigonometry or pre-calculus courses in their high school program.

Students in the College of Business Administration must be admitted to business (p. 62) and also complete the college core requirements.

2015-16 Faculty/Staff

Major

- Information systems - BS (p. 75)

Minors

- Information systems minor (CBA) (p. 78)
- Information systems minor (non-CBA) (p. 78)
- Health information systems management minor (CBA) (p. 78)
- Health information systems management minor (non-CBA) (p. 79)

Information Systems Major - Bachelor of Science (BS)

Information systems study centers on planning, analysis, design, and implementation of information systems that include technologies such as
computer networks, e-commerce, and database applications. Students develop and use computer-based information systems in business environments in preparation for careers in information technology-related areas.

Students in the program need to possess strong mathematics and logical reasoning skills. High school students planning collegiate programs in business, including collegiate programs in business, including information systems, should take algebra/trigonometry or pre-calculus courses in high school.

With solid coursework in the computer science area before entering the professional portion of the program, students develop a technical foundation to support their upper division curriculum.

As in all other business programs, IS students will complete an extensive array of courses in liberal arts and science, including courses in communication, humanities, multicultural issues, and social sciences.

The vast majority of IS majors participate in an internship experience in their junior or senior year. The internships earn university credit that applies to the major program. Most are paid and many lead to employment following graduation.

**Major requirements**

**Admission**

Admission to the College of Business Administration (p. 62)

The 300/400 level information system courses are open only to those students who have been admitted to the business program or IS minor program. Exceptions to this policy may be made only by the College of Business Administration Dean.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/ or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

1 A grade of "C" or better is required for admission to the CBA Business Program.
Information Systems Minor

Information Systems admission and retention policy

1. Provide a completed application form and a copy of your transcript to the IS office (Wing 240).
2. Have a declared major.
3. Have taken IS 220 Information Systems for Business Management (4 cr.) with a grade of "B" or better.
4. Have taken MTH 175 Applied Calculus (4 cr.) or MTH 151 Precalculus (4 cr.), or MTH 207 Calculus I (5 cr.) with a grade of "C" or better.
5. Have a minimum 2.50 cumulative GPA.

All students must meet prerequisite requirements for courses counting toward the minor. Required courses for any non-IS major cannot be counted as electives for the IS minor. Admissions are subject to an annual space limitation set by the department. If the number of qualified applications exceeds the annual space limitation, College of Business Administration majors must account for at least 60 percent of admitted applicants. Retention in the minor requires that CS 120 Software Design I (4 cr.) be taken no later than the first semester in the minor with a grade of "C" or better.

International Business Program (IB)

College of Business Administration
Director: Nicole Gullekson
418L Wimberly Hall; 608.785.8699
Email: ngullekson@uwlax.edu

The international business major at the University of Wisconsin-La Crosse was one of the first in the state with a focus on the global nature of business in the twenty-first century. The program was the outcome of an effort by faculty to address the long-term needs of businesses that operate in an international environment and also to contribute to students’ development as citizens of an increasingly “global” world. The major allows students to get a comprehensive foundation of international business, while also specializing in a functional concentration (i.e., management, marketing, accountancy, economics, finance or information systems). A minor is also available to students who want to enhance their primary major.

Faculty in the College of Business Administration have the international orientation necessary to teach International Business. Many teaching in this program have extensive international experience and are fluent in non-English languages.

Students in the College of Business Administration must be admitted to business (p. 62) and also complete the college core requirements.

Major

- International business - BS (p. 79)

Minor

- International business minor (p. 81)

International Business Major - Bachelor of Science (BS)

Major requirements

Admission to the College of Business Administration (p. 62)

College of Business Administration

36 credits - This program also requires up to 16 credits for language proficiency, completion of the international business major requirements, a functional business concentration, and an international experience.

International Business language requirement

This major requires demonstrated proficiency at the intermediate level in a second language. This can be accomplished either by completing prescribed courses or by demonstrating proficiency as determined by the Department of Modern Languages. Language proficiency would generally be acquired through the study of a language up to and including the 202 level in Chinese, French, German, Russian, Spanish or any 202 level...
language with MLG prefix with grades of "C" or better in each course. Students whose native language is not English will meet this requirement through demonstrated proficiency via TOEFL or departmental exam.

Majors must also complete an out-of-country international experience of at least three weeks duration prior to graduation. The international experience must be pre-approved by the College of Business Administration International Business Advisory Committee. Students should apply for approval at least one semester before the planned experience. The advisory committee will determine the credit value of the experience. For non-U.S. based students, this requirement is met through the satisfactory completion of all required course work.

Complete the following:

- Functional business concentration \(^1\) 12
- Total Credits 36

\(^1\) Completion of a concentration of 12 credits at the 300 level or above in one of the seven business majors (see departmental listings for available courses): accountancy, economics, finance, financial planning and risk and insurance, information systems, management, and marketing.

No credits from the functional business concentration may be double counted toward the IB major. Students who elect to complete a second business major may double count, at most, one course with the IB major.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 80)

- Baccalaureate degree requirements (p. 80)

**College of Business Administration (CBA) core requirements**

All students enrolled in any program within the college must complete the 15 business core courses listed below and all requirements for the major (see department listings). Courses numbered at the 100 and 200 level are considered pre-business courses.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.
No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 123

1 A grade of "C" or better is required for admission to the CBA Business Program.
2 This major requires demonstrated proficiency at the intermediate level in a second language. This can be accomplished either by completing prescribed courses or by demonstrating proficiency as determined by the Department of Modern Languages. Language proficiency would generally be acquired through the study of a language up to and including the 202 level in Chinese, French, German, Russian, Spanish, or any 202 level language with MLG prefix with grades of "C" or better in each course. Students whose native language is not English will meet this requirement through demonstrated proficiency via TOEFL or departmental exam.
3 IB majors must complete an out-of-country international experience of at least three weeks duration prior to graduation. The international experience must be pre-approved by the College of Business Administration International Business Advisory Committee. Students should apply for approval at least one semester before the planned experience. The advisory committee will determine the credit value of the experience. For non-U.S. based students, this requirement is met through the satisfactory completion of all required course work.

International Business Minor

(All colleges)

Students, especially non-business majors, must pay careful attention to the prerequisites for the professional business courses as stated in the course descriptions. Additional prerequisites total 18-24 credits.

21 credits
Core

ANT/ECO/GEO/HIS/POL/SOC 202  Contemporary Global Issues  3
ECO 340  Introduction to International Economics  3
FIN 440  Multinational Financial Management  3
MGT 360  Global Perspective on Business  3
MKT 341  International Marketing  3

Select two of the following:  6

BUS 405  The Law of International Business Transactions
ECO 311  Comparative Economic Systems
ECO 375  Economic Development
ECO 440  International Financial Economics
FIN 477  International Investments
MGT 408  The Global Responsibility of Business
MGT 430  Comparative Management Systems
MGT 431  Business, Labor, and Human Rights
MGT 484  International Human Resource Management
MKT 440  Comparative Marketing Systems
MKT 445  International Marketing Strategies
IB 450  International Business Internship (up to three credits from IB 450 or MGT 452)
or MGT 452  College of Business Administration International Internship

ACC/ECO/FIN/IS/MGT/MKT 499  Independent Study (up to three credits)

Total Credits  21

In addition to the 21 credits required above, eight credits in modern language (one year in the same language) is required. This is waived for students whose native language is not English.

A maximum of three credits can be applied to a student’s College of Business Administration major.

Management Department (MGT)

College of Business Administration
Department Chair: William Ross
416A Wimberly Hall; 608.785.8110
Email: wross@uw lax.edu

www.uw lax.edu/management

The management major offered by the Department of Management at UW-La Crosse is a program carefully structured to meet the requirements of AACSB International of which UW-La Crosse is an accredited member. Approximately 25 percent of the schools of business in the U.S. hold this accreditation.

The program prepares students for a challenging career in for-profit and non-profit organizations. Working with this specialized group of faculty and staff, many of our students are well prepared in their mastery of technical business management and in their communications skills, their ability to work with others, confidence and willingness to accept leadership responsibilities, and respecting human differences. These professional and social skills can be further refined by participation in numerous professional student organizations at UW-La Crosse, including organizations in human resources management, international management, entrepreneurship, and more.

This major provides opportunities to develop skills and knowledge across a variety of areas of management. It also provides students with important exposure to matters of corporate social responsibility and ethics, the Principles of Responsible Management Education (http://www.unprme.org) and the UN Global Compact (http://www.unglobalcompact.org). The department also contributes courses for the interdisciplinary sustainable business minor, the international business minor, and the minor in business administration (for non-business majors).

Students in the College of Business Administration must be admitted to business (p. 62) and also complete the college core requirements.

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Major

• Management - BS (p. 82)

Management Major - Bachelor of Science (BS)

The management major provides students with coursework designed to help them to understand the purposes of business, how to manage ethically in today’s dynamic global business environment, and how to be effective leaders. To this end, the Management Department has
identified the following learning outcomes for the major. Specifically, a
management graduate should be able to:

1. Understand how domestic and global issues impact management
practices.

2. Evaluate management practices and policies with regard to social
responsibility and ethics.

3. Identify and recommend ways to influence individual and group
behaviors in organizational situations.

4. Analyze and recommend solutions for business problems using
management concepts and theories.

Special interest areas
Consider using the following special areas to assist in selecting
management electives:

Students interested in International Management may want to take
some of the following courses:

- MGT 430 Comparative Management Systems
- MGT 431 Business, Labor and Human Rights
- MGT 484 International Human Resource Management
- BUS 405 The Law of International Business Transactions

Students interested in Human Resource Management may want to take
some of the following courses:

- MGT 303 Principles of Labor-Management Relations
- MGT 385 Human Resources: Employment
- MGT 386 Compensation and Benefits Administration
- MGT 483 Human Resource Development
- MGT 485 Collective Bargaining
- MGT 486 Human Resources: Current Issues and Policies

Students interested in Organizational Behavior may want to take some
of the following courses:

- MGT 300 Business Communications
- MGT 400 Management Forum
- MGT 412 Emergent Leadership and Team Development
- MGT 487 Male/Female Relationships-Business Environment

Students interested in Technology Management may want to take some
of the following courses:

- MGT 395 Management Science I
- MGT 398 Total Quality Management
- MGT 399 Project Management: Planning, Scheduling, Executing, and
  Controlling
- MGT 428 Management of Technology and Innovation

Major requirements
(College of Business Administration)

Admission
Admission to the College of Business Administration (p. 62)
Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login;amp;languageCd=ENG&amp;cmd=login) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Marketing Major - Bachelor of Science (BS)

“For every store window you browse, website banner you click on, or TV commercial you watch, there’s someone behind the scenes who’s manipulated these media in an attempt to win your business.”

The Department of Marketing faculty at UW-La Crosse considers the educational, personal, and professional development of marketing students to be their number one priority. The Department of Marketing is dedicated to providing an in-depth understanding of marketing activity, in both domestic and international settings. Graduates are prepared to enter a variety of marketing related positions upon graduation. Students in this major are presented with opportunities to more fully develop and explore their specific marketing and career interests while progressing through their course work.

Major requirements
(College of Business Administration)
Admission

Admission to the College of Business Administration (p. 62)

300/400 level marketing courses are open only to those students who have been admitted to the business program and students in business-related programs for which such a course is specifically required. Exceptions to this policy may be made only by the College of Business Administration Dean.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 86)
- Baccalaureate degree requirements (p. 86)

College of Business Administration (CBA) core requirements

All students enrolled in any program within the college must complete the 15 business core courses listed below and all requirements for the major (see department listings). Courses numbered at the 100 and 200 level are considered pre-business courses.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cslprod/?cmd=login&and_languageCd=ENG&cmd=login&and_languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed
placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

1 A grade of "C" or better is required for admission to the CBA Business Program.
The College of Liberal Studies (CLS) includes departments and programs in the humanities, social sciences, and interdisciplinary studies, as well as the School of Arts and Communication (p. 248). CLS continues the established liberal studies tradition of providing many curricula leading to the Bachelor of Arts or the Bachelor of Science degree.

CLS is dedicated to providing quality instruction and learning experiences which prepare students for careers, future education, and meaningful, responsible lives by fostering a climate of intellectual curiosity and creativity. Graduates of the college will have developed the skills for professional and personal success, including the ability to communicate effectively, think critically, conduct sound research, understand global issues, use knowledge in all aspects of life, participate meaningfully as citizens, and discover and apply worthwhile values.

CLS faculty and staff are committed to maintaining academic integrity and high ethical standards. The CLS, through its faculty, students, and curricula, is also dedicated to advancing diversity and inclusion. Furthermore, by developing partnerships outside the university and by encouraging professional connections, the college establishes its membership in the broader community.

The academic community within the College of Liberal Studies supports a strong general education program, nurtures exceptional disciplinary programs, and creates innovative interdisciplinary and international programs, which together promote lifelong personal and professional learning.

Programs in the humanities, social sciences, and interdisciplinary studies

At the heart of the College of Liberal Studies are the departments which teach the humanities and social sciences. These departments have traditionally represented the cornerstone disciplines of a university. They offer essential experiences that prepare students for lifelong learning. Courses in the humanities and social sciences introduce students to cultural, ethnic, and racial diversity; international dimensions of politics, economics, language, and culture; social institutions and social interactions; theories and applications of human behavior; and the great writing that develops and explores these realms of knowledge.

All students at UW-L take courses in the humanities and social sciences even though they may not major in one of these programs. Many of the skills courses and liberal studies courses of the general education program are offered by departments in the humanities and social sciences. The skills that are built are those that enable students to proceed with effective and efficient learning.

Courses in the humanities and social sciences provide individuals with solid reading and writing abilities, an understanding of cultural diversity, critical thinking and problem-solving skills, the ability to integrate and synthesize ideas, and a sense of personal responsibility. Courses in these disciplines help individuals learn from the past, explore the present, and adapt to the future. The liberal studies program is designed to be an enriching experience that produces a well-rounded individual.

The humanities are taught in the Departments of English, Modern Languages, History, and Philosophy. The social sciences are taught in the Departments of Archaeology/Anthropology, Political Science and Public Administration, Psychology, and Sociology. The College of Liberal Studies also offers interdisciplinary opportunities in the Departments of Ethnic and Racial Studies, Military Science (ROTC), and Women’s, Gender, and Sexuality Studies, as well as in child youth care, criminal justice, environmental studies, and international studies. Interdisciplinary studies combine courses from various humanities, social science, and arts and communication disciplines.

Departments/units

- Archaeology and Anthropology
- Art
- Communication Studies
- English
- Ethnic and Racial Studies
- History
- Military Science
- Modern Languages
- Music
- Philosophy

 Advising
All students in the College of Liberal Studies who have declared majors are assigned to faculty advisors. Advisors provide guidance and assistance to develop plans for post-college experiences. Students and their advisors are provided with Advisement Reports (AR) that assist them in monitoring progress toward meeting degree requirements. Degrees are verified in the dean’s office. Students are encouraged to come to the office to review progress toward the degree during their junior year.

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL
Bachelor of Science degrees: The following conditions apply to one or both Bachelor of Arts and Bachelor of Science core requirements.

College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Graduation/degree requirements

A student in the College of Liberal Studies may earn either the Bachelor of Arts (B.A.) or the Bachelor of Science (B.S.) degree. The type of degree earned by a student (B.A. or B.S.) may be determined by the major programs elected by the student. All general university degree requirements must be met: a minimum of 120 credits (40 of which must be 300/400 numbered courses), general education program requirements, college core requirements, and major program requirements.

Departmental mission

The Department of Archaeology and Anthropology at the University of Wisconsin-La Crosse offers a major in archaeology and minors in archaeology and anthropology. The central mission of the Department of Archaeology and Anthropology is to provide the highest quality academic programs in service to our majors and minors as well as to the students we serve through our university’s General Education Program course offerings. Beyond this, the Archaeology and Anthropology Department embraces its further obligation to conduct scholarly activity and to serve the needs of our surrounding community within the realm of our professional expertise and the availability of our resources.

The primary objective of the archaeology major as an academic program is to provide a sound and broad multi-disciplinary background for students seeking a liberal arts/humanities degree; to provide academic and professional preparation for students planning to enter graduate school in archaeology; to provide professional training for students planning careers in archaeology directly after graduation; and to provide elective and service courses for other majors.

The primary objective of the anthropology minor as an academic program is to provide a strong four-field anthropological background for students in all areas of the liberal arts and sciences.

The primary objective of the archaeology minor as an academic program is to provide a solid grounding in anthropological archaeology for students in all areas of the liberal arts and sciences.

Majors

The Archaeology Program at UW-L is among the top comprehensive undergraduate programs in archaeology in the United States and the only one in the Midwest. The uniqueness of our program lies in the fact that it is an interdisciplinary major that integrates the fields of New World and Old World archaeology, cultural anthropology, physical anthropology, geoarchaeology, and cultural resource management. We are able to provide our undergraduate students with practical experience unmatched by other programs of its kind for three primary reasons:

1. Our close relationship with the Mississippi Valley Archaeology Center (MVAC), the research arm of our program, which conducts extensive research and public education activities throughout the tri-state region of Wisconsin, Minnesota, and Iowa;
2. Our impressive array of intensive international experiences designed to provide students with practical anthropological, archaeological, and ethnographic methods;
3. Our focus on providing students with training in cutting edge technologies that very few programs in the U.S. offer including: geophysical and remote sensing equipment (ground penetrating radar, magnetometer, resistivity meter); precision laser mapping equipment; a complete photogrammetry array; 3-D scanning, photo, and video equipment; photographic drone for aerial photography and video.

Minors

The anthropology minor provides students with a broad background in one of the most fascinating of social sciences - Anthropology, the scientific study of humanity. Required curriculum in the minor exposes students to all four sub-disciplines of anthropology - cultural anthropology, physical anthropology, archaeology, and linguistics – and students are able to flesh out the minor with a range of elective courses that satisfy their particular interests. The anthropology minor is an excellent pairing with a number of disciplinary majors available on campus including archaeology; sociology; communications; women’s, gender, and sexuality studies; and disciplines in the health sciences, to name only a few.

The archaeology minor is designed for students who have an interest in the anthropological sub-discipline of archaeology but who are majoring in another discipline. Common majors that are served by the archaeology minor include history, geology, geography, biology, physics, and a number of others. The minor in archaeological studies provides students with a strong foundational understanding of the discipline while at the same time allowing for the selection of elective courses that particularly suit the individual student’s interests.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Archaeological Studies Major - Bachelor of Arts (BA)

The Archaeological Studies Program at UW-L is among the top comprehensive undergraduate programs in archaeology in the United States and the only one in the Midwest. Lewis Binford, one of the most influential archaeologists in the discipline’s history, said of our program: “I can say without hesitation that this is the best undergraduate program in archaeology that I have seen anywhere in this country.” The uniqueness of our program lies in the fact that it is an interdisciplinary major that integrates the fields of New World and Old World archaeology, cultural anthropology, physical anthropology, geoarchaeology, and cultural resource management.

We are able to provide our undergraduate students with practical experience unmatched by other programs of its kind for three primary reasons:

1. Our close relationship with the Mississippi Valley Archaeology Center (MVAC), the research arm of our program, which conducts extensive research and public education activities throughout the tri-state region of Wisconsin, Minnesota, and Iowa;
2. Our impressive array of intensive international experiences designed to provide students with practical anthropological, archaeological, and ethnographic methods;
3. Our focus on providing students with training in cutting edge technologies that very few programs in the U.S. offer including: geophysical and remote sensing equipment (ground penetrating radar, magnetometer, resistivity meter); precision laser mapping equipment; a complete photogrammetry array; 3-D scanning, photo, and video equipment; photographic drone for aerial photography and video.

Because our program is built around close student-instructor interaction and intensive experiential opportunities, our students are given ample opportunity for participation in all aspects of anthropological field and laboratory research. Moreover, a substantial amount of financial support is available to students for part- and full-time lab and fieldwork during the summer and school year. This support ensures that students graduate with both academic and practical job preparation.

Major requirements

(All colleges, excluding teacher certification programs)

Admission

Undergraduate students may declare their major as pre-archaeological studies majors. Only those students who have been admitted to the program are classified as archaeological studies majors. Admission to the major is limited and based upon the following minimal requirements.

Entrance requirements

1. Prior to application for the major, the following archaeology courses must be completed with a minimum GPA of 3.00: ARC 195, ARC 196, and ARC 200. ARC 101 is strongly recommended for all students majoring in or considering a major in archaeology.
2. An overall GPA of 2.50
3. Completion of 32 credits
4. Completion of the archaeological studies major application form

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 93)
- Baccalaureate degree requirements (p. 94)

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   
   CHI 202 Intermediate Chinese II
   FRE 202 Intermediate French II
   GER 202 Intermediate German II
   RUS 202 Intermediate Russian II
   SPA 202 Intermediate Spanish II
   MLG 202 World Languages: Intermediate II
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

B. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlnx.edu/psp/cslprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.
We are able to provide our undergraduate students with practical experience unmatched by other programs of its kind for three primary reasons:

1. Our close relationship with the Mississippi Valley Archaeology Center (MVAC), the research arm of our program, which conducts extensive research and public education activities throughout the tri-state region of Wisconsin, Minnesota, and Iowa;
2. Our impressive array of intensive international experiences designed to provide students with practical anthropological, archaeological, and ethnographic methods;
3. Our focus on providing students with training in cutting edge technologies that very few programs in the U.S. offer including: geophysical and remote sensing equipment (ground penetrating radar, magnetometer, resistivity meter); precision laser mapping equipment; a complete photogrammetry array; 3-D scanning, photo, and video equipment; photographic drone for aerial photography and video.

Because our program is built around close student-instructor interaction and intensive experiential opportunities, our students are given ample opportunity for participation in all aspects of anthropological field and laboratory research. Moreover, a substantial amount of financial support is available to students for part- and full-time lab and fieldwork during the summer and school year. This support ensures that students graduate with both academic and practical job preparation.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 96)
• Baccalaureate degree requirements (p. 97)
College of Liberal Studies (CLS/SAC)  
Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/
or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Archaeological Studies Minor

The Archaeological Studies Program at UW-L is among the top comprehensive undergraduate programs in archaeology in the United States and the only one in the Midwest. Lewis Binford, one of the most influential archaeologists in the discipline's history, said of our program: "I can say without hesitation that this is the best undergraduate program in archaeology that I have seen anywhere in this country." The Archaeological Studies Minor is an interdisciplinary course of study that integrates the fields of New World and Old World archaeology, cultural anthropology, physical anthropology, geoarchaeology, and cultural resource management.

We are able to provide our undergraduate students with practical experience unmatched by other programs of its kind for three primary reasons:

1. Our close relationship with the Mississippi Valley Archaeology Center (MVAC), the research arm of our program, which conducts extensive research and public education activities throughout the tri-state region of Wisconsin, Minnesota, and Iowa.
2. Our impressive array of intensive international experiences designed to provide students with practical anthropological, archaeological, and ethnographic methods;
3. Our focus on providing students with training in cutting edge technologies that very few programs in the U.S. offer including: geophysical and remote sensing equipment (ground penetrating radar, magnetometer, resistivity meter); precision laser mapping equipment; a complete photogrammetry array; 3-D scanning, photo, and video equipment; photographic drone for aerial photography and video.

Because our program is built around close student-instructor interaction and intensive experiential opportunities, our students are given ample opportunity for participation in all aspects of anthropological field and laboratory research. The Archaeology Minor is designed for students who have an interest in the anthropological sub-discipline of archaeology but who are majoring in another discipline. Common majors that are served by the archaeology minor include history, geology, geography, biology, physics, and a number of others. The minor in archaeological studies provides students with a strong foundational understanding of the discipline while at the same time allowing for the selection of elective courses that particularly suite the individual student’s interests.

Archaeological Studies Minor

The Anthropology Minor provides students with a broad background in one of the most fascinating of social sciences - Anthropology, the scientific study of humanity. Required curriculum in the minor exposes students to all four sub-disciplines of anthropology - cultural anthropology, physical anthropology, archaeological, and linguistics – and students are able to flesh out the minor with a range of elective courses that satisfy their particular interests. Because anthropology is the study of human diversity around the world, students with a variety of majors take the anthropology minor to give them an international perspective on their specific fields, including public health, biology, exercise and sports science, women’s, gender and sexuality studies, English, modern
languages, archaeology, sociology, political science, marketing, and business. Pairing these majors with an anthropology minor helps students gain a competitive edge in our increasingly global world.

*E-mail: lcaya@uw腋.edu*

*www.uwlax.edu/psychology/undergraduate-majors/minors*

The **at-risk child and youth care minor** is a multidisciplinary program designed to provide students with knowledge and skills necessary to promote the well-being of all children and adolescents. Special attention is given to vulnerable/at-risk populations within the context of the family, the community, and the lifespan. The minor assists students who upon graduation may work within a wide variety of settings including: early child care and education, community-based and youth development programs, parent education and family support, school-based programs, community mental health, group homes, residential centers, day and residential treatment, early intervention, home-based care and treatment, psychiatric centers, rehabilitation programs, pediatric health care, and juvenile justice programs.

Students who complete the minor are expected to be able to:

- Identify the role of individual and family factors associated with at-risk children
- Differentiate typical from atypical human development
- Apply theories, concepts and research findings to promote child well-being
- Identify the purpose and structure of community and government systems in promoting and advocating for child well-being

**2015-16 Faculty/Staff**

Category II: Internship
CYC 450  Internship in Child/Youth Care  3

Category III: Human development
PSY 212  Lifespan Development (or PSY 210 for PSY majors)  3

Special populations development:
Select one of the following (each of which have a prerequisite of PSY 212 or PSY 210):
PSY 355  Infancy and Early Childhood  3
PSY 356  The School-aged Child  3
PSY 357  Adolescence  3

Category IV: Family dynamics
Select one of the following:  3
CST 336  Family Communication
CYC 411  Family Systems Theory
SOC 212  Marriage and Family

Category V: Application skills
Select one of the following:  3
CST 230  Interpersonal Communication
CST 330  Nonverbal Communication
CST 354  Health Communication
CST 365  Communication in Teams
or PSY 343  Group Dynamics
or SOC 334  Sociology of Small Groups
CST 380  Communicating Leadership
PSY 315  Behavior Modification
PSY 347  Empathic Listening Skills
RTH 470  Facilitation Techniques in Therapeutic Recreation
RTH 474  Experiential Education: Facilitation Techniques in Ropes Course
RTH 483  Leisure Counseling in Therapeutic Recreation

Category VI: Youth at risk
Select six credits from at least two different subcategories (see below)  6

Total Credits  30

1 A grade of "B" or better in PSY 210 or PSY 212 and an overall credit level of 75 or fewer credits is required in order to enroll in CYC 301.
2 Can also be satisfied by other departmental internships with a Child Youth Care component - CEI 450, CST 450, HED 495/CHE 498 (if done with pediatric population), PSY 450, REC 450, RTH 498, SOC 450 if it has a vulnerable and at-risk child/youth focus.

Subcategories:

Alcohol and drug abuse
HED 469  Drugs, Society and Human Behavior  3
PSY 426  Addictive Behaviors  3

Select a research methods course from the following: 3

Select 18 credits of electives 1 18

Total Credits 33

1 At least 12 credits of these electives must be taken in economics courses numbered 300 or above. Up to six credits of electives may be taken from MTH 207, MTH 208, MTH 245 MTH 309; POL 330, POL 353; PUB 210, PUB 330; and any course numbered 200 or greater offered by a department in the College of Business Administration.

College of Business Administration students may also select this as a second major by meeting the above requirements.

Degree requirements
All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 101)
- Baccalaureate degree requirements (p. 102)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics-Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
4. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

B. Humanities track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

At least two courses must be designed as writing emphasis.

1. MTH 150 is a prerequisite for MTH 175.
2. CLS Core Humanities and Fine Arts Tracks require 102+ level language. CLS Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.
3. Any ECO course or any course numbered 200 or greater offered by a CBA department.

### Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 103)
- Baccalaureate degree requirements (p. 104)

### College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and
must accomplish the following:

4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.

5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.

6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

---

At least two courses must be designed as writing emphasis.

1. MTH 150 is a prerequisite for MTH 175.
2. Any ECO course or any course numbered 200 or greater offered by a CBA department.

### Option A (content major) 57-64 credits

37-44 credit major in geography education, history education, political 37-44 science education, or sociology education

20 credits, with a minimum of three credits, from any two of the following areas outside of the major:

- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

Total Credits: 57-64

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. Credits do not count toward the social studies education (broad field) major.

Candidates must also complete additional teacher education requirements listed in the STEP Program core (p. 515).

### Option B (content minor) 54-60 credits

18-24 credit minor in one of the following:

- Economics Education
- Geography Education
- History Education
- Political Science Education
- Psychology Education
- Sociology Education

32 credits with a minimum of three credits from three of the subject areas outside of the minor selected from the following:

- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

Total Credits: 54-60

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. Credits do not count toward the social studies education (broad field) major.

### Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in
the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 106)

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

**No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.**

**Economics Minor**

(All colleges, excluding teacher certification programs)

**Total Credits** 18

\(^1\) excluding ECO 408

Teacher certification candidates must also complete ECO 408 Teaching and Learning History & Social Studies in the Secondary School (4 cr.) unless a major in social studies education (broad field), geography education, history education, political science education, or sociology education is completed. GEO 200 Conservation of Global Environments (3 cr.) and EFN 200 Cooperatives (1 cr.) are also required to fulfill statutory licensing requirements (credits do not count toward the economics education minor).

**Economics Honors Program**

**Program**

1. **Admission**
   - Junior Standing
   - 12 credits in the major
   - Filing a statement of intent with the department chair
   - 3.25 cumulative grade point average in the major
   - Recommendation by two faculty members in the major

2. **Program**
   - Completion of the regular major program
   - ECO 474 Economic Forum (1-3 cr.) (Honors Seminar) - three credits
   - ECO 499 Independent Study (1-3 cr.) (Honors Paper) - one credit

3. **Evaluation**
   - A cumulative 3.50 grade point average in the major at graduation
   - Distinguished performance on a paper or project developed in ECO 499 Independent Study (1-3 cr.)
   - Presentation of the paper or project to a colloquium of faculty and other honors students.

**English Department (ENG)**

College of Liberal Studies
Department Chair: Natalie Eschenbaum
433A Wimberly Hall; 608.785.8660
Email: n.scratchfield@uw lax.edu eschenbaum@uw lax.edu
(neschenbaum@uw lax.edu)

www.uwlax.edu/english
The Department of English specializes in the study of literature, linguistics, rhetoric, writing, and teaching. Our dynamic and interdisciplinary work fosters an appreciation for the beauty and power of the English language, promotes open inquiry, excites the imagination, and arouses intellectual curiosity. In the tradition of liberal arts education, we promote analytic skills and encourage scholarship from our faculty and students alike. Emphasizing the practical application of knowledge, we empower our students long past graduation and enrich the pleasure they find in reading, writing, and teaching. The Department of English examines what readers do when they read and what writers do when they write. Through language and story, humans interpret the past, understand the present and prepare for the future. We believe that the close study of language, writing, and literature should be a transformative experience culminating in literate, articulate, imaginative and open-minded individuals who can take on roles as responsible citizens in diverse and dynamic communities.

**A VIBRANT COMMUNITY**

Boasting a low student-to-teacher ratio and small classes, UW–L’s Department of English is like “family,” according to one recent graduate reflecting back from her new life in graduate school. Our student-run English Club, campus chapter of the National English Honor Society, and various student-run publications give majors and minors many opportunities to share their passion for reading and writing with each other, the department, and the community.

**English course share policy**

**English majors/writing minors**

English majors who elect to take one of the writing minors must complete the requirements for both the major and the minor. Only three credits from the major may also be counted toward the minor.

**English minors-writing minors**

English minors who elect to take a writing minor must complete the requirements for both. Only nine credits from the English minor may also be counted toward the writing minor.

**General education writing emphasis**

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

**2015-16 Faculty/Staff**

English Major: Literature Emphasis - Bachelor of Arts (BA)

English majors provide an excellent education in the discipline with a credit load that allows for great flexibility in selecting compatible minors or a double major, as well as in exploring various other fields of knowledge through elective coursework. With proper planning, the Bachelor of Arts degree with an English major can be earned in four years.

¹ When appropriately focused.

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 109)
- Baccalaureate degree requirements (p. 110)

**College of Liberal Studies (CLS/SAC)**

**Bachelor of Arts core requirements**

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/COLLEGES_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

**A. Language track**

1. **Native speakers of English** complete:
   - Select one of the following:
     - CHI 202 Intermediate Chinese II
     - FRE 202 Intermediate French II
     - GER 202 Intermediate German II
     - RUS 202 Intermediate Russian II
     - SPA 202 Intermediate Spanish II
     - MLG 202 World Languages: Intermediate II
     - MLG 204 Heritage Language: Intermediate
     - MLG 304 Heritage Language: Advanced

**Non-native speakers of English:** score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

**B. Humanities track**

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

**C. Fine arts track**

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.¹ At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA¹ in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprd/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

English Major: Rhetoric and Writing Emphasis - Bachelor of Arts (BA)

English majors provide an excellent education in the discipline with a credit load that allows for great flexibility in selecting compatible minors or a double major, as well as in exploring various other fields of knowledge through elective coursework. With proper planning, the Bachelor of Arts degree with an English major can be earned in four years.

Major requirements

(All colleges, excluding teacher certification programs)

36 credits

Courses listed in more than one category may be counted only once.

Introductory coursework

ENG 311 Critical Theory
ENG 333 Introduction to Rhetoric and Writing Studies

Total Credits
6

Advanced coursework

Writing
3

Select one of the following:

ENG 303 Advanced Composition
ENG 304 Writing in the Arts and Humanities
ENG 305 Creative Writing
ENG 306 Writing in Education
ENG 307 Writing for Management, Public Relations and the Professions
ENG 308 Technical Writing

ENG 309 Writing in the Sciences
ENG 314 Grant Writing
ENG 320 Literary Journal Production and Publication
ENG 325 Reporting and Copy Editing
ENG 326 Feature and Specialized Writing
ENG 343 Creative Nonfiction

Prose style and editing

ENG 313 Prose Style and Editing

Shakespeare

ENG 363 Shakespeare I
or ENG 364 Shakespeare II

Language and grammar

Select one of the following:

ENG 330 History of the English Language
ENG 331 Introduction to Linguistics
ENG 332 Modern English Grammars

Literature

Select three credits from any 300/400 level course

Total Credits
15

Senior coursework

Senior seminar

ENG 497 Seminar in Rhetoric and Writing Studies

Capstone

ENG 413 Writing Portfolio

Total Credits
6

Electives

Select nine credits of the following:

ENG 299 Writing Tutor Practicum
ENG 302 Intermediate Topics in Literature
or CST 315 Communication Criticism
ENG 303 Advanced Composition
ENG 304 Writing in the Arts and Humanities
ENG 305 Creative Writing
ENG 306 Writing in Education
ENG 307 Writing for Management, Public Relations and the Professions
ENG 308 Technical Writing
ENG 309 Writing in the Sciences
ENG 314 Grant Writing
ENG 318 Journalism and New Media
ENG 320 Literary Journal Production and Publication
ENG 325 Reporting and Copy Editing
ENG 326 Feature and Specialized Writing
ENG 327 Publishing in a Digital Age
ENG 330 History of the English Language
ENG 331 Introduction to Linguistics
ENG 332 Modern English Grammars
ENG 334 Language Study for Teachers
ENG 335 Introduction to Professional Writing
ENG 337 The Rhetorics of Style
ENG 342  The Essay
ENG 343  Creative Nonfiction
ENG 403  Individual Projects
ENG 415  Topics in Critical Theory
ENG 416  Seminar in Advanced Fiction Writing
ENG 417  Seminar in Advanced Poetry Writing
ENG 433  Introduction to Teaching Writing
ENG 434  Chinese Discourse
ENG 439  Topics in Linguistics
ENG 446  Forms of Fiction
ENG 449  Forms of Poetry
ENG 450  English Internship

Total Credits 9

1 May choose one course from CST 315 or ENG 302 when appropriately focused.

2 May choose one course from ENG 304, ENG 305, ENG 306, ENG 307, ENG 308, ENG 309, ENG 325, ENG 326.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 112)
• Baccalaureate degree requirements (p. 113)

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202  Intermediate Chinese II
   - FRE 202  Intermediate French II
   - GER 202  Intermediate German II
   - RUS 202  Intermediate Russian II
   - SPA 202  Intermediate Spanish II
   - MLG 202  World Languages: Intermediate II
   - MLG 204  Heritage Language: Intermediate
   - MLG 304  Heritage Language: Advanced

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esi) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must
be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

**Multicultural, minority, ethnic, and women’s literature**

Select one of the following: 3

- ENG 207 Multicultural Literature of the United States
- ENG 210 Literature of Black America
- ENG 215 African American Authors
- ENG 302 Intermediate Topics in Literature
- ENG 380 Literature of American Ethnic and Minority Cultures
- ENG 381 American Indian Literature
- ENG 382 Latino Literature in English
- ENG 385 Women Authors
- ENG 462 Seminar in British Literature
- ENG 474 Seminar in American Literature
- ENG 476 Fiction and Nonfiction of Richard Wright
- ENG 477 African American Essay and Short Story
- ENG 478 20th Century African American Novels
- ENG 481 Seminar in Literature and Culture
- ENG 482 Advanced Study of Women’s Literature
- ENG 494 Advanced Topics in Literature
- ENG 495 Advanced Study of Major Authors

| Total Credits | 44 |

1 This one 200 level course may be counted simultaneously toward the requirements for general education.
2 When appropriately focused.

- Only one course at the 200 level may be counted for the English education major.
- Additional teacher education requirements are listed in the STEP program core (p. 515).

**Degree requirements**

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 115)

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA for each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term.
Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 122

At least 6 of the 44 credits needed for the major must be courses numbered 400 and above, excluding ENG 433.

1 Need a 2.75 GPA and passing basic skills test scores. See the STEP Admissions (http://www.uwlax.edu/Secondary-Teacher-Education-Preparation/Admission) website for details.

2 See the Office of Field Experience (http://www.uwlax.edu/SOE/For-teacher-candidates) for details about applying to student teaching.

1 except for CST majors and professional/organizational communications minors

English Honors Program

Program

1. Admission
   a. Junior standing
   b. 12 credits in the major, including one English course numbered 340 or above.
   c. 3.25 cumulative grade point average in the major
   d. Recommendation of two faculty members in the major
   e. Submit application form
      i academic transcript
      ii reasons for wishing to participate
      iii signatures of recommending faculty members

2. Program
   a. Completion of the regular major program
   b. ENG 403 Individual Projects: 2-3 credits. Registration with consent of regular adviser, instructor, department chair and the dean of the college in which the student is enrolled. Prerequisite: at least 30 credits and excellent grades in English courses
      i Until a greater number of students require more than one section offered more than once a year, ENG 403 will be offered each fall and will be staffed alternately by faculty whose fields of expertise are in American and English literature, with occasional staffing by those who teach world literature
      ii One consulting reader for the paper or project developed in ENG 403 may at times be necessary if the topic is narrowly confined to an esoteric field.
   c. Reading lists: three lists covering major works in major periods and all appropriate genres in English, American, and world literature each to be compiled by the appropriate literature committee. These are to be the basis for the terminal examination.
   d. Terminal examinations
      i These will be compiled yearly by the instructor responsible for ENG 403
      ii Consultation with experts in given fields may be requested when necessary.

3. Evaluation
   a. Cumulative 3.50 grade point average at graduation in the major
   b. Distinguished performance on a paper or project developed in ENG 403
   c. Presentation of the paper or project to a colloquium of faculty and students in the major
English as a Second Language Program (ESL)

College of Liberal Studies
Institute Director: Michelle Tyvoll
1209 Centennial Hall; 608.785.8315
Email: mtyvoll@uwlax.edu

www.uwlax.edu/english-as-a-second-language

English as a Second Language Institute

The English as a Second Language Institute offers a flexible program for non-native speakers of English. Classes are designed primarily for international students who need to improve or strengthen their English for studying at the university. The classes are also appropriate for persons who have a serious interest in studying English as a second language for personal or business reasons.

Classes are offered at six levels of English proficiency. A student’s level is determined by a proficiency test (the La Crosse Battery), which is given before classes begin.

Admission and placement into ESL classes (p. 120) Retention in program (p. 121)

English as a second language admission/placement policy

All international students who have official TOEFL scores below 550₁ and all international students who have not taken the official TOEFL exam will be tested by the ESL Institute via the La Crosse Battery of exams during registration week prior to formal registration in classes. Students who submit TOEFL scores of 550₁ or above will not be tested by the ESL Institute, will be exempt from the ESL classes, and will be granted full admission status. (Graduate program directors may require graduate students with 550 or above to take the placement exam.)

Students who score 80 or above on the La Crosse Battery will be granted exemption from ESL classes and will receive full admission status. Students who receive a score of 79 or below on the La Crosse Battery will be given limited university status and will be placed in the appropriate ESL class levels.

Students who score a 79 or below on the La Crosse Battery placement exam are allowed to submit an official TOEFL score of 550 PBT (paper-based TOEFL), equivalent on CBT (computer-based TOEFL) or iBT (Internet-based TOEFL), or other UW-L recognized standardized exam for unrestricted admission to the university. Students who achieve a 550 TOEFL (or equivalent) while enrolled in ESL courses will be required to wait until the beginning of the next term before being released from the ESL program.

₁ Comparable score is 73 on the Internet-based TOEFL exam for undergraduate students. Graduate students are required to have a 79 on the Internet-based exam. In lieu of a TOEFL score, a band score of 6, with no subscore less than 5.5, is acceptable on the International English Language Testing System (IELTS) exam.

La Crosse Battery

The La Crosse Battery consists of four tests: Test of Aural Comprehension, Michigan Test of English Language Proficiency (grammar, vocabulary, reading comprehension), the La Crosse Composition Test, and an oral interview. The La Crosse Battery takes approximately three hours to complete. These tests, which demonstrate a student’s proficiency in each language skill, will determine the placement level per skill.

Students will be placed in levels that are appropriate with their placement score (see below). Students will progress through the program until they have earned at least a “C” in courses at the 250 level. Students will be required to complete courses at the 250 level before being released from the ESL program and being granted unrestricted access to degree programs at UW-La Crosse. Once students reach the 200 level ESL courses, they will be allowed to take ESL courses and 1-4 credits of UW-L courses outside of ESL. Once students reach the 250 level ESL courses, they will be allowed to take ESL courses and 1-6 credits of UW-L courses outside of ESL.

₁ If students do not earn at least a “C” in their ESL courses at the 250 level, they will be required to retake the ESL courses during the next term. Students who fail courses at the 200 level and/or earn below a “C” at the 250 level, will only be allowed to take university courses outside of ESL based on the decision of the director of the ESL program.

Total average score - placement into ESL classes

| Total average score on La Crosse Classes/ESL levels |
| Battery | |
| 49 or below – limited university admission | 050 sections of 100 level courses |
| 50 - 59 – limited university admission | 16 credits of ESL required (full-time ESL) |
| 60 - 66 – limited university admission | 100 level courses |
| 67 - 73 – limited university admission | 16 credits of ESL required (full-time ESL) |
| 74 - 76 – limited university admission | 110 level courses |
| 77 - 79 – limited university admission | 150 level courses |
| 80 or above – full university admission | 200 level courses |
| Minimum of 12 credits of ESL required (allowed to take 1-4 university credits outside of ESL) | |
| Minimum of eight credits of ESL required (allowed to take 1-6 university credits outside of ESL) | |
ESL Institute retention and probation standards

Applies to ESL courses numbered 100-203.

The academic status of an ESL-only student enrolled in pass/fail ESL courses is determined by successful completion of courses with a grade of pass (P). Performance at 80% is required for a grade of pass in ESL transcript credit only courses (ESL 100-203).

¹ A student can choose to appeal an ineligible status to an ESL appeals committee (representation from the College of Liberal Studies Dean’s Office, the ESL Institute and the Office of International Education). If the appeal is accepted and the student is reinstated, the student will be placed on Probation II. If the appeal is denied, the student can choose to appeal to the Committee on Academic Policies and Standards (CAPS). If CAPS denies the student’s appeal, the student is no longer eligible to continue in the Institute. If reinstated by the CAPS committee, the student will be placed on Probation II.

If a student has been declared ineligible three times, the student may not appeal for reinstatement to the Institute.

Students who are enrolled only in ESL Institute courses are declared ineligible to continue at the university as well. Students who are enrolled in both ESL courses and university-level courses follow ESL retention standards for ESL courses and university retention standards for university-level courses.

Intersession periods

Students who have not met the university’s English language requirement will not be allowed to enroll in courses during the intersession periods (winter intersession and summer term sessions). Appeals to this policy will be handled on an individual basis.

College of Liberal Studies
Program Director: Meredith Thomsen
3026 Cowley Hall, 608.785.8245
email: mthomsen@uw lax.edu

www.uwlax.edu/environmental-studies

Environmental studies is an interdisciplinary minor open to all students at UW-L. While housed in the College of Liberal Studies, the minor reaches across campus and involves environmentally concerned faculty and students from all three colleges. Its purpose is to study the environment from a broad perspective, incorporating the natural sciences, the social sciences, and the humanities.

### Total Credits
24

Some departments, because they offer several of their own courses for the environmental studies minor, limit the number of credits that their majors may apply to the environmental studies minor.

- **Biology majors** may not apply any biology credits toward the minor.
- **Geography majors** may apply a maximum of six credits to the minor.

**Sociology or archaeological studies majors** may apply a maximum of three credits to both their major and minor.

### Ethnic and Racial Studies Department (ERS)

College of Liberal Studies  
224 Wimberly Hall; 608.785.8223  
Department Chair: Timothy Gongaware  
608.785.6772  
Email: tgongaware@uw腋x.edu

www.uw腋x.edu/ethnic-and-racial-studies

The Department of Ethnic and Racial Studies is designed to provide students with exposure to the primary American ethnic and racial groups. Courses offered in the program relate to African Americans, Asian Americans, Latino/as, and American Indians. Courses in the department examine the history and experiences of these minorities in the United States. The primary objective of the Department of Ethnic and Racial Studies is to develop and foster knowledge and appreciation of the multiracial and multicultural reality of the American society.

**Program Features**

The program (minor) is open to students in all schools and colleges within the university. The minor utilizes an interdisciplinary approach, integrating various concepts to provide a comprehensive perspective on the historic treatment and the contemporary experience of racial and ethnic minorities in the United States. Those students seeking a minor in ethnic and racial studies must complete a minimum of eighteen credits; twelve required from the Institute for Ethnic and Racial Studies and six elective credits from participating departments.

WGS 230 Women’s Diversity: Race, Class, and Culture 18

All ERS or ERS cross-listed courses can be used as electives in the minor. At least nine credits must be at the 300/400 level. Students may not apply courses used on their major to the ERS minor.

Gerontology Program (GTL)

College of Liberal Studies

335 Graff Main Hall;
608.785.8440

Program Statement

The gerontology emphasis is a multi-disciplinary program designed to assist students planning to enter career-related areas directly involving older persons. The study of gerontology will also help students prepare for their own aging as well as to develop a better understanding of and to seek enrichment for the lives of aging parents and our aging populations.

Gerontology Emphasis applicable to college core

If a student declares gerontology as an emphasis, it will appear on the student’s transcript and advisement report. As an emphasis, gerontology coursework counts toward a student’s 120 credits and can overlay with required courses in the major and the minor. In order for gerontology to apply on a college core in place of a minor, the student must complete at least 18 credits outside of his/her major. For College of Liberal Studies students, 12 of the credits must be at the 300/400 level; for BS students from the College of Science and Health, 18 credits at 300/400 level credits; for BA students from the College of Science and Health, 15 credits at 300/400 level.

Gerontology Steering Committee

The Gerontology Steering Committee recommends standards for recognition of undergraduate student work in gerontology including the gerontology emphasis. The committee differentiates between coursework that is part of the gerontology core and coursework that is supportive of an emphasis in gerontology. The Steering Committee also approves fieldwork, experimental courses, and independent study as part of student work that meets the requirements of the gerontology emphasis. Contact the coordinators for the form that is used to request that the Gerontology Steering Committee approve coursework that is not already described in the following sections about gerontology core or supportive courses.

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

</tbody>
</table>

Total Credits: 9

Supportive courses do not exclusively focus on older adults, but these courses support an improved understanding of older adults. The Steering Committee will consider experimental courses, workshops, independent study, and for-credit field experience as supportive courses in a gerontology emphasis when the course faculty describes how the course indirectly supports learning about the lives of older adults.

History Department (HIS)

College of Liberal Studies
Interim Department Chair: John Grider
401A Wimberly Hall; 608.785.8361

Our mission

The mission of the UW-La Crosse Department of History is to provide leadership in history education and scholarship. We provide our students with a solid foundation in the critical thinking and analytical skills necessary for interpreting documents and historical research. We develop historical understanding and global perspective through courses in the university’s general education program and a balanced world history curriculum, strengthened by faculty specialties in a wide range of time periods, cultures, geographical areas, and thematic approaches. Our public history program develops analytical and interpretive skills through a curriculum focusing on material culture studies, oral history, cultural resource management, and community studies. Our programs prepare students for opportunities in fields such as teacher education, editing, archives and museum studies, as well as for careers in law and government. Finally, we serve the community by sharing our expertise when issues of historical importance engage the public’s interest.

Courses numbered HIS 100-299 are primarily for first years and sophomores. Courses numbered HIS 300-499 are open to sophomores, juniors, seniors, and to those first years who have appropriate general education background.

Advanced placement

Advanced placement exams to earn credit are available in American history or European history as developed and administered by the
Educational Testing Services (ETS), Princeton, New Jersey. Information is available from the department chair.

World History Major - Bachelor of Arts (BA)

The world history major is the most comprehensive of the history majors, with requirements that diversify the degree to cover as much of the world as can be done in a 40-credit undergraduate degree. Like all majors, this one requires the completion of two courses unique to history students (HIS 200 and HIS 490), and then three courses from the 200-level surveys of regional history.

Along with that foundation, the world history major requires the completion of the following: one course from a list which covers the history of women, gender and sexuality; two courses on U.S. history; one course on global/transregional history; one course each on Asia, Latin America, Europe, and Africa/Middle East; and one course on ancient, classical, or religious history.

A degree in history: B.A. or B.S.?

Along with choosing a major program in history, you will need to choose the degree -- that is, whether that major is a Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. We can broadly describes the differences between the two; specific and up-to-date requirements are on the major and degree requirements tabs above.

With the B.A., you spend up to two years learning a modern language; with the B.S., you conduct additional coursework in the sciences. This is an important decision with long-term implications. Think about the following:

• Will you have the language skills to succeed in the workplace?
• Do you see yourself living in a major metropolitan area where business and public affairs are regularly conducted in languages other than English?
• Are you thinking about graduate studies in history? Most Ph.D. programs require the ability to read in at least one language other than English.
• Are you considering international journalism or business?
• Do you already have, or plan to take, additional courses in the sciences that might not count towards a B.A.?
• Are your interests in history linked to scientific, medical, or technological issues?
• Will you work in the public sector, in education or health?

For many outcomes, it is likely that you will need to work in a language other than English to succeed. UW-L offers training in Chinese, French, German, Spanish, Russian and other modern languages. Explore the options! If you have already completed language training in High School, you may already be ahead of the game. See the Department of Modern Languages for additional information on this topic. For the B.A., you will need to complete the equivalent of two years of training in a modern language. For the B.S., you will need to complete one additional
course related to the sciences, and also a research-emphasis course or sequence of courses in the major. For history, this is HIS 490.

Regardless of whether you complete the B.A. or B.S. degree, you will still need to decide on your major.

Major requirements
(All colleges, excluding teacher certification programs)

40 credits

Core requirements

**HIS 200**  Historiography and Historical Methods  3
**HIS 490**  History Research Seminar  4
Select nine credits of the following:  9
  **HIS 210**  Survey of United States History  
  **HIS 230**  The Ancient and Medieval Worlds  
  **HIS 240**  Survey of Modern Europe  
  **HIS 250**  The Asian World  
  **HIS 260**  Survey of the Middle East  
  **HIS 285**  Survey of Modern African History  
Select 24 credits from the following four categories (3 credits from the courses below must come from a WGS course)

Global/Transregional (see below)  3
U.S. History (see below; no more than 3 credits can come from a public/policy course)  6
Regional/World Cultural Zones (see below)  12
Ancient/Classical/Religions (see below)  3

Total Credits  40

U.S. History

Select two of the following:  6
  **HIS/WGS 301**  Women in the Modern United States: 1890-Present
  **HIS/WGS 305**  History of Motherhood in the United States
  **HIS 306**  History of Ethnic America
  **HIS 308**  Reforming U.S. Society
  **HIS 310**  Native American History
  **HIS 313**  Colonial & Revolutionary America
  **HIS 316**  Vietnam War
  **HIS 317**  American Environmental History
  **HIS 319**  Readings in Twentieth Century U.S. History
  **HIS 320**  Introduction to Public and Policy History
  **HIS 321**  Wisconsin History
  **HIS 322**  History of Public Education in United States
  **HIS 324**  Civil War and Reconstruction
  **HIS 325**  America in the Cold War
  **HIS 336**  Hispanics in the United States
  **HIS 343**  U.S. Borderlands
  **HIS 345**  U.S. - Latin American Relations
  **HIS/WGS 370**  The History of Black Women's Activism
  **HIS 376**  History of Childhood in the United States
  **HIS 377**  U.S. Labor History
  **HIS 378**  History of the U.S. West
  **HIS 390**  Public History Research
  **HIS 391**  History of Environmental Policy in the United States
  **HIS 393**  Material Culture
  **HIS 403**  Exhibition Development and Design
  **HIS 407**  State and Society
  **HIS/ERS 409**  20th Century Civil Rights Movement
  **HIS/ERS 411**  20th Century African American Urban History

Total Credits  6

Regional/World Cultural Zones

Asia
Select one of the following:  3
  **HIS 316**  Vietnam War
  **HIS 334**  Aspects of Chinese History
  **HIS 335**  History of China
  **HIS 363**  Modern South Asia
  **HIS 364**  Gandhi’s India
  **HIS 382**  Imperialism in Asia and the Pacific
  **HIS 383**  Women in South Asia
  **HIS 384**  The Idea of Asia
  **HIS 394**  Modern Japanese History
  **HIS 395**  Postwar Japanese History
  **HIS 401**  History and Japanese Religions
  **HIS 415**  Religion and Conflict in Modern South Asia

Latin America
Select one of the following:  3
  **HIS 341**  Nineteenth Century Latin America
  **HIS 342**  Twentieth Century Latin America
  **HIS 344**  Colonial Latin America
  **HIS 345**  U.S. - Latin American Relations
  **HIS 347**  A History of Greater Mexico
  **HIS 356**  History of Mexico
  **HIS 360**  Women, Gender, and Sexuality in Latin America

Europe
Select one of the following:  3
  **HIS 311**  Dilemmas of Peace and War
  **HIS/ANT 312**  Peoples and Cultures of Eastern Europe and the Former Soviet Union
  **HIS 314**  The Holocaust
  **HIS 339**  History of Russia and the Soviet Union
  **HIS 346**  History of the Middle Ages
  **HIS 348**  Renaissance and Reformation
  **HIS 349**  History of Modern Europe (20th Century)
  **HIS 350**  Episodes in French History
  **HIS 351**  History of France: 1750-Present
  **HIS 352**  History of Modern Germany
  **HIS 354**  Spain to 1700
  **HIS 355**  England to 1603
  **HIS 358**  French Revolution
  **HIS 359**  Women, Gender and Sexuality in Modern Europe
  **HIS 373**  World War I
  **HIS 414**  History of Modern Ireland

Africa/Middle East
Select one of the following:  3
  **HIS 391**  History of Environmental Policy in the United States
  **HIS 393**  Material Culture
  **HIS 403**  Exhibition Development and Design
  **HIS 407**  State and Society
  **HIS/ERS 409**  20th Century Civil Rights Movement
  **HIS/ERS 411**  20th Century African American Urban History
HIS 361  Israeli-Palestinian Conflict  
HIS 362  Human Rights and the Middle East  
HIS 379  African Environmental History  
HIS 380  Beyond Rwanda: War and Genocide in Africa’s Great Lakes  
HIS 381  Health and Healing in African History  
HIS 385  Modern African History  
HIS 386  Women and Gender in Africa  
HIS 387  African Novels and History  
HIS 388  Comparative Slave Systems  
HIS 389  Women and Gender in the Middle East  
HIS 397  Social History of African Nationalist Movements  
HIS 398  Social History of Colonial Africa  

Total Credits 12  

Ancient/Classical/Religions  
Select one of the following: 3  
HIS/ARC 204  Ancient Literate Civilizations  
HIS/ARC 295  Pyramids, Temples and Towns! The Archaeology of Ancient Egypt  
HIS 326  Modern Christianity  
HIS 327  History of Buddhism  
HIS 328  History of Hinduism  
HIS 329  History of Islam  
HIS 330  History of Religions  
HIS/ARC 331  The Ancient Greek World

HIS 405  Migration: Personal Accounts  
HIS 412  Global Trade and Labor, 1500 to Present  
HIS 414  History of Modern Ireland  

Total Credits 3  

1 Satisfies the 3 credits from a WGS course requirement. (HIS 359, HIS 360, HIS 383, and HIS 386 satisfy the requirement even though they are not cross-listed with WGS.)  

Degree requirements  
All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.  

1. General education (p. 53)  
2. College core (p. 127)  
3. Baccalaureate degree requirements (p. 128)  

College of Liberal Studies (CLS/SAC)  
Bachelor of Arts core requirements  
The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:  

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).  
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.  
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.  
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.  
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.  
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.  

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).  

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:  

A. Language track  
1. Native speakers of English complete:  
Select one of the following:  
   CHI 202 Intermediate Chinese II
must accomplish the following:

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

Baccalaureate degree requirements

following:

1. Complete a minor (or second major) outside of the student’s major, minor, or program option by satisfying one of the requirements, all students in CLS must complete a second minor, major from two different departments chosen from: art, communication studies, music, theatre; and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.
Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

At least one of the required HIS courses must have a WGS focus.

At least two courses must be designed as writing emphasis.

1. World history majors need 12 credits of Regional/World Cultural Zones. One course each from Asia, Europe, Africa/Middle East, and Latin America.

2. CLS Core Humanities and Fine Arts Tracks require 102+ level language. CLS Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

World History Major - Bachelor of Science (BS)

The world history major is the most comprehensive of the history majors, with requirements that diversity the degree to cover as much of the world as can be done in a 40-credit undergraduate degree. Like all majors, this one requires the completion of two courses unique to history students (HIS 200 and HIS 490), and then three courses from the 200-level surveys of regional history.

Along with that foundation, the world history major requires the completion of the following: one course from a list which covers the history of women, gender and sexuality; two courses on U.S. history; one course on global/transregional history; one course each on Asia, Latin America, Europe, and Africa/Middle East; and one course on ancient, classical, or religious history.

A degree in history: B.A. or B.S.?

Along with choosing a major program in history, you will need to choose the degree -- that is, whether that major is a Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. We can broadly describes the differences between the two; specific and up-to-date requirements are on the major and degree requirements tabs above.

With the B.A., you spend up to two years learning a modern language; with the B.S., you conduct additional coursework in the sciences. This is an important decision with long-term implications. Think about the following:

- Will you have the language skills to succeed in the workplace?
- Do you see yourself living in a major metropolitan area where business and public affairs are regularly conducted in languages other than English?
- Are you thinking about graduate studies in history? Most Ph.D. programs require the ability to read in at least one language other than English.
- Are you considering international journalism or business?
- Do you already have, or plan to take, additional courses in the sciences that might not count towards a B.A.?
- Are your interests in history linked to scientific, medical, or technological issues?
- Will you work in the public sector, in education or health?

For many outcomes, it is likely that you will need to work in a language other than English to succeed. UW-L offers training in Chinese, French, German, Spanish, Russian and other modern languages. Explore...
the options! If you have already completed language training in High School, you may already be ahead of the game. See the Department of Modern Languages for additional information on this topic. For the B.A., you will need to complete the equivalent of two years of training in a modern language. For the B.S., you will need to complete one additional course related to the sciences, and also a research-emphasis course or sequence of courses in the major. For history, this is HIS 490.

Regardless of whether you complete the B.A. or B.S. degree, you will still need to decide on your major.

Major requirements
(All colleges, excluding teacher certification programs)

40 credits

Core requirements
HIS 200 Historiography and Historical Methods 3
HIS 490 History Research Seminar 4
Select nine credits of the following: 9
HIS 210 Survey of United States History
HIS 230 The Ancient and Medieval Worlds
HIS 240 Survey of Modern Europe
HIS 250 The Asian World
HIS 260 Survey of the Middle East
HIS 285 Survey of Modern African History
Select 24 credits from the following four categories (3 credits from the courses below must come from a WGS course)
Global/Transregional (see below) 3
U.S. History (see below; no more than 3 credits can come from a public/policy course) 6
Regional/World Cultural Zones (see below) 12
Ancient/Classical/Religions (see below) 3
Total Credits 40

- HIS/ARC 366 Ancient Israel
- HIS/ARC 367 Ancient Egypt
- HIS/ARC 368 History of Babylonian Language and Culture I
- HIS/ARC 369 History of Babylonian Language and Culture II
- HIS/ARC 374 Ancient Turkey
- HIS/ARC 375 Iran before Islam
- HIS/ARC 396 Ancient Syria
- HIS 401 History and Japanese Religions
- HIS 415 Religion and Conflict in Modern South Asia

**Total Credits** 3

1 Satisfies the 3 credits from a WGS course requirement. (HIS 359, HIS 360, HIS 383, and HIS 386 satisfy the requirement even though they are not cross-listed with WGS.)

### Degree requirements
All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 131)
- Baccalaureate degree requirements (p. 132)

### College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements
The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).
Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

</table>
At least one of the required HIS courses must have a WGS focus.

At least two courses must be designed as writing emphasis.

1 World history majors need 12 credits of Regional/World Cultural Zones. One course each from Asia, Europe, Africa/Middle East, and Latin America.

**History Major with Regional Emphasis - Bachelor of Arts (BA)**

The regional emphasis history major allows students to specialize in one region or time period from history, while still accumulating a broad foundation in the survey-level and professionalizing courses that make up the core history experience. In this regional emphasis, students can take 12 credits in a single focus area: European, Asian, U.S., Latin American, Ancient and Medieval World, or African and African Diaspora.

**Courses for each region**

All faculty in the department teach courses that satisfy the requirements in the regional emphasis. Consult the major requirements tab for this major to see which courses count for which region.

**Major requirements**

(All colleges, excluding teacher certification programs)

</tbody>
</table>

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.

2. Complete at least one ethnic studies (diversity) course.

3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.

5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).

7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

**No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.**

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

At least two courses must be designed as writing emphasis.

1. Complete 12 credits of regional coursework from one of the following focus areas: European, Asian, United States, Latin America, Ancient/Medieval, or African and African Diaspora.

2. CLS Core Humanities and Fine Arts Tracks require 102+ level language. CLS Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

History Major with Regional Emphasis - Bachelor of Science (BS)

The regional emphasis history major allows students to specialize in one region or time period from history, while still accumulating a broad foundation in the survey-level and professionalizing courses that make up the core history experience. In this regional emphasis, students can take 12 credits in a single focus area: European, Asian, U.S., Latin American, Ancient and Medieval World, or African and African Diaspora.

Courses for each region

All faculty in the department teach courses that satisfy the requirements in the regional emphasis. Consult the major requirements tab for this major to see which courses count for which region.

### Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 138)
- Baccalaureate degree requirements (p. 139)

### College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.

5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.

6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

History Major with Topical Emphasis - Bachelor of Arts (BA)

What is a topical emphasis in cultural and social history?

Students in UW-La Crosse History Department's history major with topical emphasis in cultural and social history will study the history of cultural and social forces embodied in movements and organizations; art, literature, and film; areas of human experience including apparel, architecture, and culinary practices; and the various commercial media inundating our daily lives. Our students will learn how social and cultural phenomena have historically affected and structured our material and intellectual environment in connection with ethical concerns involving political and economic questions.

In general, the History Department’s cultural and social history emphasis will help students develop and make tangible the kinds of relatively intangible skills prospective employers and professional and graduate school admissions committees will value: problem solving, analytical and creative thinking, research skills, the ability to express oneself and one’s thoughts clearly and persuasively both verbally and in writing, intercultural communication skills, and the capacity to address immediate concerns with the kind of “big picture” perspective that a historically grounded education provides.

The History Department will particularly encourage students in topical emphases to apply for and undertake internships with organizations and businesses related to individual students' interests, concerns, and plans. Our faculty will work with students, helping to place them in intern positions that will be of genuine value with respect to their intellectual and professional development. Internships along these lines will help students get their "foot in the door" in areas of prospective post-graduation employment and professional development.

What really sets apart the three new topical emphases including cultural and social history is that faculty will work with students to produce portfolios packaging and showcasing the aptitudes and skills they develop over the courses of their undergraduate education. To some, abilities obtained and developed through a traditional liberal education, such as analytical and creative thinking, may seem abstract and without specific content, being notoriously difficult to measure and assess through means such as standardized testing. However, cultural and social history students' portfolios are where their skills, aptitudes, and abilities will become manifestly palpable and concrete.

What is a topical emphasis in public and policy history?

A topical emphasis in public and policy history refers to scholarly work that seeks out audiences beyond the classroom and the academic journal. While professional historians may study a vast array of time periods, peoples, and topics, public and policy history is distinct in that it seeks to spread that research to broader audiences, and also to take as its subject of study those attempts to connect history to the people. Public history might include museums and memorials, oral history and landmarks, interpretive signage and educational outreach, and the capacity to address immediate concerns involving political and economic questions.

At least two courses must be designed as writing emphasis.

1 Complete 12 credits of regional coursework from one of the following focus areas: European, Asian, United States, Latin America, Ancient/Medieval, or African/African Diaspora.
What is a topical emphasis in religious studies?

Students in the UW-L History Department’s history major with topical emphasis in religious studies will have an opportunity to study the fascinating phenomenon of religion from a variety of disciplinary perspectives with course offerings in the Departments of History, Philosophy, Sociology, Anthropology, and Women’s, Gender, and Sexuality Studies. The religious studies emphasis challenges students to question common stereotypes about religion and religious people, to become aware of the multiple roles and functions religion plays in human cultural life, and to both critically scrutinize and emphatically understand the rationales that have shaped the wide variety of religious world views, behaviors, and experiences that humans have used in the course of constructing, maintaining, and inhabiting their cultural worlds. In these ways, the religious studies emphasis sharpens students’ awareness of and understanding of human cultural diversity and prepares them for responsible global citizenship in a religiously pluralistic world.

Major requirements

(All colleges, excluding teacher certification programs)

40 credits

Core requirements

Select six credits from the following: 6

| HIS 200 | Historiography and Historical Methods |
| HIS 490 | History Research Seminar |
| HIS 210 | Survey of United States History |
| HIS 230 | The Ancient and Medieval Worlds |
| HIS 240 | Survey of Modern Europe |
| HIS 250 | The Asian World |
| HIS 260 | Survey of the Middle East |
| HIS 285 | Survey of Modern African History |

Regional/world cultural zones

Select nine credits of the following: 9

| HIS 316 | Vietnam War |
| HIS 334 | Aspects of Chinese History |
| HIS 335 | History of China |
| HIS 363 | Modern South Asia |
| HIS 382 | Imperialism in Asia and the Pacific |
| HIS 394 | Modern Japanese History |
| HIS 395 | Postwar Japanese History |
| HIS 412 | Global Trade and Labor, 1500 to Present |
| HIS 415 | Religion and Conflict in Modern South Asia |

Latin America

Select three credits from the following: 3

| HIS 341 | Nineteenth Century Latin America |
| HIS 342 | Twentieth Century Latin America |
| HIS 344 | Colonial Latin America |
| HIS 347 | A History of Greater Mexico |
| HIS 356 | History of Mexico |
| HIS 412 | Global Trade and Labor, 1500 to Present |

Europe

Select one of the three following emphases, with no more than six credits of that 18 coming from disciplines outside the department of history (see below)

Topical emphasis

Select one of the following:

| HIS 339 | History of Russia and the Soviet Union |
| HIS 346 | History of the Middle Ages |
| HIS 348 | Renaissance and Reformation |
| HIS 349 | History of Modern Europe (20th Century) |
| HIS 350 | Episodes in French History |
| HIS 351 | History of France: 1750-Present |
| HIS 352 | History of Modern Germany |
| HIS 354 | Spain to 1700 |
| HIS 355 | England to 1603 |
| HIS 358 | French Revolution |
| HIS 373 | World War I |
| HIS 412 | Global Trade and Labor, 1500 to Present |

Topical emphasis

Select one of the following:

Africa

| HIS 385 | Modern African History |
| HIS 387 | African Novels and History |
| HIS 388 | Comparative Slave Systems |
| HIS 397 | Social History of African Nationalist Movements |
| HIS 398 | Social History of Colonial Africa |
| HIS 412 | Global Trade and Labor, 1500 to Present |

Cultural and social history

Select two of the following:

| HIS 311 | Dilemmas of Peace and War |
| HIS 387 | African Novels and History |
| HIS 392 | History Through Film |
| HIS 397 | Social History of African Nationalist Movements |
| HIS 398 | Social History of Colonial Africa |
| HIS 404 | Migration and Empire |
| HIS 405 | Migration: Personal Accounts |
| HIS 406 | Topics in Social History |
| HIS 407 | State and Society |
| HIS 412 | Global Trade and Labor, 1500 to Present |
| HIS 413 | Topics in Cultural History |
| HIS 450 | History Internship/Field Experience |
| ENG 301 | Foundations for Literary Studies |
| ENG 348 | Studies in Film Literature |
| WGS 210 | Women’s Voices / Women’s Culture |
| WGS 373 | Gender and Human Rights |
| WGS/SOC 375 | Lesbian Studies |
| ART 251 | Art History I: Ancient and Medieval Art |
| ART 252 | Art History II: Renaissance to Contemporary Art |
| ART 301 | World Art |

Public and policy history

Select two of the following:

| HIS 320 | Introduction to Public and Policy History |
| HIS 322 | History of Public Education in United States |
| HIS 391 | History of Environmental Policy in the United States |
| HIS 393 | Material Culture |
### Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 142)
- Baccalaureate degree requirement (p. 143)

### College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

### Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

#### A. Language track

1. Native speakers of English: complete:
   - Select one of the following:
     - CHI 202 Intermediate Chinese II
     - FRE 202 Intermediate French II
     - GER 202 Intermediate German II
     - RUS 202 Intermediate Russian II
     - SPA 202 Intermediate Spanish II
     - MLG 202 World Languages: Intermediate II
     - MLG 204 Heritage Language: Intermediate
     - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university's English

1. Technical skills courses: Students are encouraged to complete three credits or more from this subset of courses.

### Writing portfolio requirement

To be certified for graduation in the history major with topical emphasis, students must submit and have approved a portfolio of professional writing especially geared towards their intended career path. Students must submit writing portfolios by the middle of the semester in which they intend to graduate. Specific deadlines, item requirements, and submission directions are posted on the department website. The list of required material will be different for each of the emphases. The submitted portfolio may include items of coursework completed during the student’s undergraduate career, but might also require the production of additional materials. The materials might include a curriculum vitae or résumé, grant applications, a document written for a public audience, a sample of academic writing, or cover letters for job applications.
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must fulfill the general education requirements for a major or minor after the fourth week of the last semester of the senior year. Consult with your advisor and/or the assistant to the dean in your college for assistance with course and load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and load during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: At least 40 credits of the 120 credits required must be earned at the 300/400 level.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: At least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

A writing portfolio is required.

At least two courses must be designed as writing emphasis.
journal. While professional historians may study a vast array of time periods, peoples, and topics, public and policy history is distinct in that it seeks to spread that research to broader audiences, and also to take as its subject of study those attempts to connect history to the people. Public history might include museums and memorials, oral history and landmarks, interpretive signage and educational outreach, heritage and cultural institutions. Policy history could be described as the study of past decision making or government institutions, with an intended audience of present-day representatives from those same groups, and might include topics or audiences in state legislatures or county government, prisons and courts, government social or environmental agencies, or the like.

What is a topical emphasis in religious studies?

Students in the UW-L History Department’s history major with topical emphasis in religious studies will have an opportunity to study the fascinating phenomenon of religion from a variety of disciplinary perspectives with course offerings in the Departments of History, Philosophy, Sociology, Anthropology, and Women’s, Gender, and Sexuality Studies. The religious studies emphasis challenges students to question common stereotypes about religion and religious people, to become aware of the multiple roles and functions religion plays in human cultural life, and to both critically scrutinize and emphatically understand the rationales that have shaped the wide variety of religious world views, behaviors, and experiences that humans have used in the course of constructing, maintaining, and inhabiting their cultural worlds. In these ways, the religious studies emphasis sharpens students’ awareness of and understanding of human cultural diversity and prepares them for responsible global citizenship in a religiously pluralistic world.

Writing portfolio requirement
To be certified for graduation in the history major with topical emphasis, students must submit and have approved a portfolio of professional writing especially geared towards their intended career path. Students must submit writing portfolios by the middle of the semester in which they intend to graduate. Specific deadlines, item requirements, and submission directions are posted on the department website. The list of required material will be different for each of the emphases. The submitted portfolio may include items of coursework completed during the student’s undergraduate career, but might also require the production of additional materials. The materials might include a curriculum vitae or résumé, grant applications, a document written for a public audience, a sample of academic writing, or cover letters for job applications.

Degree requirements
All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 146)
• Baccalaureate degree requirements (p. 147)

College of Liberal Studies (CLS/SAC)
Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.
In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term.

Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

A writing portfolio is required.

At least two courses must be designed as writing emphasis.

1. Complete 6 credits from the following Regional/World Cultural Zones: Asia, Europe, Latin America, or Africa.
2. Complete 18 credits from one of the following three emphasis areas (6 of the 18 credits coming from disciplines outside the Department of History): Cultural and Social History; Public and Policy History; or Religious Studies.

## History Education Major (Early Adolescence-Adolescence Certification) - Bachelor of Science (BS)

The **history education major**, intended for those who intend to seek certification in the early adolescence-adolescence range, provides a grounding in the core courses of the history major, as well as a foundation in four categories of history covering much of the world and its time periods. This program also requires the completion of HIS 408 specifically for future teachers and some additional courses required by state statute.

## Teacher preparation in history

The History Department works closely with other divisions on campus on several different paths to provide a background in history for future teachers. The two major options are the history education major (http://www.uwlax.edu/History/Teacher-Preparation/#qt-3), also known as the broadfield major.

Students on these paths will need to keep track of requirements within the History Department, and also within their chosen educational program. Wherever possible, the History Department works to respond to the needs of future educators, while preparing them with current knowledge and methods from the historical profession. A variety of programs in the department -- National History Day (http://www.uwlax.edu/History/National-History-Day), Phi Alpha Theta (http://www.uwlax.edu/History/Phi-Alpha-Theta), and preparation for the PRAXIS exams -- respond to the unique needs of future educators.

### Major requirements

**Admission requirements for STEP Program (p. 515)**

(Teacher certification program: early adolescence-adolescence)

44 credits

#### Core requirements

| HIS 200 | Historiography and Historical Methods | 3 |
| HIS 408 | Teaching and Learning History & Social Studies in the Secondary School | 4 |
| HIS 490 | History Research Seminar | 4 |

Select nine credits of the following:

| HIS 210 | Survey of United States History | 3 |
| HIS 230 | The Ancient and Medieval Worlds | 4 |
| HIS 240 | Survey of Modern Europe | 3 |
| HIS 250 | The Asian World | 3 |
| HIS 285 | Survey of Modern African History | 3 |

#### Categories

Select 24 credits from the following four categories:

- History of women, gender and sexuality (see below) | 3 |
- U.S. history (see below) | 6 |
- Regional/world cultural zones (see below) | 12 |
- Classical world/religions (see below) | 3 |

Total Credits: 44

#### History of women, gender and sexuality

Select three credits of the following:

| HIS 301 | Women in the Modern United States: 1890-Present | 3 |
| HIS 305 | History of Motherhood in the United States | 3 |
| HIS 315 | History of Feminist Thought | 3 |
| HIS 359 | Women, Gender and Sexuality in Modern Europe | 3 |
| HIS 360 | Women, Gender, and Sexuality in Latin America | 3 |
| HIS 370 | The History of Black Women’s Activism | 3 |
| HIS 372 | History of Women in the Ancient World | 3 |
| HIS 386 | Women and Gender in Africa | 3 |
| HIS 389 | Women and Gender in the Middle East | 3 |

Total Credits: 3

#### U.S. history

Select six credits of the following:

| HIS 308 | Reforming U.S. Society | 6 |
| HIS 310 | Native American History | 6 |
| HIS 313 | Colonial & Revolutionary America | 6 |
## Regional/world cultural zones

### Asia
Select three credits of the following:
- **HIS 316** Vietnam War
- **HIS 334** Aspects of Chinese History
- **HIS 335** History of China
- **HIS 363** Modern South Asia
- **HIS 404** Migration and Empire
- **HIS 405** Migration: Personal Accounts
- **HIS 412** Global Trade and Labor, 1500 to Present
- **HIS 415** Religion and Conflict in Modern South Asia

### Latin America
Select three credits of the following:
- **HIS 341** Nineteenth Century Latin America
- **HIS 342** Twentieth Century Latin America
- **HIS 344** Colonial Latin America
- **HIS 347** A History of Greater Mexico
- **HIS 356** History of Mexico
- **HIS 404** Migration and Empire
- **HIS 405** Migration: Personal Accounts
- **HIS 412** Global Trade and Labor, 1500 to Present

### Europe
Select three credits of the following:
- **HIS 311** Dilemmas of Peace and War
- **HIS/ANT 312** Peoples and Cultures of Eastern Europe and the Former Soviet Union
- **HIS 314** The Holocaust
- **HIS 339** History of Russia and the Soviet Union
- **HIS 346** History of the Middle Ages
- **HIS 348** Renaissance and Reformation
- **HIS 349** History of Modern Europe (20th Century)
- **HIS 350** Episodes in French History
- **HIS 351** History of France: 1750-Present
- **HIS 352** History of Modern Germany
- **HIS 354** Spain to 1700
- **HIS 355** England to 1603
- **HIS 358** French Revolution
- **HIS 373** World War I
- **HIS 404** Migration and Empire
- **HIS 405** Migration: Personal Accounts
- **HIS 412** Global Trade and Labor, 1500 to Present

### Africa
Select three credits of the following:
- **HIS 385** Modern African History
- **HIS 387** African Novels and History
- **HIS 388** Comparative Slave Systems
- **HIS 397** Social History of African Nationalist Movements
- **HIS 398** Social History of Colonial Africa
- **HIS 404** Migration and Empire
- **HIS 405** Migration: Personal Accounts
- **HIS 412** Global Trade and Labor, 1500 to Present

### Classical world/religions
Select three credits of the following:
- **HIS 204** Ancient Literate Civilizations
- **HIS 326** Modern Christianity
- **HIS 327** History of Buddhism
- **HIS 328** History of Hinduism
- **HIS 329** History of Islam
- **HIS 330** History of Religions
- **HIS 331** The Ancient Greek World
- **HIS 332** Ancient Rome and the Mediterranean
- **HIS 333** Christianity to 1517
- **HIS 340** Origins of Cities
- **HIS 353** Maya Civilization
- **HIS 365** Ancient Iraq
- **HIS 366** Ancient Israel
- **HIS 367** Ancient Egypt
- **HIS 374** Ancient Turkey
- **HIS 396** Ancient Syria
- **HIS 401** History and Japanese Religions
- **HIS 415** Religion and Conflict in Modern South Asia

Teacher certification candidates must also complete GEO 200 Conservation of Global Environments (3 cr.) and EFN 200 Cooperatives (1 cr.) to fulfill statutory licensing requirements (credits do not count toward the history education major).

Additional teacher education requirements are listed in the STEP program core (p. 515).

### Degree requirements
All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 149)
Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Option A (content major) 57-64 credits

37-44 credit major in geography education, history education, political 37-44 science education, or sociology education

20 credits, with a minimum of three credits, from any two of the following areas outside of the major:

- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

Total Credits: 57-64

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. Credits do not count toward the social studies education (broad field) major.

Candidates must also complete additional teacher education requirements listed in the STEP Program core (p. 515).

Option B (content minor) 54-60 credits

18-24 credit minor in one of the following:

- Economics Education
- Geography Education
- History Education
- Political Science Education
- Psychology Education
- Sociology Education

32 credits with a minimum of three credits from three of the subject areas outside of the minor selected from the following:

- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

ECO/GE/His/Pol/Psy/Soc 408

Total Credits: 54-60

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. Credits do not count toward the social studies education (broad field) major.

Social Studies Education (Broad Field) Major (Early Adolescence-Adolescence Certification) - (BS)

Generally known as the Broadfield Social Studies Program, the social studies education major allows students to complete coursework in a broad range of social studies fields across campus, while still accumulating credits in one central department. The two options of this program allow students a choice: they can earn one major and amass 20 credits in a range of other disciplines (Option A); or they can earn a minor in one program, and accumulate an even larger number of credits from those other disciplines. The BFSS program is a very clever solution to the problem of academic over-specialization: it allows future teachers to graduate without pigeon-holing them into a single specialty. Instead, they can take a wide variety of courses in many social science disciplines, thus preparing them for the varied and diverse teaching requirements of secondary education.

Teacher preparation in history

The History Department works closely with other divisions on campus on several different paths to provide a background in history for future teachers. The two major options are the history education major, (http://www.uwlax.edu/History/Teacher-Preparation) and the social studies education major (http://www.uwlax.edu/History/Teacher-Preparation/#qt-3), also known as the broad field major.

Students on these paths will need to keep track of requirements within the History Department, and also within their chosen educational program. Wherever possible, the History Department works to respond to the needs of future educators, while preparing them with current knowledge and methods from the historical profession. A variety of programs in the department -- National History Day (http://www.uwlax.edu/History/National-History-Day), Phi Alpha Theta (http://www.uwlax.edu/History/Phi-Alpha-Theta), and preparation for the PRAXIS exams -- respond to the unique needs of future educators.

International Studies Program (INS)

College of Liberal Studies
Program Director: Adam Van Liere
423C Wimberly Hall, 608.785.6956
Email: avanliere@uwlax.edu

www.uwlax.edu/cls/international-studies

International studies is an interdisciplinary minor that draws on courses in departments from throughout the university. Over 200 courses have been approved in departments as varied as anthropology, geography, marketing, foreign languages, art, philosophy, economics, political science, and history. Students design individualized programs of study in consultation with the Director of International Studies. With the globalization of all aspects of life in the 21st century, an international studies minor is a valuable complement to any major in the university.

Minors
- International studies minor (p. 157)
- International studies minor: African emphasis (p. 161)
- International studies minor: Asian emphasis (p. 162)
- International studies minor: European emphasis (p. 163)
- International studies minor: Latin American emphasis (p. 165)
- International studies minor: Middle East emphasis (p. 166)

International Studies Minor

Minor requirements

(All colleges)

21 credits, at least 12 credits of which must be at the 300/400 level.

International studies foundation:
Select one from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANT 202/ECO 202/GEO 202/HIS 202/POL 202/SOC 202</td>
<td>3</td>
</tr>
<tr>
<td>ANT 212/ECO 212/POL 212/WGS 212 Search for Economic Justice</td>
<td>3</td>
</tr>
</tbody>
</table>

International studies electives:
Select an additional twelve credits of electives from three different disciplines on the Category I and/or Category II lists (see below) and at least nine of these credits must be at the 300/400 level.

International studies language requirement:
Complete one modern language course 102 or higher or TESOL equivalent for BS candidates, OR 202 or higher for BA candidates. Some options to satisfy this requirement will total more than three credits.

Total Credits

21
Modern language prerequisites may require an additional three to twelve credits in order to satisfy the international studies language requirement. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirements and/or college core requirements may also be used to meet the international studies language requirements.

Non-native speakers of English may satisfy the international studies language requirement by exhibiting proficiency in English (a score of 70 or above on the La Crosse Battery of Exams for non-native speakers of English or by earning a score on the TOEFL or IELTS that results in admission to UW-La Crosse as a degree seeking student).

International studies minors may apply a maximum of six credits from another major or minor.

Category I: Global issues

Check the department course listing for particular prerequisites.

Additional courses

These additional courses may be available for international studies credit. Students may obtain credit for the following courses by making application to the Director of International Studies. The director will determine the placement of the course into the above categories (depending upon course content) and the credit to be applied toward the minor. Please note that most of these courses have prerequisites.

ACC 450 College of Business Administration Internship 1-6
ART 341 Selected Topics in Art History 3
BUS 400 Foreign Study Tour 1
ENG 403 Individual Projects 1-3
ENG 481 Seminar in Literature and Culture (depending on topic) 3
ENG 482 Advanced Study of Women’s Literature 3
ENG 494 Advanced Topics in Literature 1-3
ENG 495 Advanced Study of Major Authors 3
ERS 300 Topics and Symposium in Minority Studies 1-3
FRE 491 Films and Literature 3
FRE 498 Independent Study 1-3
FRE 499 Independent Study 1-3
GEO 470 Special Topics in Geography/Earth Science 1-3
GEO 476 Geography/Earth Science Topics for Teachers 1-3
GEO 490 Independent Study 2-3
GEO 495 Seminar in Geography/Earth Science 1-3
GER 498 Independent Study 1-3
GER 499 Independent Study 1-3
HIS 300 Topics in History 1-3
HIS 479 Individual Study in History 1-3
INS 350 Independent Foreign Research 1-6
INS 425 Interdisciplinary Seminar International Studies 2-3
INS 426 International Study Tour 1
INS 450 International Internship 1-6
MGT 452 College of Business Administration International Internship 1-6
MKT 499 Independent Study 1-3
MLG 491 Films and Literature 3
PHL 300 Topics in Philosophy 3
PHL 494 Advanced Topics in Philosophy 3
PHL 495 Individual Study in Philosophy 1-3
POL 499 Independent Study in Political Science 1-3

International Studies Minor: African Emphasis

(All colleges)
21 credits, at least 12 credits of which must be at the 300/400 level.

**International studies foundation:**

Select one from:

- OR a semester-long study abroad experience combined with the INS 250, INS 251, INS 252 sequence

- INS 495 Directed Readings in International Studies

**African emphasis electives:**

Select an additional twelve credits of electives from two different disciplines on the African emphasis list (see below) and at least nine of these credits must be at the 300/400 level.

**African emphasis language requirement:**

Complete one modern language course 202 or higher in Arabic, French, Swahili, or in another African language approved by the program director. Some options to satisfy this requirement will total more than three credits.

Total Credits 21

---

1. The semester-long study abroad experience that is combined with INS 250, INS 251, and INS 252 must be to a location in Africa.

2. Modern language prerequisites may require an additional nine to twelve credits in order to satisfy the international studies language requirement. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirements and/or college core requirements may also be used to meet the international studies language requirements.

International studies minors may apply a maximum of six credits from another major or minor.

**African emphasis**

- ARC 312 African Archaeology
- ARC/ANT 357 Peoples and Cultures of Africa
- FRE 407 African and Caribbean Literature in French
- GEO 312 Geography of Africa
- HIS 285 Survey of Modern African History
- HIS 379 African Environmental History
- HIS 380 Beyond Rwanda: War and Genocide in Africa’s Great Lakes
- HIS 381 Health and Healing in African History
- HIS 385 Modern African History
- HIS 386 Women and Gender in Africa
- HIS 387 African Novels and History
- HIS 397 Social History of African Nationalist Movements
- HIS 398 Social History of Colonial Africa
- POL 337 African Government and Politics
- POL 437 Women and Politics in Africa

**Additional courses**

These additional courses may be available for international studies credit. Students may obtain credit for the following courses by making application to the Director of International Studies. The director will determine the placement of the course into the above categories (depending upon course content) and the credit to be applied toward the minor. Please note that most of these courses have prerequisites.

**International Studies Minor: Asian Emphasis**

**Minor requirements**

(All colleges)

22 credits, at least 12 credits of which must be at the 300/400 level.

**International studies foundation:**

Select one from:

- OR a semester-long study abroad experience combined with the INS 250, INS 251, INS 252 sequence

- INS 495 Directed Readings in International Studies

**Asian emphasis electives:**
Select an additional twelve credits of electives from two different disciplines on the Asian emphasis list (see below) and at least nine of these credits must be at the 300/400 level.

**Asian emphasis language requirement:**
Complete one modern language course 202 or higher in Chinese or Japanese, or in another Asian language approved by the program director. ²

**Total Credits**
22

1 The semester-long study abroad experience that is combined with INS 250, INS 251, and INS 252 must be to a location in Asia.

2 Modern language prerequisites may require an additional twelve credits in order to satisfy the international studies language requirement. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirements and/or college core requirements may also be used to meet the international studies language requirements.

International studies minors may apply a maximum of six credits from another major or minor.

---

1. The semester-long study abroad experience that is combined with INS 250, INS 251, and INS 252 must be to a location in the Middle East.

2. Modern language prerequisites may require an additional twelve credits in order to satisfy the international studies language requirement. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirements and/or college core requirements may also be used to meet the international studies language requirements.
training are conducted on the campus, in the local area or at military training facilities. The Military Science and Leadership Program is divided into basic course and advanced course requirements as outlined below.

**Army ROTC basic course (no service obligation incurred)**

The Army ROTC Basic Course consists of two first year-level courses (MS 101 Introduction to the Army Profession and MS 102 Basic Leadership) and two sophomore-level courses (MS 201 Individual Leadership Studies and MS 202 Leadership and Teamwork); the four courses total eight credits. The first year courses focus on the introduction to the Army profession and officership. The sophomore courses focus on the experiential examination of leadership, decision-making, and group dynamics. By the end of the Army ROTC Basic Course, students will possess a basic understanding of the unique aspects of the officer corps, fundamentals of leadership and decision-making, the Army's institutional values, and principles of individual fitness and healthy lifestyles. All basic course lessons emphasize student classroom practical exercises, inspire intellectual curiosity, and stimulate self-study.

**Army ROTC advanced course**

The Army ROTC Advanced Course consists of three distinct components: The leadership and decision-making training of the MS III, or junior year; the Leadership Development and Assessment Course (LDAC); and lessons that guide the student in a transition from Cadet to Army officer during the MS IV, or senior year. Advanced Course lessons are carefully sequenced, linked, and progressive in their treatment of key officer knowledge and competencies. The ROTC Advanced Course consists of 15 credit hours, acquired through MS 301 Leadership & Problem Solving, MS 302 Leadership and Ethical Decision Making, MS 401 Leadership and Management, MS 402 American Military History, and MS 403 Officership as described below. The prerequisite for the ROTC Advanced Course is the ROTC Basic Course. This requirement can also be fulfilled by attending an ROTC internship known as the Leadership Training Course (LTC). Additionally, basic course requirements are automatically met by veterans, Army Reservists, and National Guardsmen now enrolled in school who possess a minimum of 54 credit hours and have graduated from a basic training course from any of the armed services.

**Internships**

The military science department offers two types of internships that may, upon mutual agreement between the student's college and the professor of military science, fulfill other academic internship requirements.

**Leadership internship (No military obligation incurred)**

The Leadership Training Course (LTC) is a paid, no obligation, four-week course held at Fort Knox, KY. This internship is high adventure, activity-based training that develops leadership, decision-making, and management skills. This internship is available to any sophomore or junior with four semesters of undergraduate study remaining, provided they have not already completed a basic military training course in any of the armed services. Motivation, initiative, and a drive for adventure are the key characteristics one must possess upon entering this internship. Upon completion, the student will receive seven credit hours and have
the opportunity to enter the ROTC Advanced Course to pursue a commission as a Second Lieutenant in the Army.

**Leadership development and assessment course (LDAC)**

(an internship opportunity worth 3-12 credits, given prior coordination and consent from the student’s college and the professor of military science)

The LDAC provides the single most important block of training and evaluation in the progression of an Army cadet. Throughout the 32 LDAC training days at Fort Lewis, WA, cadets encounter stress-inducing physical and mental obstacles, which challenge them as individuals, soldiers, and leaders. The LDAC uses small unit tactical training as the vehicle for further developing self-confidence and evaluating a cadet’s leadership abilities and potential to serve as a commissioned officer. Prerequisites for LDAC attendance are MS 301, MS 302 and an Army contractual obligation for service as a commissioned officer.

Total Credits: 25

Students must complete the Leadership Development and Assessment Course (no credit) or a three credit community leadership internship (CEI 450).

**Modern Languages Department (MLG)**

*College of Liberal Studies*

Department Chair: Leslee Poulton

315E Graff Main Hall; 608.785.8316

Email: lpoulton@uwlax.edu

www.uwlax.edu/modern-languages

The ability to communicate across national and linguistic borders has become essential in our globalized world; therefore, the mission of the Department of Modern Languages is to help students develop the linguistic, literary, and cross-cultural competence necessary to live, work, and be lifelong learners in our diverse world. We pride ourselves on excellence in teaching, and we work diligently to let students see how welcome and valued they are in our department. Each member of the faculty has traveled, studied, and lived in the cultures that speak the language(s) in which she/he specializes. If you are interested in participating in a study abroad program, we likely have a faculty member who is familiar with or specializes in that region and can help you prepare for your trip.

The Department of Modern Languages offers majors and minors in French, German studies and Spanish (with education majors and minors and business concentrations for each of these languages); minors in Chinese studies and teaching English to speakers of other languages (TESOL); certificates in French studies and Russian studies; and courses in Arabic, Japanese, and Hmong.

A student who plans to continue a language already studied in high school must take the UW System Foreign Language Placement Test in order to determine the appropriate course level. Following the appropriate
course placement as indicated by this test should help assure receipt of retroactive credits, but does not guarantee them.

**Modern Languages retroactive credit and advanced placement policy**

The Department of Modern Languages does not offer an exam to establish retroactive credit or advanced placement. Instead, a student may receive retroactive credits provided a grade of "B" or better is earned in the student's first university course above the 101 level in a particular language. However, if a student received college credit for a course taken while still in high school (through advanced placement, Youth Options, or other cooperative agreements between secondary schools and colleges/universities), received a grade of "B" or better (if a grade was given), and did not receive retroactive credits at that time, retroactive credits may be awarded upon completion of the next level course at UW-La Crosse with a grade of "B" or higher. Please consult with the department chair if in doubt about eligibility for retroactive credits.

Retroactive credit may be given in one or more languages. No retroactive credit is given for FRE 220, for FRE 331 or SPA 331, or for FRE 326/GER 326/SPA 326 or any course taken in English. The first college level course taken to earn retroactive credits should be one in which several language skills can be evaluated.

- **Elementary Language II (102):**
  - Earns four retroactive credits plus four course credits for a total of eight credits.
  - Elementary French II (102) - earns three retroactive credits plus three course credits for a total of six credits

- **Intermediate Language I (201):**
  - Earns eight retroactive credits plus four course credits for a total of 12 credits.
  - Intermediate French I (201) - earns six retroactive credits plus three course credits for a total of nine credits

- **Intermediate Language II (202):**
  - Earns 12 retroactive credits plus four course credits for a total of 16 credits.
  - Intermediate French II (202) - earns nine retroactive credits plus three course credits for a total of 12 credits

**Note:** Any advanced course in a specific language (except 326 and 331) earns 16 retroactive credits plus two to four course credits for a total of 18-20 credits. Any advanced course (except 326 and 331) earns 12 retroactive credits plus three course credits for a total of 15 credits.

**Language proficiency for the bachelor of arts degree**

A student who demonstrates satisfactory proficiency in an approved language at the 202 level may waive the foreign language requirement for the Bachelor of Arts degree. (Students still must complete seven credits in the general education requirement "Mathematical/logical systems and modern languages" (GE 02).) The student's proficiency level will be determined by the results of the UW System Foreign Language Placement Test and the department's proficiency examination. The student will not receive retroactive credit in the language for passing the proficiency examination.

**Modern Languages study abroad credit policy**

The chair of the Department of Modern Languages or designee(s) approves equivalencies for university study in other universities, domestic and foreign. Generally speaking, each major language offered in the department rules on which courses taken elsewhere are applicable and how they apply.

Students participating in study abroad programs are required to take INS 250 Orientation to Study Abroad and INS 251 Study Abroad Practicum: Journaling. INS 252 Cross-Cultural Reentry From Study Abroad is highly recommended. Students who choose to study abroad are required to take at least one three-credit course in the foreign language at UW-L after returning from the country of study.

**Note:** German Studies majors are required to study abroad and therefore, may choose to petition the requirement to take a course upon return from study abroad. Re-entry course requirement waiver forms are available at 315 Graff Main Hall. The request will be considered by the German Studies faculty. The decision will be based on evaluation of the student's performance prior to the study experience in the foreign country. The faculty may also ask the student to take written and oral proficiency exams.

**General education writing emphasis**

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

**2015-16 Faculty/Staff**

Total Credits: 33

Students may take up to 9 credits abroad as electives for their French major after studying abroad for a period of 12-16 weeks.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.
College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   - Select one of the following:
     - CHI 202 Intermediate Chinese II
     - FRE 202 Intermediate French II
     - GER 202 Intermediate German II
     - RUS 202 Intermediate Russian II
     - SPA 202 Intermediate Spanish II
     - MLG 202 World Languages: Intermediate II
     - MLG 204 Heritage Language: Intermediate
     - MLG 304 Heritage Language: Advanced

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter
intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study
abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.¹  At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA¹ in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(a) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/ or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

French Education Major (EC-A and MC-EA Certification) - Bachelor of Science (BS)

Major requirements

Admission requirements to EC-A and MC-EA teacher certification programs (p. 514)

(Teacher certification programs: early childhood-adolescence certification and middle childhood-early adolescence certification)

45 credits minimum for EC-A certification; 33 credits minimum for MC-EA certification.

Students majoring in French education complete the French education core requirements and one of two certification tracks (see below). All French education majors must also complete study abroad, proficiency, and student teaching requirements.

Core requirements:

Communication category
- FRE 300 Visual Encounters
- FRE 301 Sound, Speech, and Proficiency
- FRE 307 French for Professional Communication

Connections category
- FRE 305 Exploring the Story

Culture category
- FRE 320 Perspectives on French Civilization
- FRE 322 French without Borders

Middle Childhood-Early Adolescence Certification track (17 credits)

Culture category
- Select three credits of the following:
  - FRE 220 France and the Francophone World
  - FRE 317 Practice in Translation
  - FRE 320 Perspectives on French Civilization
  - FRE 322 French without Borders
  - FRE 351 French Cinema
  - FRE 395 French Literary Voices in English
  - FRE 450 National/International Intern Program
  - FRE 498 Independent Study
  - FRE 499 Independent Study
  - INS 251 Study Abroad Practicum: Journaling

Electives
- Five credits of any French course at 300 or 400 level
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in courses in which the significant portion of the course relates to one or more countries in the German-speaking world. These courses may be taught in English.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

German Studies Major - Bachelor of Arts (BA)

RUS, SPA, MLG) that count in the general education requirement:

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Students must complete an approved work or study experience in a German-speaking country.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 177)
- Baccalaureate degree requirements (p. 178)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher and an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher and an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).
college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/bsp/csprd/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Complete approved work or study experience; after returning, complete at least 1 GER course from UW-L; see your German Studies Advisor for details.

1 Prerequisite: GER 202 Intermediate German II (4 cr.) or equivalent, or appropriate departmental placement. Student must earn retro credit in order to satisfy General Education and the CLS B.A. Core language requirement.

2 Must be taken from the Gen Ed Math/Lang/Logical Systems category if German (GER) retro credit was not earned.

German Studies Major with Business Concentration - Bachelor of Arts (BA)

Major requirements

(All colleges excluding teacher certification programs)

57 credits

Select 33 credits above GER 202 including the following:

| GER 315 | Business German | 3 |

Select one of the following in literature:

| GER 301 | An Introduction to German Literature | 3 |
| GER 403 | Studies of German Literature | 3 |
| GER 406 | Contemporary German Literature | 3 |

Select one of the following in civilization:

| GER 320 | German Civilization: 1870-Reunification | 3 |
| GER 321 | German Civilization: 1989-Present | 3 |

Select two of the following in German skills development:

| GER 300 | Advanced German | 3 |
| GER 311 | German Conversation and Composition | 3 |
| GER 313 | German Grammar and Composition | 3 |
| GER 330 | German Conversation and Phonetics | 3 |

Advanced electives: select 12 credits of electives in German at the 300/400 level. 1

German studies breadth: select two approved courses in which a significant portion of the course relates to one or more countries in the German-speaking world. These courses may be taught in English.

| GER 398 | German Thinkers and Popular Culture (highly recommended) | 3 |
| GER 399 | German Literature in Translation (highly recommended) | 3 |
| GEO 304 | Geography of Europe | 3 |
| HIS 314 | The Holocaust | 3 |
| HIS 323 | World War II | 3 |
| HIS 346 | History of the Middle Ages | 3 |
| HIS 348 | Renaissance and Reformation | 3 |

Total Credits: 33

1 excluding GER 398 and GER 399. A maximum of 6 units from GER 326, GER 327, GER 328, and/or GER 329 .

Students must complete an approved work or study experience in a German-speaking country.

Business requirements (24-27 credits)

Select one of the following:

| ACC 235 | Survey of Accounting | 3 |
| ACC 221 | Accounting Principles I | 3 |
| & ACC 222 | and Accounting Principles II | 3 |
| ECO 110 | Microeconomics and Public Policy | 3 |
| ECO 120 | Global Macroeconomics | 3 |
| ECO 340 | Introduction to International Economics | 3 |
| MKT 309 | Principles of Marketing | 3 |
| MKT 341 | International Marketing | 3 |
| MGT 308 | Behavior and Theory in Organizations | 3 |

Select one of the following:

| ECO 311 | Comparative Economic Systems | 3 |
| MGT 430 | Comparative Management Systems | 3 |
| FIN 355 | Principles of Financial Management | 3 |

Recommended courses: 1

| CS 101 | Introduction to Computing | 3 |
| or CT 100 | Introduction to Computational Thinking | 3 |
| ECO 375 | Economic Development | 3 |
| MTH 145 | Elementary Statistics | 3 |
| MTH 175 | Applied Calculus | 3 |
| FIN 440 | Multinational Financial Management | 3 |

Total Credits: 24-27

1 Recommended courses also include the two courses not chosen from ECO 311, FIN 355, and MGT 430.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 179)
- Baccalaureate degree requirements (p. 180)

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:
1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).

2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.

3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.

4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.

5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.

6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English: complete:
   - Select one of the following:
     - CHI 202 Intermediate Chinese II
     - FRE 202 Intermediate French II
     - GER 202 Intermediate German II
     - RUS 202 Intermediate Russian II
     - SPA 202 Intermediate Spanish II
     - MLG 202 World Languages: Intermediate II
     - MLG 204 Heritage Language: Intermediate
     - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, or ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second minor, major, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.

2. Complete at least one ethnic studies (diversity) course.

3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.

5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

## Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

### General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

**This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.**

**Total Credits: 120**

Complete approved work or study experience; after returning, complete at least 1 GER course from UW-L; see your German Studies Advisor for details.

1. Prerequisite: GER 202 Intermediate German II (4 cr.) or equivalent, or appropriate departmental placement. Student must earn retro credit in order to satisfy General Education and the CLS B.A. Core language requirement.

2. Must be taken from the Gen Ed Math/Lang/Logical Systems category if German (GER) retro credit was not earned.

### German Education Major (EC-A or MC-EA Certification) - Bachelor of Science (BS)

#### Major requirements

Admission requirements to EC-A (p. 514) and (p. 514) MC-EA (p. 514) teacher certification programs (p. 514)

(Teacher certification programs: early childhood-adolescence certification and middle childhood-early adolescence certification)
45 credits minimum for EC-A certification; 33 credits minimum for MC-EA certification.

Students majoring in German education complete the German education core requirements and one of two certification tracks (see below). All German education majors must also complete study abroad, proficiency, and student teaching requirements.

Core requirements:

<table>
<thead>

Choose one of the two certification tracks below:

Early Childhood-Adolescence Certification track (30 credits)

- **Civilization:**
  - GER 320 | German Civilization: 1870-Reunification | 3 |
  - or GER 321 | German Civilization: 1989-Present |
- **German electives:**
  - Any German course at 300 or 400 level (excluding GER 398 and GER 399; a maximum of 6 units from GER 326, GER 327, GER 328, GER 329) | 8 |
- **Language education:**
  - MLG 306 | Introduction to Second Language Acquisition | 3 |
- **Methods:**
  - MLG 473 | Teaching World Languages: From Early Childhood to Early Adolescence | 3 |

Total Credits: 30

Study abroad requirement:

1. All students should consult with their advisor in German regarding specific requirements for study abroad.
2. All German education majors are required to complete an approved foreign language immersion experience of at least 14 weeks (one semester); **MC-EA students** should consult with a German advisor when planning this experience;
3. German education majors are required to complete the 300 level bridge course before studying abroad;
4. Up to 15 credits of the 400 level and the electives categories may be taken abroad with faculty approval;
5. German education majors must take INS 251 during their study abroad program;

Proficiency requirements:

Prior to student teaching, teacher candidates are required to

1. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Oral Proficiency test (ACTFL-OPIc) and
2. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Written Proficiency test in German (ACTFL-WPT internet).

Student teaching and other teacher education requirements:

Other teacher education and pedagogy courses, including appropriate field experiences and student teaching at the appropriate levels, are required and listed with the School of Education (p. 509).

Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 182)
Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Spanish Major - Bachelor of Arts (BA)

Spanish advising

Students should consult with an advisor in the Department of Modern Languages regarding their individual plan of study. Students planning to pursue graduate studies in Spanish need to be aware of special requirements.

Spanish policy of transfer of study abroad credits

The following policy applies to all Spanish credits taken abroad. Students may transfer the following credits per term from study abroad experiences:

- **Winter term:**
  - 4 weeks: 4-5 credits
- **Summer term:**
  - 4 weeks: 4-5 credits
  - 6 weeks: 6-8 credits
  - 8 weeks: 8-10 credits

10 weeks: 8-10 credits

**Fall/Spring semester term:**

12-16 weeks: 12 credits (Exceptions may be allowed for partner programs.)

In the case of one year study abroad, there is a maximum of 16 credits which students majoring in Spanish can take abroad and apply to the major (nine credits applicable for minors). Credits taken in excess of that can be transferred to UW-L as university elective credit.

Major requirements

(All colleges excluding teacher certification programs)

29 credits above SPA 202

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 184)
- Baccalaureate degree requirements (p. 185)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any
college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

---

1. Prerequisite: SPA 202 Intermediate Spanish II (4 cr.) or equivalent, or appropriate departmental placement. Student must earn retro credit in order to satisfy Gen Ed and the CLS B.A. Core language requirement.

2. Must be taken from the General Education: Math/Language/Logical Systems category if Spanish (SPA) retro credit was not earned.
Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 187)
- Baccalaureate degree requirements (p. 187)

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English: complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

2. Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esi) for eligibility and regulations); and

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside of the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intercession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG\&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

\(^1\) Prerequisite: SPA 202 Intermediate Spanish II (4 cr.) or equivalent, or appropriate departmental placement. Student must earn retro credit in order to satisfy Gen Ed and the CLS B.A. Core language requirements.

\(^2\) Must be taken from MTH 175, CS 101, or CT 100 if Spanish (SPA) retro credit was not earned.

**Spanish Education Major (EC-A or MC-EA Certification) - Bachelor of Science (BS)**

**Spanish advising**

Students should consult with an advisor in the Department of Modern Languages regarding their individual plan of study. Students planning
to pursue graduate studies in Spanish need to be aware of special requirements.

**Spanish policy of transfer of study abroad credits**

The following policy applies to all Spanish credits taken abroad. Students may transfer the following credits per term from study abroad experiences:

**Winter term:**
- 4 weeks: 4-5 credits

**Summer term:**
- 4 weeks: 4-5 credits
- 6 weeks: 6-8 credits
- 8 weeks: 8-10 credits
- 10 weeks: 8-10 credits

**Fall/Spring semester term:**
- 12-16 weeks: 12 credits (Exceptions may be allowed for partner programs.)

In the case of one year study abroad, there is a maximum of 16 credits which students majoring in Spanish can take abroad and apply to the major (nine credits applicable for minors). Credits taken in excess of that can be transferred to UW-L as university elective credit.

**Major requirements**

Admission requirements to EC-A and MC-EA teacher certification programs (p. 514)

(Teacher certification programs: early childhood-adolescence certification and middle childhood-early adolescence certification)

46 credits minimum for EC-A certification; 33 credits minimum for MC-EA certification.

Students majoring in Spanish education complete the Spanish education core requirements and one of two certification tracks (see below). All Spanish education majors must also complete study abroad, proficiency, and student teaching requirements.

**Bridge course:**
- SPA 300 Oral Proficiency Through Grammar Review 4

**300 level courses:**

| Language | SPA 330 Advanced Grammar and Syntax 3 |
| Culture/civilization | SPA 331 Spanish Phonetics 3 |
| Literature | SPA 308 Cultures and Civilizations of the Spanish Speaking World 3 |
| Literature | SPA 305 Introduction to Hispanic Literature 3 |

**Total Credits** 16

---

Choose one of the two certification tracks below:

**Early Childhood-Adolescence Certification track (30 credits)**

**400 level coursework:**

| Language | SPA 410 Advanced Conversation 3 |
| Language | SPA 460 Introduction to Hispanic Linguistics 3 |
| Culture/civilization | SPA 320 Spanish Civilization |
| Culture/civilization | SPA 321 Spanish American Civilization |
| Culture/civilization | SPA 390 Topics in Hispanic Cultures |
| Culture/civilization | SPA 495 Senior Seminar in Hispanic Studies |
| Literature | SPA 498 Independent Study |
| Literature | SPA 499 Independent Study |

**Electives:**

Select six credits of electives: 6
- SPA 306 Spanish for the Health Professions
- SPA 315 Business Spanish
- SPA 320 Spanish Civilization
- SPA 321 Spanish American Civilization
- SPA 351 Films in Spanish
- SPA 390 Topics in Hispanic Cultures
- SPA 402 Spanish Literature II
- SPA 403 Studies in Hispanic Literature
- SPA 420 Latin American Literature I
- SPA 421 Latin American Literature II
- SPA 425 Latino Literature of the United States
- SPA 440 The Spanish Novel
- SPA 441 The Spanish Theater
- SPA 491 Films and Literature
- SPA 499 Independent Study

or any of the above courses if not used in a previous category

**Language education:**
- MLG 306 Introduction to Second Language Acquisition 3
- MLG 406 Language Assessment and Testing 3

**Methods:**
- MLG 473 Teaching World Languages: From Early Childhood to Early Adolescence 3
MLG 474 Teaching World Languages: From Early Adolescence to Adolescence 3

Total Credits 30

1 A maximum of six credits may be applied from a Spanish faculty approved study abroad program. Courses can apply to the electives if they were not used in a previous category.

Middle Childhood-Early Adolescence Certification track (17 credits)

Civilization:
SPA 320 Spanish Civilization 3
SPA 321 Spanish American Civilization 3
SPA 326 Current Events 1

Linguistics and grammar:
SPA 427 Spanish Grammar for Teachers 1
SPA 460 Introduction to Hispanic Linguistics 3

Language education:
MLG 306 Introduction to Second Language Acquisition 3

Methods:
MLG 473 Teaching World Languages: From Early Childhood to Early Adolescence 3

Total Credits 17

Study abroad requirement:
1. All students should consult with their advisor in Spanish regarding specific requirements for study abroad.
2. All Spanish education majors are required to complete an approved foreign language immersion experience of at least 14 weeks (one semester); MC-EA students should consult with a Spanish advisor when planning this experience;
3. EC-A students are required to complete the 300 level core of courses before studying abroad; MC-EA students must take SPA 308, SPA 330, and one additional 300 level Spanish course applicable to the major before studying abroad;
4. EC-A students may take up to six credits of the elective category abroad. Consult with Spanish advisor for applicability.

Proficiency requirements:
Prior to student teaching, teacher candidates are required to
1. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Oral Proficiency test in Spanish (ACTFL-OPIc) and
2. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Written Proficiency test in Spanish (ACTFL-WPT internet).

Student teaching and other teacher education requirements:
Other teacher education and pedagogy courses, including appropriate field experiences and student teaching at the appropriate levels, are required and listed with the School of Education (p. 509).

Degree requirements
All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• Baccalaureate degree requirements (p. 190)

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.1 At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA1 in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement, p. 34.)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

1 FRE 220 or FRE 395 may count towards the minor, but not both.

MC-EA teacher education candidates are encouraged to work toward or complete a French major. Consult with a French education advisor if you plan to major in French education.

Study abroad requirement:
1. All students should consult with their advisor in French regarding specific requirements for study abroad.
2. MC-EA program/major candidates are required to complete a minimum of 10 weeks (14 weeks or a full semester are recommended) abroad in a program approved by the Department of Modern Languages; all students must consult with their modern language advisor before committing to a specific study abroad program.
3. Students are required to complete FRE 300, FRE 301, FRE 307, and one course listed under Culture before studying abroad.
4. Up to 9 credits may be taken abroad at a site approved by the Department of Modern Languages, or on approved faculty-led programs.
5. Students must take INS 251 Study Abroad Practicum: Journaling (1 cr.) during their study abroad program.

Proficiency requirement:
Prior to student teaching, teacher candidates are required to
1. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Oral Proficiency test in French (ACTFL-OPIc) and
2. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Written Proficiency test in French (ACTFL-WPT internet).

## MC-EA teacher education candidates are encouraged to work toward or complete a German studies major. Consult with a German studies education advisor if you plan to major in German studies education.

## Study abroad requirement:

1. All students should consult with their advisor in German studies regarding specific requirements for study abroad.
2. MC-EA program/major candidates are required to complete a minimum of 10 weeks (14 weeks or a full semester are recommended) abroad in a program approved by the Department of Modern Languages; all students must consult with their modern language advisor before committing to a specific study abroad program.
3. German studies education MC-EA minors are required to complete the 300 level bridge course (GER 300) before studying abroad. Up to 13 credits may be taken abroad at a site approved by the Department of Modern Languages or on approved faculty-led programs.
4. German studies education minors must take INS 251 during their study abroad program.

## Proficiency requirement:

Prior to student teaching, teacher candidates are required to
1. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Oral Proficiency test in German (ACTFL-OPIc) and
2. Demonstrate proficiency with an "Intermediate High" rating on the American Council Teaching of Foreign Languages Written Proficiency test in German (ACTFL-WPT Internet).

Spanish Minor

Spanish advising

Students should consult with an advisor in the Department of Modern Languages regarding their individual plan of study. Students planning to pursue graduate studies in Spanish need to be aware of special requirements.

Spanish policy of transfer of study abroad credits

The following policy applies to all Spanish credits taken abroad. Students may transfer the following credits per term from study abroad experiences:

Winter term:
4 weeks: 4-5 credits

Summer term:
4 weeks: 4-5 credits
6 weeks: 6-8 credits
8 weeks: 8-10 credits
10 weeks: 8-10 credits

Fall/Spring semester term:
12-16 weeks: 12 credits (Exceptions may be allowed for partner programs.)

In the case of one year study abroad, there is a maximum of 16 credits which students majoring in Spanish can take abroad and apply to the major (nine credits applicable for minors). Credits taken in excess of that can be transferred to UW-L as university elective credit.

Teacher certification – To teach English language learners in public schools, a student must complete requirements in professional education, complete a certifiable major and TESOL minor, pass the ESL Praxis II exam and the Praxis II exam(s) for the certifiable major(s), and student teach English language learners at appropriate levels.

TESOL minors are additionally encouraged to consider these courses which may be considered as substitution for the elective requirement (prior approval of TESOL director required).

- PSY 436 Psychology of Language (3 cr.)
- ANT 196 Introduction to Linguistic Anthropology (3 cr.)
TESOL minors who study abroad for at least 8 weeks may substitute the three course sequence INS 250, INS 251, and INS 252 (a total of 3 credits) for MLG 345 Intercultural Interactions with prior approval of the TESOL director.

Also see English as a Second Language Institute (p. 120).

Total Credits 14

1 May use INS 250, INS 251, and INS 252 (if studying abroad in Russia) to satisfy the elective category.

In order to complete the certificate program, a candidate must earn a minimum 2.50 cumulative GPA for course work in the certificate.

### Alvida Ahlstrom Honors Program

**Program**

1. **Admission**
   a. Junior standing
   b. 3.60 in French, German or Spanish course work at the 300 or 400 level

2. **Program**
   a. Completion of the regular major or minor requirements
   b. FRE 495 /SPA 495/GER 495
   c. Three additional credits of literature or civilization at the 300 or 400 level
   d. Department approval of seminar paper or project; submission of completed paper to the department

3. **Evaluation**
   a. A cumulative 3.60 grade point average in the major or minor at graduation
   b. Distinguished performance on a paper or project developed in the French, Spanish, or German seminar course.
   c. Approval by the departmental staff.

### Philosophy Department (PHL)

**College of Liberal Studies**
Department Chair: Eric Kraemer
245E Graff Main Hall; 608.785.8424
Email: ekraemer@uwlax.edu

[www.uwlax.edu/philosophy](http://www.uwlax.edu/philosophy)

The significant features of the Department of Philosophy at UW-La Crosse include its broadly prepared faculty and its diverse course offerings. The philosophy faculty members, all of whom have doctorates in philosophy, represent many different philosophical viewpoints and diverse competencies and interests. The coursework available in the Philosophy Program represents not only all of the important traditional areas of philosophy but also new interests and developments in the field.

Philosophy fosters creative and critical thinking and helps one to understand human thought through the ages as well as developing an insightful perspective on the present scene. Students often major in another discipline at the same time they are studying philosophy. This joint major program is excellent preparation for many programs of study beyond the baccalaureate degree including law, business, and medicine.

**2015-16 Faculty/Staff**

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

**Professor**
Eric Kraemer

**Associate Professor**
Sheryl Tuttle Ross

**Assistant Professor**

Elective courses
Select 12 credits of electives in philosophy 12

Total Credits 30

Majors must take four philosophy courses at the 300/400 level including PHL 496. No more than six credits of PHL 494/PHL 495/PHL 497 shall count toward the major.

Degree requirements
All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 198)
- Baccalaureate degree requirements (p. 199)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and
2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study
abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or fine arts.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or fine arts.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:
1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:
1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&hp=languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Elective courses

Select 12 credits of electives in philosophy

Total Credits: 12

At least two courses must be designed as writing emphasis.

1. PHL 100 and PHL 200 count as Gen Ed credit toward the minimum 48 credits needed UW-L degrees.
2. CLS Core Humanities and Fine Arts Tracks require 102+ level language. CLS Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

### Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 200)
- Baccalaureate degree requirements (p. 201)

### Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (or concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.
8. At least 40 credits of the 120 credits required must be earned at the 300/400 level.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/ or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Political Science and Public Administration Department (POL/PUB)

College of Liberal Studies
Department Chair: Jo Arney
421A Wimberly Hall; 608.785.8434
Email: jarney@uwlax.edu

The Department of Political Science and Public Administration in the College of Liberal Studies at UW-La Crosse offers both political science and public administration major and minor degree programs. There is also an honors program and a political science/public administration honor society. These provide special recognition to those who excel.

The department stresses the value of extracurricular activities and seeks to provide special opportunities for political science students. We especially excel in providing internship opportunities whereby students can earn up to 12 credits while gaining on-the-job experience with government agencies, law firms, etc. Many of the internships pay a salary; all help students get jobs upon graduation, and some are international. In addition to internships, the department sponsors or participates in the Model United Nations and Mock Trial programs and in a number of tour and study abroad programs.

The department’s strengths are in public administration, pre-law, international studies, and American government. The department provides internships, special opportunities, and career counseling in all of these areas. Many of the department’s graduates are working for the Wisconsin state government and federal government. Graduates who are interested in law school or graduate school have been quite successful in being admitted and in graduating with advanced degrees.

Pre-law

Law school counselors are practically unanimous in suggesting that the best “pre-law” majors are those in which students are highly interested and prepared to devote themselves wholeheartedly. Beyond that, there are several guidelines: first, select a major which is intellectually rigorous, demanding and substantial. Second, there are a number of courses which are of special benefit in subsequent law school work. Accounting will be useful when encountering courses in corporations, taxes and other business areas. Courses in mathematics or statistics will acquaint students with quantitative measurement. Logic is recommended for developing powers of imaginative and incisive reasoning. History courses will provide valuable backgrounds and content as well as analytical training. Any and all English courses will improve the ability to read and write, and speech and debate will improve verbal skills. Third, a choice of a major may depend upon the kind of law practice envisioned, if such a decision can be made.

Business and economics obviously provide an excellent background for those entering corporate practice; sociology, criminology, and social work relate well to criminal justice work; and political science and/or public administration (perhaps the most common major) will especially serve the needs of those who contemplate public service, elected or otherwise. Applicants must take the Law School Admission Test (LSAT) which
covers a broad range of disciplines and gives no advantage to candidates with particular specializations.

2015-16 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 204)
- Baccalaureate degree requirements (p. 205)

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English: complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term.
Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

At least two courses must be designed as writing emphasis.

1. Political science majors have the option of taking POL 261 or POL 361; however, students considering graduate school are encouraged to take both. Additionally, the Political Science and Public Administration Honors Program requires students to complete POL 361.

2. **CLS Core Humanities and Fine Arts Tracks** require 102+ level language. **CLS Core Language Track** requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

**Political Science Major - Bachelor of Science (BS)**

**Major requirements**

(All colleges, excluding teacher certification programs)

30 credits, at least 15 credits of which must be at the 300/400 level.

**Political science foundation:**

| POL 101 | American National Government | 3 |
| Select one course from: | 3 |
| POL 202 | Contemporary Global Issues | 1 |
| POL 234 | Comparative Politics | 3 |
| POL 244 | International Relations | 3 |
| POL 251 | Political Theory | 3 |
| Select one course from: | 3 |
| POL 261 | Political Inquiry and Analysis | 2 |
| POL 361 | Research Methods in Politics and Government | 3, 4 |
| POL 494 | Capstone Seminar in Politics and Government | 3 |

**Political science areas of inquiry:**

Select three credits at the 300/400 level in three of the following four areas of inquiry (see lists below):

- American government
- Comparative politics
- International relations
- Political theory

**Political science electives:**
Select an additional six credits of electives from political science (POL) or public administration (PUB) courses not used to satisfy the above requirements.

Total Credits 30

1 Students may not take POL 202 Contemporary Global Issues (3 cr.) if they have already taken ANT 202, ECO 202, GEO 202, HIS 202, or SOC 202 Contemporary Global Issues (3 cr.). Instead, these students must take either POL 234 Comparative Politics (3 cr.) or POL 244 International Relations (3 cr.) to satisfy this requirement.

2 Students who complete POL 261 Political Inquiry and Analysis (3 cr.) to satisfy this requirement must take at least three credits of 300/400-level electives.

3 MTH 145 Elementary Statistics (4 cr.) is a required prerequisite of POL 361 Research Methods in Politics and Government (3 cr.).

4 POL 361 Research Methods in Politics and Government (3 cr.) is a requirement for the political science and/or public administration honors program.

A maximum of three credits from each repeatable political science (POL) or public administration (PUB) course may be applied to the political science major.

Political science majors may count a maximum of nine credits towards a public administration major or six credits towards a public administration minor.

### American government

- POL 102 State and Local Government 3

### Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to
the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 208)
- Baccalaureate degree requirements (p. 208)

College of Liberal Studies (CLS/SAC)

Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program; consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cslprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the
student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

At least two courses must be designed as writing emphasis.

Political science majors have the option of taking POL 261 or POL 361; however, students considering graduate school are encouraged to take both. Additionally, the Political Science and Public Administration Honors Program requires students to complete POL 361.

### Political Science Education Major (Early Adolescence-Adolescence Certification) - BS

#### Major requirements

Admission requirements for STEP Program (p. 515)

(teacher certification program: early-adolescence-adolescence)

37 credits, at least 19 credits of which must be at the 300/400 level

#### Political science foundation:

| POL 101 | American National Government | 3 |
| POL 102 | State and Local Government | 3 |

Select one course from:

| POL 202 | Contemporary Global Issues | 1 |
| POL 234 | Comparative Politics |
| POL 244 | International Relations |

| POL 251 | Political Theory | 3 |

Select one course from:

| POL 261 | Political Inquiry and Analysis | 2 |
| POL 361 | Research Methods in Politics and Government | 3, 4 |
| POL 408 | Teaching and Learning History & Social Studies in the Secondary School | 4 |

**Political science areas of inquiry:**

Select three credits at the 300/400 level in three of the following four areas of inquiry (see below):

- American government
- Comparative politics
- International relations
- Political theory

**Political science electives:**

Select an additional six credits of electives from political science (POL) or public policy (PUB 330, PUB 332, PUB 334, PUB 338) courses not used to satisfy the above requirements.

Total Credits: 37

1. Students may not take POL 202 Contemporary Global Issues (3 cr.) if they have already taken ANT 202, GEO 202, HIS 202, or SOC 202 Contemporary Global Issues (3 cr.). Instead, these students must take either POL 234 Comparative Politics (3 cr.) or POL 244 International Relations (3 cr.) to satisfy this requirement.

2. Students who complete POL 261 Political Inquiry and Analysis (3 cr.) to satisfy this requirement must take at least three credits of 300/400-level electives.

3. MTH 145 Elementary Statistics (4 cr.) is a required prerequisite of POL 361 Research Methods in Politics and Government (3 cr.).

Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 210)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400
below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. the actual degree plan may differ depending on the course of study selected (second major, minor, etc.). this sample plan also assumes readiness for each course and/or major plan. actual degree plans may differ. some courses may not be offered every term. review course descriptions or the class timetable for course offering information.

the sample degree plans represented in this catalog are intended for first-year students entering uw-l in the fall term. students should use the advisement report (ar) in wings (https://wings.uwlax.edu/psp/cprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

### General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Public Administration Major - Bachelor of Arts (BA)

#### Major requirements

(all colleges, excluding teacher certification programs)

36 credits
Public administration core:
- ECO 110 Microeconomics and Public Policy 3
- POL 102 State and Local Government 3
- PUB 210 Introduction to Public Administration 3

Select one course from:
- POL 261 Political Inquiry and Analysis 3
- POL 361 Research Methods in Politics and Government 1, 2
- PUB 320 Public Budgeting and Finance 3
- PUB 330 Public Policy 3
- PUB 450 Internship in Public Administration 3
- POL 494 Capstone Seminar in Politics and Government 3

Public administration areas of emphasis:
Select nine credits at the 300/400 level in the following three areas (see lists below):
- Civic and community engagement
- Public sector personnel and management
- Public policy

Public administration electives:
Select an additional three credits of electives from any public administration course not used to satisfy the above requirements, or from the list of other courses (see list below).

Total Credits 36

1 MTH 145 Elementary Statistics (4 cr.) is a required prerequisite of POL 361 Research Methods in Politics and Government (3 cr.).
2 POL 361 Research Methods in Politics and Government (3 cr.) is a requirement for the political science and/or public administration honors program.

Public administration majors may count a maximum of nine credits towards a political science major or six credits towards a political science minor.

Public policy
- PUB 332 Urban Policy 3
- PUB 334 Health Policy 3
- PUB 338 Environmental Policy 3
- POL 340 American Foreign Policy 3

Public sector personnel and management
- PUB 340 Public Personnel Administration 3
- PUB 342 Urban Administration 3
- PUB 344 Health Administration 3
- PUB 346 Ethics Management in Government 3
- POL 376 Constitutional Law VII: Administrative Law 3

Civic and community engagement
- POL 250 Leadership and Engagement 1-2
- PUB 451 Civic Engagement and the Wisconsin Idea 3
- PUB 453 Nonprofit Organizations 3

Other elective courses
- PUB 399 Special Topics in Public Administration 3
- ACC 435 Governmental and Institutional Accounting 3
- ECO 300 Economic Issues in Public Policy 3
- ECO 310 Managerial Economics 3
- ECO 321 Modern Political Economy 3
- ECO 400 Monetary Theory and Policy 3
- ECO 402 Public Sector Economics 3
- ECO 471 Health Economics 3
- ENG 307 Writing for Management, Public Relations and the Professions 3
- ENG 314 Grant Writing 3
- GEO 307 Political Geography 3
- GEO 309 Urban Geography 3
- HIS 320 Introduction to Public and Policy History 3
- HIS 322 History of Public Education in United States 3
- MGT 308 Behavior and Theory in Organizations 3
- POL 301 American Presidency 3
- POL 302 Legislative Process 3
- POL 450 Internship in Political Science 1-12
- POL 451 Internship in Criminal Justice 3
- POL 498 Honors/Graduate Reading & Research in Political Science 2-3
- PSY 241 Social Psychology 3
- PSY 343 Group Dynamics 3
- PSY 376 Industrial/Organizational Psychology 3
- SOC 311 Rural and Urban Communities 3
- WGS 374 Women, Poverty and Public Policy 3

Degree requirements
All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 212)
- Baccalaureate degree requirements (p. 213)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements
The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/
Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track
1. Native speakers of English: complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations; and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:
1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:
1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1. 

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprd/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their
faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Total Credits: 120

At least two courses must be designed as writing emphasis.

1. MTH 145 Elementary Statistics is recommended.
2. MTH 145 is required to enroll in POL 361.
3. Public administration majors have the option of taking POL 261 or POL 361; however, students considering graduate school are encouraged to take both. Additionally, the Political Science and Public Administration Honors Program requires students to complete POL 361.
4. CLS Core Humanities and Fine Arts Tracks require 102+ level language. CLS Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

### Public Administration Major - Bachelor of Science (BS)

#### Major requirements

(All colleges, excluding teacher certification programs)

- **Total Credits**: 36

#### Public administration core:

- ECO 110 Microeconomics and Public Policy 3
- POL 102 State and Local Government 3
- PUB 210 Introduction to Public Administration 3
- Select one course from:
  - POL 261 Political Inquiry and Analysis 3
  - POL 361 Research Methods in Politics and Government 1, 2

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 215)
- Baccalaureate degree requirements (p. 216)

**College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements**

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

**Bachelor of Science students complete four courses outside the department of the student’s major as follows:**

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education
courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Social Studies Education (Broad Field) Major (Early Adolescence-Adolescence certification) - BS

Major requirements
Admission requirements for STEP Program (p. 515)
(Teacher certification program: early adolescence-adolescence)
54-64 credits

Choose either Option A (content major) or Option B (content minor) below:

Option A (content major) 57-64 credits
37-44 credit major in geography education, history education, political 37-44 science education, or sociology education
20 credits, with a minimum of three credits, from any two of the following areas outside of the major:
- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

Total Credits 57-64

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. Credits do not count toward the social studies education (broad field) major.

Option B (content minor) 54-60 credits
18-24 credit minor in one of the following:
- Economics Education
- Geography Education
- History Education
- Political Science Education
- Psychology Education

Total Credits 54-60

Sociology Education
32 credits with a minimum of three credits from three of the subject areas outside of the minor selected from the following:
- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

ECO/GEO/HIS/POL/PSY/SOC 408

Total Credits 54-60

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. Credits do not count toward the social studies education (broad field) major.

Degree requirements
All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 217)

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.
Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

**Political Science Minor**

(All colleges, excluding teacher certification programs)

18 credits

Select three courses from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL 101</td>
<td>American National Government</td>
</tr>
<tr>
<td>POL 202</td>
<td>Contemporary Global Issues</td>

<tr>
<td>POL 234</td>
<td>Comparative Politics</td>
</tr>
<tr>
<td>POL 244</td>
<td>International Relations</td>
</tr>
<tr>
<td>POL 251</td>
<td>Political Theory</td>
</tr>
<tr>
<td>POL 261</td>
<td>Political Inquiry and Analysis</td>
</tr>
</tbody>
</table>

Select nine credits of electives at the 300/400 level in political science (POL) or public administration (PUB).

Total Credits: 18

1 Students may not take POL 202 Contemporary Global Issues (3 cr.) if they have already taken ANT 202, ECO 202, GEO 202, HIS 202, or SOC 202 Contemporary Global Issues (3 cr.). Instead, political science minors would need to choose two other courses from those listed.

A maximum of three credits from each repeatable political science (POL) or public administration (PUB) course may be applied to the political science minor.

Political science minors may count a maximum of six credits towards a public administration major or minor.

**Political Science Education Minor**

(Teacher certification programs)

18 credits

GEO/ESC 385  Introduction to Geographic Information System and Science
HED 425  Violence and Injury Prevention
PHL 201  Introduction to Ethics
PHL 337  Social and Political Philosophy
PSY 204  Abnormal Psychology
PSY 241  Social Psychology
PSY 357  Adolescence
PSY 377  Psychology and Law
PSY 417  Child and Adolescent Psychopathology
PSY 426  Addictive Behaviors
PSY 440  Psychopharmacology
WGS 320  Violence Against Women
Electives  1  3
Total Credits  21

1 May be selected from any of the courses listed above or from POL 451 Internship in Criminal Justice (3 cr.) or SOC 451 Internship in Criminal Justice (3 cr.).

A maximum of three credits may be counted toward the fulfillment of the criminal justice minor and the sociology major.

Political Science and/or Public Administration Honors Program

The department honors program seeks to provide an opportunity for in-depth research, reading, and writing for majors. The program emphasizes highly personalized student-professor contact and discussion.

Program

I. Admission

A. Junior standing
B. Twelve (12) credits in the major
C. A 3.50 grade point average in the major
D. A 3.25 grade point average overall
E. Submission of a Political Science and Public Administration Honors Application

II. Program

A. Completion of the political science and/or public administration major
B. POL 361 Research Methods in Politics and Government (3 cr.) with a grade of AB or higher
C. POL 498 Honors/Graduate Reading & Research in Political Science (2-3 cr.) with a grade of AB or higher

III. Evaluation

A. A 3.50 grade point average in the major at graduation
B. Presentation of honors thesis to a colloquium of faculty and students in the Department of Political Science and Public Administration
C. Presentation of honors thesis in a formal setting (e.g., UW-L Undergraduate Research Day, National Conference for Undergraduate Research) outside the Department of Political Science and Public Administration

Psychology Department (PSY)

College of Liberal Studies
Department Chair: Ryan McKelley, Ph.D., LP.

Psychology Advising Office
343 Graff Main Hall
608.785.6880

The undergraduate program in psychology at UW-La Crosse provides an excellent grounding in the discipline of psychology. The Department of Psychology offers courses in several important sub fields within psychology including developmental, educational, experimental, social, clinical, counseling, and cross-cultural. The psychology major is one of the most popular majors on campus. There are approximately 675 students pursuing a psychology major and 250 students pursuing a psychology minor. Graduating seniors report high levels of employment and approximately 30% of psychology undergraduates go on to graduate school. The major provides a strong grounding in both the liberal arts and the scientific method. Psychology students are particularly encouraged to pursue fieldwork, internships and/or research experience. Every year, a select number of advanced students present independent research projects at regional conferences. Overall, psychology is a solid liberal arts major that allows students a variety of career opportunities.

Psychology admission to program policy

Students who wish to declare psychology as a major must complete Milestone #1 described below. In addition, in order to progress through the required courses associated with the major, students must also complete Milestone #2 described below. (This milestone must be met before enrolling in PSY 331).

- **Milestone #1** = Complete online “new major” tutorial, have earned fewer than 75 credits, and complete a face-to-face meeting with a member of the psychology advising team in the Psychology Advising Center. If a student has earned 75+ credits and wishes to declare psychology as a first major, the student must also receive approval from the department chair by articulating a compelling reason why a major in psychology is necessary for the student’s goals. A student may not declare psychology as a second major if they have already earned 75 credits. (This milestone must be met prior to enrolling in the required course, PSY 210).
- **Milestone #2** = Earn a “C” or better in PSY 100 and MTH 145; complete ENG 110 and CST 110; have a combined GPA of at least 2.25 for these four courses; and complete a minimum of 30 credits. If PSY 100 and/or MTH 145 have not been completed in the past seven years with a “C” or better, students interested in declaring psychology
as a major will need to audit and pass these courses to complete Milestone #2.

Students transferring to UW-L with a college parallel associate degree may satisfy Milestone #2 by transferring PSY 100 and MTH 145 with grades of "C" or better (or by taking those courses at UW-L and earning "C" or better). The other components of Milestone #2 will be waived: ENG 110 and CST 110; GPA of 2.25 for PSY 100, MTH 145, ENG 110, and CST 110; 30 credit earned minimum.

**Psychology credit by examination policy**

Students may earn credit by examination for PSY 100 General Psychology (3 cr.). The following examinations are acceptable: Advanced Placement Program (AP) in psychology with a score of 3, 4, or 5; the "Higher Level" International Baccalaureate (IB) with a score of 4 or above; or the College Level Examination Program (CLEP) with a score of 47 or above. Students should contact the Counseling and Testing Center for information about CLEP; however, once a student has enrolled in PSY 100 they may not petition to earn credit with a CLEP exam.

**General education writing emphasis**

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

---

**2015-16 Faculty/Staff**

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

- Psychology minor (p. 229) (business)
- Psychology education minor (early adolescence-adolescence certification) (p. 229)

**Honors**

- Psychology honors program (p. 230)
Psychology Major - Bachelor of Arts (BA)

Major requirements

Admission requirements (p. 219)

(All colleges)

42 credits - Select courses as listed in the following twelve categories. Additional credits completed within a category, after the required credits, can be used as elective credits in categories XI (if 200 or 300 level) or XII (if 400 level). MTH 145 Elementary Statistics is required as part of the 42 credits.

The department strongly recommends that all psychology students take the required course of PSY 331 late in their sophomore year or early in their junior year. Once students have declared psychology as a major, they should plan on at least four semesters to complete the sequence of courses necessary for graduation with a psychology major. The four semester timeline does not include the time it takes to complete general education credits or credits necessary for a minor. We also recommend that students seriously consider taking PSY 200 early in their psychology careers and that students consider volunteer work and/or fieldwork as an important part of their psychological training. The psychology major provides solid training in the liberal arts and in research methods.

Students must complete the psychology milestones and declare the psychology major in order to enroll in key major courses that are prerequisites to other courses.

I. General psychology
PSY 100 General Psychology (required course) 1 3
(PSY 200 is strongly recommended in addition to the required PSY 100)

II. Developmental
PSY 210 Developmental Psychology 3

III. Social
PSY 241 Social Psychology 3

IV. Psychopathology
PSY 204 Abnormal Psychology 3

V. Experimental and Research Methods
MTH 145 Elementary Statistics 1 4
PSY 331 Experimental Psychology: Lecture and Laboratory 4
PSY 451 Psychological Measurement 3
or PSY 420 Advanced Research Methods

VI. Multicultural
Select one of the following: 3
PSY 282 Cross-Cultural Psychology
PSY 285 Culture and Mental Health 1
PSY 415 Multicultural Counseling
PSY 442 Racism and Oppression
PSY 443 Prejudice and Stigma

VII. Application Courses
Select one of the following: 3
PSY 302 Environmental Issues: Applied Psychology
PSY 315 Behavior Modification
PSY 334 Health Psychology
PSY 343 Group Dynamics

VIII. Cognition
Select one of the following: 3
PSY 432 Learning and Memory
PSY 435 Cognitive Processes
PSY 436 Psychology of Language

IX. Biological bases of behavior
Select one of the following: 3
PSY 430 Cognitive Neuroscience
PSY 431 The Study of Consciousness
PSY 434 Clinical Neuropsychology
PSY 439 Sensation & Perception
PSY 440 Psychopharmacology
PSY 459 Genes and Behavior

X. Experiential
Select at least one credit of the following: 2 1
PSY 308 Research Apprenticeship
PSY 309 Volunteer Experience in Psychology
PSY 405 Teaching Apprenticeship in Psychology
PSY 450 Fieldwork Experience in Psychology: Undergraduate Internship
PSY 481 Individual Projects in Psychology
PSY 482 Honors Projects in Psychology
PSY 485 Appraising Psychology Seminar

XI. General elective
Select three credits from the following (or any additional 200-300 level PSY credits from above): 3
PSY 200 Orientation to the Psychology Major
PSY 205 Effective Behavior
PSY 259 Girls and Women in Sport
PSY 291 Contemporary Topics in Psychology
PSY/PHL 301 Theory of Knowledge
PSY 305 Human Sexuality
PSY 307 Intimate Relationships
PSY 316 Child Abuse and Neglect
PSY 318 Psychology of Women 1
PSY 319 Men and Masculinities
PSY 320 Human Motivation
PSY/PHL 333 Philosophy of Mind
PSY 355 Infancy and Early Childhood
PSY 356 The School-aged Child
PSY 357 Adolescence
PSY 358 Adulthood
PSY 359 Aging and the Elderly
PSY 360 Cross Cultural Human Development
PSY 391 Contemporary Topics in Psychology: Intermediate

XII. Advanced electives
Select one of the following (or any additional 400 level PSY credits from above): 3
PSY 403 Advanced Psychopathology
PSY 404 Counseling and Personality Theories
College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 250 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esi) for eligibility and regulations); and
2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must
be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum.
CLS Core Humanities and Fine Arts Tracks require 102+ level language. CLS Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

Psychology Major - Bachelor of Science (BS)

Major requirements

Admission requirements (p. 219)

(All colleges)

42 credits - Select courses as listed in the following twelve categories. Additional credits completed within a category, after the required credits, can be used as elective credits in categories XI (if 200 or 300 level) or XII (if 400 level). MTH 145 Elementary Statistics is required as part of the 42 credits.

The department strongly recommends that all psychology students take the required course of PSY 331 late in their sophomore year or early in their junior year. Once students have declared psychology as a major, they should plan on at least four semesters to complete the sequence of courses necessary for graduation with a psychology major. The four semester timeline does not include the time it takes to complete general education credits or credits necessary for a minor. We also recommend that students seriously consider taking PSY 200 early in their psychology careers and that students consider volunteer work and/or fieldwork as an important part of their psychological training. The psychology major provides solid training in the liberal arts and in research methods.

Students must complete the psychology milestones and declare the psychology major in order to enroll in key major courses that are prerequisites to other courses.

I. General psychology

PSY 100 General Psychology (required course) 1 3

(PSY 200 is strongly recommended in addition to the required PSY 100)

II. Developmental

PSY 210 Developmental Psychology 3

III. Social

PSY 241 Social Psychology 3

IV. Psychopathology

PSY 204 Abnormal Psychology 3

V. Experimental and Research Methods

MTH 145 Elementary Statistics 1 4
PSY 331 Experimental Psychology: Lecture and Laboratory 4
PSY 451 Psychological Measurement 3
or PSY 420 Advanced Research Methods

VI. Multicultural

Select one of the following: 3

PSY 282 Cross-Cultural Psychology
PSY 285 Culture and Mental Health 1

PSY 415 Multicultural Counseling
PSY 442 Racism and Oppression
PSY 443 Prejudice and Stigma

VII. Application Courses

Select one of the following: 3

PSY 302 Environmental Issues: Applied Psychology
PSY 315 Behavior Modification
PSY 334 Health Psychology
PSY 343 Group Dynamics
PSY 347 Empathic Listening Skills
PSY 370 Educational Psychology
PSY 376 Industrial/Organizational Psychology
PSY 377 Psychology and Law

VIII. Cognition

Select one of the following: 3

PSY 432 Learning and Memory
PSY 435 Cognitive Processes
PSY 436 Psychology of Language

IX. Biological bases of behavior

Select one of the following: 3

PSY 430 Cognitive Neuroscience
PSY 431 The Study of Consciousness
PSY 434 Clinical Neuropsychology
PSY 439 Sensation & Perception
PSY 440 Psychopharmacology
PSY 459 Genes and Behavior

X. Experiential

Select at least one credit of the following: 2 1

PSY 308 Research Apprenticeship
PSY 309 Volunteer Experience in Psychology
PSY 405 Teaching Apprenticeship in Psychology
PSY 450 Fieldwork Experience in Psychology: Undergraduate Internship
PSY 481 Individual Projects in Psychology
PSY 482 Honors Projects in Psychology
PSY 485 Appraising Psychology Seminar

XI. General elective

Select three credits from the following (or any additional 200-300 level PSY credits from above): 3

PSY 200 Orientation to the Psychology Major
PSY 205 Effective Behavior
PSY 259 Girls and Women in Sport
PSY 291 Contemporary Topics in Psychology
PSY/PHL 301 Theory of Knowledge
PSY 305 Human Sexuality
PSY 307 Intimate Relationships
PSY 316 Child Abuse and Neglect
PSY 318 Psychology of Women 1
PSY 319 Men and Masculinities
PSY 320 Human Motivation
PSY/PHL 333 Philosophy of Mind
PSY 355 Infancy and Early Childhood
PSY 356 The School-aged Child
PSY 357 Adolescence
Bachelor of Science degrees: The following conditions apply to one or both Bachelor of Arts and Bachelor of Science core requirements

College of Liberal Studies (CLS/SAC) (WINGS) Student Center. All enrolled students have access to the Advisement Report (AR) found in the Student Information System degree. The easiest way to track all of these requirements is to refer to minor, and university degree requirements in order to qualify for a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).

At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.

Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 225)
- Baccalaureate degree requirements (p. 225)

College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement; “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.

XII. Advanced electives

Select one of the following (or any additional 400 level PSY credits from above):

- PSY 403: Advanced Psychopathology
- PSY 404: Counseling and Personality Theories
- PSY 406: Positive Psychology
- PSY 407: Children’s Cognition
- PSY 410: Advanced Developmental Psychology
- PSY 417: Child and Adolescent Psychopathology
- PSY 422: Death, Grief, and Bereavement
- PSY 426: Addictive Behaviors
- PSY 441: Advanced Social Psychology
- PSY 461: History and Systems of Psychology
- PSY 489: Honors Seminar
- PSY 491: Contemporary Topics in Psychology: Advanced

Total Credits 42

1 May also count toward general education credits.
2 The department strongly encourages students to take more than one credit in this category, particularly in PSY 450. This course requires arrangements with the Career Services office and the psychology internship coordinator that must be initiated prior to the start of the semester.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.  
   At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS ([https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG](https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG)) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

---

### Dual Degree Program in Psychology and Occupational Therapy

(Program suspension pending)

This is a special dual degree program which enables a student to receive both a Bachelor of Science (psychology major) and a Master of Science degree (occupational therapy) from UW-L. The total length of time for both degrees is expected to be five and one half years plus summers.

Psychology majors with an interest in occupational therapy should declare the pre-professional occupational therapy (OT) track whether or not they are accepted into the dual degree program.

Interested students should read information about the dual degree program on the Occupational Therapy Program ([http://uw lax.edu/ot/dual_degree.htm](http://uw lax.edu/ot/dual_degree.htm)) website. Students should use the recommended
course sequence available on the OT website to inform the course selections for their first semester and beyond.

**Admission**

Interested students need to determine if they have the qualifications to declare the dual degree. To be admitted to the dual degree program, students need to have earned fewer than 60 credits overall, and have a minimum of a 3.00 cumulative GPA (a 3.4+ GPA strongly recommended). First year students need to complete Milestone #1 for the Psychology Program, complete at least two semesters at UW-L, and meet the eligibility requirements as stated above.

Once these requirements have been met, students will meet with an advisor within the Occupational Therapy Program in order to officially declare the program. Students who are transferring into UW-L with previous credits should begin their initial advising process as soon as possible to verify how their transfer credits might interface with the recommended course sequence for the dual degree. Whether a student is an incoming first year student or a transfer student, dual degree students and occupational therapy graduate students are expected to be self-directed, mature, and possessing excellent academic skills and a strong science inclination.

If accepted into the undergraduate dual degree program (psychology and OT) and the graduate Occupational Therapy Program, a student will complete both a bachelor’s and master’s degree at UW-L in approximately five and one half years plus summers. The admissions application process to the graduate program will take place during the dual degree student’s third year of college. Admission to the graduate program is competitive and is not guaranteed for dual degree students.

**Requirements**

In order to complete their undergraduate degrees in psychology, dual degree students must complete a minimum of 120 credits, including requirements for general education and the College of Liberal Studies core. For dual degree students, the psychology degree and the occupational therapy degree share approximately 12 credits (via specific course substitutions), and the required CLS program option is filled by completing occupational therapy pre-requisites and coursework. This allows for a shorter course sequence, with students typically completing their B.S. in psychology at the conclusion of the spring semester in their fourth year at UW-L as credits from the graduate program are counted back toward the undergraduate degree in order to secure the 120 credits needed for graduation.

**Major requirements**

**Admission**

To be admitted to the dual degree program, students need to have the following:

- earned fewer than 60 credits overall,
- and have a minimum of a 3.00 cumulative GPA (a 3.4+ GPA strongly recommended).
- First year students need to complete Milestone #1 for the Psychology Program (p. 219) and complete at least two semesters at UW-L.

**Degree requirements**

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core for B.S. (p. 228)
- College core for B.A. (p. 228)
- Baccalaureate degree requirements (p. 229)
- Occupational therapy M.S. requirements (http://catalog.uwlax.edu/graduate/programrequirements/occupationaltherapy/occupational-therapy-ms)
CLS Bachelor of Science requirements

College of Liberal Studies (CLS/SAC)

Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

CLS Bachelor of Arts requirements

College of Liberal Studies (CLS/SAC)

Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:

   CHI 202 Intermediate Chinese II
   FRE 202 Intermediate French II
   GER 202 Intermediate German II
   RUS 202 Intermediate Russian II
   SPA 202 Intermediate Spanish II
   MLG 202 World Languages: Intermediate II
   MLG 204 Heritage Language: Intermediate
   MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 250 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/estl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.
B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

UW-L undergraduate degree requirements

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Psychology Minor

(College of Liberal Studies and College of Science and Health)

21 credits (12 of the 21 credits must be at the 300/400 level.)

Only six credits from general education psychology courses can count toward the minor: PSY 100 and PSY 282 or PSY 285 or PSY 318.

Psychology Education Minor (Early Adolescence-Adolescence Certification)

(Teacher certification programs)

24 credits
Requirements for earning a degree with honors in psychology are:

Requirements for admission to the program:

1. Completion of psychology major
2. 3.50 cumulative grade point average in psychology courses
3. A cumulative overall grade point average of 3.25
4. Completion of PSY 489 Honors Seminar and completion and presentation of three credits in PSY 482 Honors Projects in Psychology, of which at least one PSY 482 credit must be completed in the candidate’s last semester. OR successful completion of a McNair psychology-related project associated with at least one credit of PSY 481 or PSY 482.

Sociology Department (SOC)

The Department of Sociology at the University of Wisconsin-La Crosse offers a major in sociology and minors in sociology and criminal justice. Our department provides students with the tools necessary to think critically about our global society. Students with a background in sociology and criminal justice position themselves for promising careers in a wide variety of fields.

Students who join the Department of Sociology can expect top quality mentoring and guidance, internship and part-time employment opportunities, experiences conducting qualitative and quantitative research, competitive grant opportunities, membership in the Alpha Kappa Delta International Honor Society, and both community volunteering experience and social networking through the sociology club.

Majors

The sociology major provides students with a broad range of skills and knowledge for the scientific study of the social world. It allows students to explore human behavior within political, social, cultural, economic, and religious institutions. Sociology includes the following areas of concentration: sociology of race and ethnicity, criminal justice and critical criminology, gender and sexualities, education, social psychology, religion, demography, age, mental health and illness, medical sociology, environmental sociology, sociology of the city, rural sociology, sociology of technology and surveillance, the sociology of consumption and leisure, and popular culture and media, among a wide range of other topics.

In addition, sociology courses contribute to the gerontology emphasis. Students work closely with their professors to complete a course of study, internship, and capstone project preparing them for careers in research, government, education, community and social services, human resources, criminal justice, and business and industry.

Minors

The criminal justice minor is an interdisciplinary minor designed to assist students planning to enter careers in the criminal or juvenile justice system. Our classes provide students with a critical understanding of the U.S. criminal justice system. The minor is based on a liberal arts education that prepares students to develop analytical and critical thinking skills necessary in criminal justice related occupations. Criminal justice is complementary to a variety of majors offered at UW-La Crosse including sociology, political science, public administration, psychology, philosophy, Spanish, geography, accountancy, computer science, chemistry, therapeutic recreation, and the pre-law program (in conjunction with a major).

The sociology minor examines people and their interactions with economic, cultural, political, religious, and social institutions. Course
Electives allow students to explore the roots of social inequalities related to the intersection of race, class, gender, ethnicity, and sexual orientation. The sociology minor complements the disciplines of psychology, economics, marketing, business administration; therapeutic recreation; health promotion; exercise and sport science, political science, public administration, history, and women’s, gender, and sexuality studies.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Sociology Major - Bachelor of Arts (BA)

Sociology is the study of human groups and how the group influences social behavior. The field is both a science and a philosophy, seeking to answer questions about human behavior through the use of scientific methods. Sociology gives us new and important knowledge about the social world. The focus of the sociology major is to prepare students with the methodological background and analytical skills necessary for working in today’s world, while allowing students to gain a basic understanding of a variety of areas within sociology such as social stratification, criminology, social psychology and comparative sociology.

Every Sociology major completes a senior project in one of our two senior capstone courses SOC 405 Quantitative Social Research Seminar or SOC 416 Qualitative Explorations. Working closely with faculty, each student designs and completes a semester-long investigation of a sociology-related topic. The senior capstone course provides students with firsthand experience and analytical skills that are valuable in the work world and in graduate study.

Electives

The remaining 18 credits will consist of sociology electives to be selected in consultation with a faculty adviser in sociology. Nine of the 18 elective credits must be taken at the 300 level or above.

Total Credits 36

1 To enroll in SOC 200 Foundations of Sociological Analysis (3 cr.) and SOC 250 Methods of Social Research I (3 cr.), a student must have declared sociology as a major. Once a student has declared sociology as a major, it likely will take a minimum of four semesters to complete the core required course sequence.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.
College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/COLLEGES_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to the core requirements for a major or minor after the fourth week of the last college. (No substitutions for graduation may be made in course selected).

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major program and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

5. Complete major and minor requirements with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter
intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for all undergraduates at UW-L. Sample degree plans include Gen Ed courses required to complete the major and other requirements needed to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

**Electives**

The remaining 18 credits will consist of sociology electives to be selected in consultation with a faculty adviser in sociology. Nine of the 18 elective credits must be taken at the 300 level or above.

Total Credits: 36

\(^1\) To enroll in SOC 200 Foundations of Sociological Analysis (3 cr.) and SOC 250 Methods of Social Research I (3 cr.), a student must have declared sociology as a major. Once a student has declared sociology as a major, it likely will take a minimum of four semesters to complete the core required course sequence.

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 234)
- Baccalaureate degree requirements (p. 234)

**College of Liberal Studies (CLS/SAC)**

**Bachelor of Science core requirements**

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

**Bachelor of Science students complete four courses outside the department of the student’s major as follows:**

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

1 Honors students take SOC 410.

Sociology Education Major (Early Adolescence-Adolescence Certification) - Bachelor of Science (BS)

The sociology education major is a good pairing with the history education major. Students earning a sociology education major can be certified at the early adolescence-adolescence level through the Wisconsin Department of Public Instruction (DPI). Sociology is the study of human groups and how the group influences social behavior. The field is both a science and a philosophy, seeking to answer questions about human behavior through the use of scientific methods. Sociology gives us new and important knowledge about the social world. The focus of the sociology major is to prepare students with the methodological background and analytical skills necessary for working in today's world, while allowing students to gain a basic understanding of a variety of areas within sociology such as social stratification, criminology, social psychology and comparative sociology.
Every sociology major completes a senior project in one of our two senior capstone courses SOC 405 Quantitative Social Research Seminar or SOC 416 Qualitative Explorations. Working closely with faculty, each student designs and completes a semester-long investigation of a sociology-related topic. The senior capstone course provides students with firsthand experience and analytical skills that are valuable in the work world and in graduate study.

Major requirements

Admission requirements for STEP Program (p. 515)

(Teacher certification program: early-adolescence-adolescence)

40 credits

Select one of the following: 3

- SOC 405 Quantitative Social Research Seminar
- SOC 410 Sociology Honors Project
- SOC 416 Qualitative Explorations

**Social organization and processes**

Select at least one from the following: 3

- SOC 212 Marriage and Family
- SOC 216 Society and Schools
- SOC 240 The Sociology of Sport and Leisure
- SOC 310 Social Stratification
- SOC 311 Rural and Urban Communities
- SOC 315 Religion and Society
- SOC 338 Sociological Aspects of Work and Life
- SOC 370 Sociology of Gender
- SOC 375 Lesbian Studies
- SOC 420 Health Care and Illness

**Social psychology**

Select at least one from the following: 3

- SOC 325 Sociology of Mental Illness
- SOC 330 Social Psychology
- SOC 334 Sociology of Small Groups
  or CST 365 Communication in Teams
  or PSY 343 Group Dynamics
- SOC 335 Collective Behavior

**Comparative sociology and anthropology**

Select at least one from the following: 3

- SOC 225 Racial and Ethnic Minorities
- SOC 404 Global Inequality
  OR any course in anthropology

**Social problems and social change**

Select at least one from the following: 3

- SOC 120 Social Problems

**Electives**

Remaining electives may be selected from any of the course offerings in sociology. Up to six credits in anthropology may be applied toward the sociology major. Anthropology credits applied to the sociology major cannot be applied to the anthropology minor or archaeological studies major.

**Total Credits**

40

1. To enroll in SOC 200 and SOC 250, a student must have declared sociology as a major. Once a student has declared sociology as a major, it likely will take a minimum of four semesters to complete the core required course sequence.

Teacher certification candidates must also complete GEO 200 and EFN 200 to fulfill statutory licensing requirements (credits do not count toward the sociology education major).

Additional teacher education requirements are listed in the STEP program core (p. 515).

**Degree requirements**

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 236)

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA \(^1\) in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their advisor to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Total Credits: 120

1. Can use Gen Ed courses for both Gen Ed and the major: SOC 225, SOC 202, and SOC 120.

2. Students need a 2.75 GPA and passing basic skills test scores. See the STEPS Admissions (http://www.uwlax.edu/Secondary-Teacher-Education-Preparation/Admission) website for details.

3. See the Office of Field Experience (http://www.uwlax.edu/SoE/For-teacher-candidates) for details about applying to student teaching.

**Social Studies Education (Broad Field) Major (Early Adolescence-Adolescence Certification) - BS**

In the social studies (broad field) education major, students can be certified at the early adolescence-adolescence level through the Wisconsin Department of Public Instruction (DPI). Students can choose to emphasize sociology when choosing one of the options within this major.

Sociology is the study of human groups and how the group influences social behavior. The field is both a science and a philosophy, seeking to answer questions about human behavior through the use of scientific methods. Sociology gives us new and important knowledge about the social world. The focus of the sociology major is to prepare students for more specific details.

Major requirements

Admission requirements for STEP Program (p. 515)

(Teacher certification program: early adolescence-adolescence)

54-64 credits

Choose either Option A (content major) or Option B (content minor) below:

Option A (content major) 57-64 credits

37-44 credit major in geography education, history education, political 37-44 science education, or sociology education

20 credits, with a minimum of three credits, from any two of the following areas outside of the major:

- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

Total Credits 57-64

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. Credits do not count toward the social studies education (broad field) major.

Option B (content minor) 54-60 credits

18-24 credit minor in one of the following:

- Economics Education
- Geography Education
- History Education
- Political Science Education
- Psychology Education
- Sociology Education

32 credits with a minimum of three credits from three of the subject areas outside of the minor selected from the following:

- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

ECO/GEO/HIS/ POL/PSY/SOC 408 Teaching and Learning History & Social Studies in the Secondary School

Total Credits 54-60

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. Credits do not count toward the social studies education (broad field) major.

Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. Electives 1

Total Credits 3

1 May be selected from any of the courses listed above or from POL 451 Internship in Criminal Justice (3 cr.) or SOC 451 Internship in Criminal Justice (3 cr.).

A maximum of three credits may be counted toward the fulfillment of the criminal justice minor and the sociology major.

**Sociology Honors Program**

The Sociology Honors Program is designed to stimulate and acknowledge work of greater depth, breadth and originality by students whose interest and resources make them eligible for this voluntary program. We encourage students who are planning on attending graduate school and who meet the honors program eligibility requirements to enroll in the Sociology Honors Program to strengthen their graduate school applications.

**Program**

1. Admission
   a. Twelve credits in the major
   b. Junior standing
   c. A 3.50 grade point average in the major
d. A 3.25 cumulative grade point average overall
e. Recommendation of two faculty members in the major submitted to the chair

2. Program
   a. Completion of the regular major program
   b. SOC 410 Sociology Honors Project (3 cr.)

3. Evaluation
   a. A 3.50 grade point average in the major at graduation
   b. Presentation of paper from SOC 410 to a colloquium of faculty and students in the major
   c. A grade of "A," "AB," or "B" in SOC 410

Women's, Gender, and Sexuality Studies Department (WGS)

Courses in WGSS provide students with new perspectives on the roles of women and men as individuals, within families and communities, and as participants in society across cultures. Based on research and analysis by scholars in nearly every discipline, courses examine how social structures, ideals, stereotypes, mores, and institutions shape people as gendered and sexual beings and in terms of their access to power. Courses also examine how people have responded to limitations systematically organized around gender as it intersects with race, class, sexual orientation, colonization, ethnicity, and other social hierarchies. Courses explore solutions to contemporary problems; internships allow deeper exploration and further development of skills. Because of their emphasis on communication, critical thinking, and problem-solving, WGSS courses are valuable in a broad range of employment settings. WGSS programs include courses within the interdisciplinary department, where students have the opportunity to integrate research from different disciplinary perspectives, as well as specialized courses in many other departments across the university.

Self-Sufficiency Program (SSP)

The Department of Women’s, Gender, and Sexuality Studies sponsors the Self-Sufficiency Program (SSP), a pre-college college readiness initiative for low-income single parents. This free program provides a supportive learning environment in which to develop and practice academic skills. Classes meet weekly with childcare provided. Offered Fall and Spring semesters. Students interested in volunteer, service learning, and internship opportunities, call Andrea Hansen, SSP Director, at 608.785.8733 or email her at ahansen@uwlax.edu.

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Professor
Jodi Vandenberg-Daves (http://www.uwlax.edu/profile/jvandenberg-daves)

Associate Professor
Deb Hoskins (http://www.uwlax.edu/profile/dhoskins)
Mahrug Khan (http://www.uwlax.edu/profile/mkhan)

Assistant Professor
Christina Haynes (http://www.uwlax.edu/profile/charinas)
Terry Glenn Lilley Jr. (http://www.uwlax.edu/profile/tlilley)

Senior Lecturer
Elise Denlinger (http://www.uwlax.edu/profile/edenlinger)

Academic Staff/Lecturer
Andrea Hansen (http://www.uwlax.edu/profile/ahansen)

Administrative Support
Kathy Thoen (http://www.uwlax.edu/profile/kthoen)

Affiliated Faculty

Majors
• Women’s studies major - BA (p. 240)
• Women’s studies major - BS (p. 243)

Minor
• Women’s studies minor (p. 246)

Women's Studies Major - Bachelor of Arts (BA)

GENDER is a society’s ideas about what it means to be male or female. Gender works with other ideas like RACE, CLASS, and SEXUAL ORIENTATION to shape our lives. It influences how we think about relationships. It structures our decisions about work and determines how much money we are likely to make. It disrupts health diagnoses and treatment. It stigmatizes behaviors and actions. It even helps determine what we eat, wear, and buy.

And it has always generated action and organized movements seeking equality, worldwide.

The Department of WGSS enacts the Wisconsin Idea (http://www.wisconsinhistory.org/turningpoints/search.asp?id=752): that universities should produce knowledge and educate students in ways that serve real people. We study and teach on the lives of women, men, and sexual or gender identity minorities. We examine the ways that race, social class, age, and other socially constructed hierarchies connect to gender to impact people’s real lives. We study how social change works and what social justice might look like. We use and teach students to use academic skills to make social change. We maintain the connection...
between theory and practice, issues and advocacy, throughout our curricula and in all our programs.

**Major requirements**

(All colleges, excluding teacher certification programs)

33 credits (24 credits must be 300/400 level, and courses may not count in more than one category).

**Admission**

Admission to the major requires a grade of "C" or higher in any courses taken for the introductory or transnational categories. Students majoring in women’s studies and another major must satisfy requirements for both majors; no more than six credits can count for the women’s studies major and another major or minor.

**Total Credits**: 33

**Degree requirements**

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to...
the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 242)
- Baccalaureate degree requirements (p. 242)

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

At least two courses must be designed as writing emphasis.

**CLS Core Humanities and Fine Arts Tracks** require 102+ level language. **CLS Core Language Track** requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

Women's Studies Major - Bachelor of Science (BS)

**GENDER** is a society’s ideas about what it means to be male or female. Gender works with other ideas like RACE, CLASS, and SEXUAL ORIENTATION to shape our lives. It influences how we think about relationships. It structures our decisions about work and determines how much money we are likely to make. It disrupts health diagnoses and treatment. It stigmatizes behaviors and actions. It even helps determine what we eat, wear, and buy.
And it has always generated action and organized movements seeking equality, worldwide.

The Department of WGSS enacts the Wisconsin Idea (http://www.wisconsinhistory.org/turningpoints/search.asp?id=752); that universities should produce knowledge and educate students in ways that serve real people. We study and teach on the lives of women, men, and sexual or gender identity minorities. We examine the ways that race, social class, age, and other socially constructed hierarchies connect to gender to impact people’s real lives. We study how social change works and what social justice might look like. We use and teach students to use academic skills to make social change. We maintain the connection between theory and practice, issues and advocacy, throughout our curricula and in all our programs.

Major requirements

(All colleges, excluding teacher certification programs)

33 credits (24 credits must be 300/400 level, and courses may not count in more than one category).

Admission

Admission to the major requires a grade of “C” or higher in any courses taken for the introductory or transnational categories. Students majoring in women’s studies and another major must satisfy requirements for both majors; no more than six credits can count for the women’s studies major and another major or minor.

Curriculum

Category I. Introductory

Select one of the following: 3

- WGS 100 Gender, Race and Class in American Institutions
- WGS 210 Women’s Voices / Women’s Culture
- WGS 230 Women’s Diversity: Race, Class, and Culture

Category II. Transnational

Select one of the following: 3

- WGS/SOC 316 Gender, Sexuality, and Social Change in Religion
- WGS/SOC 337 Globalization, Women, and Work
- WGS 373 Gender and Human Rights
- HIS 359 Women, Gender and Sexuality in Modern Europe
- HIS 360 Women, Gender, and Sexuality in Latin America
- HIS 383 Women in South Asia
- HIS 386 Women and Gender in Africa
- HIS 389 Women and Gender in the Middle East
- POL 433 Women and Politics in Asia
- POL 436 Women and Politics in the Middle East
- POL 437 Women and Politics in Africa
- POL 439 Women and Politics in Latin America

Category III. Intimacy, sexuality, and the family

Select two of the following: 6

- WGS/SOC 105 Introduction to LGBT Studies
- WGS/HIS 305 History of Motherhood in the United States
- WGS 320 Violence Against Women
- WGS 333 The Gendered Body in History and Today
- WGS/HIS 370 The History of Black Women’s Activism
- WGS/SOC 375 Lesbian Studies
- WGS 386 Women of Color and Autobiography
- CST 334 Gender Communication
- HED 472 Sexual Health Promotion
- PHL 342 Philosophy of Love, Sex and Friendship
- PSY 305 Human Sexuality
- PSY 318 Psychology of Women
- PSY 319 Men and Masculinities
- SOC 370 Sociology of Gender

Category IV. Gender stratification

Select two of the following: 6

- WGS 230 Women’s Diversity: Race, Class, and Culture
- WGS 255 Women in the Military
- WGS/ESS/PSY 259 Girls and Women in Sport
- WGS/HIS 301 Women in the Modern United States: 1890-Present
- WGS 320 Violence Against Women
- WGS 331 Images of African American Women
- WGS 333 The Gendered Body in History and Today
- WGS/SOC 338 Sociological Aspects of Work and Life
- WGS 340 Women, Learning and Knowledge
- WGS/HIS 370 The History of Black Women’s Activism
- WGS 374 Women, Poverty and Public Policy
- ANT 250 Women and Society
- ARC/HIS 372 History of Women in the Ancient World
- ECO 336 Women in the U.S. Economy
- ENG 220 Women and Popular Culture
- HED 412 Women’s Health Issues
- POL 205 Women and Politics

Category V. Feminisms/social change

Select two of the following: 6

- WGS 201 Social Justice and Peer Education
- WGS 212 Search for Economic Justice
- WGS 225 Women and Leadership
- WGS/ESS/PSY 259 Girls and Women in Sport
- WGS 308 Gender, Justice, and Film
- WGS/HIS 315 History of Feminist Thought
- WGS 321 Gendered Violence Prevention
- WGS 325 Black Feminist Thought
- WGS 360 Hip Hop Culture, Race, and Gender
- WGS/HIS 370 The History of Black Women’s Activism
- WGS 373 Gender and Human Rights
- WGS/SOC 375 Lesbian Studies
- WGS/HIS 315 History of Feminist Thought

Category VI. Theory and practice

- WGS/HIS 315 History of Feminist Thought

- WGS/SOC 375
In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

### Bachelor of Science degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

### Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term.

### Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 245)
- Baccalaureate degree requirements (p. 245)

### College of Liberal Studies (CLS/SAC)

#### Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

#### Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

Courses used to fulfill general education requirements will not apply to core requirements, except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).
Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

College of Liberal Studies/School of Arts and Communication (SAC)

Dean - Julia Johnson
Associate Dean - Charles Martin-Stanley
235 Morris Hall; 608.785.8113

Assistant to the Dean: Sandy Keller
Academic Advisers: Kathy Elgin, Peter Stovall
260 Morris Hall; 608.785.5454

www.uwlax.edu/sac

Majors and minors (p. 248) SAC core requirements (p. 248) SAC graduation requirements (p. 250)

The School of Arts and Communication is dedicated to supporting and enhancing the liberal studies. Programs in the School of Arts and Communication strive to develop the knowledge, freedom of expression, research skills, and spontaneity which underlie creative and intellectual expression in its highest forms. Classes focus on establishing the foundations for creative work and scholarship through the study of technical, historical, and artistic dimensions in the arts and communication. Across the school, students are involved in applied and experiential learning, so they spend much of their time in laboratories, studios, and rehearsals developing the skills, processes, and attitudes necessary for professional and personal success. Students in these programs specialize in a particular art or communication discipline as they acquire general knowledge through the liberal studies core. Upon completion of their program, they have a wide range of occupational and educational choices. Some graduates begin careers in the fine or performing arts or the mass media. Others enter graduate schools and others choose from a wide range of occupations where their creative and communicative skills serve them well. Whatever the career and whatever the future, graduates of the School of Arts and Communication are flexible, adaptable, and disciplined communicators who understand process, problem solving, and professional commitment.

The School of Arts and Communication is housed within the College of Liberal Studies.

Degrees offered

- Bachelor of Arts
- Bachelor of Science

Majors and minors

B.A. = Bachelor of Arts B.S. = Bachelor of Science m = minor

- Art (p. 250) (B.A., B.S., m)
  - Photography (m)
  - Art Education (B.S.)
- Communication Studies (p. 258)
  - Interpersonal Communication (B.A., B.S., m)
  - Organizational & Professional Communication (B.A., B.S., m)
  - Advocacy & Communication Criticism (B.A., B.S., m)
  - Broadcast & Digital Communication (B.A., B.S., m)
  - Sports Broadcasting (m)
- Music (p. 281) (m)
  - Choral Education Emphasis (B.S.)
  - General Education Emphasis (B.S.)
  - History Emphasis (B.A., B.S.)
  - Instrumental Education Emphasis (B.S.)
  - Jazz Performance Emphasis (B.A., B.S.)
  - Music Theatre Emphasis (B.A., B.S., m)
  - Performance Emphasis (B.A., B.S., m)
  - Piano Pedagogy (B.A., B.S.)
  - Theory Emphasis (B.A., B.S.)
- Theatre Arts (p. 318)
  - Arts Administration Emphasis (B.A., B.S., m)
  - Design/Technical Emphasis (B.A., B.S., m)
  - General Emphasis (B.A., B.S., m)
  - Music Theatre Emphasis (B.A., B.S., m)
  - Performance Emphasis (B.A., B.S., m)
  - Stage Management Emphasis (B.A., B.S., m)

Advising

All students in the School of Arts and Communication who have declared majors are assigned to faculty advisors. Advisors provide guidance and assistance to develop plans for post-college experiences. Students and their advisors are provided with Advisement Reports (AR) that assist them in monitoring progress toward meeting degree requirements. Degrees are verified in the dean’s office. Students are encouraged to come to the office to review progress toward the degree during their junior year.

The School of Arts and Communication is housed in the College of Liberal Studies and therefore requires students to meet the CLS core requirements for either the Bachelor of Arts or the Bachelor of Science degree below.

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core
Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track
1. Native speakers of English: complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:
1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student's major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student's major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Graduation/degree requirements

A student in the School of Arts and Communication may earn either the Bachelor of Arts (B.A.) or the Bachelor of Science (B.S.) degree. The type of degree earned by a student (B.A. or B.S.) may be determined by the major programs elected by the student. All general university degree requirements must be met: a minimum of 120 credits (40 of which must be 300/400 numbered courses), general education program requirements, college core requirements and major program requirements.

Art Department (ART)

College of Liberal Studies
School of Arts and Communication
Interim Department Chair: Ryan McKelley
105 Center For The Arts; 608.785.8230
Email: rmckelley@uwla.edu

The Department of Art provides a creative educational environment that encourages intellectual development, visual literacy, and artistic production and fosters the development of graduates who are active citizens and advocates for the arts. Studios and classrooms in the Center for the Arts provide UW-La Crosse with an excellent environment for learning, featuring a mix of new and traditional equipment for ceramics, metal, painting, printmaking, and sculpture. A drawing studio, design studio, and new Macintosh computer lab complete the laboratory areas. Photography is taught in the recently renovated Wing Technology Center and contains state-of-the-art black and white photography labs, a digital imaging lab, a north light studio, and high tech classrooms.

The University Art Gallery, located in the Center for the Arts, schedules displays of art works by students, faculty, and regional and nationally known artists. In conjunction with the gallery program, the department periodically invites visiting artists to present lectures for students and the public. Lectures, workshops, and demonstrations are offered whenever possible.

To help meet school expenses, many art majors work in the Department of Art as student studio assistants, digital imaging specialists, clerical help, gallery exhibition installers and attendants, and models. Annually, the Department of Art gives promising art students scholarships and awards. Students also have the opportunity to be placed in art internship programs throughout the region.

Art credit by examination policy

The Department of Art offers the opportunity to receive credit by examination based on an optional portfolio review. The review is intended for students in the early stages of the program who have developed a portfolio that may demonstrate sufficient quality and understanding of the content and skills in the foundations of studio art. Portfolios are reviewed by faculty in the department, based on the quality of the work submitted and other criteria stated in the application. This process would enable students, based on a successful portfolio review, to receive credit for a foundations-level course.

The department offers this opportunity for its foundations studio courses (ART 162 Drawing Foundations (3 cr.), ART 164 Design Foundations (3 cr.), and ART 166 Three Dimensional Foundations (3 cr.)). To apply, contact the Department of Art (http://www.uwlax.edu/art), 105 Center for the Arts.

Note: Credit by exam is not available for ART 160 or ART 172.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Professor
Joel Elgin
Jennifer Terpstra
Karen Terpstra

Associate Professor
Linda Levinson
Bradley Nichols
John Ready
Binod Shrestha

Assistant Professor
Kathleen Hawkes

Associate Lecturer
Deborah-Eve Lombard

Administrative Support
Tina Connelly

## Degree Requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 251)
- Baccalaureate degree requirements (p. 252)

## College of Liberal Studies (CLS/SAC)

### Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

### Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

#### A. Language track

**1. Native speakers of English** complete:
   
   Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHI 202</td>
<td>Intermediate Chinese II</td>
</tr>
<tr>
<td>FRE 202</td>
<td>Intermediate French II</td>
</tr>
<tr>
<td>GER 202</td>
<td>Intermediate German II</td>
</tr>
<tr>
<td>RUS 202</td>
<td>Intermediate Russian II</td>
</tr>
<tr>
<td>SPA 202</td>
<td>Intermediate Spanish II</td>
</tr>
<tr>
<td>MLG 202</td>
<td>World Languages: Intermediate</td>
</tr>
<tr>
<td>MLG 204</td>
<td>Heritage Language: Intermediate</td>
</tr>
<tr>
<td>MLG 304</td>
<td>Heritage Language: Advanced</td>
</tr>
</tbody>
</table>

**2. Non-native speakers of English:** score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English
language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and
2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:
1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:
1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/ewpwwprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

SAC Core Humanities and Fine Arts Tracks require 102+ level language. SAC Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 253)
- Baccalaureate degree requirements (p. 254)
College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/
or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Communication Studies

#### Department (CST)

College of Liberal Studies
School of Arts and Communication
Department Chair: Linda Dickmeyer
4206 Centennial Hall; 608.785.8519

Email: ldickmeyer@uwlax.edu
www.uwlax.edu/communication-studies

A major in the Communication Studies Program provides excellent knowledge foundation and general skills for many types of jobs in both the private and public sectors of the economy. The Department of Communication Studies provides nearly fifty courses in four curriculum areas: advocacy and communication criticism, broadcast and digital media, interpersonal communication, and organizational and professional communication. Each student who elects the 39 credit major in communication studies must select one of these areas as an emphasis in the program. Each of these curriculum areas is also available as a 24 credit minor. A minor in communication studies is valuable with any major.

The Department of Communication Studies faculty members help build skills not only in the student’s area of program emphasis, but across the communication studies field. Because of the department’s focus on academic training and professional skill building, communication studies graduates develop outstanding abilities in writing, speaking, organization, and critical thinking.

### Communication Studies admission to program policy

To declare a CST major, students must fulfill the following admission requirements:

1. Completion of a minimum of 45 semester credits (transfer students must have completed a minimum of 12 of the 45 semester credits at UW-L).
2. Successful completion ("C" or better) of CST 110 and either ENG 110 or ENG 112.
3. Completion of CST 190 with a grade of "BC" or better or completion of CST 301 with a grade of "BC" or better.
4. Achieve a UW-L cumulative GPA of 2.70 at time of admission.

Students who have fulfilled these requirements must see the CST Department chair or their CST faculty advisor to obtain approval to declare the major. A current Advisement Report (AR) will document fulfillment of admission requirements. The approval form then must be submitted to the Office of the Dean of the College of Liberal Studies.

### CST major and minor credits

CST majors may choose any minor offered by the CST Department that does not duplicate the emphasis they have selected for their CST major. Courses counted toward the 39-credit major, while they may fulfill requirements for that minor, may not be counted in the minor. An additional elective course or courses in the minor must be taken to complete the 24 credits required in that minor. Students who combine a CST major with a minor also offered by the CST Department must complete 60 credits of courses in CST programs.

### General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).
2015-16 Faculty/Staff

The following is the department's faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

• Communication studies minor: organizational and professional communication emphasis (p. 280)
• Communication studies minor: sports broadcasting (p. 281)

Communication Studies Major:
Advocacy and Communication Criticism Emphasis - Bachelor of Arts (BA)

Major requirements

Admission requirements (p. 258)

(All colleges, excluding teacher certification programs)

39 credits

Core requirements

CST 190 Introduction to Communication Studies 3
CST 301  Theories of Communication  3
CST 498  Research Methods in Communication  3
CST 499  Senior Project in Communication Studies  3

**Required**

- CST 210  Presentational Speaking  3
- or CST 215  Influence, Advocacy and Social Responsibility  3
- CST 412  Advocacy and Persuasion  3
- or CST 413  Advocacy and Persuasive Campaigns  3

Select at least three credits of the following:
- CST 210  Presentational Speaking  3
- CST 310  Debate  3
- CST 410  Advocacy and Argumentation  3
- CST 412  Advocacy and Persuasion  3
- CST 413  Advocacy and Persuasive Campaigns  3
- CST 415  Advanced Topics in Advocacy and Communication Criticism  3
- CST 419  Communication, Media and Identity  3

Select nine credits of electives, one from each emphasis area (see below)

Select a minimum of six credits of electives from any CST course 1  6

Total Credits  39

1  excluding CST 110

**Areas of emphasis:**

**Organizational & professional**

- CST 260  Professional Communication  3
- CST 350  Organizational Communication  3
- CST 351  Interviewing: Principles and Processes  3
- CST 354  Health Communication  3
- CST 355  Diversity and Organizational Communication  3
- CST 360  Public Relations  3
- CST 365  Communication in Teams  3
- CST 380  Communicating Leadership  3

**Interpersonal emphasis**

- CST 230  Interpersonal Communication  3
- CST 330  Nonverbal Communication  3
- CST 332  Intercultural Communication  3
- CST 333  Lying and Deception in Human Interaction  3
- CST 334  Gender Communication  3
- CST 336  Family Communication  3
- CST 337  Communication and Race  3
- CST 338  Sexuality and Romance in Media  3

**Broadcast & digital media emphasis**

- CST 270  Broadcast Announcing  3
- CST 271  Contemporary Media in Everyday Life  3
- CST 274  Television Production  3
- CST 370  Broadcast Media Writing  3
- CST 371  Audience Research  3
- CST 372  Audio Workshop  3
- CST 374  Television Workshop  3
- CST 376  Remote Video Operations  3
- CST 378  Computer Mediated Communication  3
- CST 471  Broadcast and Digital Media Management  3

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 260)
- Baccalaureate degree requirements (p. 261)

**College of Liberal Studies (CLS/SAC)**

**Bachelor of Arts core requirements**

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

**Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:**

**A. Language track**

1. **Native speakers of English**: complete:
   - Select one of the following:
     - CHI 202  Intermediate Chinese II
     - FRE 202  Intermediate French II
     - GER 202  Intermediate German II
     - RUS 202  Intermediate Russian II
     - SPA 202  Intermediate Spanish II
     - MLG 202  World Languages: Intermediate II
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

### Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans presented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cwprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

### General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement:

“Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:
1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:
1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Degree requirements
All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

College of Liberal Studies (CLS/SAC)
Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last college semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
- Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
- Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Broadcast & digital media emphasis

- CST 270 Broadcast Announcing 3
- CST 271 Contemporary Media in Everyday Life 3
- CST 274 Television Production 3
- CST 370 Broadcast Media Writing 3
- CST 371 Audience Research 3
- CST 372 Audio Workshop 3
- CST 374 Television Workshop 3
- CST 376 Remote Video Operations 3
- CST 378 Computer Mediated Communication 3
- CST 471 Broadcast and Digital Media Management 3
Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 265)
- Baccalaureate degree requirements (p. 266)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. Other all courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202  Intermediate Chinese II
   - FRE 202  Intermediate French II
   - GER 202  Intermediate German II
   - RUS 202  Intermediate Russian II
   - SPA 202  Intermediate Spanish II
   - MLG 202  World Languages: Intermediate II
   - MLG 204  Heritage Language: Intermediate
   - MLG 304  Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

   2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study
abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.

2. Complete at least one ethnic studies (diversity) course.

3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.

5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&LanguageCd=ENG&; and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 267)
• Baccalaureate degree requirements (p. 268)
**College of Liberal Studies (CLS/SAC)**

**Bachelor of Science core requirements**

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

**Bachelor of Science students complete four courses outside the department of the student’s major as follows:**

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 270)
- Baccalaureate degree requirements (p. 271)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202  Intermediate Chinese II
   - FRE 202  Intermediate French II
   - GER 202  Intermediate German II
   - RUS 202  Intermediate Russian II
   - SPA 202  Intermediate Spanish II
   - MLG 202  World Languages: Intermediate II
   - MLG 204  Heritage Language: Intermediate
   - MLG 304  Heritage Language: Advanced

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside of the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any
college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

**No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.**

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login\&amp;languageCd=ENG\&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

**Note:** at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 272)
• Baccalaureate degree requirements (p. 273)

College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core %20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 399); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.
• General education (p. 53)
• College core (p. 275)
• Baccalaureate degree requirements (p. 275)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

2. Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations)

3. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter
intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Required
Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 277)
- Baccalaureate degree requirements (p. 278)

College of Liberal Studies (CLS/SAC)
Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education...
courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

### Music Department (MUS)

**College of Liberal Studies**  
**School of Arts and Communication**  
**Department Chair: Christopher Frye**  
233 Center For The Arts; 608.785.8409  
Email: cfrye@uwla.edu  
www.uwlax.edu/music

The Department of Music is accredited by the National Association of Schools of Music and is a vital unit within the School of Arts and Communication in the College of Liberal Studies. The department offers a balanced program of academic offerings including music theory, composition, technology, history, and appreciation courses; a wide variety of performance opportunities; and individual applied instruction, all administered by dedicated expert faculty.

Musical organizations include the UW-La Crosse Orchestra, the Screaming Eagles Marching Band, the UW-La Crosse Wind Symphony, and the Symphonic Band. Small ensembles like brass and woodwind quintets, percussion ensembles, and the two Korean Percussion ensembles allow students chamber music experiences. The nationally recognized jazz studies program, including two full jazz bands and several combos, is an active, vital part of university life. There are a number of excellent choral organizations including the Concert Choir, Choral Union, MannerChor, Women’s Chorus and several Vocal Jazz groups that provide UW-La Crosse students with unique opportunities to perform music of many styles and genres. All organizations have toured locally, nationally and internationally and the Jazz Band, Jazz Choir, the Concert Choir, and Wind Symphony have been invited to perform at Wisconsin state music conferences. All UW-La Crosse students are welcome to perform the music ensembles.

Applied music lessons are provided to all music majors and minors without additional fees. Non music majors/minors may take applied lessons by audition and with an applied fee when studio space is available.

- Students enrolling in the music major must complete the music major core requirements and one or more areas of emphasis.
- Students enrolling in education emphases must also complete teacher education requirements found in the School of Education (p. 509).

The below course lists are to be used to meet the requirements of music majors and minors, but non-music majors and minors may also enroll with consent of instructor.

Large ensembles (p. 281) Small ensembles (p. 282) Applied music (p. 282)

### Large ensembles

(Open to students in all schools and colleges within the university with consent of instructor)

One credit per semester. A maximum of six credits may be earned in large ensembles toward a music major.

**Applied music courses**

Applied music courses are open to music majors and minors without an extra fee. Other students may audition to take applied music courses on a space-available basis and must pay an applied music fee.

Placement in intermediate (200 level) and advanced (300 level) courses is determined by audition. Students enrolled in 200 or 300 level courses will perform for a Department of Music jury at the close of each semester of instruction. Students enrolled in recital-level courses (400 level) will present a public recital. Students enrolled in 200 and 300 level courses take one (one-half hour) private lesson per week and will also meet for one class lesson per week. Students may enroll in a maximum of two applied areas each semester. All applied music courses are one credit.

A music major or minor may enroll for a maximum of nine semesters in a single applied area without paying an extra fee. Of those nine semester credits, only six credits may be earned at the 200 level.

1: Applied music credits for minors beyond the required four semesters are subject to space availability.
2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Degree requirements
All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 284)
• Baccalaureate degree requirements (p. 285)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements
The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track
1. Native speakers of English complete:
   Select one of the following:
   - CHI 202  Intermediate Chinese II
   - FRE 202  Intermediate French II
   - GER 202  Intermediate German II
   - RUS 202  Intermediate Russian II
   - SPA 202  Intermediate Spanish II
   - MLG 202  World Languages: Intermediate II
   - MLG 204  Heritage Language: Intermediate
   - MLG 304  Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations);

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

---

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

---

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 286)
- Baccalaureate degree requirements (p. 287)

College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.  
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

#### Music history emphasis (12 credits)

- Applied music: select six credits in a single applied area, at least two credits must be taken at the 300 level and one credit at the 400 level
- Music electives: select four credits from the following:
  - MUS 305 American Music
  - MUS 403 Symphonic Literature
  - MUS 407 Survey of Opera
  - MUS 480 Independent Study of Music

Six semesters of participation in large ensembles

**Total Credits:** 12

### Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 288)
- Baccalaureate degree requirements (p. 289)

### College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).
Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university's English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. \(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA \(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34)).
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the
student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/
minor, and university degree requirements in order to qualify for a
degree. The easiest way to track all of these requirements is to refer to
the Advisement Report (AR) found in the Student Information System
(WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 291)
- Baccalaureate degree requirements (p. 291)

College of Liberal Studies (CLS/SAC)
Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and
Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn
   a Bachelor of Arts degree (education majors earn a Bachelor of
   Science degree).
2. Students majoring in other CLS programs may choose either a B.A.
or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill
general education requirement: "Mathematical/logical systems and
modern languages" (GE 02, category 2) may also be used to meet
the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be
   in addition to the minimum 39 credits required in the General
   Education Program.
5. At least one course in the B.A. or B.S. college degree program
   (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree
   Option Course List (http://www.uwlax.edu/uploadedFiles/
   Academics-Colleges_Schools/CLS/BA%20and%20BS%20Core
   %20Courses.pdf) or in the Advisement Report (AR) when the
degree has been declared.

Courses used to fulfill general education requirements will not apply
to core requirements except for language courses (CHI, FRE, GER,
RUS, SPA, MLG) that count in the general education requirement:
"Mathematical/logical systems and modern languages" (GE 02, category
2).

Bachelor of Science students complete four courses outside
the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or
   math course, or an approved CLS alternative (ENV 201, PHL 334,
   PHL 339); and
4. One additional course in humanities or fine arts or complete a
   modern language course 102 level or higher.

In addition to all other College of Liberal Studies core
requirements, all students in CLS must complete a second
major, minor, or program option by satisfying one of the
following:

1. Complete a minor (or second major) outside of the student’s major
   program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18
   credits outside the student’s major program. General education
courses may apply provided they are not being used to fulfill
minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at
   least 12 credits earned at the 300/400 level). These courses must
   be outside the student’s major department and can be from any
   college. General education courses may apply provided they are
   not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees
must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum
   Committee for the degree desired in the respective school or
   college. (No substitutions for graduation may be made in course
   requirements for a major or minor after the fourth week of the last
   semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00
cumulative GPA. 1 At least 40 credits must be earned in 300/400
   (senior college) level courses. Courses earned at the 100/200 level
   that transferred to UW-L as 300/400 level courses do not apply to
   this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00
   GPA 1 in each major and minor (and concentration or emphasis, if
   selected).
6. A minimum of 30 semester credits in residence at UW-L is required
   for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS
   Student Center as soon as the student has registered for his or her
   final semester or summer term in residence. December and winter
   intersession graduates should file by May 1. May and summer
   graduates should file by December 1.

1 Grade point average requirements for some programs will be
   considerably higher than 2.00. Re-entering students may be required
to earn credits in excess of the 120 needed for graduation in any
curriculum in order to replace credits earned in courses in which the
content has changed substantially in recent years. Each case will be
judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and
recorded within 30 days after the official ending date of each term.
Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Bachelor of Science degrees:
The following conditions apply to one or both Bachelor of Arts and Bachelor of Arts core requirements

College of Liberal Studies (CLS/SAC)

Baccalaureate degree requirements  (p. 294 )
College core  (p. 293 )
General education  (p. 53 )

Degree requirements
All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 293)
- Baccalaureate degree requirements (p. 294)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esi) for eligibility and regulations);
   and
   2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or

**Music theory emphasis (12 credits)**

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 293)
- Baccalaureate degree requirements (p. 294)
Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER,
must accomplish the following:

Candidates for the Bachelor of Arts or the Bachelor of Science degrees

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

1. Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

   - MLG 304 Heritage Language: Advanced

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations);

and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and

3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and

3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or

2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or

3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.

2. Complete at least one ethnic studies (diversity) course.

3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.

5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 302)
- Baccalaureate degree requirements (p. 303)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202  Intermediate Chinese II
   - FRE 202  Intermediate French II
   - GER 202  Intermediate German I
   - RUS 202  Intermediate Russian II
   - SPA 202  Intermediate Spanish II
   - MLG 202  World Languages: Intermediate II
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)

Baccalaureate degree requirements

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term.

Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

At least two courses must be designed as writing emphasis.

1. SAC Core Humanities and Fine Arts Tracks require 102+ level language. SAC Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

Music Major: Piano Pedagogy - Bachelor of Science (BS)

Major requirements

(All colleges - auditions required)

25 credits (teaching certification is not granted for minor only)

- MUS 201 Musical Cultures 3
- MUS 202 Music History: 1600-1825 2
- MUS 235 Music Theory I 3
- MUS 236 Music Theory II 3
- MUS 237 Music Reading & Aural Skills I 1
- MUS 238 Music Reading and Aural Skills II 1
- MUS 301 Music History: 1825-1900 2
- MUS 302 Music History: 20th Century 2
- Applied music: select four credits in voice or one instrument 4
- Electives: select four credits in MUA or MUS 4
- Four semesters of participation in large ensembles

Total Credits 25

Piano pedagogy emphasis (12 credits)

Applied music: select six credits in applied piano, at least two credits must be taken at the 300 level (MUA 314) and one credit at the 400 level (MUA 471)

- MUS 480 Independent Study of Music 2
- MUS 351 Piano Pedagogy I 2
- MUS 352 Piano Pedagogy II: Instructional Strategies 2
- Six semesters of participation in ensembles, including 2 semesters of large

Total Credits 12

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 304)
- Baccalaureate degree requirements (p. 305)
College of Liberal Studies (CLS/SAC)
Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.⁴ At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uWLax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/
or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 307)
- Baccalaureate degree requirements (p. 307)

College of Liberal Studies (CLS/SAC)

Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English: complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

2. Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations);

   1. Fulfill the general education requirements.
   2. Complete at least one ethnic studies (diversity) course.
   3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
   4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. 

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

   1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
   2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
   3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and

   1. Complete a minor (or second major) program option by satisfying one of the following:
   2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
   3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

### Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

#### General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Successful completion of concert attendance

Total Credits 25

Music theatre emphasis (12 credits)

Students must be accepted into the music major: music theatre emphasis (by audition) before declaring it as a major. Students enrolling in this major must also declare and complete the theatre minor: music theatre emphasis requirements (p. 348).

Applied music: select six credits in applied voice, at least three credits must be taken at the 300 level (MUA 321) and one credit at the 400 level (MUA 471)

MUS 310 The Singer/Actor 3

Music electives: select three credits at the 300 level or above 3

Six semesters of participation in ensembles

Total Credits 12

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

1. General education (p. 53)
2. College core (p. 309)
3. Baccalaureate degree requirements (p. 310)

College of Liberal Studies (CLS/SAC)
Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core %20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education
courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

must accomplish the following:

Candidates for the Bachelor of Arts or the Bachelor of Science degrees

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Electives
Select one of the following options: 1-3

Electives (for voice, three credits) option:
Select any MUA or MUS course

Electives (for instruments, one credit) option:
Select any MUA or MUS course

Total Credits 35

1 except MUS 105 and MUS 110.

Students must complete MUS 149 Keyboard Competencies IV (1 cr.) with a grade of “B” or higher prior to student teaching.

Additional teacher education requirements are listed in the School (p. 515) of Education (p. 509).

Degree requirements
All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• Baccalaureate degree requirements (p. 314)

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 139-142

1 Prerequisite: MUS 148 or consent of instructor. Offered Spring - Odd Numbered Years
2 Students need 40 earned credits, passing basic skills test scores, and a 2.75 GPA. More information can be found on the EC-A Admissions (http://www.uwlax.edu/Educational-Studies/EC-A-admission) website.
3 See the Office of Field Experience (http://www.uwlax.edu/SOE/For-teacher-candidates) for details about applying to student teaching.

Music Education Major:
Instrumental Music Emphasis - Bachelor of Science (BS)

Major requirements

Admission requirements to EC-A teacher certification programs (p. 514) (Teacher certification program: early childhood-adolescence licensure, EC-A)

Auditions required.

60 credits

Music education core requirements (25 credits)

| MUS 201 Musical Cultures          | 3      |
| MUS 202 Music History: 1600-1825  | 2      |
| MUS 235 Music Theory I            | 3      |
| MUS 236 Music Theory II           | 3      |
| MUS 237 Music Reading & Aural Skills I | 1    |
| MUS 238 Music Reading and Aural Skills II | 1 |
| MUS 301 Music History: 1825-1900  | 2      |
| MUS 302 Music History: 20th Century | 2     |
| MUS 335 Music Theory III          | 3      |
| MUS 336 Music Theory IV           | 3      |
| MUS 337 Music Reading & Aural Skills III | 1  |
| MUS 338 Music Reading and Aural Skills IV | 1 |

Successful completion of attendance at 12 concerts per semester for six semesters attendance

Total Credits 25

Instrumental emphasis (35 credits)

Instrumental music core requirements

| MUS 149 Keyboard Competencies IV       | 1      |
| MUS 211 Basic Conducting              | 2      |
| MUS 263 Introduction to Music Technology | 1   |
| MUS 316 Advanced Instrumental Conducting | 2   |
| MUS 320 Orchestration                 | 2      |
| MUS 374 Instrumental Music in the Schools | 3 |

Applied music

Select six credits in one instrument, including at least two at the 300 level and one credit at the 400 level

Large ensembles

Select six credits from the following:

| MUS 100 Screaming Eagles Marching Band I |
| or MUS 200 Screaming Eagles Marching Band II |
| or MUS 300 Screaming Eagles Marching Band III |
| or MUS 400 Screaming Eagles Marching Band IV |
| MUS 144 Symphonic Band I |
| or MUS 244 Symphonic Band II |
| or MUS 344 Symphonic Band III |
| or MUS 444 Symphonic Band IV |
| MUS 156 Orchestra I |
| or MUS 256 Orchestra II |
| or MUS 356 Orchestra III |
| or MUS 456 Orchestra IV |
| MUS 140 Wind Symphony I |
| or MUS 240 Wind Symphony II |
| or MUS 340 Wind Symphony III |
| or MUS 440 Wind Symphony IV |

Small ensembles

Select two credits from the following:

| MUS 161 Ensembles |
| MUS 130 Jazz Orchestra I |
| or MUS 230 Jazz Orchestra II |
| or MUS 330 Jazz Orchestra III |
| or MUS 430 Jazz Orchestra IV |
| MUS 134 Jazz Ensemble I |
| or MUS 234 Jazz Ensemble II |
| or MUS 334 Jazz Ensemble III |
| or MUS 434 Jazz Ensemble IV |
| MUS 160 Vocal Jazz I |
| or MUS 260 Vocal Jazz II |
| or MUS 360 Vocal Jazz III |
| or MUS 460 Vocal Jazz IV |
| MUS 162 Chamber Choir I |
| or MUS 262 Chamber Choir II |
| or MUS 362 Chamber Choir III |
| or MUS 462 Chamber Choir IV |

Music electives

Select one credit of any MUA or MUS course

Technique courses

| MUS 214 String Techniques I |
| MUS 215 String Techniques II |
| MUS 220 High Brass Techniques |
| MUS 221 Low Brass Techniques |
| MUS 225 Percussion Techniques I |
| MUS 226 Percussion Techniques II |
| MUS 227 Woodwind Techniques I |
| MUS 228 Woodwind Techniques II |
| MUS 229 Woodwind Techniques III |

Marching Band/Orchestra techniques.

| MUS 312 Marching Band and Jazz Ensemble Techniques | 1 |
Students must complete MUS 149 Keyboard Competencies IV (1 cr.) with a grade of "B" or higher and successfully complete the recital requirement (400 level, applied music) prior to student teaching.

Additional teacher education requirements are listed on in the School of Education (p. 509).

**Degree requirements**

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 317)

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

**No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.**

**Total Credits: 142-145**
Theatre arts at UW-La Crosse offers an invigorating and fresh approach to undergraduate theatrical training. Our degree programs allow a wide range of opportunity while creating a focused and individual area of study for each student. We strive to balance vigorous classroom learning with practical production experience allowing for a well-rounded college experience with an emphasis on the collaborative and creative process. The theatre arts curriculum allows concentrations in six distinct areas of study: general theatre studies, design/technical, performance, music theatre, stage management and arts administration. Students at UW-La Crosse can choose to major in one theatre emphasis area while minor in another thus enhancing their educational opportunities and professional marketability.

One-on-one contact with our teaching faculty is emphasized and students are guaranteed a degree of personal attention rarely available in programs that accept higher numbers of students. In addition to its full-time faculty, the department frequently brings guest artists to campus from professional and educational theatre. The atmosphere within the Department of Theatre Arts is supportive, positive, collaborative and artistically stimulating. Students are involved in theatre productions each year as backstage crew, technicians, designers, stage managers, performers, and front of house staff. Participation in theatre productions is open to all UW-La Crosse students regardless of their major.

The performance stage is the natural extension of the classroom experience. Students receive a tremendous amount of hands-on experience through classroom projects and realized productions. The UW-La Crosse Department of Theatre Arts produces six performances each academic year allowing students to demonstrate, refine and expand the skills they’ve learned in the classroom. Additional production work is available through classroom projects, senior recitals and designs, undergraduate research grant-funded productions, and other student laboratory productions.

- Students enrolling in a theatre major must complete the theatre arts major core requirements and one area of emphasis.
- Students enrolling in the theatre arts minor must select an area of emphasis.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 320)
- Baccalaureate degree requirements (p. 321)

**College of Liberal Studies (CLS/SAC)**

**Bachelor of Arts core requirements**

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

**Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:**

**A. Language track**

1. **Native speakers of English** complete:
   - Select one of the following:
     - CHI 202 Intermediate Chinese II
     - FRE 202 Intermediate French II
     - GER 202 Intermediate German II
     - RUS 202 Intermediate Russian II
     - SPA 202 Intermediate Spanish II
     - MLG 202 World Languages: Intermediate II
     - MLG 204 Heritage Language: Intermediate
     - MLG 304 Heritage Language: Advanced

2. **Non-native speakers of English:** score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 250 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esi) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

**B. Humanities track**

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

**C. Fine arts track**

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 322)
- Baccalaureate degree requirements (p. 323)

College of Liberal Studies (CLS/SAC)

Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).
Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cslprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 324)
- Baccalaureate degree requirements (p. 325)

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/
Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core %20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track
1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login&amp;languageCd=ENG) and work closely with their
faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

THA 260 required first semester first year. THA 360 required every semester after first semester first year, except when completing THA 490.
Bachelor of Science degrees: The following conditions apply to one or both Bachelor of Arts and Bachelor of Science core requirements

College of Liberal Studies (CLS/SAC)

Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter
intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Total Credits 18

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 329)
- Baccalaureate degree requirements (p. 330)

**College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements**

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics-Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

**A. Language track**

1. **Native speakers of English** complete:

   Select one of the following:

   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced
Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and

2. Two additional courses outside of the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:
1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login&languageCd=ENG&...) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120
Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 332)
- Baccalaureate degree requirements (p. 332)

College of Liberal Studies (CLS/SAC)
Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages” (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample
plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

THA 260 required first semester first year. THA 360 required every semester after first semester first year, except when completing THA 490.

Music theatre emphasis (16 credits)
Students must be accepted into the theatre major: music theatre emphasis (by audition) before declaring it as a major. Students enrolling in this major must also declare and complete the music minor: music theatre emphasis requirements (p. 318).

THA 221 Movement for the Stage 3
THA 222 Voice and Diction for the Stage 3
THA 270 Music Theatre Vocal Study 1 1
THA 310 The Singer/Actor 3
THA 320 Acting II: Characterization 3
THA/MUS 324 Cabaret Performance Workshop 3

Dance Requirement:
ESS 100 Physical Activities (Four credits, music theatre and tap are required. Remaining two credits may be chosen from ballet, jazz or modern. Credits do not count toward major.)

Total Credits 16

1 Students may enroll in THA 270 Music Theatre Vocal Study (1-2 cr.) for up to 6 semesters after completing the applied voice requirement in their music minor. One credit will count toward the major.

Degree requirements
All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 334)
• Baccalaureate degree requirements (p. 335)

College of Liberal Studies (CLS/SAC)
Bachelor of Arts core requirements
The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics-Colleges_Schools/CLS/BA%20and%20BS%20CoreCourses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete: Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</tr>
</tbody>
</table>

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/estl) for eligibility and regulations); and
2. Two additional courses outside the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track

1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student's major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34.).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

THA 310

THA 270

THA 350

SAC Core Elective

Gen Ed Elective

Gen Ed Hum-Lit

Gen Ed Arts (not from THA)

Total Credits: 123-125

Some THA courses are only offered every odd or even numbered year. Please plan accordingly.

1 SAC Core Humanities and Fine Arts Tracks require 102+ level language. SAC Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

Theatre Arts Major: Music Theatre Emphasis - Bachelor of Science (BS)

Major requirements

(All colleges, excluding teacher certification programs)

Students enrolling in a theatre major must complete the theatre arts major core requirements and one area of emphasis.

Core requirements (21 credits)

THA 210 Foundations of Theatrical Production 3
THA 220 Acting I: Fundamentals 3
THA 231 Stagecraft 3
THA 250 Theatre Studies I: Origins to the Middle Ages 3
THA 251 Theatre Studies II: Renaissance Thru Mid 19th Century 3
THA 350 Theatre Studies III: Realism to the Present 3
THA 490 Capstone Project in Theatre Arts 3

Total Credits 21

THA 260 required first semester first year. THA 360 required every semester after first semester first year, except when completing THA 490.

Music theatre emphasis (16 credits)

Students must be accepted into the theatre major: music theatre emphasis (by audition) before declaring it as a major. Students enrolling in this major must also declare and complete the music minor: music theatre emphasis requirements (p. 318).

THA 221 Movement for the Stage 3
THA 222 Voice and Diction for the Stage 3

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

1. General education (p. 53)
2. College core (p. 336)
3. Baccalaureate degree requirements (p. 337)

College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%B.S%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).
Bachelor of Science students complete four courses outside the department of the student’s major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(a) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 338)
- Baccalaureate degree requirements (p. 339)

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/
Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track
1. Native speakers of English: complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university’s English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations); and
2. Two additional courses outside the student’s major in two of the following: humanities, social sciences or fine arts.

B. Humanities track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:
1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csgprod/?cmd=login&languageCd=ENG) and work closely with their
faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter
intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 343)

- Baccalaureate degree requirements (p. 344)

College of Liberal Studies (CLS/SAC) Bachelor of Arts core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: “Mathematical/logical systems and modern languages” (GE 02, category 2).

Declare ONE of the following tracks in the CLS Academic Services Office in 260 Morris Hall:

A. Language track

1. Native speakers of English complete:
   Select one of the following:
   - CHI 202 Intermediate Chinese II
   - FRE 202 Intermediate French II
   - GER 202 Intermediate German II
   - RUS 202 Intermediate Russian II
   - SPA 202 Intermediate Spanish II
   - MLG 202 World Languages: Intermediate II
   - MLG 204 Heritage Language: Intermediate
   - MLG 304 Heritage Language: Advanced

   Non-native speakers of English: score at least 80 on the La Crosse Battery of exams for non-native speakers of English; or submit a TOEFL or IELTS score that meets the university's English language proficiency requirement for admission; or complete ESL 252 or ESL 253, and one additional course from ESL 250, ESL 251, ESL 252, ESL 253. (Contact the English as a Second Language Institute (http://www.uwlax.edu/esi) for eligibility and regulations); and

2. Two additional courses outside of the student's major in two of the following: humanities, social sciences or fine arts.
B. Humanities track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: history, English, philosophy; and
3. One additional course in social sciences or fine arts.

C. Fine arts track
1. One modern language course 102 or higher or an Office of International Education (OIE) approved semester long study abroad experience combined with the INS 250, INS 251, INS 252 sequence; and
2. Two additional courses outside the department of the student’s major from two different departments chosen from: art, communication studies, music, theatre; and
3. One additional course in social sciences or humanities.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:
1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:
1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by December 1. May and summer graduates should file by May 1. Graduates should file by June 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/pwp/csp/Prod/?cmd=login&languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 345)
- Baccalaureate degree requirements (p. 346)

College of Liberal Studies (CLS/SAC) Bachelor of Science core requirements

The following conditions apply to one or both Bachelor of Arts and Bachelor of Science degrees:

1. Students majoring in English or in a modern language must earn a Bachelor of Arts degree (education majors earn a Bachelor of Science degree).

Some THA courses are only offered every odd or even numbered year. Please plan accordingly.

1  Sac Core Humanities and Fine Arts Tracks require 102+ level language. Sac Core Language Track requires 202 level language. Students unprepared for 202 level will need to complete prerequisite course work.

Theatre Arts Major: Stage Management Emphasis - Bachelor of Science (BS)

Major requirements

(All colleges, excluding teacher certification programs)

Students enrolling in a theatre major must complete the theatre arts major core requirements and one area of emphasis.
2. Students majoring in other CLS programs may choose either a B.A. or a B.S. degree.
3. Language courses (CHI, FRE, GER, RUS, SPA, MLG) used to fulfill general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2) may also be used to meet the B.A. and B.S. language requirements.
4. All other courses used to meet the requirements below must be in addition to the minimum 39 credits required in the General Education Program.
5. At least one course in the B.A. or B.S. college degree program (core requirements) must be a CLS designated diversity course.
6. Applicable courses may be found on the CLS B.A./B.S. Degree Option Course List (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/CLS/BA%20and%20BS%20Core%20Courses.pdf) or in the Advisement Report (AR) when the degree has been declared.

Courses used to fulfill general education requirements will not apply to core requirements except for language courses (CHI, FRE, GER, RUS, SPA, MLG) that count in the general education requirement: "Mathematical/logical systems and modern languages" (GE 02, category 2).

Bachelor of Science students complete four courses outside the department of the student's major as follows:

1. A lab science course (from the general education list); and
2. A social science course; and
3. Another social science or general education natural science, or math course, or an approved CLS alternative (ENV 201, PHL 334, PHL 339); and
4. One additional course in humanities or fine arts or complete a modern language course 102 level or higher.

In addition to all other College of Liberal Studies core requirements, all students in CLS must complete a second major, minor, or program option by satisfying one of the following:

1. Complete a minor (or second major) outside of the student’s major program, consisting of at least 18 credits; or
2. Complete an emphasis, program or concentration of at least 18 credits outside the student’s major program. General education courses may apply provided they are not being used to fulfill minimum general education requirements; or
3. Complete 18 credits in two or more departments or programs (at least 12 credits earned at the 300/400 level). These courses must be outside the student’s major department and can be from any college. General education courses may apply provided they are not being used to fulfill minimum general education requirements.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

College of Science and Health (SAH)

Dean – Bruce Riley
Associate Dean - Raymond Abhold
105 Graff Main Hall; 608.785.8218

Assistants to the Dean - Carla Burkhardt, Guy Herling
205 Graff Main Hall; 608.785.8156
Email: science@uwlax.edu

www.uwlax.edu/science-and-health

The College of Science and Health houses high quality major and minor programs in the natural and physical sciences, mathematics and computer science, exercise science, recreation, and in selected allied health professions. The college’s combination of programs provides both applications for the sciences and a strong science base for the allied health offerings. These programs also collectively provide many scientific literacy offerings within the university’s general education program.

All major programs offer undergraduate research experiences and/or professional internship experiences through collaborative agreements with external agencies.

Sequences and requirements are listed on the various department pages, with major or minor requirements listed on those specific tabs in the department’s section. In addition to the major and general education requirements, all students in the College of Science and Health must complete a core curriculum, which emphasizes diverse in-depth study outside of the major.

Degrees offered
- Bachelor of Arts
- Bachelor of Science
- Master of Public Health (see graduate catalog)
- Master of Science (see graduate catalog)
- Master of Software Engineering (see graduate catalog)
- Doctor of Physical Therapy (see graduate catalog)

Majors and minors
B.A. = Bachelor of Arts B.S. = Bachelor of Science m = minor
- Adapted Physical Education (p. 409) (m)
- Athletic Training (p. 409) (B.S.)
- Biochemistry (p. 383) (B.S.)
- Biology (p. 355) (B.A., B.S., m)
  - Aquatic Science Concentration (B.A., B.S.)
  - Biomedical Science Concentration (B.A., B.S.)
  - Cellular and Molecular Concentration (B.A., B.S.)
  - Environmental Science Concentration (B.A., B.S.)
- Biology Education (p. 355) (B.S., m)
- Chemistry with American Chemical Society (ACS) Certification (p. 383) (B.S.)
  - Business Concentration (B.S.)
  - Chemistry (m)
  - Environmental Science Concentration (B.S.)
- Chemistry Education (p. 383) (B.S., m)
- Clinical Laboratory Science (p. 395) (B.S.)
- Community Health Education (p. 440) (B.S.)
- Computational Science (p. 398) (m)
- Computer Science (p. 399) (B.S., m)
- Computer Science Education (p. 399) (B.S., m)
- Earth Science (p. 422) (m)
- Exercise and Sport Science (p. 409)
  - Exercise Science Emphasis
    - Fitness Track (B.S.)
    - Pre-Professional Track (B.S.)
  - Physical Education Emphasis (B.S.)
  - Sport Management Emphasis (B.S.)
- General Science Education (p. 380) (Broad Field; second major only; open to Early Adolescence-Adolescence teacher certification program only)
- Geography (p. 422) (B.A., B.S., m)
  - Environmental Science Concentration (B.A., B.S.)
  - Geographic Information Science Concentration (B.A., B.S., m)
- Geoarchaeology (p. 422) (m)
- Geography Education (p. 422) (B.S., m)
- Health and Wellness Management (p. 440) (B.S.)
- Inclusive Recreation (p. 502) (m)
- Mathematics (p. 448) (B.A., B.S., m)
  - Applied Emphasis (B.A., B.S.)
  - Education Emphasis (B.A., B.S., m)
- Mathematics Education (p. 448) (B.S., m)
- Microbiology (p. 464) (B.S., m)
• Biomedical Concentration (B.S.)
• Business Concentration (B.S.)
• Environmental Concentration (B.S.)
• Nuclear Medicine Technology (p. 474) (B.S.)
• Nutrition (p. 476) (m)
• Physics (p. 477) (B.A., B.S., m)
  • Astronomy Emphasis (B.A., B.S., m)
• Biomedical Concentration (B.S.)
• Business Concentration (B.S.)
• Computational Physics Emphasis (B.S.)
• Optics Emphasis (B.S.)
• Physics Education (p. 477) (B.S., m)
• Radiation Therapy (p. 499) (B.S.)
• Recreation Management (p. 502) (B.S., m)
• School Health Education (p. 440) (B.S., m)
• Statistics (p. 448) (B.S., m)
  • Actuarial Science Concentration (B.S.)
• Therapeutic Recreation (p. 502) (B.S.)

Dual degree programs

• Biology/Physical Therapy (p. 355)
• Chemistry/Engineering (p. 383)
• Computer Science/Engineering (p. 399)
• Computer Science/Software Engineering (p. 399)
• Mathematics/Engineering (p. 448)
• Physics/Engineering (p. 477)
• Physics/Physical Therapy (p. 477)
• Psychology/Occupational Therapy (p. 219) (program suspension pending)

Concentrations

• Coaching Competitive Athletics (p. 409)

College of Science and Health (SAH)
Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

• a minor in the College of Liberal Studies or
• 15 credits at the 300/400 level in the College of Liberal Studies. Internship credits generally do not count toward this college core option.

College of Science and Health (SAH)
Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

• a minor (or a second major) from any college or
• 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

SAH college core exemptions

Students participating in the following programs are exempt from the college core requirements:

Athletic Training
Biology Education
Chemistry with a Business Concentration
Chemistry with an Environmental Science Concentration
Chemistry Education
Clinical Laboratory Science
Community Health Education
Computer Science Major: Computer Engineering Technology Emphasis
Computer Science Education
Exercise and Sport Science – Exercise Science Fitness Track
Exercise and Sport Science – Physical Education Teaching
Exercise and Sport Science – Sport Management
Health and Wellness Management
Mathematics Education
Nuclear Medicine Technology
Physics Education
Radiation Therapy
Recreation Management
School Health Education
Therapeutic Recreation

Pre-professional curricula

www.uwlax.edu/sah/pre-professional-programs/

Students are provided the opportunity to complete requirements in a variety of pre-professional fields on the campus prior to applying to other colleges and universities for admission to their professional programs. Pre-professional program requirements vary widely; some require a degree while others do not. Students are expected to be aware of the requirements of the school to which they plan to apply; therefore, they need to select their course work carefully. Pre-professional advisors on
the campus can be of assistance to students in designing a curriculum in such programs. Contact one of the pre-professional advisors (http://www.uwlax.edu/SAH/Pre-professional-programs) or inquire at the College of Science and Health Academic Services Office, 205 Graff Main Hall for more information. A pre-professional program is NOT a declared major and are referred to as "tracks" in the WINGS student information center.

Pre-chiropractic track

Pre-chiropractic students enroll at UW-L for at least three years (90 credits) before being admitted to professional chiropractic schools; however, most chiropractic colleges strongly recommend a bachelor’s degree. Students should sample liberally from the general education curriculum (English, communication, psychology, other humanities and social sciences). Minimal science requirements are 24 credits (biology, chemistry, physics). Some chiropractic universities require more than 24 credits of science coursework. Contact the pre-chiropractic advisor (http://www.uwlax.edu/SAH/Pre-Chiropractic) or explore the website for more information.

Pre-dentistry track

The usual pre-professional education requirements for admission to dental school stipulate two academic years of liberal arts study; however, many of the dental schools in the United States require three years of college education, and most prefer baccalaureate degree candidates. Dental school requirements in pre-professional curricula vary but a first year basically includes:

<table>
<thead>

</tbody>
</table>

A course in mathematics

The pre-dentistry advisor (http://www.uwlax.edu/SAH/Dentistry) should be consulted as to full curriculum requirements. Admission to dental school is based on grade point average, interviews, aptitude tests, and letters of recommendation. An aptitude test is taken in the year preceding application to dental school.

Pre-engineering track

Most of the basic mathematics, chemistry and physics courses that the prospective engineer needs in the first two years of an engineering curriculum can be taken at UW-L, and a wide choice of electives is also available. In the first two years, every pre-engine should complete three semesters of calculus, two semesters of chemistry, and two semesters of physics. Since requirements vary with the engineering school and the particular major, students should see the pre-engineering advisor (http://www.uwlax.edu/SAH/Engineering) in the chemistry, computer science, mathematics, or physics department as early as possible. The advisor can furnish information about specific majors within engineering schools. Engineering curricula require four or more years of study; therefore, students spending the first two years at UW-L will need to spend two or more years at an engineering school to complete degree requirements.

Pre-forestry (natural resources, conservation, wildlife management) track

A curriculum is available to meet the needs of the majority of students who will later major in such diverse fields as wildlife management, forestry, and conservation education. However, students entering one of these fields are reminded that most forestry schools set their own requirements for admission, and thus, it is imperative that exact requirements be obtained from current catalogs of the schools to which students plan to transfer to complete their professional training. Generally, the requirement for admission with junior standing to professional school is 60 semester hours.

In some cases, students will find it advantageous to earn a bachelor’s degree before entering the professional program. Students may do so by continuing for two more academic years at UW-L and fulfilling requirements prescribed for that degree. Students electing to follow this plan should allow extra years to complete graduate work in the professional school. Students are urged to contact the university’s pre-forestry advisor (http://www.uwlax.edu/SAH/Pre-Forestry) early in their first semester.

Pre-medicine track

Minimal academic requirements to qualify for admission to medical school include a number of courses as part of, or in addition to, a regular academic major leading to a baccalaureate degree. Pre-medicine requirements include at least eight semester hours in biology (general and advanced biology courses); 16 semester hours of chemistry including one year of general and eight semester hours of organic; two semesters of mathematics through pre-calculus and statistics; eight semester hours of physics; and six semester hours of English. Academic preparation in all of these areas is available at UW-L.

Although the majority of pre-medical students major in chemistry, biology, or microbiology, the student may major in any field of interest as long as the minimal requirements are satisfied.

Admission to medical school is highly competitive, and admission decisions are based on factors such as overall grade point average, grade point average in the required science courses, performance on the national Medical College Admission Test (MCAT), usually taken in the spring of the junior year, non-academic credentials (activities and work experiences), letters of evaluation from faculty, and a personal interview. Contact the pre-med advisor (http://www.uwlax.edu/SAH/Medicine) or explore the website for more information.

Pre-occupational therapy track

Occupational therapists are health professionals who work with individuals to maximize performance in their everyday life tasks when impacted by injury, disease, or other health risk. Occupational therapists are part of a healthcare team that may also include physicians, physician assistants, physical therapists, speech pathologists, and recreational therapists. “Occupation” refers to those everyday meaningful tasks that individuals do each day. The goal of occupational therapy is to help individuals successfully engage in purposeful tasks that comprise daily life.

Undergraduate students interested in occupational therapy must declare an undergraduate major. In addition to declaring an undergraduate major, students then select pre-professional occupational therapy as a secondary area of interest.
General admission requirements (http://www.uwlax.edu/Occupational-Therapy-MS/Admission-requirements) for the UW-La Crosse occupational therapy graduate program (http://www.uwlax.edu/occupational-therapy-ms) include:

- An undergraduate degree or completion of an undergraduate degree prior to starting the program
- Completion of all prerequisite course work including

<table>

<td>3</td>
</tr>
</tbody>
</table>

- Minimum grade attainment of at least a 3.00 cumulative GPA
- No more than two prerequisite courses with a grade of "C"
- No prerequisite course work with a grade below "C"

The occupational therapy program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449. ACOTE’s telephone number is 301.652.6611 x2914. Their fax number is 240.762.5140, email is accred@aota.org, and webpage is www.acoteonline.org (http://www.acoteonline.org). The program is 30 months long and includes six months of full-time Level II fieldwork. Students must complete Level II fieldwork within 24 months of the completion of the didactic portion of the curriculum in order to graduate. Graduates of the program will be eligible to sit for the national certification examination for occupational therapy administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). In addition, most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. A felony conviction may affect a graduate’s ability to sit for the NBCOT certification examination or attain state licensure.

**Pre-optometry track**

Students should plan to complete an undergraduate degree in some field (usually biology or chemistry). Typical requirements for admission to an optometry program include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 105</td>
<td>General Biology</td>
<td>4</td>

<td></td>
</tr>
<tr>
<td>MTH 207</td>
<td>Calculus I</td>
<td>5</td>
</tr>
</tbody>
</table>

Additional courses in English, Psychology and Sociology, along with additional electives in biology are usually also required. Consult the pre-optometry advisor (http://www.uwlax.edu/SAH/Pre-Optometry) for complete undergraduate curriculum requirements. The Optometry Admission Test (OAT) must be taken before or during the semester in which students apply for admission to a school of optometry.

**Pre-osteopathic medicine track**

The statement in the section on pre-medicine (http://www.uwlax.edu/SAH/Medicine) applies equally to pre-osteopathic (http://www.uwlax.edu/SAH/Osteopathy) medicine. Medical school and osteopathic curricula are nearly identical, and the practice of medicine by graduates of either type of school is essentially identical. Osteopathy is best considered an alternative within medicine rather than an alternative to medicine.

**Pre-pharmacy track**

Most pharmacy programs offer the Doctor of Pharmacy degree. These programs involve a pre-pharmacy curriculum (http://www.uwlax.edu/SAH/Pharmacy) of about 70 credits that can be taken at UW-L. The professional program that is taken at a College of Pharmacy is an additional four years. The pre-pharmacy curriculum is set by the individual colleges of pharmacy but generally consists of:

<table>

<td>5</td>
</tr>
</tbody>
</table>

Plus non-math, non-science general education courses

It is very important to work with the pre-pharmacy advisor (http://www.uwlax.edu/SAH/Pharmacy) as program requirements change frequently.

**Pre-physical therapy track**

Undergraduate students interested in physical therapy must declare an undergraduate major. Typical majors include biology, exercise & sport science, psychology, and physics but other majors are equally appropriate and feasible with appropriate planning. In addition to declaring an undergraduate major, students may select pre-professional physical therapy as a secondary area of interest. Dual degree agreements are available for biology majors and physics majors in which students receive both a bachelor of science and a graduate physical therapy degree from UW-La Crosse. The total length of time for both degrees is approximately five and three-quarter years. It is important that students selecting this option work with their major advisor early and declare their intent officially.

General admission requirements (http://www.uwlax.edu/Physical-Therapy-DPT/Admission-requirements), including specific application instructions and deadlines, for the UW-La Crosse physical therapy graduate program (http://www.uwlax.edu/physical-therapy-dpt) include:
• An undergraduate degree or completion of an undergraduate degree prior to starting the program (except for declared dual degree students)

• Completion of all prerequisite course work including
  BIO 105  General Biology
  BIO 312  Human Anatomy and Physiology I
  BIO 313  Human Anatomy and Physiology II
  CHM 103  General Chemistry I
  CHM 104  General Chemistry II
  PHY 103  Fundamental Physics I
  or PHY 203  General Physics I
  PHY 104  Fundamental Physics II
  or PHY 204  General Physics II

Any psychology course
Any sociology course or a second psychology course
MTH 145  Elementary Statistics

• Attainment of at least a 3.00 cumulative GPA
• Completion of required volunteer experiences with letters of recommendation
• Completion and submission of Graduate Records Examination (GRE) scores

The program typically conducts early and general admissions screening of completed applications. The UW-L PT Program participates in the Physical Therapy Centralized Application Service (PTCAS).

Pre-physician assistant studies track

Physician assistants (PAs) practice medicine with physician supervision. To become a PA, students must be admitted to an accredited PA education program. Like many PA programs across the country, the UW-L – Gundersen – Mayo Physician Assistant Program (http://www.uwlax.edu/pastudies) is a graduate program. Thus, undergraduate students interested in the UW-L program must declare a primary undergraduate major in another field in order to complete a baccalaureate degree. Pre-physician assistant studies then may be selected as a track and an appropriate academic advisor will be assigned.

Prerequisite requirements are quite variable among the appropriate 140 PA programs across the country. For the UW-L graduate PA program, at a minimum the following prerequisite requirements apply:

Biology: At least 14 semester hours of biology including at least two lab courses:

BIO 312  Human Anatomy and Physiology I
BIO 313  Human Anatomy and Physiology II
MIC 230  Fundamentals of Microbiology

Select one of the following:
BIO 306  Genetics
BIO 406  Parasitology
BIO 408  Developmental Biology
BIO 413  Medical Mycology
BIO 424  Human Endocrinology
BIO 432  Biology of Cancer
BIO 443  Molecular Mechanism of Disease and Drug Action
BIO 465  Neurophysiology
BIO 466  Human Molecular Genetics

Chemistry: A minimum of 11 semester hours of chemistry including at least two of these courses which must include laboratory:

CHM 103  General Chemistry I
or CHM 104  General Chemistry II

Select one of the following:
CHM 300  Survey of Organic Chemistry
CHM 303  Organic Chemistry Theory I
& CHM 304  and Organic Chemistry Theory II

Select one of the following:
CHM 325  Fundamental Biochemistry
CHM 417  Biochemistry I: Macromolecules
& CHM 418  and Biochemistry II: Metabolism and Genetic Information

BIO 315  Cell Biology
BIO 435  Molecular Biology

Mathematics: A minimum of two semesters including:

MTH 151  Precalculus
or MTH 207  Calculus I
MTH 145  Elementary Statistics
or MTH 405  Statistical Methods

Psychology:

Select one of the following:
PSY 100  General Psychology
PSY 204  Abnormal Psychology
PSY 210  Developmental Psychology
PSY 212  Lifespan Development
PSY 356  The School-aged Child
PSY 357  Adolescence
PSY 358  Adulthood

Academic Aptitude: A minimum cumulative GPA on all post-high school courses of 3.00. A minimum science GPA of 3.00. Submission of Graduate Record Exam (GRE) scores is required.

Health Care Experience: Prior direct patient care health experience is expected. Such experience provides evidence of a career commitment to healthcare as a PA.

Application to the UW-L – Gundersen – Mayo PA program should be made during the summer prior to the expected year of graduation. Pre-PA students should consider making application to several PA programs and carefully review the specific requirements of the programs in which they are interested. Many programs, including the UW-L – Gundersen – Mayo PA program, utilize the Centralized Application Service for Physician Assistants (CASPA) and require a program specific supplemental application.

Pre-podiatry track

A podiatrist is a medical specialist who has unlimited licensure to practice on the ankle and foot. Requirements for admission to a school of podiatric medicine (http://www.uwlax.edu/SAH/Podiatry) are the same as those listed in the pre-medicine (http://www.uwlax.edu/SAH/Medicine) section.
Pre-veterinary track

The University of Wisconsin-La Crosse offers courses that satisfy the requirements for admission to any school of veterinary medicine. Requirements generally include courses in biology, microbiology, chemistry, physics, English composition, mathematics, social sciences, and humanities. Several majors at UW-L (particularly biology, microbiology and chemistry) provide an excellent basis for meeting course requirements while pursuing a bachelor’s degree. Applicants are also required to take the Graduate Record Exam (GRE) and have documented animal work experience. Check veterinary schools’ websites for the most current information. Contact the pre-veterinary medicine advisor (http://www.uwlax.edu/SAH/Veterinary-Medicine) for more information.

Biology Department (BIO)

College of Science and Health
Department Chair: Mark Sandheinrich
3005 Cowley Hall; 608.785.8238
Email: msandheinrich@uwlax.edu (dhoward@uwlax.edu)

www.uwlax.edu/biology

Awarded the University of Wisconsin System Board of Regents Teaching Excellence Award for the best UW System department in 2013, the Department of Biology supports undergraduate and graduate programs in biological sciences. Undergraduate students pursuing a major in biology complete foundation course work that includes courses in introductory biology, organismal biology, cell biology, genetics, and ecology. Because biologists must understand chemistry, biology majors complete at least three semesters of chemistry, including organic chemistry. Each student may plan his/her own electives and specialize in one of several subdisciplines within biology or specialize in field studies or laboratory studies. Some elective courses require off-campus trips to field stations in northern Wisconsin. Other courses make use of several unique ecological habitats close to campus. The Mississippi River and the La Crosse River Marsh are within blocks of the campus and are also used for outdoor laboratory studies. In addition, modern laboratory facilities and use of high tech research equipment prepare students for careers in the emerging fields of biotechnology.

Students develop a curriculum around specific career goals. Each student meets individually with their faculty adviser each semester. The diversity of the faculty in the department provides a wide array of both classroom and non-classroom opportunities for student learning.

Undergraduate research is an important part of the biology program and provides excellent opportunities for students to receive both individualized and unique learning experiences. Graduates of the programs in biology have traditionally been very competitive in the job markets and for entrance into graduate and other professional programs. In the last four years, 65% of biology majors have gone onto graduate or professional school, and 98% of the remaining students were employed within a year of graduation.

The Department of Biology has established a number of partnerships with local, state, and regional environmental and aquatic science research centers, biotechnology firms, and allied health care institutions. These partnerships provide undergraduate students with the opportunity to interact with practicing scientists in a wide variety of professions including medical sciences, river studies, aquatic toxicology, fisheries biology, watershed studies, food science, and seed genetics to name a few. These opportunities are in the form of internships, job shadowing, and undergraduate research, some of which are university funded. Many of these experiences result in summer jobs and part-time employment for students.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Professor
Raymond Abhold
A. Glenn Brice
Scott Cooper
Daniel Gerber
Rick Gillis
Roger Haro
David Howard
Margaret Maher
Jennifer Miskowski
Mark Sandheinrich
Meredith Thomsen
Thomas Volk

Associate Professor
Michael Abler
Anita Baines
Anne Galbraith
Tisha King-Heiden
Sumei Liu
Gregory Sandland
Bradley Seebach
Eric Strauss

Assistant Professor
Sierra Colavito
Gretchen Gerrish
Barrett Klein
Jennifer Klein
Minors

- Biology minor (p. 382)
- Biology education minor (p. 383)

Biology Major - Bachelor of Arts (BA)

Major requirements

(All colleges, excluding teacher certification programs)

39 credits (58 total credits including CHM and MTH requirements)

Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, 479, 489, 491, 495, and 499) to fulfill requirements of the major.

MIC 428 Fermentation Microbiology Laboratory
MIC 434 Aquatic Microbial Ecology

Select three semesters of chemistry, including: 15-18
CHM 103 General Chemistry I
CHM 104 General Chemistry II
And one of the following organic chemistry options:
Option 1:
CHM 300 Survey of Organic Chemistry
Option 2:
CHM 303 Organic Chemistry Theory I & CHM 304 Organic Chemistry Theory II & CHM 305 Organic Chemistry Laboratory

Math requirement 4
MTH 145 Elementary Statistics

Total Credits 58-61

1 A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be applied to the major.
2 Up to two credits of BIO 499 may be used as electives.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 357)
• Baccalaureate degree requirements (p. 357)

College of Science and Health (SAH)
Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a foreign language at the 202 level or an ESL proficiency score of 80 or above on the La Crosse Battery of exams for non-native speakers of English. Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations. Students must also complete:
• a minor in the College of Liberal Studies or
• 15 credits at the 300/400 level in the College of Liberal Studies. Internship credits generally do not count toward this college core option.
Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. \(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA \(^1\) in each major and minor (concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/c Bord/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Select three semesters of chemistry, including: 15-18
CHM 103  General Chemistry I
CHM 104  General Chemistry II
And one of the following organic chemistry options:
Option 1:
CHM 300  Survey of Organic Chemistry
Option 2:
CHM 303  Organic Chemistry Theory I
& CHM 304  and Organic Chemistry Theory II
& CHM 305  and Organic Chemistry Laboratory
Math requirement 4
MTH 145  Elementary Statistics

Total Credits 58-61

1  A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be
applied to the major.
2  Up to two credits of BIO 499 may be used as electives.

Degree requirements

All students must complete the general education, college core, major/
minor, and university degree requirements in order to qualify for a
degree. The easiest way to track all of these requirements is to refer to
the Advisement Report (AR) found in the Student Information System
(WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 360)
• Baccalaureate degree requirements (p. 360)

College of Science and Health (SAH)
Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and
Health are required to take two natural laboratory science courses
selected from the general education laboratory science category (GE
05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC
222, PHY 104, or PHY 204, and they either must take two mathematics
courses or one math course and one computer science course from the
math/logical systems category of the general education requirements (GE
02). One of the two science courses must be from a department outside
of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can
use two science courses from same department.

For the Bachelor of Science degree, students must complete a major
from the college plus:

• a minor (or a second major) from any college or
• 18 credits at the 300/400 level in courses outside the major
department from any college. Internship credits generally do not count
toward this core college option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees
must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum
Committee for the degree desired in the respective school or
college. (No substitutions for graduation may be made in course
requirements for a major or minor after the fourth week of the last
semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00
cumulative GPA.1 At least 40 credits must be earned in 300/400
(senior college) level courses. Courses earned at the 100/200 level
that transferred to UW-L as 300/400 level courses do not apply to
this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00
GPA1 in each major and minor (and concentration or emphasis, if
selected).
6. A minimum of 30 semester credits in residence at UW-L is required
for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS
Student Center as soon as the student has registered for his or her
final semester or summer term in residence. December and winter
intersession graduates should file by May 1. May and summer
graduates should file by December 1.

1 Grade point average requirements for some programs will be
considerably higher than 2.00. Re-entering students may be required
to earn credits in excess of the 120 needed for graduation in any
curriculum in order to replace credits earned in courses in which the
content has changed substantially in recent years. Each case will be
judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and
recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the
courses required to complete the major and other requirements needed
for degree completion. The actual degree plan may differ depending on
the course of study selected (second major, minor, etc.). This sample
plan also assumes readiness for each course and/or major plan. Actual
degree plans may differ. Some courses may not be offered every term.
Review course descriptions or the class timetable for course offering
information.

The sample degree plans represented in this catalog are intended for
first-year students entering UW-L in the fall term. Students should use the
Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?
cmd=login&amp;languageCd=ENG&amp;) and work closely with their
faculty advisor(s) and college dean’s office to ensure declaration and
completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience
for all undergraduates at UW-L. Sample degree plans include Gen Ed
placeholders to ensure completion of the general education curriculum.
Courses may be rearranged to fit the needs or recommendations of the
student’s program of study. Gen Ed courses may be taken during winter
term (January between the semesters) and summer to reduce the course
load during regular terms (fall and spring). Consult with your advisor and/
or the assistant to the dean in your college for assistance with course and
schedule planning. Refer to the general education requirements (p. 53)
for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the
300/400 level.
This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 120

### Biology Major: Aquatic Science Concentration - Bachelor of Arts (BA)

#### Major requirements

(All colleges, excluding teacher certification programs)

39 credits (67 total credits including CHM and MTH requirements)

Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, 479, 489, 491, 495, and 499) to fulfill requirements of the major.

- BIO 105 General Biology | 4
- BIO 203 Organismal Biology | 4
- BIO 306 Genetics | 4
- BIO 307 Ecology | 3
- BIO 315 Cell Biology | 4
- BIO 341 Limnology | 3
- BIO 491 Capstone Seminar in Biology | 1
- MIC 230 Fundamentals of Microbiology | 4

**Elective credits**

Select eight credits of electives from List I. Remaining four credits may come from List I or List II (up to two credits of BIO 499 may count).

12

List I electives:

- BIO 405 Aquatic and Wetland Vascular Plants
- BIO 414 Freshwater Invertebrate Zoology
- BIO 422 Ichthyology
- BIO 447 Standard Methods/Quality Assurance Water Analyses
- BIO 464 Stream and Watershed Ecology
- BIO 473 Marine Biology
- MIC 434 Aquatic Microbial Ecology

List II electives:

- BIO 406 Parasitology
- BIO 419 Quantitative Methods in Ecology
- BIO 421 Comparative Vertebrate Endocrinology
- BIO 441 Environmental Toxicology
- BIO 458 Comparative Animal Physiology
- BIO 476 Ecosystem Ecology
- BIO 499 Independent Research (up to two credits)

Select a minimum of 20 chemistry credits, including:

<table>
<thead>
<tr>

<td>and Organic Chemistry Laboratory</td>
</tr>
</tbody>
</table>

Select a minimum of eight credits of mathematics including the following:
must accomplish the following:

Baccalaureate degree requirements

regulations. Students must also complete:

- a year of exams for non-native speakers of English. Contact the English as a
  Second Language Institute (http://www.uwlax.edu/esl) for regulations and
  requirements.

For the Bachelor of Arts degree:

- One major or minor, and university degree requirements in order to qualify for a
degree. The easiest way to track all of these requirements is to refer to the
Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 362)
- Baccalaureate degree requirements (p. 362)

College of Science and Health (SAH)
Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and
Health are required to take two natural laboratory science courses
selected from the general education laboratory science category (GE
05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC
222, PHY 104, or PHY 204, and they either must take two mathematics
courses or one math course and one computer science course from the
math/logical systems category of the general education requirements (GE
02). One of the two science courses must be from a department outside
the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can
use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major
from the college and proficiency in a foreign language at the 202 level
or an ESL proficiency score of 80 or above on the La Crosse Battery
of exams for non-native speakers of English. Contact the English as a
Second Language Institute (http://www.uwlax.edu/esl) for eligibility and
regulations. Students must also complete:

- a minor in the College of Liberal Studies or
- 15 credits at the 300/400 level in the College of Liberal Studies.
  Internship credits generally do not count toward this college core
  option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees
must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum
   Committee for the degree desired in the respective school or
college. (No substitutions for graduation may be made in course
requirements for a major or minor after the fourth week of the last
semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00
   cumulative GPA. At least 40 credits must be earned in 300/400
   (senior college) level courses. Courses earned at the 100/200 level
   that transferred to UW-L as 300/400 level courses do not apply to
   this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00
   GPA in each major and minor (and concentration or emphasis, if
   selected).
6. A minimum of 30 semester credits in residence at UW-L is required
   for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS
   Student Center as soon as the student has registered for his or her
   final semester or summer term in residence. December and winter
   intersession graduates should file by May 1. May and summer
   graduates should file by December 1.

1 Grade point average requirements for some programs will be
considerably higher than 2.00. Re-entering students may be required
to earn credits in excess of the 120 needed for graduation in any
class/year curriculum in order to replace credits earned in courses in which the
content has changed substantially in recent years. Each case will be
judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and
recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the
courses required to complete the major and other requirements needed
for degree completion. The actual degree plan may differ depending on
the course of study selected (second major, minor, etc.). This sample
plan also assumes readiness for each course and/or major plan. Actual
degree plans may differ. Some courses may not be offered every term.
Review course descriptions or the class timetable for course offering
information.

The sample degree plans represented in this catalog are intended for
first-year students entering UW-L in the fall term. Students should use the
Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login
&languageCd=ENG) and work closely with their
faculty advisor(s) and college dean’s office to ensure declaration and
completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience
for all undergraduates at UW-L. Sample degree plans include Gen Ed
placeholders to ensure completion of the general education curriculum.
Courses may be rearranged to fit the needs or recommendations of the
student’s program of study. Gen Ed courses may be taken during winter
term (January between the semesters) and summer to reduce the course
load during regular terms (fall and spring). Consult with your advisor and/or
the assistant to the dean in your college for assistance with course and
schedule planning. Refer to the general education requirements (p. 53)
for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the
300/400 level.

This sample degree plan does not establish a contractual agreement.
It identifies the minimum requirements a student must successfully
complete, to qualify for a degree, in a format intended to assist the
student plan their academic career.

Total Credits: 120

**Biology Major: Aquatic Science Concentration - Bachelor of Science (BS)**

**Major requirements**

(All colleges, excluding teacher certification programs)

39 credits (67 total credits including CHM and MTH requirements)

Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, 479, 489, 491, 495, and 499) to fulfill requirements of the major.

| BIO 105 | General Biology | 4 |
| BIO 203 | Organismal Biology | 4 |
| BIO 306 | Genetics | 4 |
| BIO 307 | Ecology | 3 |
| BIO 315 | Cell Biology | 4 |
| BIO 341 | Limnology | 3 |
| BIO 491 | Capstone Seminar in Biology | 1 |
| MIC 230 | Fundamentals of Microbiology | 4 |

**Elective credits**

12

Select eight credits of electives from List I. Remaining four credits may come from List I or List II (up to two credits of BIO 499 may count).

List I electives:

- BIO 405 Aquatic and Wetland Vascular Plants
- BIO 414 Freshwater Invertebrate Zoology
- BIO 422 Ichthyology
- BIO 447 Standard Methods/Quality Assurance Water Analyses
- BIO 464 Stream and Watershed Ecology
- BIO 473 Marine Biology
- MIC 434 Aquatic Microbial Ecology

List II electives:

- BIO 406 Parasitology
- BIO 419 Quantitative Methods in Ecology
- BIO 421 Comparative Vertebrate Endocrinology
- BIO 441 Environmental Toxicology
- BIO 458 Comparative Animal Physiology
- BIO 476 Ecosystem Ecology
- BIO 499 Independent Research (up to two credits)

**Select a minimum of 20 chemistry credits, including:**

| CHM 103 | General Chemistry I | 4 |
| CHM 104 | General Chemistry II | 4 |
| CHM 301 | Analytical Chemistry | 3 |

And one of the following organic chemistry options:

**Option 1:**

- CHM 300 Survey of Organic Chemistry

**Option 2:**

- CHM 303 Organic Chemistry Theory I & CHM 304 Organic Chemistry Theory II & CHM 305 Organic Chemistry Laboratory

**Select a minimum of eight credits of mathematics including the following:**

| MTH 145 | Elementary Statistics | 2 |
| MTH 265 | Mathematical Models in Biology | 2 |
| MTH 175 | Applied Calculus | 2 |
| MTH 207 | Calculus I | 2 |

Total Credits: 67

**Degree requirements**

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to
the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 364)
- Baccalaureate degree requirements (p. 364)

**College of Science and Health (SAH) Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

**For the Bachelor of Science degree,** students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

**No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.**

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/crsprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

**Note:** at least 40 credits of the 120 credits required must be earned at the 300/400 level.

*This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.*

College of Science and Health (SAH)
Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the mathematical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a foreign language at the 202 level or an ESL proficiency score of 80 or above on the La Crosse Battery of exams for non-native speakers of English. Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations. Students must also complete:

• a minor in the College of Liberal Studies or
• 15 credits at the 300/400 level in the College of Liberal Studies. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Total Credits 67

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to...
the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 368)
- Baccalaureate degree requirements (p. 368)

**College of Science and Health (SAH)**

**Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

or BIO 468 Human Molecular Genetics Lab
BIO 440 Bioinformatics 2
BIO 491 Capstone Seminar in Biology 1

Select 13 credits of electives from the following: 1
BIO 202 Introduction to Biological Data Analysis and Interpretation

Total Credits: 120

Select a minimum of 24 chemistry credits including: 24
CHM 103 General Chemistry I
CHM 104 General Chemistry II
CHM 301 Analytical Chemistry
One organic chemistry option:
Option 1: CHM 303 Organic Chemistry Theory I
& CHM 304 and Organic Chemistry Theory II
& CHM 305 and Organic Chemistry Laboratory
And one of the following:
CHM 325 Fundamental Biochemistry
CHM 417 Biochemistry I: Macromolecules
& CHM 418 and Biochemistry II: Metabolism and Genetic Information

Select a minimum of eight credits of mathematics, including the following: 8
MTH 145 Elementary Statistics
or MTH 265 Mathematical Models in Biology
MTH 175 Applied Calculus
or MTH 207 Calculus I

Total Credits 71

1 Up to two credits from BIO 450, BIO 479, BIO 489, BIO 495, and BIO 499 may count toward the major.
2 A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be applied to the major.
Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 370)
- Baccalaureate degree requirements (p. 370)

College of Science and Health (SAH)
Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a foreign language at the 202 level or an ESL proficiency score of 80 or above on the La Crosse Battery of exams for non-native speakers of English. Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations. Students must also complete:

- a minor in the College of Liberal Studies or
- 15 credits at the 300/400 level in the College of Liberal Studies.
- Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

- MIC 420 Introductory Virology
- MIC 421 Virology Laboratory
- MIC 427 Industrial and Fermentation Microbiology

**Select a minimum of 24 chemistry credits including:** 24

- CHM 103 General Chemistry I
- CHM 104 General Chemistry II
- CHM 301 Analytical Chemistry

One organic chemistry option:

Option 1:

- CHM 300 Survey of Organic Chemistry

Option 2:

- CHM 303 Organic Chemistry Theory I & CHM 304 and Organic Chemistry Theory II & CHM 305 and Organic Chemistry Laboratory

And one of the following:

- CHM 325 Fundamental Biochemistry
- CHM 417 Biochemistry I: Macromolecules & CHM 418 and Biochemistry II: Metabolism and Genetic Information

**Select a minimum of eight credits of mathematics, including the following:** 8

- MTH 145 Elementary Statistics
- or MTH 265 Mathematical Models in Biology
- MTH 175 Applied Calculus
- or MTH 207 Calculus I

**Total Credits:** 71

1 Up to two credits from BIO 450, BIO 479, BIO 489, BIO 495, and BIO 499 may count toward the major.
A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be applied to the major.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 372)
- Baccalaureate degree requirements (p. 372)

College of Science and Health (SAH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;...) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Biology Major: Environmental Science Concentration - Bachelor of Arts (BA)

**Major requirements**

(All colleges, excluding teacher certification programs)

39 credits (67 total credits including CHM, MTH, and GEO requirements)

*Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, BIO 479, BIO 489, BIO 491, BIO 495, and BIO 499) to fulfill requirements of the major.*

| BIO 105 | General Biology | 4 |
| BIO 203 | Organismal Biology | 4 |
| BIO 306 | Genetics | 4 |
| BIO 307 | Ecology | 3 |
| BIO 315 | Cell Biology | 4 |
| BIO 419 | Quantitative Methods in Ecology | 3 |
| BIO 491 | Capstone Seminar in Biology | 1 |

**Select 16 credits of elective from the following:**

| BIO 302 | Introductory Plant Identification |
| BIO 304 | Plant Biology |

| BIO 321 | Ornithology |
| BIO 337 | Plant Physiology |
| BIO 341 | Limnology |
| BIO 404 | Plant Taxonomy |
| BIO 405 | Aquatic and Wetland Vascular Plants |
| BIO 406 | Parasitology |
| BIO 412 | Mycology |
| BIO 414 | Freshwater Invertebrate Zoology |
| BIO 422 | Ichthyology |
| BIO 429 | Evolution |
| BIO 441 | Environmental Toxicology |
| BIO 442 | Plant Microbe Interactions |
| BIO 447 | Standard Methods/Quality Assurance Water Analyses |
| BIO 456 | Plant Ecology |
| BIO 458 | Comparative Animal Physiology |
| BIO 464 | Stream and Watershed Ecology |
| BIO 473 | Marine Biology |
| BIO 476 | Ecosystem Ecology |
| MIC 230 | Fundamentals of Microbiology |
| BIO 499 | Independent Research (up to two credits may apply) |
| MIC 350 | Bacterial Diversity |
| MIC 434 | Aquatic Microbial Ecology |

**Select three semesters of chemistry, including:**

| CHM 103 | General Chemistry I |
| CHM 104 | General Chemistry II |

**And one of the organic chemistry options:**

**Option 1:**

| CHM 300 | Survey of Organic Chemistry |

**Option 2:**

| CHM 303 | Organic Chemistry Theory I |
| & CHM 304 | and Organic Chemistry Theory II |
| & CHM 305 | and Organic Chemistry Laboratory |

**Select eight credits of mathematics, including one of the following:**

| MTH 145 | Elementary Statistics |
| or MTH 265 | Mathematical Models in Biology |
| MTH 175 | Applied Calculus |
| or MTH 207 | Calculus I |

**Select a minimum of five credits of environmental science support courses, including one of the following options:**

**Option A:**

| CHM 301 | Analytical Chemistry |

**Option B:**

**Option 2:**

| GEO/ESC 345 | Remote Sensing |
| GEO/ESC 385 | Introduction to Geographic Information System and Science |
| GEO 485 | Advanced Geographic Information Science |

**Option C:**

**Select two of the following:**

| CS 120 | Software Design I |
| CS 220 | Software Design II |
| MTH 405 | Statistical Methods |
| MTH 445 | Correlation and Regression Analysis |
| MTH 446 | Analysis of Variance and Design of Experiments |
must accomplish the following:

Candidates for the Bachelor of Arts or the Bachelor of Science degrees

Baccalaureate degree requirements. Students must also complete:

Second Language Institute  (http://www.uwlax.edu/esl)  for eligibility and

from the college and proficiency in a foreign language at the 202 level

For the Bachelor of Arts degree

use two science courses from same department.

Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can

of the student’s major department.

and regulations. Students must also complete:

• General education (p. 53)

• College core (p. 374)

• Baccalaureate degree requirements (p. 374)

College of Science and Health (SAH)
Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and
Health are required to take two natural laboratory science courses
selected from the general education laboratory science category (GE
05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC
222, PHY 104, or PHY 204, and they either must take two mathematics
courses or one math course and one computer science course from the
mathlogical systems category of the general education requirements (GE
02). One of the two science courses must be from a department outside
of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can

use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major

from the college and proficiency in a foreign language at the 202 level

or an ESL proficiency score of 80 or above on the La Crosse Battery
exams for non-native speakers of English. Contact the English as a
Second Language Institute (http://www.uwlax.edu/esl) for eligibility and

regulations. Students must also complete:

• a minor in the College of Liberal Studies or

• 15 credits at the 300/400 level in the College of Liberal Studies. Internship credits generally do not count toward this college core

option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees

must accomplish the following:

1. Fulfill the general education requirements.

2. Complete at least one ethnic studies (diversity) course.

3. Complete the courses prescribed by the Undergraduate Curriculum

Committee for the degree desired in the respective school or
college. (No substitutions for graduation may be made in course
requirements for a major or minor after the fourth week of the last
semester of the senior year.)

4. Earn a minimum of 120 semester credits with at least a 2.00

cumulative GPA. At least 40 credits must be earned in 300/400

(senior college) level courses. Courses earned at the 100/200 level

that transferred to UW-L as 300/400 level courses do not apply to

this requirement nor do courses from two-year schools.

5. Complete major and minor requirements with at least a 2.00

GPA in each major and minor (and concentration or emphasis, if

selected).

6. A minimum of 30 semester credits in residence at UW-L is required

for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed “Apply for Graduation” form via the WINGS

Student Center as soon as the student has registered for his or her

final semester or summer term in residence. December and winter

intersession graduates should file by May 1. May and summer

graduates should file by December 1.

Grade point average requirements for some programs will be

considerably higher than 2.00. Re-entering students may be required
to earn credits in excess of the 120 needed for graduation in any

curriculum in order to replace credits earned in courses in which the

content has changed substantially in recent years. Each case will be

judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and

recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the
courses required to complete the major and other requirements needed

for degree completion. The actual degree plan may differ depending on
the course of study selected (second major, minor, etc.). This sample
plan also assumes readiness for each course and/or major plan. Actual
degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering

information.

The sample degree plans represented in this catalog are intended for
first-year students entering UW-L in the fall term. Students should use the
Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?
cmd=login&languageCd=ENG&) and work closely with their

faculty advisor(s) and college dean’s office to ensure declaration and

completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience

for all undergraduates at UW-L. Sample degree plans include Gen Ed

placeholders to ensure completion of the general education curriculum.
Courses may be rearranged to fit the needs or recommendations of the

student’s program of study. Gen Ed courses may be taken during winter

term (January between the semesters) and summer to reduce the course
load during regular terms (fall and spring). Consult with your advisor and/
or the assistant to the dean in your college for assistance with course and

schedule planning. Refer to the general education requirements (p. 53)

for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the

300/400 level.

This sample degree plan does not establish a contractual agreement.

It identifies the minimum requirements a student must successfully

complete, to qualify for a degree, in a format intended to assist the

student plan their academic career.

- MTH 145 Elementary Statistics
- or MTH 265 Mathematical Models in Biology
- MTH 175 Applied Calculus
- or MTH 207 Calculus I

**Select a minimum of five credits of environmental science support courses, including one of the following options:**

**Option A:**

- CHM 301 Analytical Chemistry

**Option B:** Select two of the following:
must accomplish the following:

Candidates for the Bachelor of Arts or the Bachelor of Science degrees

Baccalaureate degree requirements

from the college plus:

For the Bachelor of Science

use two science courses from same department.

Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can

Note:

of the student's major department.

222, PHY 104, or PHY 204, and they either must take two mathematics

courses or one math course and one computer science course from the

math/logical systems category of the general education requirements (GE

courses or one math course and one computer science course from the

general education laboratory science category (GE

Health are required to take two natural laboratory science courses

B.S. and B.A. students graduating from the College of Science and

have to earn credits in excess of the 120 needed for graduation in any

curriculum in order to replace credits earned in courses in which the

content has changed substantially in recent years. Each case will be

judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and

recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the
courses required to complete the major and other requirements needed
for degree completion. The actual degree plan may differ depending on
the course of study selected (second major, minor, etc.). This sample
plan also assumes readiness for each course and/or major plan. Actual
degree plans may differ. Some courses may not be offered every term.
Review course descriptions or the class timetable for course offering
information.

The sample degree plans represented in this catalog are intended for
first-year students entering UW-L in the fall term. Students should use the
Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?
cmd=login&amp;languageCd=ENG&amp;) and work closely with their
faculty advisor(s) and college dean’s office to ensure declaration and
completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience
for all undergraduates at UW-L. Sample degree plans include Gen Ed
placeholders to ensure completion of the general education curriculum.
Courses may be rearranged to fit the needs or recommendations of the
student’s program of study. Gen Ed courses may be taken during winter
term (January between the semesters) and summer to reduce the course
load during regular terms (fall and spring). Consult with your advisor and/
or the assistant to the dean in your college for assistance with course and
schedule planning. Refer to the general education requirements (p. 53)
for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the
300/400 level.

This sample degree plan does not establish a contractual agreement.
It identifies the minimum requirements a student must successfully

Degree requirements

All students must complete the general education, college core, major/
minor, and university degree requirements in order to qualify for a
degree. The easiest way to track all of these requirements is to refer to
the Advisement Report (AR) found in the Student Information System
(WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 53)
• Baccalaureate degree requirements (p. 376)

College of Science and Health (SAH)

Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and
Health are required to take two natural laboratory science courses
selected from the general education laboratory science category (GE
05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC
222, PHY 104, or PHY 204, and they either must take two mathematics
courses or one math course and one computer science course from the
math/logical systems category of the general education requirements (GE
02). One of the two science courses must be from a department outside
of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can
use two science courses from same department.

For the Bachelor of Science degree, students must complete a major
from the college plus:

• a minor (or a second major) from any college or
• 18 credits at the 300/400 level in courses outside the major
department from any college. Internship credits generally do not count
toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees
must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum
Committee for the degree desired in the respective school or
college. (No substitutions for graduation may be made in course
requirements for a major or minor after the fourth week of the last
semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00
cumulative GPA. At least 40 credits must be earned in 300/400
(senior college) level courses. Courses earned at the 100/200 level
that transferred to UW-L as 300/400 level courses do not apply to
this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00
GPA in each major and minor (and concentration or emphasis, if
selected).
6. A minimum of 30 semester credits in residence at UW-L is required
for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS
Student Center as soon as the student has registered for his or her
final semester or summer term in residence. December and winter
intersession graduates should file by May 1. May and summer
graduates should file by December 1.

Grade point average requirements for some programs will be
considerably higher than 2.00. Re-entering students may be required
to earn credits in excess of the 120 needed for graduation in any
curriculum in order to replace credits earned in courses in which the
content has changed substantially in recent years. Each case will be
judged on its own merit.

Total Credits 67-70

GEO/ESC 345 Remote Sensing
GEO/ESC 385 Introduction to Geographic Information System and Science
GEO 485 Advanced Geographic Information Science

Option C: Select two of the following:
CS 120 Software Design I
CS 220 Software Design II
MTH 405 Statistical Methods
MTH 445 Correlation and Regression Analysis
MTH 446 Analysis of Variance and Design of Experiments
MTH 447 Nonparametric Statistics
MTH 448 Operations Research

### Biology Education Major (Early Adolescence-Adolescence Certification) - Bachelor of Science (BS)

#### Major requirements

Admission requirements for STEP Program (p. 515)

(Teacher certification program: early adolescence-adolescence certification)

40 credits: (59-62 total credits including CHM and MTH requirements)

Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, 479, 489, 491, 495, and 499) to fulfill requirements of the major.

- BIO 105 General Biology 4
- BIO 203 Organismal Biology 4
- BIO 306 Genetics 4
- BIO 307 Ecology 3
- BIO 315 Cell Biology 4
- BIO 429 Evolution 3
- BIO 469 Teaching and Learning Science in the Secondary School 4
- BIO 491 Capstone Seminar in Biology 1
- MIC 230 Fundamentals of Microbiology 4

**Select nine credits of electives from the following:**

- BIO 202 Introduction to Biological Data Analysis and Interpretation
- BIO 210 Animal Biology
- BIO 302 Introductory Plant Identification
- BIO 303 Vertebrate Form and Function
- BIO 304 Plant Biology
- BIO 312 Human Anatomy and Physiology I
- BIO 313 Human Anatomy and Physiology II
- BIO 321 Ornithology
- BIO 330 Economic Botany
- BIO 333 Radiation Biology
- BIO 337 Plant Physiology
- BIO 341 Limnology
- BIO 356 Curriculum and Assessment in Math and Science
- BIO 404 Plant Taxonomy
- BIO 405 Aquatic and Wetland Vascular Plants
- BIO 406 Parasitology
- BIO 408 Developmental Biology
- BIO 412 Mycology
- BIO 413 Medical Mycology
- BIO 414 Freshwater Invertebrate Zoology
- BIO 419 Quantitative Methods in Ecology
- BIO 422 Ichthyology
- BIO 424 Human Endocrinology
- BIO 428 Advanced Nutrition for the Health Professions
- BIO 429 Evolution

**Total Credits: 120**
Teacher certification candidates must complete GEO 200 to fulfill statutory licensing requirements.

Additional teacher education requirements are listed in the STEP program core (p. 515).

**Degree requirements**

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 378)

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term.
Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/spscprod/?cmd=login&amp;languageCd=ENG)&amp; and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Two samples plans are provided. These are merely samples and should be discussed with your adviser to determine the best route for you.

BIO Elective to total 40 credits in BIO 1-3

14 11

Additional year
Fall Credits
Pre-requisite for student teaching includes GPA of
2.75 in each: combined cumulative, major, minor,
and professional education sequence; and a passing
score on the Praxis II content test. 2

EDS 494 3-15

EDS 492 1

Total Credits: 124

3. Eight credits in each of the two remaining science areas selected
   from biology, chemistry, earth science, or physics

4. One mathematics course beyond minimum general education math
   requirement

Note: The completion of one certifiable minor is highly recommended
   instead of the completion of the 14 credit requirement.

Additional teacher education requirements are listed in the STEP
Program core (p. 515).

Degree requirements

All students must complete the general education, college core (waived
for teacher certification programs), major/minor, and university degree
requirements in order to qualify for a degree. The easiest way to track all
of these requirements is to refer to the Advisement Report (AR) found
in the Student Information System (WINGS) Student Center. All enrolled
students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 380)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees
must accomplish the following:

1. Fulfill the general education requirements.

2. Complete at least one ethnic studies (diversity) course.

3. Complete the courses prescribed by the Undergraduate Curriculum
   Committee for the degree desired in the respective school or
college. (No substitutions for graduation may be made in course
   requirements for a major or minor after the fourth week of the last
   semester of the senior year.)

4. Earn a minimum of 120 semester credits with at least a 2.00
   cumulative GPA. 1 At least 40 credits must be earned in 300/400
   (senior college) level courses. Courses earned at the 100/200 level
   that transferred to UW-L as 300/400 level courses do not apply to
   this requirement nor do courses from two-year schools.

5. Complete major and minor requirements with at least a 2.00
   GPA 1 in each major and minor (and concentration or emphasis, if
   selected).

6. A minimum of 30 semester credits in residence at UW-L is required
   for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed "Apply for Graduation" form via the WINGS
   Student Center as soon as the student has registered for his or her
   final semester or summer term in residence. December and winter
   intersession graduates should file by May 1. May and summer
   graduates should file by December 1.

1 See the STEP Admissions (http://www.uwlax.edu/Secondary-
Teacher-Education-Preparation/Admission) website for details.

No degree will be awarded unless all requirements are fulfilled and
recorded within 30 days after the official ending date of each term.

General Science Education
(Broad Field) Major (Early Adolescence-Adolescence Cert) -
2nd major only

Major requirements

Admission requirements for STEP Program (p. 515)

(Teacher certification programs: early adolescence-adolescence)

66-70 credits

Second major only. First major must be biology education, chemistry
education, or physics education.

1. STEP teacher education candidates are required to complete a
   36-40 credit major in biology education, chemistry education, or
   physics education

2. 14 credits in one science area outside of the science major selected
   from biology, chemistry, earth science, or physics
Dual Degree Program in Biology and Physical Therapy

This is a special dual degree program which enables a student to receive both a Bachelor of Science degree (biology major) and a Doctor of Physical Therapy degree from UW-La Crosse. Students typically complete the undergraduate requirements in three years followed by 34 months of attendance in the physical therapy graduate program. The undergraduate requirements include completion of the general education program, college core requirements (with the exception of a minor), physical therapy pre-requisite course work, and all of the requirements for the biology major except six credits of biology elective courses.

UW-La Crosse students will be selected for entrance into the graduate program in physical therapy through a competitive application process. Participation in the undergraduate Biology/PT dual degree program does not guarantee admission to the graduate program in physical therapy.

Major requirements

(All colleges, excluding teacher certification programs)

33 credits (52 total credits including CHM and MTH requirements)

Each student must have a minimum of three 400 level BIO credits (excluding BIO 450, 479, 489, 491, 495, and 499) to fulfill requirements of the major.

BIO 105  General Biology  4
BIO 203  Organismal Biology  4
BIO 306  Genetics  4
BIO 307  Ecology  3
BIO 315  Cell Biology  4
BIO 491  Capstone Seminar in Biology  1

Select one upper level (300/400) lab component  1-4

Total Credits: 52-55

1. A maximum of eight credits of BIO 303, BIO 312, BIO 313 can be applied to the major.
2. Up to two credits of BIO 499 may be used as electives.

In addition, students must complete the physical therapy prerequisite course work (http://catalog.uwlax.edu/graduate/programrequirements/physicaltherapy/dpt/#programrequirementstext).

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core for B.S. (no minor required) (p. 382)
- Baccalaureate degree requirements (p. 382)
- Doctor of Physical Therapy requirements (http://catalog.uwlax.edu/graduate/programrequirements/physicaltherapy/dpt)

**SAH Bachelor of Science requirements**

**College of Science and Health (SAH)**

**Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

**For the Bachelor of Science degree,** students must complete a major from the college plus:

- A minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

**UW-L undergraduate degree requirements**

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1. Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Biology Minor**

(All colleges, excluding teacher certification programs)

24 credits

<table>

1 A maximum of two non-lab courses may be applied toward the biology minor elective requirement. BIO 102, BIO 469, BIO 499; MIC 100, MIC 130, MIC 407, MIC 416, MIC 425 are not applicable as electives.

Teacher certification candidates must also complete GEO 200; in addition, early adolescence-adolescence candidates must complete BIO 469 unless a major in chemistry education or physics education is completed. Both courses fulfill statutory licensing requirements.

Chemistry and Biochemistry Department (CHM)

College of Science and Health
Department Chair: Aaron Monte
4004 Cowley Hall; 608.785.8268
Email: amonte@uwlax.edu

www.uwlax.edu/chemistry-and-biochemistry

Each day, our society is faced with many issues and problems that can be addressed by well-trained chemists and biochemists. Demands for new consumer products, high performance materials, energy producing fuels, disease fighting molecules, and many other products are met by these professionals on a daily basis. In addition, chemists are frequently responsible for the management of environmental status, such as air, water, and soil quality and for the scientific education of our society's youth. Chemists and biochemists are not only well trained as analytical thinkers and problem solvers, but also as effective communicators of scientific concepts. This makes the various chemistry and biochemistry degree programs at UW-La Crosse highly attractive to many employers and graduate and professional programs, such as schools of pharmacy, medicine, engineering, and law.

The Department of Chemistry and Biochemistry at UW-La Crosse is fully accredited by the American Chemical Society's Committee on Professional Training (ACS-CPT). This recognition acknowledges the quality program, staff, and facilities of the department and enables us to offer the prestigious ACS-Certified B.S. degree in chemistry, along with several other bachelor’s degree options.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

### Baccalaureate degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 385)
- Baccalaureate degree requirements (p. 385)

### College of Science and Health (SAH)

#### Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

### Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

### Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

#### General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

Chemistry Major (with ACS Certification) - Bachelor of Science (BS)

The Chemistry Program at UW-La Crosse is approved by the American Chemical Society (ACS). Students completing a baccalaureate degree that meets the following ACS guidelines will receive an ACS-Certified Bachelor of Science degree in chemistry. This degree track includes the course work and experiences necessary to satisfy the requirements for ACS certification.

**Major requirements**

(All colleges, excluding teacher certification programs)

46-52 credits (21 additional credits including MTH and PHY requirements)

**Core curriculum**

<table>

</tbody>
</table>
CHM 231  Fundamentals of Inorganic Chemistry  4
CHM 271  The Chemical Community  1
CHM 301  Analytical Chemistry  5
CHM 303  Organic Chemistry Theory I  3
CHM 304  Organic Chemistry Theory II  3
CHM 305  Organic Chemistry Laboratory  2
CHM 309  Physical Chemistry Theory I  3
CHM 310  Physical Chemistry Theory II  3
CHM 313  Physical Chemistry Laboratory  3
CHM 325  Fundamental Biochemistry  4
or CHM 417  Biochemistry I: Macromolecules
CHM 471  Capstone in Chemistry and Biochemistry  1

Research/laboratory requirement

Select one of the following three options  5-7
Option 1:
CHM 499  Research (two or more credits with a final graded paper)

or CHM 419  Advanced Biochemistry Lab
Two additional in-depth upper-level electives (see below for list)

Option 2:
CHM 499  Research (one credit with a final graded paper)
Two in-depth upper-level electives, one of which must have a laboratory component (see below for list)

Option 3:
Two in-depth upper-level electives with laboratory components (see below for list)

In-depth upper-level electives

CHM 314  Advanced Physical Chemistry Laboratory  2
CHM 322  Polymer Chemistry  1
CHM 323  Polymer Chemistry Laboratory  2
CHM 330  Industrial Chemistry  1
CHM 403  Advanced Organic Chemistry  1
CHM 405  Advanced Organic Synthesis  2
CHM 407  Biophysical Chemistry  1
CHM 412  Environmental Chemistry  1
CHM 418  Biochemistry II: Metabolism and Genetic Information  2
CHM 419  Advanced Biochemistry Lab  2
CHM 424  Spectroscopy  2
CHM 431  Advanced Inorganic Chemistry  1
CHM 441  Instrumental Analysis  2
CHM 461  Nuclear Chemistry  2

1  in-depth upper-level elective
2  in-depth upper-level elective with laboratory component

Required prerequisite courses (21 credits)
Select an additional 21 credits to meet prerequisites for required courses including the following:
MTH 207  Calculus I  5
MTH 208  Calculus II  4
MTH 310  Calculus III: Multivariate Calculus  4
PHY 203  General Physics I
& PHY 204  and General Physics II

In completing these degree requirements, chemistry majors must experience over 400 chemistry laboratory hours, beyond CHM 103.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 387)
- Baccalaureate degree requirements (p. 387)

College of Science and Health (SAH)
Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:
- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. 1 At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

**No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.**

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Chemistry Major with Environmental Science Concentration - Bachelor of Science (BS)

Students in this major are exempt from the College of Science and Health core requirements.

### Degree requirements

All students must complete the general education, college core (waived for chemistry majors with environmental science concentrations), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to
the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 391)

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits 58-61

Additional teacher education requirements are listed in the STEP program core (p. 515).

Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 392)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

1 Up to two credits of CHM 487 Peer Instruction and Learning in Chemistry (1 cr.) may count toward the major.
2 except CHM 100, CHM 250, CHM 320 and CHM 407

Teacher certification candidates must also complete GEO 200 Conservation of Global Environments (3 cr.) to fulfill statutory licensing requirements.
The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

General Science Education (Broad Field) Major (Early Adolescence-Adolescence Cert) - 2nd Major Only

Major requirements
Admission requirements for STEP Program (p. 515)
(Teacher certification programs: early adolescence-adolescence)

<table>
<thead>
<tr>
<th>Total Credits: 120</th>
</tr>
</thead>
</table>

1  See the STEP Admissions (http://www.uwlax.edu/Secondary-Teacher-Education-Preparation/Admission) website for details.
2  See the Office of Field Experience (http://www.uwlax.edu/SOE/For-teacher-candidates) for details about applying to student teaching.

Note: The completion of one certifiable minor is highly recommended instead of the completion of the 14 credit requirement.

Additional teacher education requirements are listed in the STEP Program core (p. 515).
Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 394)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

* Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Dual Degree Program in Chemistry and Engineering

Major requirements

Students with a chemistry major who also are interested in engineering are able to receive both a Bachelor of Science degree (chemistry major) from UW-La Crosse and a Bachelor of Science degree (engineering major) from UW-Madison or the University of Minnesota. At UW-La Crosse, students must complete a minimum of 87 credits, including the general education requirements and specific math and science courses in preparation for the engineering program. Students are recommended to include the following courses in their work at UW-La Crosse:

- CHM 103 General Chemistry I 5
- CHM 104 General Chemistry II 5
- CHM 271 The Chemical Community 1
- CHM 301 Analytical Chemistry 5
- CHM 303 Organic Chemistry Theory I 3
- CHM 304 Organic Chemistry Theory II 3
- CHM 305 Organic Chemistry Laboratory 2
- CHM 309 Physical Chemistry Theory I 3
- CHM 310 Physical Chemistry Theory II 3
- CHM 313 Physical Chemistry Laboratory 3
- CHM 471 Capstone in Chemistry and Biochemistry 1
- ECO 110 Microeconomics and Public Policy 3
- ECO 120 Global Macroeconomics 3
- ECO 336 Women in the U.S. Economy 3
- MTH 207 Calculus I 5
- MTH 208 Calculus II 4
- MTH 245 Probability and Statistics 4
- MTH 309 Linear Algebra with Differential Equations 4
- MTH 310 Calculus III: Multivariate Calculus 4
- PHY 203 General Physics I 4
- PHY 204 General Physics II 4

Students should consult with the chemistry department chair for specific course and sequence advising for this agreement.

Students who express interest in the dual degree program will be accepted into the UW-Madison or University of Minnesota portion of the program based on their GPA in all course work; their GPA in the chemistry, computer science, mathematics and physics course work required by the program; and the positive recommendation of the UW-La Crosse chemistry department chair (or designee). Qualified UW-La Crosse applicants are assured admission to the College of Engineering at either UW-Madison or the University of Minnesota.

In order to receive the B.S. degree (chemistry major) from UW-La Crosse, students also must complete the remaining 32 credits (to total a minimum of 120 credits) in engineering at UW-Madison or University of Minnesota and transfer these credits to UW-La Crosse. For the typical student, the remaining 32 credits must include at least eight credits at the 300 level or above. This transfer of credits and awarding of the B.S. degree by UW-La Crosse can take place as soon as the student earns the necessary credits.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 394)
- Baccalaureate degree requirements (p. 395)
College of Science and Health (SAH)  
Bachelor of Science core requirements  

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the mathematical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.  

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.  

For the Bachelor of Science degree, students must complete a major from the college plus:  

- a minor (or a second major) from any college or  
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.  

Baccalaureate degree requirements  

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:  

1. Fulfill the general education requirements.  
2. Complete at least one ethnic studies (diversity) course.  
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)  
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.  
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).  
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)  
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.  

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.  

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Electives in Chemistry 1  

Total Credits 25-28  

1 except CHM 100 and CHM 469  

Teacher certification candidates must also complete GEO 200 Conservation of Global Environments (3 cr.); in addition, early adolescence-adolescence candidates must complete CHM 469 Teaching and Learning Science in the Secondary School (4 cr.) unless a major in biology education or physics education is completed. Both courses fulfill statutory licensing requirements.  

Clinical Laboratory Science Program (CLI)  

College of Science and Health  
Department of Microbiology  
Program Director: Michael Lazzari  
3003 Cowley Hall, 608.785.6479  
Email: mlazzari@uwlax.edu  
www.uwlax.edu/microbiology/what-is-a-clinical-laboratory-scientist  

Clinical laboratory scientists perform complex biological, microbiological, and chemical tests on patient samples. They also use, maintain,
and troubleshoot sophisticated laboratory equipment that is used to perform diagnostic tests. Clinical laboratory scientists analyze these test results and discuss them with the medical staff. They also possess the skills required for molecular diagnostic tests based on DNA and RNA technologies. In addition, they find opportunities in test development, experimental design, administration, and education.

The curriculum requires a minimum of six semesters and a summer session on campus to complete the pre-professional and pre-clinical courses. Students spend an additional nine months of clinical education in a hospital-sponsored, accredited program during their senior year. A Bachelor of Science degree is awarded at the satisfactory completion of all required course work.

General education writing emphasis
This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. S3).

Major

• Clinical laboratory science - BS (p. 396)

Clinical Laboratory Science - Bachelor of Science (BS)

Major requirements
(Shool of Science and Health)

Clinical Laboratory Science admission policy

Admission to the clinical laboratory science major is on a competitive basis. Students apply for admission early in the spring semester of the academic year just prior to the beginning of their professional studies, typically in the sophomore year. Formal acceptance into the major, effective at the beginning of the fall semester is based on the submission of an application for admission to the major, personal recommendations, review of academic performance, and an interview with the program admission committee. A minimum cumulative grade point average of 2.75 is strongly recommended.

Admission to clinical requirement

The application process for the clinical year in the hospital-sponsored program is similar to the process required for acceptance to the clinical laboratory science major. Acceptance into the hospital program is not guaranteed by the university. The hospital programs affiliated with UW-L are accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS).

During the clinical component, in an accredited hospital program, students will register for (or be allowed to transfer in from Mayo’s CLS program) the equivalent of, at minimum, 31 UW-L credits. The clinical phase routinely begins in late August with anticipated graduation the following spring. Graduates of the program are eligible to sit for certification examinations offered by national certification agencies.

NAACLS accredited hospital affiliates of UW-L:
• Hennepin County Medical Center, Minneapolis, Minn.
• Saint Joseph’s Hospital/Marshfield Laboratories, Marshfield, Wis.
• Aspirus Wausau Hospital, Wausau, Wis.
• Affinity Health, Appleton, Wis.
• Mayo Clinic, College of Medicine, School of Health Sciences, Rochester, Minn.¹

UW-L is affiliated with the University of North Dakota, an accredited program, which provides access to many other hospital affiliates throughout the upper Midwest.

¹ Clinical laboratory science students who select to complete the required year-long clinical at the Mayo School of Health Sciences (MSHS) enroll at MSHS rather than at UW-La Crosse. The courses taken during the year-long clinical at MSHS meet UW-La Crosse CLI program requirements. The student must request an official transcript be sent to UW-La Crosse from MSHS. Upon successful completion of the clinical and all other graduation requirements, the students are awarded the Bachelor of Science degree from UW-La Crosse. The Mayo School of Health Sciences (MSHS) grants a Certificate of Completion in Clinical Laboratory Science.

Graduation requirements
Core courses in the pre-professional curriculum must be completed with a grade of "C" or above. UW-L students must meet all university graduation requirements including those for general education, college core, and university degree requirements. However, students in the clinical laboratory science major are exempt from the College of Science and Health core requirements.

Curriculum
93-105 credits including clinical phase

Pre-professional curriculum (39-46 credits)
All pre-clinical lab science program majors are strongly encouraged to take CLI 120 Introduction to Clinical Laboratory Science.

Biology Core
BIO 105 General Biology 4
BIO 306 Genetics 4
BIO 312 Human Anatomy and Physiology I 4
BIO 313 Human Anatomy and Physiology II 4

Chemistry Core
CHM 103 General Chemistry I 5
CHM 104 General Chemistry II 5
Select one of the following: 5-8
CHM 300 Survey of Organic Chemistry
CHM 303 Organic Chemistry Theory I
& CHM 304 Organic Chemistry Theory II
& CHM 305 Organic Chemistry Laboratory

Microbiology Core
MIC 230 Fundamentals of Microbiology 4

Mathematics Core
MTH 145 Elementary Statistics 4-8
MTH 150 College Algebra (or placement above MTH 150)

Total Credits 39-46
Pre-clinical lab science program students must have completed a substantial portion of these requirements in the semester that they apply for formal admission to the clinical lab science program major. Students who lack only a few credits are encouraged to consult the clinical lab science program advisor to determine when they should apply.

**Professional curriculum (54-59 credits)**

**Preclinical phase (on campus)**

**Degree requirements**

All students must complete the general education, college core (waived for clinical laboratory science majors), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 397)

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement.)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cscprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the
A student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Two sample plans are provided below. The first plan is for students who have placed into MTH 151 Precalculus, and the second example is for students who need MTH 150 College Algebra in their first semester.

Sample Plan 1 - students who placed into MTH 151

Computational Science Program (CMP)

In many scientific disciplines, direct computation has become the tool of first choice for studying and simulating phenomena. Adequate preparation for graduate study in the sciences now includes a background in computation. Moreover, undergraduates seeking employment with corporations involved in applying science often find themselves confronted with day-to-day use of computational methods.

The minor in computational science provides students an opportunity to distinguish themselves by augmenting their scientific studies with a background in computation. Similarly, computer science and mathematics students will be provided a new option to study scientific applications of their fields. The computational science minor is highly interdisciplinary, combining the study of computer science and mathematics with the study of specific problems in the sciences and the computational methods.
required for their solution. This minor is one of a handful in the U.S. at this time.

**Minor**
- Computational science minor (p. 399)

**Computational Science Minor**

**Minor requirements**

(All colleges, excluding teacher certification programs)

34-39 credits

**Additional requirements:**
- 12-16 credits
  1. One two-semester introductory sequence in natural science (BIO, CHM, ESC or PHY)
  2. Two courses in natural science (BIO, CHM, ESC, PHY) not from the same department as the preceding sequence
  3. One computational science advanced elective from the student’s primary major department
  4. One computational science advanced elective from outside the primary major department

**Total Credits**
- 34-39

**Computer Science Department (CS)**

*College of Science and Health*
Department Chair: Steven Senger
221 Wing Technology Center; 608.785.6805
Email: ssenger@uwln.edu

www.cs.uwlax.edu

You don’t have to be an expert with computers to be a computer science major! However, if you are a logical thinker and like to solve problems this may be the major for you. The curriculum for a computer science major at UW-La Crosse is both exciting and demanding. What will you do with the knowledge you’ve learned? You will become a world class problem solver. After learning the fundamental material in computer software, hardware and the theory of computing, you will be finding ways to make life better for people. Software is an integral part of our society in both visible and invisible ways. Take a look at some of the modern conveniences of our life: iPods, cell phones, video games, medical imaging systems, and engines. As you can see, the way we interact with information through software leaves very little that computer science does not touch.

With that said, we think there is no better place to pursue your degree than UW-La Crosse. Small class sizes and accessible professors give students a level of attention not available on larger campuses. We have outstanding faculty who have many different interests, but who all share a love for teaching. A history of talented students, great facilities and undergraduate research opportunities, make for an ideal learning environment. The Department of Computer Science at UW-La Crosse is the second oldest in Wisconsin, only behind Madison, and has a fine reputation within the computing industry during the past 30 years.

The job market for computer scientists has always had plenty of opportunities and the demand continues. The National Bureau of Labor Statistics, in its rolling ten-year horizon Occupational Outlook Handbook, consistently projects the software industry to be among the fastest growing sectors of the economy.

If you would like to find out more about computing, check out the Association for Computing Machinery’s (ACM) “Computing, Degrees and Careers. (http://computingcareers.acm.org)”

**Computer Science retroactive credit policy**

Students taking CS 220 Software Design II (4 cr.) and earning a “B” or better, will be given retroactive credit for CS 120 Software Design I (4 cr.) provided that the student’s transcript shows no record of prior or concurrent enrollment in CS 120 or CS 220.

**Computer Science internship policy**

Students majoring in computer science who wish to enroll in CEI 450 Cooperative Education/Internship (1-15 cr.) or CEI 475 University-wide Cooperative Education Internship (3-15 cr.), University Internships, must have completed 15 credits of computer science course work, including CS 220, and must have a minimum GPA of 2.50 in computer science courses to be eligible for departmental approval and supervision. Credits earned in internships do not apply to major or minor requirements.

**General education writing emphasis**

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

**2015-16 Faculty/Staff**

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

**Professor**
- Kenny Hunt
- Kasilingam Periyasamy
- David Riley
- Steven Senger

**Associate Professor**
- Thomas Gendreau
- Mao Zheng

**Assistant Professor**
- Martin Allen
- Andrew Berns

¹ may substitute MTH 225 for CS 225.

The 44 credits must include no less than 27 credits of 300/400 level courses. PHY 335, MTH 317 and/or MTH 371 may be used as part of the 44 credit major.

In addition to the 44 credits, MTH 207 Calculus I (5 cr.) and MTH 208 Calculus II (4 cr.) must be taken.

Degree requirements
All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 400)
• Baccalaureate degree requirements (p. 400)

College of Science and Health (SAH)
Bachelor of Science core requirements
B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

• a minor (or a second major) from any college or
• 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.¹ At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA¹ in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter...
intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Two sample plans are provided below. The first is for students taking MTH 151 Precalculus in the first semester; the second is for students taking MTH 207 Calculus I in the first semester. Also, discuss the merits of adding a minor with your advisor, as you would likely be advised to spread courses for your minor throughout the plan.

Sample Plan 1 - students taking MTH 151 in first semester

#### Computer science electives

10 credits (10 credits including MTH requirements)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Description</th>
<th>Credits</th>
</tr>
</thead>
</table>

The 42 credits must include no less than 24 credits of 300/400 level courses. PHY 335, MTH 317 and/or MTH 371 may be used as part of the 42 credit major. Game Development II (Western-152 182) may be completed at Western in place of CS 224.

In addition, MTH 207 Calculus I (5 cr.) and MTH 208 Calculus II (4 cr.) must be taken.

Students completing this program are not subject to the College of Science and Health requirement for an academic minor or 18 credits of course work at the 300/400 level in courses outside the major.

#### Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 402)

#### Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. ¹ At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA ¹ in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Students in the Computer Science Major - Computer Engineering Technology Emphasis begin at Western Technical College and transfer up to 60 credits prior to enrolling at UW-La Crosse. Below is a sample degree plan of the remaining 67 credits to be taken at UWL. This can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 121

1. See the STEP Admissions (http://www.uwlax.edu/Secondary-Teacher-Education-Preparation/Admission) website for details.
2. See the Office of Field Experience (http://www.uwlax.edu/SOE/For-teacher-candidates) for details about applying to student teaching.

**Dual Degree Program in Computer Science and Engineering**

**Major requirements**

Students with a computer science major who also are interested in engineering are able to receive both a Bachelor of Science degree (computer science major) from UW-La Crosse and a Bachelor of Science degree (engineering major) from UW-Madison. At UW-La Crosse, students must complete a minimum of 85 credits, including the general education requirements and specific math and science courses in preparation for the engineering program. Students are recommended to include the following courses in their work at UW-La Crosse:

- CHM 103: General Chemistry I
- CS 120: Software Design I
- CS 220: Software Design II
- CS 224: Introduction to Programming Language
- CS 225: Discrete Computational Structures
- CS 270: Assembler Programming and Introduction to Computer Organization
- CS 340: Software Design III: Abstract Data Types
- CS 341: Software Design IV: Software Engineering
- CS 370: Computer Architecture
- CS 421: Programming Language Concepts
- CS 441: Operating System Concepts
- CS 442: Structures of Compilers
- ECO 110: Microeconomics and Public Policy
- ECO 120: Global Macroeconomics
- ECO 336: Women in the U.S. Economy
- MTH 207: Calculus I
- MTH 208: Calculus II
- MTH 245: Probability and Statistics
- MTH 309: Linear Algebra with Differential Equations
- MTH 371: Introduction to Numerical Methods
- PHY 203: General Physics I
- PHY 204: General Physics II
- PHY 250: Modern Physics

1. may substitute MTH 225 for CS 225.

Students who express interest in the dual degree program will be selected for entrance into the UW-Madison portion of the program based on their GPA in all course work; their GPA in the chemistry, computer science, mathematics, and physics course work required by the program; and the positive recommendation of the UW-La Crosse computer science department chair (or designee). Qualified UW-La Crosse applicants are assured admission in the College of Engineering at UW-Madison.

In order to receive the B.S. degree from UW-La Crosse, students must also complete credits (to total a minimum of 120 credits) in engineering at UW-Madison and transfer these credits to UW-La Crosse. For the typical student, the remaining credits must include at least eight credits at the 300 level or above. This transfer of credits and awarding of the B.S. degree by UW-L can take place as soon as the student earns the necessary credits.

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 405)
- Baccalaureate degree requirements (p. 406)
College of Science and Health (SAH)

Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&LanguageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: this sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.
complete the following by the end of their junior year: a UW-L student to earn both a Bachelor of Science degree in Computer Science and a Master of Software Engineering (MSE) degree in five years. Students in this dual degree program should have graduate student status prior to registering for their fourth graduate course (normally in the second semester of their senior year). Award of the MSE degree will occur after the completion of the BS and MSE requirements.

**Major requirements**

The dual degree program in CS and Master of Software Engineering enables a UW-L student to earn both a Bachelor of Science degree with a computer science major and a Master of Software Engineering (MSE) degree in five years. Students in this dual degree program should complete the following by the end of their junior year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 120</td>
<td>Software Design I</td>
<td>4</td>

<td>4</td>
</tr>
<tr>
<td>Select nine credits of 300/400 level CS electives</td>
<td>9</td>
<td></td>
</tr>
</tbody>
</table>

During the senior year, students should complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 546</td>
<td>Object-Oriented Software Development</td>
<td>3</td>
</tr>
<tr>
<td>CS 741</td>
<td>Software Engineering Principles</td>
<td>3</td>
</tr>
<tr>
<td>CS 742</td>
<td>Formal Methods in Software Development</td>
<td>3</td>
</tr>
<tr>
<td>CS 743</td>
<td>Software Verification and Validation</td>
<td>3</td>
</tr>
<tr>
<td>Select three or six graduate level MSE electives</td>
<td>3-6</td>
<td></td>
</tr>
</tbody>
</table>

In the fifth year, students should complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 744</td>
<td>Management Issues in Software Engineering</td>
<td>3</td>
</tr>
<tr>
<td>Graduate level MSE electives</td>
<td>3-6</td>
<td></td>
</tr>
<tr>
<td>Capstone project</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

CS 546 and CS 741 will count toward the 44 credit hours of computer science courses required for the BS degree. CS 742, CS 743, CS 744, 12 credits of CS 798 (capstone project), and nine credits of MSE electives will fulfill the MSE requirements.

Students may be accepted into the dual degree program anytime before they have completed 75 undergraduate credit hours. Applicants for undergraduate admission to UW-L may request admission into the dual degree program. In order to remain in the program students must maintain a 3.00 GPA. Award of the BS degree will occur upon completion of 120 credits, the CS major requirements, the SAH college core requirements, and the general university requirements. Students must have graduate student status prior to registering for their fourth graduate course (normally in the second semester of their senior year). Award of the MSE degree will occur after the completion of the BS and MSE requirements.

Contact the Department of Computer Science (http://www.cs.uwlax.edu) for application information. See the online graduate catalog for more information about the MSE program (http://catalog.uwlax.edu/graduate/programrequirements/softwareengineering).

**Courses offered at both the undergraduate and graduate levels can only be taken for credit at one level.**

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 407)
- Baccalaureate degree requirements (p. 408)
- Master of Software Engineering requirements (http://catalog.uwlax.edu/graduate/programrequirements/softwareengineering/mse)

**College of Science and Health (SAH) Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE
The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(a) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

**This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.**

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. ¹ At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA ¹ in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

**No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.**
Students also have the option of taking Gen Ed courses during Winter Intersession (January between Fall and Spring semesters) and Summer to reduce the load during regular semesters (Fall and Spring).

Additional UW-L and College of Science and Health core courses may be required.

### Computer Science Minor

(All colleges, excluding teacher certification programs)

</table>

Electives (at least six of the electives must be 300/400 level computer science courses) 9

Total Credits 23

1 May substitute MTH 225 for CS 225.

PHY 335, MTH 317, and MTH 371 may be used as alternatives to computer science electives.

Early adolescence-adolescence teacher certification candidates must also complete MTH 421.

### Exercise and Sport Science Department (ESS)

College of Science and Health
Department Chair: Mark Gibson
124 Mitchell Hall; 608.785.8190
Email: mgibson@uwlax.edu

www.uwlax.edu/exercise-sport-science

With a reputation as one of the outstanding programs in the country, the UW-La Crosse Department of Exercise and Sport Science has a history of preparing quality professionals who are employed in all areas of the USA and around the world. With three areas of emphasis from which to choose, our graduates are well prepared to meet the challenges of a wide variety of careers.

Whether your interest is in teaching, coaching, fitness, or management, the Department of Exercise and Sport Science is committed to helping each student achieve his or her maximum potential. Each student is assigned a faculty adviser to assist with academic and career decisions. Our highly acclaimed “learn by doing” reputation is further enhanced by providing students with hands-on educational experiences in their area of choice. While maintaining a strong tradition in activities and the sciences, the department also emphasizes innovative programs and activities designed to maintain healthy, active lifestyles.

### Center of Excellence in Physical Education

The Center of Excellence designation was awarded to the Department of Exercise and Sport Science by the Board of Regents of the University of Wisconsin System. The purpose of the center, which reflects the excellent reputation of the department, is to serve as a catalyst for maintaining faculty and curricular vitality while expanding the scope of comprehensive services provided to professionals in Wisconsin and throughout the nation. General goals are to provide in-service and expertise in emerging content areas and technology to physical educators and students in professional preparation programs; modify undergraduate and master’s curricula to incorporate recent trends and projected professional needs and expand research and public service components with special emphasis on assessment.
A three-dimensional professional preparation model was developed with the following foci:

1. Enhancing life span motor development;
2. Promoting the major purposes of professional preparation in physical education—prevention of injury or illness, skill enhancement, meaningful active living, and rehabilitation; and
3. Developing instruments for assessment of performance and programs.

Additional emphasis is placed on the importance of movement of young children and on age-related changes in active, older adults to develop and maintain efficient movement throughout the lifespan. The professional preparation programs within the Department of Exercise and Sport Science prepare graduates to assist individuals of all ages in developing meaningful, active lifestyles. Improving the level of skill in a wide variety of activities and promoting effective movement patterns will result in more active and healthy individuals in our society. For additional information regarding the Center of Excellence in Physical Education, please contact: Department Chair, Exercise and Sport Science, Mitchell Hall, University of Wisconsin-La Crosse, La Crosse, WI 54601 USA

**Admission to programs**

All majors in the Department of Exercise and Sport Science have admission standards and retention and advancement standards. Students are advised to become aware of the application criteria for their major and may refer to program websites for the most detailed information regarding these criteria and procedures. Meeting minimum criteria does not guarantee admission, as the department programs have competitive admission processes.

**Exercise and sport science program transfer policy**

Students transferring into the exercise and sport science programs must have a cumulative GPA of 2.50 or higher at the time of transfer.

**General education writing emphasis**

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

**2015-16 Faculty/Staff**

Minor

• Adapted physical education teaching minor (p. 421)

Concentration

• Coaching competitive athletics concentration (p. 422)

Athletic Training Major - Bachelor of Science (BS)

The athletic training program at the University of Wisconsin-La Crosse was the first accredited athletic training program in the state of Wisconsin, and offers one of the most competitive, in-depth, and hands-on athletic training programs in the country. The Athletic Training Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The athletic training program has gained an excellent reputation for involving their athletic training students in various year-round athletic training opportunities.

Major requirements

(College of Science and Health)

Admission to program

Admission to the athletic training program is competitive and not all who apply can be accommodated. Admission requires an application/selection process for entry into ESS 181 Introduction to Sports Medicine. Enrollment in ESS 181 is limited to 35 candidates who will be considered for final selection into the program following completion of ESS 182 Prevention and Emergency Care for Athletic Trainers. Ten to fourteen (10-14) of the 35 candidates are selected at the end of the two-semester experience to enter the Commission on Accreditation of Athletic Training Education (CAATE) accredited undergraduate program. Application deadline for enrollment in ESS 181 is February 1 for consideration for each fall semester. Application materials may be obtained from the program website (http://www.uwlax.edu/Exercise-Sport-Science/Athletic-Training). Notification of acceptance into ESS 181 will be made by approximately April 1.

Students accepted to the athletic training educational program after the observational year may not participate in intercollegiate athletics secondary to scheduling conflicts with clinical and field experiences required in the educational program.

Consideration for selection into ESS 181 is based on the following criteria:

• Acceptance into the University of Wisconsin-La Crosse;
• Cumulative high school/university GPA;
• GPA in science and sports medicine related course work;
• SAT or ACT scores and rank in class;
• Strength of student’s athletic training commitment as reflected in letters of recommendation;
• Previous athletic training/sports medicine experience, extracurricular activities, and leadership experience.
• Evaluation of application by selection committee.

Retention and advancement

Students admitted into the athletic training education program must maintain a minimum 2.75 cumulative grade point average (GPA), a minimum of a 3.0 GPA in all course work in the major, and have clinical evaluation scores of 3.0 or above (5.0 scale). Failure to meet any one of these retention criteria requires the student to be on a probationary status. If the student does not meet all criteria in two consecutive semesters, the student will be removed from the program.

Curriculum

78 credits

HPR 105  Creating A Healthy, Active Lifestyle 1  3
ESS 181  Introduction to Sports Medicine 3
ESS 182  Prevention and Emergency Care for Athletic Trainers 3

Total Credits 78

1 This course may apply to the general education requirements.

Athletic training majors are advised to take BIO 105 General Biology (4 cr.) in order to satisfy prerequisites for other courses.
Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 412)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/bsp/csproduct.cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Must be accepted to athletic training observational year in order to enroll in ESS 181 and to be on track for four-year graduation plan. See the Athletic Training (http://www.uwlax.edu/Exercise-Sport-Science/Athletic-Training) website for more details.

Exercise and Sport Science
Major: Exercise Science Fitness
Track - Bachelor of Science (BS)

Major requirements
(College of Science and Health)

Admission to program

Admission to the exercise science emphasis is competitive and not all who apply may be accommodated.

1. To be considered for admission to the exercise and sport science major: exercise science emphasis, the student must have completed at least 30 semester credits, including general education credits and two pre-admission courses (BIO 100 or BIO 105 or MIC 100 and HPR 105) with a grade of at least "C" in each of these courses and a cumulative GPA of at least 2.75.

2. Applications are due October 1 to be considered for admission to the program for fall semester or February 1 to be considered for admission to the program spring semester. All candidates must meet academic requirements, physical fitness standards and professional and personal qualifications and be approved by the Exercise Science Selection Committee. Consideration for selection is based on the following criteria:
   a. Cumulative and major GPA;
   b. Fitness evaluation;
   c. Professional site visitations/observations;
   d. Extra-curricular experiences related to the emphasis;
   e. Writing skills; and
   f. Interview (fitness track only).

Retention and advancement

1. Once admitted, a 2.75 GPA (cumulative and major) must be maintained and a "C" grade or better must be earned in all required and elective major courses for retention in the program. Students whose GPA falls below 2.75 will be placed on probation for one semester. Failure to achieve a 2.75 GPA (cumulative and major) by the end of the probation semester will result in ineligibility to continue in the program.

2. To be admitted to ESS 450 Exercise and Sport Science Internship, students must achieve a 2.75 cumulative and major GPA and have successfully completed all program course work.

For complete details regarding application procedures, contact the Exercise Science Program Director in the Department of Exercise and Sport Science.

Curriculum

73 credits

Core courses:
(required for all ESS-exercise science emphasis students)
Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.\(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

This major is exempt from the SAH College Core requirement.

Select any 3 credit sociology course  

Total Credits: 30-31  

---  

1 Students must complete at least 40 credits in the 300/400 level range.  

General education requirements  

Exercise and sport science majors with the exercise science emphasis are required to take HPR 105. Students that select the pre-professional track must also take BIO 105, CHM 103, MTH 145, a second math course at the 150 level or higher or CS 101 or CS 120; and PHY 103. Additional general education courses must also be selected to complete all category requirements and to meet the university minimum requirement of 48 total credit hours in general education.  

---  

1 not including BIO 105, BIO 312, or BIO 313
Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 416)
- Baccalaureate degree requirements (p. 416)

College of Science and Health (SAH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to decrease the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits: 121

1. SOC 225 Racial and Ethnic Minorities (3 cr.) is a popular choice.
2. BIO 312 enrollment - requires a recommendation from the ESS-Exercise Science Program. Access to this class may be limited at times and/or students may encounter delays in satisfying the BIO 105 and CHM 103 prerequisites. For this reason, students may consider taking ESS 205 and ESS 206 instead of BIO 312 and BIO 313. However, students should consult with their faculty advisor prior to taking this alternative anatomy and physiology sequence.
3. Excluding BIO 105, BIO 312, and BIO 313.
4. MIC 100 Microbes and Society (4 cr.) is a popular choice.
5. PSY 100 satisfies the Gen Ed Self & Society requirement. Students might also consider taking PSY 212, which is not a Gen Ed class. Any three credit PSY course satisfies the PSY requirement in the ESS-exercise science pre-professional major.
6. The most efficient way to satisfy the College Core Upper Level Course requirement is to choose the “custom” minor option. With that option, BIO 312, BIO 313, and CHE 460 apply, along with nine additional credits of 300/400 level coursework from any department.

Exercise and Sport Science Major: Physical Education - Bachelor of Science (BS)

Major requirements

(Teacher certification programs)

Admission to PETE Program

Admission to the Physical Education Teacher Education Program (PETE) is competitive and successful completion of application requirements does not guarantee admission into the PETE program. Students who wish to be considered for acceptance into the program will be evaluated using the following criteria:

1. Physical fitness assessment reflection,
2. Grade point average in foundation courses ESS 112 Fundamentals of Movement 4
   ESS 118 Introduction to Physical Education Teaching Profession 2
   ESS 225 Introduction to Physical Education Teaching Methodology 3
   BIO 100 Biology for the Informed Citizen or BIO 105 General Biology or MIC 100 Microbes and Society 4
   HPR 105 Creating A Healthy, Active Lifestyle 3
3. 2.75 combined cumulative GPA (including transfer grade points),
4. Passing scores on a basic skills test (p. 512),
5. K-12 leadership involvement and reflection,
6. A satisfactory interview with PETE admission committee members, and
7. A criminal background check (p. 513).

Students are allowed to apply for PETE admission twice during their academic career at UW-L. Course substitutions may be authorized by the program director. Curriculum changes may result in a revision of courses and other criteria used as admission requirements.

Retention and advancement

Students admitted into the PETE program must maintain a 2.75 grade point average, and must successfully complete portfolio requirements. In order to enroll in student teaching and clinical courses, students must have earned and maintained a 2.75 combined cumulative GPA and a 2.75 GPA in the major, minor, concentration, and professional course work. Passing scores for the PRAXIS II Subject Assessment are required in each certification area prior to entering student teaching.

Aquatics and first aid certification

Exercise and sport science teaching majors must possess a current Water Safety Instructor (WSI) and American Red Cross First Aid or equivalent agency certification prior to student teaching.

| Educational Psychology (statutory requirements) |

**Total Credits: 12-18**

1 This course may apply to the general education requirements.

Physical education teacher certification majors and minors are required to take BIO 100 Biology for the Informed Citizen (4 cr.),1 or BIO 105 General Biology (4 cr.)1 or MIC 100 Microbes and Society (4 cr.),1 and HPR 105 Creating A Healthy, Active Lifestyle (3 cr.),1 to meet prerequisite requirements for advanced courses. It is recommended that all incoming first years wishing to major in exercise and sport science-teaching education enroll in ESS 112 Fundamentals of Movement (4 cr.) and ESS 118 Introduction to Physical Education Teaching Profession (2 cr.) during their first year at UW-L.

Teacher certification candidates should refer to additional teacher education policies (p. 509) identified in the School of Education section of this catalog. These policies apply to students in all teacher certification programs. The School of Education website (http://www.uwlax.edu/soe) also has additional information.

Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• Baccalaureate degree requirements (p. 418)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.1 At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA1 in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.
The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

Exercise and Sport Science Major: Sport Management Emphasis - Bachelor of Science (BS)

Major requirements
(College of Science and Health)

Admission to program

Admission to the sport management emphasis is competitive and not all who apply may be accommodated. From those applying each year, approximately 30 will be admitted into the sport management emphasis. To be considered for admission to the exercise and sport science major: sport management emphasis, the student must have:

1. Completed or be "in progress" of completing at least 30 semester credits, including general education credits and the two pre-admission core courses (BIO 100 or BIO 105 or MIC 100; ESS 110) with a grade of at least "C" in each of these core courses.
2. A cumulative UW-L GPA of 2.75.
3. Applications are due October 1 to be considered for admission to the program spring semester or February 1 to be considered for admission to the program for fall semester. All candidates must meet academic, professional involvement, and personal qualifications and be approved by the Sport Management Advisory Board. Consideration for selection is based on the following criteria:
   a. Cumulative UW-L GPA;
   b. Professional involvement;
   c. Professional site visitations/observations/work experiences;
   d. Writing skills; and
   e. Interview.

Total Credits: 124

1. See the PETE Admissions (http://www.uwlax.edu/Exercise-Sport-Science/Physical-Education-Teaching/#qt-2) website for details.
2. Teacher education majors are required to complete one Gen Ed physical science course with a lab (see WINGS Advisement Report for options).
3. ESS-physical education majors do not take the ESS 303 Biomechanics lab and enroll in the lecture only (2 credits).
4. See the Office of Field Experience (http://www.uwlax.edu/SOE/For-teacher-candidates) for details about applying to student teaching.

Exercise and Sport Science Major: Sport Management Emphasis - Bachelor of Science (BS)

Major requirements
(College of Science and Health)

Admission to program

Admission to the sport management emphasis is competitive and not all who apply may be accommodated. From those applying each year, approximately 30 will be admitted into the sport management emphasis. To be considered for admission to the exercise and sport science major: sport management emphasis, the student must have:

1. Completed or be "in progress" of completing at least 30 semester credits, including general education credits and the two pre-admission core courses (BIO 100 or BIO 105 or MIC 100; ESS 110) with a grade of at least "C" in each of these core courses.
2. A cumulative UW-L GPA of 2.75.
3. Applications are due October 1 to be considered for admission to the program spring semester or February 1 to be considered for admission to the program for fall semester. All candidates must meet academic, professional involvement, and personal qualifications and be approved by the Sport Management Advisory Board. Consideration for selection is based on the following criteria:
   a. Cumulative UW-L GPA;
   b. Professional involvement;
   c. Professional site visitations/observations/work experiences;
   d. Writing skills; and
   e. Interview.
Retention and advancement

1. Once admitted, a 2.75 GPA (cumulative and major) must be maintained and a “C” grade or better must be earned in all required and elective major courses for retention in the program. Students whose GPA falls below 2.75 will be placed on program probation for one semester. Failure to achieve a 2.75 GPA (cumulative and major) by the end of the probation semester will result in ineligibility to continue in the program.

2. To be admitted to ESS 450 Exercise and Sport Science Internship, students must achieve a 2.75 cumulative and major GPA and have successfully completed all program course work.

For complete details regarding application procedures, contact the Sport Management Program Director in the Department of Exercise and Sport Science.

### Adapted Physical Education Teaching Minor

(Exercise and sport science – physical education teaching)

**Admission**

Admittance into the minor requires physical education teacher education (PETE) program admission; a grade "BC" or higher in ESS 231; completion of required written application; and the approval of the coordinator of adapted physical education. Admission to the minor can occur during the same semester of admission to the PETE Program or any semester thereafter.

**Retention and advancement**

1. Earn a "C" grade or higher in all minor courses, except for ESS 439 in which a grade of "B" or higher must be attained.
2. Maintain a 2.75 GPA in all minor courses.

**Curriculum**

25 credits
Clinical/Student Teaching/Certification

Teacher candidates participate in a variety of adapted physical education clinical experiences (with students who have disabilities) that are associated with program requirements and course work in the minor, including student teaching in adapted physical education (completed during regular student teaching). Teacher candidates who successfully complete the minor along with requirements of the physical education teacher education program are eligible to receive the Wisconsin add-on Adapted Physical Education (WI #860, early childhood – adolescence) license. In order to receive the add-on license, a teacher candidate must also be licensed to teach general Physical Education (WI #530, early childhood – adolescence).

Coaching Competitive Athletics Concentration

Geography and Earth Science Department (GEO/ESC)

College of Science and Health
Department Chair: Cynthia Berlin
2004 Cowley Hall; 608.785.8333
Email: cberlin@uw腋.edu
www.uw腋.edu/geography-and-earth-science

Geography is the science of place and space. Geographers ask where things are located on the surface of the earth, why they are located where they are, how places differ from one another, and how people interact with the environment. There are two main branches of geography: human geography and physical geography. Human geography is concerned with the spatial aspects of human existence - how people and their activity are distributed in space, how they use and perceive space, and how they create and sustain the places that make up the earth's surface. Human geographers work in the fields of urban and regional planning, transportation, marketing, real estate, tourism, and international business. Physical geographers study patterns of climates, land forms, vegetation, soils, and water. They forecast the weather, manage land and water resources, and analyze and plan for forests, rangelands, and wetlands. Many human and physical geographers have skills in cartography and Geographic Information Systems (GIS). Geographers also study the linkages between human activity and natural systems.

Students who are considering studying geography and earth science will probably answer yes to one or more of the following questions: Are you curious about places? Do you like to study maps? Are you interested in the constantly changing pattern of human activity and natural phenomena on the landscape? Are you interested in foreign areas? Do you like to work outside? Are you a problem solver? Are you good at seeing connections among seemingly unrelated processes? Can you adapt to rapid technological change? Do you try to see the bigger picture? Are you interested in connections between humans and the environment?

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to
the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 424)
- Baccalaureate degree requirements (p. 424)

College of Science and Health (SAH) Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a foreign language at the 202 level or an ESL proficiency score of 80 or above on the La Crosse Battery of exams for non-native speakers of English. Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations. Students must also complete:

- a minor in the College of Liberal Studies or
- 15 credits at the 300/400 level in the College of Liberal Studies.

Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.¹ At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA¹ in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cslprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.¹ At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA¹ in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.
Year 3

**Fall** | **Credits** | **Spring** | **Credits**
--- | --- | --- | ---
GEO 200 (Gen Ed Global Studies) | 3 Geography Techniques (see list) (Writing Emphasis) OR SAH Core (300/400 not GEO/ESC) or Minor | 3 | 3
GEO 385 or ESC 385 | 3 Gen Ed Hum-Lit | 3 | 3
Geography Techniques (see list) (Writing Emphasis) OR SAH Core (300/400 not GEO/ESC) or Minor | 3 SAH Core (300/400 CLS elec) or CLS Minor | 3 | 3
Gen Ed Health & Well Being | 3 University 300/400 Elective | 3 | 3
Gen Ed Minority Cultures | 3 University 300/400 Elective | 3 | 3

**Year 4**

**Fall** | **Credits** | **Spring** | **Credits**
--- | --- | --- | ---
GEO 401 | 1 Physical Geography 300/400 (see list) | 3 | 3
Geography Techniques 300/400 (see list) (Writing Emphasis) | 3-4 Geography Techniques 300/400 (see list) | 3 | 3
SAH Core (300/400 CLS elec) or CLS Minor | 3 SAH Core (300/400 CLS elec) or CLS Minor | 3 | 3
University 300/400 Elective | 3 SAH Core (300/400 CLS elec) or CLS Minor | 3 | 3
University 300/400 Elective | 3 University 300/400 Elective | 3 | 3
University Elective | 2 | 4 | 4

Total Credits: 120

**Select three of the following:**
- ESC 211 Global Warming and Climate Change
- ESC 221 Introduction to Climate Systems
- ESC 222 Landforms: Processes and Regions
- GEO/ESC 422 Meteorology and Weather Forecasting
- GEO/ESC 425 Biogeography
- GEO/ESC 426 Soil Morphology and Genesis
- GEO/ESC 427 Water Resources
- GEO/ESC 430 Fluvial Geomorphology
- GEO/ESC 460 Environmental Hazards and Land Use

Select three of the following:
- GEO/ESC 345 Remote Sensing
- GEO/ESC 390 Geographic Field Methods
- GEO/ESC 440 Geographic Interpretation of Aerial Photographs
- GEO/ESC 445 Advanced Remote Sensing
- GEO 485 Advanced Geographic Information Science
- GEO 488 Spatial Data Analysis
- MTH 145 Elementary Statistics | 4 | 4
- CHM 103 General Chemistry I | 5 | 5
- BIO 105 General Biology | 4 | 4

Select one of the following:
- BIO 203 Organismal Biology | 4-5
- CHM 104 General Chemistry II

Three credits from the following may be applied to the major:
- GEO/ESC 450 Geography Internship
- GEO/ESC 490 Independent Study
- GEO/ESC 499 Undergraduate Research
- BIO 302 Introductory Plant Identification
- BIO 307 Ecology
- BIO 341 Limnology
- BIO 404 Plant Taxonomy
- HIS 317 American Environmental History
- CHM 301 Analytical Chemistry

Total Credits: 55-59

1 Only three credits from a combination of GEO/ESC 490 or GEO/ESC 499 will apply.

### Geography Major: Environmental Science Concentration - Bachelor of Science (BS)

#### Major requirements

(All colleges, excluding teacher certification programs)

38-40 credits (55-59 total credits including BIO, CHM and MTH requirements)

### Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 429)
- Baccalaureate degree requirements (p. 430)

### College of Science and Health (SAH)

**Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC...
222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the mathematical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&...) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 431)
- Baccalaureate degree requirements (p. 432)
College of Science and Health (SAH)

Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e., 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a foreign language at the 202 level or an ESL proficiency score of 80 or above on the La Crosse Battery of exams for non-natives of English. Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations. Students must also complete:

- a minor in the College of Liberal Studies or
- 15 credits at the 300/400 level in the College of Liberal Studies.

Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Total Credits 42-44

1 GEO 450, GEO 490, and GEO 499 must be GIS related.

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 433)
- Baccalaureate degree requirements (p. 434)
College of Science and Health (SAH)  
Bachelors of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.
8. Graduation GPA.
9. A minimum of 40 credits of the 120 credits required must be earned at the 300/400 level.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

GEO 401 Focus on Geography: A Capstone Course | 1 |
GEO 408 Teaching and Learning History & Social Studies in the Secondary School | 4 |

Electives in geography | 10 |

Total Credits | 40

Three credits of GEO 499 may be applied to the major.

Teacher certification candidates must also complete GEO 200 and EFN 200 to fulfill statutory licensing requirements. (Credits do not count toward the geography education major.)

Additional teacher education requirements are listed in the STEP program core (p. 515).

### Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 435)

#### Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Social Studies Education (Broad Field) Major (Early Adolescence-Adolescence Certification) - BS

Major requirements

Admission requirements for STEP Program (p. 515)
(Teacher certification program: early adolescence-adolescence)

54-64 credits

Choose either Option A (content major) or Option B (content minor) below:

Option A (content major) 57-64 credits

37-44 credit major in geography education, history education, political science education, or sociology education

20 credits, with a minimum of three credits, from any two of the following areas outside of the major:

- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

Total Credits 57-64

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. 

Candidates must also complete additional teacher education requirements listed in the STEP Program core (p. 515).

Option B (content minor) 54-60 credits

18-24 credit minor in one of the following:

- Economics Education
- Geography Education
- History Education
- Political Science Education
- Psychology Education
- Sociology Education

32 credits with a minimum of three credits from three of the subject areas outside of the minor selected from the following:

- Economics
- Geography
- History
- Political Science
- Psychology
- Sociology

Teaching and Learning History & Social Studies in the Secondary School 4

Total Credits 54-60

Note: Teacher certification candidates must also complete GEO 200 Conservation of Global Environments and EFN 200 Cooperatives to fulfill statutory licensing requirements. 

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Electives in geography 1
Total Credits
1 excluding GEO 408
Teacher certification candidates must also complete GEO 200 Conservation of Global Environments (3 cr.) and EFN 200 Cooperatives (1 cr.) to fulfill statutory licensing requirements (credits do not count toward the geography education minor); in addition, early adolescence-adolescence candidates must also complete GEO 408 Teaching and Learning History & Social Studies in the Secondary School (4 cr.) unless a major in social studies (broad field) education, history education, political science education, or sociology education is completed.

Earth Science Minor
(All colleges, excluding teacher certification programs)
24 credits

ESC 101  Earth Environments  4
ESC 221  Introduction to Climate Systems  4
ESC 222  Landforms: Processes and Regions  4
Select one of the following: 3
GEO/ESC 422  Meteorology and Weather Forecasting
GEO/ESC 425  Biogeography
GEO/ESC 426  Soil Morphology and Genesis
GEO/ESC 427  Water Resources
GEO/ESC 430  Fluvial Geomorphology
GEO/ESC 460  Environmental Hazards and Land Use
Select one of the following: 3
GEO/ESC 250  Maps and GIS
GEO/ESC 345  Remote Sensing
GEO/ESC 385  Introduction to Geographic Information System and Science
GEO/ESC 390  Geographic Field Methods
GEO/ESC 440  Geographic Interpretation of Aerial Photographs
Electives in earth science  6
Total Credits  25

Teacher certification candidates must also complete GEO 200 Conservation of Global Environments (3 cr.); in addition, early adolescence-adolescence candidates must complete BIO 469 Teaching and Learning Science in the Secondary School (4 cr.)/CHM 469 Teaching and Learning Science in the Secondary School (4 cr.)/PHY 469 Teaching and Learning Science in the Secondary School (4 cr.) unless a major in biology education, chemistry education, or physics education is completed. Both courses fulfill statutory licensing requirements.

Note: The earth science education minor may be used as partial fulfillment of the requirement for a second major in general science education (broad field) major.

Earth Science Education Minor
(Teacher certification programs)
25 credits

ESC 101  Earth Environments  4
ESC 221  Introduction to Climate Systems  4
ESC 222  Landforms: Processes and Regions  4
Select one of the following: 3-4
GEO/ESC 422  Meteorology and Weather Forecasting
GEO/ESC 425  Biogeography
GEO/ESC 426  Soil Morphology and Genesis
GEO/ESC 427  Water Resources
Select one of the following: 3
GEO/ESC 250  Maps and GIS
GEO/ESC 345  Remote Sensing
GEO/ESC 385  Introduction to Geographic Information System and Science
GEO/ESC 390  Geographic Field Methods
GEO/ESC 440  Geographic Interpretation of Aerial Photographs
Electives in earth science
Total Credits  25

Geography and Earth Science Honors Program

Program
1. Admission
   a. Junior standing
   b. 15 completed credits in the major
   c. 3.25 grade point average in the major and a 3.00 cumulative grade point average
   d. Recommendation by two faculty members in the department

2. Program
   a. Completion of the major program in Geography and Earth Science
   b. GEO 490 Independent Study (2-3 cr.)/ESC 490 Independent Study (2-3 cr.)
   c. GEO 495 Seminar in Geography/Earth Science (1-3 cr.)/ESC 495 Seminar in Geography/Earth Science (1-3 cr.) (Honors Seminar), 1 credit.

3. Evaluation
   a. Cumulative 3.50 grade point average in the major and a cumulative grade point of 3.00 at graduation
b. Distinguished performance on a paper/project in GEO 490 Independent Study (2-3 cr.)/ESC 490 Independent Study (2-3 cr.)
c. Presentation of paper/project to the faculty and students in the department.

Health Education and Health Promotion Department (HED/CHE/SHE/HWM)

College of Science and Health
Department Chair: R. Daniel Duquette
124 Mitchell Hall; 608.785.8161
Email: rduquette@uw lax.edu

www.uwlax.edu/health-education-and-health-promotion

Health education is a social science that draws from the biological, environmental, psychological, physical and medical sciences to promote health and prevent disease, disability and premature death by educating individuals and communities to voluntarily change their behaviors to improve their health and well-being. Health education is the development of individual, group, institutional, community and systemic strategies to improve health knowledge, attitudes, skills and behavior. The purpose of health education is to positively influence the health behavior of individuals and communities as well as the living and working conditions that influence their health.

Health Education and Health Promotion admission to program policy

All programs in the Department of Health Education and Health Promotion have academic policies and admission requirements. Students are advised to become aware of the application criteria for their program and may refer to program websites for the most detailed information regarding these criteria and procedures.

School health and community health programs academic policies

1. Students transferring into a health education program must have a cumulative GPA of 2.50 or higher at the time of transfer.
2. Students must follow the course sequences set up by the department.
3. Students must attain an overall 2.50 grade point average including all 100/200 level required courses before being admitted to the 300 level courses in health education.
4. Students must earn a grade of "C" or better in all required health education courses and the following courses:
   - BIO 100 Biology for the Informed Citizen 4
   - BIO 105 General Biology
   - HPR 105 Creating A Healthy, Active Lifestyle 3
   Select one of the following: 6-8
   - ESS 205 & ESS 206 Human Anatomy and Physiology for Exercise Science I and Human Anatomy and Physiology for Exercise Science II
   - BIO 312 & BIO 313 Human Anatomy and Physiology I and Human Anatomy and Physiology II

Admission requirements for school health education majors and minors (p. 443)
Admission requirements for community health education majors (p. 441)
Admission requirements for health and wellness management majors (p. 445)

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Professor
R. Daniel Duquette
Gary Gilmore

Associate Professor
Tracy Caravella
Keely Rees
Michele Pettit

Assistant Professor
Robert Jecklin
Lori Reichel
Karen Skemp
Emily Whitney
Anders Cedergren

Lecturer
Gail McCormick

Associate Lecturer
Katie Wagener

Administrative Support
Sandra Vinney

Majors

- Community health education- BS (p. 441)
- School health education - BS (p. 443)
- Health and wellness management - BS (p. 445)
Minors

• School health education minor (early childhood-adolescence certification) (p. 446)
• School health education minor (elementary-middle level education program) (p. 447)

Community Health Education - Bachelor of Science (BS)

Major requirements

Admission to program

1. Community health education majors must submit an application for program admission and for enrolling in the community health education core courses. Prior to applying, the following courses must be completed with a grade of "C" or better (see below).

2. A UWL cumulative GPA of 2.50 or better is required in order to be considered for admission to the community health education program.

3. Community health education majors must meet the following additional requirements for admission to the community health preceptorship: apply for and receive the recommendation of the community health education faculty; achieve a minimum 2.75 cumulative and major GPA; successfully complete all required course work.

HPR 105 Creating A Healthy, Active Lifestyle 3
CHM 100 Contemporary Chemistry 4
or CHM 103 General Chemistry I
MIC 100 Microbes and Society 4
or MIC 130 Global Impact of Infectious Disease
MTH 145 Elementary Statistics 4
BIO 100 Biology for the Informed Citizen 4
or BIO 105 General Biology
Select one of the following: 6-8
ESS 205 & ESS 206 Human Anatomy and Physiology for Exercise and Human Anatomy and Physiology for Exercise Science I

HED 205 Introduction to Health and Wellness Education 3
CHE 200 Public Health for the Educated Citizen 3
CHE 204 Introduction to Global Health 3
CHE 240 Community Health Education Foundations 3
Any three credit psychology/sociology course 3

Curriculum

(All colleges)

71 Credits (95 credits, including interdisciplinary requirements)

CHE core (71 credits)

HED 205 Introduction to Health and Wellness Education 3
HED 320 The U.S. Health Care System 3
HED 335 Human Ecology and Environmental Health 3
HED 345 Issues in Mental and Emotional Health 3
HED 425 Violence and Injury Prevention 3
HED 437 Theories of Health Behavior 3
HED 441 Human Disease Prevention and Control 3
HED 469 Drugs, Society and Human Behavior 3
HED 472 Sexual Health Promotion 3
HED 473 Health Aspects of Aging 3
HED 474 Nutrition Education 3
HED 477 Grant-seeking in Health, Human Services and Education Programs 3
CHE 200 Public Health for the Educated Citizen 3
CHE 204 Introduction to Global Health 3
CHE 240 Community Health Education Foundations 3
CHE 340 Epidemiology and Community Health Problems 3
CHE 350 Biometry and Research Design 3
CHE 440 Program Development in Community Health Education 3
CHE 491 Senior Seminar in Community Health Education 2
CHE 498 Community Health Education Preceptorship 15

Interdisciplinary requirements applicable to general education (15-17 credits)

HPR 105 Creating A Healthy, Active Lifestyle 3
BIO 100 Biology for the Informed Citizen 4
or BIO 105 General Biology
MIC 100 Microbes and Society 3-4
or MIC 130 Global Impact of Infectious Disease
CHM 100 Contemporary Chemistry 4-5
or CHM 103 General Chemistry I
MTH 145 Elementary Statistics 4

Other interdisciplinary requirements (6-8 credits)

Select one of the following:
ESS 205 & ESS 206 Human Anatomy and Physiology for Exercise Science I and Human Anatomy and Physiology for Exercise Science II 6

HED 205 Introduction to Health and Wellness Education 3
CHE 200 Public Health for the Educated Citizen 3
CHE 204 Introduction to Global Health 3
CHE 240 Community Health Education Foundations 3

Degree requirements

All students must complete the general education, college core (waived for community health education majors), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• Baccalaureate degree requirements (p. 441)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.

5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

1. See also the CHE admission policy (p. 441) for admission requirements.

2. MIC 130 is recommended to fulfill both the Gen Ed Global requirement and the CHE microbiology requirement to reduce total degree credits.

3. Student should work with faculty advisor to determine an appropriate preceptorship site.
School Health Education - Bachelor of Science (BS)

Major requirements
School Health admission to program policy

School health education majors and minors must meet the following additional requirements:

1. Apply for admission to teacher education;
2. Achieve a minimum 2.50 cumulative GPA to be admitted to teacher education;
3. Successfully complete a basic skills test (p. 512);
4. Achieve a minimum 2.75 combined cumulative GPA and a 2.75 GPA in professional preparation courses and major or minor course sequence to student teach;
5. Achieve a combined cumulative 2.75 GPA and successful completion of departmental exit portfolio reviewed by school health education faculty to be licensed by the state to teach.

1 These courses also may fulfill general education requirements.
2 Waived for physical education majors.

Students should refer to policies identified in the School of Education section (p. 509) in this catalog, as they apply to students in all teacher certification programs. In addition, more teacher education information is on the School of Education website (http://www.uwlax.edu/soe).

Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 443)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her
final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

1 See also the SHE admission policy (p. 443) for admission requirements.
2 School health education majors select one of the following Gen Ed Minority Cultures courses: ERS 100, HIS 306, SOC 225, or WGS 230.
3 EFN 205 is required for school health education majors.
4 Teacher education majors are required to complete one Gen Ed physical science course--with a lab (see WINGS Advisement Report for options).
5 See the Office of Field Experience (http://www.uwlax.edu/SOE/For-teacher-candidates) for details about applying to student teaching.
Health and Wellness Management - Bachelor of Science (BS)

The Health and Wellness Management Program is a 63 credit collaborative (UW-River Falls, UW-Superior, UW-Stevens Point, and UW-La Crosse) online degree completion program.

Major requirements

Admission

Students should have completed 60 credits or earned an Associate degree in order to enroll in the program. Students will need to have satisfied UW System minimum general education breadth requirements as stipulated in the UW System Associate Degree Transfer Policy. Prerequisites for admission will be Introduction to Biology, Introductory Communications, English Composition, and Introduction to Psychology, or their equivalents, passed with grades of "C" or better. Each student must identify a home campus (River Falls, Superior, Stevens Point, La Crosse) and will apply to that campus; upon acceptance the student will be subject to all graduation requirements of that campus.

Students enrolled in the Health and Wellness Management Program will be exempt from the College of Science and Health curriculum core.

Total Credits 63

1 HWM 495 Capstone in Human Health and Wellness (cr. 3) is changing to HWM 496 (cr. 6) at the start of the Fall 2015 semester. The new description is as follows:

HWM 496 Cr.6
Health and Wellness Capstone

Using a case study, students will create the essential components of a strategic plan for a comprehensive corporate wellness program. Students will present their strategic plan and also engage in fieldwork placement (minimum 100 hours) in their communities to gain experience in health and wellness management. Prerequisite: HWM 460; HWM 470; HWM 475; HWM 480. Consent of department. Offered Fall, Spring, Summer.

Degree requirements

All students must complete the general education, college core (waived for health and wellness management majors), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 445)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.1 At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.
Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

School Health Education Minor for Early Childhood-Adolescence Certification

School Health admission to program policy

School health education majors and minors must meet the following additional requirements:

1. Apply for admission to teacher education;
2. Achieve a minimum 2.50 cumulative GPA to be admitted to teacher education;
3. Successfully complete a basic skills test (p. 512);
4. Achieve a minimum 2.75 combined cumulative GPA and a 2.75 GPA in professional preparation courses and major or minor course sequence to student teach;
5. Achieve a combined cumulative 2.75 GPA and successful completion of departmental exit portfolio reviewed by school health education faculty to be licensed by the state to teach.

consult that program for advice regarding transfer. Student participation in each program is governed by program specific policies that can be obtained directly from the program.

Each of the Health Professions Department programs requires students to have a criminal background check prior to beginning professional course work. These are required by health care institutions that students will be attending during their program. Unacceptable criminal background checks may jeopardize the student’s ability to complete their professional program. Further information about the criminal background check is available on each program’s website.

2015-16 Faculty/Staff

The following is the department’s general staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Email: rledocq@uwla.ax

www.uwlax.edu/mathematics

The Department of Mathematics consists of twenty-eight teacher-scholars who are dedicated to excellence in undergraduate education. In addition to our teaching program, department members are engaged in a variety of scholarship, research, and professional service activities including: conducting traditional research-scholarship, supporting undergraduate mathematics research programs, participating in national mathematics organizations, and performing middle/ high school mathematics outreach activities. Research interests within the department include algebra, analysis, combinatorics, fluid dynamics, graph theory, harmonic analysis, logic, mathematics education, numerical analysis, and statistics.

As one of the traditional academic disciplines, mathematics is an integral part of the liberal arts education and is the foundation for many areas of study. In filling many roles at UW-La Crosse, the Department of Mathematics serves a diverse group of students; we nurture all liberal arts students, give students a solid foundation from which to study both the natural and social sciences, provide the tools needed by students in professional programs, and cultivate mathematics majors. We strive to prepare our majors and minors for careers in teaching, business, industry, government, and graduate study.

Department members regard mathematics as an interesting and lively subject, and an accessible major or minor for any student. Mathematics has both an aesthetic and a practical appeal; the enjoyment of problem solving, abstract thinking, and structural beauty draws many to mathematics, while the challenge and satisfaction of using mathematics to solve real world problems provides an equally strong appeal. If you enjoy mathematics and want to learn more, we invite you to come study with us.

Mathematics credit by examination policy

The Department of Mathematics awards credit by examination in MTH 150 College Algebra (4 cr.); MTH 151 Precalculus (4 cr.); MTH 207 Calculus I (5 cr.); and MTH 208 Calculus II (4 cr.). The exams may be taken by new first years and are scheduled for the second week of semester I. Students may not earn credit by examination in both MTH 150 and MTH 151. Credit for MTH 145 Elementary Statistics (4 cr.) will be granted to entering first years with a College Board Advanced Placement Statistics Examination score of 3 or better. Credit for MTH 207 will be granted to entering first years with a College Board Advanced Placement AB exam score of 4 or better. Entering first years with a score of 3 on the BC Calculus examination are awarded credit for MTH 207; students with a score of 4 or 5 on the BC Calculus examination are awarded credit for both MTH 207 and MTH 208.

Mathematics retroactive credit policy

Students taking MTH 207 Calculus I, MTH 208 Calculus II, MTH 309 Linear Algebra with Differential Equations, or MTH 310 Calculus III: Multivariate Calculus, and earning a grade of “B” or better, will be given retroactive credit for MTH 151 Precalculus (4 cr.) provided that the student’s transcript shows no record of prior or concurrent enrollment in MTH 151, MTH 207, MTH 208, MTH 309, or MTH 310.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must complete:

- Second Language Institute (http://www.uwlax.edu/esl) for eligibility and of exams for non-native speakers of English. Contact the English as or an ESL proficiency score of 80 or above on the La Crosse Battery
- One of the two science courses must be from a department outside the math/logical systems category of the general education requirements (GE
- At least 40 credits must be earned in 300/400 level.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
- Complete a major or minor requirements with at least a 2.00 GPA1 in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
- A grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

### General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/ or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

### Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.1 At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA1 in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

### Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

### General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/ or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can substitute CS 225 for MTH 225.

## College of Science and Health (SAH) Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a foreign language at the 202 level or an ESL proficiency score of 80 or above on the La Crosse Battery of exams for non-native speakers of English. Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations. Students must also complete:

- a minor in the College of Liberal Studies or
- 15 credits at the 300/400 level in the College of Liberal Studies. Internship credits generally do not count toward this college core option.

Total Credits: 36

1 may substitute CS 225 for MTH 225.

In addition CS 120 Software Design I (4 cr.) must be taken.

#### Degree Requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 451)
- Baccalaureate degree requirements (p. 452)

### College of Science and Health (SAH)

#### Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE
05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the mathematical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34.).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term.

Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/ or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Two samples plans are given. The first is a typical layout for navigating the mathematics major. The second suggests specific courses and additional math electives for students interested in pursuing graduate studies in the mathematics area.

Sample Plan 1 - typical layout

| Year 1          | Fall                      | Credits | Spring                      | Credits |
|-----------------|---------------------------|---------|-----------------------------|---------|  |
| MTH 207 (Gen Ed Math) | 5 MTH 208 (Gen Ed Math) | 4       | PHY 203 (or other Gen Ed Natural Lab Science) | 4       |  |
| PHY 203 (or other Gen Ed Natural Lab Science) | 4 PHY 204 (or other Natural Lab Science) | 3 |

may substitute CS 225 for MTH 225.

Two of these credits may be met by completing one of the following courses: CHM 310 Physical Chemistry Theory II (3 cr.), CS 453 Introduction to Theory of Computation (3 cr.), PHY 470 Advanced Quantum Mechanics (3 cr.), PHY 474 Advanced Computational Physics (4 cr.)

In addition, CS 120 Software Design I (4 cr.) must be taken.

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 454)
- Baccalaureate degree requirements (p. 454)

**College of Science and Health (SAH)**

**Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

**Notes:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merits.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

College of Science and Health (SAH)

Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:
• a minor (or a second major) from any college or
• 18 credits at the 300/400 level in courses outside the major
department from any college. Internship credits generally do not count
toward this college core option.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees
must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum
Committee for the degree desired in the respective school or
college. (No substitutions for graduation may be made in course
requirements for a major or minor after the fourth week of the last
semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00
cumulative GPA.¹ At least 40 credits must be earned in 300/400
(senior college) level courses. Courses earned at the 100/200 level
that transferred to UW-L as 300/400 level courses do not apply to
this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00
GPA¹ in each major and minor (and concentration or emphasis, if
selected).
6. A minimum of 30 semester credits in residence at UW-L is required
for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS
Student Center as soon as the student has registered for his or her
final semester or summer term in residence. December and winter
intersession graduates should file by May 1. May and summer
graduates should file by December 1.

¹ Grade point average requirements for some programs will be
considerably higher than 2.00. Re-entering students may be required
to earn credits in excess of the 120 needed for graduation in any
curriculum in order to replace credits earned in courses in which the
content has changed substantially in recent years. Each case will be
judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and
recorded within 30 days after the official ending date of each term.

Sample degree plan
Below is a sample degree plan that can be used as a guide to identify the
courses required to complete the major and other requirements needed
for degree completion. The actual degree plan may differ depending on
the course of study selected (second major, minor, etc.). This sample
plan also assumes readiness for each course and/or major plan. Actual
degree plans may differ. Some courses may not be offered every term.
Review course descriptions or the class timetable for course offering
information.

The sample degree plans represented in this catalog are intended for
first-year students entering UW-L in the fall term. Students should use the
Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?
.cmd=login&amp;languageCd=ENG&amp;) and work closely with their
faculty advisor(s) and college dean’s office to ensure declaration and
completion of all requirements in a timely manner.

General Education Program
General education (Gen Ed) is the common educational experience
for all undergraduates at UW-L. Sample degree plans include Gen Ed
placeholders to ensure completion of the general education curriculum.
Courses may be rearranged to fit the needs or recommendations of the
student’s program of study. Gen Ed courses may be taken during winter
term (January between the semesters) and summer to reduce the course
load during regular terms (fall and spring). Consult with your advisor and/
or the assistant to the dean in your college for assistance with course and
schedule planning. Refer to the general education requirements (p. 53)
for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the
300/400 level.

This sample degree plan does not establish a contractual agreement.
It identifies the minimum requirements a student must successfully
complete, to qualify for a degree, in a format intended to assist the
student plan their academic career.

The mathematics major with an emphasis in education does not by
itself lead to teacher certification. Refer to the mathematics education
major which includes the STEP teacher certification requirements if a
teaching license is desired.

Total Credits: 41

In addition, CT 100 or CS 120 (3-4 credits) is required.

Additional teacher education requirements are listed in the STEP program core (p. 515).

Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 457)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term.

1 may substitute CS 225 for MTH 225.
Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

must accomplish the following:

Candidates for the Bachelor of Arts or the Bachelor of Science degrees
Baccalaureate degree requirements

from the college plus:

For the Bachelor of Science
use two science courses from same department. Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can
Note: of the student's major department.
02). One of the two science courses must be from a department outside
math/logical systems category of the general education requirements (GE
222, PHY 104, or PHY 204, and they either must take two mathematics
courses or one math course and one computer science course from the
math/logical systems category of the general education requirements (GE
02). One of the two science courses must be from a department outside
of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

• a minor (or a second major) from any college or
• 18 credits at the 300/400 level in courses outside the major
department from any college. Internship credits generally do not count
toward this college core option.

Baccalaureate degree requirements
Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.

In addition, CS 120 Software Design I must be taken.

Students may not double major in mathematics and statistics.

Degree requirements
All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• College core (p. 459)
• Baccalaureate degree requirements (p. 459)

College of Science and Health (SAH)
Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

• a minor (or a second major) from any college or

Total Credits: 120

In addition, CS 120 Software Design I must be taken.

Students may not double major in mathematics and statistics with concentration in actuarial science.

### Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 460)
- Baccalaureate degree requirements (p. 461)

### College of Science and Health (SAH)

**Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.
For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Dual Degree Program in Mathematics and Engineering

Major requirements

Students with a math major who are also interested in engineering are able to receive both a Bachelor of Science (mathematics major) from UW-La Crosse and a Bachelor of Science (engineering major) from UW-Madison. At UW-L, students must complete a minimum of 85 credits, including the general education requirements and specific math and science course in preparation for the engineering program. Students are recommended to include the following courses in their work at UW-L:

- CHM 103 General Chemistry I 5
- CHM 104 General Chemistry II 5
- CS 120 Software Design I 4
- ECO 110 Microeconomics and Public Policy 3
- ECO 120 Global Macroeconomics 3
- ECO 336 Women in the U.S. Economy 3
- MTH 207 Calculus I 5
- MTH 208 Calculus II 4
- MTH 225 Logic and Discrete Mathematics 4
- MTH 245 Probability and Statistics 4
- MTH 309 Linear Algebra with Differential Equations 4
- MTH 310 Calculus III: Multivariate Calculus 4
- MTH 353 Differential Equations 3
- MTH 371 Introduction to Numerical Methods 3
- MTH 480 Studies in Applied Mathematics 3
- MTH 440 Mathematical Physics 3
- PHY 203 General Physics I 4
- PHY 204 General Physics II 4
- PHY 321 Classical Mechanics 3

Students interested in industrial engineering should add ACC 221 Accounting Principles I (3 cr.). Students should consult with the mathematics department chair for specific course and sequence advising for this agreement.

In order to receive the B.S. degree (mathematics major) from UW-L, students have two options:

1. Complete the selected engineering program at UW-Madison, or

2. Complete applicable math courses at UW-Madison to satisfy the remaining math electives required for mathematics major at UW-L.

In either case the student would then transfer these credits to UW-La Crosse. For the typical student, the remaining credits must include 10-13 credits at the 300 level or above. This transfer of credits and awarding of the B.S. degree (mathematics major) by UW-L can take place as soon as the student demonstrates completion of math courses at UW-Madison to meet UW-L mathematics electives requirements or the completion of the engineering sequence at UW-Madison.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 462)
- Baccalaureate degree requirements (p. 462)

College of Science and Health (SAH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e., 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Mathematics Minor**

(All colleges, excluding middle childhood-early adolescence certification program)

**Statistics Minor**

(All colleges)
The microbiology major is housed within the Department of Microbiology and provides students an extensive curriculum with a strong laboratory emphasis. The Department of Microbiology faculty have obtained over one million dollars in educational grants to ensure that teaching laboratories are equipped with the latest equipment. Microbiology majors receive more laboratory instruction than any other major on campus, which results in exceptionally high employability.

**Center of Excellence in Microbiology**

The University of Wisconsin System and the Board of Regents have identified the microbiology program at UW-L as a Center of Excellence based on the exceptional quality of the undergraduate laboratory science education. The microbiology program has been nationally recognized for the overall quality of the program and prepares its graduates for a diversity of professional opportunities at the baccalaureate level.

Since the inception of a major in 1984, more than 95 percent of the microbiology graduates interested in employment have obtained positions in hospitals, clinics, private laboratories, food and fermentation industries, biotechnology companies, pharmaceutical industries, universities, and government agencies.

Microbiology is also an excellent curricular track to prepare students for graduate or professional schools (medical, dental, veterinary, optometry). The microbiology major is housed within the Department of Microbiology and provides students an extensive curriculum with a strong laboratory emphasis. The Department of Microbiology faculty have obtained over one million dollars in grant funding within the past decade to ensure that students gain experience in the latest state-of-the-art techniques. Students may choose from an extensive list of microbiology electives and tailor their major to meet their career goals. In addition to the microbiology major, the department also offers microbiology majors with concentrations in biomedical, business, and environmental science for students wishing to focus in these areas.

All microbiology majors receive individual counseling throughout their undergraduate years. The faculty have active research programs providing abundant opportunities for undergraduate research. In addition, numerous internships are available with local and regional laboratories for microbiology majors. An active microbiology club affiliated with the American Society for Microbiology enhances the educational experience. For additional information regarding the Center of Excellence in Microbiology, contact the microbiology department chair, Cowley Hall, University of Wisconsin-La Crosse, La Crosse, WI 54601 USA.

**General education writing emphasis**

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

**2015-16 Faculty/Staff**

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

**Professor**

Michael Hoffman

William Schwan

**Associate Professor**

Bonita Bratina

Candidates for the Bachelor of Arts or the Bachelor of Science degrees from the college plus:

- Use two science courses from the same department.
- Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses or one math course and one computer science course from the general education laboratory science category (GE 02). One of the two science courses must be from a department outside of the student’s major department.

- General education (p. 53)
- College core (p. 466)
- Baccalaureate degree requirements (p. 466)

### College of Science and Health (SAH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the mathematics/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from the same department.

**For the Bachelor of Science degree,** students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this core college option.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

### Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG); and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

**Note:** at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

1 Or BIO 306, BIO 312, or BIO 315 in appropriate semester. Please consult with adviser.
2 Or CHM 303, CHM 304, or CHM 305.
3 Or CHM 417 and CHM 418.

Microbiology Major: Biomedical Concentration - Bachelor of Science (BS)

Major requirements
(All colleges, excluding teacher certification programs)

38 microbiology/biology credits (65 total credits including requirements outside BIO/MIC)

Biology core
BIO 105 General Biology 4
BIO 312 Human Anatomy and Physiology I 4

Microbiology core
MIC 230 Fundamentals of Microbiology 4
MIC 310 Immunology 3
MIC 407 Pathogenic Bacteriology 4
MIC 410 Immunology Laboratory 2
MIC 416 Microbial Genetics 5
MIC 425 Bacterial Physiology 5
MIC 461 Capstone in Microbiology 1

Microbiology/biology electives
Select at least three credits from List I, a maximum of two credits from List II: (see Electives list below) 6

Additional requirements
Select one course in math, MTH 145 or above 4-5
Select one course in physics: 4

PHY 125 Physics for the Life Sciences
PHY 104 Fundamental Physics II
PHY 204 General Physics II
Select a minimum of 19 credits of chemistry including: 19

CHM 103 General Chemistry I
CHM 104 General Chemistry II
Select one of the following:
CHM 300 Survey of Organic Chemistry
CHM 303 Organic Chemistry Theory I & CHM 304 and Organic Chemistry Theory II & CHM 305 and Organic Chemistry Laboratory
Select one of the following:
CHM 325 Fundamental Biochemistry
CHM 417 Biochemistry I: Macromolecules & CHM 418 and Biochemistry II: Metabolism and Genetic Information

Total Credits 65

The physics series PHY 103/PHY 104 or PHY 203/PHY 204 may be required for students pursuing graduate or professional degrees.

Electives

List I

MIC 440 Bioinformatics 2

List III
must accomplish the following:

Candidates for the Bachelor of Arts or the Bachelor of Science degrees

Baccalaureate degree requirements

from the college plus:

For the Bachelor of Science
use two science courses from same department.

Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can

Note:

of the student’s major department.

222, PHY 104, or PHY 204, and they either must take two mathematics
courses or one math course and one computer science course from the
math/logical systems category of the general education requirements (GE
02). One of the two science courses must be from a department outside
the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can
use two science courses from same department.

For the Bachelor of Science degree, students must complete a major
from the college plus:

• a minor (or a second major) from any college or
• 18 credits at the 300/400 level in courses outside the major
department from any college. Internship credits generally do not count
toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees
must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum
Committee for the degree desired in the respective school or
college. (No substitutions for graduation may be made in course
requirements for a major or minor after the fourth week of the last
semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00
cumulative GPA. At least 40 credits must be earned in 300/400
(senior college) level courses. Courses earned at the 100/200 level
that transferred to UW-L as 300/400 level courses do not apply to
this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00
GPA in each major and minor (and concentration or emphasis, if
selected).

6. A minimum of 30 semester credits in residence at UW-L is required
for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed “Apply for Graduation” form via the WINGS
Student Center as soon as the student has registered for his or her
final semester or summer term in residence. December and winter
intersession graduates should file by May 1. May and summer
graduates should file by December 1.

1 Grade point average requirements for some programs will be
considerably higher than 2.00. Re-entering students may be required
to earn credits in excess of the 120 needed for graduation in any
curriculum in order to replace credits earned in courses in which the
content has changed substantially in recent years. Each case will be
judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and
recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the
courses required to complete the major and other requirements needed
for degree completion. The actual degree plan may differ depending on
the course of study selected (second major, minor, etc.). This sample
plan also assumes readiness for each course and/or major plan. Actual
degree plans may differ. Some courses may not be offered every term.
Review course descriptions or the class timetable for course offering
information.

The sample degree plans represented in this catalog are intended for
first-year students entering UW-L in the fall term. Students should use the
Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cswprod/?
cmd=login&languageCd=ENG) and work closely with their
faculty advisor(s) and college dean’s office to ensure declaration and
completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience
for all undergraduates at UW-L. Sample degree plans include Gen Ed
placeholders to ensure completion of the general education curriculum.
Courses may be rearranged to fit the needs or recommendations of the
student’s program of study. Gen Ed courses may be taken during winter
term (January between the semesters) and summer to reduce the course
load during regular terms (fall and spring). Consult with your advisor and/
or the assistant to the dean in your college for assistance with course and
schedule planning. Refer to the general education requirements (p. 53)
for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the
300/400 level.

This sample degree plan does not establish a contractual agreement.
It identifies the minimum requirements a student must successfully
complete, to qualify for a degree, in a format intended to assist the
student plan their academic career.

College of Science and Health (SAH)

Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her fall term or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Note: No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/
or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Microbiology Major: Environmental Science Concentration - Bachelor of Science (BS)

#### Major requirements

(All colleges, excluding teacher certification programs)

39 minimum - 41 maximum microbiology/biology credits (75 total credits including requirements outside of BIO/MIC)

- **Biology core**
  - BIO 105 General Biology
  - Select one of the following: 3-4
    - BIO 203 Organismal Biology
    - BIO 210 Animal Biology
    - BIO 304 Plant Biology

- **Microbiology core**
  - MIC 230 Fundamentals of Microbiology
  - MIC 350 Bacterial Diversity
  - MIC 416 Microbial Genetics
  - MIC 425 Bacterial Physiology
  - MIC 434 Aquatic Microbial Ecology
  - MIC 461 Capstone in Microbiology

- **Microbiology/biology electives**
  - Select at least five credits from List I, at least three credits from List II, and a maximum of two credits from List III. (see Electives list below)

#### Additional requirements

- MTH 145 Elementary Statistics
- or MTH 245 Probability and Statistics
- MTH 175 Applied Calculus
- or MTH 207 Calculus I

Select one course in physics:

- PHY 125 Physics for the Life Sciences
- PHY 104 Fundamental Physics II
- PHY 204 General Physics II

Select a minimum of 24 credits of chemistry including:

- CHM 103 General Chemistry I
- CHM 104 General Chemistry II
- CHM 301 Analytical Chemistry

Select one of the following:

- CHM 300 Survey of Organic Chemistry
- CHM 303 Organic Chemistry Theory I
- CHM 305 Organic Chemistry Theory II

Select one of the following:

- CHM 325 Fundamental Biochemistry
- CHM 417 Biochemistry I: Macromolecules
- CHM 418 Biochemistry II: Metabolism and Genetic Information

#### Total Credits: 120

---

1 Or BIO 306, BIO 312, or BIO 315 in appropriate semester. Please consult with adviser.
2 Or CHM 303, CHM 304, or CHM 305.
3 Or CHM 417 and CHM 418.
The physics series PHY 103/PHY 104 or PHY 203/PHY 204 may be required for students pursuing graduate or professional degrees.

1 Only one course (3 credits) from BIO 307, BIO 341, and BIO 464 may be applied to elective requirements.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 472)
- Baccalaureate degree requirements (p. 472)

College of Science and Health (SAH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the mathematical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. 1 At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA 1 in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/cspord/?cmd=login&languageCd=ENG&) and work closely with their
faculties and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

**This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.**

  - **BIO 406** Parasitology 3
  - **BIO 412** Mycology 3
  - **BIO 413** Medical Mycology 3
  - **BIO 449** Advanced Microscopy and Biological Imaging 3

  Additional 13-15 credits required to meet course prerequisites: 13-15
  - **CHM 103** General Chemistry I 4
  - **CHM 104** General Chemistry II 4
  - **CHM 300** Survey of Organic Chemistry 4
  - **CHM 303** Organic Chemistry Theory I 4

  Total Credits: 35-37

**Microbiology Honors Program**

The Microbiology Honors Program is designed to recognize outstanding academic performance and understanding of research in microbiology.
Program

Requirements for admission into the honors program are:

1. Junior Standing
2. Completion of the application for continuation in the major (completion of one semester math, three semesters of chemistry, and twelve credits in the major including MIC 230).
3. Provide a transcript demonstrating a 3.25 GPA in biology, chemistry and microbiology courses and a cumulative overall GPA of 3.25.
4. Recommendation by two faculty members from the department.

Requirements for earning a degree with honors in microbiology include:

1. Completion of all major requirements with a cumulative GPA in the major of 3.5 and a cumulative overall GPA of 3.25.
2. Completion of a minimum of two credits of MIC 499.
3. Presentation of results of MIC 499 research at a colloquium of faculty and students or at a professional meeting.

Students graduating with honors in microbiology will receive an honors certificate.

Nuclear Medicine Technology Program (NMT)

College of Science and Health
Health Professions Department
Program Director: Aileen Staffaroni
4046 Health Science Center, 608.785.6625
email: astaffaro@uwlatx.edu

www.uwlax.edu/health-professions/nuclear-medicine-technology/

Nuclear medicine technology is a health professions specialty employing the use of radiopharmaceuticals for diagnostic and therapeutic purposes. Students majoring in this program are provided a substantial educational foundation in the sciences and clinical applications in a hospital internship so that graduates may function as technologists. The pre-professional and professional program collectively requires six semesters on campus to earn a minimum of 66 credits including certain prescribed courses followed by a 12-month internship at an affiliated internship site.

Major

- Nuclear medicine technology - BS (p. 474)

Nuclear Medicine Technology Major - Bachelor of Science (BS)

Major requirements

(College of Science and Health)

Nuclear Medicine Technology admission policy

The university sponsors up to 21 clinical interns each year. The size of the nuclear medicine technology program is limited by these internships. Students must make formal application to the program during the spring semester of either their sophomore or junior year (see adviser). Refer to the sample degree plan tab. A Nuclear Medicine Technology Professional Program Selection Committee composed of representatives from the university and the program’s clinical affiliates evaluates each application on the basis of the applicant’s past academic performance (a minimum cumulative GPA of 2.50 is required for admission into the professional program), their references, their past work experience, and the results of a formal interview. Based on these factors, the applicants are ranked and accepted for entry into the professional program.

Nuclear Medicine Technology admission to internship and completion of degree policy

Those students admitted to the professional curriculum will be eligible for an internship upon successful completion of the on-campus course requirements and selection by a clinical affiliate. Acceptance into the program does not guarantee an internship at a hospital. The hospitals select students for internships. During the senior year, clinical internship students will register for (or be allowed to transfer in from Mayo’s NMT program) a minimum of 34 semester credits in clinical courses and pay full tuition and fees. Upon successful completion of the internship and all other university requirements, students are awarded a Bachelor of Science degree with a major in nuclear medicine technology.

Hospital educational programs of nuclear medicine technology are accredited by the Joint Review Committee on Educational Programs in Nuclear Medicine Technology (JRC-NMT). Graduates are eligible to take the examination for certification as a certified nuclear medicine technologist offered by the Nuclear Medicine Technology Certification Board (NMTCB) or as a nuclear medicine technologist offered by the American Registry of Radiologic Technologists (ARRT).

Nuclear medicine technology affiliated internship sites:

- Mayo Clinic, School of Health Sciences, Rochester, MN
- Froedtert Hospital, Milwaukee, WI
- Ministry St. Joseph’s Hospital, Marshfield, WI
- Aurora St. Luke’s Hospital, Milwaukee, WI
- Northwestern Memorial Hospital, Chicago, IL

 Students who select to complete the required year-long clinical at the Mayo School of Health Sciences (MHS) enroll at MHS rather than at UW-La Crosse. The courses taken during the year-long clinical at MHS meet UW-La Crosse NMT program requirements. The student must request an official transcript to be sent to UW-La Crosse from MHS. Upon successful completion of the clinical and all other graduation requirements, the students are awarded the Bachelor of Science degree from UW-La Crosse. The Mayo School of Health Sciences (MHS) grants a Certificate of Completion in Nuclear Medicine Technology.

All of the above courses are not required but a minimum of 34 credits must be earned in the array required by the clinical internship site.

Degree requirements

All students must complete the general education, college core (waived for nuclear medicine technology majors), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 475)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence.
intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Nutrition Program (NUT)

College of Science and Health
Program Coordinator: Lisa Kobs
0021 Health Science Center, 608.785.6457
email: lkobs@uwla.edu

The nutrition minor serves a variety of College of Science and Health students, including those in pre-allied health, pre-medicine, exercise and sport science, and health education. Non-SAH majors in psychology, sociology, and business also may be interested in the nutrition minor.

The nutrition minor at UW-L includes 18 credits of nutrition-related course work meant for students who may enter professions where an understanding of food and nutrition will be helpful and make them more competitive for employment or graduate school. For more information contact Lisa Kobs (lkobs@uwla.edu), Kris Greany (kgreany@uwla.edu) or Peg Maher (mmaher@uwla.edu). The nutrition faculty offices are located in the basement of the Health Science Center, suite 0016. Stop by and get some food for thought!

The minor does not provide enough nutrition coursework or the supervised practice (1200 hours) required to be eligible for the registered dietitian (RD) credential. For more information about accredited dietetics programs leading to the RD credential, please visit: www.eatright.org (http://www.eatright.org).

Physics Department (PHY)

College of Science and Health
Department Chair: Gubbi R. Sudhakaran, Ph.D.
2005 Cowley Hall; 608.785.8429
Email: gsudhakaran@uwlav.edu

www.uwlax.edu/physics

The Physics Department at UW-La Crosse is one of the largest undergraduate physics programs in Wisconsin and is well-known for offering quality education, placing its graduates in successful career paths and attracting national recognition for its successful efforts.

The diverse nature of the physics program makes our graduates highly sought after in modern industries where physics and engineering are applied. In addition, many UW-La Crosse physics graduates are accepted into top graduate degree programs where they can pursue a master’s or doctoral degree in physics, engineering, chemistry, astrophysics, optical science, mathematics, medicine, or computer science.

In addition to our unique programs, the Physics Department also stands out in its emphasis on involving its physics majors in undergraduate research. This engages students to work closely with individual members of the faculty, providing hands-on learning opportunities which are very different from the traditional classroom experience. The involvement of students in research contributes to the sense of community that pervades the UW-La Crosse Physics Department. Research projects are available in the following areas: astrophysics, biomechanics, computational physics, laser spectroscopy, quantum computing, material science, nuclear physics, solid-state physics, and physics education.

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

- Baccalaureate degree requirements (p. 478)

College of Science and Health (SAH)

Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a foreign language at the 202 level or an ESL proficiency score of 80 or above on the La Crosse Battery of exams for non-native speakers of English. Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations. Students must also complete:

- a minor in the College of Liberal Studies or
- 15 credits at the 300/400 level in the College of Liberal Studies.

Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 480)
- Baccalaureate degree requirements (p. 480)

College of Science and Health (SAH)
Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 level courses outside the major department from any college. Internship credits generally do not count toward this college core option.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

1 Excluding PHY 320, PHY 376, PHY 386, PHY 497. If PHY 498/AST 498 Physics and Astronomy Research (1-3 cr.) is chosen, the research must be astronomy related.

**Degree requirements**

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 483)
- Baccalaureate degree requirements (p. 483)

**College of Science and Health (SAH)**

**Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

**For the Bachelor of Science degree,** students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term.
Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG)&amp; and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

**Total Credits: 120**

### Physics Major with Biomedical Concentration - Bachelor of Science (BS)

**Major requirements**

(All colleges, excluding teacher certification programs)

55 credits (78 total credits including MTH and CHM)

A minimum of 28 credits of physics courses including:

- PHY 103 Fundamental Physics I
- or PHY 203 General Physics I
- PHY 104 Fundamental Physics II
- or PHY 204 General Physics II
- PHY 250 Modern Physics
- PHY 302 Optics
- PHY 311 Experimental Physics
- PHY 334 Electrical Circuits

Select at least nine additional credits of electives in physics numbered higher than PHY 250

A minimum of 21 credits outside physics, including the following required courses:

- MTH 145 Elementary Statistics
- or MTH 245 Probability and Statistics
- MTH 310 Calculus III: Multivariate Calculus

Select one of the following:

- 5-8
  - CHM 300 Survey of Organic Chemistry
  - CHM 303 Organic Chemistry Theory I
  - CHM 304 and Organic Chemistry Theory II
  - CHM 305 and Organic Chemistry Laboratory

Select additional electives in biology, chemistry, mathematics, and/or microbiology at the 300/400 level

Additional 23 credits required to meet course prerequisites:

- MTH 207 Calculus I
- MTH 208 Calculus II
- MTH 207 Calculus I
- MTH 208 Calculus II
- MTH 207 Calculus I
- MTH 208 Calculus II

must accomplish the following:

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must complete the following:

Baccalaureate degree requirements

- General education (p. 53)
- College core (p. 485)
- Baccalaureate degree requirements (p. 485)

College of Science and Health (SAH)

Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the mathematical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
department at any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 488)
- Baccalaureate degree requirements (p. 488)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.
The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core (p. 490)
- Baccalaureate degree requirements (p. 490)

College of Science and Health (SAH)
Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&LanguageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Pre-requisite for student teaching includes GPA of 2.75 in each: combined cumulative, major, minor, and professional education sequence; and a passing score on the Praxis II content test.²
EDS 494 | 3-15

Total Credits: 124

¹ See the STEP Admissions (http://www.uwlax.edu/Secondary-Teacher-Education-Preparation/Admission) website for details.
² See the Office of Field Experience (http://www.uwlax.edu/SOE/For-teacher-candidates) for details about applying to student teaching.

Dual Degree Program in Physics and Engineering

Major requirements

This is a special dual degree program which enables a student to receive both a Bachelor of Science degree (physics major) from UW-La Crosse and a Bachelor of Science degree (engineering major) from UW-Madison, UW-Milwaukee, UW-Platteville, or the University of Minnesota, Twin Cities. The total length of time for both degrees is expected to be five years, with approximately three years at UW-La Crosse (dating from enrollment in MTH 207 Calculus I (5 cr.)) and approximately two years at the partner institution. At UW-La Crosse, students must complete a minimum of 85 credits, including the following:

General education requirements:
- ECO 110 Microeconomics and Public Policy (recommended) | 3
- ECO 120 Global Macroeconomics (recommended) | 3
- ECO 336 Women in the U.S. Economy (recommended) | 3
- CHM 103 General Chemistry I | 5
- MTH 207 Calculus I | 5
- MTH 208 Calculus II | 4
- MTH 309 Linear Algebra with Differential Equations | 4
- MTH 310 Calculus III: Multivariate Calculus | 4
- PHY 103 Fundamental Physics I | 4
- or PHY 203 General Physics I
- PHY 104 Fundamental Physics II | 4
- or PHY 204 General Physics II
- PHY 250 Modern Physics | 3
- PHY 302 Optics | 3
- PHY 311 Experimental Physics | 2

Select additional courses, depending on the specific engineering discipline, from the following:
- PHY 320 Statics
- PHY 321 Classical Mechanics
- PHY 332 Electrodynamics
- PHY 335 Electronics
- PHY 343 Thermodynamics

Additional courses, such as the following, may be required depending on the specific engineering discipline – be sure to consult the physics department dual-degree adviser for details.

- BIO 105 General Biology | 4
- CHM 104 General Chemistry II | 5
- CS 120 Software Design I | 4
- MTH 245 Probability and Statistics | 4
- and/or
- MTH 353 Differential Equations | 3
Students wishing a dual degree in chemical engineering and physics via this program must also complete CHM 301 Analytical Chemistry (5 cr.).

Students wishing a dual degree in biomedical engineering and physics via this program must complete a minimum of 85 credits at UW-La Crosse, including the following:

Additional specified courses in biology, chemistry, microbiology, mathematics and physics

College of Science and Health (SAH)
Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Science degree, students must complete a major from the college plus:

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. \(^1\) At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA \(^1\) in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.
Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG&) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Year 3

### Dual Degree Program in Physics and Physical Therapy

**Major requirements**

This is a dual degree program which enables a student to receive both a Bachelor of Science degree (physics major with biomedical concentration) and a graduate degree (physical therapy) from UW-La Crosse. The total length of time for both degrees is expected to be six, with approximately three years in the physics program and approximately three in the physical therapy program. During the first three years, students will complete general education and college core requirements, physical therapy prerequisite course work, and many of the requirements for the physics major with biomedical concentration. Therefore, the undergraduate portion of the program would include a minimum of 85 credits, including the general education requirements and the following:

- **BIO 105, General Biology**: 4 credits
- **BIO 312 & BIO 313, Human Anatomy and Physiology I & II**: 8 credits
- **CHM 104, General Chemistry II**: 5 credits
- **MTH 207, Calculus I**: 5 credits
- **MTH 208, Calculus II**: 4 credits
- **MTH 145, Elementary Statistics** or **MTH 245, Probability and Statistics**: 4 credits
- **MTH 310, Calculus III: Multivariate Calculus**: 4 credits
- **PHY 103, Fundamental Physics I** or **PHY 203, General Physics I**: 4 credits
- **PHY 104, Fundamental Physics II** or **PHY 204, General Physics II**: 4 credits
- **PHY 250, Modern Physics**: 3 credits
- **PHY 302, Optics**: 3 credits
- **PHY 311, Experimental Physics**: 2 credits
- **PHY 334, Electrical Circuits**: 3 credits

Select three credits each of psychology and sociology

Additional course work taken in the physical therapy program may count toward electives needed for the undergraduate physics degree. Be
sure to consult the physics department dual degree adviser for details regarding this program.

**Degree requirements**

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- College core for B.S. (p. 496)
- College core for B.A. (p. 496)
- Baccalaureate degree requirements (p. 496)
- Doctor of Physical Therapy requirements (http://catalog.uwlax.edu/graduate/programrequirements/physicaltherapy/dpt)

**SAH Bachelor of Science requirements**

**College of Science and Health (SAH)**

**Bachelor of Science core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

**For the Bachelor of Science degree, students must complete a major from the college plus:**

- a minor (or a second major) from any college or
- 18 credits at the 300/400 level in courses outside the major department from any college. Internship credits generally do not count toward this college core option.

**SAH Bachelor of Arts requirements**

**College of Science and Health (SAH)**

**Bachelor of Arts core requirements**

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104, or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student’s major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

**For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a foreign language at the 202 level or an ESL proficiency score of 80 or above on the La Crosse Battery of exams for non-native speakers of English. Contact the English as a Second Language Institute (http://www.uwlax.edu/esl) for eligibility and regulations. Students must also complete:

- a minor in the College of Liberal Studies or
- 15 credits at the 300/400 level in the College of Liberal Studies. Internship credits generally do not count toward this college core option.

**UW-L undergraduate degree requirements**

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. ^1 At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA^1 in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

^1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Sample degree plan**

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their
faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

**General Education Program**

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during the winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

---

**General Science Education (Broad Field) Major (Early Adolescence-Adolescence Cert) - 2nd Major Only**

**Major requirements**

Admission requirements for STEP Program (p. 515)

(Teacher certification programs: early adolescence-adolescence)

66-70 credits

Second major only. First major must be biology education, chemistry education, or physics education.

1. STEP teacher education candidates are required to complete a 36-40 credit major in biology education, chemistry education, or physics education
2. 14 credits in one science area outside of the science major selected from biology, chemistry, earth science, or physics
3. Eight credits in each of the two remaining science areas selected from biology, chemistry, earth science, or physics
4. One mathematics course beyond minimum general education math requirement

**Note:** The completion of one certifiable minor is highly recommended instead of the completion of the 14 credit requirement.

Additional teacher education requirements are listed in the STEP Program core (p. 515).

**Degree requirements**

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 497)

**Baccalaureate degree requirements**

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA\(^1\) in each major and minor (and concentration or emphasis, if selected).

6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)

7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intercession graduates should file by May 1. May and summer graduates should file by December 1.

\(^1\) Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

**Required to meet course prerequisites**

| MTH 207 Calculus I | 5 |

Total Credits: 31

**Physics Education Minor**

(Teacher certification programs)

22 credits (31 total credits including MTH)

| PHY 103 Fundamental Physics I | 4 |
| PHY 203 General Physics I     |   |
| PHY 104 Fundamental Physics II| 4 |
| PHY 204 General Physics II    |   |
| PHY 250 Modern Physics        | 3 |
| PHY 302 Optics                | 3 |
| PHY 311 Experimental Physics  | 2 |

Select six additional elective credits from the following: 6

- PHY/AST 155 Solar System Astronomy (up to 4 credits)
- PHY/AST 160 Stars, Galaxies and the Universe (up to 4 credits)
- PHY 497 Physics and Astronomy Seminar (up to 2 credits)
- PHY 498 Physics and Astronomy Research (up to 3 credits)

Total Credits: 31

Teacher certification candidates must also complete GEO 200 Conservation of Global Environments (3 cr.); in addition, early adolescence-adolescence candidates must also complete PHY 469 Teaching and Learning Science in the Secondary School (4 cr.) unless a major in biology education or chemistry education is completed. Both courses fulfill statutory licensing requirements.

**Physics and Astronomy Honors Program**

**Program**

1. Admission
   a. Junior standing
   b. 15 credits in physics or astronomy including one 300 level course
   c. 3.25 cumulative grade point average in physics/astronomy courses and a 3.00 cumulative grade point average overall
   d. Students must submit an application to the department chair that should include
      i. The student’s academic transcript
      ii. The student’s reasons for wishing to participate
      iii. The signatures of two faculty members in physics endorsing the application

2. Program
   a. Completion of a major program in physics (which may also include an emphasis or concentration)
   b. PHY 497 Physics and Astronomy Seminar (1 cr.)
   c. PHY 498 Physics and Astronomy Research (1-3 cr.), three credits

3. Evaluation
the educational and personal needs of its students by emphasizing and dedicated to their profession and their patients, while meeting train radiation therapists who are knowledgeable, technically competent and future health care environments.

The program also seeks to foster, in its students, the professional care in busy and highly regarded radiation oncology departments. Students will work directly with registered radiation therapists in direct patient care in busy and highly regarded radiation oncology departments. The program also seeks to foster, in its students, the professional care in busy and highly regarded radiation oncology departments. The program also seeks to foster, in its students, the professional care in busy and highly regarded radiation oncology departments.

academic and clinical experiences. During the clinical internship, students will work directly with registered radiation therapists in direct patient care in busy and highly regarded radiation oncology departments. The program also seeks to foster, in its students, the professional development, problem solving and leadership skills needed for current and future health care environments.

The major in radiation therapy provides students with an educational foundation in the sciences and humanities as well as clinical experience in a radiation therapy department. The curriculum requires six semesters on campus in pre-professional and professional core courses prior to the senior clinical internship. The clinical internship begins in July of the senior year, extends for 13 months, and is spent at an affiliated clinical internship site. When students have met all requirements of the major and the university, they are eligible for graduation and to apply to take the national certification exam.

UW-L, in cooperation with its clinical internship sites, currently provides the only training and baccalaureate degree program in radiation therapy in the State of Wisconsin. The radiation therapy program at UW-L is designed to offer a high quality radiation therapy curriculum rich in academic and clinical experiences. During the clinical internship, students will work directly with registered radiation therapists in direct patient care in busy and highly regarded radiation oncology departments. The program also seeks to foster, in its students, the professional development, problem solving and leadership skills needed for current and future health care environments.

Program mission
The mission of the radiation therapy program at UW-L is to educate and train radiation therapists who are knowledgeable, technically competent and dedicated to their profession and their patients, while meeting the educational and personal needs of its students by emphasizing excellence in education and offering a broad based curriculum in liberal studies, professional courses and clinical internship. This program additionally seeks to promote research and provide a base for further professional development of graduates.

General education writing emphasis
This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

Major
• Radiation therapy major - BS (p. 499)

Radiation Therapy - Bachelor of Science (BS)

Major requirements
(College of Science and Health)

Radiation Therapy admission policy
Admission to the program is on a competitive basis. The number of students admitted to the major is dependent on the number of clinical internship sites and their student capacity. Class sizes are approximately 20. Admission to the major is on a competitive basis. Applications are available at the Department of Health Professions office or on the Radiation Therapy Program (http://www.uwlax.edu/Health-Professions/Radiation-Therapy)’s website.

1. Students are advised to apply for admission to the professional program early in the late fall prior to desired admission, after having taken or registered for all general education and pre-professional requirements. Deadline is mid-December.

2. Applicants are required to have a minimum cumulative grade point average of 2.75 on a 4.0 scale and a grade of "C" or higher in all general education and pre-professional courses. Applicants are required to have a minimum pre-professional grade point average of 2.75 on a 4.0 scale.

3. Applicants are required to successfully complete 40 hours of observation in a radiation therapy department. Students are encouraged to plan to visit during summer, spring break or between semesters. Some sites may require that the student have had a set of immunizations prior to the visit to comply with hospital policy.

4. Applicants are considered without regard to sex, race, color, creed, religion, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status, or parental status.

5. Students for whom English is a second language must earn a minimum score of 600 (paper-based), 250 (computer-based), or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL) or a score of 6.5 on the International English Language Testing System (IELTS) exam within two years prior to application to the program.

6. Applications must be submitted in full by mid-December deadline to the Department of Health Professions office.

Selection process
A selection committee will be appointed to review all completed applications, interview all qualified candidates and make selection decisions. The committee carefully considers each applicant, looking at
academic performance, personal characteristics, and experiences that predict success in the field.

Acceptance is effective at the beginning of the junior year conditional upon successful completion of courses in progress at the time of notification of acceptance. Selection is also conditional upon students' compliance with state laws for caregivers including submission to a criminal background check. Students take the professional core courses in La Crosse.

Students who successfully meet program requirements in the professional core courses will interview with the clinical internship sites and upon selection by one of the sites will be placed for the clinical internship. While student preferences in internship site are taken into account, students cannot be guaranteed that they will be assigned in accordance with their choices of clinical site.

Radiation therapy affiliated clinical internship sites:
- University of Wisconsin Hospital, Madison, WI
- Froedtert Memorial Lutheran Hospital, Milwaukee, WI
- Gundersons Health System, La Crosse, WI
- Advocate Lutheran Hospital, Park Ridge, IL
- Columbia St. Mary's Hospital, Milwaukee, WI

Curriculum

(117 total credits including internship)

Retention of good standing in the program requires that students maintain a grade of "C" or higher in all required courses, as well as a semester and cumulative grade point average of 2.75 on a 4.0 scale.

1 This course will also fulfill general education requirements.
2 Students whose math placement exam places them in MTH 207 are not required to take MTH 151, but are required to take MTH 145.

Degree requirements

All students must complete the general education, college core (waived for radiation therapy majors), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.
• General education (p. 53)
• Baccalaureate degree requirements (p. 501)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.1 At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA1 in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG&amp;) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Recreation Management and Therapeutic Recreation Department (REC/RTH)

College of Science and Health
Department Chair: Steven Simpson
2036 Health Science Center; 608.785.8216
Email: ssimpson@uwls.edu
www.uwlax.edu/rec-management-and-therapeutic-rec

Recreation Management Program (REC)

One of the largest undergraduate programs in the United States, the recreation management program at UW-La Crosse is the only nationally accredited recreation management program in the University of Wisconsin System. The mission of the program is to train students in the skills of the recreation profession and instill an appreciation of the vital role of leisure in people’s lives. An experiential approach to our teaching makes students uniquely competitive in the recreation job market and provides an excellent transition into the recreation profession. The program serves students interested in a range of recreation agencies upon graduation, among them governmental parks and recreation departments, YMCAs, Boys and Girls Clubs, camps, environment education centers, recreation facilities on military bases, and various tourism enterprises including resorts.

Therapeutic Recreation Program (RTH)

Therapeutic recreation specialists assist persons with disabilities or illnesses to improve their functioning and quality of life. This is achieved through the development of a meaningful leisure lifestyle. Comprehensive therapeutic recreation services include an approach based on the needs, interests, abilities, and strengths of clients. Services are offered on a continuum of care which includes treatment (which incorporates recreation activities to improve functional abilities and assist in diagnosis), leisure education (which focuses on the acquisition of recreation skills that help attain an independent lifestyle), and recreation participation (which uses recreation activities to enhance health and overall quality of life).

Students learn to develop and implement therapeutic programs using recreational activities such as exercise, horticulture, arts and crafts, games, music, reminiscence, pain management, and stress management. These goal-directed programs help individuals and groups with disabling conditions to learn, adapt and grow through leisure participation.

While most colleges and universities offer a recreation major with a concentration in therapeutic recreation, UW-La Crosse is one of the few universities in the nation to offer therapeutic recreation as its own independent major.

Recreation management/therapeutic recreation course availability

- The following classes are open to all students in all majors:
  REC 150, REC 306, REC 481, RTH 203, RTH 204, RTH 215, RTH 250, RTH 325, RTH 326, RTH 327, RTH 345, RTH 355, RTH 474.
- The following classes are open only to therapeutic recreation majors:
  RTH 252, RTH 260, RTH 330, RTH 332, RTH 333\(^1\), RTH 456, RTH 462, RTH 470, RTH 476, RTH 480\(^2\), RTH 483, RTH 490, RTH 491, RTH 493, RTH 495, RTH 496, RTH 497, RTH 498

\(^1\) Also open to at-risk child/youth care minor students.
\(^2\) Also open to gerontology emphasis students.
- The remaining REC/RTH classes are open only to recreation management majors or minors, therapeutic recreation majors and inclusive recreation minors.

Recreation programs transfer policy

Students transferring into recreation programs must have a cumulative GPA of 2.50 or higher at the time of transfer.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Professor
Steve Simpson, Ph.D., Department Chair
Susan Murray, Ed.D.

Associate Professor
Patricia Ardovino, Ph.D.
Jearold Holland, Ph.D.
Gretchen Newhouse, Ph.D.
Nancy Richeson, Ph.D.

Other Requirements

1. Students must have a minimum GPA of 2.5 or greater to enter the program.
2. Prior to enrollment in REC 449 Internship/Professional Preparation, majors must complete two 50-hour professional experiences. These are non-class field experiences at recreation management agencies.
3. Before enrolling in REC 450 Internship (16 cr.), all required REC and RTH courses must be completed with a grade of “C” or better; and the student must have a cumulative UW-L GPA of at least 2.5.

Degree requirements

All students must complete the general education, college core (waived for recreation management majors), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (p. 53)
- Baccalaureate degree requirements (p. 503)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&amp;languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

Therapeutic Recreation Major - Bachelor of Science (BS)

Therapeutic recreation specialists assist persons with disabilities or illnesses to improve their functioning and quality of life. This is achieved through the development of a meaningful leisure lifestyle. Comprehensive therapeutic recreation services include an approach based on the needs, interests, abilities, and strengths of clients. Services are offered on a continuum of care which includes treatment (which incorporates recreation activities to improve functional abilities and assist in diagnosis), leisure education (which focuses on the acquisition of recreation skills that help attain an independent lifestyle), and recreation participation (which uses recreation activities to enhance health and overall quality of life).

Students learn to develop and implement therapeutic programs using recreational activities such as exercise, horticulture, arts and crafts, games, music, reminiscence, pain management, and stress management. These goal-directed programs help individuals and groups with disabling conditions to learn, adapt and grow through leisure participation.

While most colleges and universities offer a recreation major with a concentration in therapeutic recreation, UW-La Crosse is one of the
few universities in the nation to offer therapeutic recreation as its own independent major.

Inclusive Recreation Minor

The Americans with Disabilities Act mandates that agencies offering recreation programs must accommodate people with disabilities. The inclusive recreation minor prepares professionals from various disciplines to address concerns such as accessibility, knowledge of disabilities, appropriate programming, and adapting activities.

Persons employed in the following types of settings would benefit from this minor: play areas, recreation facilities such as amusement rides, boating facilities, fishing piers and platforms, miniature golf courses, golf courses, sporting facilities, swimming pools and spas, outdoor developed areas, YMCAs, and youth clubs. Persons involved in the following professions would benefit from this minor: recreation management, education, physical education, fitness, special education, health and wellness, psychology, business, sports management, and other social and human service areas.

The inclusive recreation minor is not a comprehensive therapeutic recreation curriculum, nor is it intended to lead toward national certification. The inclusive recreation minor is academic preparation to assist professionals who are interested in providing inclusive recreation programs.

www.uwlax.edu/school-of-education

The School of Education (SOE) at the University of Wisconsin-La Crosse (UW-L) represents a collection of teacher education programs housed in a variety of departments and colleges across campus. Approximately 700 students are enrolled in teacher education programs at UW-L. Students enrolled in teacher education programs benefit from the numerous PK-12 school partnerships, which aim to promote best practices in teaching and learning.

Majors and minors (p. 509)
Admission (p. 510) to SOE and retention (p. 510)
Teacher education assessment (p. 510)
Teacher education testing requirements (p. 512)
Student teaching and internships (p. 512)
Licensing (p. 513)

Specific areas in teacher education:
Early Childhood-Middle Childhood, Middle Childhood-Early Adolescence, and Early Childhood-Adolescence certification (p. 514) (excepting PETE, SHE, & STEP programs)
Physical Education Teacher Education (PETE) certification (p. 514)
School Health Education (SHE) certification (p. 515)
Secondary Teacher Education Preparation (STEP) admission and certification (p. 515) (EA-A program)

Accreditation
• Higher Learning Commission (North Central Association)
• Wisconsin Department of Public Instruction since 1937

Mission
The mission of the School of Education is to develop within its graduates a commitment to the teaching profession, a profound respect for the dignity of all learners, and the professional competencies that enable them to be effective teachers and responsible citizens in a diverse and dynamic world.

Conceptual framework
Vision: The School of Education at UW-L strives to become a leader in the preparation of globally responsive teachers through a university-wide commitment to teacher education.
Definition: The globally responsive teacher believes that all learners can learn at high levels and persists in helping all learners achieve success. The teacher appreciates and values human diversity, shows respect for learners' varied talents and perspectives, and commits to the pursuit of excellence for all learners. Globally responsive teaching includes infusion of a strong academic curriculum linked to world events, geography, world cultures, and diverse perspectives. Globally responsive teachers act to make the world a healthy and more sustainable and just environment.

A globally responsive professional education program includes the following:
• Teacher candidates gain understanding of contemporary content issues from a variety of perspectives.
• Teacher candidates learn how to employ discipline specific skills in their analyses of global issues.
• Teacher candidates design integrated curricular units so their students will have a greater understanding of the world.
• Teacher candidates are encouraged and supported to engage in international study abroad programs.
• Teacher candidates develop model lessons that infuse global awareness into their curriculum.
• Teacher candidates develop enrichment of cultural, environmental, and/or civic issues.
• Teacher candidates consider content issues, both local and global, using technology and community resources to enhance learning and expand their resource networks.

School Of Education resources
Several resources for education students, university faculty, and area teachers are provided through the School of Education.

Alice Hagar Curriculum Resource Center
• Contains many teacher education materials and references for all grade levels
• Located on the upper floor of Murphy Library (http://www.uwlax.edu/murphylibrary)

Rhea Pederson Reading Center
• Provides reading resources for UW-L students and area teachers
• Located in 335 Morris Hall

Majors and minors in the Department of Educational Studies
The Department of Educational Studies (DES) is housed in the School of Education. The following undergraduate majors, minors, and programs
are available through DES. Specific content areas are housed in the related departments in the other colleges/school.

B.S. = Bachelor of Science  
m = minor

• Early Childhood-Middle Childhood Education (B.S., EC-MC)
• Middle Childhood-Early Adolescence Education (B.S., MC-EA)
• Early Childhood-Adolescence (B.S. in art, music, French, German Studies, or Spanish; EC-A)
• Special Education (m, add-on teacher certification)
• General Science (m, MC-EA)
• Social Studies (m, MC-EA)

Department of Public Instruction (DPI) certification ranges and abbreviations
EC-MC = Early Childhood-Middle Childhood Certification (ages birth to 11)
MC-EA = Middle Childhood-Early Adolescence Certification (ages 6-12 or 13)
EC-A = Early Childhood-Adolescence Certification (ages birth to 21)
EA-A = Early Adolescence-Adolescence Certification (ages 10 to 21)

Additional teacher certification programs in the School of Education

The following programs are certifiable at the Early Adolescence-Adolescence (ages 10 to 21) developmental range (EA-A):

College of Liberal Studies
• Economics Education (m)
• English Education (B.S., m)
• French Education (m)
• German Studies Education (m)
• History Education (B.S., m)
• Political Science Education (B.S., m)
• Psychology Education (m)
• Social Studies - Broad Field (B.S.)
• Sociology Education (B.S., m)
• Spanish Education (m)

College of Science and Health
• Adapted Physical Education (m) (requires ESS: Physical Education Emphasis, EC-A certification)
• Biology Education (B.S., m)
• Chemistry Education (B.S., m)
• Computer Science Education (B.S., m)
• Exercise and Sport Science: Physical Education Emphasis (B.S., EC-A certification)
• General Science Education - Broad Field (second major only)
• Geography Education (B.S., m)
• Mathematics Education (B.S., m)
• Physics Education (B.S., m)
• School Health Education (B.S., EC-A certification; m)

General Admission and Retention in Teacher Education

Teacher education admission policy: literacy requirements

All students must be admitted to teacher education in order to enroll in professional education courses. Application and admission requirements vary by program. Students are encouraged to work closely with their academic advisor to ensure completion of the application requirements in effect for their program of study. Meeting the eligibility criteria does not guarantee admission into the teacher education program. Resources available limit the number of students admitted. In addition, all SOE students must meet CST 110 and ENG 110 or ENG 112 requirements by earning a grade of "C" or better. See below (p. 514) for admission requirements for specific certification areas.

Teacher education admission policy: required disclosure of criminal offenses policy

Students interested in admission will be asked to disclose any criminal charges filed against them through a self report form. Applicants with a felony conviction (which prohibits them from entering the teaching profession) will not be admitted into any program within the SOE. Student applicants with lesser charges (misdemeanors not involving children) shall be permitted to apply to the SOE.

Any student who has been convicted of a criminal offense must contact the Wisconsin Department of Public Instruction (DPI) to discuss eligibility for teacher licensure. A copy of the DPI Conduct and Competency Code is available in the certification office in 260 Morris Hall.

Teacher education: retention policy

Candidates may be retained in the teacher education program as long as they maintain 2.75 combined cumulative, major, and minor GPA’s (3.00 for graduate candidates); show proficiency in oral and written communication; fulfill additional assessment criteria (e.g., portfolio) required by the candidate’s program; and are otherwise in good standing with the university and SOE.

Teacher education: certification requirement policy

Candidates must maintain a 2.75 combined cumulative grade point average and a 2.75 grade point average in all certifiable majors, minors, concentrations, and professional education courses. Official score reports documenting passing scores for all additional testing requirements (p. 512) for the appropriate certification area/discipline must be on file in the certification office, 275 Morris Hall. The completion of the portfolio/edTPA is also required.

Candidates who complete all university requirements and all teacher education requirements for student teaching/internship, but who fail to successfully complete the student teaching/internship experience, may be awarded a Bachelor of Science degree without certification. This degree will not earn WI Department of Public Instruction endorsement for licensure. See the academic assistant to the dean (p. 509) for details.
Comprehensive assessment system in teacher education (including portfolio/edTPA)

All teacher candidates seeking certification must successfully complete procedures related to program admission, progression, and exit criteria. The teacher candidate’s progress toward competencies in the InTASC (Interstate Teacher Assessment and Support Consortium) Model Core Teaching Standards is monitored while the candidate completes requirements in the respective teacher education program. Teacher candidates must earn and maintain the cumulative, major, and minor grade point averages required by their respective program of study. Course and field experience assessments are designed to monitor professional growth in the InTASC Model Core Teaching Standards listed below. The Wisconsin Department of Public Instruction (DPI) requires that each candidate who prepares for a teaching career to have a portfolio of evidence documenting that the standards required for a teaching license have been met (PI 34.13).

Wisconsin edTPA (Education Teacher Performance Assessment) - The Wisconsin Department of Public Instruction is committed to ensuring that highly prepared and effective teachers educate Wisconsin students. A part of that commitment is to make certain that all initial license applicants are ready to teach before they receive a license. One way to determine readiness is through performance assessment, using a system such as the edTPA. Upon the recommendation of the Wisconsin educator preparation programs, the State Superintendent has selected the edTPA (http://www.edtpa.com) to be used as one of the performance measures required for initial licensing. Beginning September 1, 2015, all teacher candidates completing a program will be required to complete the edTPA to be eligible for a license. Passing scores will be set by the Wisconsin Department of Public Instruction in 2015-16 and will be available prior to September 1, 2016. Beginning September 1, 2016, a passing score on the edTPA will be required for program completion and to be eligible for a license.

Note: Students should be aware that the Department of Public Instruction is specific in its requirements about the content of both general education and professional education; therefore, prospective teacher education candidates should work closely with an advisor from the outset of their studies at the university. Completion of DPI requirements for licensure may take longer than four academic years.

Interstate Teacher Assessment and Support Consortium (InTASC) Model Core Teaching Standards

Standard 1: Learner Development
Standard 2: Learning Differences
Standard 3: Learning Environment
Standard 4: Content Knowledge
Standard 5: Application of Content
Standard 6: Assessment
Standard 7: Planning for Instruction
Standard 8: Instructional Strategies
Standard 9: Professional Learning and Ethical Practice
Standard 10: Leadership and Collaboration

Wis. Admin. Code PI 34.02 (http://docs.legis.wi.gov/code/admin_code/pi/34.pdf)

Teacher education: candidate progress review

The faculty and staff (including clinical and student teaching personnel) of SOE recognize that all individuals seeking certification may not meet certain minimal professional standards; therefore, a procedure has been established to identify and to counsel candidates in need of directed guidance. Additional measures may be taken if deemed necessary. The referral process may lead to the candidate’s removal from the teacher education program(s).

SOE’s Teacher Candidate Progress Review Committee is charged with overseeing the development and assessment of knowledge, skills, and dispositions among teacher candidates as assessed by the multiple measures of the established teacher education assessment system. Academic and non-academic misconduct (plagiarism, cheating, etc.) are referred directly to the Office of Student Life as outlined in the university’s student handbook (http://www.uwlax.edu/Student-Life/Student-handbook).

If issues related to the progress of candidates are identified, a referral is initiated using the Teacher Candidate Progress Review Referral Form (http://www.uwlax.edu/uploadedFiles/Academics/Colleges_Schools/School_of_Education/TCPR%20Original%202010-31-14%20Over%203(1).pdf), and the candidate receives a copy of the referral. The Director of the School of Education will forward a copy to the candidate’s advisor, the academic assistant to the dean/certification officer, department chair, and the content liaison, where appropriate. There are three types of referrals:

- Notice of concern,
- Automatic referral, and
- Program referral.

Notice of concern

1. A concerned faculty or staff member completes a written notice of concern. The candidate is required to schedule an appointment to review the content of the notice of concern form. A minimum of two faculty or staff members will discuss the referral with the candidate and provide him/her with a copy of the referral form. After the content of the referral form is discussed, the candidate signs the referral form acknowledging receipt.
2. The faculty or staff member submits the signed referral form to the Office of the Director of the School of Education; copies of the form are sent to the appropriate individuals and placed in the candidate’s permanent file.
3. If two notices of concern are received, the candidate is automatically referred to the Teacher Candidate Progress Review Committee by the Director of the School of Education. For candidates enrolled in pupil services certification programs (school psychology), each notice of concern will be sent to the program director. The program will work with the candidate to develop an action plan.

Automatic referral(s) to the Teacher Candidate Progress Review Committee

Automatic referrals include, but are not limited to, concerns needing immediate intervention related to the candidate’s knowledge, skills, and/
or dispositions, or concerns related to candidate GPA (cumulative, major, minor, concentrations, core).

Non-GPA-related automatic referrals

1. An issue needing immediate intervention related to the candidate’s knowledge, skills, and/or dispositions is identified, and an automatic referral form is completed. The candidate is required to schedule an appointment to review the content of the automatic referral form. A minimum of two faculty or staff members will discuss the referral with the candidate and provide him/her with a copy of the referral form. After the content of the referral form is discussed, the candidate signs the referral form acknowledging receipt.

2. The faculty or staff member submits the signed referral form to the Office of the Director of the School of Education; copies of the form are sent to the appropriate individuals and placed in the candidate’s permanent file.

3. The candidate is automatically referred to the Teacher Candidate Progress Review Committee by the Director of the School of Education and will be required to appear at the next committee meeting to address the concerns cited in the automatic referral. When the candidate meets with the committee, the concerns are reviewed, and the candidate addresses these concerns. After the candidate has met with the committee, the committee recommends further action. If the candidate fails to meet with the committee, he/she will be unable to continue in his/her program of study.

Program referral(s) to the Teacher Candidate Progress Review Committee

Faculty and staff (including clinical and student teaching personnel) who have concerns about a candidate’s knowledge, skills, and/or dispositions as described within the teacher education program standards shall document and initiate the referral process by completing the referral form. For the purpose of facilitating the referral process, the following procedures are used:

- The faculty or staff member discusses the referral with the candidate and provides him/her with a copy of the referral form.
- The faculty or staff member delivers the referral form to the appropriate program director or department chair. The faculty involved decide if the referral form is to be sent to the Teacher Candidate Progress Review Committee or remediated within the program. The candidate is notified of the decision within two weeks regarding action or remediation plan. If the remediation plan is unacceptable to the candidate, he/she may appeal the plan to the committee.
- If so deemed, referral forms and the referred student’s academic record(s) and performance are reviewed by the committee at the next monthly meeting in which they are received.

Teacher education: testing requirements policy

The Department of Public Instruction (DPI) is specific in its requirements about the content of both general education and professional education. DPI requires teacher education candidates to complete both basic skills testing (Praxis I/PPST or another basic skills test) and content area testing (Praxis II). The State Superintendent of DPI determines passing scores. Therefore, prospective teacher education candidates should work closely with an advisor from the outset of their studies at the university. Completion of DPI requirements for licensure may take longer than four academic years.

Basic skills testing options

Entry into teacher education programs requires passing scores on one of the basic skills tests approved by the State Superintendent of DPI, selected from the following:

1. Praxis I, Pre-Professional Skills Test (PPST), scores in reading (175), mathematics (173), and writing (174) tests through August 31, 2014. Beginning September 1, 2014, the Praxis Core Academic Skills Test scores in reading (156), mathematics (150), and writing (162); OR

2. ACT composite score of 23 with minimum scores of 20 on English, math, and reading. Scores presented for this purpose must be dated within the five years preceding application for admission; OR

3. SAT composite score of 1070 with minimum scores of 450 on verbal and math. Scores presented for this purpose must be dated within the five years preceding application for admission; OR

4. GRE (after August 1, 2011) composite score of 298 with minimum scores of 150 on verbal and 145 on math. Scores presented for this purpose must be dated within the five years preceding application for admission.

Passing scores on one of the basic skills tests must be recorded in a student’s university record prior to applying for admission to any teacher education program.

Additional Testing Requirements

Prior to enrolling in the student teaching/internship semester and to be recommended for licensure by the certification officer, candidates must provide:

1. An official Praxis II Subject Assessment score report documenting passing scores on Praxis II content tests in the appropriate certification area/discipline;

2. An official Wisconsin Foundations of Reading test score report documenting passing scores (ONLY required for early childhood-middle childhood, middle childhood-early adolescence, and special education candidates);

3. An official American Council Teaching of Foreign Languages score report demonstrating oral and written proficiency with a rating of “Intermediate High” in French, German, and/or Spanish (ONLY required for French education, German education or Spanish education candidates).

Teacher education: student teaching and internship admission policy

The student teaching experience is generally completed during the final semester in residence. Students must apply for student teaching (http://www.uwlax.edu/SOE/For-teacher-candidates) through the Office of Field Experience one year prior to the student teaching semester. Completed applications must be returned to the Office of Field Experience by the deadlines posted online for a fall or spring semester placement.

Candidates student teach for a full semester as calculated according to the calendar of the cooperating school. Most cooperating schools are approximately located within a 50-mile radius of La Crosse.

To be eligible for student teaching, candidates must:

1. Have and maintain 2.75 combined cumulative, major, minor, concentration, and professional sequence grade point averages

2. Meet prerequisites and all additional testing requirements (see above) for the appropriate certification area/discipline, specified for:
Office of Field Experiences will record the criminal background checks. If the time passed since the last criminal background check exceeds two years, the background checks may be required for teacher candidates if the time passed since their last criminal background check. Additional criminal background checks must be completed by teacher candidates each semester they participate in a school observation, clinical field experience, or any other school experience. Teacher candidates must notify the Office of Field Experience of new offenses as soon as possible.

The Office of Field Experience staff monitors the criminal background check process and notifies course instructors when teacher candidates have been cleared to enter the schools. In the event the background check discloses criminal activity or information the teacher candidate has failed to report, the teacher candidate may be required to meet with the Director and/or Assistant Director of Field Experiences to discuss the discrepancy. The result of this discussion may alter or terminate the teacher candidate’s participation in a field experience or student teaching assignment.

### Licensing and Statutory Requirements in Teacher Education

**Wisconsin Department of Instructional Education**

**Educator licenses** ([http://tepdl.dpi.wi.gov/licensing/educator-licenses-general](http://tepdl.dpi.wi.gov/licensing/educator-licenses-general)) issued under WIS. Admin. Code PI 34 are based on the following developmental levels:

<table>
<thead>
<tr>
<th>DEVELOPMENTAL LEVELS</th>
<th>AGE RANGES</th>
<th>GRADE LEVEL</th>
</tr>
</thead>
<tbody>
<tr>
<td>Early Childhood (EC)*</td>
<td>birth-8</td>
<td>PK-3</td>
</tr>
<tr>

</tr>
</tbody>
</table>

* program not offered at UW-L.

### Teacher education: license application

**Wisconsin:** Graduates desiring a license to teach in Wisconsin may submit an application through Educator Licensing Online (ELO) ([http://tepdl.dpi.wi.gov/licensing/elo](http://tepdl.dpi.wi.gov/licensing/elo)). The fee for the initial educator license is $100.00. When all certification requirements are satisfactorily completed, the certification officer will upload program completer data for all candidates into ELO. After the program data has been uploaded into ELO, applicants will be able to complete the license application.

**Out-of-state applicants:** Graduates seeking certification in other states will obtain instructions from the Department of Education of the state in which certification is desired and submit the appropriate application materials. Candidates should be aware that license rules vary from one state to another and seek such information early in the professional preparation program. Most states require documentation of program completion (institutional endorsement) on a form specific to the state's regulations.
application requirements. The signature of the teacher certification officer is accepted for institutional endorsement.

**Wisconsin statutory requirements**

**Environmental Education and Conservation:** Demonstration of knowledge and understanding in environmental education and in the conservation of natural resources is required for licenses in early childhood-middle childhood, middle childhood-early adolescence, science (majors or minors), and social studies (majors or minors). Instruction in environmental education and conservation is required for the completion of these programs.

**Cooperatives:** Demonstration of knowledge and understanding of cooperative marketing and consumer cooperatives is required for licenses in social studies (majors or minors). Instruction in cooperatives is noted by the major and minor course listings in social studies disciplines.

**Exceptional Education:** Demonstration of knowledge and understanding of procedures used for assessing and providing education for children with disabilities, including provider roles and responsibilities and curriculum modification.

**Human Relations:** Demonstration of knowledge and understanding in the area of “minority group relations,” under Wis. Admin. Code PI 34.15(4)(c)1-6, to be certified to teach in the State of Wisconsin.

**Reading:** Demonstration of knowledge and understanding of teaching reading and language arts including phonics for licensure in early childhood-middle childhood and middle childhood-early adolescence.

**Conflict Resolution:** Demonstration of knowledge and understanding in:

1. Resolving conflicts between pupils and between pupils and school staff;
2. Assisting pupils in learning methods of resolving conflicts between pupils and between pupils and school staff, including training in the use of peer mediation to resolve conflicts between pupils; and
3. Dealing with crises, including violent, disruptive, potentially violent, or potentially disruptive situations that may arise in school or at activities supervised by a school as a result of conflicts between pupils or between pupils and other persons.

**General education requirements**

Students take specific courses from general education to meet statutory requirements in the areas of human relations, environmental education and conservation, mentioned above, depending on the certification desired. General education check sheets listing required courses are available in 260 Morris Hall and on Advisement Reports (AR). The two-year transfer policy does not exempt students from these requirements.

Wis. Admin Code PI 34.15(4) (http://docs.legis.wisconsin.gov/code/admin_code/pi/34.pdf)

---

**Admission Requirements for Specific Areas in Teacher Education**

**Early childhood-middle childhood, middle childhood-early adolescence, and early childhood-adolescence certification (excepting PETE, SHE, & STEP programs)**

Department of Educational Studies
335 Morris Hall; 608.785.8152

The Department of Educational Studies (DES) is committed to preparing teachers who can teach all students in all schools - rural, urban or suburban. The faculty in DES take seriously our commitment to excellence in teacher education and offer programs leading to licensure in early childhood-middle childhood, middle childhood-early adolescence, and early childhood-adolescence.

**Certification areas within the Department of Educational Studies:**

- Early Childhood-Middle Childhood Certification (ages birth-11) (EC-MC)
- Middle Childhood-Early Adolescence Certification (ages 6-12 or 13) (MC-EA)
- Early Childhood-Adolescence Certification (ages birth-21) (EC-A)

**Admission to DES teacher education programs**

The Department of Educational Studies has specific criteria that must be met before being admitted to a program. The process of applying to a DES program is described on the department’s webpage. Students are also required to disclose past criminal offenses (p. 510) in order to be admitted to any teacher education program.

See the Department of Educational Studies (p. 516) for specific admission requirements to the Early Childhood-Middle Childhood, Middle Childhood-Early Adolescence, and Early Childhood-Adolescence teacher education programs. To see the course work for individual programs, visit the Majors tab on the DES page.

**Physical Education Teacher Education (PETE) certification**

(Early childhood-adolescence, ages birth-21 years)

PETE Program Director: Kristi Mally, Ph.D.
210 Mitchell Hall; 608.785.6527

Department of Exercise and Sport Science
124 Mitchell Hall; 608.785.8173

www.uwlax.edu/exercise-sport-science/physical-education-teaching

UW-La Crosse has been a state and national leader in preparing physical education teachers for decades. Our graduates, certifiable to teach kindergarten through high school, teach in all 50 states and several foreign countries. Study is broad based, with emphasis on motor skills, fitness, scientific principles, teaching strategies, and program development. The UW-L Program balances traditional, individual, and fitness activities with non-traditional physical education activities such as backpacking, ropes courses, and rock climbing. This balance provides
students with numerous experiences to enhance their professional development. Because of its exceptional quality, the UW System has identified this program as a Center of Excellence, a designation reserved for high quality undergraduate programs.

**Admission to physical education**

All majors in the Department of Exercise and Sport Science have admission standards and retention and advancement standards. Students are advised to become aware of the application criteria for their major and may refer to program websites for the most detailed information regarding these criteria and procedures. Meeting minimum criteria does not guarantee admission, as the department programs have competitive admission processes. Students are also required to disclose past criminal offenses (p. 510) in order to be admitted to any teacher education program.

See the exercise and sport science: physical education major (p. 417) for specific admission requirements and course work for the PETE Program.

---

**School Health Education (SHE) certification**

(Early childhood-adolescence, ages birth-21 years)

School Health Education Program Director: Tracy Caravella, Ph.D.
202 Mitchell Hall; 608.785.6788

Department of Health Education and Health Promotion
124 Mitchell Hall; 608.785.8161

www.uwlax.edu/health-education-and-health-promotion/school-health-education

A one-of-a-kind program in Wisconsin, the school health education major is nationally recognized for excellence in preparing certified school health education professionals. Eight faculty, all with doctorates in the field, lead students in assessing, planning, implementing, and evaluating school health education programs through classroom and field experiences. Graduates are certified to teach kindergarten through high school, prepared to coordinate school health education curricula, and experienced in developing health promotion activities for students and faculty. Courses in curriculum development, effective teaching behaviors, stress management, nutrition, physical fitness, human sexuality, alcohol and other drugs, and health promotion are offered. Graduates become professionals who assist others in developing a healthy, active lifestyle primarily within the school setting.

**Admission to school health education**

The school health education major in the Department of Health Education and Health Promotion has admission requirements and other academic policies of which students should be aware. Students may refer to program websites for the most detailed information regarding these criteria and procedures. Students are also required to disclose past criminal offenses (p. 510) in order to be admitted to any teacher education program.

See the school health education major (p. 443) for specific admission requirements and course work for the SHE Program.

---

**Secondary Teacher Education Preparation (STEP) teacher certification**

(Early adolescence-adolescence, ages 10-21 years)
Teacher education: Secondary Teacher Education Preparation (STEP) admission to program policy
(Early adolescence-adolescence only)

Phase I: pre-application
Prior to submitting an application (http://www.uwlax.edu/Secondary-Teacher-Education-Preparation/Admission) to STEP candidates must meet the following criteria:

• Complete or concurrent enrollment in EDS 203, EDS 206, and PSY 212 (or equivalent).
• Complete ENG 110 or ENG 112 with a grade of "C" or higher.
• Complete a minimum of 40 earned credits (including transfer credits) with a 2.75 combined cumulative grade point average.
• Satisfy the basic skills testing requirement (p. 512). UW-L must receive an official score report sent from ETS to the university.

Phase II: step application
Submit an electronic application (http://www.uwlax.edu/Secondary-Teacher-Education-Preparation/Admission) containing the following materials to the STEP Admission Committee by 4:30 p.m. by the fourth Monday of each semester:

1. Current resume
2. Teacher candidate recommendation references - submit the names and contact information of two professional references. The STEP Admission Committee will send the references a teacher candidate recommendation form. The form is designed to assess the candidate's qualifications for STEP admission.
3. Unofficial transcript
4. Educational experience reflection paper based on PHASE I coursework.

Phase III: step interview
Approximately two weeks following submission of the online application materials, STEP candidates meeting Phase I and II criteria will be contacted via e-mail to arrange the interview portion of the application process. Meeting the minimum eligibility criteria does not guarantee an interview.

Phase IV: step admission
Resources available limit the number of students admitted. Not all students completing the application process are admitted to STEP. Admission decisions will be sent to students via e-mail within one month following the application deadline.

Phase V: appeal and reapplication policy
Students who do not meet either the minimum GPA or the basic skills testing requirement (p. 512) (but not both) may appeal Phase I. A student must submit an appeal packet at least 30 days before the application deadline to the STEP Admission Committee containing:

1. Written statement of appeal identifying the requirement being appealed, reason(s) why the requirement was not satisfied, and why the committee should approve a waiver in this case.
2. Two letters of support from faculty/staff or other professionals who can address the issue being appealed.

Teacher education: Secondary Teacher Education Preparation (STEP) educational core coursework
36 core credits required as follows:

Educational Studies Department (EDS)

Department of Educational Studies
Interim Department Chair: Adrienne Loh
Email: aloh@uwlax.edu
4016 Cowley Hall; 608.785.8275

Department of Educational Studies main office
335 Morris Hall; 608.785.8132
www.uwlax.edu/educational-studies

Few professions offer the challenges, satisfactions, and rewards available in a teaching career. One’s individuality and creativity are cultivated in the exciting processes of creating opportunities for learning. The joy of watching people learn, whether children, adolescents, or young adults, is a benefit of this profession. The Department of Educational Studies (DES) at UW-La Crosse, through the School of Education, offers
programs that lead to licensure by the Wisconsin Department of Public Instruction.

Programs within the Department of Educational Studies

- Early Childhood-Middle Childhood Education Program (ages birth-11) (early childhood-middle childhood certification, abbreviated EC-MC)
- Middle Childhood-Early Adolescence Education Program (ages 6-12 or 13) (middle childhood-early adolescence certification, abbreviated MC-EA)
  - Requires completion of a minor: biology, chemistry, computer science, earth science, English, French, general science, geography, German studies, history, mathematics, physics, political science, school health education, social studies, sociology, Spanish, special education, teaching English to speakers of other languages (TESOL)
- Early Childhood-Adolescence Program (ages birth-21) (early childhood-adolescence certification, abbreviated EC-A)
  * Requires major in art, French, German studies, or Spanish

Minors in French, German studies, and Spanish are certifiable at the early childhood-adolescence developmental range only, unless another language is completed as a major. If a language major and language minor are completed, both languages may be certifiable at the early childhood-adolescence range.

Educational Studies admission to program policy

Applicants must apply and be accepted into the program prior to registration for certain education courses. Although applicants apply after 24 credits are earned, applicants can only be officially admitted to the Department of Educational Studies (DES) teacher education programs after the completion of 40 credits. Students are also required to disclose past criminal offenses (p. 510) to be admitted to any teacher education program.

Prior to submitting an application for admission to the Early Childhood-Middle Childhood Education Program (ages birth-11); Middle Childhood-Early Adolescence Education Program (ages 6-13), with a certifiable minor; and EC-A: Early Childhood-Adolescence Programs (ages birth-21), with a major in art, music, French, German studies, or Spanish; teacher applicants must meet the following criteria:

1. **Basic Skills Test**: Applicants must have passing scores on a basic skills test (p. 512) in order to apply to a teacher education program.

2. **Writing statement**: Early Childhood-Middle Childhood and Middle Childhood-Early Adolescence applicants must submit a writing statement based on a prompt supplied (see "admission requirements" on the Department of Educational Studies website (http://www.uwlax.edu/Educational-Studies) for the specific prompt) when they apply for the program.

3. **Preliminary course work**: Applicants seeking licensure in Early Childhood-Middle Childhood Education and Middle Childhood-Early Adolescence Education must have a minimum of 24 credits in which grade points have been earned (includes transfer credit). Applicants seeking licensure in EC-A must have a minimum of 40 credits in which grade points have been earned (includes transfer credit).

4. **Combined cumulative grade point average**: Early Childhood-Middle Childhood Education and Middle Childhood-Early Adolescence Education applicants must have earned a combined cumulative GPA of 3.00 in all academic work taken prior to applying for admission. EC-A applicants must have earned a combined cumulative GPA of 2.75. This includes transfer grade points averaged with residence grade points.

5. Applicants who have significant extenuating circumstances that prevent them from meeting one of the admission criteria above may provide a detailed letter documenting why they should still be considered for admission (in addition to submitting basic skills test (p. 512) scores, evidence of preliminary course work, and college transcripts). Documentation should include evidence to support the request for consideration (example: attempted number of times basic skills tests have been taken and past basic skills test scores). Applicants must also provide contact information for two references who can support their request and who can speak to their ability to be successful in the DES teacher education program.

Application procedures

Students who meet the criteria described above may obtain additional information on the application from DES. Applications are accepted during the first three weeks of the fall or spring semesters. Students who meet the criteria described above may fill out the DES admission application (http://www.uwlax.edu/Educational-Studies) under "admission requirements."

Applications will not be accepted after 4:00 p.m. on the Friday of the third week of the fall or spring semester. Incomplete applications will not be considered. Admission decisions will be sent to applicants via e-mail by Friday of the eighth week of each semester. Any applicant who changes major or licensure track must reapply for admission. Readmission will be based on current admission criteria.

Notice to potential teacher candidates:

Students should be aware that the Department of Public Instruction is specific in its requirements about the content of both general education and professional education; therefore, prospective teacher education candidates should work closely with an advisor from the outset of their studies at the university. Completion of Department of Public Instruction requirements for licensure may take longer than four academic years.

General education writing emphasis

This department incorporates a significant amount of writing through the required courses instead of identifying particular courses as writing emphasis courses. Students who complete a major in this department will fulfill the general education writing emphasis requirement (p. 53).

2015-16 Faculty/Staff

The following is the department’s faculty and staff as of the publication date of this catalog. This list will not be updated again until the next catalog is published in June.

Interim Department Chair

Early Childhood-Middle Childhood Education Program (ages birth - 11) - Bachelor of Science (BS)

The primary purpose of the Early Childhood-Middle Childhood Education Program is to advance teaching and learning while preparing teacher leaders for a global society. Our teacher preparation program, in collaboration with our public school partners, contributes to the teaching profession by producing teachers who believe that all students have the ability to achieve high standards, who adapt their teaching to reach all students, and who respect the diversity of all students. We prepare teacher candidates to become teachers who ground curriculum in the lives of students; who embrace multicultural perspectives and uphold just teaching practices; value academically rigorous curriculum; and are culturally sensitive. Our graduates are reflective practitioners who continuously improve their abilities and are responsive to best practices.

Major requirements

Admission requirements (p. 516)

Candidates completing this program earn a regular classroom teaching certification at the Early Childhood through Middle Childhood (EC-MC) developmental range (ages birth through 11). Candidates must fulfill the requirements below to be eligible to apply for licensure to teach students from birth though 11 years of age.

must accomplish the following:

Candidates for the Bachelor of Arts or the Bachelor of Science degrees

Departmental requirements

The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS Student Center). All enrolled students have access to the AR.

• General education (p. 53)
• Baccalaureate degree requirements (p. 519)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. At least 40 credits must be earned in 300/400 level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed "Apply for Graduation" form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). This sample plan also assumes readiness for each course and/or major plan. Actual degree plans may differ. Some courses may not be offered every term. Review course descriptions or the class timetable for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UW-L in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu/psp/csprod/?cmd=login&languageCd=ENG) and work closely with their faculty advisor(s) and college dean’s office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

General education (Gen Ed) is the common educational experience for all undergraduates at UW-L. Sample degree plans include Gen Ed placeholders to ensure completion of the general education curriculum. Courses may be rearranged to fit the needs or recommendations of the student’s program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Consult with your advisor and/or the assistant to the dean in your college for assistance with course and schedule planning. Refer to the general education requirements (p. 53) for more specific details.

Note: at least 40 credits of the 120 credits required must be earned at the 300/400 level.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career.

### Middle Childhood-Early Adolescence Education Program (ages 6 - 12 or 13) - Bachelor of Science (BS)

The primary purpose of the Middle Childhood-Early Adolescence Education Program is to advance teaching and learning while preparing teacher leaders for a global society. Our teacher preparation program, in collaboration with our public school partners, contributes to the teaching profession by producing teachers who believe that all students have the ability to achieve high standards, who adapt their teaching to reach all students, and who respect the diversity of all students. We prepare teacher candidates to become teachers who ground curriculum in the lives of students; who embrace multicultural perspectives and uphold just teaching practices; value academically rigorous curriculum; and are culturally sensitive. Our graduates are reflective practitioners who continuously improve their abilities and are responsive to best practices.

### Major requirements

#### Admission requirements (p. 516)

Candidates completing this program earn a regular classroom teaching certification at the Middle Childhood through Early Adolescence (MC-EA) developmental range (ages 6-12 or 13). Candidates must fulfill the major requirements below and the requirements for a certifiable minor to be eligible to apply for licensure to teach students from 6-13 years of age.

Minors in biology, chemistry, computer science, earth science, English, general science, geography, history, mathematics, physics, political science, social studies, and sociology are core subject areas and do not require the completion of additional requirements for certification.

Minors in French, German Studies, school health education, Spanish, special education, and teaching English to speakers of other languages (TESOL) are not core subject areas and require the completion of additional requirements for certification. See the minor program descriptions or contact the College of Liberal Studies Academic Services Office for more information.

---

1. Admission to teacher education requires a 3.0 GPA and passing basic skills test scores. See the MC-EA Admissions (http://www.uwlax.edu/Educational-Studies/MC-EA-admission) website for details.

2. Each candidate must also complete a minor (19-28 credits). List of certifiable minors (http://www.uwlax.edu/Educational-Studies/Middle-Childhood-Early-Adolescence-(MC-EA-Certification)-Program).

3. See the Office of Field Experience (http://www.uwlax.edu/SOE/For-teacher-candidates) for details about applying to student teaching.

---

## Early Childhood through Adolescence (EC-A) (ages birth-21) Program

The primary purpose of the Early Childhood-Adolescence (EC-A) Program is to advance teaching and learning while preparing teacher leaders for a global society. Our teacher preparation program, in collaboration with our public school partners, contributes to the teaching profession by producing teachers who believe that all students have the ability to achieve high standards, who adapt their teaching to reach all students, and who respect the diversity of all students. We prepare teacher candidates to become teachers who ground curriculum in the lives of students; who embrace multicultural perspectives and uphold just teaching practices; value academically rigorous curriculum; and are culturally sensitive. Our graduates are reflective practitioners who continuously improve their abilities and are responsive to best practices.

Certifiable majors include: art, French, German studies, music-general, music-choral, music-instrumental, and Spanish. Minors in French, German studies, and Spanish are certifiable at the early adolescence – adolescence developmental range only, unless another language is completed as a major. If a language major and language minor are completed, both languages may be certifiable at the early childhood – adolescence range.

### Major requirements

Admission requirements (p. 516)

Candidates must fulfill the requirements below and one or more certifiable majors to be eligible to apply for licensure to teach students from birth to 21 years of age. In addition to the major, students may choose to complete one or more minors to obtain further certifications.

Certifiable majors include: art, French, German studies, music-general, music-choral, music-instrumental, and Spanish.

1. Minors in French, German studies, and Spanish are certifiable at the early adolescence – adolescence developmental range only, unless another language is completed as a major. If a language major and language minor are completed, both languages may be certifiable at the early childhood – adolescence range.

Additional teacher requirements 2

2 Additional requirements can be found through the School of Education (p. 509) and may require official admission to teacher education.

Degree requirements

All students must complete the general education, college core (waived for teacher certification programs), major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

• General education (p. 53)
• Baccalaureate degree requirements (p. 523)

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course requirements for a major or minor after the fourth week of the last semester of the senior year.)
4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. 1 At least 40 credits must be earned in 300/400 (senior college) level courses. Courses earned at the 100/200 level that transferred to UW-L as 300/400 level courses do not apply to this requirement nor do courses from two-year schools.
5. Complete major and minor requirements with at least a 2.00 GPA 1 in each major and minor (and concentration or emphasis, if selected).
6. A minimum of 30 semester credits in residence at UW-L is required for graduation. (See undergraduate resident requirement (p. 34).)
7. File a completed “Apply for Graduation” form via the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should file by May 1. May and summer graduates should file by December 1.

1 Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Special Education Program

The special education minor prepares teacher education candidates to earn a Cross-Categorical Special Education Certification (#801). Teacher candidates choose an emphasis area within the fields of Cognitive Disabilities (CD), Emotional Behavior Disorders (EBD), or Specific Learning Disabilities (SLD). Certification courses generally follow a fall-only or spring-only course delivery model at the undergraduate level. Candidates may choose between two developmental ranges: middle childhood-early adolescence (MC-EA) (ages 6-13 years) or early adolescence-adolescence (EA-A) (ages 11-21 years). Early childhood-adolescence (EC-A) candidates may choose to complete the special education certification at the EA-A developmental range. All candidates must apply for admission to the special education minor separately from other teacher education programs.

The special education minor is comprised of the following program tracks:

1. Undergraduate degree-seeking certification minor
2. Undergraduate non-degree-seeking (add-on) certification sequence

Note: Federal financial aid is not available for students pursuing an add-on teaching certification. Private educational loan opportunities are also limited for non-degree seeking students.

Minor requirements

The Special Education minor has two tracks 1 for which candidates may seek admission at the undergraduate level:

• Degree-seeking minor
• Non-degree-seeking add-on certification.

The special education minor track is for undergraduate degree-seeking candidates completing a traditional undergraduate major and minor course sequence. The non-degree-seeking add-on track is for candidates who have already completed an undergraduate degree in education and hold or are eligible to hold a Wisconsin teaching license.

1 Please choose the appropriate program track when applying for admission, as applying for the wrong track may cause a delay in your admission.

Admission

Degree seeking:

Degree seeking teacher education candidates that desire to earn cross-categorical special education certification must complete a separate admission for the Special Education Program. Candidates must complete admission to a teacher education program major prior to or in the same semester as applying to the Special Education Program. Admission to a Department of Educational Studies major program (Middle Childhood-Early Adolescence Education Program or Early Childhood-Adolescence Program) or Secondary Teacher Education Program
(STEP) major program (Early Adolescence-Adolescence) does not guarantee admission into the Special Education Program. A candidate must be admitted to a teacher education major program in order to be admitted to the degree-seeking minor.

Special Education Program applications are accepted one time each semester. All application materials (http://www.uwlax.edu/Educational-Studies/SPE-minor-admission) are electronic and are due by 4:30 pm on the Friday of the third week each fall and spring semester.

Non-degree seeking add-on:
Non-degree seeking teacher education candidates that desire to earn a cross-categorical special education add-on certification must apply to the Special Education Program. All application materials must be submitted to the Special Education Program Director for admission consideration. Special Education Program applications (http://www.uwlax.edu/Educational-Studies/SPE-Add-on-requirements) are electronic and accepted on a rolling admission basis.

Curriculum
(37 credits for either special education tracks mentioned above)

All core courses are required for each certification option.

All certification coursework must be completed prior to the professional practice semester. Candidates must also pass the Middle School Content test (Praxis II #0146 or #5146), the Wisconsin Foundations of Reading test, complete self-report criminal background check documents, complete the pre-student teaching portfolio prior to student teaching, and the post-student teaching electronic portfolio benchmark requirement.

Degree-seeking candidates must have a combined cumulative grade point average (CGPA) of at least 2.75 in order to enroll in the student teaching semester.

Non-degree-seeking candidates must have a 2.75 GPA in the special education coursework in order to enroll in the student teaching semester.

General Science Education Minor (Middle Childhood-Early Adolescence)

The general science minor provides teacher candidates with a broad exposure and study of the fields associated science education. Candidates take courses from a variety of departments to investigate areas including biology, chemistry, earth science, and physics. Candidates also investigate what it means to be a leader in elementary and middle level science education.

Social Studies Education Minor (Middle Childhood-Early Adolescence)

The social studies minor provides teacher candidates with a broad exposure and study of the fields broadly associated social studies. Candidates take courses from a variety of departments to investigate areas including archeology, economics, history, geography, political science, and sociology. Candidates also investigate local cooperatives and how they operate.

Course descriptions

Accountancy (ACC) - Courses

Courses

ACC 221 Cr.3
Accounting Principles I
An introduction to accounting as an information system. Emphasis is on reporting to external constituencies: investors, creditors, and governmental agencies. Topics include recording economic activities of the firm and the resultant financial reports, federal income taxation, and time value of money. Prerequisite: students must have successfully completed a minimum of 12 credit hours. Offered Fall, Winter, Spring, Summer.

ACC 222 Cr.3
Accounting Principles II
Emphasis is on reporting to internal constituencies: managers in all functional areas of the firm. An introduction to accounting principles used to prepare internal financial reports used for management decision-making. Topics include cost determination and flow, cost-volume-profit analysis, absorption and variable costing, capital budgeting, and cash flow analysis. Prerequisite: ACC 221 completed with a grade of "C" or better. Offered Fall, Winter, Spring, Summer.

ACC 235 Cr.3
Survey of Accounting
Basic accounting principles and procedures: the accounting equation, analysis of transactions and accounting cycle. Introduction to financial, managerial and tax accounting concepts and procedures for non-profits and governmental entities. Prerequisite: students must have successfully completed a minimum of 12 credit hours. Not open to students in the College of Business Administration. Offered Occasionally.

ACC 301 Cr.3
Taxation for Non-Accountants
An introduction to the basic concepts of many types of taxes affecting the individual with primary emphasis placed on federal income tax. Selected other taxes studied include property taxes, sales taxes, payroll taxes, gift and estate taxes. Prerequisite: admission to business. Not open for credit for accountancy majors. Offered Fall.

ACC 321 Cr.4
Intermediate Accounting I
Designed for students planning on considering an accounting major or minor. The course involves the intensive study of both theory and practice, as they relate to the preparation and analysis of the balance sheet, income statement, retained earnings statement, and cash flow statement. Topics include but are not limited to, current assets, fixed assets, intangible assets, current liabilities, and long-term liabilities. Prerequisite: ACC 221. Offered Fall, Spring.

ACC 322 Cr.3
Intermediate Accounting II
An extension of the theory and application of accounting principles involved in the financial analysis of assets, liabilities and owners equity of the accounting entity. Problem areas in accounting and financial reporting are emphasized. Prerequisite: ACC 321; admission to business. Offered Fall, Spring.

ACC 324 Cr.3
Practical Applications of International Financial Reporting Standards (IFRS)
This course provides students with exposure to the most commonly used International Financial Reporting Standards (IFRS). While this course is not intended to be a comparison to US GAAP, certain of the IFRS will be addressed in the context of US GAAP to demonstrate how the two bases are similar and how the two bases differ. IFRS is now the primary or alternate basis of financial accounting and reporting in more than 100 countries and is tested on both the CPA and CFA examinations. Prerequisite: ACC 321. This course is not open to students who have earned credit in ACC 400 (IFRS) or ACC 422. Offered Spring.

ACC 325 Cr.3
Cost Accounting
A specific study of job order and process cost systems used in the costing of a product, integrated with the use of standard and estimated cost concepts in the operation of these systems. The relationship of budgeting to profit planning and business control. Prerequisite: ACC 222, MTH 145; admission to business. Offered Fall, Spring.

ACC 327 Cr.3
Accounting Information Systems
Procedures and programs in system design applied to the financial operations of a business and the role of the computer in processing financial information. Topics covered are responsibility accounting systems, inventory systems, sales analysis systems, and internal control. Prerequisite: ACC 321; IS 220; admission to business or information systems minor. Offered Fall, Spring.

ACC 330 Cr.3
Individual Income Taxation
The course examines tax principles and procedures that form a basis and foundation for the determination and computation of federal income tax liability for individual taxpayers. Prerequisite: ACC 321; admission to business. Offered Fall, Spring.

ACC 350 Cr.2
Field instruction and practical experience in federal and state income tax preparation. Repeatable for credit - maximum four. Prerequisite: minimum grade of "B" in either ACC 301 or ACC 330; admission to business. Pass/ Fail grading. Offered Spring.

ACC 400/500 Cr.1-3
Accountancy Forum
Emphasis will be on examination and study of current accountancy issues. Topics will vary from semester to semester. Repeatable for credit - maximum six. Prerequisite: admission to business; junior standing. Consent of department. Offered Occasionally.

ACC 418/518 Cr.3
Business Law for Accountants
The study of law as it relates to the professional accountant’s need for an understanding of the legal environment. Among topics included are accountant’s legal responsibility, federal security regulation, antitrust laws, employer-employee relationship, bankruptcy, forms of business organization, estates and trusts, commercial paper, contracts and insurance. Prerequisite: BUS 205; senior standing; accountancy major; admission to business. Offered Fall, Spring.
ACC 421/521 Cr.3
**Advanced Accounting**
Theory and principles of accounting as they relate to the environment of financial reporting and the definition of the reporting entity. Complex business combinations are considered under the purchase and pooling-of-interests methods of reporting for mergers, consolidations, and parent-subsidiary relationships. Reporting for advanced partnership problems, fiduciary responsibilities, and governmental and not-for-profit organizations in consideration of the legal nature of each entity and its particular financial reporting environment. Prerequisite: ACC 322; junior standing; admission to business. Offered Fall, Summer.

ACC 422 Cr.3
**International Financial Reporting Standards (IFRS)**
The US CPA examining board’s specifications include International Financial Reporting Standards (IFRS) coverage. IFRS has become a globally recognized basis for financial accounting and reporting. IFRS is now the primary or alternate basis of financial accounting and reporting in more than 100 countries. This course provides students with exposure to nearly all IFRS. This challenging course includes topics from ACC 321, ACC 322 and ACC 421 in addition to IFRS topics not addressed in those courses. While this course is not intended to be a comparison to US Generally Accepted Accounting Principles (GAAP), certain of the IFRS will be addressed in the context of US GAAP to demonstrate how the two bases are similar and how the two bases differ. Prerequisite: ACC 421 or concurrent enrollment. Offered Fall.

ACC 430/530 Cr.3
**Taxation II**
A study of advanced tax law affecting individuals and businesses. This course will include advanced tax planning and research. Prerequisite: ACC 330; junior standing; admission to business. Offered Fall, Spring.

ACC 435/535 Cr.3
**Governmental and Institutional Accounting**
A study of accounting techniques as applied to the accounting systems of a governmental unit: federal, state and local or political subdivisions and public institutions such as schools, hospitals and other not-for-profit institutions. Emphasis is placed on fund accounting as distinguished from profit-motive accounting. Prerequisite: ACC 322 or equivalent as determined by accounting department chair and class instructor; junior standing; admission to business. Offered Occasionally.

ACC 438/538 Cr.3
**Principles of Auditing**
Introduces the student to auditing, attestation, and assurance services. Topics include: client acceptance, audit planning, client internal control systems, audit risk, materiality, audit evidence, audit sampling, audit documentation, engagement quality control, professional ethics, legal liability, and the audit, attestation or assurance report issues by the auditor. The sources of authoritative standards and interpretations addressed in the course include: Audit Standards issued by the Public Company Accounting Oversight Board applied to clients that are required to report to the United States Securities and Exchange Commission, Statements on Auditing Standards for all other clients, and the Code of Professional Conduct issued by the American Institute of Certified Public Accountants. Prerequisite: MTH 145, ACC 322, ACC 327; junior standing; admission to business. Offered Fall, Spring.

ACC 450 Cr.1-6
**College of Business Administration Internship**
The internship program as conceived and implemented is an unusual program designed to provide an opportunity for students in the College of Business Administration at the University of Wisconsin-La Crosse to participate in an approved program with a cooperating business, governmental or civic organization for usually 15 weeks of their undergraduate work. For additional information, see internship description under the College of Business Administration heading. Repeatable for credit. Zero to six credits is applicable to the accountancy major. Prerequisite: cumulative GPA of at least 2.50; ACC 221, ACC 222; BUS 205, BUS 230; ECO 110, ECO 120; FIN 355; IS 220; MGT 308; MKT 309; admission to business. Pass/Fail grading. Offered Fall, Winter, Spring, Summer.

ACC 499 Cr.1-3
**Independent Study**
Individual readings or research under the guidance of a staff member. Open to selected advanced students who have excellent records in the department. Repeatable for credit - maximum six. Prerequisite: admission to business. Consent of instructor. Pass/Fail grading. Offered Fall, Winter, Spring, Summer.

---

**Anthropology (ANT) - Courses**

+ next to a course number indicates a general education course

**Courses**

+ANT 101 Cr.3
**Human Nature/Human Culture**
This course provides an overview of the four subfields of anthropology: physical anthropology, archaeology, cultural anthropology, and linguistic anthropology. The course will focus on how anthropologists seek to understand what it means to be human by examining how people are biologically, culturally, and socially similar and different around the world. We will cover multiple aspects of the human experience, including human evolution and biological diversity, primates and hominids, domestication and subsistence practices, marriage systems, sex and gender norms, religious beliefs, and linguistic diversity. Offered Annually.

+ANT 102 Cr.4
**Introduction to Physical Anthropology**
This course introduces the basic fields of physical anthropology: population genetics, human osteology, primatology, pale anthropology, and forensics. The class provides a substantive framework for learning about the biological diversity of the human species through scientific inquiry. The foundations of evolutionary theory and the fossil evidence for human evolution are also presented. Lect. 3, Lab. 2. Offered Annually.

ANT 195 Cr.3
**Introduction to Cultural Anthropology**
This course examines the behavior and customs of people throughout the world. Students will gain a better understanding of the variation of human thought and behavior and how anthropologists analyze the vast range of cultural differences. We will describe the patterns of marriage, family organization, gender and sexuality, political behavior, economic systems, subsistence patterns, religion and ritual, etc. of societies all over the world. We will also examine some of the global issues that societies contend with, such as development, transnational migration, and the economic and political ramifications of colonization. Prerequisite: declared anthropology minor. Offered Annually.
ANT 196 Cr.3
Introduction to Linguistic Anthropology
This course is an introduction to linguistic anthropology. Language is central to enculturation, whether it comes in the form of speech, writing, gesture, or style. We will start with a four-field perspective, examining the origins of human communication, early writing systems, cultural differences in language socialization, and how people use language now. From there, we will focus on the role language plays in people’s social lives. Topics include gesture, literacy and global media, linguistic variation, language and identity, multilingualism, and language change and loss. Offered Annually.

ANT/SOC 202 Cr.3
Contemporary Global Issues
This course will offer a contemporary multi-disciplinary perspective regarding the major issues and trends confronting the Global Society as it enters the 21st century. Emphasis will be given to a critical review and assessment of the origin and present condition of the plethora of situations and problems affecting modern Global Society. The student will also learn to critically evaluate current and future events. The course will incorporate the views and approaches of the following disciplines: sociology/anthropology, economics, geography, political science and history. Cross-listed with ANT/ECO/GEO/HIS/POL/SOC 202; may only earn credit in one department. Offered Annually.

ANT 212 Cr.3
Search for Economic Justice
Using humanistic and social scientific approaches, students will explore movements for economic empowerment as a critical dimension of justice in the increasingly global world. Through a mixture of face-to-face, online, and experiential methods, students will examine connections between the individual and larger systems and between the local and the global. They will critically analyze economic and political structures and movements as they pertain to gender, race, ethnicity, and class. The course will be informed by the perspectives of English, economics, political science, anthropology, and women’s, gender, and sexuality studies. Students may only earn credit in one of the following: ANT 212, ECO 212, POL 212, WGS 212. Offered Annually.

ANT 215 Cr.3
Refugees, Displaced Persons & Transnational Communities
This course explores the lives of refugees, displaced persons and the emergence of transnational communities. Emphasis is placed on the causes of refugee movements; policies and practices concerning the status and rights of refugees; and asylum and resettlement in other countries. A comparative approach is used to draw attention to how people cope with displacement and transnational migration and establish new roots in the country of resettlement. Prerequisite: ANT 101 or ANT/SOC 202 or ARC 100 or SOC 110 or SOC 120. Offered Fall, Spring.

ANT 250 Cr.3
Women and Society
A comparative and evolutionary analysis of the development of sex roles in human society, concentrating on the experience of females. Considers sexual dimorphism; symbolic background of gender; relationships between techno-economy, social structure, political organization and women’s roles; personality and sex roles; and the experience of women in America. Offered Annually.

ANT 266 Cr.3
Anthropology of Food
Cross-cultural practices and beliefs about the production, consumption, and distribution of food vary widely. This course examines food in a historical, social, and cultural context, focusing on the topics such as subsistence patterns and cultural patterns of food preparation and consumption; contemporary diets and the increasing prevalence of obesity, diabetes, and heart disease; cultural practices that restrict food intake or dictate food taboos; the globalization and “McDonaldization” of food; and others. The goal of the course is to provide students with theoretical and methodological tools to analyze food as a symbolic, political, and cultural artifact in today’s world. Prerequisite: ANT 101 or SOC 110 or SOC 120 or ANT/SOC 202. Offered Occasionally.

ANT 290 Cr.3
Andean Anthropology
This course focuses on peoples and cultures of the South American Andean region. Students will examine the various cultural beliefs and practices detailed in the ethnographic record of Andean peoples, such as the impacts and influence of colonialism on the present; religion and rituals; race, ethnicity, and gender; contemporary social movements; globalization and patterns of migration; and, media portrayals of the region. Prerequisite: ANT 101 or SOC 110 or SOC 120 or ANT/SOC 202. Offered Occasionally.

ANT/ARC 304 Cr.3
Hunter and Gatherer Societies
This course focuses on recent human societies throughout the world that have lived by hunting and gathering wild resources. The specific subsistence strategies of a wide range of hunter-gatherer groups are examined relative to their technology, social structure, territory, demography and interaction with food producers. The conclusion of this course will consider hunter-gatherers in prehistory. Prerequisite: ANT 101 or ARC 196. (Cross-listed with ANT/ARC; may only earn credit in one department.) Offered Occasionally.

ANT/ARC 305 Cr.3
Indigenous Agricultural Societies: Past & Present
This course examines the origins, structure, social organization, and operation of indigenous agricultural societies. A central focus of the course is an inquiry based, sequential examination of geographically related couplets involving (1) contemporary indigenous agricultural tribal societies and (2) archaeological excavation reports. The utility of the ethnographic record as a guide to interpretation of the archaeological record is evaluated. Prerequisite: ANT 101 or ARC 196. (Cross-listed with ANT/ARC; may only earn credit in one department.) Offered Occasionally.

ANT/SOC 307 Cr.3
International Development and Culture Change
This course provides students with an overview of socio-cultural theories of international development and culture change. The course examines the cultural construction of “development” as a product of the colonial era, the Cold War, and what has been called the neo-liberal global economy. The goal of the course is to provide students with a comprehensive study of the strengths and limitations of contemporary development theory and method in anthropology and sociology, including such topics as conservation and the environment, indigenous peoples, gender and development, and the role of social movements and non-governmental organizations in the developmental process. Prerequisite: ANT 101 or ANT/SOC 202 or SOC 110 or SOC 120. (Cross-listed with ANT/SOC; may only earn credit in one department.) Offered Occasionally.
ANT/HIS 312 Cr.3
Peoples and Cultures of Eastern Europe and the Former Soviet Union
This is a survey course that explores how people in Eastern Europe and the former Soviet Union have experienced the transition from socialism to postsocialism and beyond. Within the framework of cultural anthropology, we will examine the major concerns of postsocialism - including how people understand the role of the government, what is means to be a citizen, and how they view themselves as members of communities - in order to gain a better understanding of how people experience, manage, and challenge the broad changes that have occurred in the political, economic, and social systems. More importantly, we will focus on how people have redefined what they value in life, what it means to be a "good" person, and what it means to be "postsocialist" in light of these changes. (Cross-listed with ANT/HIS; may only earn credit in one department.) Offered Occasionally.

ANT 320 Cr.3
Rites, Rituals and Ceremonies
This course examines the roles of rituals in family, community and national life. It introduces students to a variety of ritual traditions and symbolic practices from around the world. In the process, students will learn about the different approaches to studying, analyzing and interpreting the significance of rituals. Prerequisite: ANT 101 or SOC 110 or SOC 120 or ANT/SOC 202. Offered Fall, Spring.

ANT 321 Cr.3
Images, Visual Culture and Anthropology
This course engages students in the practices of looking and encourages them to read into the meanings behind images. By combining movies, still photography, advertisements and illustrated magazines with class readings, discussions and assignments, students will learn to see the complex roles images play in modern society; how non-Western people have historically been represented in popular culture; and how experiences of the visual are informed as well as complicated by social, cultural and political histories. Prerequisite: ANT 101 or ANT/SOC 202 or ARC 100 or SOC 110 or SOC 120. Offered Every Third Semester.

ANT 323 Cr.3
Anthropology of Youth and Adolescence
This course provides an overview of the anthropology of youth and adolescence, emphasizing how these concepts both vary and are similarly-shaped cross-culturally. Starting with the idea that categories of youth are flexible and achieved through everyday practice, we will examine topics such as socialization, development, rites of passage, adult perspectives of the adolescent experience, subcultures, and youth engagement with globalization and technology. In our discussions, we will also consider how adolescents are active agents in shaping the world around them and conversely, how they are shaped by their worlds. Prerequisite: ANT 101 or ANT 195 or ANT/SOC 202 or SOC 110 or SOC 120. Offered Occasionally.

ANT/ARC 335 Cr.3
Human Skeletal Anatomy and the Anthropological Study of the Dead
This course is designed for students majoring in archaeological studies or related fields. The focus of this course is a detailed study of the human skeleton. Each student will be required to learn the anatomy of the human skeleton in detail. Also considered are methods of determining an individual's age, ethnic origins, sex, and stature from skeletal remains. The final three weeks of the course will be concerned with anthropological interpretation of the dead. Offered Occasionally.

ANT 343 Cr.3
North American Indians
This course concentrates on the Native peoples of North America (north of Mexico) immediately following the arrival of Europeans. The cultural patterns of representative groups will be studied intensively in each major region of North America. The region-by-region survey will be preceded by a brief discussion of the place of origin and time of arrival of the first people in the New World. This course will not be considering contemporary Native American issues. Prerequisite: ARC 200 recommended. Offered Occasionally.

ANT/ARC 346 Cr.3
Ethnoarchaeology and Experimental Archaeology
Archaeology isn't only about excavations: Since the 1960s, anthropologists have also examined aspects of life in the present as a way to better interpret material culture found at ancient sites. Ethnoarchaeology uses ethnographic field methods among modern peoples to develop informed hypotheses about life in the past. Experimental archaeology uses controlled scientific experiments to develop models about past behaviors including tool use, pottery production, etc. This course will cover both of these "middle-range" approaches, and will require participation in hands-on ethnoarchaeological and experimental class projects. Prerequisite: ANT 101 or ANT 195 or ANT/SOC 202 or ARC 100 or ARC 196 or ARC 200. (Cross-listed with ANT/ARC; may only earn credit in one department.) Offered Occasionally.

ANT 351 Cr.3
Peoples and Cultures of Southeast Asia
Southeast Asia is a region of immense diversity with a long history of cultural mixing and blending. This class is a journey across this vast landscape to learn about the stories behind its ongoing histories, the dynamic influences on its changing cultures, and the vibrant lives of its peoples. Issues that matter to the everyday life of Southeast Asians are explored in relationship to national, regional and global trends. Prerequisite: ANT 195 or SOC 110 or SOC 120 or ANT/SOC 202. Offered Occasionally.

ANT/ARC/HIS 353 Cr.3
Maya Civilization
The course presents an overview of the Maya culture located in southern Mexico and Central America. The class is organized chronologically into several sections that focus on the origins, adaptations to various environments, social, political, and religious organizations, and the belief systems of the Maya beginning at around 3000 BC. Emphasis will be on Pre-Hispanic Maya; will also explore life ways of contemporary Maya people. (Cross-listed with ANT/ARC/HIS; may only earn credit in one department.) Offered Summer.
ANT/SOC 354 Cr.3
**Peoples and Cultures of Latin America**
This course is designed to give students an anthropological perspective on contemporary peoples living in Central and South America, the Spanish-speaking Caribbean, and Mexico. The course provides an overview of Latin American pre-histories, analyzing how the past influences present-day societies. The course then examines particular cultural aspects of the region, such as religion and ideologies, race, ethnicity, and gender, popular culture and the media, culture change, and social movements. Discussions throughout the course will also focus on the Latin American diaspora and how Latin American cultures are shaping, and shaped by, other cultures around the globe. Prerequisite: ANT 101 or ANT/SOC 202 or SOC 110 or SOC 120. (Cross-listed with ANT/SOC, may only earn credit in one department.) Offered Occasionally.

ANT/ARC 357 Cr.3
**Peoples and Cultures of Africa**
An anthropological introduction to the peoples and cultures of sub-Saharan Africa. Through classic and contemporary ethnography, as well as literature and film, this course will examine the history, diversity, and richness of African civilizations from pre-colonial times to the present. Throughout the course we will examine and challenge Western narratives about Africa and Africans, and take a critical approach to understanding current social, political, and economic issues facing African peoples. (Cross-listed with ANT/ARC; may only earn credit in one department.) Offered Occasionally.

ANT/ERS/SOC 362 Cr.3
**Hmong Americans**
This is an introductory course to Hmong American history, culture, and contemporary life. The course reviews Hmong history within the context of U.S. foreign policy in Southeast Asia from 1945 to 1975 and examines the sociocultural transformations that have been taking place in Hmong American communities across the U.S. since 1976. Prerequisite: ANT 101 or ANT 195 or ANT/SOC 202 or ARC 100 or SOC 110 or SOC 120. (Cross-listed with ANT/ERS/SOC; may only earn credit in one department.) Offered Occasionally.

ANT 370 Cr.3
**Medical Anthropology**
Using international examples, this course provides an overview of concepts and theories in medical anthropology and examines how an individual’s interactions with the social and physical environment influence the experience of health and illness. The course focuses on medical anthropology as a subfield of anthropology, discussing specific global health issues such as cultural beliefs and practices of health and healing; complementary and alternative medicine in the U.S.; the effects of race, ethnicity, gender, and class on health status; medicine and power; HIV/AIDS, bioethics and biotechnology; and, the application of medical anthropology in international and domestic settings. Prerequisite: ANT 101 or SOC 110 or SOC 120 or ANT/SOC 202. Offered Occasionally.

ANT 375 Cr.3
**Language, Power, and Inequality**
This course will examine how our ideas about language intersect with differences in power and social inequality cross-culturally. These ideas about language include how we think people “should” speak, who speaks the “best,” and which language varieties are valued. Focusing on the role of institutions, we will explore issues such as standardization, authenticity, language hierarchies and the effects of colonialism, “mixed” languages, political correctness, and global Englishes. This class will also examine how our ideas about language are used to construct and reflect social boundaries, which can affect people’s social and political opportunities. Prerequisite: ANT 101 or ANT 195 or ANT 196 or ANT/SOC 202. Offered Occasionally.
Archaeology (ARC) - Courses

+ next to a course number indicates a general education course

Courses

+ARC 100 Cr.3

Archaeology: Discovering Our Past
This course is an introduction to the fascinating world of archaeology designed as a detailed exploration of the methods used to learn about past human life before written records. Each student will be involved in the process of discovering our past. Not recommended for archaeological studies majors. Offered Annually.

ARC 101 Cr.1

Orientation to the Archaeological Studies Major
This course is an orientation to the archaeological studies major. It is designed for students who have either declared or are considering archaeology as a major. It is appropriate for second semester freshman through first semester juniors and all transfer students. The field of archaeology as a discipline will be discussed as will career options related to the field. Students will be required to complete a variety of tasks designed to identify and/or clarify career paths and goals and increase their understanding of archaeology as both an empirical and applied science. Pass/Fail grading. Offered Spring.

ARC 195 Cr.3

Archaeology: An Introduction to the Science of Archaeology
An introductory course for archaeology majors. Methods and techniques for the recovery and interpretation of archaeological evidence are examined as well as the role of archaeology in modeling past human behavior and environments. Breakout sessions include exposure to and interpretation of material culture, field and lab methods, use of classification systems, and examination of prehistoric technologies such as stone tools and pottery. Prerequisite: archaeology major or minor and concurrent enrollment in ARC 196. Offered Fall.

ARC 196 Cr.1

Archaeology: An Introduction to Lab and Field Methods
This course is a laboratory and field learning component to the course ARC 195. The course provides important hands-on learning opportunities for archaeology majors to further introduce and reinforce topics introduced in ARC 195. Lab sessions provide foundational knowledge in the processing and analysis of archaeological finds and field records. Field excavation sessions provide students basic training in the methods and techniques for the recovery and interpretation of archaeological evidence from archaeological sites. Prerequisite: concurrent enrollment in ARC 195; or ARC 100 and instructor consent. Offered Fall.

+ARC 200 Cr.3

World Archaeology: Origins and Development of Human Culture and Society
The complex global institutions that make up our modern world have antecedents going back thousands of years. This survey course explores the origins of these cultural institutions and their development in Africa, the Middle East, Europe, Asia and the New World from an archaeological perspective. This course also examines the intimate interconnections between human culture, technology, and the natural environment, and it explores the long-term impact of human behavior on the environment over the last several thousand years. Specific themes explored include the biological origin of our species, the first use of tools and the development of artistic expression, human response to climate change, the origins and development of agriculture and animal domestication, the advent of writing, history and science, the rise of urbanism and state level society, and the lasting cultural impacts of early global interactions among the great civilizations of the ancient world. Offered Fall, Spring.

ARC/HIS 204 Cr.3

Ancient Literate Civilizations
An historical and archaeological study of ancient Eurasia and North Africa, including a survey of the major archaeological sites. Topics such as the development of urbanization in the Near East and Mediterranean, and comparative studies of the Indus civilization, China, Classical Greece, Rome, and the New World will be discussed. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC 231 Cr.3

Introduction to Underwater Archaeology
This course provides an introduction to the exciting field of underwater and maritime archaeology. Two-thirds of the modern planet is covered in water, and this course will discuss the role that rivers, lakes, and oceans have played in human history and in the preservation of this history. We will look at the history of seafaring and the earliest evidence for coastal communities. We will talk about the role that vessels have played in human expansions, warfare, trade, and everyday life. We will investigate previously-terrestrial sites that have become submerged, and the archaeology of great maritime centers. We will also discuss how archaeologists discover, excavate, study, and preserve the remains we recover from underwater sites. Offered Occasionally.

ARC 241 Cr.3

North American Archaeology
An intensive survey of the prehistoric cultures of North America north of the Rio Grande from the initial peopling of the New World to European contact. Major archaeological sites and cultures will be critically examined and an interdisciplinary approach is stressed. Offered Occasionally.

ARC 250 Cr.3

Museum Studies
This introductory course provides a history of museums, their goals and methods, administration, curation and exhibit techniques. Participants will be taking field trips to museums. Offered Occasionally.

ARC 280 Cr.3

The Incas and their Ancestors: Archaeology of the Andes
This course reviews the prehistory and early historic periods of the Andean regions of South America. Emphasis will be placed on tracing the rise of civilization in the Andes which culminated in the Inca Empire and the extraordinary events that led to the conquest of the Inca by the Spanish conquistadors. Topics to be explored include the controversial evidence of early man in South America, the role of the ocean and mountains in shaping pre-hispanic life, the origin of domesticated plants and animals, and the rise of the complex societies of Moche, Tiwanaku, Wari, Chimú, and of course, the Inca. Offered Occasionally.

ARC 285 Cr.3

Archaeology of Mexico and Central America
This course offers the student an overview of the evolution of the civilizations of ancient Mesoamerica (Mexico and Central America) from the earliest stages of hunting and food gathering until the conquest of Mesoamerica by Spain in the early 16th century. The course describes the social and economic life as organized by a complex religion which produced human sacrifice, writing, calendrical systems, advanced art forms, iconography, and monument building activities. Offered Summer.
ARC/HIS 295 Cr.3
Pyramids, Temples and Towns! The Archaeology of Ancient Egypt
This course is a survey of the archaeology of Ancient Egyptian civilization from an anthropological perspective and examines the Neolithic through Roman periods, ca. 5000 BC - AD 285. In this course, we will investigate the rise and development of Egyptian culture by examining selected archaeological sites and the material remains left behind by the ancient Egyptians. Using these materials, we will address specific topics of Ancient Egyptian civilization including the formation of the centralized state, sacred vs secular space, royal and private mortuary practices, urbanism, religion, roles of women in society, everyday life, history of Egyptian archaeology, recent discoveries, and future directions in the archaeology of Egypt. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Every Third Semester.

ARC 300 Cr.3
Cultural Resources Management
Since the 1980's American archaeology has shifted from a strictly academic profession to a more practical occupation in which consulting and the implementation of legislation and public policy are major components. In fact, today Cultural Resource Management (CRM) is the dominant force in archaeology in the United States. The primary goals of this class are to provide students with an appreciation of the importance of CRM and an understanding of the legislation that drives it, as well as exposure to the everyday practices of archaeologists working in a CRM context. Prerequisite: ARC 196 recommended. Offered Occasionally.

ARC 303 Cr.3
Archaeology Lab Methods
Taking a hands-on approach to analyzing and interpreting archaeological remains, the class will integrate lectures with demonstrations, experiments, and supervised laboratory projects. Study will focus on the potential for interpreting human life ways and adaptations to the environment from stone tools, ceramics, floral, and faunal remains. Prerequisite: ARC 196. Offered Occasionally.

ANT/ARC 304 Cr.3
Hunter and Gatherer Societies
This course focuses on recent human societies throughout the world that have lived by hunting and gathering wild resources. The specific subsistence strategies of a wide range of hunter-gatherer groups are examined relative to their technology, social structure, territory, demography and interaction with food producers. The conclusion of this course will consider hunter-gatherers in prehistory. Prerequisite: ANT 101 or ARC 196. (Cross-listed with ANT/ARC; may only earn credit in one department.) Offered Occasionally.

ANT/ARC 305 Cr.3
Indigenous Agricultural Societies: Past & Present
This course examines the origins, structure, social organization, and operation of indigenous agricultural societies. A central focus of the course is an inquiry based, sequential examination of geographically related couplets involving (1) contemporary indigenous agricultural tribal societies and (2) archaeological excavation reports. The utility of the ethnographic record as a guide to interpretation of the archaeological record is evaluated. Prerequisite: ANT 101 or ARC 196. (Cross-listed with ANT/ARC; may only earn credit in one department.) Offered Occasionally.

ARC 310 Cr.3
Midwest Archaeology
This course will focus on the human occupation in the Midwest/Great Lakes region over the past 12,000 years. Emphasis will be given to the dynamic quality of cultural adaptation and social organization. The cultural developments leading to the Middle Woodland and Mississippi climaxes in the region are to be stressed. Prerequisite: ARC 196. Offered Occasionally.

ARC 312 Cr.3
African Archaeology
Africa has the longest archaeological record in the world. This course will examine the archaeology of African peoples from millions of years ago to the present, with particular emphasis placed on the last ten thousand years of African prehistory. Topics covered will include the continent’s unique pathways to food production, as well as the development of metallurgy, the rise of complex urban societies such as Aksum and Jenne Jeno, and contemporary issues in cultural heritage. Offered Occasionally.

ARC 320 Cr.3
Historical Archaeology
The focus of this course is historical archaeology. This discipline combines an archaeological evaluation of material remains from the historic past with an examination and analysis of historical sources. In the New World, historical archaeologists work on a broad range of sites that document early European settlement and its effects on Native American peoples, wars fought on American soil, the subsequent spread of the Euro-American frontier, and later periods of urbanization and industrialization. Historical archaeologists seek to understand the past from an anthropological perspective and appreciate how broad historical developments have shaped modern society. In this class, we will explore all these aspects of historical archaeology in the New World and abroad. Prerequisite: ARC 196. Offered Occasionally.

ANT/ARC 330 Cr.3
Pastoralism: Past and Present
Mobile pastoralism is a way of life centered on the management and herding of livestock. It has had a powerful impact on social and environmental landscapes since originating independently in various forms throughout the world, and tens of millions of people throughout the world still rely on cattle and other domesticated animals for survival today. This course will explore the archaeology and anthropology of pastoralist societies, focusing on the ecological, political, and cultural strategies that made pastoralism dynamic and sustainable throughout prehistory and into the current era. (Cross-listed with ARC/ANT; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 331 Cr.3
The Ancient Greek World
A historical and archaeological survey of the ancient Greek world (Greece proper, the Aegean Islands, southern Italy, western Turkey). Periods discussed will include Cretan (Minoan), Mycenaean, Archaic, Classical, Hellenistic, and Early Greek Christian. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 332 Cr.3
Ancient Rome and the Mediterranean
A historical and archaeological survey of the ancient Mediterranean area (with emphasis on the Italian peninsula) from the founding of the city of Rome to the collapse of the western Roman Empire in the fifth century ACE. Periods discussed will include: Italy in the Neolithic period, the founding of Rome, Etruscan Domination, the Roman Republic, the Roman Principate/Empire, and the advent of Roman Christianity. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ANT/ARC 335 Cr.3
Human Skeletal Anatomy and the Anthropological Study of the Dead
This course is designed for students majoring in archaeological studies or related fields. The focus of this course is a detailed study of the human skeleton. Each student will be required to learn the anatomy of the human skeleton in detail. Also considered are methods of determining an individual’s age, ethnic origins, sex, and stature from skeletal remains. The final three weeks of the course will be concerned with anthropological interpretation of the dead. Offered Occasionally.
ARC/HIS 340 Cr.3
**Origins of Cities**
This course examines the origins and development of urban life. Students will first explore, from an anthropological perspective, the character of modern cities. Students will next examine the earliest cities in the Old and New Worlds, and comparatively explore the varied ecological, social, political, and demographic processes associated with urbanization in various ancient civilizations (Mesopotamia, Egypt, Indus Valley, China, Andes, and Mesoamerica). While the focus of this course is on archaeological cities, it draws heavily on ethnographic and sociological studies of urban forms. The purpose of this course is to provide students with a comparative understanding and appreciation of urban life and its long history. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ANT/ARC 346 Cr.3
**Ethnoarchaeology and Experimental Archaeology**
Ethnoarchaeology isn't only about excavations: Since the 1960s, archaeologists have also examined aspects of life in the present as a way to better interpret material culture found at ancient sites. Ethnoarchaeology uses ethnographic field methods among modern peoples to develop informed hypotheses about life in the past. Experimental archaeology uses controlled scientific experiments to develop models about past behaviors including tool use, pottery production, etc. This course will cover both of these "middle-range" approaches, and will require participation in hands-on ethnoarchaeological and experimental class projects. Prerequisite: ANT 101 or ANT 195 or ANT/SOC 202 or ARC 100 or ARC 196 or ARC 200. (Cross-listed with ANT/ARC; may only earn credit in one department.) Offered Occasionally.

ARC/ESC/GEO 347 Cr.3
**Geoarchaeology**
An applied course on the contribution of earth sciences to the interpretation of archaeological contexts. This course will consist of field, lab and lecture components. Emphasis is placed on the methods of geoarchaeology and the applications of selected earth science fields to archaeological problems. Field trips will be a required component of the course in order to complete field descriptions and sampling. Prerequisite: ARC 196 or ESC 222 or ESC/GEO 426 or ESC/GEO 430. (Cross-listed with ARC/ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ARC 350 Cr.1-6
**Independent Foreign Research in Archaeology**
An individually designed, directed archaeological research project in a foreign country dealing with a significant field, laboratory, museum or archival/library research problem. The course permits in-depth, independent research using foreign sources, facilities, and resource persons. Requires a high degree of motivation and the ability to work independently. Only three credits may apply to the major. Prerequisite: INS 250; junior standing. Consent of department. Offered Occasionally.

ANT/ARC/HIS 353 Cr.3
**Maya Civilization**
The course presents an overview of the Maya culture located in southern Mexico and Central America. The class is organized chronologically into several sections that focus on the origins, adaptations to various environments, social, political, and religious organizations, and the belief systems of the Maya beginning at around 3000 BC. Emphasis will be on Pre-Hispanic Maya; will also explore life ways of contemporary Maya people. (Cross-listed with ANT/ARC/HIS; may only earn credit in one department.) Offered Summer.

ANT/ARC 357 Cr.3
**Peoples and Cultures of Africa**
An anthropological introduction to the peoples and cultures of sub-Saharan Africa. Through classic and contemporary ethnography, as well as literature and film, this course will examine the history, diversity, and richness of African civilizations from pre-colonial times to the present. Throughout the course we will examine and challenge Western narratives about Africa and Africans, and take a critical approach to understanding current social, political, and economic issues facing African peoples. (Cross-listed with ANT/ARC; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 365 Cr.3
**Ancient Iraq**
A historical and archaeological survey of ancient Iraq (Syro-Mesopotamia) from its prehistoric origins in the neolithic period to the Seleucid period. Ethnic groups discussed will include the Sumerians, Akkadians, Babylonians, Assyrians, Kassites, Amorites, Chaldeans, and Elamites. Topics will include the rise of urbanism, cuneiform writing, religion, literature, displaced persons, gender relations, and social structure. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 366 Cr.3
**Ancient Israel**
A historical and archaeological survey of coastal Syria and Palestine from the neolithic period to the Roman conquest. Various ethnic groups discussed will include the Eblaites, Phoenicians, Philistines, Canaanites, Arameans, Israelites, Samaritans, and Judeans. Special emphasis will be placed on putting biblical history in its Palestinian context. Topics will include social structure, gender relations, religion, and literature. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 367 Cr.3
**Ancient Egypt**
This course is a survey of the history, archaeology, culture, and civilization of ancient Egypt from the prehistoric periods, the Pharaonic periods, as well as the Greco-Roman periods (to the advent of Christianity). Special attention will be given to reading historical texts in translation. We will also explore various aspects of Egyptian religion, and the treatment of woman and non-Egyptian ethnic groups. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 368 Cr.3
**History of Babylonian Language and Culture I**
This course is a survey of Babylonian history, culture, and language. Babylonian, was the most extensive of the cuneiform languages of the ancient Near East, was the language of the ancient Assyrians and Babylonians and was used for over two millennia. Students will study aspects of the history and culture of ancient Babylonia, as well as learn the fundamentals of Babylonian grammar and syntax, and the cuneiform writing system. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.
**ARC/HIS 369 Cr.3**

**History of Babylonian Language and Culture II**
This course is a second semester survey of Babylonian history, culture, and language. Babylonian, the most extensive of the cuneiform languages of the ancient Near East, was the language of the ancient Assyrians and Babylonians and was used for over two millennia. Whereas the student studies grammatical forms and is introduced to the cuneiform writing system in the first semester, the student in the second semester will work with documents. Students will study aspects of the history and culture of ancient Babylonia in later periods, as well as read legal, economic, and literary texts in the original language. Prerequisite: HIS 368 or ARC 368. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

**ARC/HIS 372 Cr.3**

**History of Women in the Ancient World**
A history of the nature and status of women in the ancient world as derived from textual sources, including works of literature, private letters, economic documents, and tomb inscriptions. Areas studies will be Syro-Mesopotamia, Israel, Iran, Anatolia, Egypt, and the Mediterranean world. Also discussed will be the study of women as derived from archaeological sources. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

**ARC/HIS 374 Cr.3**

**Ancient Turkey**
An historical and archaeological survey of ancient Anatolia (the geographic name of Turkey) and surrounding regions (e.g., Syria and the Caucasus) from its prehistoric origins in the Neolithic period, the rise of urbanism, Assyrian mercantilism, Pre-Hittite cultures, the Hittite kingdoms, the Neo-Hittite states, Hurartu, Phrygia, Lydia, Cimmerians, Medes, Persians, and various states in the Graeco-Roman period to the advent of Anatolian Christianity. Topics will include cuneiform writing, religion, literature, law, gender relations, and social structure. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

**ARC/HIS 375 Cr.3**

**Iran before Islam**
An historical and archaeological survey of ancient Iran and surrounding regions from prehistoric origins to the advent of Islam in the 7th century AD. Among the topics discussed will be: the rise of urbanism and writing at Proto-Elamite Susa, Elamite civilization in southwestern Iran, Medes, Scythians, and Persians in the Iron Age, the Persian Empire, as well as the Seleucid, Parthian, and Sassanian kingdoms of later antiquity. Emphasis will be on the study of primary sources in translation (Sumerian, Akkadian, Elamite, Old Persian, Greek, Latin, and Hebrew, amongst others). Topics will include cuneiform writing in Iran, religion, literature, gender relations, classical traditions about Iran, and social structure. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

**ARC 395 Cr.1**

**Graduate Preparation Seminar**
Third year students who are interested in pursuing a graduate degree in anthropology or archaeology have many things to consider. This seminar is designed to help students determine what research they intend to pursue after graduation, what graduate schools are particularly well suited to meet their research needs, how to target and apply to certain programs, and how to develop an impressive resume. This seminar will also serve to prepare students who do not intend to continue their education in graduate school for employment opportunities upon graduation. Prerequisite: archaeology major; junior standing. Pass/Fail grading. Offered Fall.

**ARC/HIS 396 Cr.3**

**Ancient Syria**
A historical and archaeological survey of ancient Syria and surrounding regions from prehistoric origins to the advent of the Roman conquest in the first century BC. Among the topics discussed will be the rise of urbanism and writing along the Euphrates River, religion, gender, social structure, and literature. Moreover, the student will study in translation the vast cuneiform archives from Ebla, Mari, Alalakh, Gattara, Nuzi, Emar, and Ugarit, to name a few. Furthermore, biblical, classical, and medieval sources concerning Syria in the first millennium BC will be studied. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

**ANT/ARC/SOC 399 Cr.3**

**SOC/ARC/ANT Forum**
Investigation of areas and topics of current sociological/archaeological/anthropological interest not covered in the regular curriculum ranging from local to transnational issues. Repeatable for credit - maximum 12. (Cross-listed with ANT/ARC/SOC, may only earn 12 credits total in ANT, ARC, and SOC.) Offered Occasionally.

**ARC 402 Cr.3-8**

**Field Methods in Archaeology**
Practical application of the basic skills used in the excavation of archaeological sites, including surveying techniques, methods of excavation, compilation of field data, and laboratory analysis. Prerequisite: ARC 196. Consent of instructor. Offered Summer.

**ARC 404 Cr.3**

**Environmental Archaeology**
This course investigates the relationship between prehistoric human societies and their biotic communities. An array of techniques using plant and animal remains from archaeological contexts to reconstruct aspects of ancient environments, climates, and human subsistence patterns are discussed. Applications of environmental data toward the understanding of human settlement and subsistence systems are discussed. Prerequisite: ARC 196; junior standing. Offered Occasionally.

**ARC 409/509 Cr.1-3**

**Readings and Research in Archaeology**
Directed readings or research under the super-vision of an instructor. Repeatable for credit - maximum 12. Prerequisite: ARC 200 or ARC 490 or ARC 493; junior standing. Consent of Instructor. Offered Annually.

**ARC 415 Cr.3**

**Advanced Research Applications in Archaeology**
This course will provide advanced training in archaeological data collection and analysis, with focus on designing theoretically-rich analyses that can be applied to answering specific research questions. To this end, each semester will focus intensively on a single category of advanced analysis, such as lithic or ceramic materials analysis. Repeatable for credit - maximum six. Prerequisite: ARC 196 and ARC 303. Offered Occasionally.

**ARC 445 Cr.3**

**Research Methods in Archaeology**
This course is an introduction to a broad spectrum of research strategies available to archaeologists with a focus on quantitative methods. It is not a course in statistics. Rather, the course is intended to help students learn to be comfortable working with qualitative and quantitative data, and to be a sampler of commonly used quantitative methods in archaeology. Prerequisite: ARC 196; MTH 145 recommended. Offered Fall.
ARC 450 Cr.1-15
Internship in Archaeology
An academically relevant field experience for archaeology students. The experience will involve direct participation in excavation, laboratory analysis, or other aspects of archaeological science including museum work, supervised by an archaeologist or professional of a related discipline. Repeatable for credit - maximum 15. Only three credits can apply to the major. Prerequisite: junior standing; minimum 3.00 cumulative GPA. Consent of department. Pass/Fail grading. Offered Annually.

ARC 455 Cr.3
Historical and Theoretical Perspectives in Archaeology
This course reviews the practice of archaeology from its antiquarian beginnings through modern times. The goal of the course is to explore, from a historical perspective, the theoretical approaches that have been used by archaeologists to explain past human behavior. By exploring the development of archaeological thought through time, students will gain a deeper understanding of current theoretical approaches in archaeology. Prerequisite: ARC 196; junior standing. Offered Fall.

ANT/ARC 479 Cr.1-2
Archaeology/Anthropology Laboratory Assistant
An opportunity to assist in the preparation and instruction of an archaeology/anthropology laboratory. Students will be expected to assist in the preparation of course materials, demonstrate proper techniques, and evaluate student performance. Repeatable for credit - maximum four. Not applicable to the archaeology major or anthropology minor. (Cross-listed with ANT/ARC, may only earn credit in one department.) Consent of instructor. Pass/Fail grading. Offered Annually.

ARC 489 Cr.3
Honors Thesis in Archaeology
This is the capstone course for archaeological studies majors enrolled in the Archaeology Honors Program. Honors students take this course in lieu of ARC 499, typically during their final year. The course is designed to assist the student in completing a Baccalaureate thesis that will be presented in hard copy as well as verbally at the Annual Archaeological Studies Spring Research Colloquium. Prerequisite: ARC 196; ARC 200; acceptance to the Archaeology Honors Program; senior standing. Offered Spring.

ARC 490/590 Cr.3
Archaeology for Teachers
This course explores methods and resources for applying archaeology in the regular precollegiate classroom. A brief overview of the science of archaeology, and the pre-European cultures of Wisconsin and Minnesota is provided. Prerequisite: junior standing. Offered Occasionally.

ARC 491/591 Cr.3
Archaeology Field School for Teachers
Participants will experience the basic skills used in the excavation of archaeological sites, including surveying techniques, methods of excavation, compilation, of field data and laboratory analysis. Practical application of the skills will be related to the classroom of the precollegiate instructor. Repeatable for credit - maximum 12. Prerequisite: ARC 490 or ARC 493; junior standing. Offered Occasionally.

ARC 492/592 Cr.3
Archaeology Analysis Procedures for Teachers
Taking a hands-on approach to analyzing and interpreting archaeological remains, the class will integrate lectures with demonstrations, experiments, and supervised laboratory projects. Study will focus on the potential for interpreting human life ways and adaptations to the environment from stone tools, ceramics, floral, and faunal remains. Practical application of the interpretation process will be related to the classroom of the precollegiate instructor. Introduction will provide an overview of field procedures. Prerequisite: ARC 490 or ARC 493; junior standing. Offered Occasionally.

ARC 493/593 Cr.3
Wisconsin Archaeology for Teachers
This class is designed to provide teachers with substantial content on the science of archaeology and the pre-Europe history of Wisconsin. Through an inquiry-based approach, teachers learn the process of archaeological interpretation of cultural patterns from material remains by undertaking the reconstruction of such patterns from a provided sample of material remains. This process is applicable to the K-12 classroom. Prerequisite: junior standing. Offered Occasionally.

ARC 494/594 Cr.1-3
Applied Archaeology for Teachers
This class is designed to give teachers a comprehensive and hands-on personal experience in archaeological data acquisition, interpretation and experimental archaeology. Participants will apply class content to the K-12 classroom. Repeatable for credit - maximum 12. Prerequisite: junior standing. Offered Occasionally.

ARC 498/598 Cr.1-3
Seminar in Archaeology
Intensive study of some specific area or problem of archaeology. Repeatable for credit - maximum 12. Departmental option for pass/fail grading. Prerequisite: ARC 200 or ARC 490 or ARC 493; junior standing. Maximum 12 credits may be earned between ARC 498 and ANT 499. Offered Occasionally.

ARC 499 Cr.3
Senior Project/Thesis in Archaeology
This course is the last course in the Archaeological Studies major course sequence and is normally taken during the student’s final year. The course is designed to assist the student in completing the graduation requirement of the senior project/thesis. Prerequisite: ARC 196; senior standing; admission to archaeology major. Consent of instructor. Offered Spring.

Art (ART) - Courses

Courses

+ART 102 Cr.2
Art Appreciation
Discovering the visual world. An introduction to the visual arts of applied arts, architecture, craft arts, film/video arts, painting/drawing, printing/graphic arts, and sculpture. The student will learn to use analysis and evaluation to explore the meaning of art. Offered Fall, Winter, Spring, Summer.
ART 160 Cr. 3

General Art Foundations
An introductory course in visual art, with emphasis on understanding the methods of art making in a variety of studio disciplines. Topics include recognition of visual elements and principles of design, methods of applying these elements and principles throughout a variety of art forms, thematic development, relationship of the visual arts to other fields of human endeavor, and an introduction to writing about visual art. Course content includes representative paradigms of world art, Western art, cultural models utilized to form the complex visual language of photography. Students will also learn about individual and collective concerns as they apply to the three-dimensional form. The course will apply design elements and principles to projects and experiences as vehicle for investigation and interpretation. Lect. 1, Studio 4. Prerequisite: ART 160 or concurrent enrollment. Offered Fall, Spring.

ART 162 Cr. 3

Drawing Foundations
Drawing foundations introduces the student to a studio-based approach to the visual arts. Students in this course will learn to use and explore the descriptive and expressive characteristics of various drawing media (both dry and liquid media). Students will also use close observation and analysis of visual experience. The course is primarily a study of perceptual observation, the materials and methods of drawing being the vehicle for investigation and interpretation. Lect. 1, Studio 4. Prerequisite: ART 160 or concurrent enrollment. Offered Fall, Spring.

ART 164 Cr. 3

Design Foundations
The elements of two-dimensional design are introduced through a variety of media and studio practice. Emphasis on concept development and creative philosophies. Problem-solving strategies are explored through studio work and critiques. Lect. 1, Studio 4. Prerequisite: ART 160 or concurrent enrollment. Offered Fall, Spring.

ART 166 Cr. 3

Three Dimensional Foundations
This course provides the student's introductory experience to a studio-based approach to the visual art in the three-dimensional realm. Students apply design elements and principles to projects and experiences as they occur in the physical world. Concentration will focus on expanding visual vocabulary, investigations into basic creative processes and design concerns as they apply to the three-dimensional form. The course will explore conceptual problem solving, elementary constructions techniques and an investigation into the inherent qualities of materials. Lect. 1, Studio 4. Prerequisite: ART 160 or concurrent enrollment. Offered Fall, Spring.

ART 172 Cr. 3

Photography Survey
This course is a thematic examination of photography as an art form. Through lectures, films, hands on assignments and in class discussions, students will learn important conceptual and visual trends employed in art photography. Topics covered will include: 19th and 20th century influences, multi-cultural interpretation of genres, new approaches to representation of self and the influence of digital technology on photography. Students will also learn about individual and collective cultural models utilized to form the complex visual language of photographs. Offered Fall, Spring.

ART 204 Cr. 3

Watercolor Painting
A studio course concentrating on watercolor painting with an emphasis on technique and color theory. Traditional and contemporary modes of expression are studied in the context of the working studio. Stylistic and thematic developments are explored. Lect. 1, Studio 4. Offered Occasionally.

ART 205 Cr. 3

Introduction to Painting
This course is a thorough introduction to the techniques and materials of painting. Focus is on approaches to creative expression, the research of historical and contemporary painting, and peer critical dialogue. Explores a broad range of painting media, including oil, acrylic, watercolor, and encaustic. Various stylistic approaches are introduced, including realism, abstraction, and postmodern painting. Lect. 1, Studio 4. Prerequisite: ART 162. Offered Fall, Spring.

ART 206 Cr. 3

Digital Media: Graphic Design for Non-Majors
This course in graphic design emphasizes the process of visual communication of ideas and information with attention to aesthetic considerations, techniques and methods. Students do not have to be art majors to explore various facets of graphic design using the Adobe Creative Suite software, Photoshop, Illustrator, InDesign and Dreamweaver. Practical study in this area involves the design and production of advertising, brochures, and posters with the development and application of logotypes and design formats using computer technologies and graphic reproduction techniques. Basic knowledge of computer use. Lect. 1, Studio 4. Prerequisite: not open to art majors or minors. Offered Fall, Spring.

ART 207 Cr. 3

Introduction to Computer Graphic Design
This course provides an introduction to and a survey of computer graphic design. Students develop an understanding of the basic design principles, typography, design problems and solutions, and composition. Graphic design software will be explored. Lect. 1, Studio 4. Prerequisite: ART 162. Offered Fall, Spring.

ART 213 Cr. 3

Ceramics for Non-Art Majors
This course will focus on learning new skills and/or refining skills in ceramics by exploring the history of ceramic form, researching contemporary ceramists, and practicing hand-built, wheel thrown, and surface techniques. Repeatable for credit - maximum six, with instructor permission. Lect. 1, Studio 4. Prerequisite: not open to art majors. Offered Fall, Spring.

ART 214 Cr. 3

Introduction to Sculpture
An introductory studio course which explores basic processes associated with sculptural form. The course begins with an introduction to direct, additive processes where students will work with basic materials such as clay, concrete, wood, and foam. The second half of the semester concentrates on modeling, mold making, and casting metal. Lect. 1, Studio 4. Prerequisite: ART 160 or concurrent enrollment. Offered Fall, Spring.

ART 217 Cr. 3

Photography Survey
This course is a thematic examination of photography as an art form. Through lectures, films, hands on assignments and in class discussions, students will learn important conceptual and visual trends employed in art photography. Topics covered will include: 19th and 20th century influences, multi-cultural interpretation of genres, new approaches to representation of self and the influence of digital technology on photography. Students will also learn about individual and collective cultural models utilized to form the complex visual language of photographs. Offered Fall, Spring.

ART 218 Cr. 3

Digital Media: Graphic Design for Non-Majors
This course in graphic design emphasizes the process of visual communication of ideas and information with attention to aesthetic considerations, techniques and methods. Students do not have to be art majors to explore various facets of graphic design using the Adobe Creative Suite software, Photoshop, Illustrator, InDesign and Dreamweaver. Practical study in this area involves the design and production of advertising, brochures, and posters with the development and application of logotypes and design formats using computer technologies and graphic reproduction techniques. Basic knowledge of computer use. Lect. 1, Studio 4. Prerequisite: not open to art majors or minors. Offered Fall, Spring.

ART 219 Cr. 3

Introduction to Ceramics
This course is a thorough introduction to the techniques and materials of painting. Focus is on approaches to creative expression, the research of historical and contemporary painting, and peer critical dialogue. Explores a broad range of painting media, including oil, acrylic, watercolor, and encaustic. Various stylistic approaches are introduced, including realism, abstraction, and postmodern painting. Lect. 1, Studio 4. Prerequisite: ART 162. Offered Fall, Spring.

ART 220 Cr. 3

Digital Media: Graphic Design for Non-Majors
This course in graphic design emphasizes the process of visual communication of ideas and information with attention to aesthetic considerations, techniques and methods. Students do not have to be art majors to explore various facets of graphic design using the Adobe Creative Suite software, Photoshop, Illustrator, InDesign and Dreamweaver. Practical study in this area involves the design and production of advertising, brochures, and posters with the development and application of logotypes and design formats using computer technologies and graphic reproduction techniques. Basic knowledge of computer use. Lect. 1, Studio 4. Prerequisite: not open to art majors or minors. Offered Fall, Spring.

ART 221 Cr. 3

Painting for Non-Majors
This course introduces students to the basic principles and methodology of painting, including oil and acrylic. Students gain an understanding of historical painting as well as contemporary practices, with an emphasis on basic color theory, form and composition, texture and spatial illusion. Repeatable for credit - maximum six. Lect. 1, Studio 4. Prerequisite: not open to art majors or minors. Offered Annually.
ART 218 Cr.3
Introduction to Printmaking: Intaglio
In this introductory course, the student will be exposed to the issues and possibilities of the printed image by exploring the techniques of black and white intaglio. The intaglio printmaking process will be examined through extensive studio and historical research. Areas of study include the development of intaglio from 1657 to the present, the application of drawing and content issues to the techniques of drypoint, line etching, aquatint, and softground. Lect. 1, Studio 4. Prerequisite: ART 162. Offered Fall, Spring.

ART 219 Cr.3
Forging/Raising for Non-Art Majors
This course will focus on the basic principles of metal forging and raising of ferrous and nonferrous metals with emphasis on design. Prerequisite: not open to art majors. Offered Occasionally.

ART 220 Cr.3
Introduction to Metalsmithing, Forging & Raising
This studio course will focus on the design and development of traditional and experimental holloware and metalsmithing techniques. Emphasis will be placed on the student's ability to think and resolve design problems through creative use of the techniques taught during the course in the production of assignments. This course builds on the technical foundation of raising and fabrication while challenging students to embrace traditional and nontraditional techniques. Lect. 1, Studio 4. Prerequisite: ART 160; ART 166 or concurrent enrollment. Offered Spring.

ART 221 Cr.3
Introduction to Metalsmithing
This studio course will focus on the design and development of introductory nonferrous metal fabrication and construction techniques utilized in the creation of jewelry and metal objects. Emphasis will be placed on the student's ability to think and resolve design problems through creative use of the techniques taught during the course in the production of assignments. The course covers cutting, soldering, finishing, surface enrichment, cold connections, forming, forging and raising. Lect. 1, Studio 4. Prerequisite: ART 160; ART 166 or concurrent enrollment. Offered Fall, Spring.

ART 222 Cr.3
Metalsmithing for Non-Art Majors
This course will focus on the basic use of nonferrous metals in jewelry/metal smithing, with emphasis on design and development of introductory nonferrous metal fabrication and construction. Prerequisite: not open to art majors or minors. Offered Fall.

ART 223 Cr.3
Introduction to Blacksmithing
This studio course will focus on the design and development of traditional and experimental blacksmithing techniques. Students will become familiar with the basic methods of working with hot iron, the history of blacksmithing, and the safe and proper use of tools and equipment involved with the process. Studio 5. Prerequisite: ART 160; ART 166. Offered Fall.

ART 250 Cr.3
Studio Art for Non-Art Majors
A studio art experience for non-art majors; an introduction to a variety of art media such as drawing, painting, printmaking and sculpture. Repeatable for credit - maximum six. Lect. 1, Studio 4. Prerequisite: not open to art majors. Consent of instructor. Offered Occasionally.

ART 251 Cr.3
Art History I: Ancient and Medieval Art
A survey of the visual arts from the Paleolithic era to 1400 AD. The course will consider in depth art of the ancient civilizations that are part of the Western heritage, including Egypt, Greece, Rome, and art of the Middle Ages from Europe and the Byzantine Empire. Non-Western art to be studied will include Islamic, Asian, African, and pre-Columbian art of the Americas. Offered Fall.

ART 252 Cr.3
Art History II: Renaissance to Contemporary Art
A study of the visual arts from 1400 AD to the present. The course will focus on art of the Renaissance and subsequent styles such as Baroque and Rococo, as well as on the art of the modern/post-modern eras. Besides studying art produced in Europe and the United States, the course will consider post-1400 art from Asia, Africa, and Latin America. Offered Spring.

ART 262 Cr.3
Drawing II
A studio course emphasizing growth through observation, exploration and interpretation of visual forms including the figure. Drawing as language is investigated and interpreted by exploring various styles and techniques from traditional and contemporary works. Building upon "Drawing Foundations," ART 162, students will experiment with a range of materials and thematic possibilities. Lect. 1, Studio 4. Prerequisite: ART 160, ART 162. Offered Fall, Spring.

ART 272 Cr.3
Photography and Imaging I
This course will serve as an introduction to black and white photography and will introduce 35mm camera functions, exposure techniques, and processing. In addition to learning the technical mechanics of the medium, students will be given hands on projects to further their understanding of photography in aesthetic and conceptual terms. The course will consist of lectures, demonstrations, class critiques, and explorations of the work of a wide range of photographers. Offered Fall, Spring.

ART 301 Cr.3
World Art
This course will be an in-depth examination of art forms in various historical, social, and religious contexts of Africa, South and South East Asia, the Pacific, and the Americas. Students will explore issues, approaches and controversies in cross cultural civilizations through art as a primary source of understanding. They will experience how, through art, the values and ideas of many cultures have evolved and new patterns of globalization have shaped the modern world. Prerequisite: junior standing. Offered Fall, Spring.

ART 302 Cr.3
Visual Language in the Global Classroom
This course provides a discovery of the connections between visual art and a variety of disciplines. Cultural values and the social institution of education will be examined. Through inquiry, analysis, and research, students will explore art as a form of perceptual, social, and cultural learning. Students will develop guiding questions, rubrics, and procedures for the instruction of visual art education and will consider a model of instruction which guides and nurtures creativity and higher level thinking skills. Prerequisite: completion of at least 45 university credits. Offered Fall, Spring.
ART 304 Cr.3

**Color Theory**
An intensive study of color through studio practice in water-based media. As part of the painting course sequence, this course isolates the element of color in practice while examining its relationship to other elements in analysis. The student will build upon material covered in ART 205 to develop a more sophisticated understanding of color and other attributes of painting. Course content includes physiological and cultural perceptions of color, and processes of color mixture, opacity, and transparency. Lect. 1, Studio 4. Prerequisite: ART 164, ART 166, ART 205. Offered Fall, Spring.

ART 305 Cr.3

**Intermediate Painting**
The intermediate level of painting expands upon the concepts introduced in ART 205, with an emphasis on creative development within the discipline. Students develop their own visual language, creative expression, and conceptual understanding through active participation in collaborative painting, and individual studio work, and critiques. Prerequisite: ART 164, ART 166, ART 205 and ART 252. Offered Fall, Spring.

ART 308 Cr.3

**Intermediate Computer Graphic Design**
An intermediate exploration of graphic design problem solving. Students will explore effective and visually pleasing communication design through various projects, using raster and vector-based graphic design softwares. Lect. 1, Studio 4. Prerequisite: ART 162, ART 164, ART 207. Offered Fall, Spring.

ART 314 Cr.3

**Intermediate Sculpture**
Students are asked to develop a personal vision through foundry processes and techniques which align themselves with that vision. The student will be directed to explore advanced applications for the development of complex form and imagery. Students are also given the opportunity to refine their skills in observation and modeling form. Lect. 1, Studio 4. Prerequisite: ART 162, ART 164, ART 214. Offered Fall, Spring.

ART 316 Cr.3

**Intermediate Ceramics**
Studio course specializing in the skill associated with the pottery wheel. Emphasis upon individual research in the mixing of clay bodies and simple experiments in glaze research. Lect. 1, Studio 4. Prerequisite: ART 162, ART 164, ART 216. Offered Fall, Spring.

ART 318 Cr.3

**Intermediate Printmaking: Lithography**
In this intermediate course, the student will build upon the material covered in ART 209 while exploring the issues and possibilities of the printed image through a studio/historical exploration of lithography. Areas of research include the historical development of lithography and the application of its techniques of crayon, pencil, transfer and computer augmentation to stone lithography. Lect. 1, Studio 4. Prerequisite: ART 164, ART 166 and ART 218. Offered Fall, Spring.

ART 320 Cr.3

**Intermediate Metalsmithing: Forging and Raising**
This studio course will focus on the design and development of traditional and experimental holloware and metalsmithing techniques. Emphasis will be placed on the student’s ability to think and resolve design problems through creative use of the intermediate/advanced techniques taught during the course in the production of assignments. This course will cover synclastic and anticlastic raising, nonferrous metals forming and forging, as well as an introduction to ferrous metal forging. Lect. 1, Studio 4. Prerequisite: ART 220. Offered Spring.

ART 321 Cr.3

**Intermediate Metalsmithing**
This studio course will focus on the design and development of nonferrous casting techniques utilized in the creation of jewelry and metal objects. It will introduce students to hand and machine practices relative to the solidification processes of metal work. Areas of focus will include lost wax casting preformed though vacuum and centrifuge methods, as well as alternative methods such as cuttlebone casting techniques. A variety of mold making techniques for production casting will also be investigated. Emphasis will be placed on the student’s ability to think and resolve design problems through creative use of the techniques taught during the course in the production of assignments. Lect. 1, Studio 4. Prerequisite: ART 221. Offered Fall, Spring.

ART 323 Cr.3

**Intermediate Blacksmithing**
This course is an intermediate studio in traditional and experimental blacksmithing techniques. Its focus is to provide a hands on opportunity to expand their creative and technical skills related to the working of iron objects. Intermediate Blacksmithing builds on the technical foundation of forging and fabrication methods presented in the beginning level of this studio while challenging students to embrace nontraditional techniques and increase the scale of their finished objects. Repeatable for credit - maximum six. Studio 5. Prerequisite: ART 223. Offered Fall.

ART 331 Cr.3

**Art of the United States**
A study of the visual arts of the United States from the colonial era to the present. Course will consider such significant issues as the participation of U.S. artists in international art movements and the relationship between socio-political developments and the visual arts. Prerequisite: ART 251, ART 252. Offered Fall.

ART 332 Cr.3

**Contemporary Art**
An intensive study of visual art produced throughout the world since 1970. The course will consider recent developments in traditional media art such as painting, sculpture, photography, printmaking, and the functional arts, and the changing status and nature of such media in the contemporary art world. The course will also examine the development of new media such as installation art, performance art, video and digital art. Prerequisite: junior standing. Offered Annually.

ART 341 Cr.3

**Selected Topics in Art History**
An intensive review of significant movements and styles in the history of art. The particular subject of the course will be chosen each year by the art faculty. This course is intended to provide an exposure to key topics in greater depth than allowed in the art history survey courses. Repeatable for credit - maximum six. Prerequisite: ART 251, ART 252. Offered Spring.

ART 360 Cr.1-3

**Travel/Study in Visual Art**
Travel courses are conducted to various parts of the nation and world and may be led by one or more faculty members. Course work may include studio/professional practice, research, or seminar topics. Prior trip arrangements, financial deposit, and consent/orientation with International Education (if applicable) are required. May be repeated to different locations. Repeatable for credit - maximum six. Prerequisite: sophomore standing. Consent of instructor. Offered Occasionally.
ART 372 Cr.3

Photography and Imaging II
This course will explore the technical and conceptual fundamentals of digital photography. Students will become conversant in the techniques of digital capture, archiving, optimizing files and digital printing. The skill sets will include Adobe Photoshop and color management. The course will consist of lectures, demonstrations, class critiques, and explorations of the work of a wide range of digital photographers and related artists. Prerequisite: ART 272. Offered Fall, Spring.

ART 373 Cr.3

Documentary Strategies in Photography
This course introduces students to making documentary photographs. It entails an examination of the photographic document as it functions as evidence of real events, a catalyst to social reform, and an exploration of the cultural representation of reality. Lectures and class discussion will focus on the objectivity of the social document, and new documentary approaches. Students will create a final self-directed project. Prerequisite: ART 372. Offered Annually.

ART 375 Cr.3

Special Projects in Photography
Workshops, directed and individual readings, or projects involving significant content or activities not available through regular course offerings in photography. Repeatable for credit - maximum six. Consent of instructor. Offered Occasionally.

ART 376 Cr.3

Portraiture in Photography
Studio and environmental approaches to portraiture are studied and executed. Explores uses of studio and natural lighting; posing of singles, couples and small groups; designing strong compositions in studio settings; study of historic and contemporary portraitists. Prerequisite: ART 372. Offered Annually.

ART 377 Cr.3

Color Photography
A studio course in which students focus on the conceptual and aesthetic possibilities of color photography. Topics covered will include theory, history, contemporary directions in color photography and advanced digital printing. Students will produce a portfolio of color prints. Prerequisite: ART 372. Offered Annually.

ART 378 Cr.3

Advanced Digital Photography and Imaging
This class will utilize Photoshop to explore the conceptual and practical principles of photography in the digital era. Studio projects will explore creative possibilities of manipulated photographs, the impact of digital technology on contemporary photographic practice, as well as the aesthetic and ethical issues surrounding digitally fabricated images. In class discussions, readings and lectures will address critical issues in contemporary landscape and spatial perceptions, including environmental usage, digital reinterpretations of our surroundings, and the human form. Prerequisite: ART 372. Offered Annually.

ART 379 Cr.1

Applied Photography
Practical experience in applying photographic skills by participating as staff members for university publications. Repeatable for credit - maximum two. Consent of instructor. Offered Annually.

ART 399 Cr.2

Seminar in Professional Practices and Problems
Reading and discussion pertinent to the professional artist. Course intended to assist students in the final stages of their education to make a successful transition from undergraduate school to graduate program and the professional world of the artist. Prerequisite: ART 162, ART 164, ART 166, ART 252, ART 262; junior standing. Offered Fall, Spring.

ART 401 Cr.3

Methods in Art Education: Elementary to Early Adolescent Learners
This course is offered to art education majors who plan to teach visual art and design in the elementary and middle school art classrooms. Practical and philosophical aspects of teaching art will be emphasized. Current practices and theories of art education will be regarded. Students will be able to demonstrate the Wisconsin Visual Art and Design Model Academic Standards in the development of their unit and lesson plans, curriculum, and assessment. Prerequisite: concurrent enrollment in EDS 351; admission to teacher education; declared art education major. Offered Spring.

ART 403/503 Cr.3

Methods in Art: Early Adolescence-Adolescence
This course is designed for future art teachers in art and design education from early adolescence to adolescence. The students will consider current practices and theory related to teaching visual art and design in middle school and high school learning environments. They will observe in local classrooms and will analyze effective instructions as they plan delivery systems for their future classrooms. Using the Wisconsin Model Academic Standards, they will plan curriculum including unit and lesson plans as well as effective assessment of student learning. Prerequisite: junior standing. Offered Fall.

ART 405 Cr.3

Advanced Painting
An opportunity for further development of visual language through the medium of paint in an individualized studio environment. The course involves a dedication to ongoing creative work and an increased awareness of contemporary painting discourses. Students focus on issues of conduct and expression through individual projects and research. Repeatable for credit - maximum six. Lect. 1, Studio 4. Prerequisite: ART 305. Offered Fall, Spring.

ART 408 Cr.3

Advanced Computer Graphic Design
An advanced exploration of design problem-solving. This course approaches the Internet as a design space for visual communication. The aesthetics of web design and animation are explored through type, image, sound, time, and motion. Lect. 1, Studio 4. Prerequisite: ART 252, ART 308. Offered Fall, Spring.

ART 413/513 Cr.1-3

Independent Study
Concentrated study in any area: art history, art metal, ceramics, design, drawing, painting, printmaking, and sculpture. Open to advanced students who have excellent records in selected areas. Repeatable for credit - maximum six for majors, maximum of four for non-majors or minors. Prerequisite: junior standing. Consent of instructor. Offered Occasionally.
ART 414 Cr.3
Advanced Sculpture
A studio course providing opportunities for independent work for the advanced student in the area of sculpture. Students are challenged to further develop a personal vision of sculpture through various techniques offered in the studio. These techniques will be based on advanced foundry work, fabrication, and woodworking. Lect. 1, Studio 4. Prerequisite: ART 252, ART 314. Offered Fall, Spring.

ART 415 Cr.3
Art Seminar
Professional problems related to principles of art, art history, and art education research. Consent of instructor. Offered Occasionally.

ART 416 Cr.3
Advanced Ceramics
A studio course with emphasis placed on advanced production techniques including mixed construction methods in pottery. A student’s knowledge of clay and glaze composition and kiln design and firing is furthered by an organized approach to technical research. Repeatable for credit - maximum six. Lect. 1, Studio 4. Prerequisite: ART 252, ART 316. Offered Fall, Spring.

ART 418 Cr.3
Advanced Printmaking
In this advanced course, each student will further their knowledge of intaglio and/or lithography by researching both multiple plate printing and simultaneous color printing methods. Concurrently students will apply the technical, historical, theoretical knowledge gained to his/her own areas of content. Repeatable for credit - maximum six. Lect. 1, Studio 4. Prerequisite: ART 162; ART 218 or ART 318. Consent of instructor. Offered Fall, Spring.

ART 419 Cr.3
Individual Problems in Printmaking
In this intensive studio/historical exploration, the student will concentrate on the development of content expressed through the techniques of printmaking. Repeatable for credit - maximum six. Lect. 1, Studio 4. Prerequisite: ART 418. Consent of instructor. Offered Fall, Spring.

ART 421 Cr.3
Advanced Metalsmithing
This studio course will focus on advanced techniques utilized in the creation of jewelry and metal objects. Areas of focus will include the manipulation of sheet metal to create dimension or depth through forming and surface enrichment. Emphasis will be placed on the student’s ability to think and resolve design problems through creative use of the techniques learned during the course in the production of assignments. Individual research, design and creative applications are also emphasized. Repeatable for credit - maximum six. Lect. 1, Studio 4. Prerequisite: ART 321. Consent of instructor. Offered Fall, Spring.

ART 425 Cr.1-3
Perspectives in Art
This course allows the students to explore a specific art media on campus or in the international environment. The course will stress intensive research/creative endeavor. Repeatable for credit - maximum nine. Lect. 1, Studio 4. Prerequisite: ART 162; completion of intro-advanced sequence in a studio media.. Consent of instructor. Offered Fall, Spring.

ART 431 Cr.2
Lectures in Art History
A series of lectures designed to study and analyze the artists and their works within society. Consent of instructor. Offered Occasionally.

ART 450 Cr.1-3
Internship in Art
An academic or experientially relevant course in the creative arts, art education, art history and museology. Repeatable for credit - maximum 15. No more than six credits may be applied toward a major in the art department. Prerequisite: at least a 2.50 overall GPA and a 2.75 GPA in art; at least 22 hours in art including specific course work where applicable; junior standing. Pass/Fail grading. Offered Occasionally.

ART 462 Cr.3
Advanced Drawing
A Studio course emphasizing thematic and conceptual growth in drawing with self-directed and mentored projects. Students will explore, examine and develop a concept in drawing by analyzing and integrating contemporary drawings practices. Utilizing the expertise and experience gained in studio media, student will experiment in alternative drawing media to seek connections among various studio practices including installation and performance. Repeatable for credit - maximum six. Lect. 1, Studio 4. Prerequisite: ART 362. Offered Annually.

ART 473 Cr.3
Documentary/Editorial Photography II
In-depth and specialized investigation of photojournalism. Topics for research and application include ethics and picture editing, illustration, photo essay, editorial assignments for real-world clients. Students produce an extended portfolio. Lect. 2, Lab. 2. Prerequisite: ART 272. Offered Occasionally.

ART 475 Cr.1-3
Perspectives in Art: Photography
This course has been designed to encourage advanced students to experiment with making image techniques. These include image-capture, traditional darkroom methods, non-narrative sequencing, non-silver processes, and surface manipulation of the photograph and of negatives, using the photograph as a sculptural object, collage and many other possibilities beyond the conventional representative photograph. The "camera" itself will be reexamined by exploring the camera obscura, pinhole photography, cell phones, the scanner as an image generator, and video as legitimate tools for creating photographic images and sequences. Lectures and films will acquaint students with the history and achievements of experimental photography. Prerequisite: ART 172, ART 272. Offered Annually.

ART 476 Cr.3
Experimental Photography and Imaging
This course has been designed to encourage advanced students to experiment with making image techniques. These include image-capture, traditional darkroom methods, non-narrative sequencing, non-silver processes, and surface manipulation of the photograph and of negatives, using the photograph as a sculptural object, collage and many other possibilities beyond the conventional representative photograph. The "camera" itself will be reexamined by exploring the camera obscura, pinhole photography, cell phones, the scanner as an image generator, and video as legitimate tools for creating photographic images and sequences. Lectures and films will acquaint students with the history and achievements of experimental photography. Prerequisite: ART 172, ART 272. Offered Annually.

ART 499 Cr.1
Senior Exhibition
This course will expose the student to the theory and practice of the presentation and exhibition of artwork. The course will culminate in an exhibition of the student’s work. Prerequisite: ART 399. Offered Fall, Spring.

Astronomy (AST) - Courses
+ next to a course number indicates a general education course
Courses

AST/PHY 155 Cr.4
Solar System Astronomy
An introduction to astronomy as a science, emphasizing patterns in the night sky, our own solar system, and the possibility of life on other worlds. Throughout the course, comparison of observations with theoretical models will be stressed. Topics studied include the size and scale of the solar system relative to the universe; the scientific method; astronomical observations; motions of the earth, moon, sun, and planets; creating a model of the solar system; what we learn about planets from light and gravity; the structure and formation of the solar system; the planets and their moons; comets, asteroids, and meteoroids; and the possibility of life elsewhere in the universe. Recent results, including those from NASA missions, will be incorporated into the course. Lect. 3, Lab. 2. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Fall.

AST/PHY 160 Cr.4
Stars, Galaxies and the Universe
An introduction to astronomy as a science, emphasizing celestial objects beyond our solar system. Throughout the course, comparison of observations with theoretical models will be stressed. Topics studied include the size and scale of the universe, using light and gravity to study the cosmos, the sun, the properties of other stars, lives and deaths of stars, star clusters, black holes, the Milky Way galaxy, dark matter, other galaxies, quasars, Big Bang cosmology, dark energy, and gravitational waves. Particular emphasis will be placed on recent discoveries. Lect. 3, Lab. 2. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Spring.

AST/PHY 362 Cr.3
Astrophysics
The application of principles studied in fundamental or general physics to various areas of astrophysical research. This course will emphasize topics like binary stars, stellar structure and evolution, the solar neutrino problem, white dwarfs, neutron stars, pulsars, the interstellar medium, galaxies and dark matter. Prerequisite: PHY 250, PHY 302; PHY/AST 155 or PHY/AST 160; MTH 310 or concurrent enrollment. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Alternate Years.

AST/PHY 363 Cr.1
Astrophysics Laboratory
An introduction to current observational techniques in astronomy and astrophysics. Students will learn the basics of planning professional observations, electronic detection, data acquisition and reduction, and analysis of results. Concerns for both imaging and spectroscopy will be incorporated, as well as aspects of multi-wavelength astronomy. Lab 3. Prerequisite: PHY 104 or PHY 204; MTH 151; PHY/AST 155 or PHY/AST 160. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Alternate Years.

AST/PHY 450/550 Cr.3-15
Physics and Astronomy Internship
Full- or part-time work experience in a physics or astronomy related position with a public or private agency. Not more than five credits are applicable to a major or three credits to a minor in physics. A written application, departmental acceptance, and appointment of adviser must be completed before registration. Repeatable for credit - maximum 15. Prerequisite: minimum cumulative GPA of 2.25 (2.50 in physics); PHY 104 or PHY 204, plus six credits in physics or astronomy courses above the 204 level; junior standing. (Cross-listed with AST/PHY; may only earn credit in one department.) Consent of department. Offered Occasionally.

AST/PHY 453/553 Cr.1-3
Topics in Physics and Astronomy
Various subjects of interest to specific groups will be on occasion. Specific subtopics will be assigned each time the course is offered. Such titles might include nuclear physics, low temperature physics and the interstellar medium. Repeatable for credit under different subtitles - maximum 12 credits. Prerequisite: PHY 104 or PHY 204; junior standing. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Fall, Spring, Summer.

AST/PHY 466 Cr.3
Cosmology and the Structure of The Universe
This course will emphasize topics relating to the history of our universe, from the Big Bang to galaxy evolution and the formation of the structures we see today. Students will study the cosmological distance ladder, black holes in galaxies, galaxy clusters, dark matter, the Big Bang model, the inflationary model, and the cosmological constant. The course will also include aspects of special and general relativity relevant to these subjects. Prerequisite: AST/PHY 160, PHY 250, PHY 302; MTH 309 or concurrent enrollment; MTH 310 or concurrent enrollment. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Alternate Years.

AST/PHY 497 Cr.1
Physics and Astronomy Seminar
A seminar series is intended for majors and minors in the department of physics as well as other students interested in physics, engineering and astronomy. It will consist of a series of talks given by visiting scientists and engineers as well as senior research students. The course provides an excellent opportunity to find out about the latest developments in physics, astronomy, and engineering and provides an excellent medium by which students can get to know each other and also their professors. All physics majors and minors are urged to sign up for this seminar each semester of their first year. Repeatable for credit - maximum four. A maximum of two credits can be used to satisfy elective requirements. (Cross-listed with AST/PHY; may only earn credit in one department.) Pass/Fail grading. Offered Fall, Spring.

AST/PHY 498 Cr.1-3
Physics and Astronomy Research
Independent study by a student under the supervision of a faculty member. Students can work on a variety of research projects including, but not limited to, the areas of astronomy, condensed matter, computational physics, physics education, low temperature physics, lasers, optics and spectroscopy. Repeatable for credit - maximum nine, with permission of department chair. (Cross-listed with AST/PHY; may only earn credit in one department.) Consent of department. Offered Fall, Spring, Summer.

Biology (BIO) - Courses

+ next to a course number indicates a general education course

Courses

BIO 100 Cr.4
Biology for the Informed Citizen
This course develops an understanding of what science is and utilizes biology as a framework for investigating the importance of science in our everyday lives. Topics include evolution, ecology, human impact on the environment, cell biology, and genetics as it relates to human reproduction. This course is designed as a general education course for non-science or non-allied health majors. Not applicable to the major or minor in biology. Prerequisite: Students with credit in BIO 103 or BIO 105 cannot earn credit in BIO 100. Offered Fall, Spring, Summer.
+BIO 102 Cr.3
Contemporary Issues in Biological Sciences
An intra-disciplinary approach to investigating current issues within the biological sciences. Specific topics under the general categories of health, medicine, environment, genetics, and industrial technology will be identified, described and characterized. The science underlying the issue will be explored and the potential impact (past and future) of applied scientific advances within the respective disciplines will be examined in depth. Not applicable to a major or minor in biology. Offered Occasionally.

+BIO 103 Cr.4
Introductory Biology
A survey of modern biology. Subjects discussed include ecology, cell biology and genetics. Themes developed through the course are the use of the scientific method and the relationships between society, technology and science. This course is designed as a general education course for non-science or non-allied health majors. Lect. 3, Lab. 2. Students cannot earn credit in both BIO 103 and BIO 105. Offered Fall, Spring.

+BIO 105 Cr.4
General Biology
An introduction to biology including topics in ecology, population biology, nutrient cycling, food webs, cell structure and function, metabolism, photosynthesis, reproduction, genetics, molecular biology and evolution. This course provides a strong foundation for further science courses, and is designed for science majors, allied health majors and students with an interest in science. Lect. 3, Lab. 2. Students cannot earn credit in both BIO 103 and BIO 105. Offered Fall, Spring.

BIO 202 Cr.2
Introduction to Biological Data Analysis and Interpretation
This course is an introduction to the common techniques used by biologists to efficiently and effectively process, interpret, and communicate ideas and information generated in the biological sciences. Students will learn the techniques in a hands-on approach using biological databases. Topics covered in this course will include basic laboratory and field notebook production and use; the use, analysis and interpretation of databases, graphs, tables, charts, and other visual aids used in scientific papers; techniques for digital microscopic image production and analysis. Prerequisite: BIO 103 or BIO 105. Offered Summer, Winter.

BIO 203 Cr.4
Organismal Biology
A survey of the diverse form and function of prokaryotes, protists, fungi, plants and animals. Basic ecology, natural history, evolution, biogeography and importance of organisms to humans will be emphasized. Lect. 3, Lab. 3. Prerequisite: BIO 103 or BIO 105 with a grade of "C" or better. If both BIO 210 and BIO 304 have been completed, BIO 203 cannot be taken for credit. Offered Fall, Spring.

BIO 210 Cr.3
Animal Biology
Animal biology is a phylogenetic survey of the animal-like protists and animal kingdom beginning with single celled organisms and ending with vertebrates. Innovation of form and function of each major animal group will be discussed along with their taxonomy, ecology, natural history, distribution, medical and economic importance to humans and natural ecosystems. Lect. 2, Lab. 2. Prerequisite: BIO 203. Offered Fall.

BIO 260 Cr.1-3
Special Topics in Biology
Topics in biology of interest to selected groups. Topics will be offered with a specific title. May be staffed by resident faculty or visiting lecturers. Other departments may be invited to participate. Repeatable for credit - maximum six. Prerequisite: BIO 103 or BIO 105. Offered Occasionally.

BIO 302 Cr.2
Introductory Plant Identification
Introduction to the identification of trees, shrubs, and other herbaceous plants of both local native and cultivated species. Field trips required. Lect. 1, Lab. 2. Prerequisite: BIO 203 or BIO 304. Offered Fall - Odd Numbered Years.

BIO 303 Cr.4
Vertebrate Form and Function
Anatomy and physiology of the vertebrates with the rat as the basic study animal. Lect. 2, Lab. 4. Prerequisite: BIO 103 or BIO 105. Offered Occasionally.

BIO 304 Cr.3
Plant Biology
Plant Biology is a phylogenetic survey of the plant-like protists and organisms in the plant kingdom beginning with single celled organisms and ending with flowering plants. Innovation of form and function of each major plant group will be discussed along with their anatomy, morphology, taxonomy, ecology, natural history, distribution, medical and economic importance to humans and natural ecosystems. Lect. 2, Lab. 2. Prerequisite: BIO 203. Offered Spring.

BIO 306 Cr.4
Genetics
A comprehensive study of the basic principles of heredity, including Mendelian and Molecular Genetics. Lect. 3, Lab. 2. Prerequisite: BIO 103 or BIO 105 and a second biology course applicable to the major. Offered Fall, Spring.

BIO 307 Cr.3
Ecology
A study of interactions that determine the distribution and abundance of living organisms. The basic principles of ecology are presented in order to develop an understanding of the nature of these interactions at the individual, population and community levels of biological organization. Prerequisite: BIO 203, or BIO 210 and BIO 304 Offered Fall, Spring.

BIO 312 Cr.4
Human Anatomy and Physiology I
A comprehensive study of general anatomical and physiological principles of cells, body fluid compartments, the skeletal, muscular, and nervous systems and the special senses. Required elements of the laboratory portion of the course include computer simulations, microscopy, mammal organ dissections and study of cadaver preparations. Students who have completed this course, or are currently enrolled, may not register for this course again until after freshmen registration (unless they have instructor/department consent). Lect. 3, Lab. 2. Prerequisite: grade "C" or better in BIO 103/BIO 105 & CHM 103. Students who have completed this course, or are currently enrolled, may not register for this course again until after freshmen registration (unless they have instructor/department consent). Offered Fall, Spring, Summer.

BIO 313 Cr.4
Human Anatomy and Physiology II
A comprehensive study of the cardiovascular, respiratory, digestive, urinary, reproductive and endocrine systems. Required elements of the laboratory portion of this course include computer simulations, microscopy, mammal organ dissections and study of cadaver preparations. Lect. 3, Lab. 2. Prerequisite: BIO 312. Students who have completed this course, or who are currently enrolled, may not register for this course again until after freshmen registration (unless they have instructor/department consent). Offered Fall, Spring, Summer.
BIO 315 Cr.4  
**Cell Biology**  
A comprehensive overview of cell structure and function, including the nature of biomolecules, cellular metabolism and its regulation, the dynamics of membranes and the cytoskeleton, the execution and control of the cell cycle, cell interactions, and cell signaling. Lect. 3, Lab. 3. Prerequisite: BIO 103 or BIO 105; one additional semester of biology; and a minimum of three semesters of chemistry through organic chemistry. Offered Fall, Spring.

BIO 321 Cr.3  
**Ornithology**  
Field identification and ecology of birds with emphasis on Wisconsin forms. Lect. 2, Lab. 3. Prerequisite: BIO 203 or BIO 210 or BIO 303. Offered Spring.

BIO 330 Cr.3  
**Economic Botany**  
Plants provide humans with food, feed, fuel, fiber, Pharmaceuticals, and other economically important products. This course provides an introduction to domesticated plant varieties and wild plant species and their value in human and domestic animal nutrition, and as energy sources, manufactured materials and drugs. Ethnobotanical interests in wild plant species will also be discussed. Prerequisite: BIO 203 or BIO 304. Offered Alternate Years.

BIO 333 Cr.3  
**Radiation Biology**  
Applications and effects of nuclear radiation on biological systems. Lect. 2, Lab. 2. Prerequisite: BIO 103 or BIO 105; one additional course in biology; CHM 103. Offered Spring.

BIO 337 Cr.3  
**Plant Physiology**  
An introduction to plant water relations, mineral nutrition, respiration, photosynthesis, growth, and development with emphasis on the physiology of seed plants. Prerequisite: BIO 203 or BIO 304. Offered Occasionally.

BIO 341 Cr.3  
**Limnology**  
This course includes fundamentals of aquatic ecology, with special reference to community ecology. Taxonomy, stratification and succession of organisms to be investigated. Energy traffic through aquatic ecosystems will also be investigated. Field trips required. Lect. 2, Lab. 3. Prerequisite: BIO 103 or BIO 105; one additional biology course; one semester of chemistry. Offered Fall.

BIO/CHM/PHY 356 Cr.2  
**Curriculum and Assessment in Math and Science**  
Student are introduced to state and national content standards and related theories on teaching and learning. They will apply this knowledge to develop a curricular framework. Topics will include: Learning outcomes, student misconceptions, balanced assessment, and lesson planning in the content areas. Prerequisite: declared math or science education major/minor; admission to teacher education. (Cross-listed with BIO/CHM/PHY; may only earn credit in one department.) Offered Fall.

BIO 390 Cr.2  
**Latin and Greek Roots in Scientific Terminology**  
Most scientific terminology comes to us as derived from Latin and Greek words. This course provides a solid background in scientific vocabulary by learning root words, prefixes and suffixes, as well as combinations of two or more root words and prefixes. Does not apply toward biology major or any concentration. Prerequisite: BIO 103 or BIO 105. Offered Fall.

BIO 404/504 Cr.3  
**Plant Taxonomy**  
Collection, identification, classification, and evolution of the vascular plants with emphasis on local flora. Lect. 1, Lab. 4. Prerequisite: BIO 203 or BIO 304; junior standing. Offered Spring - Odd Numbered Years.

BIO 405/505 Cr.2  
**Aquatic and Wetland Vascular Plants**  
Identification and collection of vascular plants of aquatic and marsh habitats with emphasis on adaptive morphology and ecology of local species. Field trips required. Lect. 1, Lab. 2. Prerequisite: BIO 203 or BIO 304; junior standing. Offered Fall - Even Numbered Years.

BIO 406/506 Cr.4  
**Parasitology**  
A survey of the major groups of animal parasites with regard to their taxonomy, morphology, life histories, host-parasite relationships, and economic importance. Lect. 2, Lab 4. Prerequisite: BIO 203 or BIO 210 or BIO 303; junior standing. Offered Fall.

BIO 408/508 Cr.4  
**Developmental Biology**  
An exploration of the cellular and molecular mechanisms that underlie embryonic development in several model organisms. Topics include fertilization, regulation of gene expression, cell fate determination, stem cells, early pattern formation, morphogenesis of tissues/organisms, and limb formation. The course primarily focuses on animal models with an emphasis on evolutionarily conserved processes, structures, and molecular pathways. Technological advances and relevance to human development and disease are highlighted throughout. Lect. 2, Lab. 4. Prerequisite: BIO 203 or BIO 210 or BIO 303; BIO 306 or MIC 416; BIO 315; junior standing. Offered Spring.

BIO 410 Cr.1  
**Human Cadaver Dissection**  
This supervised cadaver dissection course uses a regional anatomy approach and is designed to improve students’ competency in human gross anatomy. Students will prepare a human cadaver specimen for use in undergraduate anatomy and physiology laboratories. In addition to dissections, students will use computer-based learning projects and literature reviews to enhance their understanding of human anatomy and the historical and current role of cadavers in society. Prerequisite: BIO 312, BIO 313, and BIO 479 (must have been a TA for BIO 312 or BIO 313). Consent of instructor. Offered Summer.

BIO 412/512 Cr.4  
**Mycology**  
A survey of all the major groups of fungi of the fungal kingdom (and relatives) in terms of systematics, anatomy, morphology, ecology, physiology, genetics, evolutionary relationships, and human and plant pathology. Laboratory includes microscopic and macroscopic study of the fungi, as well as making a collection of cultures and of fungal reproductive structures (including mushrooms) from selected groups. Lect. 2, Lab. 4. Prerequisite: BIO 203 or BIO 304 or MIC 230 (Both the microbiology course and one of the biology courses are strongly recommended); junior standing. Offered Fall.

BIO 413/513 Cr.3  
**Medical Mycology**  
A study of the increasing number of medically important fungi, including the yeasts, molds, other fungi, and actinomycetes that are pathogenic to humans and other animals. Emphasis is on laboratory techniques for isolation and identification of pathogenic fungi. Lect. 2, Lab. 2. Prerequisite: BIO 412 or MIC 230; junior standing. Offered Spring.
BIO 415/515 Cr.3
Freshwater Invertebrate Zoology
Introduces the ecology and taxonomy of the metazoan, non-parasitic freshwater invertebrates. An extensive course designed to provide a foundation for taxonomic knowledge, and basic understanding of the biology and ecology of freshwater invertebrates for advanced students in aquatic and environmental sciences. Lectures will focus on ecology; labs on taxonomy and quantitative skills. A student reference collection and field trips will be required. Lect. 2, Lab. 2. Prerequisite: BIO 203 or BIO 210 or BIO 341; junior standing. Offered Fall - Even Numbered Years.

BIO 419/519 Cr.3
Quantitative Methods in Ecology
An introduction to field and laboratory procedures used by ecologists to describe and analyze the interactions between organisms and their environments. The course will emphasize quantitative techniques, including the use of computer technology, for collecting, recording and interpreting ecological data. Lect. 2, Lab. 2. Prerequisite: BIO 307 or BIO 341; junior standing. Offered Fall.

BIO 421/521 Cr.3
Comparative Vertebrate Endocrinology
A comprehensive study of the production, regulation, structure, molecular to whole-body actions, metabolism, and excretion of biochemical signaling molecules across vertebrates with a focus on amphibians, fish, birds, and mammals. Hormone and neurotransmitter pathways will be examined with relationship to evolutionary and environmental influences using lecture, review of primary literature, and case studies. Credit toward the biology major can only be received for this class or BIO 424, not both. Prerequisite: BIO 313 or BIO 458; junior standing. Offered Spring.

BIO 422/522 Cr.3
Ichthyology
A study of the taxonomy, anatomy, physiology, and ecology of fish, with emphasis on the fresh water fishes. Lect. 2, Lab. 2. Prerequisite: BIO 203 or BIO 210 or BIO 303; junior standing. Offered Fall - Odd Numbered Years.

BIO 424/524 Cr.3
Human Endocrinology
A comprehensive study of the production, regulation, structure, molecular to whole body actions, metabolism, and excretion of biochemical signaling molecules in humans. The classical and more recently recognized neurotransmitter and hormone pathways will be studied. Primarily seed plants will be examined. Structure and development will be studied as a means by which plants cope with their ecology, evolution and function. Lect. 2, Lab. 2. Prerequisite: BIO 313 or BIO 210; junior standing. Offered Fall.

BIO 425/525 Cr.3
Advanced Nutrition for the Health Professions
A comprehensive study of nutrition-related diseases and nutrition assessment, evaluation, and management in clinical settings that people working in healthcare may encounter. Prerequisite: BIO 313 or NUT 200; junior standing. Offered Spring.

BIO 429/529 Cr.3
Evolution
Consideration of the principles and the record of organic evolution of plants and animals. Prerequisite: BIO 306; junior standing. Offered Fall, Spring.

BIO 432/532 Cr.2
Biology of Cancer
A survey of the current knowledge of cancer biology. The course will include lectures, readings and discussions on a wide range of cancer topics, including: characteristics of cancer cells, carcinogenesis, cancer genes, tumor classification, invasion, metastasis, impact of cancer on body functions, epidemiology, inheritance, immunology, diagnosis, treatment, and prevention. Prerequisite: BIO 303 or BIO 313; BIO 306 or MIC 416; junior standing. Offered Fall.

BIO 435/535 Cr.3
Molecular Biology
A study of molecular biology with an emphasis on eukaryotic systems. The course will focus on the molecular aspects controlling biological processes. The impact of recombinant DNA technology on biotechnology and medicine will also be examined. Prerequisite: BIO 306 and BIO 315, or MIC 416 and three semesters of college chemistry including organic chemistry; junior standing. Biochemistry strongly recommended. BIO 436 is an optional laboratory which can be taken concurrently. Offered Fall.

BIO 436/536 Cr.1
Molecular Biology Laboratory
A study of molecular biology with an emphasis on eukaryotic systems. Laboratory emphasis is on recombinant DNA technology, current techniques used to express recombinant proteins in eukaryotic cells, computer based DNA analysis, macromolecular modeling using computers, and quantitative assay techniques. This lab is optional for those enrolled in BIO 435. Lab 3. Prerequisite: taken concurrently with BIO 435; junior standing. Offered Fall.

BIO 437/537 Cr.3
Plant Growth and Development
Discussion of experiments and analysis of research data obtained from the living plant. Prerequisite: BIO 203 or BIO 304; junior standing. Offered Occasionally.

BIO 439/539 Cr.3
Plant Anatomy
A detailed examination of plant structure and development as revealed with the light and electron microscopes. Primarily seed plants will be examined. Structure and development will be studied as a means by which plants cope with their ecology, evolution and function. Lect. 2, Lab. 2. Prerequisite: BIO 203 or BIO 304; junior standing. Offered Occasionally.

BIO/MIC 440/540 Cr.2
Bioinformatics
In this course, students will use computers to study and compare the sequence of nucleotides in DNA or RNA, or the amino acids in a protein. Computers are also used to examine the three dimensional structure of protein. Being able to manipulate and study this information is the basis for the current revolution in biotechnology. Topics include evolution, taxonomy, genomics and understanding disease. This course provides students an opportunity to explore the relationships between biology, microbiology, chemistry and computer science. Lect. 1, Lab 2. Prerequisite: BIO 306 or MIC 416; junior standing. (Cross-listed with BIO/MIC, may only earn credit in one department.) Offered Spring, Winter.

BIO 441/541 Cr.3
Environmental Toxicology
The study of the lethal and sublethal effects of chemical contaminants on ecosystems and humans. Topics covered include environmental legislation, chemical distribution and fate in the environment, methods of toxicity testing, assessment of exposure and risk, effects of chemical contaminants on humans, and fish and wildlife populations, communities and ecosystems, and toxicity of specific chemical groups. Prerequisite: BIO 307 or BIO 341; CHM 104; junior standing. Offered Spring - Odd Numbered Years.
BIO/MIC 442/542 Cr.3

**Plant Microbe Interactions**

This course will explore in depth various ways that plants interact with microbes in the environment, at the macroscopic, cellular, and molecular levels. Case studies will include both parasitic and mutualistic (symbiotic) interactions. Microbes include fungi, bacteria, nematodes, and viruses. Includes plant pathology and studies of the beneficial relationships between plants and microbes. Inquiry based labs are integrated into the lecture and discussion sessions. Lect. 2, Lab 2. Prerequisite: BIO 203 or BIO 304; MIC 230; BIO 306 or MIC 416; junior standing. (Cross-listed with BIO/MIC, may only earn credit in one department.) Offered Spring - Even Numbered Years.

BIO 443/543 Cr.3

**Molecular Mechanism of Disease and Drug Action**

A survey of the leading non-infectious and non-cancerous diseases in the industrialized world. This course will explore the molecular mechanisms of disease, clinical symptomology, and pharmaceutical treatment. Students will be expected to conduct thorough research on a given disease and present their results in a poster session. Prerequisite: BIO 306, BIO 313; CHM 300 or CHM 304; junior standing. Offered Spring.

BIO 447/547 Cr.3

**Standard Methods/Quality Assurance Water Analyses**

This course will instruct students on the use of standard methods for analyses of selected biological, chemical, and physical constituents commonly included in water quality analyses. Quality assurance procedures, including Good Laboratory Practice Standards (GLPS) will be integrated into all activities. Materials covered include: principles of methods used; evaluation of precision, bias, and contamination; proper reporting and interpretation of results; and environmental sources and significance of constituents analyzed. Lect. 1, Lab 4. Prerequisite: BIO 203 or BIO 210 or BIO 303 or BIO 304; three semesters of college chemistry; junior standing. BIO 341 recommended. Offered Spring - Odd Numbered Years.

BIO 449/549 Cr.3

**Advanced Microscopy and Biological Imaging**

Principles and techniques used in modern microscopy and biological image analysis. Emphasis will be on student projects to become proficient at confocal, fluorescence, and scanning electron microscopy. Students will also learn specimen preparation, digital imaging, and image processing and analysis for biological applications. Lect. 2, Lab 2. Prerequisite: BIO 315 or MIC 230; junior standing. Offered Fall - Even Numbered Years.

BIO 450 Cr.1-3

**Internship in Biology**

An academically relevant field experience in government, industry, business, or community agencies. Students must have their internships approved and be advised by the department. Students must be on their internship worksite during the semester for which they are registered for academic credit. Credits earned will count only toward university electives and not toward the completion of any major or minor unless listed. Repeatable for credit - maximum eight. Pass/Fail grading. Offered Fall, Spring, Summer.

BIO 456/556 Cr.4

**Plant Ecology**

Conservation biology, ecological restoration, and predicting the effects of climate change all require an understanding of plant ecology. This course is focused on the interactions among plants, other organisms, and the environment. We will work across the individual, population, and community levels, and emphasize an exploratory approach to plant ecology. Class activities will include lectures, the discussion of ecological journal articles, and carrying out student-designed experiments. Prerequisite: BIO 307 or BIO 341; junior standing. Offered Fall - Even Numbered Years.

BIO 458/558 Cr.3

**Comparative Animal Physiology**

This course provides a thorough understanding of animal physiology from a comparative perspective. Emphasis will be placed on the basic physiological principles by which animals perform their life sustaining functions. Discussion will focus on vertebrates, but will span both invertebrate and vertebrate models to illustrate how largely divergent groups have evolved different (or similar) mechanisms to cope with their specific environmental challenges. Class activities will include lectures and discussion of physiological journal articles. Prerequisite: BIO 203 or BIO 210; junior standing. Offered Fall.

BIO 460/560 Cr.1-4

**Symposium in Biology**

Studies in biology of interest to specific groups. Varying topics will be offered at intervals with a specific title assigned to each. May be staffed by resident faculty or visiting lecturers. Other departments may be invited to participate. Repeatable for credit - maximum 16. Variable offerings - check registration schedules. Prerequisite: four semesters of biology; junior standing. Offered Occasionally.

BIO 464/564 Cr.3

**Stream and Watershed Ecology**

An introduction to key concepts and theory pertinent to understanding and managing fluvial ecosystems (rivers and streams) and their watersheds. The course emphasizes rivers as large-scale physical and biological systems. Course work includes a comparative case study of distinctive types of temperate, tropical, and polar rivers. Prerequisite: BIO 307 or BIO 341; junior standing. Offered Spring.

BIO 465/565 Cr.3

**Neurophysiology**

An examination of the nervous system beginning at the cellular level and working up to neuronal systems. Topics covered include the ionic basis of membrane potentials, synaptic communication, organization of functional circuits of neurons, and systems within the brain and/or spinal cord which control learning and memory, vision and motor function. Exploration of these fundamental neurophysiology topics from the basis for understanding a variety of student-selected topics which will be covered later in the semester. Late-semester topics often include higher-order aspects of brain function or challenges to the nervous system, such as the repair of brain or spinal cord injury, degenerative disease states, dyslexia, or gender differences. BIO 467 is an optional laboratory course which can be taken concurrently. ñ Prerequisite: BIO 312; junior standing. Offered Spring.

BIO 466/566 Cr.3

**Human Molecular Genetics**

A study of the basic principles of heredity in humans. Focus will be on modern molecular techniques used in isolating human disease genes and modes of inheritance of human traits and disorders. Ethical issues in human genetics will also be discussed. Prerequisite: BIO 306; junior standing. Offered Fall.
BIO 467/567 Cr.2
**Neurobiology Laboratory Techniques**
An introduction to common laboratory techniques in neurobiology, including electrophysiology with invertebrate preparations, mammalian neuronal cell culture, and computational modeling. Students will receive training in techniques while performing classical experiments, then design their own novel experiments and carry them out. Prerequisite: BIO 312; BIO 405 or concurrent enrollment; junior standing. Offered Spring - Odd Numbered Years.

BIO 468/568 Cr.1
**Human Molecular Genetics Lab**
A study of the techniques used in doing research in human molecular genetics with a focus on commonly used model organisms in the study of human genetic disorders. Laboratory emphasis is on phenotype analysis, library screening, DNA microarray analysis, gene mapping, and bioinformatics. This lab is optional for those enrolled in BIO 466/566. Lab 3. Prerequisite: BIO 306; BIO 466 concurrently; junior standing. Offered Fall.

BIO/CHM/PHY 469 Cr.4
**Teaching and Learning Science in the Secondary School**
This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in science. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school and learn how to design learning experiences to support all learners. Prerequisite: GEO 200; EDS 351. (Cross-listed with BIO/CHM/PHY; may only earn credit in one department.) Offered Fall, Spring.

BIO 473/573 Cr.3
**Marine Biology**
Marine biology is an interdisciplinary field that includes elements of geology, physics, chemistry and biology. Students will gain an introduction to how biological organisms deal with varying physical, geological and chemical conditions found in marine ecosystems. Emphasis will be placed on current conservation concerns and marine invertebrate diversity. Prerequisite: BIO 203; CHM 103; junior standing. Offered Spring - Odd Numbered Years.

BIO 476/576 Cr.3
**Ecosystem Ecology**
Ecosystems include the living and non-living components of an environmental system and have emergent properties that can only be understood by examining the system as a whole. This course will examine advanced ecological topics centered around the structure and function of aquatic and terrestrial ecosystems. Topics covered will include the development of the ecosystem concept, ecosystem succession, production/decomposition, energy transfer in food webs, and nutrient cycling. The course will consist of classroom lectures, problem sets, and reading/discussion of relevant literature. Prerequisite: BIO 307; one semester of chemistry; junior standing. Offered Spring - Even Numbered Years.

BIO 479 Cr.1
**Independent Study in Biology**
A directed reading project or job shadowing experience within the discipline but outside that offered through regularly scheduled courses. Under the direction of the supervising faculty member (and in coordination with mentoring professional for job shadowing experience). A written report is an expected outcome. Repeatable for credit - maximum two. Consent of department. Offered Fall, Spring, Summer.

BIO 490/590 Cr.1-3
**Current Topics in Biology Education**
Biological researchers produce new discoveries almost daily. The purpose of this course is to train K-12 pre-service and in-service teachers in the current technologies and theories used in biology and to demonstrate the current approaches to teaching these materials. Repeatable for credit under different topics. Not applicable to a major or minor in biology, except for teacher certification major. Departmental option for pass/fail grading. Prerequisite: junior standing. Pass/Fail grading. Offered Fall.

BIO 491 Cr.1
**Capstone Seminar in Biology**
A seminar-style course designed for students to review and discuss basic concepts necessary for a career in the biological sciences and to assess their major in biology. This course will cover basic concepts of resume and cover letter writing, quantitative skills, computer literacy and current topics in biology. Students are expected to actively participate in an assessment of their major, and participate in discussions on major issues and developments in the biological sciences. Students will present a seminar on a contemporary biological topic incorporating primary literature. Prerequisite: senior standing. Offered Fall, Spring.

BIO 495 Cr.1-3
**Service Learning in Biology**
Students will plan, implement, and reflect on community service projects that will allow them to apply, enhance, and share what they have learned in a specific area of focus (such as aquatic science, nutrition, etc.) in cooperation with one or more community partners. The student's university advisor(s) and the participating community partner(s) will provide constructive evaluation of the project and student reflections throughout the experience. The student will provide formal written and oral communications to the advising faculty and community partner(s) regarding the outcomes of the service project. Repeatable for credit - maximum three. Prerequisite: junior standing. Offered Fall, Spring, Summer.

BIO 499 Cr.1-3
**Independent Research**
Individual research projects. Open to advanced students. Students may enroll for 1-3 credits per semester for a maximum of six credits. A maximum of two credits can be applied to the major in biology. Prerequisite: four semesters of biology and the completion of a consent form signed by the project director. Consent of instructor. Offered Fall, Spring, Summer.

**Business Administration (BUS) - Courses**
Courses

BUS 205 Cr.3
The Legal & Ethical Environment of Business
This course introduces students to ethical theory and decision-making models, as well as the legal framework in which American business operates, the substantive legal rules that govern American business domestically and internationally, and the ethical and social responsibility implications of business conduct within the legal environment. Governmental efforts to regulate business activity by statute and administrative agency rules and decisions are emphasized. Prerequisite: ENG 110 or ENG 112; MTH 145; CBA major or business administration minor. Offered Fall, Spring.

BUS 230 Cr.3
Business and Economics Research and Communication
The study of the scientific method as used in business and economics research, beginning with the identification of the problem and culminating in the final report. Analysis of the reliability and validity of data, effectiveness of presentation, and a critical study of the validity of conclusions. Prerequisite: ENG 110 or ENG 112; MTH 145; CBA major or CLS economics major. Offered Fall, Spring.

BUS 240 Cr.3
Introduction to International Business
The course serves as an introduction to the field of international business and relates it to both the functional areas of business and to the basic disciplines which define the international environment. Within this frame of reference, the course focuses on the problems and opportunities which arise when firms conduct business abroad. Offered Occasionally.

BUS 305 Cr.3
Business Law
Introduces the common law subjects of contracts, agency and torts; the Uniform Commercial Code's treatment of sales contracts; and criminal law issues relevant to management decision-making. Prerequisite: BUS 205; admission to business. Offered Fall, Spring.

BUS 310 Cr.3
Principles of Sustainable Business
This course lays a foundation on the relationships between social, environmental and business systems. Challenges to existing business theory will embrace a new ecological perspective of business that includes an introduction to complexity theory, systems thinking, evolutionary economics and biomimicry. The specific topics of the triple-bottom-line, full-cost accounting, green marketing, human rights and social equity are explored within the context of local and global ecosystems and a broadened mission for "sustainable" business in the 21st century. Prerequisite: admission to business. Offered Annually.

BUS 350 Cr.1
Career Preparation
This course prepares students to change from the academic environment to the professional environment. Topics include self-assessment, preparing for interviews, written and oral communication in a career search, electronic resources, and graduate school opportunities. Prerequisite: admission to business. Pass/Fail grading. Offered Fall, Spring.

BUS 400 Cr.1
Foreign Study Tour
This course and accompanying tour will give students an opportunity to gain an in-depth knowledge of a foreign city and/or region. The class will prepare students for international travel in general, and for the experience of visiting selected cities/areas. The specific cities/areas to be visited may vary by semester and by professor. Students are encouraged to meet with prospective professors/leaders early so that the students' interests will best be served. Notes: 1) class is open only to those students participating in the class tour which will generally be for two weeks and commence at the end of the regular semester; 2) students who enroll in the class/tour will be asked to make a non-refundable deposit prior to the beginning of the semester. Prerequisite: MGT 308; FIN 355; MKT 309; admission to business. To be taken concurrently with INS 226. Consent of instructor. Offered Occasionally.

BUS 405 Cr.3
The Law of International Business Transactions
Examines the legal problems that arise when business activities and organizations cross national boundaries and become multinational in structure, operation, and scope. Specific attention is paid to the legal effects of international business decisions; doing business in market, non-market and developing nations; the movement of goods, people and information across national borders; protection of intellectual property, international dispute resolution; international contracts; and the extra-territoriality of U.S. law. Prerequisite: BUS 205; admission to business. Offered Fall.

BUS 415 Cr.3
Current Topics in Law
Examination of current legal problems as they relate to business. Prerequisite: admission to business. Offered Occasionally.

BUS 450 Cr.3
Business Sustainability Capstone
This capstone course will act as a culmination of the Sustainability Minor in Business. By the time students complete this last course in the minor, they will have developed not only a deep exposure to the "content" of sustainable business, but also a great deal of firsthand experience with the very tools and procedures that breathe factual "life" into that content, including the triple-bottom-line, full-cost accounting, externalities, and ecological footprint audits. Speakers from and field trips to businesses engaging in sustainability practices will also be a part of this course. Open only to minors in sustainable business. Prerequisite: BUS 310; MGT 408; and six additional credits applicable to the sustainable business minor. Offered Annually.

Chemistry (CHM) - Courses

+ next to a course number indicates a general education course

Courses

+CHM 100 Cr.4
Contemporary Chemistry
A survey course focusing on applied chemistry. Fundamental chemistry and science concepts are developed and then used to study applications of this science to technology in society. Emphasis is placed on selected topics that are current. Course is not applicable to a major or minor in chemistry and does not meet the prerequisite requirement of any other chemistry course. Lect. 3, Lab 2. Offered Fall.
+CHM 103 Cr.5

General Chemistry I
An introduction to chemistry including topics in atomic structure, chemical bonding, molecular structure, chemical stoichiometry, reactivity, states of matter, solutions, acid-base theory, and nuclear chemistry, and also including selected topics in descriptive and applied chemistry. Scientific inquiry, experimental design and data analysis are included. Lect. 3, Lab 3, Disc. 1. Prerequisite: MTH 150 or placement into MTH 151 or higher. Offered Fall, Spring, Summer.

CHM 104 Cr.5

General Chemistry II
The second half of the two-semester sequence in general chemistry. The course provides an introduction to the topics of chemical kinetics, equilibria in the gas and solution phases, acid-base chemistry, solubility, thermochemistry, and electrochemistry. The laboratory portion of the course serves to reinforce and demonstrate the above concepts through experimentation. Lect. 3, Lab. 3, Disc. 1. Prerequisite: grade of "C" or better in CHM 103. Offered Fall, Spring.

CHM 231 Cr.4

Fundamentals of Inorganic Chemistry
A foundational course in inorganic chemistry intended to provide exposure to and understanding of the composition, structure, bonding properties and reactivity of inorganic compounds, and basic laboratory techniques and practice commonly applied to inorganic compounds. Prerequisite: grade of "C" or better in CHM 104. Offered Fall.

CHM 250 Cr.3

Introduction to Organic and Biochemistry
A survey course focusing on basic organic and biochemistry with applications to chemical processes in human and other living systems. Course is not applicable to a major or minor in chemistry and does not meet the prerequisite requirement of any other chemistry course. Prerequisite: grade of "C" or better in CHM 103. Students with credit in CHM 300 or CHM 325 cannot earn credit in CHM 250. Offered Spring.

CHM 271 Cr.1

The Chemical Community
A sophomore level course for chemistry and biochemistry majors that exposes students to scientific communication (writing, speaking, presenting), the chemical literature and how to search it, potential careers in chemistry and career preparation, student opportunities such as internships and undergraduate research, and current and historical topics in chemistry including ethics in science. Students are expected to participate in discussions and complete various writing and presentation assignments. Prerequisite: CHM 104; sophomore standing; chemistry or biochemistry major. Offered Fall.

CHM 300 Cr.5

Survey of Organic Chemistry
A study of the properties, reactions, and uses of the major classes of organic compounds. Theories to relate the structure of organic molecules to their chemical reactions is presented as a unifying principle. Applications of organic chemistry to the life sciences and to environmental problems are emphasized. A terminal organic chemistry course recommended for students in the allied health sciences when only one semester of organic chemistry is required. Lect. 3, Lab 4. Course is not applicable to a major in chemistry. Prerequisite: CHM 104; sophomore standing. Students with credit in CHM 303 cannot earn credit in CHM 300. CHM 300 does not satisfy the prerequisite requirement for CHM 304. Offered Fall, Spring.

CHM 301 Cr.5

Analytical Chemistry
Theory and practice of selected methods of chemical analysis. Titrimetric, potentiometric, spectrophotometric and gas chromatographic methods of analysis are studied. Statistical treatment of data and techniques for quality assurance are also developed. The basic science component in the course is primarily directed towards ionic equilibria. Lect. 3, Lab 6. Prerequisite: CHM 104; sophomore standing. Offered Fall, Spring.

CHM 303 Cr.3

Organic Chemistry Theory I
A study of the structure, methods of structure determination, stereochemistry and chemical behavior of hydrocarbons, alcohols, and halogenated hydrocarbons. Theories and mechanisms are introduced to explain chemical behavior. Prerequisite: CHM 104; sophomore standing. Students with credit in CHM 300 cannot earn credit in CHM 303. Offered Fall, Spring.

CHM 304 Cr.3

Organic Chemistry Theory II
A study of organic synthesis, common functional groups, carbanions, reaction mechanisms, lipids, carbohydrates, proteins and polymers. Prerequisite: CHM 303. Offered Fall, Spring.

PHY 204; MTH 310 or concurrent enrollment. Offered Fall, Spring.

CHM 310 Cr.3

Physical Chemistry Theory I
A study of real gases, equations of state, kinetic and molecular theory, properties of gases, molecular energies, classical thermodynamics, chemical equilibria, changes of state and reaction kinetics and mechanisms. Prerequisite: CHM 104; PHY 103 or PHY 203; PHY 104 or PHY 204; MTH 310 or concurrent enrollment. Offered Fall.

CHM 313 Cr.3

Physical Chemistry Laboratory
A lecture and laboratory course designed to teach, illustrate, and strengthen basic concepts in experimental physical chemistry. Topics include thermodynamics, kinetics, introductory spectroscopy, computational chemistry, and statistical error analysis. Students will be exposed to current techniques and equipment used in investigating physical chemistry questions, and will design and implement an independent project of their choosing. A significant emphasis is placed on the development of excellence in both oral and written scientific communication. Lect. 1, Lab 6. Prerequisite: CHM 309. Offered Fall, Spring.
CHM 314 Cr.2
**Advanced Physical Chemistry Laboratory**
A lecture and laboratory course designed to teach, illustrate, and strengthen concepts in the physical aspects of experimental and computational physical chemistry. Topics may include infrared and UV/visible absorption spectroscopies, fluorescence spectroscopy, NMR spectroscopy, computational modeling of potential energy surfaces, chemical properties, molecular structures, and advanced topics in thermodynamics and kinetics. Students will be exposed to a selection of current experimental techniques, equipment, and basic programming skills, and will have the opportunity to design and implement extensions to selected experiments. A significant emphasis is placed on the development of excellence in both oral and written scientific communication. Lect. 1, Lab 3. Prerequisite: CHM 313, CHM 310 or concurrent enrollment. Offered Occasionally.

CHM 320 Cr.1-3
**Practicum in Chemistry**
A course designed for and adapted to the specific needs of select groups having specific interests in the applications of techniques and/or theories of chemistry, i.e., educational professionals, chemical technicians, medical technologists, etc. Lecture and laboratory will be adapted to the topic being taught. May be repeated for credit when different topic is presented. Prerequisite: to be determined - based on topic offered. Not applicable to a major in chemistry. Offered Occasionally.

CHM 322 Cr.3
**Polymer Chemistry**
An introduction to commercially and scientifically important polymer systems. Topics include mechanisms of polymer formation, effects of chemical structure on polymer morphology, polymer structure-property relationships, molecular weights and molecular weight distributions. Characterization of polymers by thermal, physical and spectroscopic methods will be covered in detail. Polymer blends, co-polymers and polymer recycling will also be examined. Prerequisite: CHM 300 or CHM 304. Offered Fall - Even Numbered Years.

CHM 323 Cr.2
**Polymer Chemistry Laboratory**
A practical introduction to the application of important techniques for polymer synthesis and characterization. Various polymerization approaches will be covered including bulk, solution and emulsion polymerization processes. Methods for analyzing molecular weights and molecular weight distributions will be employed. Instrumental techniques for the characterization of thermal, mechanical and surface properties of polymeric materials will also be emphasized. Lec. 1, Lab 3. Prerequisite: CHM 322. Offered Spring - Odd Numbered Years.

CHM 325 Cr.4
**Fundamental Biochemistry**
A survey of chemical processes in biological systems emphasizing the structure, function, and interactions of proteins, nucleic acids, carbohydrates, lipids, the regulation of cellular processes, and a description of certain clinical disorders. Lect. 3, Lab 3. Prerequisite: CHM 300 or CHM 304. Students with credit in CHM 417 cannot earn credit in CHM 325. Offered Fall, Spring.

CHM 330 Cr.3
**Industrial Chemistry**
An overview of both the scientific and commercial aspects of the chemical industry. Industrially important chemical processes will be discussed. Topics will include production and end use of basic inorganic chemicals of commercial importance, industrial gases, and petroleum-based products. The economics of various chemical processes will be presented. Global and local topics such as regulatory compliance, product liability, and patent/trade secret documentation may also be discussed. Prerequisite: CHM 300 or CHM 303. Offered Spring - Even Numbered Years.

BIO/CHM/PHY 356 Cr.2
**Curriculum and Assessment in Math and Science**
Student are introduced to state and national content standards and related theories on teaching and learning. They will apply this knowledge to develop a curricular framework. Topics will include: Learning outcomes, student misconceptions, balanced assessment, and lesson planning in the content areas. Prerequisite: declared math or science education major/minor; admission to teacher education. (Cross-listed with BIO/CHM/PHY; may only earn credit in one department.) Offered Fall.

CHM 361 Cr.3
**Radiochemistry**
A study of the decay of radioactive elements, detection of radiation, methods of analysis and applications such as neutron activation and radioactive dating. Lect. 2, Lab 2. Prerequisite: three semesters of chemistry courses. Students with credit in CHM 461 cannot earn credit in CHM 361. Offered Occasionally.

CHM 403 Cr.3
**Advanced Organic Chemistry**
Advanced topics in organic chemistry, including reaction mechanisms, molecular orbital theory, conservation of orbital symmetry, pericyclic reactions, photochemistry, aromaticity, stereochemistry, kinetics, isotope effects, linear free energy relationships, hard-soft acid-base theory, and selected examples of recent advances in synthetic organic chemistry. Prerequisite: CHM 304. Offered Fall - Even Numbered Years.

CHM 405 Cr.2
**Advanced Organic Synthesis**
An advanced course in organic chemistry intended to provide students with organic synthesis techniques that can be applied to many areas of research, and expose them to diverse fields of study including chemistry, biochemistry, and chemical biology. Specific topics will include protein labeling, biologically-compatible click chemistry, and natural product synthesis. Lect. 1, Lab 3. Prerequisite: "C" or better in CHM 304 and CHM 305. Offered Spring - Odd Numbered Years.

CHM 407 Cr.3
**Biophysical Chemistry**
A study of the physical principles that drive the structure and behaviors of biological molecules. Topics include the relationship between the properties of biomolecular building blocks and macromolecular structure; application of different physical models (thermodynamic, quantum mechanical, statistical mechanical) to macromolecular structure and behavior; application of physical techniques (spectroscopy, calorimetry, etc.) to the characterization of macromolecular structure and behavior. Prerequisite: CHM 417 or CHM 325; MTH 207; MTH 208 or MTH 265 or concurrent enrollment; PHY 103 or PHY 203; PHY 104 or PHY 204. Offered Spring.
CHM 412/512 Cr.3
Environmental Chemistry
This course examines the role of chemistry in shaping our environment, including atmospheric, aqueous, and terrestrial components. Students learn how fundamental chemical principles are applied to complex real systems in order to characterize environmental behavior and aid in prediction and decision making. Specific topics explored include climate change, ozone depletion, smog formation, water quality and treatment, energy policy, and the fate/transport of pollutants. Prerequisite: CHM 301; junior standing. Offered Spring.

CHM 417/517 Cr.4
Biochemistry I: Macromolecules
A study of the structure and function of biological macromolecules with special emphasis on proteins. Topics include protein folding, protein-ligand interactions, protein function, and membrane structure and function. The laboratory focuses on contemporary biochemical techniques including quantitative biochemical assays, ligand binding, protein purification, and enzyme function. Lect 3, Lab 3. Prerequisite: "C" or better in CHM 300 or CHM 304; junior standing; BIO 315 or MIC 425 recommended. Students with credit in CHM 325 cannot earn credit in CHM 417. Offered Fall.

CHM 418/518 Cr.3
Biochemistry II: Metabolism and Genetic Information
This course provides a comprehensive and integrative approach to fundamental metabolism and the flow of genetic information. In particular, the course emphasizes the chemical principles governing metabolic inter-conversions, energy flow, regulation of metabolic pathways, and the maintenance of genetic information. Prerequisite: "C" or better in CHM 417; junior standing. BIO 306 and BIO 315, or MIC 416 and MIC 425 recommended. Students with credit in CHM 325 cannot earn credit in CHM 417. Offered Fall.

CHM 419/519 Cr.2
Advanced Biochemistry Lab
A laboratory course using biochemical and biophysical techniques to study biomolecular structure and function. The course will review current primary literature with special emphasis on the collection and interpretation of experimental data. Lab 6. Prerequisite: "C" or better in CHM 417; CHM 418 or concurrent enrollment; junior standing. Offered Spring.

CHM 421/521 Cr.3-4
Advanced Topics in Chemistry
An advanced topic in chemistry based on appropriate prior work in physical chemistry, organic chemistry, inorganic chemistry, and analytical chemistry. Lecture and laboratory will be adapted to the topic being taught. May be repeated for credit when different topic is presented. Repeatable for credit - no maximum. Prerequisite: determined based on topic offered and will include a minimum of three semesters of chemistry courses; junior standing. Offered Occasionally.

CHM 422/522 Cr.3
Polymer Chemistry
A study of synthetic high molecular weight materials of practical application in industry or of theoretical interest in chemistry. Representative polymer systems are examined with respect to the effect of molecular weight, weight distribution, and structure on physical properties. The choice of monomeric starting materials and mechanisms of polymerization are examined in detail. Methods of characterizing macromolecules are surveyed. Lect. 2, Lab 2. Prerequisite: CHM 304; junior standing. CHM 309 highly recommended. Offered Occasionally.

CHM 424/524 Cr.3
Spectroscopy
A survey of important spectroscopic methods used in chemistry; infrared and ultraviolet, proton and carbon-13 NMR, and mass spectrometry. Theory and practice of techniques are covered. Emphasis is placed on structure determination of organic molecules. Analysis of dynamic systems and mixtures may also be covered. Lect. 2, Lab 3. Prerequisite: CHM 300 or CHM 304; junior standing. Offered Spring - Even Numbered Years.

CHM 431/531 Cr.3
Advanced Inorganic Chemistry
An advanced course in inorganic chemistry building upon foundations presented in CHM 231, intended to highlight a more advanced theoretical treatment of inorganic compounds and reactions and applications of inorganic chemistry principles to catalysis, functional materials, and biological systems. Prerequisite: CHM 231; CHM 310 or concurrent enrollment; junior standing. Offered Spring - Odd Numbered Years.

CHM 441/541 Cr.4
Instrumental Analysis
A study of the theory and principles of chemical instrumentation including the application of basic electronics, spectroscopy, separation science and electroanalytical methods of chemical analysis. Lect. 3, Lab 3. Prerequisite: CHM 301; junior standing. Offered Fall.

CHM 461/561 Cr.4
Nuclear Chemistry
A study of the decay of radioactive nuclides with emphasis on the theory of nuclear decay. Laboratory will include the study of the detection of radiation, methods of radio analysis and the safe handling of sealed radioactive sources. Lect. 3, Lab 3. Prerequisite: four semesters of chemistry courses; junior standing. Students with credit in CHM 361 cannot earn credit in CHM 461. Offered Spring.

BIO/CHM/PHY 469 Cr.4
Teaching and Learning Science in the Secondary School
This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in science. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school and learn how to design learning experiences to support all learners. Prerequisite: GEO 200; EDS 351. (Cross-listed with BIO/CHM/PHY; may only earn credit in one department.) Offered Fall, Spring.

CHM 471 Cr.1
Capstone in Chemistry and Biochemistry
A senior level course designed for chemistry and biochemistry majors that focuses on recent issues in the chemical sciences and supports the departmental assessment plan. Students will present a seminar on a contemporary chemical topic that incorporates the primary literature. Students are expected to actively participate in discussions and critique the scientific seminars. In addition, students will be engaged in the assessment of their majors. Prerequisite: CHM 271; senior standing; chemistry or biochemistry major. Offered Spring.
Offered Annually.
at-risk families will be discussed. Prerequisite: CYC 301; PSY 210 or PSY using a systems framework. The application of family systems theory to examine developmental stages, life cycle patterns, and family interactions will be taught from a problem-based learning perspective. Prerequisite: CHM 301; chemistry education (EA-A) major or minor plan; chemistry department consent. Consent of department. Offered Fall, Spring.

Independent Study
Independent study under the direction and supervision of a member of the chemistry faculty. Activities related to chemistry other than those normally considered chemistry research. Repeatable for credit - maximum two. Consent of department. Offered Fall, Spring, Summer.

Research
Laboratory research under the direction and supervision of a member of the chemistry department staff for selected students. A written or oral report will be required. Repeatable for credit - maximum six. A maximum of four credits can be applied to the major in chemistry. A maximum of two credits can be applied to the major in biochemistry. Consent of department. Offered Fall, Spring, Summer.

Child/Youth Care (CYC) - Courses

Courses

CYC 301 Cr.3
Overview of Child and Youth Care
As the overview course in the child and youth care minor, the class addresses current issues in the field of child and youth intervention. Taking a multidisciplinary approach, students will explore factors that place children and youth at risk. The class also provides a preliminary investigation of systems theory, program design, interventions, and advocacy. Prerequisite: grade of "B" or better in PSY 210 or PSY 212 and fewer than 75 credits overall. Offered Fall.

CYC 310 Cr.3
Social Policy for Children and Families
This course is designed to examine current and proposed child and family policies. Specifically, the goals of the course are to enhance students’ understanding of (a) the basics of child and family development and the complex nature of childhood risk and resilience; (b) current policies and safety net programs, particularly in the areas of child protection and family strengthening, their evolution over time, and their strengths and weaknesses; (c) recent reform efforts and new directions in policy; and (d) building community connections. Prerequisite: CYC 301; PSY 210 or PSY 212. Offered Annually.

CYC 411 Cr.3
Family Systems Theory
This course focuses on the study of the family as a system. Students will examine developmental stages, life cycle patterns, and family interactions using a systems framework. The application of family systems theory to at-risk families will be discussed. Prerequisite: CYC 301; PSY 210 or PSY 212. Offered Annually.

CYC 450 Cr.1-6
Internship in Child/Youth Care
An academically relevant field experience for students in the child/youth care emphasis. The internship must be at an approved site with substantial time devoted to work with children or adolescents at risk. The internship will be arranged through Career Services and supervised by a child/youth care emphasis affiliated faculty member. Repeatable for credit - maximum six. Prerequisite: CYC 301; junior standing; 2.25 cumulative GPA. Consent of instructor. Pass/Fail grading. Offered Fall, Spring, Summer.

CHI 101 Cr.4
Elementary Chinese I
The first of two introductory courses in Chinese. The five language skills: listening, speaking, writing, reading and culture are introduced. Offered Fall.

CHI 102 Cr.4
Elementary Chinese II
The second introductory course in Chinese comprehension, speaking, writing, reading, and culture. Prerequisite: CHI 101 or placement. Offered Spring.

CHI 201 Cr.4
Intermediate Chinese I
The first of two intermediate-level Chinese courses. Students continue to develop all language skills with special emphasis placed on refining speaking and listening comprehension. Prerequisite: CHI 102 or placement. Offered Fall.

CHI 202 Cr.4
Intermediate Chinese II
The second of two intermediate-level Chinese courses. Students continue to develop all language skills with special emphasis placed on refining reading and writing in Chinese. Prerequisite: CHI 201 or placement. Offered Spring.

CHI 301 Cr.3
Advanced Chinese
This is a Chinese language course for intermediate level learners who have completed CHI 202 or equivalent. Its aim is to help students continue to develop communicative competence in the four skills of listening, speaking, reading, and writing the Chinese language. While linguistic aspects of the Chinese language are the primary focus, introduction to the social and cultural background of the language will also form an important part of the course. Prerequisite: CHI 202 or equivalent. Offered Fall.
Clinical Laboratory Science (CLI) - Courses

Courses

CL120 Cr.1 Introduction to Clinical Laboratory Science
An introductory course designed for students who are interested in a profession in clinical laboratory science. The course will introduce the students to the technical and clinical functions of the profession as well as to the professional aspects of clinical laboratory science. An introduction to the profession, basic laboratory math, medical terminology, and diagnostic tests evaluated in the clinical laboratory will be discussed. Students will develop an understanding for the critical role clinical laboratory scientists play in the health care arena. Offered Spring.

CL130 Cr.3

Introduction to Modern Chinese Literature
This course provides a general survey of the most important Chinese writers of the 20th century and their works. Literary works are discussed in their social, cultural, and historical contexts. Taught in English and based entirely on translated texts, the course is ideal for students with little or no Chinese background who are nevertheless drawn to one of the most vibrant literary cultures in the world. Offered Spring - Even Numbered Years.

CL135 Cr.3

Urine and Body Fluids
This course introduces the formation, distribution, and function of urine and other nonblood body fluids. Instruction in the handling and analysis of these fluids will be given based on their chemical, physical, and cellular composition in health and disease. The laboratory focuses on performing and interpreting results from the clinical laboratory procedures performed in the lab. Lect. 1, Lab 2. Prerequisite: admission to Clinical Lab Science Program. Offered Spring, Summer.

CL140 Cr.3

Clinical Hematology
Introductory course in hematology which examines normal hematologic physiology, cellular development, and hemostasis in the human. Introduction to pathophysiology, with emphasis on clinical and laboratory evaluation of hematologic status. Theory and background of laboratory procedures used in the diagnosis and treatment of hematologic and other diseases are included. Emphasis is on peripheral blood cell morphology, hemopoiesis, maturation, and kinetics. Pathophysiology of hematologic disorders, including anemias and hematologic malignancies are explored. Manual laboratory techniques as well as instrumentation will be included in the laboratory portion. Complete blood counts, correlation of automated and manual differentials and routine coagulation testing also will be performed. Lect. 2, Lab 2. Prerequisite: admission to Clinical Lab Science Program. Offered Fall.

CL1410 Cr.3

Immunohematology
Course covers the general aspects of the Blood Group System, red cell types and group systems, antibody screening, compatibility testing, blood donor service, selection of donors, blood drawing, storage, and preservation, components, records, and regulations for blood banks. The laboratory section includes performance of blood bank procedures, donor processing, compatibility testing, component preparation, antibody screening, and antibody identification. Lect. 4, Lab 6. Prerequisite: admission to Clinical Lab Science Program. Offered Summer.

CL1440/540 Cr.1

Clinical Parasitology
Course covers important parasites of humans including zoonoses, emerging parasitic diseases. Life cycles, clinical features and infective diagnostic stages will be included in the lecture component. The laboratory will include demonstrations and diagnostic procedures. This course will provide the necessary pre-clinical competencies required for advancement to the clinical education component of the Clinical Laboratory Science Program. Prerequisite: MIC 230; admission to Clinical Lab Science B.S. Program or the Clinical Microbiology M.S. Program or consent of the instructor. Not open to students who have earned credit in BIO 406/506. Offered Spring.

CL1450 Cr.6

Clinical Chemistry
This course focuses on chemical analysis performed in the clinical laboratory. The correlation between the organ systems, the clinical laboratory procedures, and human disease states is presented. Discussion of areas unique to clinical chemistry laboratory related to evaluation and validity of test results is emphasized. Laboratory rotation applies the principles of clinical chemistry and their relationship to the performance of analytical procedures and management of the clinical chemistry laboratory. Six-week rotation. Prerequisite: admission to Clinical Lab Science Program; acceptance to a hospital NAACLS accredited clinical lab science program. Offered Fall.
CLI 455 Cr.6
Clinical Hematology/Hemostasis
Course extends concepts and skills learned in CLI 395 and CLI 410. Advanced theory in hematology to include abnormal and malignant processes, applications of flow cytometry and special stains, the diagnosis of classification of leukemias, troubleshooting instrumentation and interpretation of scatterplots. Hemostasis concepts, selection of appropriate tests and interpretation of results and diagnosis of coagulation disorder as well as advanced body fluid morphology will be covered. Students will gain experience processing and analyzing patient specimens with a wide variety of complex procedures as well as instrumentation. Students will also expand their identification and diagnostic skills on microscopic analysis of hematology and body fluid specimens. Six-week rotation. Prerequisite: CLI 395 and CLI 410; admission to Clinical Lab Science Program; acceptance into a hospital NAACLS accredited clinical lab science program. Offered Fall.

CLI 460 Cr.6
Clinical Immunohematology
Course extends concepts and skills acquired in CLI 420. Performance and interpretative skills in ABO and Rh typing, antibody detection and identification techniques, hemolytic disease problems, quality assurance management, solving patient’s blood compatibility problems, histocompatibility techniques and selection of appropriate blood products for various bleeding disorders will be expanded. Six-week rotation. Prerequisite: CLI 420; admission to Clinical Lab Science Program; acceptance into a hospital NAACLS accredited clinical lab science program. Offered Spring.

CLI 461 Cr.1
Capstone in Clinical Laboratory Science
The course covers topics of current interest in the field such as emerging infectious diseases and testing, new concepts in instrumentation, and evolution of new tests from basic research to clinical application. Students also will learn and practice basic skills such as resume and cover letter writing. Students will participate in curriculum selection for part of this class to help them prepare for pre-clinical competency exams at their hospital sites. Prerequisite: acceptance to an internship site; senior standing; clinical lab science major. Offered Summer.

CLI 465 Cr.2
Clinical Immunology
Course in the application of immunologic and serologic techniques used for the specific diagnosis of immunodeficiency diseases, malignancies of the immune system, autoimmune disorders, hypersensitivity states and infection by specific microbial pathogens. Laboratory rotation applies concepts from lecture. Experience is gained in clinical immunological techniques, methods, and management of antigen-antibody reactions and identification of the relationship to disease states. The rotation also includes the fundamentals of HLA testing and Flow Cytometry techniques with interpretation of results. Two-week rotation. Prerequisite: admission to Clinical Lab Science Program; acceptance into a hospital NAACLS accredited clinical lab science program. Offered Fall, Summer.

CLI 470 Cr.8
Diagnostic Microbiology
Course provides an in depth study of the major groups of pathogenic bacteria, fungi, parasites, and viruses and their relationship to human disease. Topics include clinical signs and symptoms of these diseases, proper method of collecting, transporting, and processing appropriate clinical specimens, modes of transmission, and state-of-the-art laboratory methods used for the identification of these pathogens and diagnosis of the diseases they cause. Principles of theory will be applied in rotation. Rotation provides students with opportunities to process a variety of patient specimens and gain experience with a wide variety of state-of-the-art procedures and equipment for the isolation and identification of pathogenic bacteria, fungi, protozoa, helminths, and viruses. Molecular diagnostic procedures will also be employed. Eight-week rotation. Prerequisite: CLI 440; admission to Clinical Lab Science Program; acceptance into a hospital NAACLS accredited clinical lab science program. Offered Spring.

CLI 480 Cr.3
Laboratory Management and Education
A course designed to introduce senior students to skills and knowledge required to manage a clinical laboratory and educate future clinical laboratory scientists. Students will participate with lab managers in activities such as ordering supplies, quality control, quality management and quality improvement. They will be introduced to human resource management, financial management, scheduling issues, instrument selection for profitability and the processes involved in preparing for laboratory inspections and maintaining JCAHO and CAP laboratory accreditation. y Prerequisite: admission to Clinical Lab Science Program; acceptance into a hospital NAACLS accredited internship site. Offered Fall.

CLI 495 Cr.1-3
Independent Study in Medical Laboratory Science
Individual reading or research under the guidance of a clinical laboratory science instructor. Repeatable for credit - maximum six. Prerequisite: admission to Clinical Lab Science Program; approval of program director and instructor. Consent of instructor. Offered Occasionally.

CLI 496 Cr.1-3
Special Topics in Clinical Laboratory Science
Workshop or seminar on selected topics in the practice of clinical laboratory science. yStudent may select seminar based upon objectives and needs. Repeatable for credit - maximum six. Prerequisite: admission to clinical lab science program; approval of program director. Consent of instructor. Offered Occasionally.

CLI 499 Cr.1-3
Independent Research in Clinical Lab Science
An opportunity to pursue individual research topics under the direction of a faculty member. Depending on the nature of the research project, study is expected to involve substantial laboratory or theoretical work in addition to literature review and instruction. Students are expected to develop research skills related to clinical laboratory science. In addition to a written report to the supervising faculty member, expected outcomes may include: laboratory notebooks, experimental devices, software, papers and presentations to department and regional meetings. Repeatable for credit - maximum six. Consent of instructor. Offered Occasionally.

Communication Studies (CST) - Courses

+ next to a course number indicates a general education course
Courses

+CST 110 Cr.3

Communicating Effectively
This course introduces students to major topic areas in communication while encouraging them to become more competent and culturally sensitive communicators. Students will develop speaking, relational and listening skills as they are exposed to the communication areas of interpersonal, group/teams and public contexts. This course will help students become more effective and ethical communicators in a highly diverse society. Offered Annually.

CST 190 Cr.3
Introduction to Communication Studies
An introduction to the professional study of communication, including detailed exploration of factors involved in the communication process, effects of media on the communication process, and the importance of the communication process in intrapersonal, interpersonal, small group, organizational, and intercultural contexts. Prerequisite: CST 110. Offered Annually.

CST 210 Cr.3
Presentational Speaking
This course is designed to enhance students’ abilities in developing, delivering, and evaluating oral informative and persuasive presentations. In doing so, the focus of theoretical discussion and practical application will be on the use of audience analysis in adapting to presentational situations, source material in developing oral messages, effective organizational designs, oral rather than written language style, advanced presentational aids including media technology, enhanced vocal and physical presentational skills, and appropriate criteria for evaluation. Prerequisite: CST 110. Offered Fall.

CST 215 Cr.3
Influence, Advocacy and Social Responsibility
We use communication to influence one another: advocacy is persuasive communication. Persuasive communication is an essential agent of change in human culture, especially in democratic, capitalistic societies. This course reviews essential strategies of persuasive messages and engages participants in service learning opportunities to advocate for change using those strategies. It establishes basic principles of ethical persuasive communication and investigates the responsibilities of both senders and receivers to evaluate persuasive messages for effectiveness, adherence to ethical principles of persuasion, and aesthetic quality. Prerequisite: CST 110. Offered Fall.

CST 230 Cr.3
Interpersonal Communication
A study of communication in relatively unstructured situations, such as in conversation, on the job, in peer groups, in relationships, and in the family. Students participate in activities designed to enhance communicative awareness and skills in interpersonal contexts. Factors such as gender, culture, and ethnic origin are considered. Prerequisite: CST 110. Offered Annually.

CST 260 Cr.3
Professional Communication
This course is an introduction to professional communication. The course focuses on developing communication skills and learning communication principles important to an organizational setting. Students will improve essential verbal and nonverbal communicative skills that are needed to succeed in their careers. While studying organizational processes, students will enhance their abilities to plan and deliver professional informative and persuasive messages. Students will also learn how to conduct effective training sessions and how to use current presentational software and technology. Prerequisite: CST 110. Offered Annually.

CST 270 Cr.3
Broadcast Announcing
An examination of broadcast communication principles and effective announcing techniques. Laboratory and broadcast experiences designed to cultivate announcing skills and to lead to the development of an effective on-air personality. Offered Spring - Odd Numbered Years.

+CST 271 Cr.3
Contemporary Media in Everyday Life
This course offers an opportunity to explore contemporary media and their economic, social, political, and cultural implications in everyday life. This course will increase awareness of the motivations of media coverage, media effects on social and cultural change as well as on audience attitudes, the importance of social and cultural issues created or sustained by the media, and the necessity of a critical attitude while consuming media messages. Offered Fall, Spring.

CST 273 Cr.1-3
Applied Audio
Practical experiences in developing audio presentation and production skills as staff members of the student radio station, RAQ Racquet Radio, or WLSU-FM radio. Repeatable for credit - maximum three. This will be an arranged class. Pass/Fail grading. Offered Annually.

CST 274 Cr.3
Television Production
Theory and practice of television including basic program types, equipment and staff organization, studio procedures, and production problems. Lect. 2, Studio 2. Offered Fall, Spring.

CST 275 Cr.1-3
Applied Television
Practical experience in developing skills in television programming as staff members of WMCM-TV. Repeatable for elective credit - maximum three. Pass/Fail grading. Offered Fall, Spring.

CST 280 Cr.3
Introduction to Communication and Leadership
This course is an introduction to the study, skill and practice of leadership from a communication perspective. Students will take a variety of surveys and instruments in order to understand their unique leadership style and characteristics. Planning and practicing leadership will involve developing leadership skills, creating a vision, setting organizational tone, listening to organizational members, and overcoming obstacles to effective leadership. Prerequisite: CST 110. Offered Annually.

CST 301 Cr.3
Theories of Communication
A survey of theories used in the field of communication studies. Consideration is given to theories that explain communication behavior in interpersonal, group, public, media, intercultural, and gendered contexts. The role of theory in research is examined through the development of a theory driven review and synthesis of communication literature. Prerequisite: CST 190; junior standing. Offered Fall, Spring.

CST 310 Cr.3
Debate
An introductory course covering the concepts, formats and strategies of debating. Emphasis is on the development of personal skills of argumentation. Prerequisite: CST 110. Offered Occasionally.
CST 315 Cr.3  
**Communication Criticism**  
Communication criticism, a fundamental practice in communication studies, describes, explains and evaluates why messages succeed or fail in achieving their intended purposes. Participants learn to conduct systematic analysis of persuasive messages to describe their key elements: language, organization, content, persuasive communication strategies, visual images, and choice of medium. Analysis is used to explain why particular elements were used in adapting messages to intended audiences and specific cultural contexts of those messages. Participants apply various qualitative methods of communication criticism to significant cultural discourse, such as speeches, commercials, public service announcements, and webpages to evaluate messages for effectiveness, ethical acceptability, cultural impact, and aesthetic value.  
Prerequisite: CST 190. Offered Spring.

CST 321 Cr.3  
**Conflict Management and Negotiation**  
The course explores conflict and negotiation theories as well as strategies across several communication contexts including interpersonal, group, organizational, public, and cross-cultural. Particular attention is given to how conflict can be resolved communicatively through negotiation strategies. Additionally, students will develop practical conflict and negotiation skills. Prerequisite: CST 190 or junior standing. Offered Occasionally.

CST 330 Cr.3  
**Nonverbal Communication**  
This course is designed to explore the various dimensions of nonverbal communication in human interaction. Students will learn and practice nonverbal communication skills (e.g., interviewing, deciphering), examine research on the functions of nonverbal communication (e.g., expressing emotions, sending relational messages), and explore how the different nonverbal cues (e.g., touch, eye behavior) affect human communication. Prerequisite: CST 190. Offered Occasionally.

CST 332 Cr.3  
**Intercultural Communication**  
The primary objective of this course is to provide an overview of the study of cultures and their effects on communication. Cultural, socio-cultural, psychocultural and environmental influences will be explored in terms of how they affect the communication process. Communication behavior (both verbal and nonverbal) will be examined to determine its role in other cultures. Students will learn to communicate more competently with people from other cultures and ethnic groups. Prerequisite: CST 190 or CST 230. Offered Occasionally.

CST 333 Cr.3  
**Lying and Deception in Human Interaction**  
An in-depth exploration of the pervasive communicative phenomenon of deception and lying. This course explores the varieties of deceptive communication and their causes and consequences in a wide range of contexts, including romantic relationships, cyberspace, criminal justice, advertising, mass media, and politics. Particular attention will be given to opportunities and pitfalls in identifying potentially deceptive behavior. Prerequisite: CST 190 or permission of instructor. Offered Occasionally.

CST 334 Cr.3  
**Gender Communication**  
Explores the theory and practice of communication among gender identities. Focuses on understanding the similarities and differences of communicative behaviors (verbal, nonverbal, power, conflict and listening) among gender identities in various contexts such as intimate relationships, friendships, educational settings, the work place and media. Prerequisite: CST 230 or WGS 100. Offered Fall, Spring.

CST 336 Cr.3  
**Family Communication**  
Provides an investigation of how communication relates to all aspects of family life, including such areas as marriage types, power and intimacy in the marital relationship, changes in the marital roles, myths and metaphors of the family, and the transformation of the “typical” American family. Prerequisite: CST 190 and CST 230. Offered Fall, Spring.

CST 337 Cr.3  
**Communication and Race**  
Human understanding of ethnicity and race is established, maintained, and changed by communication. Therefore this course uses a communication perspective to examine interpersonal and mediated messages about race. From the perspective of communication studies, ethnicity and race are continuously defined, interpreted, and acted out as we communicate with one another on a daily basis in all contexts. This course introduces students to communication research on ethnicity, race and other aspects of identity such as gender and class. This course also provides exposure to related research in other disciplines. Prerequisite: completion of at least nine credits in communication studies courses excluding CST 110. Offered Occasionally.

CST 338 Cr.3  
**Sexuality and Romance in Media**  
This course examines the role of print and electronic media in constructing and/or reinforcing unrealistic mythic and stereotypic images and ideals of sex, love, and romance and the impact of these portrayals on men, women, and children. Multidisciplinary research and theory provide the basis for the focus on practical applications. Students will attempt to identify mass media myths and unrealistic portrayals. Prerequisite: CST 230 or WGS 100. Offered Occasionally.

CST 350 Cr.3  
**Organizational Communication**  
Analysis of traditional and contemporary theories of communication in the context of modern complex organizations. Emphasis is placed on how communication serves to create and recreate formal and informal organizational structures. Particular attention is paid to the theoretical approaches to organizational communication that can be used to describe, analyze, and offer solutions to organizational problems. Prerequisite: CST 190; CST 260. Offered Fall, Spring.

CST 351 Cr.3  
**Interviewing: Principles and Processes**  
This course is designed to enhance understanding of and participation in a range of interviews that occur in our society. Students will increase their proficiency by participating in interviews, both as interviewers and interviewees. Emphasis is placed on learning effective communication skills and practicing important communication principles inherent in the following forms of interviews: employment (including portfolio presentation), performance review, information gathering, persuasive, and probing. Students will also learn how to critically examine interview behaviors. Prerequisite: CST 190 or CST 230 or CST 260; declared communication studies major or minor. Offered Fall.

CST 354 Cr.3  
**Health Communication**  
This course provides students with basic knowledge and skills essential for communicating in the health and medical professions. Topics include the role of interpersonal, group, organizational, and intercultural communication in health care, ethical and legal aspects of health communication, and communication strategies for encouraging patient/client compliance and working with special needs patients. Prerequisite: CST 110. Offered Fall.
CST 355 Cr.3
Diversity and Organizational Communication
This course will explore how issues of diversity such as race, ethnicity, physical and mental ability, sexual orientation, gender, socioeconomic background, age, religion and veteran status impact communication in modern organizations. As organizational life becomes increasingly complex, it is vital to understand how diversity affects relationships at work with superiors, subordinates, coworkers, and the organization’s customers or clients. Diversity will be treated not only as a potential site for communication challenges and misunderstandings, but also as an opportunity to enrich organizational culture, organizational decision making, and overall employee job satisfaction. Prerequisite: CST 190. Offered Occasionally.

CST 360 Cr.3
Public Relations
An introductory study of the field of public relations, dealing with the effect of public opinion on an organization and its actions, the various publics of an organization, and the channels of communication used in current public relations practices. Prerequisite: CST 190. Offered Occasionally.

CST 365 Cr.3
Communication in Teams
In this course, students will study group and team communication theories and processes by observing and participating in teams. As team members, students will apply communication theory to enhance their effectiveness as team members and leaders. Prerequisite: CST 110. Not open for credit to students who have completed or are enrolled in PSY 343 or SOC 334. Offered Annually.

CST 370 Cr.3
Broadcast Media Writing
A laboratory course in the preparation and presentation of news and continuity programs for the electronic media. Consideration of and practice in writing interviews, documentaries, newscasts, commercials, public service announcements, and dramatic programs. Planning and preparation of special audio and visual materials. Prerequisite: ENG 110 or ENG 112. Offered Fall.

CST 371 Cr.3
Audience Research
An introduction to the subject of making decisions about media. The selection and use of media to fulfill marketing objectives and strategy as well as audience studies to describe appeals of the various media to the public; readership and listenership. A discussion of studies to predict audience behavior. Offered Occasionally.

CST 372 Cr.3
Audio Workshop
Specialized work in news, public affairs, special events, programming, production, and operations on student radio station, RAQ Racquet Radio, or WLSU-FM. Students will work in the area of their choice, refining skills in practical daily radio station operation. Offered Occasionally.

CST 374 Cr.1-3
Television Workshop
Specialized work in television, emphasizing experience for students in the roles of producer, writer, and executive producer for WMCM-TV. Students gain experience in producing, writing, and reporting news stories, newscasts and news features. They produce and write scripts for sports features, promotions, as well as interview and talk programs that are broadcast on WMCM-TV. In the laboratory environment, assignments are directed toward providing students with the abilities needed in producing/writing for programs in a typical broadcast facility. Ethical considerations are emphasized in the editorial decision-making process. Lect. 1-3, Studio 2-6. Offered Fall, Spring.

CST 376 Cr.3
Remote Video Operations
This course is an introduction to remote video production. It is designed to give the student a theoretical and practical background in on-location productions and basic computer editing techniques. Remote productions may consist of news packages, sports highlights, a mini-documentary, and on-location interviews. Offered Fall - Odd Numbered Years.

CST 378 Cr.3
Computer Mediated Communication
This course is an overview of computer-mediated communication (CMC) and new media technologies, exploring the characteristics of CMC and its technology together with its effects on the process and dynamics of human communication and society. The dynamics of CMC will be explored including its relationships to a variety of communication contexts, including interpersonal, organizational, small group, broadcasting, and public discourse. Students will engage in introductory hands-on Web production and CMC exercises and read critical essays about Internet culture and theories of CMC. Prerequisite: CST 190. Offered Annually.

CST 380 Cr.3
Communicating Leadership
An in-depth exploration of the communicative phenomenon of leadership. Theories and research methods used by noted communication and leadership scholars will be discussed and critiqued. Topics covered may include notions of leadership and organizations as places of leadership. Additional topics will focus on leaders as communicators, creators and sustainers of organizational culture, decision makers, change agents, and facilitators. Prerequisite: CST 190. Offered Annually.

CST 391 Cr.1-3
Practical Applications in Communication Studies
Provides opportunity for individual applied activities and projects that entail intensive use of developed communication skills and/or specialized knowledge based on communication coursework. Must be supervised by a CST faculty member. Registration requires approval from a CST faculty member willing to be the instructor of record. Students must complete paperwork with the faculty member and ensure academic application to the experience. Repeatable for credit - maximum three. Prerequisite: communication studies major or minor; completion of at least nine credits of communication studies courses above CST 110. Consent of instructor. Pass/Fail grading. Offered Annually.

CST 392 Cr.1-3
Public Speaking Center Practicum
This course is designed to offer training and supervision for Public Speaking Center peer consultants. The course will include an overview of research and theory on communication centers, a review of public speaking best practices, and examination of strategies for facilitating consultations with various client populations. Based on readings, classroom application exercises, and discussions, peer consultants will develop skills in facilitating one-on-one consultations, providing constructive criticism, and guiding student-speakers through meaningful revision. Students who repeat the course will engage more deeply with the content and be expected to take on leadership roles. To enroll, students must submit an application and complete an interview. Selection is competitive. See FAQs on the Public Speaking Center website. Prerequisite: CST 110. Consent of department. Pass/Fail grading. Offered Fall, Spring.
CST 399 Cr.1-3
**Independent Study in Communication Studies**
Directed individual communication studies project under the supervision of a communication studies faculty member. May be a performance-oriented project or a research-based project to bring about a focused scholarly outcome. Project must include a final report as determined through consultation with supervising faculty. Project must be approved and supervised by a department faculty member and have prior consent of the executive committee of the department. Repeatable for credit - maximum three. Prerequisite: communication studies major or minor; completion of at least 12 credits of communication studies courses above CST 110; junior standing. Consent of department. Offered Annually.

CST 410 Cr.3
**Advocacy and Argumentation**
Examines elements and strategies of argumentation. Focuses on evidence, reasoning, refutation, fallacies, strategies, and methods of argument analysis. Practice in individual and group argumentation, including parliamentary procedure. Prerequisite: junior standing. Offered Spring.

CST 412 Cr.3
**Advocacy and Persuasion**
Contemporary theory and research in persuasion. Includes focus on persuasive strategies, appeals, audience adaptation, and ethics across different communication contexts. Prerequisite: CST 190; junior standing. Offered Fall.

CST 413 Cr.3
**Advocacy and Persuasive Campaigns**
Contemporary theory and research in persuasion with a special focus on campaigns. Students will apply course material while organizing and implementing a persuasive campaign. This course examines the nature, role, and processes of communication campaigns and movements. Prerequisite: CST 190; junior standing. Offered Occasionally.

CST 415 Cr.3
**Advanced Topics in Advocacy and Communication Criticism**
Participants apply methods of communication criticism to significant examples of persuasive cultural discourse in order to identify and describe their persuasive strategies, explain why those strategies were used, and evaluate their effects, ethical acceptability, cultural impact and aesthetic value. Methods applied and types of persuasive cultural discourse analyzed vary depending on instructor's and participants' interests. Participants conduct research projects using selected qualitative critical methods and write critical research reports about specific examples of the type of persuasive cultural discourse selected. Prerequisite: CST 190; junior standing. Offered Occasionally.

CST 419 Cr.3
**Communication, Media and Identity**
Mass media frequently represents and perpetuate stereotypes of social groups. When we are isolated from groups different from ourselves, we tend to define these groups by how they are represented in mass media. To some extent, we also define ourselves in relation to mass media representations of groups with which we identify. Communication among individuals and social groups is influenced by mass media's representations of social groups. This course facilitates critical examination of social stereotypes perpetuated by mass media and investigation of the effects of these stereotypes on communication in various social contexts. Prerequisite: CST 190. Offered Occasionally.

CST 430 Cr.3
**Advanced Topics in Interpersonal Communication**
An in-depth exploration of interpersonal communication theories and applications in particular relational contexts such as family, friendships, intimate relationships, and work relationships. Theories and research methods used by noted interpersonal communication scholars will be discussed and critiqued. Topics covered may include attraction, relationship development and dissolution, relationship maintenance, dysfunctional relationships, intimacy, and friendship. Prerequisite: CST 190, CST 230, and at least one of the following 300 level courses: CST 330, CST 332, CST 333, CST 334, CST 336 or CST 338; junior standing. Offered Fall, Spring.

CST 450 Cr.1-6
**Internship in Communication Studies**
An academically relevant work experience focusing on career development through professional contexts. Students pursue practical applications of course work in government, public or social service, public relations, business, industry, or related areas. A written report assessing the internship experience in relation to the student's academic preparation is required. Credit depends on the demands and complexity and the duration of the work that the student performs. Each student must work with an appropriate faculty supervisor in his/her selected emphasis area. Evaluation is a joint effort of the cooperating firm or group, the faculty supervisor, and the cooperative education internship liaison. Prior consent of an appropriate faculty supervisor, and prior departmental approval of the internship. Students and faculty supervisors are responsible for submitting internship proposals for departmental approval prior to registration. Contact the department for information about the approval and registration process. Repeatable for credit - maximum six. Prerequisite: senior communication studies major; 24 completed credits in communication studies. Consent of department. Pass/Fail grading. Offered Annually.

CST 452 Cr.3
**Contemporary Approaches to Organizational Communication**
This course is an investigation of state-of-the art theoretical approaches to understanding organizational communication. Particular attention is paid to how changes in our metaphorical understanding of organizations transform the nature of both communicating in organizations and the organizing process. The impact of new technologies on organizational communication is also considered. Students will learn how to use multiple perspectives to enhance their understanding of organizational communication. Prerequisite: CST 350. Offered Annually.

CST 460 Cr.3
**Plan/Implementing/Evaluation Public Relations Campaign**
This course examines the nature, role and processes of public relations. Research, planning, and evaluation will be used to implement a public relations campaign. Teams of students will plan and implement a complete public relations campaign for an organization or company. Prerequisite: CST 360. Offered Annually.

CST 471 Cr.3
**Broadcast and Digital Media Management**
A study of the operation and management functions of the broadcast media. Special emphasis on the problematic situations confronted by managers of the various departments within the broadcast industry. Prerequisite: CST 190 or CST 275. Offered Spring.

CST 474 Cr.3
**Advanced Video Production**
The advanced theories and practices in video communications are studied. Students carry out advanced creative problems in video production and direction. The preparation, production, and evaluation of various program styles are examined. Lect. 2, Studio 2. Prerequisite: CST 274 or CST 374. Offered Spring - Even Numbered Years.
CST 491 Cr.3
Special Topics in Communication Studies
Study in a selected area of communication studies. Varying topics will be offered at intervals, with a specific title assigned to each. For current content and credit assignment, consult the instructor or department chair. Course prerequisites vary by topics. Repeatable for credit - maximum nine. Offered Occasionally.

CST 498 Cr.3
Research Methods in Communication
Examines research methods for answering communication research questions in all communication studies emphases. Investigates qualitative, quantitative, and critical approaches, as well as underlying assumptions of all communication research. Prerequisite: grade of "C" or better in CST 301; admission to the communication studies major; junior standing. Offered Fall, Spring.

CST 499 Cr.3
Senior Project in Communication Studies
Either an individual investigation of a specific research question resulting in a formal written research report and its oral presentation to the faculty, or an individual applied production project accompanied by a formal written record of the production process and its oral presentation to the faculty. In addition to the course instructor each student must work with an appropriate faculty mentor in his/her selected emphasis area. Prerequisite: grade of "C" or better in CST 498; senior standing; admission to the communication studies major. Offered Fall, Spring.

Community Health Education (CHE) - Courses

+ next to a course number indicates a general education course

Courses

+CHE 200 Cr.3
Public Health for the Educated Citizen
This course introduces the context and scope of public health from historical, modern, and postmodern perspectives. Historical perspective will be used to explain the philosophical foundations, ethics, methods, and essential services that make up public health. Modern perspectives will be used to explain a century of controlling communicable diseases, lengthening lives, and the emergence of new challenges. A postmodern perspective will be used to explore persistent health disparities, social determinants of health, and public health in an era of globalization. Participants will be challenged to consider their role in public health as citizens and/or professionals in a free society. Offered Fall, Spring, Summer.

CHE 204 Cr.3
Introduction to Global Health
This course introduces participants to global health through its history, definition, determinants, and development as a field of study. The interconnection between health problems in developed and developing countries and the interdisciplinary approach necessary to understand and address health problems and issues will be emphasized. The participant will develop a basic understanding of the methods used to assess population health, understand the current and future distribution of health, and be able to discuss why some populations are healthier than others and what can be done to reduce health disparities. Offered Fall, Spring.

CHE 240 Cr.3
Community Health Education Foundations
This course explores community health education as a career option and examines the role of educators in agencies and organizations that address the health needs of individuals and communities. It emphasizes a skill-oriented focus and provides professional preparation for community health education roles and responsibilities. Examination of the role of health educators with regard to the seven responsibility areas is the foundation of this course. Students will be engaged in critical thinking exercises, experiential learning activities, and professional preparation assignments. Offered Fall, Spring.

CHE 340 Cr.3
Epidemiology and Community Health Problems
A survey and analysis of current public health problems incorporating an epidemiologic framework. A basic introduction to community health history and organization is followed by specific health issues analyzed through the agent, host, and environmental interrelationships. Primary, secondary and tertiary prevention, and health promotion strategies are detailed. Prerequisite: admission to community health education. Offered Fall, Spring.

CHE 350 Cr.3
Biometry and Research Design
This course is designed to provide the student with an understanding of research procedures and protocol. Through this course, one will develop a better understanding of collecting, analyzing, and interpreting valid, reliable data. The proper and improper uses of statistics, designing research experiments, and data handling will be examined. In addition, the basic procedures involved in the design and implementation of evaluation research will be examined. Prerequisite: admission to community health education. Offered Fall, Spring.

CHE 440 Cr.3
Program Development in Community Health Education
Community health analysis specific to community health education program development. Individual students develop knowledge of the following program development components: (1) needs, (2) objectives, (3) learning activities, (4) settings, (5) evaluation. Skills are developed in program planning and program implementing. Two hours for in-class activities are complemented by out-of-class program development experience. Prerequisite: CHE 340; CHE 350; admission to community health education. Offered Fall, Spring.

CHE 445/553 Cr.1-3
Cultural Issues in Health Education: Ethnic, Racial, Religious, and Familial Groups
A study of cultural influences on health and illness. Values and attitudes held by different groups in America’s pluralistic society need to be considered in health program planning. Various racial, ethnic, and religious groups health beliefs and practices will be examined. Cultural influences and patterns of communication within cultures and how these affect health care and utilization of services will be identified. The U.S. health care system will be analyzed in terms of servicing its culturally diverse population. Designed for health professionals, this course will increase their sensitivity in working with people of various cultural origins. Repeatable for credit - maximum three. Prerequisite: junior standing. Offered Occasionally.

CHE 460/560 Cr.1
Medical Terminology for Health Education
Skill development for working with the special language used in clinics, hospitals, and other health agencies. Students in various health fields will learn to use medically related terms in their professional communication. Prerequisite: ESS 205 and ESS 206, or BIO 312 and BIO 313; junior standing. Offered Fall, Winter, Spring.
CHE 465/565 Cr.1

Health Education Marketing
Designed for health educators, this course provides a survey of marketing concepts as applied to health education programs. Marketing as part of the health planning and evaluation process will be discussed. Marketing strategies for both public agencies and private businesses will be presented. Prerequisite: CHE 240; junior standing. Offered Occasionally.

CHE 466/566 Cr.1-3

Worksite Health Promotion
This course will focus on building an understanding of the components necessary for successful worksite health promotion. Included will be the development, implementation, and evaluation of worksite health promotion programs. There will be a direct emphasis on actual worksite conditions and situations, including constraints and advantages. The course will examine the relationship of a worksite health promotion program to the organization as a whole and the potential benefits for both the employee and the employer. Not repeatable for additional credit. Prerequisite: junior standing. Offered Occasionally.

CHE/SHE 475/575 Cr.1-3

Workshop in Health Education
Group study of varying health education topics, community agencies, and educational institutions. Repeatable for credit under different topics - maximum six credits combined CHE/SHE. (Cross-listed with CHE/SHE.) Departmental option for pass/fail or letter grade. Prerequisite: junior standing. Consent of instructor. Offered Occasionally.

CHE 491 Cr.2

Senior Seminar in Community Health Education
This seminar is designed to review the areas of responsibility and competencies for health educators, coupled with an overview of the student’s professional preparation, credentialing issues, and professional development opportunities. Through discussion, interaction activities, and project development, students will be prepared to enter into the realistic challenges and opportunities afforded by the community health education preceptorship and eventual employment experiences. Prerequisite: admission to community health education; to be taken final semester prior to CHE 498 (preceptorship). Offered Fall, Spring.

CHE 498 Cr.1-15

Community Health Education Preceptorship
Professional experience in a community health education setting for a full semester. The student works under faculty supervision with a professional in health education/promotion who serves as a mentor. Prerequisite: successful completion of all program course requirements; recommendation of the department; cumulative GPA of at least 2.75; and major GPA of 2.75. Consent of department. Offered Fall, Spring, Summer.

Computational Science (CMP) - Courses

Courses

CMP 390 Cr.3

Survey of Computational Science
This course will survey the computational and mathematical tools and techniques currently being applied to problems in the sciences. Specific problems drawn from biology, chemistry, meteorology and physics will be explored in detail. Computational tools such as Mathematica, Explorer and PVM will be introduced and used to solve problems. In addition to small projects, students will be required to complete a larger project selected from their major discipline. Prerequisite: CS 120, CS 220; MTH 207. Offered Occasionally.

CMP 490 Cr.2-3

Senior Computational Science Project
This course is a capstone course for students pursuing a computational science minor. The student is expected to pursue a project that integrates a problem(s) from their major scientific discipline together with computation. Such work should demonstrate the student’s ability to apply the tools and techniques acquired from prerequisite study in science and computation. The work must be performed under the direction of a faculty member from the student’s major department. The student is also expected to submit a paper and an oral presentation on the project results to the computational science committee. Prerequisite: CMP 390; consent of project supervisor and project approval by the computational science committee. Consent of department. Offered Occasionally.

Computational Thinking (CT) - Courses

Courses

+CT 100 Cr.3

Introduction to Computational Thinking
Computational thinking represents a universally applicable collection of concepts and techniques borrowed from computer scientists. This course is designed to teach how to think algorithmically; to examine the ways that the world’s information is encoded and how this impacts our lives; to explore the capabilities and limitations of computers from the past, the present and the future; to apply software design diagrammatic techniques to model real-world systems; to learn how the rules of logic apply to computation, reasoning and discourse; to examine how computers both enhance and constrain our lives; to explore many of the problem solving strategies used by software developers and how they are useful to you. Offered Fall, Spring.

Computer Science (CS) - Courses

Courses

+CS 101 Cr.4

Introduction to Computing
Computers and computer software are an integral part of modern society. This course explores this relationship. Students will examine the computer as a problem-solving tool through the use of database, spreadsheets and small scale programming. Students will examine the computer as a communication tool through the use of word processing and the Internet. Other topics include the history and future of computer technology, computer hardware basics, man/machine relationships, applications of computers in various disciplines, and social/ethical issues. Credits earned in CS 101 cannot be applied to the CS major or minor. Offered Occasionally.

CS 103 Cr.1

Elementary Database Principles and Design
An introduction to the design and implementation of relational databases. Design concepts will include entity-relationship modeling, relational table structure, keys, foreign keys, referential integrity, and data quality. Implementation concepts will emphasize extracting information through queries, reports, and forms. Seven-week course. Prerequisite: course not open to those who have completed CS 101. Offered Occasionally.
CS 104 Cr.1
Elementary Spreadsheet Principles and Design
An introduction to the design and implementation of spreadsheets. Design principles will include cell content, use of functions and formulas, relative and absolute addressing, and formatting. Modern spreadsheet software will be used to implement the spreadsheets, with an emphasis on representing numeric data in an organized manner. Seven-week course. Offered Occasionally.

+CS 120 Cr.4
Software Design I
An introduction to the fundamentals of software development; including software classes, objects, inheritance, polymorphism, logic, selection control, repetition control, subroutines, parameter passage, and rudimentary software engineering techniques. Students complete numerous programming projects using a modern programming language. Prerequisite: MTH 151 or MTH 175 or math placement test scores at or above MTH 151. Offered Fall, Spring.

CS 202 Cr.3
Introduction to Web Design
This course is an introduction to webpage design and website management. Students will be introduced to browser/server interaction, webpage design, techniques for creating media rich graphical interfaces, and ethical considerations regarding intellectual property rights and security. Students will receive hands-on experience in a variety of standardized web technologies to develop dynamic, functional, and appealing webpages. Prerequisite: CT 100 or CS 120 or familiarity with some programming language. Offered Occasionally.

CS 220 Cr.4
Software Design II
This is a second course in the design of programs. Emphasis is placed on data abstraction and its application in design. Definitions of abstract data types are examined. The following structures are examined as methods for implementing data abstractions: recursion, sets, stacks, queues, strings, and various linked lists. Students will be expected to write several programs using these techniques in a modern programming language. Prerequisite: CS 120; concurrent enrollment in CS 225 recommended. Offered Fall, Spring.

CS 224 Cr.1-3
Introduction to Programming Language
This course presents the syntax and semantics of a particular programming language. Different offerings of the course will present different languages. Students are expected to be fluent in another programming language prior to enrollment. Repeatable for credit - maximum six. (Each repeat must be for a different language.) Prerequisite: a prior computer science course appropriate to the language being offered. Offered Occasionally.

CS 225 Cr.3
Discrete Computational Structures
An introduction to mathematical reasoning and proof with an emphasis on its role in computation and software development. Course topics include mathematical logic, set theory, relations and functions, induction and recursion, equivalence relations, partial orders, lattices and other algebraic structures. Prerequisite: CS 120; MTH 151; concurrent enrollment in CS 220; declared computer science major or minor. Course not open to those who have completed MTH 225. Offered Fall, Spring.

CS 227 Cr.1
Competitive Programming
Programming competitions involve writing code to solve a set of problems, working under a time-limit. Learning to participate successfully in such competitions is an effective way to become a better programmer. This course introduces students to some of the techniques and problem types that are commonly encountered in many programming contests. Students will learn a set of common algorithms and data structures, along with general conceptual tools and rules of thumb, that will prepare them to be able to solve programming problems encountered in competition and job interview settings. The course will consist of code review, along with extensive coding practice. Even experienced programmers will have something to learn from the experience of solving new problems from scratch on a regular basis. Repeatable for credit - maximum three. Prerequisite: CS 220. Concurrent enrollment or completion of CS 340 recommended. Offered Fall, Spring.

CS 270 Cr.3
Assembler Programming and Introduction to Computer Organization
Programming in machine and assembler language is integrated with an introduction to the organization of computer hardware. An examination of the instruction set merges with descriptions of the related hardware devices. Laboratory assignments include the construction of software, as well as hardware, units. Topics include basic instruction types, data representation, addressing modes, registers, the ALU, computer memory, and interrupt handling. Prerequisite: CS 120; CS 225 or MTH 225. Offered Fall, Spring.

CS 272 Cr.3
Digital Circuit Design for Microcontrollers I
An introduction to digital circuit design in the context of embedded microcontroller devices. This will include flip-flops, sequential and combinational logic units (e.g. shift registers, half-adders, encoders * decoders, multiplexers), state machines, analog to digital and digital to analog conversion. Prerequisite: CS 225; MTH 207. Offered Annually.

CS 340 Cr.3
Software Design III: Abstract Data Types
An extensive survey of data structures and associated algorithms. An introduction to algorithm efficiency measures is included as a tool for deciding among alternate algorithms. Topics include: searching and sorting in arrays, hash tables, tree traversal and search algorithms, expression evaluation and graphs. Prerequisite: CS 220; CS 225 or MTH 225. Offered Fall, Spring.

CS 341 Cr.3
Software Design IV: Software Engineering
A study of methodologies for the development of reliable software systems. Several specification, design, and testing techniques are surveyed with an emphasis on one particular formal specification and formal design technique. Students work in teams, applying these techniques to the development of a medium scale (2000-5000 lines) software product. Prerequisite: CS 340. Offered Fall, Spring.

CS 342 Cr.3
Software Testing Techniques
As the size and complexity of software projects have grown, so has the importance of ensuring program correctness. This course examines the issues of program testing, validation, and verification. Course projects require students to construct test data and to analyze the correctness of several software systems. Prerequisite: CS 340. Offered Spring - Odd Numbered Years.
CS 351 Cr.3
Simulation
Programming computers to play games and imitate activities of systems such as drive-in facilities, checkout lanes, and computer operations. Topics include tests of goodness of fit, random number generators, simulated sampling, queuing theory, analysis of systems to be simulated, construction and validation of simulation programs, and interpretation of results. Prerequisite: CS 220; MTH 207. Offered Occasionally.

CS 353 Cr.3
Analysis of Algorithm Complexity
An in-depth analysis of the computational complexity of a wide range of algorithms for problems of fundamental importance to computer science. Algorithms to be examined include: sorting, pattern matching and various graph algorithms. Prerequisite: CS 340; MTH 207. Offered Fall - Even Numbered Years.

CS 364 Cr.3
Introduction to Database Management Systems
Introduction to the design and organization of database management systems. Topics include the relational data model, relational algebra, SQL query language, database software development, data security, normalization, client/server environments. Prerequisite: CS 220. Offered Fall, Spring.

CS 370 Cr.3
Computer Architecture
A presentation of the logical organization of modern digital computers. Topics include performance evaluation, instruction set design, computer arithmetic, processor control, pipelining, cache memory, memory hierarchy, memory and system buses, and I/O organization. Prerequisite: CS 270. Offered Fall, Spring.

CS 372 Cr.3
Digital Circuit Design for Microcontrollers II
This is the second course in digital circuit design for microcontrollers. This will include inter-component communication using PWM, I2C, SPI and UART. The course will also include the design and fabrication of printed circuit boards (PCBs), rigid and flexible, for surface mount devices. Prerequisite: CS 272. Offered Fall, Spring.

CS 395 Cr.1-3
Independent Study
Individualized study of topics in computer science not covered by courses regularly taught in the department. Repeatable for credit - maximum six. Consent of department. Offered Fall, Spring, Summer.

CS 402/502 Cr.3
Web Application Development
This course will give a detailed description of the core concepts and general principles of web application development. The course will cover various protocols, programming languages, scripting languages, data storage and security, layered software architectures, and graphical interface design as they relate to web development. Students will apply these techniques to the development of medium scale web application. Prerequisite: CS 202; CS 340; junior standing. Offered Fall - Odd Numbered Years.

CS 410/510 Cr.3
Free and Open Source Software Development
This course examines all aspects of the Free and Open Source Software movement. The course surveys the various definitions of open source licenses and examples of major free and open source development projects (e.g. the GNU Project, Apache Foundation, Linux). The course also examines the development tools that support developer communities, as well as how web-based applications have created the possibility of international development teams. Students will select and contribute to the software development of an existing open source project. Prerequisite: CS 340; junior standing. Offered Spring - Odd Numbered Years.

CS 418/518 Cr.3
Mobile Application Development
An introduction to the concepts and techniques of application development for mobile devices. The course will examine the design constraints of mobile devices, how mobile applications can leverage external data resources, integration of sensor data and the development environments of the chosen platform (e.g. iOS, Android and others). Repeatable for credit with different topic - maximum six. Prerequisite: CS 340; junior standing. Offered Occasionally.

CS 419/519 Cr.1-3
Topics in Computer Science
A special topics course in Computer Science which will function as a forum for new ideas and testing ground for new courses. Repeatable for credit - maximum six. Prerequisite: junior standing. Consent of instructor. Offered Occasionally.

CS 421/521 Cr.3
Programming Language Concepts
A comparative study of the concepts underlying the design of contemporary high-level programming languages, including imperative, functional, logic and object-oriented paradigms; formal representation of syntax and semantics; control structures; data and procedural abstraction; scope and extent; parallelism and exception handling. Prerequisite: CS 340; CS 225 or MTH 225; junior standing. Offered Fall, Spring.

CS 431/531 Cr.3
Introduction to Robotics
This course is a hands-on introduction to the algorithms and techniques required to write robot control software. Topics include the components of mobile robots and robot manipulators, manipulator kinematics, robot task planning, sensing, sensor fusion, visual servoing and robot control concepts. Prerequisite: CS 340; junior standing. Offered Spring - Odd Numbered Years.

CS 441/541 Cr.3
Operating System Concepts
The study of the structures and algorithms of operating systems. Operating systems are viewed as managers and controllers of resources such as processors, memory, input and output devices and data. Topics include multiprogramming systems, CPU scheduling, memory management and device management. Prerequisite: CS 340; CS 370; junior standing. Offered Fall, Spring.

CS 442/542 Cr.3
Structures of Compilers
An extensive study of all phases of the compilation of high level programming languages. Topics include: scanning, parsing (LL and LR), semantics analysis, symbol table organization and manipulation, internal code generation, storage allocation, optimization and object code generation. Students are required to complete a compiler for a small high-level language. Prerequisite: CS 270; CS 340; junior standing. Offered Spring.
CS 443/543 Cr.3
Topics in Operating Systems
An intermediate course in operating systems extending topics introduced in CS 441. Operating systems concepts are studied in depth. Typically students will study and modify an existing system. Prerequisite: CS 441; junior standing. Offered Fall - Even Numbered Years.

CS 446/546 Cr.3
Object-Oriented Software Development
Introduction to the concepts and principles of object-orientation (OO). Topics include detailed discussion on analysis and design of OO software systems, notations for OO analysis and design, and comparison of OO programming languages. Advanced topics on object-orientation such as OO testing and software reuse will be briefly discussed. Prerequisite: CS 340; junior standing. Offered Spring.

CS 451/551 Cr.3
User Interface Design
This course focuses on the design and implementation of user interfaces. The topics include characteristics of user interfaces, user profiles, user interface design principles, methods and tools for user interface development, evolution of user interfaces, evaluation of user interfaces, and case studies. Prerequisite: CS 340; junior standing. Offered Fall - Odd Numbered Years.

CS 452/552 Cr.3
Artificial Intelligence and Pattern Recognition
An introduction to the fundamental principles of artificial intelligence. Topics include the biological basis for intelligence, classification of object descriptions and pattern recognition, search strategies and game trees, natural language processing, automatic theorem proving, programming for artificial intelligence and knowledge-based systems. Prerequisite: CS 340; junior standing. Offered Fall - Odd Numbered Years.

CS 453/553 Cr.3
Introduction to Theory of Computation
An introduction to the theoretical aspects of computation. The capabilities and limits of several computation models are considered including: partial recursive functions, Turing machines, finite state automata and formal languages. The implications of Church’s thesis and unsolvable problems such as the halting problem are discussed. Prerequisite: CS 340; junior standing. Offered Spring - Even Numbered Years.

CS 454/554 Cr.3
Digital Image Processing
This course introduces the fundamentals of digital image processing techniques with an emphasis on the design and implementation of image processing algorithms. Topics include color models, point-processing techniques, convolution, Fourier domain processing, the discrete cosine transform, image compression methodologies, image restoration and enhancement, sampling and image display. Prerequisite: CS 340; junior standing. Offered Fall - Even Numbered Years.

CS 455/555 Cr.3
Fundamentals of Information Security
This course presents the fundamental concepts of information security. Basic policies, techniques and tools for maintaining the security of host computers, information networks and computer software are presented. Elementary cryptography is explored with special attention to applications in data encryption, hashing and digital signatures. Fundamental security management procedures also are introduced, as are the legal and ethical issues associated with computer security. Students will be expected to apply the knowledge gained to construct security policies and practice security in the form of access privileges, firewalls, vulnerability scanners and intrusion detection tools. Prerequisite: CS 220; junior standing. Offered Fall - Odd Numbered Years.

CS 456/556 Cr.3
Secure Software Development
Traditionally, software engineering has viewed flaws as the inconsistency of software behavior with its functional requirements. Software security problems, however, can occur in software that contains no such flaws but is nonetheless susceptible to external attack. This course examines known reasons for software security vulnerabilities with an emphasis on best practices for their detection and mitigation, along with general principles for engineering software in ways that enhance security. Prerequisite: CS 340; junior standing. Offered Spring - Even Numbered Years.

CS 464/564 Cr.3
Advanced Database Management Systems
Advanced topics in database management systems. Topics include the relational data model, relational calculus, embedded SQL programming, database application programming, indexing, systems software and storage structures for databases, concurrency control, crash recovery, database administration, parallel and distributed databases, object oriented databases. Prerequisite: CS 364; junior standing. Offered Spring - Odd Numbered Years.

CS 469/569 Cr.3
Data Communications
An introduction to data communications, including the electrical properties and software protocols. In addition to presentations of the concepts and techniques used for data communications, several currently used standards and communications networks will be examined. Prerequisite: CS 270; CS 340; junior standing. Offered Spring - Even Numbered Years.

CS 470/570 Cr.3
Parallel and Distributed Computing
A study of architectures, control software, and applications for parallel and distributed systems. A survey of parallel and distributed architectures including data flow machines, vector processors, shared memory multiprocessors, and message based multiprocessors. Software topics include process communication and synchronization, global state maintenance, negotiation, scheduling, data parallelism, control parallelism, and languages for parallel and distributed computing. Prerequisite: CS 370; junior standing. Offered Occasionally.

CS 471/571 Cr.3
Internet of Things
This course explores the possibilities which are created when everyday things become connected to the internet and how this can create new ways for humans to interact with computation and for computation to enable human activities. This course involves building small, sensor equipped hardware devices and cloud based software systems using various technologies. Prerequisite: CS 340, CS 372. Offered Annually.
Fall, Winter, Spring, Summer.

Prerequisite: junior standing; admission to teacher education. Offered for credit - maximum six. Departmental option for pass/fail grading. repeats at intervals with a specific title assigned to each. Credit is repeatable for credit - maximum six. Consent of instructor. Offered Fall - Even Numbered Years.

CI 316 Cr.1-3
Leadership for Elementary/Middle Science Education
Designed to augment a basic understanding of science curriculum development, teaching practices, resources, and assessment procedures. Special emphasis will be given to controversial issues in science, nature of scientific knowledge, integrated STEM (science, technology, engineering, mathematics) learning, funding for operating an inquiry science program, and special programs to enhance and extend classroom science experiences for students. Prerequisite: GEO 200; EDS 351 or EDS 402 or declared environmental studies minor. Offered Fall, Spring.

CI 470/670 Cr.1-3
Symposium in Education
Studies in education of interest to specific groups. Varying topics will be offered at intervals with a specific title assigned to each. Repeatable for credit - maximum six. Departmental option for pass/fail grading. Prerequisite: junior standing; admission to teacher education. Offered Fall, Winter, Spring, Summer.

CI 495/695 Cr.1-3
Supervision of Student Teaching
Preparation especially for supervising teachers having student teachers or teacher interns under their direction, and for other teachers interested in preparing for teacher supervising responsibilities. Emphasis on objectives of student teaching, orientation and induction, roles and responsibilities of personnel, instructional planning and implementation, process of supervision and post-instructional conferencing. Repeatable for credit - maximum three. Prerequisite: certification for teaching, a baccalaureate degree, and teaching experience. Offered Occasionally.

CI/EFN 499 Cr.1-6
Individual Study
Reading and research in an area of student interest in education under the direction of an education instructor. Open to elementary and secondary education students with excellent records. Not open to students concurrently enrolled in EFN 499. Prerequisite: junior standing. (Cross-listed with CI/EFN; may earn six credits total in CI and EFN 499.) Consent of instructor. Offered Fall, Winter, Spring, Summer.

Early Childhood Education (ECE) - Courses

Courses

ECE 212 Cr.3
Child Growth and Development for Early Childhood-Middle Childhood Educators
A study of the development of children from birth through age thirteen (early adolescence) with a focus on birth through age eleven. Cognitive, social-emotional, physical and language development are emphasized. Factors that enhance or inhibit development (including diverse family structures, cultural variance, and linguistic diversity) are also studied. ECE 212 is required for admission into the Early Childhood-Elementary Education Program. Prerequisite: declared education (EC-MC) major; 12 earned credits. Offered Fall, Spring.

ECE 213 Cr.3
Introduction to Early Childhood Education
An introduction to the early childhood education profession and programs that provide care and education for young children (birth through age eight) and their families. The course will examine historical and theoretical influences on early childhood programs, the roles and responsibilities of early childhood professionals, and the effects of early childhood education on children’s development and learning. An overview of developmentally appropriate practice will focus on the teacher as decision maker, multiple sources of knowledge that inform practice, designing positive learning environments, and collaborative relationships with families and colleagues. Course includes a field experience with young children in early childhood programs. Prerequisite: ECE 212 or concurrent enrollment. Offered Fall, Spring.

ECE 316 Cr.3
Early Childhood Care and Program Administration
This course emphasizes the study of the administration and organization of early childhood programs including: program and staff development, supervision and evaluation of program and staff, financial management of a program, accreditation and licensing regulations, advisory groups, community agencies, and the use of community resources. Prerequisite: ECE 212; ECE 213. Offered Fall, Spring.
ECE 324 Cr.3
Early Childhood Education: Curriculum and Assessment for Infant/Toddler through Preschool
An overview of preschool programs serving children from birth through five years of age, including the study of developmentally appropriate practices and integrated curriculum development. The course will also focus on adapting instructional materials and planning appropriate experiences for young children with disabilities. The affective nature of young learners will be examined and used as a foundation for anti-bias curriculum. Instructional activities will be planned and implemented with infant through preschool children. Prerequisite: ECE 212; ECE 213; junior standing. Offered Fall, Spring.

ECE 326 Cr.3
Early Childhood Education: Curriculum and Assessment for Kindergarten
A study of curriculum content, instructional strategies and materials in kindergarten programs. The focus is on developmentally appropriate curriculum which integrates social studies, science, literacy, mathematics and the arts. Issues in kindergarten education will be examined. Prerequisite: ECE 212, ECE 213; to be taken concurrently with ECE 327 and ECE 490; admission to teacher education. Offered Fall, Spring.

ECE 327 Cr.1
Field Experience: Kindergarten
A field experience involving observation, participation, and instruction in kindergarten settings. Students become acquainted with curriculum content, instructional strategies and classroom management techniques currently used in kindergarten classrooms. Prerequisite: ECE 212, ECE 213; to be taken concurrently with ECE 327 and ECE 490; admission to teacher education. Pass/Fail grading. Offered Fall, Spring.

ECE 380/580 Cr.1-3
Developing Creative Activities for Young Children
This course is designed to assist pre-service and in-service teachers in the development of creative thinking challenges and activities for use with children in prekindergarten through third grade. Theories of creativity and multiple intelligences will be examined and used as the foundation for lesson designs. Repeatable for credit - maximum six. Prerequisite: PSY 370 or teaching experience; junior standing. Offered Fall, Spring.

ECE 400 Cr.2-4
Student Teaching: Early Childhood
Under the direction of a university supervisor and in cooperation with an approved teacher, the student will engage in a half-time professional experience in a selected early childhood setting for eight weeks. Prerequisite: completion of requirements in education; recommendation by the appropriate education program faculty; 2.75 cumulative GPA and a 2.75 GPA in the major, minor, and concentrations; passing scores on Praxis II test. Consent of instructor. Satisfactory/Unsatisfactory grading. Offered Fall, Spring.

ECE 425 Cr.4
ECE Student Teaching: Infant/Toddler through Preschool
Under the direction of a university supervisor and in cooperation with an approved teacher, the student will engage in a half-time professional experience in a selected early childhood, infant/toddler through preschool setting for eight weeks. Candidates will develop their professionalism, guidance techniques and conflict resolution skills. Candidates will also develop and implement activities and lessons including units of instruction as well as building and maintaining the environment for a designated developmental range. Prerequisite: ECE 212, ECE 213, ECE 324, ECE 440, EDS 402, EDS 412, EDS 413, EDS 421, EDS 422 and EDS 445; concurrent enrollment in ECE 326, ECE 327 and ECE 490; junior standing. Satisfactory/Unsatisfactory grading. Offered Fall, Spring.

ECE 430 Cr.4
Creative Experience for Children: Art, Drama, Music, and Movement
This course is designed to develop a philosophy of education which places emphasis on creativity and on the integration of art, music and drama experiences into the curriculum. Students will explore the classroom teacher’s role in supporting the development of creativity through arts integration across the early childhood and primary curricular areas. Students will plan and implement art, music and drama activities appropriate for use with pre-kindergarten through primary-age children. Prerequisite: ECE 212; ECE 213; ECE 324 or ECE 326; admission to teacher education; junior standing. Offered Fall, Spring.

ECE 440 Cr.3
Language and Literacy Development of Young Children
An examination of language and literacy development of young children from birth through kindergarten. Topics of study are the development of receptive and expressive language skills, listening comprehension, awareness of print, emergent writing, and early reading. Supporting families as children’s first teachers, appropriate experiences at home and in childcare settings, and family literacy programs will be studied. This course will develop the ability to plan and implement a comprehensive literacy program for young children, including developmentally appropriate assessments for young children. The course will also address developmentally appropriate instructional strategies for young children who struggle with beginning literacy concepts and skills. Prerequisite: ECE 212; ECE 213; EDS 308; admission to teacher education; junior standing. Offered Fall, Spring.

ECE 490/590 Cr.2
Seminar: Relationships with Children, Families and Professionals
A seminar course focusing on the teacher as decision maker and the use of multiple sources of knowledge in professional practice; knowledge of child development and learning, knowledge of individual children, and knowledge of social and cultural contexts. Course topics include reciprocal relationships with families and professionals, individual variations in development and learning, observation and assessment strategies, theories and approaches to guidance, and promoting family and community involvement. Prerequisite: ECE 324; to be taken concurrently with ECE 326, ECE 327 and ECE 425; junior standing. Offered Fall, Spring.

Earth Science (ESC) - Courses

+ next to a course number indicates a general education course
Courses

ESC 101 Cr.4

Earth Environments
This course concentrates on understanding the earth's dynamic environments through the study of processes and physical and human interactions related to the lithosphere, hydrosphere and atmosphere. A scientific approach is used to examine fundamental concepts in earth and environmental science related to topics such as plate tectonics, landform development, atmospheric processes, global climate, and water resources, in order to provide an understanding of how the earth system functions and the human role in these phenomena. Lect. 3, Lab 2. Offered Fall, Spring.

ESC 211 Cr.3

Global Warming and Climate Change
This course explores the scientific basis of global warming and climate change, and their current and likely impacts on human society and the environment, before addressing the action that could be taken by governments, by industry, and by individuals to mitigate the effect. Discussion of global warming is situated in the context of models of climate change, focusing on alternative interpretations of the effects of anthropogenic greenhouse gases on global warming. Offered Fall, Spring.

ESC 221 Cr.4

Introduction to Climate Systems
An introduction to fundamental principles and the dynamic processes that govern the behavior of the atmosphere at global and regional scales. Spatial and temporal variations of energy, moisture, circulation, and weather systems; and the patterns of the world climate systems are discussed. Lect. 3; Lab 2. Prerequisite: ESC 101. Offered Fall.

ESC 222 Cr.4

Landforms: Processes and Regions
An introduction to the earth surface processes that are dominant in forming various types of landforms. Spatial variations in landform will be studied both at the local scale and as the outcome of large-scale global processes, including the effects of plate tectonics and global climatic change. Lect. 3, Lab 2. Prerequisite: ESC 101. Offered Fall.

ESC 250 Cr.3

Maps and GIS
Students will acquire fundamental knowledge and learn key concepts underlying spatial data, different map types and uses, thematic symbolization and visualization, and spatial analytical techniques. They will learn how to critically assess and communicate knowledge concerning spatial environments. Students will also learn how to use GIS and Web mapping technologies. Lect. 2, Lab 2. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Fall, Spring.

ESC 270 Cr.1-3

Geographic Themes
Specifically selected topics or skills which may be designed for the interest of special groups will be offered with formalized instruction and methodology appropriate to geography and/or earth science. This course may be counted as an elective in the geography major or earth science minor at the discretion of the Geography/Earth Science Department. Prerequisite may be required at the discretion of the department. Repeatable for credit - maximum six. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 345 Cr.3

Remote Sensing
Introduction to remote sensing, emphasizing satellite multispectral observations of the earth applied to such fields as agriculture, forestry, water resources, urban and regional planning, and environmental assessment. Upper Midwest and selected areas worldwide are explored with visual and digital image processing techniques. (Cross listed with ESC/GEO; may only earn credit in one department.) Offered Fall.

ARC/ESC/GEO 347 Cr.3

Geoarchaeology
An applied course on the contribution of earth sciences to the interpretation of archaeological contexts. This course will consist of field, lab and lecture components. Emphasis is placed on the methods of geoarchaeology and the applications of selected earth science fields to archaeological problems. Field trips will be a required component of the course in order to complete field descriptions and sampling. Prerequisite: ARC 196 or ESC 222 or ESC/GEO 426 or ESC/GEO 430. (Cross-listed with ARC/ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 355 Cr.3

Map Design and Geovisualization
In this course students will learn about the process of making maps, how to acquire and appropriately manipulate spatial data, and how to design clear, compelling, and beautiful maps. In addition to the key theories underlying the cartographic discipline, students will learn technical skills to enhance their other research interests and make them far more competitive on the job market once they graduate. To that end, students will apply their newfound knowledge about map design using cutting edge software. Lect. 2, Lab 2. Prerequisite: GEO/ESC 250. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Fall, Spring.

ESC/GEO 385 Cr.3

Introduction to Geographic Information System and Science
An introduction to both theoretical and applied aspects of Geographic Information Systems (GIS). GIS software, with an emphasis on ArcGIS, will be used to explore geographic questions. Hands-on exercises pertaining to environmental science, natural resource management, business, and urban planning will be used to complement lecture material. Topics will include data organization, database structure, input and output, data quality, and geographic analysis of spatial and attribute data. Lect. 2, Lab 2. Prerequisite: ESC/GEO 250; MTH 145. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Fall, Spring.

ESC/GEO 390 Cr.3

Geographic Field Methods
Covers fundamental concepts of field methods as applied to physical, cultural, urban and environmental geography. Students will gain experience in sampling, field surveying, GPS mapping, and observational data collection techniques. Includes reconnaissance and detailed surveys using current methods, GPS and field equipment; and practical integration of field data into a geographic information system. Lect. 2, Lab. 2. Prerequisite: ESC/GEO 385 or concurrent enrollment. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Fall.
ESC/GEO 410 Cr.1

Focus on Geography: A Capstone Course
A seminar-style course designed to prepare students for graduate school and/or a career in geography/earth science. This course will cover the basic concepts of interviewing, graduate school application, oral presentation of a topic, and the writing of professional abstracts. The development of the field will be studied by the reading and discussion of landmark articles in geography and earth science. Students are expected to actively participate in the assessment of their major. Prerequisite: senior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Pass/Fail grading. Offered Fall.

ESC/GEO 422/522 Cr.3

Meteorology and Weather Forecasting
Various principles and laws which govern the behavior of the atmosphere are investigated. Laws of gases and radiation, energy exchange between the earth and the atmosphere, laws of motion, various forces governing atmospheric motion, atmospheric moisture and psychrometry, condensation, precipitable water and precipitation, atmospheric stability/instability, thermodynamic characteristics of the atmosphere, vorticity, and synoptic meteorology are discussed. Surface and upper-air charts, synoptic patterns, thermodynamic charts, radar and satellite images, and weather patterns are analyzed for weather forecasting. Prerequisite: ESC 101 or equivalent; junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Spring.

ESC/GEO 425/525 Cr.3

Biogeography
A systematic analysis of the geographic distribution of organisms from historical, ecological and regional perspectives. Emphasis is placed on the principles and the methods of biogeography. Special reference is made to bio-geographic regions, the distribution of organisms in space and time, and ecological biogeography. Prerequisite: ESC 221; junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 426/526 Cr.4

Soil Morphology and Genesis
A comprehensive study of soils around the world and the factors and processes that drive their formation and dynamic evolution. Emphasis is placed on soil morphology, pedogenesis, and biogeochemical influences within the soil environment. A one-credit lab section is devoted to the hands-on exploration and study of soils through laboratory and field exercises. Prerequisite: ESC 221 or ESC 222. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 427 Cr.3

Water Resources
A study of physical water resources systems and management and utilization of water as a resource. Class activities will include seminars on critical water resource management issues and hands-on analysis of pertinent data, including exercises in Geographic Information Systems. Prerequisite: ESC 221 or ESC 222. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Alternate Years.

ESC/GEO 430/530 Cr.3

Fluvial Geomorphology
A systematic study of the interactions between flowing water and surface landforms. Emphasis is placed on watershed and stream development, sediment transport and storage, flow frequency analysis, and applications of fluvial principles to river management and stream restoration. Class activities will include field exercises in the La Crosse region, mathematical analysis of hydrologic variables, and spatial analysis with Geographic Information Systems. Prerequisite: ESC 221 or ESC 222. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Spring - Odd Numbered Years.

ESC/GEO 440/540 Cr.3

Geographic Interpretation of Aerial Photographs
Systematic applications of aerial photographs in the interpretation and analysis of geographic problems. Emphasis is placed on the interpretation of digital photographs within a geographic information system. Topics include urban and rural land use, natural resource, and environmental assessment. Lect.2, Lab 2. Prerequisite: ESC/GEO 385; junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 445/545 Cr.3

Advanced Remote Sensing
Advanced techniques of digital satellite and airborne image analysis and processing, emphasizing theory and applications in natural resource, land use and environmental assessment. Includes practical approaches to integrating imagery with geographic information systems for spatial analyses and decision making. Data acquisition, integrity, manipulation, formatting, storage, and retrieval are also examined. Prerequisite: ESC/GEO 345. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Spring.

ESC/GEO 450 Cr.3-12

Geography Internship
Practical experience with a variety of organizations where the student’s geographic background and training can be utilized to advantage. Students are placed in carefully selected positions screened by the department. Actual work supervision is accomplished by personnel of the selected agency and the department staff coordinator. A maximum of five credits may be counted toward the non-education major. Prerequisite: geography major; cumulative GPA of 2.25 with a minimum of 2.75 GPA in geography; junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESC/GEO 455/555 Cr.3

Web Mapping
In this course, students will learn how to produce and design interactive Web maps for communication. Web maps take many forms and they are continually changing. Thus, the objective of this course is to do two things: (1) develops proficiency in the scripting languages and tools most frequently used to design and create these maps; and (2) teaches the theory and concepts underlying good Web map design so that the technologies change in the future students will still be able to design effective Web maps. At the end of this course, students will be able to design a Web map from scratch. Lect. 2, Lab 2. Prerequisite: ESC/GEO 250; ESC/GEO 355; junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Spring.

ESC/GEO 460/560 Cr.3

Environmental Hazards and Land Use
Environmental processes are investigated in light of the hazards they might pose for development and how they may be avoided or mitigated by proper land use planning. Prerequisite: ESC 221 or ESC 222. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 470/570 Cr.1-3

Special Topics in Geography/Earth Science
Specifically selected topics or skills which may be designed for the interest of special groups will be offered with formalized instruction and methodology appropriate to geography and/or earth science. May be counted as an elective in the geography major or earth science minor at the discretion of the Geography/Earth Science Department. Prerequisite may be required at the discretion of the department. Repeatable for credit - maximum six. ÿ Prerequisite: junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.
Economics (ECO) - Courses

+Econo 110 Cr.3
Microeconomics and Public Policy
Introduction to microeconomic principals and their application to decision-making by individuals, businesses, and government. General topics include supply and demand, market structures, product markets, government regulation, income distribution, international trade, and economic analysis of current social issues. Offered Fall, Winter, Spring, Summer.

+Econo 120 Cr.3
Global Macroeconomics
Introduction to the functioning of the world economy. Applications of economic principals to domestic and international problems with an introduction to economic systems, economic thought, and economic history around the world. General topics include the economics of international exchange rates, global macroeconomics, international monetary systems, and economic development. Offered Fall, Winter, Spring, Summer.

+Econo 202 Cr.3
Contemporary Global Issues
This course will offer a contemporary multi-disciplinary perspective regarding the major issues and trends confronting the global society as it enters the 21st century. Emphasis will be given to a critical review and assessment of the origin and present condition of the plethora of situations and problems affecting modern global society. The student will also learn to critically evaluate current and future events. The course will incorporate the views and approaches of the following disciplines: sociology/anthropology, economics, geography, political science and history. (Cross-listed with ANT/ECO/GEO/HIS/POL/SOC 202; may only earn credit in one department.) Offered Occasionally.

Econo 212 Cr.3
Search for Economic Justice
Through a mixture of face-to-face, online, and experiential methods, students will explore, examine, and compare the concept of economic justice from several theoretical perspectives including Amartya Sen, John Rawls, and Friederich Hayek. From there the course will explore human rights and economics, the role of formal and informal institutions and the role of globalization. Students will be exposed to examples of women's rights and how the expansion of personal justice relates to economic development. Lastly, students will be exposed to data and other tools used to measure economic justice, freedom and individual rights through an analysis of different databases on human rights and institutions. Students may only earn credit in one of the following: ANT 212, ECO 212, POL 212, WGS 212. Offered Occasionally.

Econo 300 Cr.3
Economic Issues in Public Policy
A discussion of current economic issues incorporating an introduction to the essential concepts for critical economic thinking. Issues are chosen to help the student develop a general understanding of the economic choices confronting a democratic society. Prerequisite: ECO 110 or ECO 120. Offered Occasionally.

Econo 301 Cr.3
Money and Banking
An introduction to money, monetary policy, and banking, and their roles in the modern market economy. Attention is devoted to the current institutional structure in the U.S. and differing views on the relationship between money and the level of economic activity. Prerequisite: ECO 110 or ECO 120. Offered Spring.

Econo 303 Cr.3
Industrial Organization
Changing structure of the American economy; price policy in different industrial classifications of monopoly and competition in relation to problems of public policy. Prerequisite: ECO 110. Offered Occasionally.

Econo 305 Cr.3
Intermediate Macroeconomic Analysis
Introduction to the theoretical analysis of the aggregate economy. Topics include the essential mathematics of macro analysis; national income accounting; general equilibrium of the product, money and labor markets; Keynesian, Classical, and Monetarist theories; stabilization policies; and economic growth. Prerequisite: ECO 110, ECO 120; MTH 175 or MTH 207. Offered Fall, Spring.
ECO 306 Cr.3

History of Economic Thought
The evolutionary development of economic thought from the Medieval Period to the present day, including origins and development of classical economics, the critics of classicism, subjectivism, the Historical School, neo-classical economics, institutionalism, imperfect competition theories, and Keynesian economics. Prerequisite: ECO 110, ECO 120. Offered Occasionally.

ECO 307 Cr.3

Intro to Econometrics, Forecasting & Time Series
An introduction to regression analysis and its application to economic and business research. Topics include using secondary data sources, simple and multiple regression, forecasting, time series analysis, and interpretation and communication of results. The course develops various empirical techniques and culminates with a final research report. Prerequisite: MTH 145; ENG 110 or ENG 112. Offered Occasionally.

ECO 308 Cr.3

Intermediate Microeconomic Analysis
Behavior of consumers, producers and markets. Topics include: theories of demand, production and cost, firm decisions, market structures, distribution, general equilibrium, welfare and externalities. Prerequisite: ECO 110, ECO 120; MTH 175 or MTH 207. Offered Fall, Spring.

ECO 310 Cr.3

Managerial Economics
Application of economic principles for making effective management decisions with regard to strategies dealing with a firm’s external environment and internal organization. Topics include: decisions under risk and uncertainty, vertical integration and outsourcing, pricing strategies, creating and capturing value, incentive conflicts and contracts, and issues in personnel economics. Prerequisite: ECO 110; MTH 145. Offered Occasionally.

ECO 311 Cr.3

Comparative Economic Systems
Theoretical and institutional characteristics of capitalism and socialism with emphasis on prevailing economic systems in the U.S., the former Soviet Union, China, and England. Prerequisite: ECO 110, ECO 120. Offered Occasionally.

ECO 312 Cr.3

American Economic Development
American economic growth in historical perspective from the point of view of the economist. Emphasis will be placed on the use of elementary economic theory as a tool to explain the growth of the American economy. Prerequisite: ECO 110, ECO 120. Offered Occasionally.

ECO 320 Cr.3

Economics of Sports
Economic theory is used to analyze the sports industry. Topics include industry make-up, labor conditions, marketing, economic impact, and discrimination. Prerequisite: ECO 110. Offered Fall, Spring.

ECO 321 Cr.3

Modern Political Economy
An introduction to conservative, liberal, and radical perspectives on the economic process. Topics include the role of government in the economy, the nature of work, business cycles, the environment, and racism and sexism. Prerequisite: ECO 110, ECO 120. Offered Occasionally.

ECO 330 Cr.3

Labor Economics
Theories of wage determination; economic effects of wage determination upon the structure of wages, the distribution of national income, employment, and the price level. Prerequisite: ECO 110, ECO 120. Offered Occasionally.

ECO 331 Cr.3

Comparative Economic Systems
Theoretical and institutional characteristics of capitalism and socialism with emphasis on prevailing economic systems in the U.S., the former Soviet Union, China, and England. Prerequisite: ECO 110, ECO 120. Offered Occasionally.

ECO 332 Cr.3

American Economic Development
American economic growth in historical perspective from the point of view of the economist. Emphasis will be placed on the use of elementary economic theory as a tool to explain the growth of the American economy. Prerequisite: ECO 110, ECO 120. Offered Occasionally.

ECO 333 Cr.3

Labor Economics
Theories of wage determination; economic effects of wage determination upon the structure of wages, the distribution of national income, employment, and the price level. Prerequisite: ECO 110, ECO 120. Offered Occasionally.

ECO 336 Cr.3

Women in the U.S. Economy
An introduction to the status of women in the U.S. economy. Topics include alternative perspectives on women, work and the labor force, the value of paid versus unpaid labor, pay equity, the social support network, and the prospects for change. Offered Fall, Spring.

ECO 340 Cr.3

Introduction to International Economics
Overview and introduction to international economics and the theory of international trade and the effects of trade and trade policy on the economy. Foreign exchange markets, the balance of payments and basic policy adjustments are also introduced. Prerequisite: ECO 110. Offered Fall, Spring.

ECO 346 Cr.3

Environmental and Ecological Economics
Aspects of the scarcity of renewable and non-renewable natural resources and the management problems associated with their allocation and use are presented from neoclassical and ecological economics perspective. The theoretical foundations for those tools of economic analysis applicable to the analysis of natural resource problems are developed with historical, real-world examples discussed. Attention is concentrated on the policy implications of alternative resource development strategies. Prerequisite: ECO 110. Offered Spring.

ECO 352/352 Cr.3

Economic Development
Analysis of the broad problems and constraints limiting economic development in the "Third World" Alternative approaches to development will be considered. Different cultural, material, and human resources present in individual countries will be assessed. Prerequisite: ECO 110, ECO 120. Offered Occasionally.

ECO 360/360 Cr.3

Monetary Theory and Policy
This course is concerned with the theory and practice of monetary policy in the modern market economy, with particular reference to the U.S. economy and institutional framework. Topics covered include: the ability of the central bank to regulate the supply of money and credit conditions; factors affecting the demand for money; and the relationship between changes in the money supply and interest rates and the impact of changes in each of these on other economic variables. Prerequisite: ECO 301; junior standing Offered Occasionally.

ECO 360/360 Cr.3

Public Sector Economics
Theory and policy of revenues and expenditures in the public sector. Public sector issues are analyzed using public choice theory and cost-benefit analysis. Expenditure programs and taxation are considered at the national, state, and local government levels. Prerequisite: ECO 110; junior standing. Offered Occasionally.
Teaching and Learning History & Social Studies in the Secondary School
This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in history and social sciences. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school and learn how to design learning experiences to support all learners. Prerequisite: EDS 351. (Cross-listed with ECO/GEO/HIS/POL/PSY/SOC; may only earn credit in one department.) Offered Fall, Spring.

Econometric Methods
Development of statistical techniques used in empirical economics analysis. Emphasis will be placed on the theory and application of the linear regression model. Prerequisite: ECO 307 or MTH 405; one economics course at 300 level or above; junior standing. Offered Occasionally.

Law and Economics
Economic analysis of the origins and impacts of legal rules and of the process of legal decision-making. Focus is on the implications of alternative legal structures for the efficient use of society’s scarce resources, and on the ways in which economic incentives shape the evolution of those structures and the laws they embody. Topics include: public choice, pollution, insurance and liability, and deregulation. Prerequisite: ECO 110. Offered Occasionally.

International Financial Economics
The economics of the international monetary system and financial transactions, with emphasis on macroeconomic policy. Balance of payments problems, exchange rate determination and its effect on economic growth and stability, and policies to achieve international market equilibrium are analyzed from a theoretical and empirical point of view. Prerequisite: ECO 120; junior standing. Offered Spring.

College of Business Administration Internship
The internship program as conceived and implemented is an unusual undergraduate work. For additional information, see internship description under the College of Business Administration catalog section. Repeatable for credit. Prerequisite: cumulative GPA of at least 2.50; ACC 221, ACC 222; BUS 205, BUS 230; ECO 110, ECO 120; FIN 355; IS 220; MGT 308; MKT 309; admission to business. Pass/Fail grading. Offered Fall, Winter, Spring, Summer.

Health Economics
Study of the use of resources in health care and the application of economic methods to issues of public health. Topics include organization of health care delivery, relationships between health care and health status, and the economic evaluation of health care services. The U.S. system is compared with those of other nations, focusing on the roles of the consumers and providers in health care markets, and on the roles of government in shaping demand, supply, and utilization. Prerequisite: ECO 110; junior standing. Offered Occasionally.

Economic Forum
Emphasis will be on examination and study of current economic issues. Topics will vary from semester to semester. Repeatable for credit - maximum six. Prerequisite: ECO 110, ECO 120; junior standing. Offered Occasionally.

Independent Study
Individual reading or research under the guidance of a staff member. Open to selected advanced students who have excellent records in the department. Registration with the consent of the student’s regular adviser, the instructor, and the department chairperson. Approval form available in department office; completion of form required prior to registration. Repeatable for credit - maximum six. Consent of instructor. Pass/Fail grading. Offered Fall, Winter, Spring, Summer.

Educational Foundations (EFN) - Courses

Courses
EFN 200 Cr.1
Cooperatives
A study of the history and development of cooperatives, a form of business organization voluntarily owned and controlled by member patrons on a nonprofit or cost basis. The social, political and economic aspects of cooperatives constitute the basis for the course. Note: This course is a statutory requirement for all social studies majors and minors (except psychology minors) in the 1-9 or 6-12 teacher certification programs. May not count in major or minor. Offered Spring, Summer.

EFN 205 Cr.3
Understanding Human Differences
The course will focus on human differences and the factors which influence these differences, specifically group identifications. It will explore the intersection between misperceptions and ethnocentric perspectives which foster the development of prejudicial attitudes. It will explain the effect of prejudicial attitudes on expectations for "different" others (stereotyping) and on behavior toward those others (discrimination). It will examine diverse groups in our society and how membership in one or more of these groups affects one’s sense of identity and one’s opportunities. Offered Fall, Winter, Spring.

EFN 207 Cr.1
Resolving Diversity Issues Through Experiential Drama
An interactive experience involving drama and dialogue to address cultural conflict, racial ethnic and other diversity issues. Students research topics to gain background information. Short scenarios are developed and presented to UW-L classes and on-campus organizations as requested, as well as off-campus social agencies, school groups, businesses, etc. Repeatable for credit - maximum three. Offered Fall, Spring.
EFN 222 Cr.2
Introduction to Choice Theory: Problem Solving Strategies
Examines major concepts from William Glasser’s Choice Theory focusing on how they can be applied to promote responsible behavior and create successful living and learning experiences. Emphasis is on understanding basic needs, developing strategies for working with diverse students, learning a variety of approaches for problem solving, and developing specific skills for applying Choice Theory in interpersonal and small group interactions and in conducting group meetings. Prerequisite: sophomore standing; open to resident assistants and desk managers only. Consent of instructor. Offered Occasionally.

EFN 424/524 Cr.3
Theory and Practice of Cooperative Learning
Based on theories of cooperative learning, the course examines practices and strategies which promote student learning and create positive classroom environments. Focus will be on the teacher’s role in academic and social interactions. Total class involvement and small groups will be explored as the primary delivery systems for integrating a cooperative learning model. Prerequisite: EDM 350 or EDM 402 or teacher certification; junior standing. Offered Occasionally.

EFN 475/575 Cr.1-3
Special Topics Seminar in Education
Special topics in education not covered by current education courses taught in the department. The particular topic selected to be determined by the department according to the current need and interest. Repeatable for credit - maximum six. Prerequisite: admission to teacher education, or certifiability as a teacher, or consent of the department chair; junior standing. Offered Fall, Winter, Spring, Summer.

EFN 486/586 Cr.1-3
Multicultural Education
The course will examine multicultural education as a reform effort for pre-K-12 schools and the rationale for advocating it. Alternative approaches for implementing multicultural education will be discussed with emphasis on curriculum. Classroom activities to assist students in understanding and appreciating human differences will be presented and evaluated. Prerequisite: EFN 205; junior standing. Offered Occasionally.

CI/EFN 499 Cr.1-6
Individual Study
Reading and research in an area of student interest in education under the direction of an education instructor. Open to elementary and secondary education students with excellent records. Not open to students concurrently enrolled in EFN 499. Prerequisite: junior standing. (Cross-listed with CI/EFN; may earn six credits total in CI and EFN 499.) Consent of instructor. Offered Fall, Winter, Spring, Summer.

Educational Media (EDM) - Courses

Courses
EDM/ENG 340/540 Cr.3
Children’s Literature
A basic course in literature for children of the primary grades through middle school. Special emphasis is given to picture books, easy books, storybooks, informational materials, folklore and poetry. Modern trends in the literature for this age level are highlighted. A short unit on censorship is included. No print material is used selectively. Prerequisite: three credits in 200 level English courses; junior or senior standing. (Undergraduate level cross-listed with EDM/ENG 340; may only earn credit in one department.) Offered Occasionally.

EDM/ENG 341/541 Cr.3
Adolescent Literature
Survey of literature suitable for reading by adolescent boys and girls. The course is designed primarily for middle/secondary education students. Prerequisite: three credits in 200 level English courses; junior or senior standing. (Undergraduate level cross-listed with EDM/ENG 341; may only earn credit in one department.) Offered Occasionally.

EDM 433 Cr.3
Administration of School Media Program
Problems in management of integrated school media programs (K-12). Includes the procedures, background, objectives, selection, utilization and administration of the various communications media as well as finance and evaluation standards of various services, and the teaching of library media skills. Offered Occasionally.

Educational Studies (EDS) - Courses

Courses
+EDS 203 Cr.3
School and Society
This course examines the historical and philosophical foundations of schooling and the teaching profession, with specific attention on the individual roles of teachers. It explores the ways teachers are positioned within the twenty first century as well as the contemporary issues they face, including but not limited to school law, governance, ethics, financing, and accountability reforms. In sum, the course aims to provide a foundational understanding of the ways in which schools influence and are influenced by society while locating individual students-as future teachers and citizens-within the current educational milieu. Offered Fall, Spring, Summer.

+EDS 206 Cr.3
Multicultural Education
This introductory diversity course explores the role that multiculturalism plays in schools and the broader society. This course examines aspects of identity from anthropological, sociological, historical, political, and economic perspectives and how they intersect in school settings. It uses schools as the site for analyzing the ways in which aspects of minority cultures are addressed and incorporated into educational instruction in public schools. Through engagement with diverse texts, activities, and presentations, it prepares students for teaching and working in increasingly diverse and pluralistic schools and communities, and specifically with minority cultures. Moreover, the course maintains a concerted focus on how students, teachers, parents, and community members experience and perceive schooling in the United States. The students in the course develop a nuanced understanding of cultural representation at the individual, institutional, and societal levels by critically examining key texts as well as their own personal experiences. Finally, the course provides future citizen teachers with the analytical and pedagogical tools to ensure that multiculturalism is valued, cultivated, and promoted in classrooms across the U.S. Prerequisite: EDS 203 recommended. Offered Fall, Spring, Summer.
EDS 308 Cr.3
 Foundations of Literacy

The focus of this course will be on the language and language arts/literacy development for all learners. This course provides students with the theories, principles, goals, and pedagogical skills for teaching language arts/literacy for K-8 classrooms. Emphasis will be given to critical literacy including effective practices from multicultural and multilingual literacy perspectives. Candidates will also develop an understanding of political and social dimensions of language arts/literacy education. Prerequisite: declared education major; completed basic skills testing milestone; sophomore standing. Offered Fall, Spring, Summer.

EDS 309 Cr.2
 Education In a Global Society (Early Adolescence-Adolescence)

In support of teachers as globally responsive citizens, this course studies international education issues relating to global poverty, gender inequality and the impact of globalization on the teaching profession. Comparative case studies regarding education systems in other parts of the world are integrated to provide a stronger global perspective on social, economic and political aspects of schooling. Prerequisite: EDS 203. Offered Fall, Spring, Summer.

EDS 311 Cr.3
 Curriculum and Pedagogy for Early Childhood-Middle Childhood/ Middle Childhood- Early Adolescence

The course is designed to consider the nature of a teaching profession, the use of standards in a profession, and responsibilities of PK-12 educators. The role of schools in society will be examined along with the history and politics of school curriculum. Possible levels of curriculum use in schools from knowledge reproduction to curriculum integration will be discussed. Culturally responsive teaching and conflict resolution will be emphasized. Prerequisite: declared education major; completed basic skills testing milestone. Offered Fall, Spring.

EDS 319 Cr.2
 Teaching with Integrated Technology I

This course is an introduction to the systematic planning of instructional technology. Course objectives include developing functional skills in computer hardware and software, design of multimedia materials, and effective application of technology in teaching and learning. The course focuses on the basic principles of learning through technology integration into instruction with the use of multimedia, web development, instructional media, distance learning, Internet use and ethical, legal, and social issues in technology. Lect. 1, Lab 1. Prerequisite: declared education major; sophomore standing. Offered Fall, Winter, Spring, Summer.

EDS 351 Cr.4
 Language, Literacy, and Culture in the Secondary Classroom

This course consists of class sessions and an integrated field experience. It is designed to equip teacher candidates to understand theoretical and evidence-based foundations of literacy processes and instruction. Students will: a) learn about instructional strategies, approaches, and materials to support student learning in literacy, b) learn about a variety of assessments and how assessment information can be used to plan and evaluate literacy instruction, c) develop an awareness, understanding, respect, and value for diversity and its impact on literacy, and d) learn about factors in the learning environment that foster literacy achievement. Prerequisite: admission to teacher education. Offered Fall, Spring.

EDS 400/500 Cr.1-3
 Continuing Education Professional Development

This course provides continuing education opportunities for Educational Professionals on a wide variety of topics. Topics selected for this course will mirror current trends and professional development interests of individual school district or educational institution. Varying topics will be offered with a specific title assigned to each. This course is open to professionals practicing in the education field and offered through the Continuing Education and Extension Office (CEE). Repeatable for credit with a different topic. EDS 400/500 credits cannot be used toward any Department of Educational Studies undergraduate or graduate programs. Consent of instructor. Offered Fall, Winter, Spring, Summer.

EDS 402 Cr.2
 Field Experience I-Early Childhood-Middle Childhood/Middle Childhood-Early Adolescence

This course is the first field experience in a school environment. Candidates will be introduced to professionalism, classroom management, and conflict resolution. Candidates will plan and teach lessons within the designated developmental range. Prerequisite: EDS 203, EDS 308, EDS 311; to be taken concurrently with EDS 412 and EDS 413; admission to teacher education program; junior standing. Offered Fall, Spring, Summer.

EDS 412/512 Cr.5
 Teaching Reading and Literacy

This course will focus on teaching reading/literacy strategies and techniques for K-8 classrooms. The course will cover pedagogy and application of best practices in reading/literacy instruction. This course is taken concurrently with the Field Experience One course with a placement in an elementary classroom. Prerequisite: EDS 203, EDS 308, and EDS 311; to be taken concurrently with EDS 402 and EDS 413; junior standing. Offered Fall, Spring.

EDS 413/513 Cr.3
 Teaching Social Studies: Early Childhood-Middle Childhood/Middle Childhood-Early Adolescence

This course is designed to provide teacher candidates with basic understanding of curriculum content, instructional methods and materials, and assessment strategies in social studies for children in kindergarten through middle school. Prerequisite: EDS 303, EDS 308, and EDS 311; to be taken concurrently with EDS 402 and EDS 412; admission to teacher education program; junior standing. Offered Fall, Spring, Summer.

EDS 414/514 Cr.1
 Foundations of Reading Seminar

The purpose of this course is to review and discuss key concepts related to the foundations of reading, including the sub-areas of (1) foundations of reading development (phonological and phonemic awareness, concepts of print and the alphabetic principle, phonics, word analysis skills), (2) development of reading comprehension (vocabulary development, reading comprehension skills and strategies), and (3) reading assessment and instruction (formal and informal assessments, multiple theories and approaches). In addition, the course prepares pre-service and in-service teachers to demonstrate their knowledge and understanding of teaching reading by composing an organized and developed analysis/written response for given teaching reading scenarios. Repeatable for credit - maximum three. Prerequisite: EDS 308; admission to teacher education program; EDS 412 for EC-MC and MC-EA majors. Pass/Fail grading. Offered Fall, Winter, Spring, Summer.
EDS 421/521 Cr.3
Teaching General Science Methods-Early Childhood-Middle Childhood-Middle Childhood-Early Adolescence
This course is designed to introduce teacher candidates to current methods and practices for teaching general science education that will include environmental topics. EC-MC and MC-EA teacher candidates will explore the need for these sciences in their teaching areas. Methods will be investigated regarding the nature of science as a discipline, strategies for instruction and assessment for student learning. Diversity and gender issues in science education are emphasized. Prerequisite: EDS 402; MTH 135 with a grade of “C” or better; to be taken concurrently with EDS 422 and EDS 445; admission to teacher education program; junior standing. Offered Fall, Spring.

EDS 422/522 Cr.2
Teaching Mathematics Methods-Early Childhood-Middle Childhood- Early Adolescence
This course is designed to provide teacher candidates with basic understanding of curriculum content, instructional methods and materials, and assessment strategies in mathematics for children in preschool through middle school. Teacher candidates will examine the scope and sequence of PK-8 mathematics standards documents as well as explore models for short and long term instructional planning. Candidates will use assessment data to differentiate instruction to meet the needs of individual students that may include Response to Intervention planning and Professional Learning Communities. Prerequisite: EDS 402; grade of “C” or better in both MTH 135 and MTH 136; to be taken concurrently with EDS 421/521 and EDS 445/545; admission to teacher education; junior standing. Offered Fall, Spring.

EDS 445 Cr.2
Field Experience II - Early Childhood-Middle Childhood/Middle Childhood-Early Adolescence
This course is the second field experience in a school environment. Candidates will further develop their professionalism, classroom management techniques, and conflict resolution skills. Candidates will develop and teach lessons including units of instruction as well as building and maintaining the classroom environment within the designated developmental range. Lect. 1, Lab 1 Prerequisite: EDS 402; to be taken concurrently with EDS 421 and EDS 422; admission to teacher education program; junior standing. Offered Fall, Spring.

EDS 450 Cr.2
Field Experience II-Early Childhood-Adolescence, Early Adolescence-Adolescence
This course is the second field experience in a school environment. Candidates will further develop their professionalism, classroom management techniques, and conflict resolution skills. Candidates will develop and teach lessons including units of instruction as well as building and maintaining the classroom environment within the designated developmental range. Lect. 1, Lab 1. Prerequisite: to be taken concurrently with EDS 451; admission to teacher education program; junior standing. Offered Fall, Spring.

EDS 451/551 Cr.3
Contemporary Lit for Secondary Learners-Early Childhood- Adolescence/Early Adolescence-Adolescence
This class prepares students to experience literacy foundations from traditional and electronic text formats in a global information society. The search for meaning is shaped by language competencies applied in local, national, and international settings. The purpose of this class is to engage learners in the acquisition of skills and processes to facilitate literacy growth in traditional content areas at the middle and high school students. Prerequisite: to be taken concurrently with EDS 450; admission to teacher education program; junior standing. Offered Fall, Spring.

EDS 452 Cr.3
Teaching in Schools
This course is designed to prepare teacher candidates for full professional involvement in schools by being able to understand and implement current educational research and reform efforts in schools. Building on the curriculum, instruction, and assessment models learned earlier in the program, teacher candidates will learn to function within professional learning communities to implement curriculum and educational reforms including integrated curriculum, responsive classrooms, effective classroom management, and family/community engagement. Current educational reform agendas will be presented to prepare candidates for their work in schools. Teacher candidates will learn the legal information that is applicable to their role as teachers and the organization and operation of schools and their role within them. Prerequisite: EDS 402. Offered Fall, Spring, Summer.

EDS 463 Cr.3
Designing Instruction and Ongoing Assessment for Diverse Learners
This course addresses multiple critical skills for teaching candidates. The course will provide in-depth coverage of the Response to Intervention (RTI) model, and in particular how it relates to learners with special needs. Directly connected to the RTI content will be a focus on both formal and informal assessment strategies students may use for progress monitoring. The course will also cover differentiation techniques the students may apply based on their knowledge of student needs and progress. Prerequisite: SPE 401; admission to the teacher education program; junior standing. Offered Fall, Spring.

EDS 475/575 Cr.1-3
Educational Studies Special Topics
The purpose of this course is to provide opportunities for teacher candidates or aspiring teachers to gain experience and knowledge for education topics. Offered Fall, Winter, Spring, Summer.

EDS 492 Cr.1
Student Teaching Seminar
This seminar course provides an opportunity to discuss and further develop candidates’ critical thinking regarding issues of the field and practice of educating school-age individuals. As a result of this course candidates will discuss current issues experienced within their student teaching experiences as well as issues around the areas of professionalism, conflict resolution, and classroom management. Prerequisite: to be taken concurrently with EDS 493 or EDS 494 or EDS 495; admission to teacher education. Consent of department. Offered Fall, Spring.

EDS 493 Cr.3-15
Student Teaching: Early Childhood-Middle Childhood/Middle Childhood-Early Adolescence
Student teaching is a full day, full school semester, professional experience in selected elementary and secondary schools with qualified, approved cooperating teachers. Orientation, seminars, and other professional experiences are also required. May be repeated for credit in a subsequent semester for each additional licensure. Registration occurs through the Office of Field Experience only. Prerequisite: completion of education requirements, including special methods courses; appropriate education faculty recommendation; 2.75 cum GPA and 2.75 GPA in major, minor, concentrations & professional coursework; passing scores in Praxis II content areas; passing scores in WI Foundations of Reading Test and/or ACTFL oral & written proficiency rating of “Intermediate-High” for modern language certification candidates. Consent of department. Satisfactory/Unsatisfactory grading. Offered Fall, Spring.
EDS 494 Cr.3-15
Student Teaching: Early Adolescence-Adolescence/Early Childhood Adolescence
Student teaching is a full day, full school semester, professional experience in selected elementary and secondary schools with qualified, approved cooperating teachers. Orientation, seminars, and other professional experiences are also required. May be repeated for credit in a subsequent semester for each additional licensure. Registration occurs through the Office of Field Experience only. Prerequisite: completion of education requirements, including special methods courses; appropriate education faculty recommendation; 2.75 cum GPA and 2.75 GPA in major, minor, concentrations & professional coursework; passing scores in Praxis II content areas; and/or ACTFL oral & written proficiency rating of "Intermediate-High" for modern language certification candidates. Consent of department. Satisfactory/Unsatisfactory grading. Offered Fall, Spring.

EDS 495 Cr.3-15
Teaching Internship
Teaching internship is a full day, full school semester, professional experience in selected elementary and secondary schools with qualified, approved cooperating teachers. Orientation, seminars, and other professional experiences are also required. Must be selected for Wisconsin Internship Program placement and a State Intern License. Registration occurs through the Office of Field Experience only. Prerequisite: completion of education requirements, including special methods courses; appropriate education faculty recommendation; 3.0 cum GPA and 3.0 GPA in major, minor, concentrations & professional coursework; passing scores in Praxis II content areas; and/or ACTFL oral & written proficiency rating of "Intermediate-High" for modern language certification candidates; passing scores in WI Foundations of Reading Test for EC-MO & MO-EA candidates. Consent of department. Satisfactory/Unsatisfactory grading. Offered Fall, Spring.

English (ENG) - Courses
+ next to a course number indicates a general education course

Courses
ENG 050 Cr.3
Fundamentals of Composition
English 050 will facilitate fluency in writing. It will prepare students for the writing demands encountered in ENG 110 and other academic environments. To learn conventions of formal academic writing and to understand and employ effective writing processes and habits are the objectives of this course. Transcript credit does not count toward graduation. Pass/Fail grading. Offered Fall.

+ENG 110 Cr.3
College Writing I
This course in composition addresses writing as a symbolic action that writers participate in for multiple purposes, with diverse audiences, and in various genres. It emphasizes writing as a thinking process through the learning and practice of rhetorical strategies for inquiry, persuasion, and collaboration in context. (Students who qualify with a grade of "C" or better in ENG 110 will be exempt from further writing requirements in the general education skills category, but this does not exempt students from the writing emphasis course requirements. Students receiving a grade less than "C" must repeat ENG 110.) Prerequisite: ENG 050 or equivalent placement. Not open for credit for students with credit in ENG 112. Offered Fall, Spring.

+ENG 112 Cr.3
College Writing AP (Advanced Placement)
This course in composition addresses writing as symbolic action that writers participate in for multiple purposes, with diverse audiences, and in various genres. It emphasizes writing as a thinking process through the learning and practice of rhetorical strategies for inquiry, persuasion, and collaboration in context. (Students will be challenged at a level appropriate to their placement. Students who qualify with a grade of "C" or better in ENG 112 will be exempt from further writing requirements in the general education skills category, but this does not exempt students from the writing emphasis course requirement. Students earning a grade lower than "C" must repeat ENG 112.) Prerequisite: score of 3 or 4 on the AP Placement Tests (Rhetoric/Writing or Literature) or students with ENG 110 waiver from transfer institution. Not open for credit for students with credit in ENG 110. Offered Fall, Spring.

+ENG 200 Cr.3
Literature and Human Experience
Intensive study of selected literary texts, with emphasis on various ways of reading, studying, and appreciating literature as an aesthetic, emotional, and cultural experience. Content varies with instructor. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. Offered Fall, Spring.

+ENG 201 Cr.3
American Literature I
An exploration of American literature from early times to the late nineteenth century; including such authors as Bradstreet, Franklin, Hawthorne, Poe, Melville, and Dickinson. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. Offered Fall, Spring.

+ENG 202 Cr.3
American Literature II
An exploration of American literature from the late nineteenth century to the present; including such authors as Twain, Freeman, Chopin, Frost, Hemingway, Faulkner, Wright, and Bellow. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. Offered Fall, Spring.

+ENG 203 Cr.3
English Literature I
Encounters with major works of English literature from medieval times through the eighteenth century, including fiction, drama, essays, and poetry. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. Offered Fall, Spring.

+ENG 204 Cr.3
English Literature II
Encounters with major works of English literature of the nineteenth and twentieth centuries, including fiction, drama, essays, and poetry. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. Offered Fall, Spring.

+ENG 205 Cr.3
Western Literature I
An examination of the expression and development of the ideas and values of Western Civilization in time-honored works of literature ranging from Biblical times, through the Greek and Roman eras, to the European Middle Ages and the Renaissance. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. Offered Fall.

+ENG 206 Cr.3
Western Literature II
An examination of the conflicting ideas and values of Western Civilization as expressed in the literature of the eighteenth, nineteenth, and twentieth centuries; with special attention to the literary and cultural impact of science and modern philosophy and the roots and identity of the modern age. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. Offered Spring.
+ENG/ERS 207 Cr.3

Multicultural Literature of the United States
This course examines cultural themes in American literature in an effort to enhance student awareness of the multi-ethnic nature of American culture. Students engage in close reading, discussion, analysis, and interpretation of texts written by individuals from a variety of American ethnic and cultural backgrounds. Content varies with instructors.
Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. (Cross-listed with ENG/ERS; may only earn credit in one department.) Offered Fall, Spring.

ENG 208 Cr.3
International Studies in Literature
A study of representative authors from selected regions and ages of the world, ranging from such non-Western traditions as the Indic, Arabic, African, Chinese, and Japanese to such Western traditions as the Icelandic, Scandinavian, Australian, Russian, and South American. Content and focus vary with instructors. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. Offered Occasionally.

+ENG/ERS 210 Cr.3
Literature of Black America
Survey and exploration of Black American prose and poetry from their eighteenth century beginnings to the end of the Harlem Renaissance and the depression years. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. (Cross-listed with ENG/ERS; may only earn credit in one department.) Offered Fall.

+ENG/ERS 215 Cr.3
African American Authors
A study of the principal post-depression (1940 to present) African American authors, critics, and scholars which clarifies the relationship between these writers and the general field of American literature and which illustrates their unique contributions as representatives of African American culture. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. (Cross-listed with ENG/ERS; may only earn credit in one department.) Offered Spring.

ENG 220 Cr.3
Women and Popular Culture
Fundamentals of cultural studies, with a focus on analyzing representations of women in modern American popular culture and their historical reception. Primary texts from media such as film, television, advertising, and popular fiction will be studied for how they communicate cultural values regarding women and femininity. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. Offered Fall, Spring.

ENG 299 Cr.1
Writing Tutor Practicum
This course is designed to offer training and supervision for Writing Center tutors. The course will include an overview of writing center history and theory, an overview of writing process theory, and examination of best practices for tutoring various client populations. Students will develop a reflective tutoring practice based on readings and course discussions. The course must be taken during the student's first semester of employment in the Writing Center. Failure to complete the course will result in termination of employment in the Writing Center. Students who repeat the course will engage more deeply with the content. Prerequisite: ENG 110 or ENG 112. Consent of instructor. Pass/Fail grading. Offered Fall, Spring.

ENG 301 Cr.4
Foundations for Literary Studies
An introduction to foundational knowledge and skills for the advanced study of literature. The course fosters understanding of the importance of historical, cultural, and intellectual contexts for literary study as well as appreciation for diversity of literary expression. Facility for critical work with literature is developed through expanding students’ knowledge of literary genres and their understanding and use of basic literary terminology and through enhancing their abilities to do literary research, conduct close textual analysis, and write critically about literature.
Prerequisite: three credits in 200 level English courses. Offered Fall, Spring.

ENG 302 Cr.3
Intermediate Topics in Literature
An intermediate course exploring selected topics in literature in relation to various historical or cultural contexts. Topics vary according to the interests of students and the instructor. Sample topics include: Horror Literature and Film; Classical Greek Drama and Culture; the Bible and/as Literature; Literature and Existentialism: Blues, Jazz, and Literature. Open to all students. Consult English Department for application to major or minor. Repeatable for credit - maximum six. Only three credits may be applied to an English major or minor. Prerequisite: three credits in 200 level English courses. Offered Fall.

ENG 303 Cr.3
Advanced Composition
An advanced college-level writing course. Emphasis will be placed on developing skills and strategies related to the theories and practices of various rhetorical contexts and genres. Prerequisite: ENG 110 or ENG 112. Offered Fall, Spring.

ENG 304 Cr.3
Writing in the Arts and Humanities
An advanced writing course designed especially for students majoring in the arts and humanities. The course will focus on the types of inquiry and discourse appropriate to these disciplines. Students will be instructed in the rhetorical strategies of invention (that is, discovering content and establishing lines of reasoning, analyzing audience, and determining the writer's purpose and persona), arrangement and style. Not open for credit in the English education major or minors except for credit in the professional writing minor. Prerequisite: ENG 110 or ENG 112; sophomore standing. Offered Annually.

ENG 305 Cr.3
Creative Writing
An advanced course which emphasizes the writing of poetry, short fiction, and analytical-evaluative writing about each of these genres. The course is taught by a practicing and published fiction writer or poet and is intended as the basic course in the creative writing English minor. It is also for those students interested in writing short fiction and/or poems. Prerequisite: three credits in 200 level English courses. Offered Fall, Spring.

ENG 306 Cr.3
Writing in Education
An advanced writing course open to students who intend to become teachers in any field. This course helps students achieve several goals: understanding and practicing the several steps of the writing process and the various types of writing; exploring the ways in which writing can be a method of learning; strengthening composition skills; developing a "theory of composition" (a set of principles) which will serve students well both as writers and as teachers of writing. Not open for credit in the creative writing minor. Prerequisite: ENG 110 or ENG 112; sophomore standing. Offered Fall, Spring.
ENG 307 Cr.3
Writing for Management, Public Relations and the Professions
An advanced course focusing on written communication for relations with clients, boards, organizations, customers, constituents, or the public. Students practice writing as an effective process of gathering and conveying information, answering questions, and solving problems. The course will explore appropriate language, tone, and format for effective letters, memos, news releases, reports, proposals, abstracts, and summaries. There is emphasis on purpose, audience, and clarity. Not open for credit in the English education major or minors except for credit in the professional writing minor. Prerequisite: ENG 110 or ENG 112; at least sophomore standing. Offered Fall, Spring.

ENG 308 Cr.3
Technical Writing
An advanced writing course designed for technically oriented students whose career goals require skill in conveying technical information through writing. Students will become acquainted with the types of writing forms and rhetorical styles which they are likely to encounter as professionals and will practice using these styles with technical subjects. Not open for credit in the English education major or minors except for credit in the professional writing minor. Prerequisite: ENG 110 or ENG 112; at least sophomore standing. Offered Annually.

ENG 309 Cr.3
Writing in the Sciences
An advanced writing course for students in the sciences. The course will focus both on the role writing plays in the conduct of scientific work and on the rhetorical and stylistic conventions of the various scientific disciplines: in short, on the relationship between writing and scientific knowledge. Taught through an inquiry process, students will be led to develop their composition skills and understanding as they discover the procedures and conventions of their individual disciplines. Not open for credit in the English education major or minors except for credit in the professional writing minor. Prerequisite: ENG 110 or ENG 112; at least sophomore standing. Offered Annually.

ENG 311 Cr.3
Critical Theory
Students in this course will study various major theoretical schools and begin to develop their conceptual literacy in approaching literary and other cultural texts (for example, creative and other modes of writing, public discourses, aesthetic and/or social movements, images, film, and other media). The course will facilitate students’ dynamic participation in the unfolding conversations and debates about texts and culture. Prerequisite: three credits in 200 level English courses. Offered Fall, Spring.

ENG 313 Cr.3
Prose Style and Editing
A practical course in developing a flexible and effective capacity for writing prose. Students will master techniques and strategies of emphasis, coherence, clarity, conciseness, balance, and rhythm. Use of tropes and figures (particularly metaphorical language and imagery) and tone will be explored in the context of rhetorical appropriateness and strategy. The course will provide students with the fundamentals of prose technique—the basis for an art, which they can continue to refine and develop for the rest of their lives. Prerequisite: ENG 110 or ENG 112. Offered Fall, Spring.

ENG 314 Cr.3
Grant Writing
This course is designed to develop knowledge of theories and practices of grant writing by including topics such as conventions of proposal writing as well as political, social and cultural aspects and practices of grant writing. Students will develop skills in identifying sources of grant funding, engage in various research methods, and learn to rhetorically respond to requests for proposals. Students will also learn to write requests for proposals, and analyze varying stakeholders and writing situations. Prerequisite: ENG 110 or ENG 112. Offered Spring.

ENG 318 Cr.3
Journalism and New Media
This course introduces students to the histories and practices of journalism and new media. Students can expect to examine such issues as the rise of modern journalism, the transition to digital media, ethics and free speech issues, the globalization of news, as well as writing genres particular to different platforms. Prerequisite: ENG 110 or ENG 112. Offered Annually.

ENG 320 Cr.3
Literary Journal Production and Publication
A workshop course in literary magazine production and publication. The class will assemble and publish Steam Ticket, a nationally-distributed literary journal that attracts submissions from international authors and artists. Emphasis will be placed on inter-disciplinary and multicultural content and participation. Repeatable for credit - maximum six. Only three credits may be applied toward any individual major or minor. Prerequisite: 300 level writing course. Offered Spring.

ENG 325 Cr.3
Reporting and Copy Editing
Study of newsgathering methods; practice organizing and writing; assigning and directing reporting and writing; preparing news copy for publication. Prerequisite: ENG 110 or ENG 112. Offered Annually.

ENG 326 Cr.3
Feature and Specialized Writing
Writing feature articles for newspapers and magazines; includes study of genre and practice with information gathering, interviewing, and composing and editing techniques. Application of reporting and writing techniques to specialized areas of news, such as editorials, reviews, sports, science and business; includes critical and interpretive writing. Prerequisite: ENG 110 or ENG 112. Offered Annually.

ENG 327 Cr.3
Publishing in a Digital Age
Practice in and critical examination of publication design, including research, writing, editing, layout, design, theory, software, and digital imagery. Prerequisite: ENG 110 or ENG 112. Offered Fall.

ENG 330 Cr.3
History of the English Language
A survey of the historical development of English language structure and usage in the Old English, Middle English, Early Modern English, and Modern English periods. Prerequisite: ENG 110 or ENG 112. Offered Occasionally.

ENG 331 Cr.3
Introduction to Linguistics
An introductory survey of the major subfields of linguistics: phonetics, phonology, morphology, syntax, semantics, and pragmatics. Some attention is given to language acquisition and language variation. Prerequisite: ENG 110 or ENG 112. Offered Spring.
ENG 332 Cr.3
Modern English Grammars
An introduction to the structure of the English language, focusing primarily on its syntax. Investigation of the various grammatical functions that words perform and how those words combine to create phrases, clauses, and sentences. Development of skills for analyzing and describing English sentences. Prerequisite: ENG 110 or ENG 112. Offered Fall, Spring.

ENG 333 Cr.3
Introduction to Rhetoric and Writing Studies
An introductory course which presents theories of rhetoric and composition, emphasizing both conceptual knowledge and practical skills. Prerequisite: ENG 110 or ENG 112; at least sophomore standing. Offered Fall, Spring.

ENG 334 Cr.3
Language Study for Teachers
Designed for pre-service teachers, this course is intended to provide a theoretical base for structuring effective language education, for teaching writing and other language activities, and for understanding linguistic diversity. It will cover issues basic to understanding how language acquisition is a developmental process and how language functions in thinking, learning, and social interaction. Prerequisite: ENG 110 or ENG 112. Offered Fall, Spring.

ENG 335 Cr.3
Introduction to Professional Writing
Introduction to Professional Writing is designed as an introductory course for students who are interested in writing in professional settings. The course will include an introduction to various field definitions of professional writing, an overview of professional writing history and theory, provide space to study key concepts that are currently relevant in the field, and apply these histories and concepts to concrete documents that constitute study in the field of professional writing. Prerequisite: ENG 110 or ENG 112. Offered Fall, Spring.

ENG 337 Cr.3
The Rhetorics of Style
A rhetorical study of various styles, this class systematically examines the social/cultural as well as the literary implications and impact styles have had in history. The class focuses on how understandings of style have changed throughout history and how different understandings shape strategies for interacting with audiences. Prerequisite: ENG 110 or ENG 112. Offered Occasionally.

ENG 338 Cr.3
Linguistics and Literature
Linguistic analysis of literary texts using methods in theoretical linguistics, sociolinguistics, and/or applied linguistics. No prior background in linguistics is necessary. Prerequisite: three credits in 200 level English courses. Offered Occasionally.

EDM/ENG 340/540 Cr.3
Children's Literature
A basic course in literature for children of the primary grades through middle school. Special emphasis is given to picture books, easy books, storybooks, informational materials, folklore and poetry. Modern trends in the literature for this age level are highlighted. A short unit on censorship is included. No print material is used selectively. Prerequisite: three credits in 200 level English courses; junior or senior standing. (Undergraduate level cross-listed with EDM/ENG 340; may only earn credit in one department.) Offered Occasionally.

EDM/ENG 341/541 Cr.3
Adolescent Literature
Survey of literature suitable for reading by adolescent boys and girls. The course is designed primarily for middle/secondary education students. Prerequisite: three credits in 200 level English courses; junior or senior standing. (Undergraduate level cross-listed with EDM/ENG 341; may only earn credit in one department.) Offered Occasionally.

ENG 342 Cr.3
The Essay
The development of the essay form and extensive reading of contemporary examples. Prerequisite: three credits in 200 level English courses. Offered Occasionally.

ENG 343 Cr.3
Creative Nonfiction
An advanced course which emphasizes the personal essay, memoir, and other forms that blur the distinction between fiction and factual writing. While creative nonfiction may be informative, it may also be personal and lyrical. Students will study voice, prose style, and techniques of structuring content. Prerequisite: ENG 110 or ENG 112; three credits in 200 level English courses. Offered Every Third Semester.

ENG 344 Cr.3
The Novel
A course focusing on the history and development of the novel, from its putative origins in 18th-century England to its postmodern realizations on the world literature scene. Various theoretical explanations of the novel's forms and social functions will be examined. The course will foster an understanding of the way narrative discourse functions as a mode of rhetoric, capable of persuading individual readers and even influencing historical trends. The course will also address the variety of formal approaches within the genre, from epistolary, historical and Gothic novels to novels of manners, novels of social protest, and psychological and stream-of-consciousness novels. Individual instructors may select examples from both the "high" and "low" forms of the genre, and may include English translations of foreign works. Prerequisites: three credits in 200 level English courses. Offered Every Third Semester.

ENG 347 Cr.3
The Short Story
Reading the great stories of the world. Some emphasis upon modern techniques. Prerequisites: three credits in 200 level English courses. Offered Occasionally.

ENG 348 Cr.4
Studies in Film Literature
An introduction to the study of film and film criticism, with some attention to the history of the medium and its relation to literary genres. Prerequisites: three credits in 200 level English courses. Offered Annually.

ENG 349 Cr.4
Drama
An introduction to dramatic literature of the world. This course prepares the student to understand the elements of dramatic writing and staging of plays. Dramatic works will be selected from a variety of countries and historical periods to provide an overview of this genre, as well as the foundations needed for future study. Lect. 3, Lab 2. Prerequisites: three credits in 200 level English courses. Offered Annually.
ENG 356 Cr.3
European Literature in Translation
A course focusing on classics of European literature. Individual instructors devise their own reading lists according to their own historical or thematic approaches, but most, if not all, of the readings will be translations from European languages other than English. This course aims to give students an understanding of various genres and traditions in European literature and to facilitate an enhancement of students' critical and communicative skills. Prerequisites: three credits in 200 level English courses. Offered Every Third Semester.

ENG 357 Cr.3
World Literature
A course designed to provide diversity education by studying world literatures from different regions and historical periods, ranging from ancient to modern Middle East, Africa, Asia, South Asia, Europe, and the Americas. Focus and content will vary with instructor. However, each instructor will cover at least two distinct world traditions. Prerequisites: three credits in 200 level English courses. Offered Annually.

ENG 361 Cr.3
Old and Middle English Literature
An introduction to the study of Old and Middle English literature with attention to the development of genres and styles which shaped early English literary traditions. Prerequisites: three credits in 200 level English courses. Offered Annually.

ENG 362 Cr.3
English Renaissance
Study of the major writers of the sixteenth and seventeenth centuries in England. Emphasis on Spenser, Sidney, Jonson, Marlowe, Herrick, Herbert, Donne and others. Shakespeare's non-dramatic work also will be included in the study of this period. Prerequisites: three credits in 200 level English courses. Offered Every Third Semester.

ENG 363 Cr.3
Shakespeare I
Close study of several principal plays, chiefly from the early and middle parts of Shakespeare's career. Prerequisites: three credits in 200 level English courses. Offered Fall, Spring.

ENG 364 Cr.3
Shakespeare II
Close study of principal plays, chiefly plays coming after "Hamlet. Prerequisites: three credits in 200 level English courses. Offered Fall, Spring.

ENG 366 Cr.3
Restoration and 18th Century British Literature
Study of the principal works of the period 1660-1800, with emphasis on Dryden, Swift, Defoe, Pope, Fielding, Johnson, and Boswell. Prerequisites: three credits in 200 level English courses. Offered Every Third Semester.

ENG 367 Cr.3
19th Century British Literature
Study of the finest poetry, fiction, drama and essays of the Romantic and Victorian periods of British literature, 1798-1901, with attention to the social, philosophical, and literary movements that engendered them. Prerequisites: three credits in 200 level English courses. Offered Annually.

ENG 368 Cr.3
British Literature After 1900
A foundational course in the literature of the British Isles in the twentieth and twenty-first centuries. The course focuses on major British writers and literary developments; with emphasis on the ways this literature reflects changing British cultural identity and maintains continuity with the literary heritage out of which it develops. Prerequisites: three credits in 200 level English courses. Offered Annually.

ENG 370 Cr.3
Early American Literature
Study of selected authors and works by and about the geographical region of North America which becomes the United States and bordering countries. Development of a literary audience and tradition with roots in, but separating from, English literature. Emphasis upon literature written in English, with selected works from Native traditions and colonists other than English. Most readings pre-date the US Revolution. Prerequisites: three credits in 200 level English courses. Offered Fall.

ENG 371 Cr.3
Nineteenth Century American Literature
A foundational study of important writers, movements, and themes in 19th century American literature. American Romanticism, the cultural forces surrounding the Civil War era, industrialization, immigration, the rise of urban culture, expansion West, and other similar contexts may be developed to explore the literary styles and genres of the developing American literary sensibility. Prerequisites: three credits in 200 level English courses. Offered Spring.

ENG 372 Cr.3
American Literature After 1900
This course provides an introduction to some of the major 20th century writers and literary movements in the United States, in historical and cultural contexts. Historical currents and cultural movements will be primary emphases in text selection in order to familiarize students with literary developments such as Modernism and Post-modernism. Readings will be selected from major genres, including poetry, fiction, drama, and autobiography. Prerequisites: three credits in 200 level English courses. Offered Spring.

ENG 380 Cr.3
Literature of American Ethnic and Minority Cultures
Study of selected works representative of American ethnic and minority cultures, including American Indian, Chicano, and Jewish. Emphasis will vary according to the interests of students and the instructor. For the current content, consult the instructor or the department chairperson. Prerequisites: three credits in 200 level English courses. Offered Occasionally.

ENG 381 Cr.3
American Indian Literature
A study of a broad range of American Indian literature, both traditional and contemporary, in cultural and historical contexts. Prerequisites: three credits in 200 level English courses. Offered Annually.

ENG 382 Cr.3
Latino Literature in English
Study of representative works in original English or translation by writers of Mexican American, Cuban American, Puerto Rican, and other Latino or Latin American origins, emphasizing the aesthetic dimensions of this literature as well as its historical roots and contemporary cultural contexts. Prerequisites: three credits in 200 level English courses. Offered Annually.
ENG 385 Cr.3
Women Authors
This course examines how women’s literature reflects the causes and nature of women’s places in society and their creation of alternative visions and strategies, with a focus on women’s negotiation of established traditions of authorship. Primary readings will span literary periods and genres. Authors may include Sappho, Marie de France, Katherine Phillips, Mary Astell, Mary Wollstonecraft, Mary Shelley, Charlotte Bronte, Phyllis Wheatley, Lillian Hellman, Djuna Barnes, George Eliot, Virginia Woolf, Angela Carter, Joyce Carol Oats, Toni Morrison, Zadie Smith. Prerequisites: three credits in 200 level English courses. Offered Every Third Semester.

ENG 400/500 Cr.1-3
Workshop
Projects involving trends and issues in composition, language, or literature related to various professional uses of English, with a central topic to be announced before each workshop. Repeatable for credit - maximum six. No more than three credits are applicable to an English major or minor. Prerequisite: junior standing. Offered Occasionally.

ENG 403 Cr.1-3
Individual Projects
Directed individual studies under the supervision of a department faculty member. Repeatable for credit - maximum three. Prerequisite: 12 credits and excellent grades in English courses. Consent of instructor. Offered Fall, Spring.

ENG 405/605 Cr.4
Teaching and Learning English in the Secondary School
This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in English. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school; candidates will learn how to design learning experiences to support all learners. Prerequisite: EDS 351; ENG 301. Offered Fall, Spring.

ENG 413 Cr.1-3
Writing Portfolio
A workshop course in which students assemble portfolios of their work, demonstrating their abilities as writers. English majors with an emphasis in rhetoric and writing and professional writing minors will be in the same section; however, writing minors, unless they elect the three credit option, will meet the class only one a week and will have a one credit work load. Prerequisite: senior standing. Offered Fall, Spring.

ENG 415 Cr.3
Topics in Critical Theory
This course advances a reflective understanding of the processes of reading, writing, and interpretation of literary and cultural artifacts. Students will gain an understanding of concepts and methodologies drawn from one or more fields of the humanities as they pertain to a specific issue or area of critical theory. Content varies with instructor. Repeatable for credit - maximum six. No more than three credits may be applied to an English major or minor. Prerequisites: three credits in 200 level English courses. Offered Alternate Years.

ENG 416 Cr.3
Seminar in Advanced Fiction Writing
The writing of fiction under the guidance of an experienced fiction writer. Classes will operate on the workshop model, with as many individual conferences between students and teacher as possible. The class will also include information about literary magazines, ideas about publishing, and visits from other fiction writers. Prerequisite: ENG 305. Consent of instructor. Offered Alternate Years.

ENG 417 Cr.3
Seminar in Advanced Poetry Writing
An advanced seminar in writing poetry with an experienced poet. Emphasis on the creative process, poetics, revision. Workshop format and individual tutorial meetings with poet. The class will also include information about literary magazines, ideas about publishing, and visits from other poets. Prerequisite: ENG 305. Consent of instructor. Offered Alternate Years.

ENG 433 Cr.3
Introduction to Teaching Writing
Introduces students to histories, theories, and practices that will enable them to make effective choices as teachers of writing. Areas of study include a brief history of writing instruction in US schools, including an overview of influential theories; the development and implementation of writing assignments; and theories and best practices for responding to student writing. Students engage these issues both as writers and as future teachers. This specific preparation to teach writing builds on students’ disciplinary knowledge and more general courses in education theory and practice. Prerequisite: senior standing; English major and minor plans must have six credits in 300 level English courses. Offered Fall.

ENG 434 Cr.3
Chinese Discourse
This course compares and contrasts discourse in China to that in the West. It examines the culturally similar and crucially different ways of creating, elaborating, and presenting the writer’s ideas. Introducing the students to a culture at once similar to and different from their own, the course activates the students’ implicit knowledge of their own cultural/discursive heritages and supplements that knowledge when necessary. Readings for this class include ancient and modern Chinese philosophical essays, literary works, and writings on both Chinese calligraphy and paintings in relation to Chinese thinking. All texts used are in English. Prerequisite: three credits in 200 level English courses. Offered Alternate Years.

ENG 439 Cr.3
Topics in Linguistics
Study of linguistics topics of special interest. Topics reflect the research interests of instructors and new developments in the discipline. For current content, consult the instructor or the English Department. Repeatable for credit - maximum three. Only three credits may be applied to an English major or minor. Prerequisite: ENG 110 or ENG 112; sophomore standing. Offered Occasionally.

ENG 445 Cr.3
Literature and Environmental Action
A study of literature of many genres written by nature and environmentalist writers, both traditional and contemporary, all serving as models for students’ essays and projects. Prerequisite: three credits in 200 level English courses. Offered Alternate Years.
ENG 446 Cr.3
Forms of Fiction
An investigation of traditional and contemporary narrative forms and some problems involved in writing within them. Students will be invited to write fictions of various kinds and find solutions to specific writing problems. Each student will present a seminar paper on aspects of narrative form in the work of a representative writer. Prerequisite: ENG 305. Offered Alternate Years.

ENG 449 Cr.3
Forms of Poetry
An investigation of traditional and contemporary forms of poetry. Students will be asked to write poems in various forms. In addition, each student will present a seminar paper on aspects of form in the work of an established poet. Prerequisite: ENG 305. Offered Alternate Years.

ENG 450 Cr.2-6
English Internship
An internship of the English Department to offer its majors and minors opportunities to learn, on the job, how to apply language skills acquired from course work. Students can select jobs or field experiences related to writing and communication skills. These experiences could be with government agencies, business firms, or industry or community agencies locally or throughout the U.S. While many internships are remunerative, not all are necessarily so. Only jobs and experiences approved by an adviser in the English Department and the department chairperson are acceptable for credit. Students interning will be expected to make regular reports to their English adviser and to comply with any course arrangements that the adviser should deem suitable. Applies only to rhetoric/writing emphasis of the English major and to the professional writing minor. Repeatable for credit - maximum six. Prerequisite: junior standing; consent of adviser; a cumulative GPA of 2.50 required. Consent of instructor. Pass/Fail grading. Offered Fall, Spring.

ENG 452 Cr.3
Professional Writing Practicum
This course is designed as a practicum for the professional writing minor. Students will participate in a practicum and also in one course meeting a week. In addition to offering workplace writing experience, this course will cover issues of professionalism, legalities of writing for an organization, discussions of various participant experiences/learned knowledge, and it will end with the completion of a portfolio. Prerequisite: ENG 110 or ENG 112; junior standing. Offered Fall, Spring.

ENG 462 Cr.3
Seminar in British Literature
A seminar in British literature which involves advanced study of major British authors, works, genres and sub-genres, techniques and styles. The seminar may explore a particular literary/aesthetic development or idea, trace its roots in the past and examine its relevance to the present. With a change in emphasis, the seminar may center on several major movements and representative authors across time studied in light of historical contexts and/or from the analytic and aesthetic perspectives provided by contemporary developments in literary and critical theory. Students in the seminar are expected to engage in independent reading and research. Repeatable for credit - maximum six. No more than three credits may be applied to an English major or minor. Prerequisite: ENG 301. Offered Occasionally.

ENG 463 Cr.3
Chaucer
Careful study of the "Canterbury Tales" and selected other poems. Some attention to language and pronunciation. Prerequisite: three credits in 200 level English courses. Offered Occasionally.

ENG 464 Cr.3
Milton
Poetry and selected prose. Emphasis on "Paradise Lost." Some attention given to Milton's life and times. Prerequisite: three credits in 200 level English courses. Offered Occasionally.

ENG 466 Cr.3
British Romanticism (1770-1830)
This course examines the works of many British writers, as they broke free from the tenets of the Enlightenment on their individual paths to self-expression. Romantic writers pursued several literary genres (essays, poems, novels, personal narrative, memoir) as texts to explore the concerns of all individuals in society. Works by Anna Barbauld, Mary Robinson, Mary Wollstonecraft, William Blake, Charlotte Smith, William Wordsworth, Dorothy Wordsworth, Samuel Coleridge, Thomas Dequincey, Charles Lamb, John Keats, Percy Shelley, Mary Shelley, and others are studied. Prerequisite: three credits in 200 level English courses. Offered Occasionally.

ENG 467 Cr.3
Victorian Poets
Browning, Tennyson, the Pre-Raphaelites, and others. Prerequisite: three credits in 200 level English courses. Offered Occasionally.

ENG 469 Cr.3
Post-Colonial Anglophone Literatures
The course surveys important works (poetry, fiction, non-fiction, drama, autobiography) of literature of Anglophone writers in a selection of the formerly colonized countries of the British Empire. The course examines literary texts within their historical contexts. Prerequisite: three credits in 200 level English courses. Offered Occasionally.

ENG 470 Cr.3
Seminar in American Literature
A seminar in American literature, chosen from 17th century to the present, including American colonial culture and not strictly bounded by the borders of present-day United States; advanced study of author(s), works, genres and sub-genres, techniques and styles, theme or setting, and more. With change in emphasis and instructor, the seminar could present an historical development or an intense focus on a particular subject. Students are expected to engage in extensive independent reading and research, as well as presentation of research findings to class and moderating further discussion. Repeatable for credit - maximum six. No more than three credits may be applied to an English major or minor. Prerequisite: ENG 301. Offered Occasionally.

ENG 471 Cr.3
American Romanticism
Selected authors and works of Revolutionary, Federal, and Pre-Civil War America. Romanticism describes a form and ideology continuing within the mainstream of American literature. Reading of "classic" writers like Washington Irving, Louisa May Alcott, Henry Wadsworth Longfellow, Edgar Allan Poe, and Nathaniel Hawthorne is complemented by writers dissenting from literary culture such as Ralph Waldo Emerson, Henry David Thoreau, Herman Melville, Margaret Fuller, Frederick Douglass, Emily Dickinson, and Walt Whitman, as well as writers of the southern and western states. Prerequisite: ENG 301. Offered Occasionally.

ENG 472 Cr.3
American Realism
Selected reading of authors and works of regions of the United States, to show Realism exists in variety as popular literature, primarily prose fiction and social commentary. Realism presumes diversity and multicultural literature, and its narrative technique requires readers to participate in creating and concluding "meaning. Prerequisite: ENG 301. Offered Occasionally.
ENG 476 Cr.3
Fiction and Nonfiction of Richard Wright
A study of Richard Wright's fiction and nonfiction: illustrative of his versatility as a literary artist and of his aesthetic and intellectual leadership among African-American authors after the Harlem Renaissance. Prerequisite: three credits in 200 level English courses. ENG 210 or ENG 215 recommended. Offered Occasionally.

ENG 477 Cr.3
African American Essay and Short Story

ENG 478 Cr.3
20th Century African American Novels
A study of significant novels written by preeminent twentieth-century African American writers, including DuBois, Toomer, Wright, Ellison, Baraka, and Morrison. Prerequisite: three credits in 200 level English courses. Offered Occasionally.

ENG 481 Cr.3
Seminar in Literature and Culture
Advanced study of literature within a focused cultural context. Emphases might include literatures of particular ethnic cultures; transnational or regional literatures; literatures of identity; and cultural studies approaches to other literary topics. Focus will vary with instructor. Repeatable for credit - maximum six. No more than three credits may be applied to an English major or minor. Prerequisite: ENG 301. Offered Occasionally.

ENG 482 Cr.3
Advanced Study of Women's Literature
This course offers advanced study of particular aspects of women's aesthetic expression - the novel, poetry, drama, film, autobiography, and other genres are possible primary texts. Students will engage with advanced theoretical approaches through critical/contextual readings, while studying the gendered politics of producing and consuming women's artistic work. Approaches might include cultural studies, psychoanalytic theory, socio-linguistics, global matriarchal traditions, new historicism, and feminist theory. Focus will vary with instructor. Prerequisite: three credits of a 200 level ENG course. Offered Occasionally.

ENG 484 Cr.2
Capstone: Literary Studies
A required course for senior English majors with literary emphasis. Readings representative of contemporary approaches to literary studies. (Students will formulate and develop an appropriate issue relating the course readings to material encountered in a prior or concurrent 400-level course and carry out independent research on the topic, culminating in a long paper.) Students will build a research community through proposals, presentations and discussions of their work for the course. Typically taken in the final semester of course work. Prerequisite: senior standing; completion of all 300-level courses; concurrent enrollment in one course from major category IIIA designated as seminar or permission from department to substitute other 400-level course work for the research paper. Offered Spring.

ENG 494 Cr.1-3
Advanced Topics in Literature
Advanced study of literary topics of special interest. Topics reflect the research interests of instructors and new developments in the discipline. For current content, consult the instructor or the English Department. Consult department for application to the English major or minor. Repeatable for credit - maximum six. Only three credits may be applied to an English major or minor. Prerequisite: three credits in 200 level English courses. ENG 301 required for English majors, recommended for all others. Offered Occasionally.

ENG 495 Cr.3
Advanced Study of Major Authors
Study beyond the survey or period level in the works of some English or American author or authors. Repeatable for credit - maximum six. Only three credits may be applied to an English major or minor. Prerequisite: three credits in 200 level English courses. Offered Occasionally.

ENG 497 Cr.3
Seminar in Rhetoric and Writing Studies
A seminar for advanced study in rhetoric and composition. Topics will vary according to the instructor. For the current content, consult instructor or department chair. Repeatable for credit - maximum six. No more than three credits may be applied to an English major or minor. Prerequisite: ENG 333; junior standing. Offered Fall, Spring.

English as a Second Language (ESL) - Courses

Courses
ESL 100 Cr.4
ESL Speaking
This course provides opportunities for students to practice speaking English in structured and semi-structured situations. Special attention is given to a limited set of functions (such as requesting, apologizing and complaining). Pronunciation work focuses on basic regularities of English pronunciation. Repeatable for credit - maximum eight. Prerequisite: non-native speakers of English and appropriate score on ESL placement test. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 101 Cr.4
ESL Reading
Focus is on comprehension of reading passages with time limits and with understanding of main and supporting ideas. Students increase their passive vocabularies through the study of word formation and by learning to use an English-English dictionary. Reading skills such as skimming, scanning, prediction, use of context clues and recognizing thought groups are also stressed. Repeatable for credit - maximum eight. Prerequisite: non-native speakers of English and appropriate score on ESL placement test. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/ Fail grading. Offered Fall, Spring, Summer.
ESL 102 Cr.4
ESL Writing/Grammar
Focus is on the basics of writing: spelling, punctuation, paragraphing and simple organizational patterns. Writing includes controlled exercises and some free writing. Repeatable for credit - maximum eight. Prerequisite: non-native speakers of English and appropriate score on ESL placement test. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 103 Cr.4
ESL Listening
This course gives students practice in understanding samples of spoken English of limited length and complexity and prepares students to understand segments of natural conversation on a variety of topics. Special attention is given to the various phonetic shapes that words can have. Repeatable for credit - maximum eight. Prerequisite: non-native speakers of English and appropriate score on ESL placement test. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 110 Cr.4
ESL Speaking
This course provides opportunities for students to prepare and give speeches/oral presentations. Students also gain a greater ability to use informal, conversational English. Special attention is given to language function, pronunciation, and intonation. Repeatable for credit - maximum eight. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 100. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 111 Cr.4
ESL Reading
This course provides opportunities for students to develop their reading skills in meaningful ways, enabling them to use academic texts outside of class successfully. Focus will be on reading skills such as summarizing, paraphrasing, skimming, scanning, making inferences, and distinguishing between different purposes for reading. Repeatable for credit - maximum eight. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 101. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 112 Cr.4
ESL Writing/Grammar
Focus is on improving students' ability to write convincing English paragraphs and essays with greater fluency. The basics of writing are reviewed. Repeatable for credit - maximum eight. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 102. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 113 Cr.4
ESL Listening
This course introduces students to English used in an educational context. Emphasis is on note taking by listening to short lectures. Conversational English listening skills are also studied including topics such as guessing meaning from context, stressed words, and understanding fast English. Repeatable for credit - maximum eight. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 103. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 150 Cr.4
ESL Speaking/Listening
Special attention is given to communication strategies - developing ways to communicate when pronunciation or vocabulary limitations make communication difficult. Prepares students for academic lectures by introducing standard forms of organization and common transition signals used in America. Pronunciation work emphasizes stress and intonation and problems of individual students. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 110. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 151 Cr.4
ESL Reading
Focus is on drawing inferences from a reading, recognizing paraphrase, identifying the author's point of view, and using knowledge of the structure of readings to aid comprehension. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 111. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 152 Cr.4
ESL Writing/Grammar
Focus is on a variety of organizational patterns, with review of the basics of writing. Students are introduced to elements of the writing process, including prewriting, revision and editing. Reviews and adds to students' skills of basic structures, emphasizing increasingly complex structures, with attention to form, meaning and use. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 112. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 153 Cr.4
U.S. Culture Today
This course gives students an understanding of the United States from practical and sociological perspectives. Reading, writing, listening, and speaking activities focus on information about daily life, values, beliefs, and social problems. Prerequisite: non-native speakers of English and/or appropriate score on ESL placement test and/or successful completion of ESL 113. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.
ESL 155 Cr.1-16
Special Topics in ESL
These courses are designed for special or contract groups in need of intensive English for non-academic purposes. Listening, reading, speaking, writing and cultural activities will be stressed, according to group needs. Each program-design could be for 1-16 institute credits according to contractual agreements and amount of intensive English required. Prerequisite: non-native speakers of English and/or appropriate score on ESL placement test. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 200 Cr.4
ESL Speaking/Listening
Emphasis is on the use of English in academic settings as well as in conversation. Course concentrates on lecture comprehension, with special attention to note taking, recognizing main ideas and support and determining the attitude of the speaker toward the subject. Students also work on comprehenison of complex information presented in non-lecture format, as in the dynamics of small-group discussion. Pronunciation focuses on individual needs of students. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 150. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 201 Cr.4
ESL Reading
Emphasis is on reading for academic purposes. Students work on comprehension of academic reading selections, as well as challenging non-academic material. Students work on tone and distinguishing fact from opinion. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 151. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 202 Cr.4
ESL Writing/Grammar
Emphasis is on writing as a process of thinking, planning, writing and rewriting. Increased emphasis is placed on writing for academic purposes. Reviews and adds to students' repertoire of structures with increased emphasis on the verb phrase and on control of grammar in writing. Prerequisite: non-native speakers of English and appropriate score on ESL placement test and/or successful completion of ESL 152. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 203 Cr.4
ESL Lecture/Note Taking
This course is designed to prepare students for college-level listening challenges. Students are introduced to a variety of academic lectures via different media. Students learn strategies for effective note-taking. Prerequisites: non-native speakers of English and appropriate score on ESL placement test, and/or successful completion of ESL 153. (Transcript credit only. Does not count toward graduation. Performance at 80% is required for a grade of pass.) Pass/Fail grading. Offered Fall, Spring, Summer.

ESL 250 Cr.4
ESL Speaking
Focus is on strategies and techniques for success in academic classes, including formal and informal oral discourse patterns needed for American classes. Prerequisite: non-native speakers of English and/or appropriate score on ESL placement test and/or successful completion of ESL 200. Offered Fall, Spring, Summer.

Environmental Studies (ENV) - Courses
+ next to a course number indicates a general education course

Courses

+ENV 201 Cr.3
Introduction to Environmental Studies
An interdisciplinary, introductory seminar which will explore current environmental issues from a variety of perspectives (scientific, historical, and social) and disciplines (natural sciences, social sciences, and humanities). Attitudes toward the natural world and approaches to public and private decision-making will also be examined. Some field trips will be used to examine local and regional practices and issues. Offered Fall, Spring.

ENV 301 Cr.3
Environmental Sustainability
What can we do as individuals and as a society to meet our own needs without harming future generations? This seminar course approaches sustainability as a way of asking better questions, drawing from many academic disciplines and practical experiences. Students will discuss environmental sustainability for multiple scales, including personal lifestyles, organizations, businesses, and public infrastructure systems. Prerequisite: ENV 201. Offered Annually.
ENV 303 Cr.3
**Issues in Environmental Studies**
This fully interdisciplinary seminar provides the opportunity to gain understanding of the scientific, historical, and ethical issues in ecological literacy and environmental responsibility by focusing on a specific environmental concern. Selected environmental issues with a specific focus will be offered. Examples are forestry, ground water, air pollution, ozone depletion, sustainable agriculture, overpopulation. Each offering will have a specific title according to the topic. Repeatable for credit - maximum six. Prerequisite: ENV 201. Offered Fall, Spring.

ENV 450 Cr.3
**Internship in Environmental Studies**
Direct work experience with an agency or organization that deals with environmental issues or problems from an interdisciplinary perspective. The student works under supervision of both faculty adviser and agency staff member. Examples of sites include governmental agencies, advocacy groups, environmental education centers, alternative technologies companies, and environmental compliance divisions of corporations. All internships must be approved in the semester prior to the semester that the internship occurs. Prerequisite: ENV 201; declared environmental studies minor; junior standing. Consent of environmental studies director. Consent of instructor. Offered Fall, Spring, Summer.

ENV 496 Cr.3
**Integrative Seminar in Environmental Studies**
This capstone course, offered in seminar style, will focus on research and responsible environmental action. It will discuss, review, and assess course work done in the environmental studies minor. Students will evaluate previous course work and design and conduct research projects or other environmental projects/activities. This seminar will be oriented toward integration of various aspects of the minor, within the context of a bioregional emphasis, a focus on environmental issues on campus, and a component aimed at environmental action. Repeatable for credit - maximum six. Prerequisite: ENV 201; ENV 303; six credits from the list of supporting courses. Offered Spring.

ENV 499 Cr.1-3
**Independent Study in Environmental Studies**
Under supervision of instructor, individualized study in environmental studies on issues/topics not available in existing courses. All independent studies must be approved in the semester prior to the semester that the independent study occurs. Repeatable for credit - maximum three. Prerequisite: ENV 201; declared environmental studies minor. Consent of environmental studies director. Consent of department. Offered Fall, Winter, Spring, Summer.

**Ethnic and Racial Studies (ERS) - Courses**

+ next to a course number indicates a **general education** course

**Courses**

+ERS 100 Cr.3
**Introduction to Ethnic and Racial Studies**
An examination of the persistence of minority and ethnic problems in the United States and consideration of the contributions, parallels, similarities, and differences between and among ethnic and minority groups. Offered Fall, Winter, Spring, Summer.

+ENG/ERS 207 Cr.3
**Multicultural Literature of the United States**
This course examines cultural themes in American literature in an effort to enhance student awareness of the multi-ethnic nature of American culture. Students engage in close reading, discussion, analysis, and interpretation of texts written by individuals from a variety of American ethnic and cultural backgrounds. Content varies with instructors. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. (Cross-listed with ENG/ERS; may only earn credit in one department.) Offered Fall, Spring.

+ENG/ERS 210 Cr.3
**Literature of Black America**
Survey and exploration of Black American prose and poetry from their eighteenth century beginnings to the end of the Harlem Renaissance and the depression years. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. (Cross-listed with ENG/ERS; may only earn credit in one department.) Offered Fall.

+ENG/ERS 215 Cr.3
**African American Authors**
A study of the principal post-depression (1940 to present) African American authors, critics, and scholars which clarifies the relationship between these writers and the general field of American literature and which illustrates their unique contributions as representatives of African American culture. Prerequisite: ENG 110 or ENG 112 or concurrent enrollment in ENG 112. (Cross-listed with ENG/ERS; may only earn credit in one department.) Offered Spring.

+ERS 220 Cr.3
**Introduction to Ethnic and Racial Stereotypes in the Media**
This course will trace how popular entertainment mediums such as film, television, books, comics, "wild west shows," music and cartoons have impacted perceptions of ethnic and racial groups from the early seventeenth century to the present. Besides analyzing the persuasive power of these types of mediums, it will examine why such representations were created and why they still persist. The mythopoetic image that surrounds American Indians, African Americans, Asian Americans, Hispanics, and other minority groups will be juxtaposed against the historical reality that these groups have faced and the contemporary inequalities that we still must confront. Prerequisite: ERS 100. Offered Fall, Spring.

ERS 253 Cr.3
**Introduction to Wisconsin Indians**
An introductory examination of Wisconsin Indians with specific reference to the Ho-Chunk, Menominee, Ojibwa, Oneida, Potawatomi, and the Stockbridge-Munsee communities. An interdisciplinary approach will be used to explore topics including sovereignty, land use and environmental issues, education, economic development, social issues and challenges, and tribal identity. The course also will explore each tribe’s responses to both state and federal governments. Offered Fall, Spring.

ERS 300 Cr.1-3
**Topics and Symposium in Minority Studies**
Topics selected by the individual instructor or by the students and instructor together. Special interest of both the instructor and students such as Black drama or Native American art, or other areas of concern which are either not covered or briefly dealt with in formal course work may be the vehicles for this offering. Repeatable for credit - maximum six. Offered Occasionally.
ERS/PHL 321 Cr.3
**American Indian Thought**
Reflection on the Native American ways of thinking as manifest in the literature of various select tribes, on the essential characteristics of thinking commonly shared by Native Americans, and on the fundamental difference between the Native American ways of thinking and those of the dominant (white) culture. The "primal world" of Native American thought will be studied as an alternative to the western way of thinking. Prerequisite: ERS 100. (Cross-listed with ERS/PHL 321; may only earn credit in one department.) Offered Occasionally.

ERS 325 Cr.3
**Exploring White Privilege**
This inter-disciplinary course is an exploration of white privilege in contemporary American society. Considering whiteness as both race and power-based system, this course attempts deeper understanding of the persistence of racism and its impact on all segments of society. Questions of denial and resistance, collaboration in systems of privilege, and personal and intellectual responses to those explorations highlight how privilege influences human interaction. The distribution of privilege within American society at personal, institutional, and cultural levels, as well as how whiteness operates within social constructs of class and gender, will be analyzed. Students ultimately develop strategies for confronting racism. Prerequisite: ERS 100. Offered Occasionally.

ERS/SOC 343 Cr.3
**American Indian Contemporary Issues**
This course is an interdisciplinary examination of American Indian contemporary experience in the United States. It will introduce students to some of the critical issues in American Indian studies by examining the place of American Indians within the American imagination, politics and society. The course concentrates on issues of tribal sovereignty, economics, social class and structure, and the difficulties of maintaining a tribal identity in the 21st century. Prerequisite: one of the following: EFN 205, ERS 100, ERS 253, HIS 310, SOC 225, or WGS 230. (Cross-listed with ERS/SOC; may only earn credit in one department.) Offered Fall.

ERS 351 Cr.3
**Ethnic and Racial Relations**
An introductory course that examines leading theories of racial and ethnic relations in the United States and assesses their significance and relevance in explaining historic and contemporary relations between the white majority and the racial and ethnic minorities. It also analyzes and evaluates the impact of various laws, policies, and programs on racial and ethnic relations. Prerequisite: ERS 100. Offered Fall, Spring.

ANT/ERS/SOC 362 Cr.3
**Hmong Americans**
This is an introductory course to Hmong American history, culture, and contemporary life. The course reviews Hmong history within the context of U.S. foreign policy in Southeast Asia from 1945 to 1975 and examines the sociocultural transformations that have been taking place in Hmong American communities across the U.S. since 1976. Prerequisite: ANT 101 or ANT 195 or ANT/SOC 202 or ARC 100 or SOC 110 or SOC 120. (Cross-listed with ANT/ERS/SOC; may only earn credit in one department.) Offered Occasionally.

ERS/SOC 363 Cr.3
**American Indians and the Environment**
This course introduces students to American Indian environmental issues. Topics include treaty-based hunting, fishing and gathering rights, air and water quality regulatory authority, environmental racism, toxic and nuclear waste disposal on Indian lands, mining and hydroelectric dams, sacred sites, and Indian vs. Western perceptions of the environment. Special attention will be given to current environmental controversies in Wisconsin Indian country. Prerequisite: one of the following: EFN 205; ERS 100, ERS 253; ERS/SOC 343; SOC 225, SOC 328. (Cross-listed with ERS/SOC; may only earn credit in one department.) Offered Occasionally.

ERS 400/500 Cr.1-3
**Individual Study in Ethnic and Racial Studies**
Directed reading and research under the supervision of an instructor. Repeatable for credit - maximum six. Prerequisite: junior standing. Consent of instructor. Offered Fall, Spring.

ERS/HIS 409 Cr.3
**20th Century Civil Rights Movement**
This course explores the modern civil rights movement in the US and the struggle for African Americans and other marginalized groups to gain equal rights in voting, education, employment, housing, and other facets of life in the US. It begins with the MOWM and examines the seemingly completing philosophies of civil rights organizations such as CORE, SNCC, SCLC, BPP, AIM, SDS and other civil rights leaders, and local people in shaping their own destinies. It highlights and interrogates major national and local political struggles and their reciprocal relationships with international political and anti-colonial movements from 1941 to the present. It concludes with exploring the link between convict leasing, prison reform movements, political prisoners, and the prison industrial complex as the New Jim Crow. Prerequisite: ERS 100. (Cross-listed with ERS/HIS; may only earn credit in one department.) Offered Fall.

ERS 410/510 Cr.3
**Contemporary Issues in Minority Cultures**
An introduction to ethnic minority groups in the United States today emphasizing the historical antecedents of contemporary issues with particular attention to the problems of ethnic groups and educational institutions. Prerequisite: junior standing. Offered Occasionally.

ERS/HIS 411 Cr.3
**20th Century African American Urban History**
This course will explore the interrelationships between race, class, and gender among blacks in the twentieth century American city. Throughout the semester we will interrogate the confluence and the divergence of the myths and the realities of the black urban political, social, and cultural experience in the United States. The course begins in the American South in 1900, where the majority of blacks continued to live, and follows the migration of over two million African Americans to the northern and western United States in the years between World War I and World War II. The course continues with the black community-building process and the black urban struggle for political, economic, and cultural self-determination. While blacks in the South played an enormous role in the Civil Rights Movement, this course will include focus on the Civil Rights and Black Power Movement in the Urban North and West, and conclude with examinations of the rise of the so-called second ghettos. Prerequisite: ERS 100. (Cross-listed with ERS/HIS; may only earn credit in one department.) Offered Fall.
Exercise and Sport Science (ESS) - Courses

+ next to a course number indicates a general education course

Courses

ESS 100 Cr.1
Physical Activities
A program of instruction to enhance participation in physical activities throughout one’s lifetime. The primary emphases for specific activities may include acquiring a knowledge base, learning new skills and/ or refining skills, developing components of health-related fitness, enhancing affective skills. Repeatable for credit. Pass/Fail grading. Offered Fall, Spring.

ESS 104 Cr.2
Dance Appreciation
This course attempts to develop an awareness and appreciation of the role of dance in human society through the study of its purposes, functions and various forms. Offered Fall, Spring.

ESS 110 Cr.2
Introduction to Sport Management
This course exposes students to the profession of sport management. The course provides a broad overview of the sport industry, covers fundamental knowledge and skill sets of the sport manager, and provides students with information on specific sport industry segments for potential employment and career choices. Offered Fall, Spring.

ESS 112 Cr.4
Fundamentals of Movement
This course is designed to provide an understanding of the development of fundamental movement skills and movement concepts related to the elementary physical education student. Emphasis is placed on attaining knowledge of developmentally appropriate practices for the elementary physical education student. This course includes fundamental movements, educational games, and educational dance. Offered Fall, Spring.

ESS 113 Cr.1
Basic Swimming
This course is open to exercise and sport science majors and minors only. Emphasis is placed on the improvement of the individual student’s swimming skill. Course content ranges from the non-swimmer level through American Red Cross intermediate skill level. Physical education teaching majors and minors are required to enroll in ESS 113 unless they hold one of the following American Red Cross certifications: Water Safety Instructor or Lifeguard Training. Offered Occasionally.

ESS 115 Cr.2
Orientation to Exercise and Sport Science
This course is designed to introduce the exercise and sport science major, to introduce the profession of exercise and sport science, and to give insight into the many diverse careers that can result from studying the discipline. Background knowledge of the foundations of the profession and the selection of a career path that reflects personal interests and abilities will be the focus. Offered Fall, Spring.

ESS 116 Cr.2
Water Safety Instruction
This course is designed to cover the basic components for certification by the ARC including infant and preschool, Longfellow’s Whale Tales, progressive instruction, safety training for swim coaches and basic and emergency water safety. Upon successful completion of this course the student will be certified to instruct aquatics by the American Red Cross. Offered Fall.

ESS 117 Cr.2
Health Related Fitness Activities in PE
This course is designed to help students start to understand health-related fitness self-efficacy promotion through lifetime physical activity applications. Students will focus on exercise prescription design and goal setting strategies linked to skill development in fitness related activities. This activity-based course will focus on fitness principle applications as they relate to cardiovascular, muscular strength and endurance, flexibility, and body composition activities. Pedagogical strategies and the Personalized System of Instruction model will be introduced for health related fitness activity integration. Lect. 1, Lab 2. Offered Fall, Spring.
ESS 118 Cr.2

Introduction to Physical Education Teaching Profession
This course is designed to introduce students to the physical education teaching profession. The course presents the role that physical education plays in the overall development and education of children. Students focus on learning national standards and guidelines related to the physical education teacher profession. Emphasis is on developing the ability to describe, discuss and reflect upon issues in the physical education teaching profession, including student characteristics, teacher responsibilities, professional vocabulary and concepts, advocacy, current issues, and historical factors. Offered Fall, Spring.

ESS 121 Cr.2

Adventure Theory for Physical Educators
This course presents the concepts of adventure education including cooperative and initiative games. The students will learn to use and implement a ropes course as a classroom for different age groups and diverse populations, especially as applied to physical education programs. Much of the emphasis of the adventure theory will be introducing the teaching and methodology of adventure education. This course introduces undergraduate students to teaching adventure education in elementary and secondary physical education programs in the schools. Offered Fall, Spring.

ESS 130 Cr.1-2

Officiating Athletics
Provides a general background of the rules, interpretations and mechanics of officiating athletic events at various levels of competition. Knowledge in this area may lead to WIAA certification in the following sports: basketball, baseball, football, gymnastics, swimming, track and field, volleyball, and wrestling. Repeatable for credit. Offered Occasionally.

ESS 145 Cr.2

Sport Management and Communication
This course will cover fundamental knowledge of sport-related communication, including sport information as found in print and electronic media, personal communication, and social media. Sport management trends and issues include media, legal and sociological issues, crisis management, and employment options in sport communication. Offered Fall, Spring.

ESS 181 Cr.3

Introduction to Sports Medicine
An introductory course designed to provide insight into the areas of sports medicine. Fundamental emergency care procedures and wrapping/taping techniques are taught. Students are exposed to athletic training room procedures, accident forms, maintenance of equipment and use of athletic training materials. Enrollment in the course is dependent on an application/selection process. See requirements for athletic training major. Prerequisite: admission to athletic training major. Consent of instructor. Offered Fall.

ESS 182 Cr.3

Prevention and Emergency Care for Athletic Trainers
This course is designed to provide knowledge and experience in prevention and emergency care procedures. Students will learn emergency care procedures through mock practice. They will be exposed to advanced taping techniques, equipment selection and fitting, spineboarding, and receive certification in CPR/AED for the professional rescuer and in first aid. Prerequisite: ESS 181. Offered Spring.

ESS 201 Cr.1

Safety, First Aid and CPR
Instruction and practice in proper first aid principles, procedures and emergency care including CPR training. American National Red Cross Standard First Aid certification and CPR certification will be awarded to those students who meet certification requirements. One lecture/lab for seven weeks. Offered Fall, Spring.

ESS 205 Cr.3

Human Anatomy and Physiology for Exercise Science I
This course is designed to cover the structure and function of the muscular, nervous skeletal, sensory, and integumentary systems. Emphasis will be placed on the musculoskeletal system during the laboratory component. Lect. 2, Lab 2. Prerequisite: BIO 100 or BIO 105 or MIC 100. (Not open for credit to students who have credit in BIO 312.) Offered Fall, Spring.

ESS 206 Cr.3

Human Anatomy and Physiology for Exercise Science II
This course is designed to cover the maintenance of homeostasis through study of the structure and function of the autonomic nervous system, cardiovascular, respiratory, immune, digestive, endocrine, and renal systems. Metabolism will also be discussed. It will also cover metabolism and fluid/electrolyte balance. Lect. 3. Prerequisite: ESS 205. (Not open for credit for students who have had BIO 313.) Offered Fall, Spring.

ESS 207 Cr.3

Human Motor Behavior
This course is an investigation into the nature of human motor development, motor control, and motor learning. Topics will be approached from a constraints perspective, focusing on the interaction among the individual, the environment, and the task. Lect. 2, Lab 2. Prerequisite: ESS physical education majors must have ESS 112. Offered Fall, Spring.

ESS 209 Cr.2

Strength Training Clinical I
A course designed to provide practical experience in the supervision of a strength center. Students will have the opportunity to instruct proper lifting technique, assist with the assessment of strength, power and speed, and learn facility and equipment maintenance. Lab 4. Prerequisite: ESS 205 or ESS 206 or concurrent enrollment; admission to strength and conditioning concentration. Pass/Fail grading. Offered Fall, Spring.

ESS 225 Cr.3

Introduction to Physical Education Teaching Methodology
This course focuses on teaching methodology in Physical Education. Students will complete observational clinical experiences at the elementary, middle, and high school levels. Emphasis will be placed on developing knowledge, skills, and dispositions related to instruction, management, lesson planning, assessment, and reflection. Students will complete Benchmark I for the electronic portfolio process. Prerequisite: ESS 118. Offered Fall, Spring.
ESS 231 Cr.3
**Introduction to Adapted Physical Education**
This course is designed to introduce future teachers to teaching physical education to PK-12 students with disabilities. Course content includes general characteristics of selected disabilities and how these disabilities impact a person's movement potential and performance, the federal and state laws pertaining to the education of PK-12 students with disabilities, the process of special education referral and placement of students in the least restrictive environment, appropriate physical education teaching methods to use for inclusive instructional settings, adapted teaching techniques for motor development, health-related fitness, sport/ recreational skills, and aquatic; and behavior management techniques. In addition, all students are required to participate in the UW-La Crosse Motor Development Program conducted on Thursday evenings for approximately 25 clinical education hours for the semester. Lect. 2, Lab 3. Prerequisite: ESS 225 or concurrent enrollment. Offered Fall, Spring.

ESS 233 Cr.2
**Teaching Methods in Adapted Aquatics**
This course focuses on strategies and techniques for teaching persons who are disabled in an aquatic setting. Emphasis is placed on program and teacher effectiveness. Two-hour lab required. Students are expected to have intermediate level swimming skills. Lect. 1, Lab 2. Prerequisite: ESS 231 or RTH 326. Priority enrollment will be given to students admitted to the adapted physical education minor. Offered Fall, Summer.

ESS 249 Cr.2
**Youth Sport Issues**
An investigation of how youth sport programs can provide a healthy experience for participants. Concepts dealing with when to teach sport techniques and the physical, psychological and social implications of athletic experiences will be covered. Offered Occasionally.

ESS 258 Cr.3
**Teaching Activities I**
An activity-based course focused on skills and knowledge related to team, individual and leisure activities for children in grades 3-12. There will be two team, two individual, and two leisure activities selected from the following activities: Team (Soccer, Basketball, Ultimate Frisbee, Field Games, Speedball, Speedaway, Gator Ball); Individual (Badminton, Bowling); Leisure (Yoga, Pilates, Fitness Walking). Prerequisite: ESS 225. Offered Fall, Spring.

ESS/PSY/WGS 259 Cr.1-3
**Girls and Women in Sport**
This course is an introduction to the involvement of girls and women with sport. It includes a historical perspective on women's sport participation, cultural images of women athletes, teaching and coaching implications of current research, Title IX, and recreation/leisure approaches to physical activity. Course content may vary according to instructor. (Cross-listed with ESS/PSY/WGS; may only earn credit in one department.) Offered Occasionally.

ESS 261 Cr.2
**Educational Gymnastics**
This course prepares the student to safely plan and conduct an educational gymnastics curriculum through the study of jumping and landing, balance, hanging and swinging, and rolling and transfer of weight activities. Emphasis is on appropriate progressions, safety procedures, proper mechanics, and sequencing of skills, methodology, fitness and games within a gymnastics environment and error analysis on a variety of gymnastics apparatus. Course will include 4-6 clinical hours with school children. Lect. 1, Lab 2. Prerequisite: ESS 112. Offered Fall, Spring.

ESS 281 Cr.2
**Prevention and Care of Athletic Injuries**
Gives students who are interested in inter-scholastic athletics part of the necessary background to become a qualified coach or director. This course includes: common injuries occurring as a result of participating in athletics and physical education activities; procedures and techniques in the prevention and care of injuries; and the understanding of the coaches' and teachers' roles in the care of injuries. Prerequisite: ESS 201, ESS 205. Offered Fall, Spring.

ESS 286 Cr.2
**Athletic Training Clinical I**
A course designed to provide clinical experiences in an athletic training setting. Students will have the opportunity to gain competency in skills that have been previously instructed and practiced in classroom and laboratory settings. Prerequisite: ESS 181; admission to athletic training major. Offered Fall.

ESS 287 Cr.2
**Athletic Training Clinical II**
A course designed to provide clinical experiences in an athletic training setting. Students will have an opportunity to gain competency in upper extremity evaluation skills, and management of pathologies of the upper extremity, trunk/thorax and the head and neck that are common in athletics. Prerequisite: ESS 286. Offered Spring.

ESS 302 Cr.3
**Physiology of Exercise**
Applied physiology: a study of how normal physiological function (homeostasis) is altered, and subsequently restored, in response to various forms of stress (exercise and training). Lect. 2, Lab 2. Prerequisite: BIO 100 or BIO 105 or MIC 100; grade of "C" or better in ESS 206 or BIO 313. Offered Fall, Spring.

ESS 303 Cr.2-3
**Biomechanics**
Biomechanics emphasizes the investigation and application of mechanical principles to the study of human motion and the motion of sport objects. Students will learn systematic approaches for the qualitative and quantitative analysis of the human body as it engages in motor activities. Laboratory sessions are required for students that select the three-credit option. Prerequisite: grade of "C" or better in ESS 205 or BIO 312. Recommended: MTH 150, MTH 151, or MTH 207. Offered Fall, Spring.

ESS 309 Cr.2
**Strength Training Clinical**
A course designed to provide practical experience in supervising a strength center. Students will have the opportunity to: instruct proper lifting technique; assist with and conduct assessments of strength, power and speed; learn how to maintain a strength facility; practice maintaining a strength facility; and assist with the design of lifting and conditioning programs. Lab 4. Prerequisite: ESS 368. Pass/Fail grading. Offered Fall, Spring.

ESS 310 Cr.2
**Teaching Outdoor Activities in Physical Ed**
This course will focus on teaching physical educators how to implement outdoor activities as part of the K-12 physical education curriculum. Included are such activities as hiking, backpacking, climbing, skiing, primitive camping, canoeing, snowshoeing, and biking. Common pedagogical knowledge and skills which cut across activities will be emphasized. Students will participate in the scope and sequence for skill development in at least two outdoor activities, and plan the scope and sequence for one additional outdoor activity. Lect. 4, Lab 1. Prerequisite: ESS 121, ESS 225; an exercise sports science major. Offered Fall, Spring.
ESS 320 Cr.3
Field Experience in Exercise Science or Sport Management
Practical experience in an exercise science and/or sports management setting or formal observation in a clinical setting. Experiences provided may include: sports event facilitation, budget preparation and monitoring, preparing contracts, checking eligibility, marketing and promotion, exercise leadership, assisting with fitness assessment and exercise prescription. Repeatable for credit - maximum 6. Prerequisite: acceptance into the exercise sports science - exercise science or sport management emphasis. Offered Fall, Spring, Summer.

ESS 321 Cr.2
Evaluation in Health Education and Physical Education
An introductory course in the meaning and application of measurement, tests, elementary statistical procedures and evaluation in physical education. Prerequisite: admission into teacher education. Offered Occasionally.

ESS 322 Cr.4
Elementary Methods, Assessment and Clinical in Physical Education
A junior level pedagogy course focused on developmentally appropriate methodology and assessment for the elementary physical education setting. Emphasis is placed on developing the capability to apply an understanding of planning for learning for the K-5 student. This course includes completion of a clinical experience in the elementary physical education setting. Lect. 3, Lab 2. Prerequisite: ESS 207 or concurrent enrollment; admission to the physical education teacher education program. Offered Fall, Spring.

ESS 323 Cr.3
Nutrition and Sport
Basic principles of human nutrition and nutritional needs for athletes and/or active populations. Issues discussed include ergogenic aids, carbohydrate loading/manipulation, eating disorders, and protein supplementation. Practical application will include dietary analysis and composition for people in various activities and conditions. Prerequisite: ESS 302 or NUT 200. Offered Fall, Spring.

ESS 324 Cr.1-3
Independent Study in Exercise and Sport Science
Provides students with supervised study in a specific area of interest in their exercise and sport science academic program. Repeatable for credit - maximum nine credits or three courses. Consent of department. Offered Fall, Winter, Spring, Summer.

ESS 325 Cr.3
Secondary Methods, Assessment and Clinical in Physical Education
A junior level pedagogy course focused on developmentally appropriate methodology and assessment for the secondary physical education setting. Emphasis is placed on developing the capability to apply an understanding of planning for learning for the 6-12 student. This course includes completion of a clinical experience in the secondary physical education setting. Lect. 3, Lab 2. Prerequisite: ESS 207; admission to the physical education teacher education program. Offered Fall, Spring.

ESS 326 Cr.2
Clinical Experience in Teaching Physical Education II
Students will practice teaching with close supervision of both the university instructor and the elementary/middle school cooperating teacher. The students will learn to use objective analysis instruments, videotaping, computer analysis techniques, and intervention processes. Students will have a minimum of 48 hours of public school clinical experiences. Prerequisite: admission into teacher education. Must be taken concurrently with ESS 321, ESS 322, ESS 325. Offered Occasionally.

ESS 327 Cr.2
Physical Education for the Elementary Classroom Teacher
Students participate in lecture and laboratory experiences to gain and practice skills in teaching elementary physical education. Applied teaching experience occurs at a local school allowing for implementation of appropriate skill progression, movement education management and a variety of curriculum options. Lect. 1, Lab 2. Prerequisite: EFN 210, CI 211; elementary education major. Offered Fall, Spring.

ESS 344 Cr.3
Introduction to Fitness Assessment
The purpose of this course is to review the clinical and diagnostic approach to cardiovascular anatomy, physiology and pathophysiology, and to provide basic knowledge in evaluation, methodology and interpretation of fitness testing. Areas of emphasis will be population characteristics, participant screening and referral process, alternatives of fitness assessment and exercise prescription. Lect. 2, Lab 2. Prerequisite: ESS 302; admission to exercise sports science - fitness emphasis. Offered Fall, Spring.

ESS 348 Cr.2
Theory of Coaching
Theory of coaching specific competitive sports. Coaching and directing youth, club, inter-scholastic and intercollegiate sports programs. Theory of coaching the following sports will be offered on a rotational basis: baseball/softball, basketball, football, gymnastics, soccer, swimming and diving, tennis, track and field/cross country, volleyball, and wrestling. A competitive background in and fundamental knowledge of the sport is HIGHLY recommended. Repeatable for credit - maximum four. Prerequisite: junior standing. Offered Fall, Spring.

ESS 349/549 Cr.2
Psychology of Coaching Competitive Athletics
Aids the prospective coach to better understand the application of psychological concepts to the coaching of sports. Emphasis will be on the methods of improving the performance of athletes through a better understanding of the factors affecting teaching and learning in athletics. Prerequisite: junior standing. Offered Fall, Spring.

ESS 355 Cr.3
Methods of Exercise Leadership
This course will cover the methodology of developing, teaching and leading sound exercise workouts for all levels of physiological fitness and for individual needs. Lect. 2, Lab 2. Prerequisite: ESS 302, ESS 303; admission to exercise sports science - fitness emphasis. Offered Fall, Spring.

ESS 367 Cr.3
Teaching Activities II
An activity-based course focused on movement skills as they relate to children in grades 3-12 within team, individual and leisure activities. The main purpose is for the students to develop the knowledge of the basic skills and progressions related to each activity. There will be two team, two individual, and two leisure activities selected from, but not limited to, the following activities: team (softball, volleyball, team handball, flag football, ultimate frisbee), individual (golf, tennis), leisure (archery, cardio kickboxing, inline skating). Lab 6. Prerequisite: admission to physical education teacher education program. Offered Fall, Spring.
ESS 368 Cr.3
Strength Training Techniques and Programs
This course is designed to provide the student with a working knowledge of proper lifting and spotting technique, an understanding of the various types of equipment and modes of strength training, basic program design and programming for special populations, and weight training for competition. Students will be taught to design and individualize a strength training program. Prerequisite: ESS 205 and ESS 206, or BIO 312 and BIO 313. ESS 100 - Strength Training recommended. Offered Fall, Spring.

ESS 373 Cr.3
Media and Public Relations in Sport Management
This course is designed to acquaint students with media and public relations practices that are incorporated in sport management. Included in the class are the responsibilities and issues that sport managers face on a daily basis such as PR management, crisis management, interviews and media conferences, legal and ethical dilemmas, and the production of sport media relations tools. The course emphasizes practical application of sport media and PR. Prerequisite: admission to exercise sports science plan - sport management emphasis. Offered Fall, Spring.

ESS 378 Cr.4
Musculoskeletal Assessment of the Lower Body
This course is designed for individuals seeking certification from the Board of Certification (BOC). Content addresses observation and evaluation techniques for musculoskeletal injuries and conditions of the lower body. Students must integrate anatomical structures and physiological principles to provide a basis for critical decision making in an injury management environment. Lect. 3, Lab 2. Prerequisite: ESS 286, ESS 379. Offered Spring.

ESS 379 Cr.4
Musculoskeletal Assessment of the Upper Body
This course is designed for individuals seeking certification from the Board of Certification (BOC). Content addresses observation and evaluation techniques for musculoskeletal injuries and conditions of the upper body. Students must integrate anatomical structures and physiological principles to provide a basis for critical decision making in an injury management environment. Lect. 3, Lab 2. Prerequisite: ESS 181; admission to athletic training major. Offered Fall.

ESS 383 Cr.3
Clinical Pathology for Exercise Science
Course designed to introduce students to the pathology of injuries and illnesses of the body systems. Topics included are categorized into physiological responses to trauma, disease, inflammatory responses and autoimmune/immunodeficiency responses to various diseases. Prerequisite: admission to athletic training major or ESS-exercise science emphasis. Offered Fall, Spring, Summer.

ESS 386 Cr.2
Athletic Training Clinical III
A course designed to provide clinical experience in an athletic training setting. Students will have an opportunity to gain competency in lower extremity evaluation skills, and management of pathologies of the lower extremity that are common in athletics. Prerequisite: ESS 287. Offered Fall.

ESS 387 Cr.2
Athletic Training Clinical IV
A course designed to provide clinical experience in an athletic training setting. Students will have an opportunity to gain competency in utilization of therapeutic modalities for the management of pathologies that are common in athletics. Prerequisite: ESS 386. Offered Spring.

ESS 400 Cr.3
Pharmacology in Athletic Training
This course covers the basic pharmacokinetic principles including absorption, biotransformation, and elimination. Pharmaceutical agents covered include analgesic agents, steroidal and non-steroidal anti-inflammatory drugs, local anesthetics, psychotropic drugs, antibiotic agents, antihypertensive and anti-arrhythmic pharmaceuticals, cardio-active drugs, diuretic medications, anti-asthmatic agents, and medications commonly used in the treatment of diabetes mellitus. Prescription and nonprescription agents as well as indications, contraindications, and potential interactions of pharmaceuticals will be covered. Prerequisite: admission to the athletic training major. Offered Spring.

ESS 401 Cr.2
Teaching Dance
Theory and methods of teaching age-appropriate dance activities for students in elementary and secondary physical education. Emphasis will be on skill progressions, teaching models and methods, and assessment. Lect. 1, Lab 2. Prerequisite: admission to the physical education teacher education program. Offered Fall, Spring.

ESS 402 Cr.1
Advanced Activities
A program of opportunities to enhance advanced teaching knowledge and participation in a self-selected physical activity. The course will go beyond the knowledge, skills and strategies that may be offered at the introductory level. These opportunities may include, but not be limited to, participation in advanced activity classes offered both on and off campus, participation in advanced certification programs, intern teaching experiences in the student’s area of expertise. Repeatable for credit in different activities - maximum three. Only one credit counts toward the physical education teacher education major. Prerequisite: ESS 321, ESS 322, ESS 325, ESS 326. Pass/Fail grading.

ESS 403 Cr.2
Advanced Strength Training Applications and Techniques
This course presents advanced strength training and conditioning theory and practice. Designed primarily for students specializing in strength and conditioning, the course explores advanced periodization models and their utilization, mastery and analysis of Olympic lifts, plyometric programming, ergogenic aids (identification, legal implications, nutritional alternatives,), facility design, and special population needs. Prerequisite: ESS 302, ESS 303, ESS 368. Offered Fall.

ESS 407 Cr.3
Sport Management and Society
This course is designed to provide the foundation for an understanding of the ethical, social, cultural, and psychological aspects for the operation of programs in athletics, sports, physical education and fitness. The student will be able to identify current social, cultural, and ethical issues and problems and the potential solutions to these problems. Prerequisite: admission to exercise sports science - sport management emphasis; junior standing. Offered Fall, Spring.

ESS 409 Cr.2
Strength Training Clinical III
A course designed to provide practical experience in management of a strength center. Students will have the opportunity to instruct proper lifting technique, assess strength, power and speed, maintain the strength facility, design lifting and conditioning programs, and assist with the supervision and instruction of junior staff members. Lab 4. Prerequisite: ESS 302, ESS 303, ESS 309, ESS 368. Offered Fall, Spring.
ESS 410 Cr.2
Legal Implications of Sport and Activity
This course addresses the legal aspects for the operation and administration of sports programs, competitive athletic programs, and community and commercial fitness programs. Prerequisite: admission to exercise sports science - fitness or sport management emphasis. Offered Fall, Spring.

ESS 411 Cr.2
Strength and Conditioning Educator Training
This course is a capstone experience for students specializing in strength and conditioning. Content includes exercise physiology and biomechanics, nutrition and ergogenic aids, testing and evaluation, exercise techniques, program design, and organization and administration of a strength and conditioning facility. Prerequisite: ESS 403 or concurrent enrollment. Offered Spring.

ESS 412 Cr.3
Issues and Philosophies in Teaching Physical Education
This course is designed to provide student teachers with an opportunity for communication and discussed focused on student teaching experiences. Course emphasis is placed on development of teaching competencies as outlined by the beginning teacher standards. Taken concurrently with student teaching. Prerequisite: completion of all course work required to student teach; successful completion of PRAXIS II exam. Pass/Fail grading. Offered Fall, Spring.

ESS 421 Cr.3
Sport Operations Management/Event and Venue Management
This course is designed to introduce students to principles and procedures for preparing, planning, operating, managing, and evaluating event and venue in sports settings. Students will gain a greater understanding of event and venue management and the total operation of sports organizations. Prerequisite: admission to exercise sports science - sport management emphasis; junior standing. Offered Fall, Spring.

ESS 422 Cr.3
Teaching Healthy Active Lifestyles
This course provides the pre-service physical education student with the pedagogical skills necessary to promote, advocate for, and empower K-12 students to become lifelong learners who value physical activity. This course will focus on health related fitness concepts and applications related to exercise prescription, nutritional planning, exercise adherence, and fitness skill development for students in the K-12 setting. Physical education majors will also explore curricular and instructional models that promote and foster health and fitness applications to K-12 students. Prerequisite: ESS 302 or concurrent enrollment; admission to the physical education teacher education program. Offered Fall, Spring.

ESS 423 Cr.2
Individual and Social Factors in Physical Education
This course focuses on contemporary and historical perspectives on socio-cultural and philosophical issues that influence schooling and physical education teacher preparation, including race, gender, sexuality, ability, disability, obesity and culturally responsive teaching. Prerequisite: admission to an exercise sports science major; junior standing. Offered Fall, Spring.

ESS 424 Cr.4
Curriculum Development and Administration of Elementary/Secondary Physical Education Programs
Senior level experience designed to provide an understanding of the curriculum development process through application. Selection of activities based on national and state standards, community resources, growth and developmental characteristics and facilities. Includes content and experiences related to PK-12 program development including scope and sequence, program evaluation, scheduling, advocacy activity and co-curricular/outside school activities. The administrative component will include principles related to gender equity, risk management, budgeting, collaboration, and program accountability. Prerequisite: admission to the physical education teacher education program; senior standing. Offered Fall, Spring.

ESS 430/530 Cr.3
Disability and Physical Activity Implications
The etiology and effects of select physical, sensory, intellectual and other developmental disabilities will be addressed. Content emphasizes movement implications and strategies to enhance physical activity behavior. Prerequisite: ESS 231 or RTH 326; junior standing. Students in the adapted physical education teaching minor or graduate program are given priority enrollment. Offered Fall, Summer.

ESS 431 Cr.1
Fitness Programming for Persons with Disabilities
Students learn techniques for health-related physical fitness assessment, exercise prescription, and activity adaptations. The focus is on hands-on clinical skill development in an evidence-based exercise program for individuals with disabilities. Students should take this course within two semesters after completion of ESS 430. Offered Fall, Spring, Summer.

ESS 432 Cr.3
Financial Aspects of Sport
This course is designed to study financial management principles including budget development, fundraising, and economic impact for use in the administration of sport and athletic programs. In addition, emphasis will be placed on sources of revenue and expense for sport organizations and their use in sport management. The student will understand why budget and finance in sport is a critical component of all sports related industries. Prerequisite: admission to exercise sports science - sport management emphasis; junior standing. Offered Fall, Spring.

ESS 435/535 Cr.1
Sports for Persons with Disabilities
This course addresses sports that have either been modified based on traditional sports or developed specifically for various physical, intellectual, and sensory disability groups. Content includes developmental sport models, disability sport organizations, fitness training, community advocacy and involvement, and infusion into physical education and interscholastic sports programs. Lect. 1, Lab 1. Prerequisite: ESS 231; junior standing. Priority enrollment will be given to students admitted to the adapted physical education teaching minor. Offered Spring, Summer.

ESS 436/536 Cr.3
Assessment and Program Evaluation in Adapted Physical Education
This course provides an introduction to appropriate instruments and testing strategies necessary for assessing the gross motor development and health-related physical fitness levels of persons with disabilities. Students learn how to administer, interpret, and use the results of motor assessments to develop individualized education program plans that are utilized in either adapted or general physical education programs for students with disabilities. Prerequisite: ESS 231; junior standing. Priority enrollment will be given to students admitted to the adapted physical education concentration. Offered Spring, Summer.
ESS 437/537 Cr.3  
Teaching and Service Delivery Models in Adapted Physical Education  
This course focuses on adapted physical education teaching strategies and service delivery models in PK-12 settings. Instructional programming and best practices in early childhood, elementary, middle/secondary, and transitional programs for students with disabilities in adapted physical education are covered. Emphasis is on collaboration among professional service providers such as special educators, regular physical educators, and related service personnel. (e.g., occupational, physical, and recreational therapists), as well as health and other community agency staff. School visits and practical teaching are included, along with guest presentations on related disciplines and program. Lect. 2, Lab 3. Prerequisite: admission to adapted physical education minor. Offered Fall, Spring.

ESS 439 Cr.3  
Teaching Methods and Internship in Adapted Physical Education  
Students are provided practical teaching and supervision opportunities to enhance their skills in planning, implementing, and evaluating adapted physical education programs for children and youth with a variety of disabilities. Emphasis is also placed on effective staff collaboration and consultation as well as teacher and program supervision. Participation in the motor development program laboratory is required. Lect. 2, Lab 3. Prerequisite: three courses from: ESS 233, ESS 430, ESS 436, ESS 437. Offered Fall, Spring.

ESS 440/540 Cr.2  
Aging and Physical Activity  
The course will explore why and how physical activity must change to meet the modifications that occur to the human body with aging. The physiological and psychological status of an aging population will be presented, along with suggestions to address the physical activity needs of this growing group. Practical experience in both on and off campus sites. Prerequisite: ESS 302; admission to exercise sports science major - fitness emphasis or have a declared emphasis in gerontology. Offered Fall, Spring.

ESS 443/543 Cr.3  
Fitness Across the Lifespan  
This course will explore why and how physical activity must change to meet the modifications that occur in the human body as it matures from childhood to older adulthood. Students will address the principles and procedures for designing physical fitness experiences for all ages. Lecture, practice, and field experiences are included. Prerequisite: ESS 302; ESS 303; admission to exercise sports science - exercise science emphasis or a declared emphasis in gerontology. Offered Fall, Spring.

ESS 445/545 Cr.3  
Facility Management in Sport  
A study of planning techniques concerning facility development and maintenance for schools, athletic clubs, fitness centers and professional sport organizations. Prerequisite: admission to exercise sports science major - sport management emphasis or sport management graduate program: junior standing. Offered Fall, Spring, Summer.

ESS 446 Cr.3  
Current Research and Trends in Exercise Science  
A lecture/discussion-based course in which relevant and current research and industry trends are thoroughly reviewed and analyzed. Students are encouraged to take this course near the end of their careers as undergraduate students in the exercise sports science major-exercise science fitness or pre-professional emphases. Prerequisite: admitted to exercise sports science major - exercise science fitness or pre-professional emphasis. Offered Fall, Spring.

ESS 447 Cr.3  
Administration in Fitness and Sport  
The course will cover principles of administrative theory and practice in the fitness and sport industry, including general administrative functions, public relations, personnel, budget and finance, facility management, and evaluation techniques. Prerequisite: admission to exercise sports science major - fitness or sport management emphasis. Offered Fall, Spring.

ESS 448 Cr.3  
Promotion and Development of Fitness and Sport Programs  
This course will provide understanding of and skill in the promotion process as it relates to advertising and public relations activities for the operation of programs in sport, physical education and fitness. Primary focus will be on the application of promotion principles to specific sport scenarios. Prerequisite: MKT 309, admission to exercise sports science major - fitness or sport management emphasis. Offered Fall, Spring.

ESS 449 Cr.1  
Seminar in Fitness/Sports Management  
An in-depth orientation to the required senior internship experience. Required course to be taken one semester prior to internship. Prerequisite: GPA of 2.75 (cumulative and major); admission to the exercise sports science major - fitness or sport management emphasis; senior standing. Offered Fall, Spring.

ESS 450 Cr.8-12  
Exercise and Sport Science Internship  
The internship is designed to be a terminal experience for students majoring in fitness or sport management (12 credits) emphases and athletic training (eight credits) with an intensive supervised practical work experience. Prerequisite: fitness, athletic training, and sport management majors: all course work for the appropriate major must be completed and a minimum cumulative and major GPA of 2.75. Athletic training majors must complete ESS 484. Pass/Fail grading. Offered Fall, Spring, Summer.

ESS 451 Cr.2-3  
Pacticum in Athletic Coaching  
The practicum in athletic coaching is designed to be a terminal experience for students completing the concentration in Coaching Competitive Athletics. Students will be placed with department approved university or public/private school athletic teams to obtain practical coaching experience in the sport(s) of their choice. The practicum experience will be supervised by coaches of the assigned team and the director of the concentration in coaching competitive athletics. Repeatable for credit in different sport(s) - maximum six. Prerequisite: completion of requirements in coaching concentration with the exception of ESS 368 and elective credits. Pass/Fail grading. Offered Fall, Spring.

ESS 452/552 Cr.2  
7 Habits of Highly Effective People  
An in depth study of lifestyle principles as identified by Stephen Covey in the book "7 Habits of Highly Effective People." Students will explore how to apply these principles as teachers and coaches personally and with peers, students and athletes. Prerequisite: senior standing. Offered Occasionally.

ESS 460/560 Cr.1-3  
Exercise Science Clinical Forum  
Visiting lecturers as well as university professors will address various topics related to exercise science. Repeatable for credit. Prerequisite: junior standing. Offered Occasionally.
Courses

+FIN 207 Cr.3

Personal Finance
A survey course covering personal financial issues; topics include goal setting, budgeting, major purchases, loan provisions, taxation, insurance coverages, investment opportunities (including stocks, bonds, and mutual funds) and retirement planning. Open to students in all colleges. Offered Fall, Spring.

FIN 355 Cr.3

Principles of Financial Management
Introduction to financial management of the firm. Topics include: relationship of the finance function with other functional areas of the firm, use of financial statements as measures of corporate performance and for financial forecasting, working capital management, time value of money and its use in the valuation of cash flows, security evaluation, capital budgeting, capital structure, financial intermediaries and investment banking, long-term debt, preferred and common stock, and the effect of these financial decisions on dividend policies. Prerequisite: ECO 110, ECO 120; ACC 222; admission to business. Offered Fall, Winter, Spring, Summer.

FIN 360 Cr.3

Principles of Insurance
A survey of insurance and risk management concepts, the insurance industry and common insurance contracts. Topics include: types of insurers, functions of insurers, legal principles of insurance, and analysis of property, liability, life and health contracts. Special emphasis will be placed on personal insurance for the home, automobile, life and health. Prerequisite: ACC 221. Offered Fall, Spring.

FIN 361 Cr.3

Life Insurance
A study of life insurance and its relationship to financial planning. Topics covered are the determination of financial needs for survivors resulting from premature death of a family member, concepts of life insurance and annuities including quantitative foundations, policy provisions, comparisons of alternate products, and taxation issues. Prerequisite: FIN 355, FIN 360; admission to business. Offered Occasionally.

FIN 362 Cr.3

Commercial Property/Liability Insurance and Risk Management
Risk management and insurance for the corporate entity. Topics include coverages for direct and indirect property, general liability, workers’ compensation, fidelity, crime, and boiler and machinery, property valuation, insurance surveys, and lease analysis. Prerequisite: FIN 355, FIN 360; admission to business. Offered Occasionally.

FIN 370 Cr.3

Corporation Finance
Comprehensive study of current theories concerning the valuation of the firm and its capital structure. Topics emphasized are risk analysis, capital structure, dividend theories, cost of capital, capital budgeting and management of working capital. Prerequisite: FIN 355; admission to business. Offered Fall, Spring.

FIN 380 Cr.3

Principles of Investment
The study of investment instruments. Topics include: valuation of common and preferred stocks, bonds, options, futures contracts, real estate, and several other securities and commodities. The risk associated with each form of investment, construction and management of investment portfolios, investment databases, and current trends in investments are studied. Prerequisite: FIN 355; admission to business. Offered Fall, Spring.

Finance (FIN) - Courses

+ next to a course number indicates a general education course
FIN 390 Cr.3
Money and Capital Markets
Examination of the factors influencing the level and structure of interest rates. Includes the processes, institutions, and public policy implications of markets for short-term and long-term debt instruments, the stock market, and current trends in capital markets. Prerequisite: FIN 355; admission to business. Offered Fall, Spring.

FIN 400 Cr.1-3
Finance Forum
Emphasis will be on the examination and study of current financial issues. Topics will vary by semester. Departmental option for pass/fail or letter grade. Repeatable for credit - maximum six. Prerequisite: junior standing; admission to business. Pass/Fail grading. Offered Occasionally.

FIN 407 Cr.3
Advanced Financial Planning
An overview of the financial planning process, including an introduction to the technical and intuitive aspects of the primary components in a financial plan. Financial and personal data are integrated to develop a comprehensive financial model including a variety of components. The components may include balance sheet and cash flow statements, retirement planning, investing strategies, insurance needs, taxes, and estate planning. Prerequisite: FIN 355; senior standing. Offered Fall.

FIN 408 Cr.3
Retirement Planning
An overview of retirement planning is provided, presenting the primary differences between pension, profit sharing, and non-qualified retirement plans. Common retirement plans are reviewed in more detail, including eligibility, vesting, contribution limits, coverage, and distributions. The course is designed for those entering the financial planning or benefits professions. The course provides substantive content in preparation for a variety of financial planning or retirement planning certifications including the Certified Retirement Counselor Program or the retirement planning component of the Certified Financial Planner program. Prerequisite: FIN 355; senior standing; admission to business. Offered Spring.

FIN 410 Cr.3
Management of Financial Institutions
The management of commercial banks and other deposit-type financial institutions. Emphasis is placed on the environment in which financial institutions operate, its changing nature, and managerial decision making within that environment. Specific topics include loan and investment policies, asset/liability management, management of investment risk, and regulation of financial institutions. Prerequisite: FIN 355; senior standing; admission to business. Offered Spring.

FIN 426/526 Cr.3
Real Estate Finance
The contractual nature and legal implications of the instruments used in financing real estate. The structure and operation of the primary and secondary mortgage markets; instruments, techniques, and strategies in financing real property investments. Prerequisite: FIN 456; junior standing; admission to business. Offered Occasionally.

FIN 427 Cr.3
Real Estate Appraisal
Development of the process of value determination for real properties in the context of a market setting. Development of the analytical tools to be used in implementing the valuation process. Development of the complex interactions among the site, the neighborhood, the community, and the region in value determination. Prerequisite: FIN 456; admission to business. Offered Occasionally.

FIN 430/530 Cr.3
Financial Planning and Strategy
Long-term planning as it relates to special problems of acquiring funds and selecting and deploying assets. Emphasis is placed on forecasting long-term funds requirements, and the suitability of specific financing vehicles for particular needs. Prerequisite: FIN 370; junior standing; admission to business. Offered Occasionally.

FIN 437 Cr.3
Financial Modeling
Application of financial theories and models using spreadsheets to make financial decisions. Focus on utilizing existing and creating new financial spreadsheet functions, sensitivity analysis, and scenario analysis. Prerequisite: FIN 355; admission to business. Offered Spring.

FIN 440/540 Cr.3
Multinational Financial Management
The international financial system and the application of basic principles of business finance in an international context. Topics include: the finance function in the multinational firm, foreign exchange markets, cost of capital, and capital expenditure analysis in the multinational firm. International accounting and reporting procedures are reviewed. Prerequisite: FIN 355; junior standing; admission to business. Offered Spring.

FIN 447/547 Cr.3
Advanced Financial Analysis
Offers the students the opportunity for advanced study of topics related to (1) business ethics and professional standards, (2) investment tools, (3) asset valuation, and (4) portfolio management. Students will learn how to effectively analyze financial statements, apply statistical models, and evaluate both international and derivative securities. Completion of this course will also assist students in preparing for the Level I exam of the Chartered Financial Analyst (CFA) program. Department option for pass/fail or letter grade. Prerequisite: FIN 355, FIN 370, FIN 380; finance major; senior standing. Consent of department. Offered Spring.

FIN 450 Cr.1-6
College of Business Administration Internship
The internship program as conceived and implemented is designed to provide an opportunity for students in the College of Business Administration at the University of Wisconsin-La Crosse to participate in an approved program with cooperating business, governmental, or civic organization for usually 15 weeks of their undergraduate work. For additional information, see internship description in the College of Business Administration catalog section. Repeatable for credit - maximum 15. Prerequisite: cumulative GPA of at least 2.50; ACC 221, ACC 222; BUS 205, BUS 230; ECO 110, ECO 120; FIN 355; IS 220; MGT 308; MKT 309; admission to business. Pass/Fail grading. Offered Fall, Winter, Spring, Summer.

FIN 456/556 Cr.3
Real Estate Principles
Survey of real estate principles and practices, the economic environment and valuation. Topics include: nature of real property; organization and structure of real-estate markets; alternative land uses; financing and valuation of real estate; and the legal environment. Prerequisite: FIN 355; junior standing; admission to business. Offered Occasionally.

FIN 460 Cr.3
Seminar in Risk and Insurance
A seminar course focusing on the current problems and issues of liability, life and health insurance. Financial and insurance theory are used to assess proposed solutions. Broad topics include insurance company operations; problems of ratemaking, underwriting and regulation; confidentiality of life insurance applications; and problems of financing health care. Prerequisite: FIN 360, FIN 370; FIN 361 or FIN 362 or FIN 465 or ECO 471; admission to business. Offered Occasionally.
FIN 465/565 Cr.3
Health Care Financing
A broad micro and macro treatment of the health care financing from the insurer, consumer and institutional viewpoints. Topics include: reimbursement mechanisms, planning, capital allocation and organizational aspects of health care financing function. Prerequisite: FIN 355; junior standing; admission to business. Offered Occasionally.

FIN 474/574 Cr.3
Equity Valuation
This course presents the financial analysis industry standard models for determining the value of equity securities. Emphasis is placed on the calculations of cost of capital and equity value and the sensitivity analysis of the results. Students will be required to create and present a sell-side analyst report. Prerequisite: FIN 370, FIN 380; junior standing. Offered Fall.

FIN 475/575 Cr.3
Investment Analysis and Portfolio Management
An in-depth investigation of modern concepts of asset ownership, risks and the reduction of risk through portfolio construction. An efficient markets approach to contemporary capital market and portfolio theory with applications to investment management. Prerequisite: FIN 380; junior standing; admission to business. Offered Occasionally.

FIN 477/577 Cr.3
International Investments
The international political, economic and legal environment in which investment decisions are made. An evaluation of security valuation theory and practice in the context of international money and capital markets. Topics include the motives for international investment, exchange risk, foreign money and capital market instruments and their markets, and construction and management of portfolios. Prerequisite: FIN 380; junior standing; admission to business. Offered Spring.

FIN 480/580 Cr.3
Financial Management and Control
Focuses on the roles and responsibilities of the controller and treasurer in today’s business and economic environment. From a controller’s/treasurer’s perspective, the course content includes: functions, organization, characteristics, standards of ethical conduct, financial reporting, internal controls/operations analysis, cost/management and professional development. Prerequisite: FIN 370 or ACC 322; ECO 301 or ECO 305; senior standing; admission to business. Offered Occasionally.

FIN 485 Cr.3
Problems and Cases in Finance
Application of concepts and techniques to the solution of financial problems in a variety of areas using the case method and computer simulation games. Topic areas include corporation finance, security analysis and investment management, and commercial banking. Prerequisite: FIN 370, FIN 380; admission to business. Offered Fall, Spring.

FIN 499 Cr.1-3
Independent Study
Individual reading or research under the guidance of a staff member. Open to selected, advanced students who have excellent records in the department. Registration with the consent of the student’s regular adviser, the instructor and the department chairperson. Approval form available in department office. Form must be completed prior to registration. Repeatable for credit - maximum six. Prerequisite: admission to business. Consent of instructor. Pass/Fail grading. Offered Occasionally.

French (FRE) - Courses
+ next to a course number indicates a general education course

Courses
FRE 101 Cr.3
Elementary French I
The first of two introductory courses in French for students with no knowledge of French, focused on developing the four communicative skills: listening, speaking, writing, and reading. Introduction to contemporary Francophone cultures through a variety of topics from everyday life (family, shopping) to the arts (cinema, literature). Offered Fall, Spring.

FRE 102 Cr.3
Elementary French II
The second introductory courses in French emphasizes the development of practical communication skills using an interactive learning approach and integrates cultures from the Francophone world in language learning to provide students with basic survival skills in a French-speaking country. Prerequisite: FRE 101 or placement based on UW System Placement Test scores. Offered Fall, Spring.

FRE 201 Cr.3
Intermediate French I
The first of two intermediate-level French courses which provides a review of basic structures while expanding on grammatical structures and vocabulary to allow students to express themselves in meaningful ways both orally and in writing. Cultural competence is integrated in language learning in an interactive manner. Prerequisite: FRE 102 or placement based on UW System Placement Test scores. Offered Fall, Spring.

FRE 202 Cr.3
Intermediate French II
The second of two intermediate-level French courses which provides a review of basic structures while expanding on grammatical structures and vocabulary to allow students to express viewpoints and opinions on a variety of topics from visual and cultural texts. Prerequisite: FRE 201 or placement based on UW System Placement Test scores. Offered Fall, Spring.

FRE 205 Cr.3
France and the Francophone World
This course offers both historical and contemporary perspectives on France and its relationship to the Francophone world. Students will examine French history and colonialism and their impact on such regions/countries as Quebec, Martinique, Guadeloupe, Haiti, Senegal, Tahiti, and the Maghreb (North Africa). This course will also explore the multiple identities (based on ethnicity, race, gender and sexual orientation) that continue to “disrupt” the notion of a collective French consciousness as it persists today. These include North-African and Russian immigrants, Jews, women, gays and lesbians. Taught in English. Offered Spring.

FRE 300 Cr.3
Visual Encounters
This course introduces students to a variety of art and technology-related topics that define French culture today while practicing grammatical structures required to narrate and describe. Analysis of visual artifacts and development of writing skills will take place in contexts such as regional cultures and traditions, culinary arts, cinema, music, art festivals, popular culture, artistic genres, and new technologies. Prerequisite: FRE 202 or equivalent. Offered Fall.
FRE 301 Cr.3
Sound, Speech, and Proficiency
This course first aims to improve students' pronunciation by providing an introduction to the principles of French phonetics and the study of stress, rhythm, and intonation. The course is designed to develop oral interactions through a pragmatic approach to language as students identify and practice different speech acts in their sociocultural contexts, applying interpersonal, interpretive, and presentational means of communication as defined by the ACTFL guidelines to achieve oral proficiency. Prerequisite: FRE 202 or equivalent. Offered Spring.

FRE 303 Cr.3
Advanced French I
Development of all French language skills with emphasis on reading and writing. Prerequisite: FRE 202. Offered Fall.

FRE 304 Cr.3
Advanced French II
Development of all French language skills with emphasis on listening and speaking. Prerequisite: FRE 303. Offered Spring.

FRE 305 Cr.3
Exploring the Story
This course introduces students to a variety of narrative structures in their cultural context. Students will increase their vocabulary, reinforce reading strategies, interpret cultural signifiers, and develop critical thinking skills as they confront the printed word in comics, short stories, fairy-tales, fables, poems, or newspaper articles. Prerequisite: FRE 300 or FRE 301. Offered Fall - Odd Numbered Years.

FRE 307 Cr.3
French for Professional Communication
A course designed to prepare students to communicate effectively in professional contexts. It addresses written and oral conventions in business and other professional settings, determines /compares professional expectations across Francophone and Anglophone cultures, and prepares for all aspects of the job search for a company dealing with Francophone professionals, with a focus on Canadian and European exchanges. Prerequisite: FRE 300 or FRE 301. Offered Fall - Odd Numbered Years.

FRE 317 Cr.3
Practice in Translation
This course is designed to introduce students to translation techniques, strategies, and theories, which students will apply to a variety of text genres. Focus is on translation from French to English so that students can compare and contrast the structures of French and English as they further their language acquisition. Prerequisite: FRE 300 or FRE 301. Offered Spring - Even Numbered Years.

FRE 320 Cr.3
Perspectives on French Civilization
From historical, chronological, thematic and literary perspectives, this course is designed to provide an examination of French Civilization from its origins to the French Revolution. Topics will include socio-political and cultural history, feudalism, absolutism, the Enlightenment, art, music, literature, and architecture. Prerequisite: FRE 300 or FRE 301. Offered Spring - Even Numbered Years.

FRE 321 Cr.3
Studies in Francophone Civilizations
This course is designed to provide an in-depth study of the civilization of French-speaking areas other than France. The individual topic will cover either the civilizations of several smaller areas or countries (i.e., Belgium, French Polynesia, Louisiana, etc.) or will deal with one major area (i.e., Quebec or Francophone Africa). The course is taught in French. Repeatable for credit - maximum six. Prerequisite: FRE 303 or concurrent enrollment. Offered Occasionally.

FRE 322 Cr.3
French without Borders
The course provides an overview of the Francophone world by defining the notions of "Francophonie" from a cultural, historical, political, and socio-linguistic point of view, with an emphasis on current events. Prerequisite: FRE 300 or FRE 301. Offered Spring - Odd Numbered Years.

FRE 325 Cr.3
Modern and Contemporary France
Through chronological, thematic and literary perspectives this course is designed to provide an examination of French Civilization from the French Revolution to the present. Topics may include socio-political and cultural history, the history of gender and sexuality, regional and national identity, anti-Semitism, colonialism, popular culture and mass media. Taught in French. Prerequisite: FRE 303 or its equivalent. Offered Occasionally.

FRE 326 Cr.1
Current Events
A weekly discussion of current events in the French-speaking world, based on readings, web-based news sources and television broadcasts in the target language. Students may take as many times as desired, but only three credits will count towards major/minor. Prerequisite: FRE 202 or equivalent. Offered Fall, Spring.

FRE 327 Cr.1
Grammar Review
A course designed to provide additional practice and review of French grammar and syntax. Students will engage in focused writing assignments that will allow them to master frequently occurring grammar structures (e.g., past tenses in narration, objective pronouns, relative pronouns.) Prerequisite: FRE 202. Offered Spring.

FRE 331 Cr.3
French Phonetics
An emphasis on French vocalic sounds, phonetic transcription, and practice in pronunciation. Prerequisite: FRE 202 or concurrent enrollment. Offered Spring.

FRE 351 Cr.3
French Cinema
The course introduces students to film analysis and visual literacy while presenting the development of French cinema in its historical and theoretical context. It also includes a study of film adaptations of various literary genres. Lect. 3, Lab. 1. Prerequisite: FRE 300 or FRE 301. Offered Spring - Odd Numbered Years.

FRE 395 Cr.3
French Literary Voices in English
This course is designed to be an exploration of Francophone literature using a thematic approach. Students will read, discuss, and write about great texts written in French and translated into English. Texts will include short stories and novels by writers from the classical French canon (e.g., Maupassant, Voltaire, Flaubert, Hugo) and those from the Global French world (e.g., Laye, Memmi, Begag, Béj). Prerequisite: sophomore standing. Offered Fall - Even Numbered Years.

FRE 403 Cr.3
Studies in French/Francophone Literature
A course designed to explore social, political, and cultural issues as related in literary works of authors of French-speaking countries. Specific topics vary by semester but may include "Voices from Quebec" or "Francophone Women Writers". Prerequisite: FRE 305 or FRE 351 or FRE 399. Offered Spring - Odd Numbered Years.
FRE 404 Cr.3
French Literature: Theatre
A course which examines major authors and literary trends in French theatre from the Middle Ages to the present day. Works read in entirety. Prerequisite: FRE 305 or equivalent. Offered Spring - Every Third Year.

FRE 405 Cr.3
French Literature: Prose
A course which examines major authors and literary trends in French prose works of all ages. Emphasis will be on the evaluation of the short story and novel with studies on the development of the narrator's role and the evolution of the description of a character. Prerequisite: FRE 305 or equivalent. Offered Spring - Every Third Year.

FRE 406 Cr.3
French Literature: Poetry
A course which examines major authors and literary trends in French poetry from the Middle Ages to the present day. Emphasis will be on the interrelationships of poetry, theatre, art, and music. Prerequisite: FRE 305 or equivalent. Offered Spring - Every Third Year.

FRE 407 Cr.3
African and Caribbean Literature in French
A survey of African and Caribbean literature of French expression, including works from colonial times to the present, in the context of the political and cultural history of the African diaspora. Prerequisite: FRE 305. Offered Spring - Every Third Year.

FRE 430 Cr.3
French Connections
This course is designed for students to explore connections between their French studies and other disciplines. Due to its Interdisciplinary nature and its seminar format, the course content is tailored to students' research paper topics, while focusing on the practice of more complex grammatical structures and academic writing conventions in French. Prerequisite: FRE 300, FRE 301, and FRE 307. Offered Fall.

FRE 450 Cr.1-4
National/International Intern Program
A course in French individually tailored to fit career needs: cultural awareness, technical vocabulary in French to prepare students who elect internship credits in other departments. French majors or minors or other students having the equivalency of FRE 202 may elect to take these credits off campus. Repeatable for credit - maximum four. Prerequisite: a declared major in department offering intern programs or a declared major in French. Offered Occasionally.

FRE 491 Cr.3
Films and Literature
Viewing and criticism of subtitled films and reading their literary sources in translation. Prerequisite: one course in literature from either the Modern Languages or English Department. Offered Occasionally.

FRE 495 Cr.2
Honors Seminar in French
An in-depth examination of a topic in French or Francophone literature or civilization concluding with a research paper and presentation to faculty and peers. Prerequisite: FRE 305; one 400-level literature or civilization course; admission to the Alvida Ahlstrom Honors Program. Offered Occasionally.

FRE 498/598 Cr.1-3
Independent Study
Fieldwork, research, individual projects in a specific area of French language civilization or literature. Repeatable for credit - maximum six. Prerequisite: two advanced french courses; junior standing. Offered Occasionally.

FRE 499/599 Cr.1-3
Independent Study
Fieldwork, research, individual projects in a specific area of French language, civilization or literature. Repeatable for credit - maximum six. Prerequisite: two advanced french courses; junior standing. Offered Occasionally.

Geography (GEO) - Courses

+ next to a course number indicates a general education course

Courses

+GEO 102 Cr.3
Maps and Society
This course introduces all aspects of maps and how they affect the individual in society. It examines the evolution of maps, the map as an art form, the map as a communication medium for spatial knowledge, the meaning of maps and their relationship to culture and society past and present, the influence of maps on an individual through mass media and the Internet, and the way maps reflect personal and societal points of view. It focuses on privacy and civil liberty issues of the individual in the age of digital information where maps and map databases can disclose the privacy of personal space. In addition, today's GIS maps (in planning, marketing, in hazard controls, etc.) embed substantial amounts of personal information that can affect personal security and how our lives are directly, indirectly, knowingly, and unknowingly influenced. Offered Fall, Spring.

+GEO 110 Cr.3
World Cultural Regions
This course provides an understanding of the global distribution of world cultures. The cultural, economic and natural patterns and their interrelationships are examined on a global and regional scale. The development and distribution of cultural regions within countries are included when appropriate. Offered Fall, Spring.

+GEO 200 Cr.3
Conservation of Global Environments
Introduction to natural resources, resource management, environmental and land use ethics, environmental impacts of resource utilization and strategies to resolve environmental conflicts. Course examines the relationships between society and the environment from the global to the local scale. Offered Fall, Spring.

+GEO 201 Cr.3
Geography of United States and Canada
Physical and cultural characteristics of United States and Canada. Changing patterns of land use and the accompanying economic and cultural development of the various regions. Offered Spring.

+GEO 202 Cr.3
Contemporary Global Issues
This course will offer a contemporary multi-disciplinary perspective regarding the major issues and trends confronting the global society as it enters the 21st century. Emphasis will be given to a critical review and assessment of the origin and present condition of the plethora of situations and problems affecting modern global society. The student will also learn to critically evaluate current and future events. The course will incorporate the views and approaches of the following disciplines: sociology/anthropology, economics, geography, political science, and history. (Cross-listed with ANT/ECO/GEO/HIS/POL/SOC 202; may only earn credit in one department.) Offered Fall, Spring.
GEO 204 Cr.3
Geography of Wisconsin
Geographic patterns in Wisconsin. Physiographic regions, climate, population distribution, resources and their use, agriculture, industry, transportation, and urban growth. Offered Fall - Odd Numbered Years.

GEO 208 Cr.3
Applications of Geographic Information Systems I
An introduction to applied aspects of Geographic Information Systems. GIS software, with an emphasis on ArcGIS, will be used to develop working proficiency with basic GIS procedures and applications. Topics include data input and output, forming queries, data overlay processes, and creating map layouts. Prerequisite: not open to geography majors. Offered Occasionally.

ESC/GEO 250 Cr.3
Maps and GIS
Students will acquire fundamental knowledge and learn key concepts underlying spatial data, different map types and uses, thematic symbolization and visualization, and spatial analytical techniques. They will learn how to critically assess and communicate knowledge concerning spatial environments. Students will also learn how to use GIS and Web mapping technologies. Lect. 2, Lab 2. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Fall, Spring.

ESC/GEO 270 Cr.1-3
Geographic Themes
Specifically selected topics or skills which may be designed for the interest of special groups will be offered with formalized instruction and methodology appropriate to geography and/or earth science. This course may be counted as an elective in the geography major or earth science minor at the discretion of the Geography/Earth Science Department. Prerequisite may be required at the discretion of the department. Repeatable for credit - maximum six. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

GEO 300 Cr.3
Population Geography
A systematic analysis of the populations of the world and the geographic factors influencing human existence. A study of the origin and distribution of populations and the cultural features with which they are associated. Offered Fall - Odd Numbered Years.

GEO 304 Cr.3
Geography of Europe
Geographic factors in the changing physical, political, cultural and economic patterns in Europe. Emphasis on Northwestern, central, and southern Europe and their importance in world affairs. Offered Fall - Odd Numbered Years.

GEO 306 Cr.3
Economic Geography
This course introduces students to the global economic patterns which have shaped and conditioned the world of the 1990s, and the salient economic geography models and approaches which help to explain such patterns. Elements emphasized include the evolution of social and economic organization; the globalization of economic activity since the late 1400s; the interconnectivity of development and underdevelopment; and the relationship between development and social environmental problems. Prerequisite: GEO 110 or ECO 110 or HIS 101 or ANT/ECO/GEO/HIS/POL/SOC 202. Offered Fall.

GEO 307 Cr.3
Political Geography
A real differentiation and analysis of relationships between geographic factors and political entities. This includes physical environment, organization of space, cultural influences, and economic capabilities. Offered Occasionally.

GEO 308 Cr.3
Applications of GIS II
Advanced exploration of geographic information systems tools and applications. GIS software, with an emphasis on ArcGIS, is used to develop advanced GIS skills. Topics include: working with coordinate systems, editing and managing relational databases, working with ArcGIS extensions, and GIS project management. Prerequisite: GEO 208. Not open to geography majors. Offered Spring.

GEO 309 Cr.3
Urban Geography
Geographical study of cities, their form, function, site and situation. Classification of cities, urban land use patterns, and the role of the city within its region. Offered Occasionally.

GEO 312 Cr.3
Geography of Africa
Cultural, physical and economic characteristics including the bases of problems in socio-economic development are investigated from a geographic perspective. Resources, regions, and world ties are studied. Offered Spring.

GEO 318 Cr.3
The Geography of Latin America & the Caribbean
The cultural and physical characteristics of Latin America and the Caribbean region are systematically examined and explained. This includes an examination of diverse physical and ‘built’ environments that encompass this region, from the borderlands of northern Mexico to the Tierra Del Fuego of the south; from the lush tropical environments of the Amazon, Jamaica, and Puerto Rico, to the Altiplano and arid regions of the west; from disparate lowlands to the startling mountain zones of the Andes. Indigenous civilizations which developed out of unique arrangements with these complex environments as well as those imposed and imported since 1500 will be explored in depth. Offered Fall.

GEO 328 Cr.3
Geography of East and Southeast Asia
The geography of China, Japan, the Koreas, and Mongolia; the geography of the 10 states of Southeast Asia, including Indonesia, Thailand, Vietnam, Philippines, and Burma. Contemporary geopolitical problems and prospects; East Asia and the world; primordial and historical factors contributing to identity and conflict. The course emphasizes human-cultural patterns, salient physical characteristics, and the relationship between these. Offered Spring - Even Numbered Years.

GEO 331 Cr.3
Geography of the Middle East, Central and South Asia
Cultural, physical and economic elements of this predominantly Islamic domain are examined from a geographic perspective for a better understanding of this region of the world. Cultural and socio-economic impact of these regions on other regions and cultures of the world, including their resources, are investigated. Offered Fall - Even Numbered Years.

ESC/GEO 345 Cr.3
Remote Sensing
Introduction to remote sensing, emphasizing satellite multispectral observations of the earth applied to such fields as agriculture, forestry, water resources, urban and regional planning, and environmental assessment. Upper Midwest and selected areas worldwide are explored with visual and digital image processing techniques. (Cross-listed with ESC/GEO, may only earn credit in one department.) Offered Fall.
ARC/ESC/GEO 347 Cr.3

**Geoarchaeology**

An applied course on the contribution of earth sciences to the interpretation of archaeological contexts. This course will consist of field, lab and lecture components. Emphasis is placed on the methods of geoarchaeology and the applications of selected earth science fields to archaeological problems. Field trips will be a required component of the course in order to complete field descriptions and sampling. Prerequisite: ARC 196 or ESC 222 or ESC/GEO 426 or ESC/GEO 430. (Cross-listed with ARC/ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 355 Cr.3

**Map Design and Geovisualization**

In this course students will learn about the process of making maps, how to acquire and appropriately manipulate spatial data, and how to design clear, compelling, and beautiful maps. In addition to the key theories underlying the cartographic discipline, students will learn technical skills to enhance their other research interests and make them far more competitive on the job market once they graduate. To that end, students will apply their newfound knowledge about map design using cutting edge software. Lect. 2, Lab 2. Prerequisite: GEO/ESC 250. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Fall, Spring.

ESC/GEO 385 Cr.3

**Introduction to Geographic Information System and Science**

An introduction to both theoretical and applied aspects of Geographic Information Systems (GIS). GIS software, with an emphasis on ArcGIS, will be used to explore geographic questions. Hands-on exercises pertaining to environmental science, natural resource management, business, and urban planning will be used to complement lecture material. Topics will include data organization, database structure, input and output, data quality, and geographic analysis of spatial and attribute data. Lect. 2, Lab 2. Prerequisite: GEO/ESC 250; MTH 145. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Fall, Spring.

ESC/GEO 390 Cr.3

**Geographic Field Methods**

Covers fundamental concepts of field methods as applied to physical, cultural, urban and environmental geography. Students will gain experience in sampling, field surveying, GPS mapping, and observational data collection techniques. Includes reconnaissance and detailed surveys using current methods, GPS and field equipment; and practical integration of field data into a geographic information system. Lect. 2, Lab. 2. Prerequisite: ESC/GEO 385 or concurrent enrollment. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Fall.

ESC/GEO 401 Cr.1

**Focus on Geography: A Capstone Course**

A seminar-style course designed to prepare students for graduate school and/or a career in geography/earth science. This course will cover the basic concepts of interviewing, graduate school application, oral presentation of a topic, and the writing of professional abstracts. The development of the field will be studied by the reading and discussion of landmark articles in geography and earth science. Students are expected to actively participate in the assessment of their major. Prerequisite: senior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Pass/Fail grading. Offered Fall.

ECO/GEO/HIS/POL/PSY/SOC 408 Cr.4

**Teaching and Learning History & Social Studies in the Secondary School**

This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in history and social sciences. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school and learn how to design learning experiences to support all learners. Prerequisite: EDS 351. (Cross-listed with ECO/GEO/HIS/POL/PSY/SOC; may only earn credit in one department.) Offered Fall, Spring.

ESC/GEO 422/522 Cr.3

**Meteorology and Weather Forecasting**

Various principles and laws which govern the behavior of the atmosphere are investigated. Laws of gases and radiation, energy exchange between the earth and the atmosphere, laws of motion, various forces governing atmospheric motion, atmospheric moisture and psychrometry, condensation, precipitable water and precipitation, atmospheric stability/instability, thermodynamic characteristics of the atmosphere, vorticity, and synoptic meteorology are discussed. Surface and upper-air charts, synoptic patterns, thermodynamic charts, radar and satellite images, and weather patterns are analyzed for weather forecasting. Prerequisite: ESC 101 or equivalent; junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Spring.

ESC/GEO 425/525 Cr.3

**Biogeography**

A systematic analysis of the geographic distribution of organisms from historical, ecological and regional perspectives. Emphasis is placed on the principles and the methods of biogeography. Special reference is made to bio-geographic regions, the distribution of organisms in space and time, and ecological biogeography. Prerequisite: ESC 221; junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Alternate Years.

ESC/GEO 426/526 Cr.4

**Soil Morphology and Genesis**

A comprehensive study of soils around the world and the factors and processes that drive their formation and dynamic evolution. Emphasis is placed on soil morphology, pedogenesis, and biogeochemical influences within the soil environment. A one-credit lab section is devoted to the hands-on exploration and study of soils through laboratory and field exercises. Prerequisite: ESC 221 or ESC 222. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 427 Cr.3

**Water Resources**

A study of physical water resources systems and management and utilization of water as a resource. Class activities will include seminars on critical water resource management issues and hands-on analysis of pertinent data, including exercises in Geographic Information Systems. Prerequisite: ESC 221 or ESC 222. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Alternate Years.
ESC/GEO 430/530 Cr.3
**Fluvial Geomorphology**
A systematic study of the interactions between flowing water and surface landforms. Emphasis is placed on watershed and stream development, sediment transport and storage, flow frequency analysis, and applications of fluvial principles to river management and stream restoration. Class activities will include field exercises in the La Crosse region, mathematical analysis of hydrologic variables, and spatial analysis with Geographic Information Systems. Prerequisite: ESC 221 or ESC 222. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Spring - Odd Numbered Years.

ESC/GEO 440/540 Cr.3
**Geographic Interpretation of Aerial Photographs**
Systematic applications of aerial photographs in the interpretation and analysis of geographic problems. Emphasis is placed on the interpretation of digital photographs within a geographic information system. Topics include urban and rural land use, natural resource, and environmental assessment. Lect. 2, Lab 2. Prerequisite: ESC/GEO 385; junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 445/545 Cr.3
**Advanced Remote Sensing**
Advanced techniques of digital satellite and airborne image analysis and processing, emphasizing theory and applications in natural resource, land use and environmental assessment. Includes practical approaches to integrating imagery with geographic information systems for spatial analyses and decision making. Data acquisition, integrity, manipulation, formatting, storage, and retrieval are also examined. Prerequisite: ESC/GEO 345. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Spring.

ESC/GEO 450 Cr.3-12
**Geography Internship**
Practical experience with a variety of organizations where the student's geographic background and training can be utilized to advantage. Students are placed in carefully selected positions screened by the department. Actual work supervision is accomplished by personnel of the selected agency and the department staff coordinator. A maximum of five credits may be counted toward the non-education major. Prerequisite: geography major; cumulative GPA of 2.25 with a minimum of 2.75 GPA in geography and/or earth science. Registration with consent of regular advisor, instructor, selected agency and the department staff coordinator. A maximum of five credits may be counted toward the non-education major. Prerequisite: geography major; cumulative GPA of 2.25 with a minimum of 2.75 GPA in geography and/or earth science. Maximum three credits applicable to major. Maximum three credits applicable from any instructor. Repeatable for credit - maximum six. Prerequisite: MTH 145. Offered Fall, Winter, Spring, Summer.

ESC/GEO 455/555 Cr.3
**Web Mapping**
In this course, students will learn how to produce and design interactive Web maps for communication. Web maps take many forms and they are continually changing. Thus, the objective of this course is to do two things: (1) develops proficiency in the scripting languages and tools most frequently used to design and create these maps; and (2) teaches the theory and concepts underlying good Web map design so that as the technologies change in the future students will still be able to design effective Web maps. At the end of this course, students will be able to design a Web map from scratch. Lect. 2, Lab 2. Prerequisite: ESC/GEO 250; ESC/GEO 355; junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Spring.

ESC/GEO 460/560 Cr.3
**Environmental Hazards and Land Use**
Environmental processes are investigated in light of the hazards they might pose for development and how they may be avoided or mitigated by proper land use planning. Prerequisite: ESC 221 or ESC 222. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 470/570 Cr.1-3
**Special Topics in Geography/Earth Science**
Specifically selected topics or skills which may be designed for the interest of special groups will be offered with formalized instruction and methodology appropriate to geography and/or earth science. May be counted as an elective in the geography major or earth science minor at the discretion of the Geography/Earth Science Department. Prerequisite may be required at the discretion of the department. Repeatable for credit - maximum six. Prerequisite: junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

ESC/GEO 476/576 Cr.1-3
**Geography/Earth Science Topics for Teachers**
Selected topics in geography and/or earth science pertinent to applications in the teachers' classrooms. Courses are designed to meet the needs of teachers so that they may implement the course material into their classroom teaching. Prerequisite: junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.

GEO 485/585 Cr.3
**Advanced Geographic Information Science**
Advanced theories in geographic information systems database structures, advanced applications, database transfers, database management, use of census data, spatial analysis, and decision-making. Emphasis on ARCGIS and its applications. Integration of GIS with remote sensing and GPS. Lect. 2, Lab. 2. Prerequisite: MTH 145; ESC/GEO 385; junior standing. Offered Spring.

GEO 488 Cr.3
**Spatial Data Analysis**
Theory, methods, and techniques for quantitative analysis of spatial data. Students will learn and employ basic quantitative techniques for describing, modeling, and analyzing spatial data. This course explores point pattern analysis, methods for continuous data, and spatial regression. Focus will be on the interpretation and the application of spatial data analysis techniques to address geographic problems. Prerequisite: MTH 145. Offered Occasionally.

ESC/GEO 490/590 Cr.2-3
**Independent Study**
Individual readings and investigation of selected problems in geography. Open to senior majors and minors with a "B" (3.00) average in geography. Registration with consent of regular advisor, instructor, department chairperson, and the dean of the college in which the student is enrolled. Repeatable for credit - maximum six. Maximum three credits applicable to major. Maximum three credits from any instructor. Prerequisite: junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Consent of instructor. Offered Fall, Winter, Spring, Summer.

ESC/GEO 495/595 Cr.1-3
**Seminar in Geography/Earth Science**
Investigation into various topics in geography or the earth sciences. Varying topics will be offered at intervals with a specific title assigned to each. Prerequisite: two semesters of geography and/or earth science. Additional prerequisite may be required by the instructor. Repeatable for credit - maximum six. Variable topics; check semester timetables. Prerequisite: junior standing. (Cross-listed with ESC/GEO; may only earn credit in one department.) Offered Occasionally.
German (GER) - Courses

+ next to a course number indicates a general education course

Courses

GER 101 Cr.4
Elementary German I
The first of two introductory courses in German. The five language skills: listening, speaking, writing, reading, and culture are introduced. Offered Fall, Spring.

+GER 102 Cr.4
Elementary German II
The second introductory course in German comprehension, speaking, writing, reading, and culture. Prerequisite: GER 101 or placement based on UW System Placement Test scores. Offered Fall, Spring.

+GER 201 Cr.4
Intermediate German I
The first of two intermediate-level German courses. Students continue to develop all language skills with special emphasis placed on refining speaking and listening comprehension. Prerequisite: GER 102 or placement based on UW System Placement Test scores. Offered Fall, Spring.

+GER 202 Cr.4
Intermediate German II
The second of two intermediate-level German courses. Students continue to develop all language skills with special emphasis placed on refining reading and writing in German. Prerequisite: GER 201 or placement based on UW System Placement Test scores. Offered Fall, Spring.

GER 300 Cr.3
Advanced German
Development of all German language skills with emphasis on reading and writing. Prerequisite: GER 202 or equivalent. Offered Fall.

GER 301 Cr.3
An Introduction to German Literature
A beginning literature course designed to teach the student to read with depth and critical ability. Emphasis will be on German theatre, the short story, and poetry. Prerequisite: GER 202 or equivalent. Offered Spring - Odd Numbered Years.

GER 311 Cr.3
German Conversation and Composition
Practice in oral and written German to gain fluency in idiomatic style. Prerequisite: GER 202 or equivalent. Offered Fall - Even Numbered Years.

GER 313 Cr.3
German Grammar and Composition
An intensive study of German grammar and stylistics with an emphasis on controlled compositions. Prerequisite: GER 202 or equivalent. Offered Spring - Odd Numbered Years.

GER 315 Cr.3
Business German
A course designed to prepare advanced students in German to communicate effectively in the business world. Intensive practice in oral comprehension, speaking, writing, utilizing special, topical vocabulary related to international commerce. Prerequisite: GER 202 or equivalent. Strongly recommend MGT 100 or concurrent registration in MGT 100. Offered Fall - Even Numbered Years.

GER 320 Cr.3
German Civilization: 1870-Reunification
A topical and contrastive approach to German culture and civilization. A study of the social and political organization of Germany from 1870 to reunification in 1989, based on an historical perspective with special emphasis on the forces which led to National Socialism and the division of Germany after World War II. Milestones in German cultural history prior to 1870 will be touched on briefly. Prerequisite: GER 202 or equivalent. Offered Fall - Odd Numbered Years.

GER 321 Cr.3
German Civilization: 1870-Reunification
A study of the political and social organization of Germany from 1870 to reunification in 1989. Milestones in German cultural history prior to 1870 will be highlighted. Prerequisite: GER 202 or equivalent. Offered Spring - Even Numbered Years.

GER 326 Cr.1
Current Events
A weekly discussion of current events in the German-speaking world, based on readings and television broadcasts in the target language. This course is one of four one-credit elective courses offered in the German studies program. A maximum of six credits from a combination of GER 326, GER 327, GER 328, and GER 329 will be applicable to the German majors or minors. (Each individual course can only be taken three times for a total of three credits.) Prerequisite: GER 202 or equivalent. Offered Annually.

GER 327 Cr.3
Grammar Review
A course designed to provide additional practice and review of German grammar and syntax. Students will engage in focused writing assignments that will allow them to master frequently occurring grammar structures (e.g., past tenses in narration, object pronouns, relative pronouns, adjective endings.) This course is one of four one-credit elective courses offered in the German studies program. A maximum of six credits from a combination of GER 326, GER 327, GER 328, and GER 329 will be applicable to the German majors or minors. (Each individual course can only be taken three times for a total of three credits.) Prerequisite: GER 202 or equivalent. Offered Annually.
GER 328 Cr.1

Short Stories
A course designed to help students improve their reading and writing skills in German. Through the study of short stories, students will learn reading strategies, build their vocabulary, and review relevant grammar concepts. This course is one of four one-credit elective courses offered in the German studies program. A maximum of six credits from a combination of GER 326, GER 327, GER 328, and GER 329 will be applicable to the German majors or minors. (Each individual course can only be taken three times for a total of three credits.) Prerequisite: GER 202 or equivalent. Offered Annually.

GER 329 Cr.1

Reporting and Publishing News in German
A course designed to help students improve their reading, writing and narration skills in German. Students will investigate and write about campus, local, regional, and national German-related events and then publish them in an electronic and/or paper form newsletter periodically throughout the semester. This course is one of four one-credit elective courses offered in the German studies program. A maximum of six credits from a combination of GER 326, GER 327, GER 328, and GER 329 will be applicable to the German majors or minors. (Each individual course can only be taken three times for a total of three credits.) Prerequisite: GER 202 or equivalent. Offered Annually.

GER 330 Cr.3

German Conversation and Phonetics
A study of the German-language sound system. Students learn the IPA (International Phonetic Alphabet) modeling their speech after native speakers -both live and from recorded materials. Sound patterns are reinforced through conversational exercises which are based upon current events, readings, and cultural nuances. Prerequisite: GER 202 or equivalent. Offered Spring - Every Third Year.

GER 351 Cr.4

Films in German
The study of the German-speaking world film viewing, discussion and writing assignments will all be in German. Lect. 3, Lab. 2. Prerequisite: GER 202 or equivalent. Offered Occasionally.

GER 394 Cr.3

Translating Literature
A study of the theory and problems of literary translation. Students translate literary works from the target language into English. The student translations are used for literary as well as translation technique study in the course. Prerequisite: GER 202. Offered Occasionally.

+GER 398 Cr.3

German Thinkers and Popular Culture
A course that critically examines instances of popular culture such as Hollywood movies, reality TV, pop songs, social media sites, and bestselling novels through the lens of various philosophical traditions. Focusing predominantly on German thinkers from the 18th-20th centuries such as Kant, Schopenhauer, Nietzsche, Freud, and Benjamin, the course explores how their ideas can help a person today find deeper meaning in pop culture, as well as how pop culture might aid in understanding these thinkers' difficult theories. Taught in English. Offered Fall - Even Numbered Years.

+GER 399 Cr.3

German Literature in Translation
A course designed to introduce students to great works of German literature. The course will center on representative writings by leading authors of the 19th, 20th, and 21st centuries whose works illustrate important aspects of German history and culture. In general these will be longer works of fiction and/or multiple works by such writers as Kafka, Goethe, Kleist, Mann, Boll, Grass, Wolf, etc. Works and authors will vary. Offered Fall - Odd Numbered Years.

GER 403 Cr.3

Studies of German Literature
A course designed to survey major literary movements and authors. Specific topics vary by semester. Repeatable for credit - maximum six. Prerequisite: GER 300 or GER 301. Offered Occasionally.

GER 406 Cr.3

Contemporary German Literature
From naturalism to the present. Selected novellas, novels, and drama by Rilke, Kafka, Mann, Brecht, Duerenmatt, Grass, and others. Prerequisite: GER 202 or equivalent. Offered Occasionally.

GER 450 Cr.1-4

National/International Intern Program
A course in German individually tailored to fit career needs: cultural awareness, technical vocabulary in German to prepare students who elect internship credits in other departments. German minors or other students having the equivalency of GER 202 may elect to take these credits off campus. Repeatable for credit - maximum four. Prerequisite: a declared major in department offering intern program or a declared minor in German. Offered Occasionally.

GER 495 Cr.2

Honors Seminar in German
An in-depth examination of a topic in German literature or civilization concluding with a research paper and presentation to faculty and peers. Prerequisite: admission to the Alvida Ahlstrom Honors Program; GER 300 and one 300 or 400-level literature or civilization course. Offered Occasionally.

GER 498/598 Cr.1-3

Independent Study
Fieldwork, research, individual projects in a specific area of German language, civilization or literature. Repeatable for credit - maximum six. Prerequisite: two advanced German courses; junior standing. Offered Occasionally.

GER 499/599 Cr.1-3

Independent Study
Field work, research, and individual projects in a specific area of German language, civilization or literature. Repeatable for credit - maximum six. Prerequisite: two advanced German courses; junior standing. Offered Occasionally.

Health Education (HED) - Courses

HED 101 Cr.2

Personal Health
The dynamics of health in life in a rapidly changing world; modern concepts of health, disease, and longevity; current medical findings relative to weight control, emotional health, human sexuality, family planning, venereal and other disease control, drug abuse, environmental health and quackery are included. Offered Occasionally.

HED/WGS 201 Cr.1

Social Justice and Peer Education
This course both educates students on social justice issues they face while in college and prepares them to be able to give presentations to peers in residence halls, classrooms, athletic teams, and student organizations with the goal of effecting social change. Subject matter will respond to campus needs. Repeatable for credit - maximum three. Prerequisite: WGS 100 or WGS 210 or WGS 230 or EFN 205 or ERS 100; CST 110 recommended. (Cross-listed with HED/WGS; may only earn a max of three credits.) Pass/Fail grading. Offered Fall, Spring.
HED 205 Cr.3
**Introduction to Health and Wellness Education**
Introductory concepts related to the field of health education are examined. Basic principles, philosophies, and issues related to school health and community health education are presented. This course serves as an entry level course for both the school and community health tracks. Offered Fall, Spring.

+HED 207 Cr.3
**Youth Health Issues**
This exploratory course is designed to identify the health issues that affect youth throughout various stages of their development. Societal institutions that support the healthy growth and development of youth will be identified, while students consider strategies that enable the healthy mental/emotional, physical, and social development of today’s youth between the ages of 4-18. Offered Fall, Spring.

HED 230 Cr.2
**Nutrition for Fitness and Health**
This course examines basic principles of nutrition and the implications and effects of these principles on one’s diet, fitness level, and thus one’s health. Methods for teaching nutrition principles to various age groups will be emphasized. Offered Occasionally.

HED 250 Cr.1-3
**Health Education Forum**
Examination of current issues and problems in health education. Varying topics selected to extend the students’ knowledge in contemporary health issues, as determined by the health education department. Repeatable for credit - maximum six. Offered Occasionally.

HED 320 Cr.3
**The U.S. Health Care System**
This course provides an overview and a developmental summary of the U.S. health care system and its driving forces and offers comparisons to other national health systems. Content includes major elements of the health care system and a consideration of today’s major health policy issues in a historical, economic, and political context. The course will also explore current issues confronting the health care system, raise important concerns and questions related to the different approaches to health care delivery, and identify key ethical issues. Offered Fall, Spring.

HED 335 Cr.3
**Human Ecology and Environmental Health**
This course examines the interdisciplinary and global effects of human-environment relationships. Emphasis is placed on the critical nature of the relationship between ecosystem health and human health and well-being. Environmental politics and economics, global disease, and traditional environmental health topics are considered for the purpose of improving the quality of life for all people through the creation of a sustainable society. Offered Fall, Spring.

HED 345 Cr.3
**Issues in Mental and Emotional Health**
This course examines the determinants of emotional and mental health which form a basis for health and healthy choices. A variety of constructs including, but not limited to resiliency, family and social processes, self-concept and learning that form the foundation for emotional and mental health will be presented and discussed. Students will be encouraged to deepen their commitment to effective teaching and learning. Prerequisite: HED 205. Offered Fall, Spring.

HED 346 Cr.2
**Health Behavior Change**
Skills, concepts, and processes for individualized health teaching. The course will examine health behavior change as a technique in the overall treatment of prevention of health problems. The approach is an integration of education, behavioral intervention, and health counseling. Prerequisite: PSY 100. Offered Occasionally.

HED 408/508 Cr.1-2
**Microcomputer Applications in Health Education**
This course is designed for both school health educators and community health educators. The course will focus on current software programs available for professionals in the health field. Students will be exposed to and learn to utilize a sampling of current software available, as well as assessment techniques to evaluate these programs. Prerequisite: junior standing; health education major or minor. Offered Occasionally.

HED 409/509 Cr.1
**Stress Management and Relaxation Skills**
An introduction to the detrimental effects of stress on an individual and the corresponding benefits of regular relaxation. This course will emphasize the basic skills of relaxation and will provide an experience that focuses on the practical application of these skills in one’s life. Prerequisite: junior standing. Offered Fall, Spring.

HED 412/512 Cr.1-3
**Women’s Health Issues**
This course will provide an opportunity for participants to identify major health issues confronting women today and to examine appropriate health promotion and health prevention lifestyle choices. It will explore health issues from the traditional medical model to the holistic model and provide a comprehensive overview of critical, contemporary women’s health issues. Repeatable for credit - maximum three. Prerequisite: junior standing. Offered Spring.

HED 417/517 Cr.1
**Understanding Child Abuse**
This course will provide an opportunity for students to develop an understanding of the dynamics of child abuse as well as a practical framework from which to provide services to abused children and their families. Prerequisite: junior standing. Offered Occasionally.

HED 418/518 Cr.1
**Youth Health Issues**
An overview of youth health issues examining such topics as anorexia, drug abuse, suicidal tendencies, diseases, violence and emotional health problems. Effective ways of dealing with these issues in both the community and school setting will be discussed. Prerequisite: junior standing. Offered Occasionally.

HED 422/522 Cr.1
**Sexual Abuse of Children**
This course will provide an opportunity for participants to develop an in-depth understanding of child sexual abuse. Theoretical and research perspectives on the nature of abuse and its dynamics will be included as well as an update of available educational materials. Prerequisite: HED 417; junior standing. Offered Occasionally.

HED 423/523 Cr.1
**Sexual Health Promotion Persons with Disabilities**
This course is designed to provide health care and allied health professionals and teachers with an overview of sexuality issues regarding persons with physical disabilities, chronic illnesses, and developmental disabilities. Prerequisite: junior standing. Consent of instructor. Offered Occasionally.

HED 425/525 Cr.3
**Violence and Injury Prevention**
Participants will review the major forces leading to violent behavior and injury in the United States and globally. Trends over time will be carefully reviewed and analyzed in order to detect risk factors and protective factors. Violence and injury prevention strategies will be reviewed, resulting in the development of prevention and intervention proposals using community-based programming and curriculum development strategies. Prerequisite: junior standing. Offered Fall, Spring.
HED 436/536 Cr.1
Alcohol, Health, and Behavior
This course is intended to help individuals develop a more complete understanding of alcohol as a public health problem. Alcohol's impact on individuals, families, and society will be examined. Emphasis will be placed on information that will assist individuals in making intelligent decisions regarding the use of alcohol. Prerequisite: HPR 105; PSY 100 or PSY 212; junior standing. Offered Occasionally.

HED 437/537 Cr.3
Theories of Health Behavior
Overview of health behavior through the examination of health behavior theoretical constructs. Emphasis is on the application of behavior change theories and models to facilitate healthy behavior changes. Prerequisite: admission to community health education. Offered Fall, Spring.

HED 439/539 Cr.1
Teaching Stress Management and Relaxation Skills
This course examines both theory and cognitive information regarding stress and relaxation and the practical application of this information in a professional setting. The main thrust of the class is on how to develop, implement, teach, and evaluate stress management and intervention programs. Prerequisite: HED 409; junior standing. Offered Occasionally.

HED 441/541 Cr.3
Human Disease Prevention and Control
Presentations by medical experts in the recent progress in disease prevention and control. Knowledge of many disease processes and treatments will be discussed. Primarily designed for prospective health educators, to explore in depth, selected topic areas of communicable and chronic diseases. Prerequisite: junior standing. Offered Fall, Spring.

HED 447/547 Cr.1
The Body/Mind Connection in Health
Recent developments in health related research are demonstrating a close functioning relationship between the nervous, endocrine, and immune body systems. As the field of psycho-neuroimmunology expands, applications in health promotion, health care and education are being developed. Many of the findings and applications verify health and healing practices from alternative health traditions. This course provides an opportunity to study many of the developments in psychoneuroimmunology and their application in health, healing and learning. Implications for health education methods will also be explored. Health care, human service and education professionals will benefit from the practical information provided. A series of case studies will be the center of the learning experience. Prerequisite: junior standing. Offered Occasionally.

HED 449/549 Cr.1
Value Development for Health
Practical systematic process in values formulation for healthy living. Decision making and problem solving strategies for understanding of beliefs, attitudes and perception that affect health status. Experiential skill learning applicable to professional health promotion and personal well being. Prerequisite: HPR 105, PSY 100; junior standing. Offered Occasionally.

HED 467/567 Cr.1-2
Experiential Learning Strategies for Health Education
This course examines emerging educational processes, strategies, and issues and how they can be applied in the facilitation of health education and health promotion programs in the school and/or community setting. Topics will vary per offerings and target audience. Prerequisite: SHE 210 or CHE 240 (or equivalent) or teacher certification; junior standing. Offered Occasionally.

HED 469/569 Cr.3
Drugs, Society and Human Behavior
This course is directed at introducing social, psychological, pharmacological, and cultural aspects of drug use, misuse, and abuse. In addition, the methods, materials, and theories of drug abuse prevention in the school and community will be introduced. Prerequisite: BIO 100 or BIO 103 or BIO 105; junior standing. Offered Fall, Spring.

HED 471/571 Cr.2
Health Education Responsibilities, Competency and Certification
Participants will have the opportunity to review the National Health Educator Competencies Update Project research resulting in a hierarchical model that serves as a framework for the Responsibilities and Competencies comprising the Entry, Advanced 1, and Advanced 2 levels. Each one of the seven Responsibilities will be examined with practitioner examples, and a review will be conducted for the Certified Health Education Specialist (CHES) national examination. Weekend and online formats. Prerequisite: junior standing. Offered Occasionally.

HED 472/572 Cr.3
Sexual Health Promotion
A review of current information on health and human sexuality. Emphasis is given to biological, psychosocial and educational aspects of human sexuality with special emphasis on instructional activities related to interpersonal communication, decision-making ability and clarification of values. Prerequisite: ESS 205 or BIO 312; ESS 206 or BIO 313; junior standing. Offered Fall, Spring.

HED 473/573 Cr.3
Health Aspects of Aging
An exploration of the lifelong aging process and an examination of health factors affecting the elderly. Emphasis is given to the changes in a variety of health areas including, but not limited to, physical activity, nutrition, mental health, long-term care, sexuality, and death, dying and grief. The course will also include a service-learning component. Prerequisite: HED 205, CHE 240; junior standing. Offered Fall, Spring.

HED 474/574 Cr.3
Nutrition Education
Basic principles of nutrition are covered as well as current problems and topics regarding both personal and world nutrition today. Designed for the public school teacher, the community health educator, or those in related fields. Prerequisite: junior standing. Offered Fall, Spring.

HED 477/577 Cr.3
Grant-seeking in Health, Human Services and Education Programs
The grant-seeking enterprise is studied and applied. Generic grant-seeking content, practices, and concepts are presented for application in most disciplines and areas of interest. Content includes locating and communicating with funding agencies, writing and reviewing grant proposals, analyzing requests for proposals (RFPs), using technology in grant-seeking, and implementing and evaluating grant-funded projects. Prerequisite: CHE 340 and CHE 350; junior standing; admission to community health education. Offered Fall, Spring.

HED 485/585 Cr.1-3
Confrontations of Death
This course is designed to allow students to consider death both generally and on an individual basis. Various programs and experiences will be used to help individuals confront their own mortality and its relationship with the vitality of life. Prerequisite: junior standing. Offered Occasionally.
HED 486/586 Cr.1
Introduction to International Health
An introduction to world health conditions/status; the different health care delivery systems, manpower and resources of selected countries in Asia, Europe and Africa in comparison to the United States. The course is designed as a survey of the condition of health and health care in the international setting. The roles/functions/responsibilities of the major international agencies and the governments will also be discussed as they relate to health. Repeatable for credit - maximum three. Prerequisite: junior standing. Consent of instructor. Offered Occasionally.

HED 495/595 Cr.1-3
Independent Study in Health Education
Individualized study of areas not available in existing courses. Repeatable for credit - maximum six. Prerequisite: junior standing. Offered Fall, Winter, Spring, Summer.

Health Information Management and Technology (HIMT) - Courses

HIMT 320/IS 321 Cr.3
Survey of Information Technology in Health Care
In this course essential information technologies in health care (HITs) will be surveyed. Many important health care information systems (HISs) are built upon three categories of HITs: data processing technologies, information reporting technologies, and decision supporting technologies. Specific subjects pertaining to these technologies will be identified and introduced. Prerequisite: admission to business or health information management systems minor. (Cross-listed with HIMT 320 / IS 321; may only earn credit in one department.) Offered Fall.

HIMT/IS 340 Cr.3
Ethical Issues, Security Management and Compliance
This course introduces three broad subjects: 1) evidence-based medical ethics pertaining to health care information management; 2) framework of health care information security management including security principles, policies and procedures, security management models, risk assessment, and protection mechanisms; and 3) health care regulations and compliance with focuses on the legislative systems, policies, and legal environment of health care in the U.S. and the existing health information laws, regulations and standards. Also addressed are the elements and development of compliance programs. Prerequisite: admission to business or health information management systems minor. (Cross-listed with HIMT/IS; may only earn credit in one department.) Offered Fall.

HIMT/IS 370 Cr.3
Health Care Systems: Analysis and Design
This is the first course in a two-course sequence that addresses methods and techniques of health care information system (IS) analysis and design as performed within the system development life cycle. Included will be the definition of the problem, fact gathering, analysis, logical design, selection and evaluation of alternative health care information systems solutions from the point of view of the health provider and user. The course focuses on the problem solving process that leads to the development of logical IS solutions to applied health care programs. Prerequisite: IS 220 or HIMT 320. (Crosslisted with HIMT/IS; may only earn credit in one department.) Offered Fall.

HIMT/IS 420 Cr.3
Health Care Systems: Project Management
This course addresses the fundamental impact information system (IS) projects have had on health care delivery. Students learn how IS health care projects affect organizations, doctors, patients, and chronic-illness treatments, as well as individuals interested in managing their own health care. Concepts and tools for IS health care project management, process re-engineering and work redesign are introduced. The purpose of this course is to expose students to IS project management activities in health care settings. Topics covered include recent IS health care project trends, budgeting, scheduling, resource management, scope, risk analysis, and deployment controls. The genesis of health care project management is covered using specific cases and examples. Prerequisite: admission to business or health information management systems minor. (Cross-listed with HIMT/IS; may only earn credit in one department.) Offered Spring.

HIMT/IS 435 Cr.3
Data Communications and Computer Networks in Health Care
This course provides fundamentals of data communications and networking techniques, and examines the linkage of information technology strategies and technological solutions enabling effective communication within and between health care organizations. Major topics include fundamental concepts of data communications and applications, network communication devices, basic technologies of the Local Area Network, Wireless Local Area Network, Wide Area Network, Internet and the Web, the OSI stack, health care information system standards, and the HIE, RHIN, and the NHIN. Prerequisite: IS 220 or HIMT 320. (Cross-listed with HIMT/IS; may only earn credit in one department.) Offered Spring.

HIMT/IS 490 Cr.3
Capstone Project
This course is the capstone course for both tracks of the Health Information Management and Technology Program. Students are required to find an internship site that is related to health care and set up a semester long project from which they can gain hands-on experience in the areas of their concentration. Project set-up will be jointly done by the student, site sponsor, and the faculty of this course, whereas internship supervision will be performed by the project supervisor and the course instructor. Prerequisite: last semester in Health Information Management & Technology Program. (Cross-listed with HIMT/IS; may only earn credit in one department.) Offered Occasionally.

Health Professions (HP) - Courses

+ next to a course number indicates a general education course

Courses

+HP 105 Cr.3
Analysis of Health, Wellness and Disease for the Health Care Consumer
In our technological world, health research and information is expanding rapidly and has become readily available to consumers. As life-long consumers of this information and health care services, students need to be able to understand the principles on which healthcare is based and to interpret this information in its application to their personal, family and community situations. This course uses an inquiry-based format to consider topics in nutrition, pharmaceuticals, cancer, communicable disease, contraception and sexually transmitted disease, chronic diseases, environmental impacts on health, recreation, fitness, epidemiology, and disease prevention. Offered Fall, Spring.
Courses

HWM 300 Cr.3
Introduction to Human Health
This course is designed to provide students with a general background knowledge on many of the issues impacting our health today. Topics of study will include issues in mental, physical and social health such as stress, nutrition and fitness, alcohol, tobacco and other drugs, relationships and sexuality and diseases and disorders. An introduction to behavior change theories and the factors contributing to overall wellness will also be included. Prerequisite: Introduction to Biology. Consent of department. Offered Fall, Spring, Summer.

HWM 305 Cr.3
The Wellness Profession
This course explores the definition of wellness, health promotion and the seven dimension model of wellness. Students will learn the professional role and personal commitment required to implement lifestyle wellness programs. The course includes an overview of the history and philosophy contributing to the success of wellness and health promotion professionals. Students learn through assigned experiential learning the basic wellness principles. Activities explore personal wellness and whole systems healing in the seven-dimensions of spiritual, physical, emotional, career, intellectual, environmental, and social. Prerequisite: Introduction to Psychology. Consent of department. Offered Fall, Spring, Summer.

HWM 310 Cr.3
Changes Across the Lifespan
This course explores research and theory regarding the nature and processes of human development from early adulthood through old age and death. Key topics include biological theories of aging; the changing body; disorders of the brain; personality development; changing memory and thinking skills; relationship issues; careers and retirement, and death/ dying. Prerequisite: Introduction to Biology. Consent of department. Offered Fall, Spring, Summer.

HWM 315 Cr.3
Resource Management for Wellness Managers
The objective of this course is to examine the issues in healthcare and defining the quality of care in healthcare programs. The course will focus on health care financing and insurance, objectives of financial management, leadership styles, managing costs, and managing healthcare professionals. Consent of department. Offered Fall, Spring, Summer.

HWM 320 Cr.3
Health and Medical Terminology
The purpose of this course is to introduce the student to basic health terminology. Since health care uses a unique blend of prefixes, suffixes, and terms related to both preventative and clinical care, it is important that the wellness professional has the knowledge and abilities to decipher this information. Consent of department. Offered Fall, Spring, Summer.

HWM 325 Cr.3
Health Literacy
This course will explore the current understandings and work in health literacy research, advocacy, and outreach efforts across the various health education and related fields. It will include readings, discussions, and competencies in evaluation of health information for quality and credibility; locating health and determining quality resources; identifying and assessing population health literacy; and understanding the networks of agencies working in health settings to address literacy in the health field. Prerequisite: HWM 300. Consent of department. Offered Fall, Spring, Summer.
HWM 335 Cr.3  
Worksite Health Environment  
This course examines the workplace environment's influence on daily health decisions and focuses on practical, contextual levels of behavioral change. Novel insights from the fields of behavioral economics and consumer marketing will be reviewed to help students understand the cognitive barriers to health behavior change and the environmental "nudges" that can be leveraged to overcome these barriers at work. Students will explore environmental assessment tools, active design principles, workplace policies, supportive research and real world examples. Prerequisite: HWM 300. Consent of department. Offered Fall, Spring, Summer.

HWM 345 Cr.3  
Physical Activity and Nutrition for Wellness Managers  
This course presents professional recommendations and guidelines for physical activity and nutrition. Students will design workplace strategies that will meet recommendations and guidelines to support employees. Prerequisite: HWM 300. Consent of department. Offered Fall, Spring, Summer.

HWM 350 Cr.3  
Research and Statistics for Wellness Managers  
This course is designed to familiarize students with research nomenclature, procedures for the design and evaluation of research and interpretation of statistical analysis in the health field. This course will also provide the tools for critically evaluating the validity of health research. Prerequisite: HWM 305. Consent of department. Offered Fall, Spring, Summer.

HWM 360 Cr.3  
Stress, Dependencies, and Addictions  
This course examines common behavioral strategies with regard to stress and its management, and the use of alternative remedies for physical and emotional dependencies and addictions. Prerequisite: Introduction to Biology; Introduction to Psychology. Consent of department. Offered Fall, Spring, Summer.

HWM 370 Cr.3  
Understanding and Effecting Health Behavior Change  
This course provides the basic knowledge of foundational change theories, including the Transtheoretical Stages of Change model, in order to help students understand how health behavior change happens. Included in the course is a self-reflection on personal wellness and strategies for implementing health behavior change. Prerequisite: Introduction to Psychology; HWM 300. Consent of department. Offered Fall, Spring, Summer.

HWM 385 Cr.3  
Marketing and Communication for Wellness Managers  
Students will develop basic marketing and promotional skills, grounded in the disciplines of social marketing, health communication and business marketing that address consumer health "needs" and customer "wants." Students will be able to assess market opportunities in wellness services, programs and facilities, and create marketing strategies and tactics. Emphases will be placed on best practices for behavior change, increased cost savings for employers, improved customer/employee participation and /or revenues for wellness programs, services and facilities. Prerequisite: HWM 305; HWM 325. Consent of department. Offered Fall, Spring, Summer.

HWM 405 Cr.3  
Survey of Information Technology in Wellness  
This course is designed to (1) provide students with an overview of various information technology products and mediums impacting the wellness industry, such as (but not limited to): web portals, online health risk assessments, interactive health tools, trackers, videos/podcasts, telephone & digital health coaching, online challenges, social networking, electronic medical records, personal health records, electronic Health (eHealth), mobile Health (mHealth), mobile applications, and portable tracking devices (e.g., pedometers, glucose monitors, etc.); and (2) provide students with the information and resources needed to assess, create and/or select appropriate technologies and vendors. Consent of department. Offered Fall, Spring, Summer.

HWM 430 Cr.3  
Population Health for Wellness Managers  
This course introduces the evolution of health problems and services and will examine the methods designed to capture a community health profile. The participant will apply concepts involved in measuring and understanding the health of individuals and populations in order to enhance quality of life. The key social determinants of health and their interactions will be considered. Prerequisite: HWM 300; HWM 350. Consent of department. Offered Fall, Spring, Summer.

HWM 460 Cr.3  
Leadership and Change Management in Health  
This course will examine the various leadership and management styles, including business models of leadership. Organizational behavior, decision-making, and attributes of effective leadership will be reviewed in this course. Understanding the impact of changes in healthcare, wellness, and fitness programs on various organizations is an objective of this course. Prerequisite: HWM 315. Consent of department. Offered Fall, Spring, Summer.

HWM 470 Cr.3  
Assessment and Evaluation for Wellness Managers  
This course surveys general approaches to assessment, programming and evaluation in health and wellness settings. Participants will explore individual, group, and organizational approaches to assessment, programming, and evaluating planned and organized efforts to promote both health and wellness. Prerequisite: HWM 335; HWM 430. Consent of department. Offered Fall, Spring, Summer.

HWM 475 Cr.3  
Employee Health and Well-Being  
Successful companies must understand the importance of workplace involvement in health. The relationship of employee health to healthcare costs and productivity will be discussed as return on investment (ROI) and an investment in human capital. Strategic and product management planning are developed in relationship to disease management versus population wellness theory. Assessments of employer needs, organizational culture, environmental policy, and procedures supportive to desired outcomes are practiced. Professionals learn about aligning client needs and wants with best practice program design, implementation, and evaluation for successful results. Age, gender, race, and issues that affect participation in wellness programs are reviewed. Prerequisite: HWM 385. Consent of department. Offered Fall, Spring, Summer.
HWM 480 Cr.3
**Employee Benefits for Wellness Managers**
The design and administration of a health care plan plays a key role in attracting and retaining employees and employer’s cost savings. This course is designed to provide students with a solid introduction to the basic issues of health care benefits and teach students how to integrate successful return on investment (ROI) strategies for adopting preventative health benefits that enhance employees’ well-being. Prerequisite: HWM 315. Consent of department. Offered Fall, Spring, Summer.

HWM 485 Cr.3
**Health Coaching for Wellness Managers**
The course will assist in developing a strong, useful theoretical viewpoint for health coaching as well as understanding the approaches of therapists and how differential treatment therapeutic goals are set. The definition of coaching and diverse methodologies will be taught, practiced, compared, and contrasted. Students will specifically gain an understanding of what treatment and by whom is most effective for individuals displaying specific problems and under what set of circumstances. As a result students will learn a variety of treatment modalities and learn to respect vastly differing world views. Prerequisite: HWM 305; HWM 370. Consent of department. Offered Fall, Spring, Summer.

HWM 495 Cr.3
**Capstone in Human Health and Wellness**
This course emphasizes the application of knowledge and skills learned though an individualized project(s) approved and supervised by the appropriate academic advisor. Prerequisite: HWM 460; HWM 470; HWM 475; HWM 480. Consent of department. Offered Fall, Spring, Summer.

Health, Physical Education, and Recreation (HPR) - Courses
+ next to a course number indicates a general education course

Courses
+HPR 105 Cr.3
**Creating A Healthy, Active Lifestyle**
This course will focus on the knowledge and skills necessary for developing and maintaining a healthy, physically active lifestyle throughout one’s lifespan. Major issues directly affecting one’s health such as physical fitness, movement skills and activities, health promotion and disease prevention, the effective use of leisure and content in various wellness topical areas will be included. Offered Fall, Spring.

HP/HPR 106 Cr.2
**Introduction to Health Related Careers**
Overview of health related professions in the health delivery system. Course will include educational and professional aspects of a broad range of health related careers. General topics will include an overview of the health related delivery system, health reform, legal and ethical issues, and professionalism. An interdisciplinary approach will be utilized to present specific information on individual health related professions. (Cross-listed with HP/HPR; may only earn credit in one department.) Offered Spring.

History (HIS) - Courses
+ next to a course number indicates a general education course

Courses
+HIS 101 Cr.3
**Global Origins of the Modern World**
This course explores the origins and development of the modern world, focusing on the dual dynamics of globalization and vital indigenous civilizations. The course will critically examine a minimum of three world civilizations, their ancient antecedents, and will include multiple themes, such as technology and science, religion, gender, war and peace, and the environment. Offered Fall, Spring, Summer.

+HIS 102 Cr.3
**Global Transition and Change**
This course examines world history from the perspective of one specific theme, such as technology and science, religion, gender, cross-culture connections, war and peace, arts and literature, government, or the environment. The course is global in scope, covering a minimum of three world civilizations. Individual sections will trace the development of one theme over the course of major changes in world history, ancient origins to the present. Students will have their choice of sections, thus of themes. Offered Fall, Spring, Summer.

HIS 200 Cr.3
**Historiography and Historical Methods**
This course is an introduction to both historiography (the history of the study of history) and historical research. In addition to introducing students to historiography, the course also introduces students to historical research methods, use of primary sources, problems of interpretation, and composition. Required for all history majors and minors. Offered Fall, Spring.

+HIS 202 Cr.3
**Contemporary Global Issues**
This course will offer a contemporary multi-disciplinary perspective regarding the major issues and trends confronting the global society as it enters the 21st century. Emphasis will be given to a critical review and assessment of the origin and present condition of the plethora of situations and problems affecting modern global society. The student will also learn to critically evaluate current and future events. The course will incorporate the views and approaches of the following disciplines: sociology/anthropology, economics, geography, political science, and history. (Cross-listed with ANT/ECO/GEO/HIS/POL/SOC 202; may only earn credit in one department.) Offered Spring.

ARC/HIS 204 Cr.3
**Ancient Literate Civilizations**
An historical and archaeological study of ancient Eurasia and North Africa, including a survey of the major archaeological sites. Topics such as the development of urbanization in the Near East and Mediterranean, and comparative studies of the Indus civilization, China, Classical Greece, Rome, and the New World will be discussed. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

+HIS 205 Cr.3
**History of Ethical Values in World Religions**
This course is a comparative historical survey of selected religions which focuses upon the distinctive ways that each religion developed norms of good and bad behavior that it imposed upon its adherents. What behaviors did each religious tradition label as good or bad, pure or impure? Why did each tradition place behaviors in those categories? How did those value judgments concerning good and bad behaviors change over the centuries? Some of the topics covered in this comparative historical fashion will include the treatment of women, attitudes toward abortion, contraception, sex outside of marriage, homosexuality, war, attitudes towards other religions, and environmental ethics. Offered Spring.
HIS 210 Cr.3  
**Survey of United States History**  
This course examines United States history from the period of the revolution to the present. It focuses on the development and reform of American politics, the evolution of American society and culture, and the place of the United States in the world. Offered Annually.

HIS 230 Cr.3  
**The Ancient and Medieval Worlds**  
An historical survey of the civilizations of West Asia, North Africa, and Europe from the advent of urbanization in 4000 BC to the beginning of the Renaissance (ca. 1300 AD). Topics discussed will be the nature and status of women, ethnic and religious minorities, the importance of geography and technology. Special emphasis will be placed on studying historical themes that have survived to the present day. Offered Spring.

HIS 240 Cr.3  
**Survey of Modern Europe**  
This course will consider the forces of nationalism, liberalism, imperialism, and totalitarianism, as well as Europe's interaction with non-Western cultures, the two world wars and the Cold War. Upon completion of the course, the students will be able to place this period of European history within the context of global history. Offered Alternate Years.

HIS 250 Cr.3  
**The Asian World**  
This course will introduce students to various aspects of Asian history with special focus on the Modern period (post-1800). In particular, it will compare the political, social and economic structures as well as the religious/philosophical underpinnings of Asian countries, including China, Japan, Korea, Vietnam, India and Indonesia. Offered Fall - Odd Numbered Years.

HIS 260 Cr.3  
**Survey of the Middle East**  
This course is an introductory course designed for students who would like to understand better the history and cultures of the Middle East but who have had little exposure to the region or even to the study of history. It covers the political, social, cultural, and economic Middle East from the rise of Islam to the present. We will select several major themes: the message of Islam, the development of Islamic civilization, Ottoman and Iranian cultures, responses to European imperialism, and nationalist and religious movements. Credits generated in this course apply as electives in the major or minor. Offered Annually.

HIS 285 Cr.3  
**Survey of Modern African History**  
This survey course is designed to introduce students to modern African history, from roughly 1800 through the 1970s. It gives a broad overview of African societies as they changed in the face of profound transformations like the trans-Atlantic slave trade, colonialism, independence, and globalization. Offered Annually.

ARC/HIS 295 Cr.3  
**Pyramids, Temples and Towns! The Archaeology of Ancient Egypt**  
This course is a survey of the archaeology of Ancient Egyptian civilization from an anthropological perspective and examines the Neolithic through Roman periods, ca. 5000 BC - AD 285. In this course, we will investigate the rise and development of Egyptian culture by examining selected archaeological sites and the material remains left behind by the ancient Egyptians. Using these materials, we will address specific topics of Ancient Egyptian civilization including the formation of the centralized state, sacred vs secular space, royal and private mortuary practices, urbanism, religion, roles of women in society, everyday life, history of Egyptian archaeology, recent discoveries, and future directions in the archaeology of Egypt. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Every Third Semester.

HIS 300 Cr.1-3  
**Topics in History**  
Topics selected by the individual instructor or by the students and instructor together. Special interests of both the bases of current world crises or areas of historical concern not covered in formal course work, may be the vehicles for this offering. Credits generated in this course apply as electives in the major or minor. Repeatable for credit - maximum 18. Offered Occasionally.

HIS/WGS 301 Cr.3  
**Women in the Modern United States: 1890-Present**  
This course introduces students to key issues in modern women’s history in the United States. It explores women’s experiences as workers, activists, consumers, citizens, and family members. It also examines the various ways in which generations of Americans have defined “woman’s place” and “woman’s issues,” and raises questions about the possibility for defining common “women’s issues” today. (Cross-listed with HIS/WGS; may only earn credit in one department.) Offered Alternate Years.

HIS/WGS 305 Cr.3  
**History of Motherhood in the United States**  
This course considers motherhood in nineteenth and twentieth century United States history from a variety of perspectives. It explores women’s experiences as mothers, across lines of class, race, and relationship status. It also examines the politics of motherhood in US history, and considers both the restrictive and the empowering dimensions of ideologies of motherhood. (Cross-listed with HIS/WGS; may only earn credit in one department.) Offered Alternate Years.

HIS 306 Cr.3  
**History of Ethnic America**  
The role and impact of immigrants and ethnic minorities on the political, economic and cultural development of the United States from colonial times to the present. Emphasis on the immigrant experience - the problems of immigrant adjustment, patterns of immigrant mobility and assimilation, and the persistence of ethnicity and ethnic tensions. Offered Alternate Years.

HIS 308 Cr.3  
**Reforming U.S. Society**  
An exploration of moral and political reform and the reform impulse in the United States. Reform topics will include women’s rights, antislavery, civil rights, temperance, populism, social and economic justice, and progressivism. Offered Occasionally.

HIS 310 Cr.3  
**Native American History**  
This course is a survey of Native American history in North America from the prehistoric era through the twentieth century, with an emphasis on the United States. This course will focus on Native American cultural, political, and economic structures, as well as patterns and strategies of coexistence with and resistance to European and European American communities. Offered Spring - Every Third Year.

HIS 311 Cr.3  
**Dilemmas of Peace and War**  
An examination of the causes, consequences and nature of both war and peace in a global context. This course will consider war and peace throughout history and within various cultures. Offered Fall - Every Third Year.
Occasionally.

HIS 328 Cr.3
History of Hinduism
A survey of the historical development of the Hindu religion from its origins in the early Vedic period through the 20th century. Some of the topics covered include the evolution of the belief of reincarnation, the development and significance of the caste system, the development of Hindu attitudes toward women, and the evolution of the principal Hindu gods and goddesses. Offered Spring - Every Third Year.

HIS 329 Cr.3
History of Islam
A survey of the historical development of Islam from its origins through the present day. It will also analyze the central beliefs, practices, and institutions of Muslims. Special attention will be given to the situations of women in the Islamic world. Offered Spring - Every Third Year.

HIS 330 Cr.3
History of Religions
This course will be a historical and broadly comparative study of religion, religions, and religious phenomena. First, it will incorporate a cross-cultural study of such phenomena as myth, ritual, sacred places, gods and goddesses, mysticism, and the various forms of religious community and authority. Second, it will also trace the historical development of the scholarly study of comparative religion. Finally, it will focus on the historical evolution of a particular religious phenomenon through many centuries, i.e., the historical evolution of the devil and the concept of hell in the Old Testament and Christianity. Offered Spring - Even Numbered Years.

ARC/HIS 331 Cr.3
The Ancient Greek World
A historical and archaeological survey of the ancient Greek world (Greece proper, the Aegean Islands, southern Italy, western Turkey). Periods discussed will include Cretan (Minoan), Mycenaean, Archaic, Classical, Hellenistic, and Early Greek Christian. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 332 Cr.3
Ancient Rome and the Mediterranean
A historical and archaeological survey of the ancient Mediterranean area (with emphasis on the Italian peninsula) from the founding of the city of Rome to the collapse of the western Roman Empire in the fifth century ACE. Periods discussed will include: Italy in the Neolithic period, the founding of Rome, Etruscan Domination, the Roman Republic, the Roman Principate/Empire, and the advent of Roman Christianity. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

HIS 333 Cr.3
Christianity to 1517
This course surveys the history of Christianity from its origin up to the beginning of the Protestant Reformation in 1517. Topics to be covered will include: question of the reliability of the Gospels as historical sources, early heresies, Christological and Trinitarian controversies, the conversion of Western and Eastern Europe during the Middle Ages, the evolution of the papacy and monasticism, the Crusades, and the status and treatment of women in ancient and medieval Christianity. Offered Spring - Every Third Year.

HIS 334 Cr.3
Aspects of Chinese History
Each semester this course will examine a specific aspect of the history of China from earliest times to the present. Included will be the Chinese family; the role of ideology in Chinese history (Confucianism, communism, etc.); the revolutionary period (1800-1949); and China since 1949. Offered Occasionally.

HIS 335 Cr.3
History of China
A survey of the history of China from earliest times to the present. Included are the study of traditional China, the impact of western civilization on that traditional society, and the rise of communism. Offered Alternate Years.

HIS 336 Cr.3
Hispahas in the United States
This course will introduce students to the diverse experiences of Hispanic peoples in the United States through an interdisciplinary survey of their social, historical, political, economic, and cultural experiences. Offered Alternate Years.

ARC/HIS 340 Cr.3
Origins of Cities
This course examines the origins and development of urban life. Students will first explore, from an anthropological perspective, the character of modern cities. Students will next examine the earliest cities in the Old and New Worlds, and comparatively explore the varied ecological, social, political, and demographic processes associated with urbanization in various ancient civilizations (Mesopotamia, Egypt, Indus Valley, China, Andes, and Mesoamerica). While the focus of this course is on archaeological cities, it draws heavily on ethnographic and sociological studies of urban forms. The purpose of this course is to provide students with a comparative understanding and appreciation of urban life and its long history. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

HIS 341 Cr.3
Nineteenth Century Latin America
Study of the problems of political instability, economic underdevelopment and social disunity from the Wars of Independence (1810-1825) to World War I. Attention also to the Non-Hispanic Caribbean region. Offered Alternate Years.

HIS 342 Cr.3
Twentieth Century Latin America
The struggle for economic development, political democracy, and social justice in the period of developing nationalism since World War I. The Non-Hispanic Caribbean is included. Offered Alternate Years.

HIS 343 Cr.3
U.S. Borderlands
This course will focus on the Hispanic frontier in North America from California to Florida and the interactions between the United States and Mexico (and Spain) from 1521-1990. Offered Occasionally.

HIS 344 Cr.3
Colonial Latin America
This course will analyze Iberian society as a way to understand the establishment and evolution of Hispanic institutions and culture in Latin America from 1492 until 1821. Offered Alternate Years.

HIS 345 Cr.3
U.S. - Latin American Relations
This course will explore US relations with the Latin American republics from 1776 to the present day. It will devote careful attention to the economic and political goals of US foreign policy in Latin America and explore how these goals have fueled anti-US nationalism, thereby compromising Washington’s efforts to forge closer ties with the Latin American nations. Offered Occasionally.
Occasionally.

**History of the Middle Ages**
The emergence and flowering of medieval European civilization - in its political, religious, socio-economic and cultural aspects - from the Germanic invasions to the Renaissance era. This course will also examine the Byzantine and Islamic civilizations; their interaction with the West; and the contributions made by the Muslim and Byzantine peoples to medieval Europe. Offered Alternate Years.

**A History of Greater Mexico**
This course examines the Mexican experience in the United States as an integral part of Mexican history. Offered Occasionally.

**Renaissance and Reformation**
The broadening of European political, social, cultural, geographical and religious horizons from AD 1300 to 1648. This course will also examine European interaction with Asian, Islamic, and American cultures, and the impact such interaction had upon Europe. Offered Occasionally.

**History of Modern Europe (20th Century)**
The emergence of Europe as a political, cultural, social, and military power during the 19th and 20th centuries. This course will also explore European interaction with non-Western cultures, the two world wars, the Cold War, decolonization, the decline of Europe as a premier world power, and the break-up of Eastern Europe and Soviet regimes. Offered Occasionally.

**Episodes in French History**
An examination of various episodes in French history that illustrate major social, intellectual, political, and economic trends. Each semester will examine a specific aspect of French history since 1750. These will include: the French Revolutions of 1789, 1830, 1848, 1870, and 1968; war and occupation in France; and French intellectual development since 1750. Offered Occasionally.

**History of France: 1750-Present**
A history of France since 1750 incorporating major social, intellectual, political, and economic trends. Offered Alternate Years.

**History of Modern Germany**
Development of Germany through wars of unification and emergence as a world power, World War I and Weimar Republic, Nazi rule and World War II, and changes in the post-war Germanys. Offered Occasionally.

**Maya Civilization**
The course presents an overview of the Maya culture located in southern Mexico and Central America. The class is organized chronologically into several sections that focus on the origins, adaptations to various environments, social, political, and religious organizations, and the belief systems of the Maya beginning at around 3000 BC. Emphasis will be on Pre-Hispanic Maya; will also explore life ways of contemporary Maya people. (Cross-listed with ANT/ARC/HIS, may only earn credit in one department.) Offered Summer.

**Spain to 1700**
This course will examine political, religious, socio-economic, and cultural developments from the beginnings of Visigothic rule to the decline of Spain in the seventeenth century. Particular attention will be paid to Muslim and Jewish contributions to Spanish culture, as well as Iberian voyages of exploration and imperial ventures in the “New World. Offered Occasionally.
HIS 364 Cr.3
Gandhi’s India
A dominant figure in India’s struggle for independence from British rule, M. K. Gandhi (1869-1948) is also one of twentieth century’s most influential political activist and thinker as well as a famous pacifist, who inspired peace and civil rights movements globally. This course charts Gandhi’s life and career against events in London, South Africa, and India. It examines the evolution and application of his ideas and techniques of non-violent resistance, and his attitudes toward the economy, society and state. Gandhi’s influence on Indian politics and society is critically assessed and his claim to be the “apostle of non-violent revolution” examined against developments since his death in 1948. Prior knowledge of Indian history is not required for this course. Offered Occasionally.

ARC/HIS 365 Cr.3
Ancient Iraq
A historical and archaeological survey of ancient Iraq (Syro-Mesopotamia) from its prehistoric origins in the neolithic period to the Seleucid period. Ethnic groups discussed will include the Sumerians, Akkadians, Babylonians, Assyrians, Kassites, Amorites, Chaldeans, and Elamites. Topics will include the rise of urbanism, cuneiform writing, religion, literature, displaced persons, gender relations, and social structure. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 366 Cr.3
Ancient Israel
A historical and archaeological survey of coastal Syria and Palestine from the neolithic period to the Roman conquest. Various ethnic groups discussed will include the Eblaites, Phoenicians, Philistines, Canaanites, Arameans, Israelites, Samaritans, and Judeans. Special emphasis will be placed on putting biblical history in its Palestinian context. Topics will include social structure, gender relations, religion, and literature. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 367 Cr.3
Ancient Egypt
This course is a survey of the history, archaeology, culture, and civilization of ancient Egypt from the prehistoric periods, the Pharaonic periods, as well as the Greco-Roman periods (to the advent of Christianity). Special attention will be given to reading historical texts in translation. We will also explore various aspects of Egyptian religion, and the treatment of woman and non-Egyptian ethnic groups. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 368 Cr.3
History of Babylonian Language and Culture I
This course is a survey of Babylonian history, culture, and language. Babylonian, was the most extensive of the cuneiform languages of the ancient Near East, was the language of the ancient Assyrians and Babylonians and was used for over two millennia. Students will study aspects of the history and culture of ancient Babylonia, as well as learn the fundamentals of Babylonian grammar and syntax, and the cuneiform writing system. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

ARC/HIS 369 Cr.3
History of Babylonian Language and Culture II
This course is a second semester survey of Babylonian history, culture, and language. Babylonian, the most extensive of the cuneiform languages of the ancient Near East, was the language of the ancient Assyrians and Babylonians and was used for over two millennia. Whereas the student studies grammatical forms and is introduced to the cuneiform writing system in the first semester, the student in the second semester will work with documents. Students will study aspects of the history and culture of ancient Babylonia in later periods, as well as read legal, economic, and literary texts in the original language. Prerequisite: HIS 368 or ARC 368. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

HIS/WGS 370 Cr.3
The History of Black Women’s Activism
An historical overview of the thoughts, actions, and creative products of black women activists in the United States, from slavery to the present. Students will examine historical analyses, speeches, essays, economic activities, organizational styles, political issues, and various forms of artistic expression that women of African descent have produced in order to query, resist, and defy the interlocking oppressions of racism, sexism, and class-ism in the United States. Prerequisite: WGS 100 or WGS 210 or WGS 230 or EFN 205 or ERS 100. (Cross-listed with HIS/WGS; may only earn credit in one department.) Offered Alternate Years.

ARC/HIS 371 Cr.3
World War I
This course will examine World War I from a European and global perspective. It will cover the causes, nature, and results of the war as they relate to the society, economy, politics, and culture of Europe. Attention will also be given to some of the global effects of the war as well as the ways this war transformed the nature of warfare in the 20th century. Offered Alternate Years.

ARC/HIS 372 Cr.3
Ancient Turkey
An historical and archaeological survey of ancient Anatolia (the geographic name of Turkey) and surrounding regions (e.g., Syria and the Caucasus) from its prehistoric origins in the Neolithic period, the rise of urbanism, Assyrian mercantilism, Pre-Hattic cultures, the Hittite kingdoms, the Neo-Hittite states, Urartu, Phrygia, Lydia, Cimmerians, Medes, Persians, and various states in the Graeco-Roman period to the advent of Anatolian Christianity. Topics will include cuneiform writing, religion, literature, law, gender relations, and social structure. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.
Occasionally.

Environment of capitalism, colonialism, and globalization. Offered in independence periods. In particular, it examines the interrelationship between capitalism, colonialism, and globalization. Emphasis will be on the study of primary sources in translation (Sumerian, Akkadian, Elamite, Old Persian, Greek, Latin, and Hebrew, amongst others). Topics will include cuneiform writing in Iran, religion, literature, gender relations, classical traditions about Iran, and social structure. (Cross-listed with ARC/HIS, may only earn credit in one department.) Offered Occasionally.

HIS 376 Cr.3
History of Childhood in the United States
This course explores the vast diversity of children's experiences in American history, while also examining contemporary issues for children. The course explores historical change in the socialization, experiences, economic, cultural, and social positions of children. It also examines change and continuity over time in our cultural ideals of childhood and children's rights. (Cross-listed with HIS/WGS, may only earn credit in one department.) Offered Alternate Years.

HIS 377 Cr.3
U.S. Labor History
This course focuses on the history of the American working-class from the late eighteenth century to the late twentieth century. The course will examine the domestic, cultural, religious, economic, political, and social issues working people faced in the United States. Offered Fall - Odd Numbered Years.

HIS 378 Cr.3
History of the U.S. West
This course focuses on the history of the Trans-Mississippi West from European contact to the late 20th century, with a focus on the 19th and 20th centuries. Topics covered include the federal West, settlement, immigration, extractive industries, agriculture, aridity, the environment, and Native Americans. Offered Fall - Every Third Year.

HIS 379 Cr.3
African Environmental History
This course examines how African environmental realities and Africans' conceptions of the environment shaped broader political, social and economic histories. It specifically addresses how 19th century economies, colonial policies, and post-independence priorities transformed Africans' relationships with their environments. Offered Occasionally.

HIS 380 Cr.3
Beyond Rwanda: War and Genocide in Africa's Great Lakes
This course examines recent civil wars and genocide in Africa's Great Lakes as regional and historically-rooted phenomena. Beginning with examination of how ethnic identity related to political structures in the region in the late 18th century, the course traces their dynamic transformations in response to local, regional, and postcolonial influences. Offered Occasionally.

HIS 381 Cr.3
Health and Healing in African History
This class interrogates how African understandings of health and practices of healing transformed from the pre-colonial through the post-independence periods. In particular, it examines the interrelationship between health and politics in African thought, the integration of western biomedicine into African systems of healing, and the changing disease environment of capitalism, colonialism, and globalization. Offered Occasionally.

HIS 382 Cr.3
Imperialism in Asia and the Pacific
This course focuses on the modern imperialism of the West and Japan in Asia and the Pacific. It will cover the period from the "age of exploration" to the period of decolonization following the Second World War. The course will also analyze forms of what might be called neo-imperialism in Asia and the Pacific following that period. Topics emphasized include theories of imperialism as a constituent element of global modernity, the British Empire in Asia with particular respect to India, relatively informal imperialism in China, French and Dutch colonialism in Southeast Asia, the American takeover of Hawaii and US colonization of the formerly Spanish Philippines, and the rise and fall of the Japanese empire. Offered Occasionally.

HIS 383 Cr.3
Women in South Asia
This course maps the history of women in South Asia. While the primary emphasis will be colonial and post-colonial South Asia, the course will begin with ancient India and trace women's history through the medieval period. We will survey the historical institutions, practices, and traditions that define the position of women. Offered Occasionally.

HIS 384 Cr.3
The Idea of Asia
This course addresses relationships between Asia as a concept originating in the West and modern history. Focuses include Orientalism, Pan-Asianism, and Popular Culture. Orientalism examines western representations of "the East" as ideological bases for Western imperialism. Pan-Asianism examines how the Japanese, colonized Indians, and others have imagined Asian civilization as a solution to the problems of modernity. Popular culture examines imaginary conceptualizations of Asia in film, poster, and art. Offered Occasionally.

HIS 385 Cr.3
Modern African History
This course explores the history of Africa from 1800 to present. It focuses on the economic, political, social, and cultural forces that have shaped African societies. It examines continuities and changes by looking at ways in which Africans defined their needs under increasing external pressures. Topics include: colonization, nationalism, independence, post-colonial nation states, women's movements and neocolonialism. Offered Occasionally.

HIS 386 Cr.3
Women and Gender in Africa
An examination of gender and power in Africa, and the historical roots of inequality as experienced by women in the social, economic, religious and political spheres during the 19th and 20th centuries. Course combines case studies on: Queens, goddesses, warriors, gender systems, with thematic issues such as gender impact of colonialism, resistance, African feminism, women politicians and empowerment to provide a vivid image of the state of gender relations in Africa. Offered Occasionally.

HIS 387 Cr.3
African Novels and History
An introduction to the intellectual and cultural history of Sub-Saharan Africa and the experiences of African people in the 20th century specifically through novels. Emphasis on historical theory and research methods. African novels are used as sources of information to deepen understanding of African history. Offered Occasionally.
HIS 388 Cr.3  
**Comparative Slave Systems**  
A study of the commonalities and differences between slave systems in Africa and the Americas which explores conditions in communities created by slaves and escaped slaves from Brazil, the Caribbean and the southern United States. Focus on the impact of the slave trade, the abolition and the nature of historical consciousness within Africa and the African Diaspora. Offered Occasionally.

HIS 389 Cr.3  
**Women and Gender in the Middle East**  
This course examines the role of gender in Middle East history, from the first years of Islam to present, focusing on women’s activism and changing experiences. Offered Occasionally.

HIS 390 Cr.3  
**Public History Research**  
An intensive research field school in historic preservation, cultural resource management, oral history, or museum studies. Students will complete one active research project in one of the above specialties. Both the specialty and the project will vary from semester to semester. Offered Fall, Spring.

HIS 391 Cr.3  
**History of Environmental Policy in the United States**  
This course explores the history of environmental issues in the United States by examining several case studies in contemporary policy from a historical perspective. Special emphasis is placed upon the skills of using historical evidence as a component of policy analysis. This course approaches environmental concerns by examining both their history and the political considerations underlying their creation and disposition. We seek to uncover and understand historical foundations and explanations for particularly contentious or intractable debates in environmental politics. Offered Occasionally.

HIS 392 Cr.3  
**History Through Film**  
This course uses film, television or similar media as a primary or secondary source in the study of history of a region, nation, or historical theme. The premise is that we may study the history of peoples, nations and cultures through film, rather than studying the history of film itself. This course will examine the perils and promise of using film as a source, briefly discuss film criticism and terminology, and include historical context for the films in the course. Students should expect to read and write about film criticism, history and historiography. Depending upon the instructor, students may be required to attend regularly scheduled film showings, watch the films on their own time, or make other arrangements requiring additional student time. Offered Occasionally.

HIS 393 Cr.3  
**Material Culture**  
This course is part of a sequence, along with HIS 403, for students interested in museum work. The course studies the history of museums from the seventeenth century to the present and reviews best practices in material culture analysis. Seminars expose students to historical sites, grant writing, object analysis, didactic panel composition, and exhibition design. Field trips and work with local institutions will be an important aspect of this course. Offered Fall - Every Third Year.

HIS 394 Cr.3  
**Modern Japanese History**  
This course focuses on modern Japanese history up to and including the aftermath of the Second World War. Emphases will be upon social, cultural, political, and economic transformations that occurred following the country's forced opening to trade and diplomacy in the middle of the nineteenth century, subsequent industrialization and the formation of a unified nation-state with a constitutional monarchy, and Japan’s imperialism and modern wars. Themes will include analyses of the contradictions involved in processes of modernity and modernization as well as consideration of ways we remember the period in question in manifestations of culture and as history. Offered Occasionally.

HIS 395 Cr.3  
**Postwar Japanese History**  
This course focuses on transformations and continuities following Japanese defeat at the end of the Second World War. It covers how US occupation policies transformed Japan from a modern nation-state with a colonial empire into a Cold War client state that became an economic superpower. After analyzing the costs and benefits of the postwar “economic miracle,” the course investigates significant changes that followed the end of the Cold War in 1989, the death of the Showa Emperor (Hirohito) who had reigned since 1926 in that same year, and the bursting of Japan's “bubble economy” in 1990. The course ends with a consideration of what has happened in Japan since the beginning of the twenty-first century, and what the future may or may not entail. Offered Occasionally.

ARC/HIS 396 Cr.3  
**Ancient Syria**  
A historical and archaeological survey of ancient Syria and surrounding regions from prehistoric origins to the advent of the Roman conquest in the first century BC. Among the topics discussed will be the rise of urbanism and writing along the Euphrates River, religion, gender, social structure, and literature. Moreover, the student will study in translation the vast cuneiform archives from Ebla, Mari, Alalakh, Qattara, Nuzi, Emar, and Ugarit, to name a few. Furthermore, biblical, classical, and medieval sources concerning Syria in the first millennium BC will be studied. (Cross-listed with ARC/HIS; may only earn credit in one department.) Offered Occasionally.

HIS 397 Cr.3  
**Social History of African Nationalist Movements**  
This course examines the role that ordinary African men and women played in ending colonialism and forming new nations, from the 1940s through the 1980s. It focuses on the processes of creating groups with collective goals, and the ways in which Africans articulated and contested their political visions for the future in the context of decolonization and the Cold War. Offered Occasionally.

HIS 398 Cr.3  
**Social History of Colonial Africa**  
This course focuses on African social history in the face of European colonialism in the nineteenth and twentieth centuries. It particularly examines the ways in which ordinary men and women accepted, adjusted to, or contested the changes that colonialism brought to their work, family, and community lives. Offered Occasionally.

HIS 400/500 Cr.1-3  
**Historical Themes**  
Investigation of areas and topics of current historical interest not covered in the regular curriculum, ranging from local and regional to global issues. Credits generated in this course apply as electives in the major or minor. Repeatable for credit - no maximum. Prerequisite: junior standing. Offered Fall, Winter, Spring, Summer.
History and Japanese Religions
This course examines the complex history of religions in Japan. Focuses will include the various forms of Buddhism that came to Japan over centuries and how they interacted with the politicized animism and ancestor worship called Shinto. The course also addresses the way that modernity in Japan radically altered religious belief and practice, the relationship between post-1868 Shinto and nationalism, connections between Buddhism and imperialism, and post-1945 developments including the flourishing of new religions and religious cults. Offered Fall - Every Third Year.

Exhibition Development and Design
Course surveys best practices in exhibit design and development through practicum that exposes students to concept development, special planning, production, and installation on a budget. Field trips and work with the local institutions will be an important aspect of this course. Topics include: museums in the community, museum organization, exhibition planning and design, care of artifacts and collections, and the visitor experience. Offered Spring - Every Third Year.

Migration and Empire
This course offers in-depth case studies of the Mongol, Ottoman, Dutch, and British empires (1200s-1900s CE), with particular emphasis on the role human migrations played in the creation and expansion of these empires. Selected types of migration to be analyzed in the context of these historical empires include: military, refugee, enslaved, and opportunity-seeking. The construction of migrant group identity, and reactions to migrants from different segment of imperial societies, will also be explored. Special emphasis will be placed on the labor, religious, and ethnic or racial distinctions that emerged as diverse populations came into contact with each other. Offered Fall - Every Numbered Years.

Migration: Personal Accounts
This course examines personal experience (individual, family level) of long distance migration and what they can help us understand about historical migration patterns ca the 1700s-2000s CE. Types of world migration covered include 16th-18th century indentured and enslaved migrations to the Caribbean, 19th century wage-labor migrations to the Americas, and refugee migrations as a result of world wars in the 20th century. The course prioritizes analysis of visual and written primary source materials created by emigrants. Examples include diaries, letters, photographs, oral histories, and manga. These types of materials will be used to investigate selected aspects of the migrant experience, including: life in transit, maintaining ties to home, adjustment to new economic and cultural contexts, and prospects for being accepted into receiving societies. Offered Occasionally.

Topics in Social History
Social historians investigate the ways that different social groups are defined and treated according to categories such as race, class, and gender. They are also concerned with the way that ordinary people define themselves, make claims on governments, and organize for change. Each time the class is offered it will focus on a particular topic important to social historians. Examples might include migration, urbanization, industrialization, social movements, the family, identity, or slavery. Examples and case studies will be drawn from several times and/or places. Offered Occasionally.

State and Society
Could absolute monarchs actually rule with absolute power? Were fascist and communist states really totalitarian in their control of society? Political arguments frequently make generalized claims about "the government" or "the nation" and its relationship to its citizens or subjects. Yet these terms are often only vaguely understood, especially in any historical depth. This course enables students to understand the historical development of state forms and the ways that states and societies interact with one another. Students will use theories and arguments employed by historians to make clearer the complicated relationships by which states exert power and societies demand, accept, or resist the imposition of order by their states. Offered Occasionally.

Teaching and Learning History & Social Studies in the Secondary School
This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in history and social sciences. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school and learn how to design learning experiences to support all learners. Prerequisite: EDS 351. (Cross-listed with ECO/GEO/HIS/POL/PSY/SOC; may only earn credit in one department.) Offered Fall, Spring.

20th Century Civil Rights Movement
This course explores the modern civil rights movement in the US and the struggle for African Americans and other marginalized groups to gain equal rights in voting, education, employment, housing, and other facets of life in the US. It begins with the MOWM and examines the seemingly completing philosophies of civil rights organizations such as CORE, SNCC, SCLC, BPP, AIM, SDS and other civil rights leaders, and local people in shaping their own destinies. It highlights and interrogates major national and local political struggles and their reciprocal relationships with international political and anti-colonial movements from 1941 to the present. It concludes with exploring the link between convict leasing, prison reform movements, political prisoners, and the prison industrial complex as the New Jim Crow. Prerequisite: ERS 100. (Cross-listed with ERS/HIS; may only earn credit in one department.) Offered Fall.

20th Century African American Urban History
This course will explore the interrelationships between race, class, and gender among blacks in the twentieth century American city. Throughout the semester we will interrogate the confluence and the divergence of the myths and the realities of the black urban political, social, and cultural experience in the United States. The course begins in the American South in 1900, where the majority of blacks continued to live, and follows the migration of over two million African Americans to the northern and western United States in the years between World War I and World War II. The course continues with the black community-building process and the black urban struggle for political, economic, and cultural self-determination. While blacks in the South played an enormous role in the Civil Rights Movement, this course will include focus on the Civil Rights and Black Power Movement in the Urban North and West, and conclude with examinations of the rise of the so-called second ghettos. Prerequisite: ERS 100. (Cross-listed with ERS/HIS; may only earn credit in one department.) Offered Fall.
HIS 412 Cr.3
Global Trade and Labor, 1500 to Present
This course examines the history of everyday commodities that we consume or use, often without considering where they came from (sugar, coffee, rubber). It centers on the development of plantation-style agriculture in the Americas, Caribbean, Southeast Asia, and Africa from the 1600s-1930s CE. Power relationships between laborers, landowners, colonial governments, and consumers are examined in order to connect trade goods to the historical societies in which they were produced. A particular emphasis is placed on links between European imperialism, labor migration, and inequality. Offered Every Third Semester.

HIS 413 Cr.3
Topics in Cultural History
This course is an introductory course on relationships between history and culture. Emphases will vary whenever the course is taught. Generally, it covers three interrelated areas: (a) the history of the concept of culture and cultural practices, (b) cultural history, and (c) trans-disciplinary cultural studies. The course will focus upon signification in history, which may involve arts and aesthetics, symbols and signs, language and writing, customs and traditions, and various manifestations of culture in realms such as performances, architecture, cuisine, and apparel. The course will make connections between the place of culture in historical studies and other disciplines in the social sciences and humanities. Instructors may choose to introduce students to both conceptually oriented readings and studies of particular manifestations of culture in various times and places across history and the globe. Offered Alternate Years.

HIS 414 Cr.3
History of Modern Ireland
The history of Ireland has long held the imagination of people throughout the English-speaking world. The written record of the so-called "Land of Scholars and Saints" is indicative of the Irish people's literacy and is reflective of the great deal of interest paid to its history. Ireland's history is one filled with tragedy, complexity, redemption, revolution and rebellion, nationalism, intellectualism, and imperialism. Weaving through this historical narrative is the constant struggle regarding sectarianism, matters of gender and sexuality, economy, emigration, violence, and ethnicity. The relative smallness of Ireland allows the historian - and history student - to examine a wide variety of themes without sacrificing any of the nation's narrative. It is the overarching goal of this course to explore all these themes while analyzing the narrative of modern Ireland. Offered Alternate Years.

HIS 415 Cr.3
Religion and Conflict in Modern South Asia
This course explores religion as a source of conflict in modern South Asia. Using case studies of violent conflicts in India, Nepal, Pakistan, and Sri Lanka, students will examine the place of religious ideas and practices in defining social identity and shaping actual communities, and the role of religion in politics in the context of South Asia during the colonial and post-colonial periods. Materials include theoretical texts, human rights reports, ethnographic accounts, and films. Offered Alternate Years.

HIS 450 Cr.3-12
History Internship/Field Experience
The internship or field experience is intended to provide a student with an on-the-job experience which is related to the history profession, inside or outside academia. A history faculty member shall supervise the selection process, the internship or field experience, and grading. A maximum of six credits may be counted toward the history major and three credits toward the history minor. Prerequisite: minimum cumulative GPA of 2.75 and minimum GPA of 3.00 in history. Offered Fall, Winter, Spring, Summer.

HIS 490 Cr.4
History Research Seminar
A capstone course in historical research and writing: Themes and techniques of historical inquiry, research methods, use of primary sources, interpretation, and composition. Requires completion of a significant research and writing project. Prerequisite: HIS 200; 12 earned history credits, excluding current registration. Offered Fall, Spring.

HIS 497 Cr.1-3
Individual Study in History
Directed readings and research under the supervision of an assigned instructor. Repeatable for credit - maximum six. No more than six credits may count in the major and no more than three credits may count in the minor. Prerequisite: 20 credits in history, including current registration. Consent of instructor. Offered Fall, Winter, Spring, Summer.

Information Systems (IS) - Courses

Courses

IS 220 Cr.4
Information Systems for Business Management
This course provides the basic level of management information systems literacy. Students will be exposed to the building blocks of computer-based information systems, the various organizational aspects of utilizing information systems, and the role of information technology in the digital economy. To stress the importance of user participation, the systems development life cycle will be introduced from end-users' perspective. Additionally, students will acquire essential skills of personal productivity tools through hands-on training in small classes. Offered Fall, Spring.

IS 300 Cr.3
Information Systems Theory, Problem Solving, and Decision Making
This course provides an understanding of the systematic ways for formulating business problems from information systems perspectives, and of the necessary decision processes that lead to effective solutions. Major topics include information systems theory, organizational decision support using IS, decision theory, decision analysis paradigms, and other problem solving techniques. Group decision support technology will also be introduced. Prerequisite: IS 220; admission to business or information systems minor. Offered Spring.

IS 310 Cr.3
Information System in Networked Environments: Technical Foundations and Applications
This course provides fundamentals of data communications and business networking requirements, and examines the linkage of information technology strategies and technological solutions for enabling effective business processes within and between organizations in emerging environments. Major topics include fundamentals of data communications and business networking, applications to data communications, basic technologies of the internet and the web, commercial use of internet technologies, e-business applications, and cases in online industries. Prerequisite: IS 220; admission to business or information systems minor. Offered Spring.

IS 320 Cr.3
Computer-Based Decision Support Systems for Management
An examination of how various software application packages such as spreadsheets, database management systems, and other software tools, are employed to support decision making in business environments. Topic areas include modeling, decision-support systems, data warehouses, on-line analytical processing, and data mining. Prerequisite: CS 120; IS 220; admission to business or information systems minor or health information systems minor. Offered Occasionally.
HIMT 320/IS 321 Cr.3
Survey of Information Technology in Health Care
In this course essential information technologies in health care (HITs) will be surveyed. Many important health care information systems (HISs) are built upon three categories of HITs: data processing technologies, information reporting technologies, and decision supporting technologies. Specific subjects pertaining to these technologies will be identified and introduced. Prerequisite: admission to business or health information management systems minor. (Cross-listed with HIMT 320 / IS 321; may only earn credit in one department.) Offered Fall.

IS 330 Cr.3
Business Choices and Telecommunications Decision
An examination of the business and organizational role of telecommunications. The course will not address the theoretical foundations of telecommunications, but rather focus on using telecommunications to support and achieve business strategies. Course topics will include how businesses are being reshaped by advances in telecommunications; how businesses plan, deploy and manage telecommunications resources; and how businesses are utilizing and administering local area network (LAN) and wide area network (WAN) technology to achieve business objectives. Prerequisite: CS 120; IS 310; admission to business or information systems minor. Offered Fall.

HIMT/IS 340 Cr.3
Ethical Issues, Security Management and Compliance
This course introduces three broad subjects: 1) evidence-based medical ethics pertaining to health care information management; 2) framework of health care information security management including security principles, policies and procedures, security management models, risk assessment, and protection mechanisms; and 3) health care regulations and compliance with focuses on the legislative systems, policies, and legal environment of health care in the U.S. and the existing health information laws, regulations and standards. Also addressed are the elements and development of compliance programs. Prerequisite: admission to business or health information management systems minor. (Cross-listed with HIMT/IS; may only earn credit in one department.) Offered Fall.

IS 360 Cr.3
Management of Information Technology
An examination of issues that both MIS and non-MIS managers face in managing information and information technology within an organization. The course is a topics course and will, of necessity, vary from semester to semester to stay current with the technological changes which managers would face in the workplace. Topics include strategic uses of information technology, technological trends and their implications, the relationship between organizational structure and information technology, evaluation of the effectiveness of information technology, end user computing, management of new and existing systems and ethical and international issues. Prerequisite: admission to business or health information systems minor; junior standing. Offered Spring.

HIMT/IS 370 Cr.3
Health Care Systems: Analysis and Design
This is the first course in a two-course sequence that addresses methods and techniques of health care information system (IS) analysis and design as performed within the system development life cycle. Included will be the definition of the problem, fact gathering, analysis, logical design, selection and evaluation of alternative health care information systems solutions from the point of view of the health provider and user. The course focuses on the problem solving process that leads to the development of logical IS solutions to applied health care programs. Prerequisite: IS 220 or HIMT 320. (Cross-listed with HIMT/IS; may only earn credit in one department.) Offered Fall.

IS 401 Cr.3
Management Information Systems: Analysis and Design
This is the first course in a two-course sequence that covers the development process for computer-based management information systems. This course emphasizes information analysis and the logical design of management information systems. Prerequisite: CS 120, IS 300, IS 310; admission to business or information systems minor. Offered Fall.

IS 405 Cr.3
Information Systems Seminar
Emphasis will be on examination and study of current issues in information systems. Topics will vary from semester to semester. Prerequisite: IS 401; admission to business. Offered Occasionally.

IS 410/510 Cr.3
Information Security Management
This course provides a comprehensive treatment of the managerial aspect of information security while leaving the technical aspect to the computer science discipline. Concepts of information security management (ISM) related to governance, risk management, and compliance will be acquired from survey of contemporary literature including textbooks, journal articles, and online publications while positive models serving as industry standards that are governing today's ISM practice will be introduced and compared. Prerequisite: IS 220 or CS 220 or 2-year relevant industry experience; admission to business. Offered Fall.

IS 411 Cr.3
Management Information Systems: Design and Implementation
This is the capstone course in a sequence that covers the development process for a computer-based management information system. This course emphasizes physical design and implementation of the system. Students will implement an information system in a client-server environment, using a programming language capable of calling functions in a database management system. Prerequisite: CS 364 and IS 401; admission to business. Offered Spring.

HIMT/IS 420 Cr.3
Health Care Systems: Project Management
This course addresses the phenomenal impact information system (IS) projects have had on health care delivery. Students learn how IS health care projects affect organizations, doctors, patients, and chronic-illness treatments, as well as individuals interested in managing their own health care. Concepts and tools for IS health care project management, process reengineering and work redesign are introduced. The purpose of this course is to expose students to IS project management activities in health care settings. Topics covered include recent IS health care project trends, budgeting, scheduling, resource management, scope, risk analysis, and deployment controls. The genesis of health care project management is covered using specific cases and examples. Prerequisite: admission to business or health information management systems minor. (Cross-listed with HIMT/IS; may only earn credit in one department.) Offered Spring.

HIMT/IS 435 Cr.3
Data Communications and Computer Networks in Health Care
This course provides fundamentals of data communications and networking techniques, and examines the linkage of information technology strategies and technological solutions enabling effective communication within and between health care organizations. Major topics include fundamental concepts of data communications and applications, network communication devices, basic technologies of the Local Area Network, Wireless Local Area Network, Wide Area Network, Internet and the Web, the OSI stack, health care information system standards, and the HIE, RHIN, and the NHIN. Prerequisite: IS 220 or HIMT 320. (Cross-listed with HIMT/IS; may only earn credit in one department.) Offered Spring.
IS 451 Cr.1-6

**CBA Management Information Systems Internship**

The internship program as conceived and implemented is an unusual program designed to provide an opportunity for students in the College of Business Administration to participate in an approved program with a cooperating business, governmental or civic organization for usually 15 weeks of their undergraduate work. All management information systems (MIS) internships must be approved and supervised by an IS faculty member. For additional information, see internship description under the College of Business Administration heading. Repeatable for credit - maximum six. Prerequisite: cumulative GPA of at least 2.50; ACC 221, ACC 222; BUS 205, BUS 230; ECO 110, ECO 120; FIN 355; IS 220; MGT 308; MKT 309; admission to business. Pass/Fail grading. Offered Fall, Spring, Summer.

HIMT/IS 490 Cr.3

**Capstone Project**

This course is the capstone course for both tracks of the Health Information Management and Technology Program. Students are required to find an internship site that is related to health care and set up a semester long project from which they can gain hands-on experience in the areas of their concentration. Project set-up will be jointly done by the student, site sponsor, and the faculty of this course, whereas internship supervision will be performed by the project supervisor and the course instructor. Prerequisite: last semester in Health Information Management & Technology Program. (Cross-listed with HIMT/IS; may only earn credit in one department.) Offered Occasionally.

IS 499 Cr.1-3

**Independent Study**

Individual reading or research under the guidance of a staff member. Open to selected advance students who have excellent records in the department. Repeatable for credit - maximum six. Prerequisite: admission to business. Consent of instructor. Pass/Fail grading. Offered Fall, Spring, Summer.

**International Business (IB) - Courses**

**Courses**

IB 450 Cr.1-6

**International Business Internship**

The internship program as conceived and implemented is an unusual program designed to provide an opportunity for students in the College of Business Administration at the University of Wisconsin-La Crosse to participate in an approved program with a cooperating international business, governmental or civic organization for usually 15 weeks of their undergraduate work. For additional information, see internship description under the College of Business Administration heading. Repeatable for credit - maximum six. Prerequisite: ACC 221, ACC 222; BUS 205, BUS 230; ECO 110, ECO 120; FIN 355; IS 220; MGT 308; MKT 309; admission to business; senior standing. Pass/Fail grading. Offered Fall, Spring, Summer.

IB 499 Cr.1-3

**Independent Study**

Individual reading or research under the guidance of a staff member. Open to selected advanced students who have excellent records in the international business major. Students register with consent of the student's faculty advisor and the IBAC chairperson. Approval forms are available from the CBA Dean's Office; completion of form required prior to registration. Repeatable for credit - maximum six. Consent of department. Pass/Fail grading. Offered Fall, Winter, Spring, Summer.

**International Studies (INS) - Courses**

+ next to a course number indicates a general education course

**Courses**

INS 225 Cr.1-3

**Seminar in World Area Studies**

An interdisciplinary examination of the geography, history, culture, and political, economic and social systems of a particular country or world area. Topics vary. Repeatable for credit - maximum six. Offered Occasionally.

INS 226 Cr.1

**Seminar Foreign Study Tour**

Group travel to a selected country or world area, to provide direct contact with the geography, history, culture, and political, economic, and social systems of that region. Must be taken concurrently with a university course that includes foreign travel or foreign tour. Pass/Fail grading. Offered Occasionally.

INS 230 Cr.3

**Introduction to British Life & Civilization**

An interdisciplinary survey of the geography, history, culture, and political, economic, and social systems of Great Britain. This course is taught each semester at the Wisconsin In Scotland Study Center in Edinburgh, Scotland and may be offered at the University of Wisconsin-La Crosse as warranted. Offered Occasionally.

+INS 250 Cr.1

**Orientation to Study Abroad**

This course is required for students accepted into all semester-long study abroad programs offered under the auspices of the University of Wisconsin-La Crosse. It is designed to provide an introduction to the various challenges (cultural, social, linguistic, academic, political, and economic) related to resident study and research in a foreign country. Students learn about stages and theories associated with culture shock, intercultural sensitivity and communication, and reverse culture shock. Students also learn how to apply these theories to their own upcoming international experience. Must complete INS 250, INS 251, and INS 252 to receive general education credit. Consent of department. Offered Fall, Spring.

+INS 251 Cr.1

**Study Abroad Practicum: Journaling**

Students will demonstrate an understanding of the various stages and theories associated with culture shock, intercultural sensitivity and communication and reverse culture shock presented in INS 250. Through journaling students will apply an understanding of the various stages and theories associated with culture shock to their lived experiences in their host country. To accomplish this, students will complete a series of guided written assignments that deal with these specific topics. Students must complete this course while on study abroad. Must complete INS 250, INS 251, and INS 252 to receive general education credit. Prerequisite: INS 250. Offered Fall, Spring, Summer.

+INS 252 Cr.1

**Cross-Cultural Reentry From Study Abroad**

This course is designed for students returning from a study abroad experience. This course will review the concept of re-entry shock discussed in INS 250, examine the process of re-entry, and provide strategies for integrating the study abroad experience with academics, professional goals and personal development. Must complete INS 250, INS 251, and INS 252 to receive general education credit. Prerequisite: INS 250, INS 251. Offered Fall, Spring.
INS 300 Cr.3-16

Foreign Study
Resident study for an extended term at an approved university or other institution of higher education outside the United States. Foreign study programs are available in virtually all major fields and in more than 50 countries around the world. Admission requirements, prerequisite, and costs vary. Complete information is available from the UW-L Office of International Education. Upon satisfactory completion of course work abroad, appropriate credits are entered upon the student's permanent record. Offered Fall, Winter, Spring, Summer.

INS 350 Cr.1-6

Independent Foreign Research
An individually designed, directed research project in a foreign country, dealing with a significant research problem. Open to students in any department, the course permits in-depth, independent research using foreign sources, facilities, and resource persons. Requires a high degree of motivation and the ability to work independently. Prerequisite: INS 250; junior standing. Consent of the director of the Office of International Education. Consent of instructor. Offered Occasionally.

INS 360 Cr.1-3

International Service Learning
Students will participate in service activities in another country as part of a faculty led study program. The activities may range from painting facilities to serving as conversational English partners. Students must engage in 15 hours of service activity, assigned readings, and write 3-5 formal pages or equivalent per credit. Repeatable for credit - maximum six. Offered Fall, Spring.

INS 425/525 Cr.2-3

Interdisciplinary Seminar International Studies
An in-depth examination of selected topics in international studies. The course is interdisciplinary and organized along thematic lines. Topics vary. Repeatable for credit - maximum six. Prerequisite: junior standing. Offered Occasionally.

INS 426/526 Cr.1

International Study Tour
Group travel to explore selected topics in international studies. Must be taken concurrently with university course at upper level or graduate level that includes foreign travel or foreign tour. Departmental option for pass/fail or letter grading. Prerequisite: junior standing. Offered Occasionally.

INS 450 Cr.1-6

International Internship
An academically relevant, professional field experience in a foreign country. Students must be approved and advised by the Office of International Education. Determination of relevancy shall be made by the Office of International Education with the advice and consent of the Director of International Studies curriculum. Students are responsible for finding an appropriate faculty advisor to supervise and grade the internship. Language proficiency must be demonstrated where applicable. Students must be on their internship worksite during the semester for which they are registered for academic credit. One credit/35 hours of experience. Repeatable for credit - maximum six. Prerequisite: junior standing; 2.75 cumulative GPA or consent of the Office of International Education and INS Program. Offered Occasionally.

INS 495 Cr.3

Directed Readings in International Studies
Supervised, directed readings on a topic in international studies which is not accommodated by other courses in the university curriculum. Students design individual plans of study in consultation with appropriate faculty. Consent of the director of international studies courses required to register. Consent of instructor. Offered Fall, Spring, Summer.

Liberal Studies (LS) - Courses

Courses

LS 200 Cr.1

Career Exploration and Planning
This course is designed for students who are undecided or unclear of the benefits of a specific major. Students will explore how their values, interests, and abilities help define their major and career choices. Students will explore particular careers and learn what skills, knowledge, and aptitudes are necessary for success in those fields. Students will also explore the skills, knowledge, and aptitudes developed within particular majors. Students will learn about resources on campus and in the community that will help in exploring careers and building resumes. Emphasis will be placed on evaluating different major and minor combinations to best fit ideal career goals. Prerequisite: open to degree-seeking second semester freshmen and sophomores. Offered Spring, Summer.

LS 300 Cr.1

Career Preparation in Liberal Studies
This course is designed for juniors and seniors who will be graduating within the year who will be on the job hunt or applying to graduate school. The course is designed to help students learn about career options; explore specific jobs; evaluate their skills, abilities, and values and how this plays into the job search; prepare for internships/jobs including resumes, cover letters, and interviewing; and learn where and how to apply for jobs and/or graduate programs. Prerequisite: junior or senior standing. Offered Fall, Summer.

Management (MGT) - Courses

Courses

MGT 100 Cr.3

Introduction to Business
Provides framework within which to develop an appreciation and introductory understanding of the nature of business and the relationships of the functions of business to the environment of the American economy in which students shall assume a major role. May be counted as an elective in the College of Business Administration. Offered Occasionally.

MGT 300 Cr.3

Business Communications
The study of the theory of communications is illustrated and reinforced by many specific applications in writing sales letters, credit and collection letters, business reports of various lengths and kinds, and messages to employees, shareholders, and the public. The resume, job application letter, and the interview are also studied. Oral presentations are an integral part of the course. Prerequisite: admission to business; junior standing. Offered Occasionally.

MGT 303 Cr.3

Principles of Labor-Management Relations
Instruction develops the necessary perspective and the theoretical and legal structure necessary to an understanding of current public policy and contemporary issues in labor-management relations. The case study approach is used in studying current applications. Prerequisite: admission to business or public administration major; junior standing. Offered Occasionally.
MGT 308 Cr.3
Behavior and Theory in Organizations
This course provides an introduction to Organizational Behavior and Theory. Emphasis is on key individual and group level behavioral processes deemed essential for effective management. They include perception, motivation, communication, and group dynamics. In addition, the course covers some basic concepts of organizational theory such as organizational structure and design, organizational culture, and strategy and goals. Prerequisite: admission to business; junior standing. Offered Fall, Spring.

MGT 328 Cr.3
Principles of Management Thought
This course focuses on the principles and evolution of ‘management’ thinking from the advent of the industrial revolution to the present in an increasingly integrated and interconnected world. This course places management thought in a larger political, economic, social and temporal context. It focuses on how management thinking and its accompanying frameworks and practices must evolve and change if it is to make contemporary organizational life creative, effective, and sustainable. (This course should be taken in the first semester of admission to the business program and management major.) Prerequisite: admission to business; junior standing. Offered Fall, Spring.

MGT 360 Cr.3
Global Perspective on Business
This course focuses on managing in today’s increasingly interconnected world. Special attention is paid to creating and maintaining sustainable business practices across international boundaries, including building socially, economically and environmentally effective organizations in a culturally diverse world. Prerequisite: admission to business or international business minor with a non business major; junior standing. Offered Fall, Spring.

MGT 385 Cr.3
Human Resources: Employment
Examines principles and practices involved in recruiting, interviewing, selecting, hiring and developing employees. Separations, transfers, promotions, EEO considerations, privacy and affirmative action are considered. Prerequisite: admission to business or public administration major; junior standing. Offered Occasionally.

MGT 386 Cr.3
Compensation and Benefits Administration
A comprehensive treatment of issues involved in compensation and benefits administration. Issues involved are wage theory, job evaluation, job pricing, types of incentives, Mandated and voluntary benefits, ERISA, legal issues in compensation, cost, impact and future of compensation and benefits administration are also considered. Prerequisite: admission to business. Offered Occasionally.

MGT 393 Cr.3
Production and Operations Management
This introductory course provides business students with the processes of creating and disseminating value in both manufacturing and service operations. The course includes the theoretical foundations for production and operations management, as well as how decision-making techniques aid the manager in creating and delivering value. Global production and distribution strategies are integrated with management processes and projects. Topics include the operation system and processes, the lean and agile enterprise, six sigma, supply chain management and global logistics. Emerging information and manufacturing technologies within the global supply chain are reviewed. Prerequisite: MTH 145, MTH 175; admission to business; junior standing. Offered Fall, Spring, Summer.

MGT 395 Cr.3
Management Science I
Introduction to the quantitative models used in the private and public sectors. Topics include linear programming, transportation and assignment models, project planning, basic inventory models, decision theory, queuing models, and game theory. Prerequisite: MGT 393; admission to business or information systems major. Offered Occasionally.

MGT 398 Cr.3
Total Quality Management
A course designed to explore the nature of companywide quality management. This course critically analyzes the work of quality pioneers such as Deming, Juran, Crosby, Taguchi, etc. Focus is on the functional integration and implementation of quality management in manufacturing and services: management of process quality, quality function deployment, strategic quality planning, human resource and information system management to ensure quality, measures of quality performance, Japanese approach to quality, and internal and external customer focus for continuous improvement. Prerequisite: MTH 145; admission to business or radiation therapy major; junior standing. Offered Occasionally.

MGT 399 Cr.3
Project Management: Planning, Scheduling, Executing, and Controlling
This course emphasizes the use of special tools and techniques in management to accomplish the organizational mission through better control and use of existing resources. It explores ways to harness cross-functional synergy in an organization to successfully plan, schedule, execute and control projects. Prerequisite: MTH 145; admission to business; junior standing. Offered Occasionally.

MGT 400 Cr.1-3
Management Forum
Emphasis will be on examination and study of current management issues. Topics will vary from semester to semester. Same topic may not be repeated if a grade of “C” or better in that topic was earned. Repeatable for credit - maximum nine. Prerequisite: admission to business. Offered Occasionally.

MGT 408 Cr.3
The Global Responsibility of Business
This course considers the turbulent environment in which organizations function and examines specific dimensions of this environment including the evolution of a framework of global human rights, the impacts of economic and social globalization, the convergence of global approaches to sustainability and the changing ideological and political frameworks affecting business. It will also examine matters of global corporate social responsibility and social entrepreneurship. Prerequisite: admission to business or chemistry major with business concentration, or physics major with business concentration; senior standing. Offered Fall, Spring.

MGT 412 Cr.3
Emergent Leadership and Team Development
This course focuses on key differences between management and leadership and the importance of leadership in the context of effective team building. The emphasis is on organizational change and the role that leadership plays in providing direction for this change. Collaborative and non-hierarchical strategies that facilitate team building will be discussed as an alternative to top-down behavior. The course will provide opportunities to think deeply and systematically about the development of leadership skills and the creativity, initiative and motivation critical to that development. Prerequisite: admission to business; senior standing. Offered Occasionally.
MGT 414 Cr.3  
**Crisis and Contingency Management**  
The success of an organization depends in part on its ability to manage change and handle crises, while maintaining the creation of value for stakeholders. As such, this class explores the incubation, management and recovery from crises. Crises in this context encompasses events that threaten the normal operations and viability of the organization. Using contemporary and historical cases, and taking an approach that explores the complexity and uncertainty of contemporary contexts, we will explore the way management practices and processes can both mitigate and exacerbate crisis trajectories. The aim is to provide students with a fuller understanding of the role of management in developing organizational resilience to manage and recover from crises. Offered Annually.

MGT 420 Cr.3  
**Entrepreneurship**  
Students are introduced to the theories, methods, knowledge and skills required of successful entrepreneurs. In addition, students will evaluate the business skills and commitment necessary to successfully operate an entrepreneurial venture and review the challenges and rewards of entrepreneurship. Students will understand the role of entrepreneurial businesses in the economy. Prerequisite: FIN 355; MKT 309; admission to business; junior standing. Offered Fall.

MGT 428 Cr.3  
**Management of Technology and Innovation**  
This course focuses on the management of technological innovation in organizations. It examines how the design of an organization’s structure, internal processes, reward systems and staffing, etc., can enhance the organization’s capability for technological innovation. A combination of lectures, case analyses and independent readings will be used. Prerequisite: admission to business; senior standing. Offered Occasionally.

MGT 430 Cr.3  
**Comparative Management Systems**  
Comparative management is concerned primarily with studying the similarities and differences among nations in the context of management systems in different countries. The focus of the course is on the interaction between sociopolitical and cultural environments and management systems. This course seeks to encourage future managers in a global environment to think in a global context and be knowledgeable about the cultures, political economies and business practices of other countries. Prerequisite: admission to business or international business major or French/German/Spanish major with a business concentration; senior standing. Offered Occasionally.

MGT 431 Cr.3  
**Business, Labor and Human Rights**  
The course examines the impact of globalization, trade regulation and international conventions, agreements and law on human rights, specifically in the context of business and labor rights. Topics include the emergence of post-war human rights structures; the impact of the International Labor Office on Human Rights in the workplace; the establishment of economic, social, and cultural rights in the context of business; the growing conflicts between trade agreements and national policy and emerging partnerships between business organizations and international agencies. Managerial and trade union responses to emerging human rights issues are considered. Prerequisite: admission to business or international business minor with a non business major; senior standing. Offered Occasionally.

MGT 449 Cr.3  
**Administrative Policy Determination**  
An integrated case study approach to the variables in management policy determination at the business strategy level. The course will operationally apply the principles, concepts, and methods of the College of Business Administration core requirements to both actual and simulated case situations. May be taken only in the semester of graduation. Prerequisite: satisfactory completion of all core requirements (ECO 110, ECO 120; ACC 221, ACC 222; BUS 205, BUS 230; IS 220; FIN 355; MGT 308, MGT 393; MKT 309); admission to business; senior standing. Offered Fall, Spring, Summer.

MGT 450 Cr.1-6  
**College of Business Administration Internship**  
The internship program as conceived and implemented is an unusual program designed to provide an opportunity for students in the College of Business Administration at the University of Wisconsin-La Crosse to participate in an approved program with a cooperating business, governmental or civic organization for usually 15 weeks of their undergraduate work. Students may apply up to three internship credits toward the management major, either MGT 450 or MGT 452. For additional information, see internship description under the College of Business Administration heading. Repeatable for credit - maximum six. Prerequisite: ACC 221, ACC 222; BUS 205, BUS 230; ECO 110, ECO 120; FIN 355; IS 220; MGT 308; MKT 309; admission to business; senior standing. Pass/Fail grading. Offered Fall, Spring, Summer.

MGT 452 Cr.1-6  
**College of Business Administration International Internship**  
The internship program as conceived and implemented is an unusual program designed to provide an opportunity for students in the College of Business Administration at the University of Wisconsin-La Crosse to participate in an approved program with a cooperating business, governmental or civic organization for usually 15 weeks of their undergraduate work. Credit for international internships can be received for only internships classified as internationally related internships by Career Services. Students may apply up to three internship credits toward the management major, either MGT 450 or MGT 452. For additional information, see internship description under the College of Business Administration heading. Repeatable for credit - maximum six. Prerequisite: ACC 221, ACC 222; BUS 205, BUS 230; ECO 110, ECO 120; FIN 355; IS 220; MGT 308; MKT 309; admission to business; senior standing. Pass/Fail grading. Offered Fall, Spring, Summer.

MGT 483 Cr.3  
**Human Resource Development**  
The course examines principles and practices of human resource development in business organizations. Students learn to analyze training needs and objectives at the organization and job level. They also learn about various instructional methods used in business. Differences between formal training programs and on-the-job training will be considered. Methods of evaluating human resource development will also be discussed. The relationship between human resource development and other organizational and human resource management goals will also be examined. Prerequisite: admission to business. Offered Occasionally.

MGT 484 Cr.3  
**International Human Resource Management**  
The course examines human resource practices in countries other than the United States. These practices are compared and contrasted with common U.S. practices, and implications for multinational corporations are considered. ÿSpecific topics may include: ÿstaffing, recruiting, overseas transfers, performance appraisal, compensation, and equal employment opportunity issues. Prerequisite: admission to business or international business minor with a non business major; junior standing. Offered Occasionally.
MKT 485 Cr.3
Collective Bargaining

MKT 486 Cr.3
Human Resources: Current Issues and Policies
An in-depth investigation of selected current trends and issues of importance in personnel and industrial relations. An integrative, case-oriented approach to the study of problems and policy in personnel and industrial relations. Simulation exercises and case analysis are used in addition to lecture and student presentations. Prerequisite: admission to business; senior standing. Offered Occasionally.

MKT 487 Cr.3
Male/Female Relationships-Business Environment
An examination of current managerial issues with emphasis on the psychological and social barriers which inhibit the effective performance of individuals in an organization. The course examines the socialization of men and women as related to leadership in working organizations and cultural perceptions of work roles for men and women. The development of human resource strategies for the attainment of individual goals also is emphasized. Other topics such as mentoring in organizations, sexual harassment, benefits issues (e.g., those under the Family and Medical Leave Act), and comparable worth in pay also may be considered. Prerequisite: admission to business; senior standing. Offered Occasionally.

MKT 498 Cr.1-3
Independent Study
Individual reading or research under the guidance of a staff member. Open to selected advanced students who have excellent records in the department. Registration with the consent of the student’s regular adviser, the instructor, and the department chairperson. Repeatable for credit - maximum six. Prerequisite: admission to business. Consent of department. Pass/Fail grading. Offered Fall, Spring, Summer.

Marketing (MKT) - Courses

Courses

MKT 309 Cr.3
Principles of Marketing
An introduction to the study of marketing in business and other organizations. Topics include: the marketing environment, marketing strategies and decision-making, marketing ethics and the international dimension of marketing strategy. Prerequisite: ECO 110; business minor or a major with a business concentration and junior standing, or admission to business. Offered Fall, Winter, Spring, Summer.

MKT 341 Cr.3
International Marketing
An analysis of worldwide marketing opportunities through a consideration of political, legal, economic, and cultural factors in the international context. (Not open for credit to students who are enrolled in or have completed MKT 745). Prerequisite: MKT 309; admission to business or international business minor, or French/German/Spanish major with a business concentration. Offered Fall, Spring.

MKT 351 Cr.3
Sustainability in Marketing
This course addresses ecological issues facing society and modern marketing professionals. Course discussion will include green marketing, environmental responsibility, consumer attitudes and consumption, and providing value to customers via sustainable marketing strategies. Prerequisite: MKT 309; admission to business. Offered Alternate Years.

MKT 362 Cr.3
Buyer Behavior
This course examines basic concepts related to understanding buyer behavior. Topics include information processing, perception, and decision making. Also examines individual and socio-cultural variables which influence buyer behavior. Prerequisite: MKT 309; admission to business. Offered Fall, Spring.

MKT 365 Cr.3
Promotions and Advertising Management
Introduces the various forms and tools of marketing promotion. Includes an analysis of promotional activities in the development of whole marketing plans. Develops student understanding of the role of promotion and the integrated nature of marketing planning. Details the nature and process of developing advertising campaigns as a part of the promotional mix. Examines advertising research, media planning, budgeting, creative activities, and ethical considerations. Prerequisite: MKT 309; admission to business or exercise sports science sport management. Offered Fall, Spring.

MKT 367 Cr.3
Market Research
This course examines the research techniques commonly used to examine buyer behavior, including secondary data, surveys, and focus groups. Topics also include an analysis of research design methods, and the application of research to marketing decision making. Prerequisite: MKT 309; BUS 230; admission to business. Offered Fall, Spring.

MKT 370 Cr.3
Professional Selling and Sales Management
Introduction to selling and sales management as a part of marketing activity and as a professional business process. Includes: identification of sales prospects; determination of client needs; after-sales customer support; legal and ethical obligations of sales professionals; development of oral and written communications for selling; analysis of organizational structure; sales forecasting methods for product, territory and personal sales goals; selection, training, and compensation of sales professionals. Prerequisite: MKT 309; admission to business or exercise sport science - sport management. Offered Fall, Spring.

MKT 386 Cr.3
Industrial Marketing and Transportation
Business-to-business marketing issues are explored and the relationships among competitors, customers, and collaborators are investigated. Covers the roles of members of the value chain and channels of distribution. Strategic overview of the role of global transportation management, as well as tactical control issues for the entire logistics supply chain are covered. Prerequisite: MKT 309; admission to business. Offered Fall, Spring.

MKT 400 Cr.1-3
Marketing Forum
Emphasis will be on examination and study of current management and marketing issues. Topics will vary from semester to semester. Repeatable for credit - maximum six. Prerequisite: admission to business. Consent of instructor. Offered Occasionally.
MKT 415 Cr.3
Senior Seminar
The planning, development, and implementation of an individual research project in marketing. Students will develop and produce a project report related to their marketing studies and career goals. Prerequisite: MKT 362, MKT 367; to be taken concurrently with MKT 479 in the student’s semester of graduation; admission to business. Offered Fall, Spring.

MKT 440 Cr.3
Comparative Marketing Systems
A comparative marketing analysis of a specific region or country. An examination of the marketing practices, social forces, politics, trade history, and economics of (a) specific international area(s). Special attention to the operations of U.S. based firms operating in the area(s). Course may provide opportunity for student travel to the region upon completion of the semester. Note: the area(s) of consideration may vary across semesters, and students should contact the marketing department for specifics. Also, participation in the tour option requires enrollment in INS 226 for one credit. Prerequisite: MKT 309, MKT 341; admission to business or international business minor. Offered Occasionally.

MKT 444 Cr.3
Sports and Recreation Marketing
A comprehensive study of the planning, organization and implementation of marketing plans for all segments of the sports and recreation industry. Topics covered include: assessing market potential, defining the customer, location analysis, pricing, promotion, facilities and services management. Other issues addressed include the impact of new technology, cultural changes and other uncontrollable factors on sports marketing. Prerequisite: MKT 309; admission to business or exercise sport science - sport management. Offered Fall.

MKT 445 Cr.3
International Marketing Strategies
A study of policy and strategy formulation in the context of international marketing. Emphasis is placed on both the theory and application of international marketing decision processes. Prerequisite: MKT 309, MKT 341; admission to business or international business minor plan. Offered Occasionally.

MKT 450 Cr.1-6
College of Business Administration Internship
The internship program as conceived and implemented is an unusual program designed to provide an opportunity for students in the College of Business Administration at the University of Wisconsin-La Crosse to participate in an approved program with a cooperating business, governmental, or civic organization for usually 15 weeks of their undergraduate work. For additional information, see internship description under the College of Business Administration heading. Repeatable for credit. Prerequisite: ACC 221, ACC 222; BUS 205, BUS 230; ECO 110, ECO 120; FIN 355; IS 220; MGT 308; MKT 309; admission to business. Pass/Fail grading. Offered Fall, Winter, Spring, Summer.

MKT 479 Cr.3
Marketing Management
The analysis, planning, implementation and control of marketing programs designed to bring about desired exchanges with target markets within organizational objectives. Prerequisite: MKT 362, MKT 367; to be taken concurrently with MKT 415 in the student’s semester of graduation; admission to business. Offered Fall, Spring.

MKT 499 Cr.1-3
Independent Study
Individual reading or research under the guidance of a staff member. Open to selected advanced students who have excellent records in the department. Registration with the consent of the student’s regular adviser, the instructor and the department chairperson. Repeatable for credit - maximum six. Prerequisite: admission to business. Consent of department. Pass/Fail grading. Offered Fall, Spring, Summer.

Mathematics (MTH) - Courses

Courses

MTH 045 Cr.2
Pre-Statistics
A preparatory course for elementary statistics. Topics include introductory treatment of algebra, inequalities, interval notation, mathematical formulas and notation, variables, descriptive statistics, elementary probability, normal probability distributions, and the concept of statistical inference. Letter grade, but only "F" calculated in GPA. Credit does not count toward graduation. Transcript credit only. Offered Fall, Spring.

MTH 050 Cr.3
Basic Algebra
A review of beginning algebra. Topics include an elementary treatment of real numbers, polynomials, linear equations, inequalities, rational expressions, systems of linear equations, radicals, and quadratic equations. Letter grade, but only "F" calculated in GPA. Transcript credit only. Offered Fall, Spring.

MTH 051 Cr.2
Topics in Intermediate Algebra
A course to enhance the student’s skills in selected areas of intermediate algebra; areas covered include polynomials, rational expressions, exponents, equations, and inequalities. Letter grade, but only "F" calculated in GPA. Transcript credit only. Prerequisite: MTH 050 or an appropriate placement test score. Offered Fall, Spring.

+MTH 135 Cr.4
Mathematics for Elementary Teachers I
This course is designed for prospective elementary teachers. Content strands include number and operations and algebra and functions. Number and operations topics include set theory and pre-number concepts, place-value and numeracy, multiple representations and algorithms for arithmetic, number theory (e.g. divisors, multiples), and proportional reasoning. Algebra and functions topics include the concepts of variable and function, algebraic thinking, linear, polynomial, rational, and exponential functions, mathematical models, rates of change, and multiple representations of relations. Aligned with state and national standards, this course will emphasize problem solving, communication, reasoning, and representation in mathematics. Prerequisite: MTH 050 or satisfactory placement test score; EC/MC or MC/EA major. Offered Fall, Spring.
Mathematics for Elementary Teachers II
This course is designed for prospective elementary teachers. Content strands include geometry and measurement, data analysis and statistics, and probability and discrete math. Topics from these strands include: properties of geometric figures, geometric measurement (length, area, volume), congruence and similarity, and transformations; descriptive statistics, sampling design and statistical comparisons, randomness and variability, inferential statistics (including the normal distribution); counting techniques, uniform and nonuniform distributions, and representations and calculations of probabilities for simple and compound events. Aligned with state and national standards, this course will emphasize problem solving, communication, reasoning, and representation in mathematics. Prerequisite: MTH 135 with a grade of "C" or better. Offered Fall, Spring.

Elementary Statistics
An introductory course covering fundamentals of modern statistical methods. Topics include descriptive statistics, the binomial and normal distributions, estimation, and hypothesis testing. The z, t, F and chi-square test statistics are introduced. Instruction in computer use is included, and statistics software is used throughout the course for analyzing data files and carrying out statistical procedures. Prerequisite: MTH 045 or MTH 050 or an appropriate placement test score. Offered Fall, Spring, Summer.

College Algebra
A college algebra course on the properties, graphs, and applications of elementary functions. Topics include the real and complex numbers, concepts from analytic geometry, solutions to equations and inequalities, the elementary algebraic functions, and the logarithmic and exponential functions. Prerequisite: MTH 051 or two years of high school algebra and an appropriate placement test score. (Successful completion of MTH 151, MTH 175, or MTH 207 precludes taking MTH 150 for credit.) Offered Fall, Spring, Summer.

Precalculus
A precalculus course on properties, graphs, and applications of elementary transcendental functions. Topics include concepts from analytic geometry; theory of equations; the logarithmic, exponential, trigonometric, and inverse trigonometric functions; and analytic trigonometry. Prerequisite: grade of "C" or better in MTH 150 or two years of high school algebra and an appropriate placement test score. (Successful completion of MTH 151 precludes taking MTH 150. Successful completion of MTH 207 precludes taking MTH 151.) Offered Fall, Spring, Summer.

Geometry for Elementary and Middle School Teachers
This course explores the fundamental ideas of measurement and geometry concepts in K-8 mathematics. Content includes the investigation of measurement concepts; the analysis and classification of two- and three-dimensional geometric figures; and the exploration and application of geometric transformations, tessellations, symmetry, congruence, and similarity. Aligned with national and state standards, this course will emphasize intuitive direct and indirect proof and reasoning, the investigation and discovery of geometric structures, and the use of manipulative materials and technology. Prerequisite: grade of "C" or better in MTH 135 and MTH 136. Offered Fall.

Applied Calculus
Basic concepts and methods from differential, integral, and multivariate calculus. Logarithmic and exponential functions are included, but not trigonometric functions. Emphasis of the course is on models and applications in business and the social, life, and physical sciences. Prerequisite: grade of "C" or better in MTH 150 or two years of high school algebra and appropriate placement test score. (Successful completion of MTH 175 precludes taking MTH 150. Successful completion of MTH 207 precludes taking MTH 175.) Offered Fall, Spring, Summer.

Calculus I
A rigorous introduction to calculus. Topics include limits, rules for differentiation, derivatives of trigonometric, logarithmic and exponential functions, the Mean Value Theorem, integration, and the Fundamental Theorem of Calculus. In the area of applications, the course covers problems on related rates, extrema, areas, volumes, and Newton’s Second Law. Prerequisite: grade of "C" or better in MTH 151 or four years of high school mathematics, including trigonometry, and appropriate placement score. (Successful completion of MTH 207 precludes taking MTH 150, MTH 151, or MTH 175 for credit.) Offered Fall, Spring, Summer.

Calculus II
A continuation of Calculus I with a rigorous introduction to sequences and series. Topics include techniques of integration and indeterminate forms, improper integrals, applications of integrals to the physical sciences, tests for the convergence of series, absolute convergence, power series, and Taylor’s Theorem with Remainder. First order linear differential equations are explored, as well as the geometry of space. Prerequisite: grade of "C" or better in MTH 207. Offered Fall, Spring.

Logic and Discrete Mathematics
An introduction to mathematical reasoning. Mathematical logic, including quantification and the predicate calculus is introduced and used to discuss set theory, relations, functions, counting, graphs, and algorithms. Elementary proofs, including proofs by induction are stressed. Prerequisite: grade of "C" or better in MTH 175 or MTH 207. Course not open to those who have credit in CS 225. Offered Fall, Spring.

Probability and Statistics
An introduction to mathematical reasoning. Mathematical logic, including quantification and the predicate calculus is introduced and used to discuss set theory, relations, functions, counting, graphs, and algorithms. Elementary proofs, including proofs by induction are stressed. Prerequisite: grade of "C" or better in MTH 175 or MTH 207. Course not open to those who have credit in CS 225. Offered Fall, Spring.

Mathematical Models in Biology
An introduction to the use of calculus and stochastic based models to the biological sciences. Mathematical tools such as discrete and continuous differential equations, linear algebra, phase portraits, probability theory and descriptive and inferential statistics that are necessary to analyze and interpret biological models will be covered. Biological topics may include single species and interacting population dynamics, modeling infectious diseases, enzyme kinetics, and quantitative genetics. Prerequisite: grade of "C" or better in MTH 175 or MTH 207. Offered Spring.
MTH 280 Cr.3

Algebraic Reasoning and Problem Solving
A study of the mathematical processes and techniques that are used to solve a variety of routine and non-routine problems encountered in school mathematics. Emphasis is on communicating logical arguments, applying a variety of problem solving strategies, and developing mathematical models. Topics include investigations in number and algebraic relationships appropriate to the elementary and middle school classroom. Prerequisite: grade of "C" or better in MTH 135 and MTH 136. Offered Spring.

MTH 309 Cr.4

Linear Algebra with Differential Equations
A systematic study of linear algebra, and its interactions with differential equations. Topics include: vectors, matrices, systems of linear equations, determinants, vector spaces, subspaces, basis and dimension, linear transformations and their matrix representations, similar matrices and diagonalization, systems of first order linear differential equations, and higher order linear differential equations. Prerequisite: grade of "C" or better in MTH 208. Offered Fall, Spring.

MTH 310 Cr.4

Calculus III: Multivariate Calculus
A course in higher dimensional calculus, partial derivatives, and multiple integrals. Topics include parametric curves, polar (and other) coordinate systems, vector fields, scalar fields, the gradient vector, chain rule, Jacobian, Green's Theorem, Stokes' Theorem, and the Divergence Theorem. Prerequisite: grade of "C" or better in MTH 208. Offered Fall, Spring.

MTH 311 Cr.3

Number Theory
Topics are selected from such areas as: divisibility and factorization, congruence, distribution of prime numbers, and Diophantine equations. Problem-solving strategies and unsolved problems are stressed. Applications are developed in areas such as primality testing and public key cryptography. Prerequisite: grade of "C" or better in MTH 225 or CS 225; grade of "C" or better in MTH 309 or concurrent enrollment. Offered Fall - Even Numbered Years.

MTH 317 Cr.3

Graph Theory
An introduction to graph theory-emphasizing algorithms. Topics include graphs and sub graphs, isomorphism, degree sequences, digraphs, networks, algorithm complexity and NP-completeness, trees, Euler circuits and Hamilton cycles, planarity and graph coloring. Prerequisite: CS 120; grade of "C" or better in MTH 225 or CS 225; grade of "C" or better in MTH 309 or concurrent enrollment. Offered Fall - Odd Numbered Years.

MTH 320 Cr.3

History of Mathematics
A study of the evolution of mathematics. Discussion and evaluation of major periods of development including the lives and works of preeminent mathematicians. A sampling of problem solving methods from various historical periods. Emphasis is on Western mathematics from earliest recorded history through the initial developments of calculus and modern mathematics. Prerequisite: grade of "C" or better in MTH 309 or concurrent enrollment. Offered Spring - Odd Numbered Years.

MTH 321 Cr.3

Teaching Mathematics with Technology
This course covers traditional, emerging, and interactive technologies used in the teaching and learning of mathematics. Teacher education candidates will gain an understanding of the use and application of instructional technology. They will explore how software, hardware, and instructional media can be used to enhance mathematics instruction in grades 6-12. Topics include instructional technology for visualizing and exploring mathematics, enhancing and delivering lessons, as well as interactive communication tools. Prerequisite: grade of "C" or better in either MTH 175 or MTH 207; CT 100 or CS 120; admission to teacher education program or consent of instructor. Offered Fall.

MTH 331 Cr.3

Introduction to Modern Geometry
A thorough discussion of transformations and their use in proving congruence of geometric figures; selected theorems concerning the triangle and circle, and constructions possible given different parts of a triangle. Prerequisite: grade of "C" or better in MTH 225 or CS 225; grade of "C" or better in MTH 309 or concurrent enrollment. Offered Spring.

MTH 353 Cr.3

Differential Equations
Fundamental existence and uniqueness theory, linear independence and the Wronskian, series solutions near regular singular points, Laplace transforms and systems of first order linear equations. Fourier Series and the method of separations of variables will be applied to the heat equation, wave equation and Laplace's equation. Prerequisite: grade of "C" or better in MTH 309 and MTH 310. Offered Fall, Spring.

MTH 371 Cr.3

Introduction to Numerical Methods
Techniques devised for use with computing machinery are applied to problems such as: solving non-linear equations and linear systems, curve-fitting and function approximation, numerical integration. Prerequisite: CS 120; grade of "C" or better in MTH 309. Offered Spring.

MTH 395 Cr.1-3

Special Topics in Mathematics
Special topics in mathematics not covered by regular courses taught in this department. The particular topic is decided mutually by the student and instructor. Repeatable for credit - maximum six. Consent of department. Offered Occasionally.

MTH 405/505 Cr.3

Statistical Methods
A survey of statistical methods from the point of view of how these methods are implemented with a standard statistics software package. Topics include descriptive statistics, graphical methods, tests of location, goodness of fit, simple and multiple regression, design of experiments, ANOVA, multiple comparisons, chi-square tests. Both parametric and nonparametric methods are treated. Computer use is an integral part of the course. Prerequisite: grade of "C" or better in MTH 145 or MTH 245; junior standing. Offered Fall.

MTH 407 Cr.3

Real Analysis I
This course covers the basic theory underlying the differential and integral calculus. Convergence of sequences is examined. Theoretical concepts of calculus are examined and particular attention is given to writing proofs. Prerequisite: grade of "C" or better in MTH 225 or CS 225; grade of "C" or better in MTH 309 and MTH 310. Offered Fall.
MTH 408 Cr.3
Real Analysis II
This course covers convergence of series and basic theory of power series. Further study of real analysis via selected topics such as the theory of convergence, Lebesque-Stieltjes integration, Fourier Analysis, probability theory, approximation theory and metric spaces. Prerequisite: grade of "C" or better in MTH 407. Offered Spring - Odd Numbered Years.

MTH 410 Cr.3
Complex Analysis
Introduction to complex numbers and complex functions. Analytical functions are developed via power series and Cauchy's Theorem. Topics include Cauchy-Riemann conditions, integration theorems, residues, conformal mapping and applications. Prerequisite: grade of "C" or better in MTH 309 and MTH 310. Offered Spring - Even Numbered Years.

MTH 411 Cr.3
Abstract Algebra I
A rigorous approach to algebraic systems including the study of groups, rings, integral domains and fields with application to polynomials. Prerequisite: grade of "C" or better in MTH 225 or CS 225; grade of "C" or better in MTH 309. Offered Fall.

MTH 412 Cr.3
Abstract Algebra II
Continuation of MTH 411. Further study of rings, integral domains and fields. Prerequisite: grade of "C" or better in MTH 411. Offered Spring - Even Numbered Years.

MTH 413 Cr.3
Topics in Linear Algebra
A thorough study of selected topics such as abstract vector spaces, linear transformations and their matrix representations, inner product spaces, canonical forms; selected applications. Prerequisite: grade of "C" or better in MTH 225 or CS 225; grade of "C" or better in MTH 309. Offered Spring - Odd Numbered Years.

MTH 421 Cr.4
Teaching and Learning Mathematics and Computer Science in the Secondary School
This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in mathematics and computer science. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school and learn how to design learning experiences to support all learners. Prerequisite: EDS 351; grade of "C" or better in MTH 321. Offered Fall, Spring.

MTH 440 Cr.1
Statistical Consulting
Experiences will include interpersonal, written, and oral communication and interdisciplinary exposure as well as opportunities to apply statistical knowledge in a broad variety of situations. Students will take part in consultations (i.e. extracting information, listening, asking appropriate questions), apply knowledge in experimental design, data modeling, use of statistical software, and/or sampling; diagnose and conduct appropriate statistical procedures and interpret and communicate results. Reading past and present literature on statistical consulting also will be required. Repeatable for credit - maximum three. Prerequisites: grade of "C" or better in MTH 245 or MTH 405; consent of the Statistical Consulting Center director. Consent of instructor. Pass/Fail grading. Offered Fall, Spring, Summer.
MTH 449/549 Cr.3

Applied Multivariate Statistics
An introduction to applied multivariate statistical methods covering multivariate analysis of variance, multivariate analysis of covariance, repeated measures design, factor analysis, principle component analysis, cluster analysis, discriminate analysis, and multivariate regression. Course participants will be involved with hands-on statistical applications. Prerequisite: grade of "C" or better in MTH 245 or MTH 405; junior standing. Offered Fall - Odd Numbered Years.

MTH/PHY 461 Cr.3

Mathematical Physics
In depth study of topics from vector analysis, Fourier analysis and special functions with emphasis on modeling physical phenomena involving conservative fields, fluid flow, heat conduction, and wave motion. MTH 461 may be counted towards both a MTH and PHY major. Prerequisite: grade of "C" or better in MTH 353. (Cross-listed with MTH/PHY; may only earn credit in one department.) Offered Spring - Odd Numbered Years.

MTH 480 Cr.3

Studies in Applied Mathematics
Advanced studies of applications of mathematics and computation to solve problems and understand processes from a variety of fields (for example, industry, medicine and the physical and life sciences.) Requirements include an application/ modeling project with a written report and class presentation. Prerequisite: grade of "C" or better in MTH 353. Offered Spring - Even Numbered Years.

MTH 495/595 Cr.1-3

Special Topics in Mathematics
Special topics in mathematics not covered by regular courses taught in this department, such as topology, set theory and advanced numerical analysis. The particular topic is decided mutually by the students and the instructor. Repeatable for credit - maximum six. Prerequisite: junior standing. Consent of department. Offered Occasionally.

MTH 496/596 Cr.1-3

Special Topics in Statistics
Special topics in statistics not covered by regular courses taught in this department. The particular topic is decided by the instructor. Repeatable for credit - maximum six. Prerequisite: grade of "C" or better in MTH 301 or 302. Consent of department. Offered Occasionally.

MTH 498 Cr.1-3

Independent Study
Directed readings or presentation of material not available in formal departmental courses under the supervision of a faculty member. Registration by written consent of supervising faculty member and department chair. Repeatable for credit - maximum six. Consent of department. Offered Occasionally.

MTH 499 Cr.1-3

Research Topics
An opportunity to pursue individual research topics under the direction of a faculty member. Depending on the nature of the research project, study is expected to involve substantial computational or theoretical work in addition to literature review and instruction. In addition to a written report to the supervising faculty member, expected outcomes may include: software, papers and presentations to the department and regional meetings. Not applicable to a mathematics major or minor. Registration by written consent of supervising faculty member. Repeatable for credit - maximum six. Consent of department. Offered Occasionally.

Medical Dosimetry (DOS) - Courses

Courses
DOS 411/511 Cr.1
Adv Radiologic Imaging for Medical Dosimetrists
This course reviews production of medical images with radiographic equipment as well as ultrasound, MRI and radionuclide scans. Web-based course. Prerequisite: acceptance into the Medical Dosimetry Program. Offered Fall.

DOS 412/512 Cr.1
Simulation for Medical Dosimetrists
Techniques of simulation of treatment set-ups are reviewed and advanced methods of virtual simulation are explored. Web-based course. Prerequisite: acceptance into the Medical Dosimetry Program. Offered Fall.

DOS 413/513 Cr.1
Anatomy for Medical Dosimetrists
Anatomical structure and function which affects treatment planning processes is addressed along with identification of anatomical structures on radiographs, CT and MRI images. Web-based course. Prerequisite: acceptance into the Medical Dosimetry Program. Offered Fall.

DOS 414/514 Cr.3
Physics Fundamentals for Medical Dosimetrists
Fundamental principles of physics important to the production and use of radiation for treatment purposes are reviewed and expanded. Dose measurement utilizing a variety of methods is discussed along with the appropriate instrumentation. Calibration methods for linear accelerators are also discussed. Prerequisite: acceptance into the Medical Dosimetry Program. Offered Fall.

DOS 415/515 Cr.1
Computers & Networking in Radiation Oncology
This course introduces students to basic computer terminology, features of hardware, peripherals, and clinical applications in radiation oncology. Types of networking and the components involved are discussed. Specific network protocols used in healthcare, imaging, and radiation oncology will be described. Prerequisite: acceptance into the Medical Dosimetry Program. Offered Fall.

DOS 416/516 Cr.1
Fundamentals of Radiation Safety
Radiation safety measures are reviewed and updated according to federal and state mandates. Web-based course. Prerequisite: acceptance into the Medical Dosimetry Program. Offered Fall.

DOS 418/518 Cr.1
Professionalism and Mentoring in Medical Dosimetry
This course introduces the student to professional practices of medical dosimetry including standards, scope of practice, ethics and legal perspectives. Students will also discuss the importance of education and mentoring in medical dosimetry. Different aspects of education in the profession will be examined to prepare the student for various roles as a medical dosimetry mentor. Prerequisite: acceptance into the Medical Dosimetry Program. Offered Fall, Spring, Summer.

DOS 422/522 Cr.2
Radiation Dose Calculations
This course introduces factors that affect dose delivered in radiation treatments and how these factors are accounted for in dose calculations. Web-based course. Prerequisite: DOS 411; acceptance into the Medical Dosimetry Program. Offered Spring.
DOS 423/523 Cr.3
Treatment Planning in Medical Dosimetry
Methods of treatment planning techniques for various diseases using single and multiple field arrangements using photons and electrons are discussed. Advanced treatment planning techniques of conformal radiation therapy including 3D treatment planning, IMRT, IGRT, Gating, Protons, and Stereotactic are also discussed. Prerequisite: DOS 411; acceptance into the Medical Dosimetry Program. Offered Spring.

DOS 425/525 Cr.2
Brachytherapy for Medical Dosimetrists
The use of Brachytherapy in radiation therapy is addressed. Characteristics of sources utilized for treatment as well as determination of source activity and dose delivered are included. Methods and instruments utilized to apply Brachytherapy treatment planning techniques to clinical treatment situations are discussed. Web-based course. Prerequisite: acceptance into Medical Dosimetry Program. Offered Spring.

DOS 431/531 Cr.3
Clinical Oncology for Medical Dosimetrists
This course covers cancer in general as well as specific disease sites, their treatment and management of patient care during treatment. Web-based course. Prerequisite: DOS 471; acceptance into the Medical Dosimetry Program. Offered Summer.

DOS 441/541 Cr.1
Radiobiology for Medical Dosimetrists
This course reviews the effect of radiation on the human body in the context of radiation treatments. It particularly focuses on factors affecting the therapeutic ratio. Web-based course. Prerequisite: DOS 472; acceptance into the Medical Dosimetry Program. Offered Fall.

DOS 442/542 Cr.1
Dosimetric Quality Assurance
The methods and importance of periodic quality assurance procedures of treatment planning equipment and processes are covered in this course. Web-based course. Prerequisite: DOS 472; acceptance into the Medical Dosimetry Program. Offered Fall.

DOS 443/543 Cr.1
Seminar in Medical Dosimetry
This course offers students an opportunity to practice answering questions and solving problems as they review course material to prepare for the national medical dosimetry certification exam. Web-based course. Prerequisite: DOS 431; acceptance into the Medical Dosimetry Program. Offered Fall.

DOS 471 Cr.5
Dosimetry Clinical Practicum I
Students gain clinical experience in Simulation patient set-ups and imaging studies, physics and radiation safety in the clinical environment, anatomical contour segmentation, and computers and networking within the radiation oncology field. Students will begin basic calculations and treatment planning while being introduced to brachytherapy procedures. Web-based course. Prerequisite: DOS 411; acceptance into the Medical Dosimetry Program. Offered Spring.

DOS 472 Cr.5
Dosimetry Clinical Practicum II
Students continue to gain clinical experience at an affiliated clinical internship site by concentrating on more advanced treatment planning and Brachytherapy procedures while continuing to learn the various concepts of clinical oncology specific to patient treatments. Prerequisite: DOS 471; acceptance into the Medical Dosimetry Program. Offered Summer.

DOS 473 Cr.5
Dosimetry Clinical Practicum III
Students continue to improve their treatment planning and dosimetric skills, concentrating on advanced planning methods and quality assurance techniques. Prerequisite: DOS 472; acceptance into the Medical Dosimetry Program. Offered Fall.

Microbiology (MIC) - Courses
+ next to a course number indicates a general education course

Courses

+MIC 100 Cr.4
Microbes and Society
Microbiology plays an integral role in human affairs and our daily lives. Some microorganisms have caused tremendous suffering throughout history, however many microbes have also provided countless benefits to humans and play vital roles in essential global cycles. This course examines the science of microbiology and the impact of microbiology on human affairs. The principles of microbial diversity, cell structure, growth and reproduction, global processes, disease, and prevention of disease are covered. Each topic provides a basis for discussion of current issues where microorganisms play a role. The laboratory provides an inquiry based approach to examining the diversity of microorganisms and their role in disease, spoilage, genetic engineering, food and antibiotic production, agriculture, and the environment. Offered Fall, Spring.

MIC 102 Cr.1
Global Bioterrorism
An overview of current potential biological warfare agents. Topic areas will include an historical overview, an explanation of differences in the classes of biological warfare agents, our preparedness to meet this threat, and counter measures to prevent a biological warfare catastrophe. Offered Occasionally.

MIC 120 Cr.1
Introduction to the Microbial Sciences
This course introduces students to the nature and scope of biological sciences that involve microorganisms. The importance, applications, and career opportunities in diverse areas of microbiology such as medical, molecular, food and industrial, ecological, and environmental microbiology will be covered. Current topics of microbiology and their impact on society will be examined. The course introduces students to the various options in the microbiology major, and how microbiology relates to other majors. Offered Occasionally.

+MIC 130 Cr.3
Global Impact of Infectious Disease
A multifaceted examination of issues related to infectious disease throughout the world. The course will begin with historical examples of how infectious disease has impacted society, from plagues of centuries past to recent emerging diseases. After defining the types of pathogens and methods for their control, the interplay between infectious disease and global economics, health and politics will be evaluated. Additionally, the impact of public perceptions and misconceptions on the spread of infectious disease will be analyzed. Finally, the role of current human activities in shaping disease patterns of the future will be explored. Offered Fall, Spring, Summer.
MIC 230 Cr.4
Fundamentals of Microbiology
An introduction to the fundamental principles and applications of microbiology with an emphasis on the role of microorganisms, especially bacteria, in human affairs. Lecture topics include microbial diversity, cell structure and function, growth and metabolism, genetics, genetic engineering, control of microbial growth, host-parasite interactions, immunology, microbial ecology and applied microbiology. Laboratory emphasis is on methods used to cultivate and identify bacteria, genetic techniques, and on standard techniques used in applications of microbiology (clinical, food, industrial, and aquatic). Lect. 2, Lab. 4. Prerequisite: BIO 103 or BIO 105; CHM 103. Offered Fall, Spring, Summer.

MIC 260 Cr.1-3
Topics in Microbiology
Varying topics in microbiology with a specific title assigned to each. Offered by resident faculty or visiting lecturers. Repeatable for credit-maximum six. Prerequisite: MIC 230. Offered Occasionally.

MIC 299 Cr.1-2
Introduction to Microbiology Research
An opportunity to participate in laboratory or field research experience under the direction of a faculty member. Depending on the nature of the research project, study will involve participation in laboratory or theoretical work in addition to selected readings and instruction. A written report to the supervising faculty member is an expected outcome. Completion of safety training required prior to beginning research. Admission with instructor and department approval. Repeatable for credit - maximum four. Consent of department. Offered Fall, Winter, Spring, Summer.

MIC 310 Cr.3
Immunology
Fundamentals of immune system structure and function. Includes response to infectious agents, as well as vaccination, allergy, autoimmune disease, cancer, organ transplantation, immune deficiency and related public health issues. Prerequisite: MIC 100 or BIO 103 or BIO 105 with a grade of “C” or better; one 200 level or higher biology or microbiology course. Offered Fall, Spring.

MIC 350 Cr.3
Bacterial Diversity
A course is a survey of the bacteria. Lectures will cover bacterial classification and the structure, physiology, ecology, and applications of various groups of bacteria. Special emphasis will be on the more unique species and those of industrial, ecological and environmental importance. The laboratory will involve enrichment and isolation procedures for selective groups of bacteria. Lect. 2, Lab 3. Prerequisite: MIC 230. Offered Spring, Fall-Odd # Years.

MIC 380 Cr.4
Food Microbiology
A study of environmental factors affecting the growth, activity, and destruction of micro-organisms in food; principles of food spoilage; preservation of foods, including basic methods and their application to foods; food-borne intoxications and infections; indicator organisms; sanitation and microbiological standards in foods. Laboratory instruction includes quality control methods, sampling methods, techniques to identify important microorganisms in foods, and data interpretation and analysis. Lect. 2, Lab. 4. Prerequisite: MIC 230. Offered Spring.

MIC 407/507 Cr.4
Pathogenic Bacteriology
The study of pathogenic bacteria and their relationships to disease, principles of infection and pathogenesis, and unique properties of pathogens. Laboratory emphasis is on techniques for isolation and identification of pathogenic bacteria. Not applicable to biology major; may be applied to the microbiology, clinical laboratory science major and/or degree as well as an elective for the biology biomedical concentration. Lect. 2, Lab. 4. Prerequisite: MIC 230; junior standing. Offered Fall, Spring.

MIC 410/510 Cr.2
Immunology Laboratory
Designed as an introduction to immunology techniques used in clinical and research laboratories. Includes antibody-based diagnostic tests such as ELISA and Western blot. Cell-based techniques include lymphocyte culture and flow cytometry. Lab 4. Prerequisite: MIC 310 or concurrent enrollment. Offered Fall, Spring.

MIC 416/516 Cr.5
Microbial Genetics
An in-depth study of the bacterial and bacteriophage genome with emphasis on the central dogma. Specific topics include DNA replication, transcription and translation, DNA mutation and repair, regulation of gene expression, mechanisms of genetic exchange, plasmid structure and function, transposition, gene mapping and recombinant DNA technology. Laboratory emphasis is on the techniques used in bacterial mutagenesis, genetic exchange, gene mapping, and gene cloning. Lect. 2, Lab. 6. Prerequisite: MIC 230; CHM 300 or CHM 303; junior standing. Offered Fall.

MIC 420/520 Cr.3
Introductory Virology
An introduction to viruses and their interactions with host organisms. Special emphasis is placed on the structure and replication cycles of virus families with medical importance. Prerequisite: MIC 230; MIC 416 or BIO 306 or BIO 435; junior standing; three semesters of college chemistry to include organic chemistry. Offered Spring.

MIC 421/521 Cr.2
Virology Laboratory
A laboratory course designed to introduce fundamental techniques used to study viruses in medicine, biotechnology and research. Emphasis is on procedures used to safely handle viruses, grow them in tissue culture, and the molecular biological, biochemical and immunological techniques used to detect and analyze viruses. Lab. 4. Prerequisite: MIC 230; MIC 416 or BIO 306 or BIO 435; three semesters of college chemistry to include organic chemistry; junior standing. Offered Fall.

MIC 425/525 Cr.5
Bacterial Physiology
An in-depth study of bacterial structure and function, catabolic and anabolic pathways, regulation, and macromolecular synthesis. Laboratory emphasis is on current techniques used to examine bacterial structure and metabolism such as macromolecular separations and quantification, use of radioisotopic tracers and quantification of enzyme activity. Lect. 2, Lab. 6. Prerequisite: MIC 230; MTH 145 or higher; CHM 300 or CHM 303; junior standing. Offered Spring.

MIC 427/527 Cr.3
Industrial and Fermentation Microbiology
A study of microbiology and biochemistry of food fermentations; bioconversions; production of antibiotics, vitamins, amino acids and organic acids. Prerequisite: MIC 230, CHM 104; junior standing. Offered Fall - Odd Numbered Years.
MIC 428/528 Cr.2
Fermentation Microbiology Laboratory
Principles of fermentation science and biotechnology with emphasis on industrial and food fermentation processes. Laboratory emphasis is on the use of various fermentation systems that generate useful products including fermented food and beverages, pharmaceuticals, chemicals and other gene products. Lab. 4. Prerequisite: MIC 230, CHM 104; junior standing. Offered Occasionally.

MIC 434/534 Cr.3
Aquatic Microbial Ecology
An ecological study of bacteria, cyanobacteria and algae of aquatic ecosystems. Topics include microbial strategies for survival under various environmental conditions, the role of micro-organisms in biogeochemical cycling of elements, interactions of microorganisms with other aquatic biota, the role of microorganisms in pollution problems, and applications of microbial ecology to biotechnology. Laboratory emphasis is on experimental design and sampling techniques, quantification of microbial biomass, and measurement of microbial activities in aquatic habitats. One weekend field trip required. Lect. 2, Lab. 3. Prerequisite: MIC 230; three semesters of college chemistry; junior standing; BIO 341 strongly recommended. Offered Fall - Even Numbered Years.

BIO/MIC 440/540 Cr.2
Bioinformatics
In this course, students will use computers to study and compare the sequence of nucleotides in DNA or RNA, or the amino acids in a protein. Computers are also used to examine the three dimensional structure of protein. Being able to manipulate and study this information is the basis for the current revolution in biotechnology. Topics include evolution, taxonomy, genomics and understanding disease. This course provides students an opportunity to explore the relationships between biology, microbiology, chemistry and computer science. Lect. 1, Lab. 2. Prerequisite: BIO 306 or MIC 416; junior standing. (Cross-listed with BIO/MIC, may only earn credit in one department.) Offered Spring, Winter.

BIO/MIC 442/542 Cr.3
Plant Microbe Interactions
This course will explore in depth various ways that plants interact with microbes in the environment, at the macroscopic, cellular, and molecular levels. Case studies will include both parasitic and mutualistic (symbiotic) interactions. Microbes include fungi, bacteria, nematodes, and viruses. Includes plant pathology and studies of the beneficial relationships between plants and microbes. Inquiry based labs are integrated into the lecture and discussion sessions. Lect. 2, Lab. 2. Prerequisite: BIO 203 or BIO 304; MIC 230; BIO 306 or MIC 416; junior standing. (Cross-listed with BIO/MIC, may only earn credit in one department.) Offered Spring - Even Numbered Years.

MIC 450 Cr.1-3
Internship in Microbiology
An academically relevant field experience in government, industry, business or community agencies. Students must have their internships approved and be advised by the department. Students must be on their internship work site during the semester for which they are registered for academic credit. Repeatable for credit - maximum eight. Maximum of two credits applicable to major. Consent of department. Pass/Fail grading. Offered Fall, Winter, Spring, Summer.

MIC 454/554 Cr.2
Mechanisms of Microbial Pathogenicity
The study of mechanisms of microbial pathogenicity including both overt microbial factors and complex interactions with the host that produce symptoms of disease. The cellular, biochemical, molecular, and genetic bases for modern understanding of microbial disease will be included. Prerequisite: MIC 310 or equivalent; MIC 407 or equivalent; junior standing. Offered Spring - Odd Numbered Years.

MIC 455/555 Cr.3
Field and Laboratory Methods in Vector-Borne and Zoonotic Disease Research
This course will explore methods used in vector-borne and zoonotic disease research. Students will learn current field and laboratory techniques used to understand the epidemiology, spread, and transmission of vector-borne, infectious diseases (VBID’s) and other zoonotic diseases. Emphasis will be placed on sample collection in the field from birds, mammals, and vectors as well as processing and testing samples from the causative agents of West Nile encephalitis, Eastern equine encephalitis, Lyme disease, Human granulocytic ehrlichiosis (HGE), and others. Attention will focus on experimental design and computer methods used in study design and application. Lect/Lab full-time three weeks. Course offered off campus. Prerequisite: MIC 230 or equivalent; junior standing. Offered Occasionally.

MIC 460/560 Cr.1-3
Symposium Microbiology
Varying topics in microbiology with a specific title assigned to each. Offered by resident faculty or visiting lecturers. Repeatable for credit - maximum six. Prerequisite: MIC 230; junior standing. Offered Occasionally.

MIC 461 Cr.1
Capstone in Microbiology
A seminar-style course designed for students to review and discuss basic concepts necessary for a career in microbiology and to assess their major. This course will cover basic concepts of quantitative skills, computer literacy, and current topics microbiology. Students are expected to actively participate in an assessment of their major, and participate in discussions on major issues and developments in the microbiological sciences. Students will present a seminar on a contemporary microbiological topic incorporating primary literature. Prerequisite: senior standing; must have completed all core microbiology classes by the end of the semester for which one is enrolling. Offered Fall, Spring.

MIC 479 Cr.1-2
Microbiology Laboratory Assistant
An opportunity to assist in the preparation and instruction of a microbiology laboratory. Students will be expected to assist in preparation of course materials, demonstrate proper techniques, and evaluate student performance. Completion of safety training required. Repeatable for credit - maximum four. Lect. 2, Lab. 6. Consent of instructor. Pass/Fail grading. Offered Fall, Spring, Summer.

MIC 489 Cr.1-2
Independent Study in Microbiology
A directed reading/project course covering a standard body of knowledge within the discipline but outside that offered through regularly scheduled courses. Under the direction of the supervising faculty member, study may involve a review of current literature. A written report or project is an expected outcome. Completion of safety training required prior to beginning a laboratory or field-based project. Admission with instructor and department approval. Repeatable for credit - maximum four. Consent of department. Offered Fall, Winter, Spring, Summer.
Independent Research in Microbiology
An opportunity to pursue individual research topics under the direction of a faculty member. Depending on the nature of the research project, study is expected to involve substantial laboratory or theoretical work in addition to literature review and instruction. Students are expected to develop research skills related to microbiology. In addition to a written report to the supervising faculty member, expected outcomes may include: laboratory notebooks, experimental devices, software, papers and presentations to departments and regional meetings. Completion of safety training required prior to beginning research. Admission with instructor and department approval. Repeatable for credit - maximum 10. Two credits apply to the major. Consent of department. Offered Fall, Winter, Spring, Summer.

Military Science (MS) - Courses

Courses

MS 101 Cr.2
Introduction to the Army Profession
This course introduces students to the personal challenges and competencies that are critical for effective leadership. Students learn how the personal development of life skills such as time management, physical fitness, and stress management relate to leadership, Office/s, and Army operations. Focus is placed on developing basic knowledge and comprehension of Army Leadership Dimensions while gaining a big picture understanding of the ROTC program, its purpose in the Army and its advantages for the student. Offered Fall.

MS 102 Cr.2
Basic Leadership
This course provides an overview of leadership fundamentals such as setting direction, problem solving, listening, presenting briefs, providing feedback, and using effective writing skills. Students explore dimensions of leadership values, attributes, and competencies in the context of practical, hands-on, and interactive exercises. Continued emphasis is placed on recruitment and retention of students. Cadre role models and the building of stronger relationships among students through common experience and practical interaction are critical aspects of the MS 102 experience. Prerequisite: MS 101. Offered Spring.

MS 202 Cr.2
Leadership and Teamwork
This course examines the challenges of leading tactical teams in the complex contemporary operating environment (COE). The course highlights dimensions of terrain analysis, patrolling, and operation orders. Further study of the theoretical basis of the Army leadership framework explores the dynamics of adaptive leadership in the context of military operations. Students develop greater self-awareness as they assess their own leadership styles and practice communication and team building skills. COE case studies give insight into the importance and practice of teamwork and tactics in real-world scenarios. Prerequisite: MS 201. Offered Spring.

MS 301 Cr.3
Leadership & Problem Solving
This course challenges students to study, practice, and evaluate adaptive leadership skills as they are presented with scenarios related to squad tactical operations. Students receive systematic and specific feedback on their leadership attributes and actions. Based on such feedback, as well as their own self-evaluations, students continue to develop their leadership and critical thinking abilities. The focus is developing students’ tactical leadership abilities to enable them to succeed at ROTC’s summer Leadership Development and Assessment Course (LDAC). Prerequisite: MS 202. Offered Fall.

MS 302 Cr.3
Leadership and Ethical Decision Making
This course uses increasingly intense situational leadership challenges to build student awareness and skills in leading tactical operations up to platoon level. Students review aspects of combat, stability, and support operations. They also conduct military briefings and develop proficiency in garrison operation orders. The focus is on exploring, evaluating, and developing skills in decision-making, persuading, and motivating team members in the contemporary operating environment (COE). Students are evaluated on what they know and do as leaders as they prepare to attend the ROTC summer Leadership Development and Assessment Course (LDAC). Prerequisite: MS 301. Offered Spring.

MS 401 Cr.3
Leadership and Management
This course transitions the focus of student learning from being trained, mentored and evaluated to learning how to train, mentor and evaluate underclass students. Students learn the duties and responsibilities of an Army staff officer. Students will also learn about the special trust, proposed by the U.S. Constitution to Army officers; a trust above and beyond other professions. Further, students will learn Army values and ethics and how to apply them to everyday life as well as in the Contemporary Operating Environment. Finally, students will learn about the officer’s role in the Uniform Code of Military Justice, counseling subordinates, administrative actions and methods on how to best manage their career as Army officers. Prerequisite: MS 302. Offered Fall.

American Military History
A historical review and analysis of the development of military strategy and weapons; a detailed study of the history of the United States military; an analysis of contemporary, post-World War II issues; and a study of selected battles. Offered Spring.
Courses

MLG 101 Cr.4
World Languages: Elementary I
Oral and written language study, reading, grammar. A year of high school study in this language is equivalent to the 101 level. Offered Fall.

MLG 102 Cr.4
World Languages: Elementary II
Oral and written language study, reading, grammar. A year of high school study in this language is equivalent to the 101 level as a prerequisite. Prerequisite: MLG 101 in the appropriate language. Offered Spring.

MLG 110 Cr.3
Introduction to the Study of Languages
An investigation of the nature, function, and characteristics of romance and germanic languages compared linguistically with English and other languages. Offered Occasionally.

+MLG 201 Cr.4
World Languages: Intermediate I
Third semester oral and written language study, reading, grammar. Prerequisite: two years of high school or MLG 102 in this language. Offered Fall.

+MLG 202 Cr.4
World Languages: Intermediate II
Fourth semester oral and written language study, reading, grammar. Prerequisite: three years of high school or MLG 201 in this language. Offered Spring.

+MLG 204 Cr.4
Heritage Language: Intermediate
Taught in the heritage language specified, this course provides opportunities for students to develop intermediate-level heritage language reading and writing skills. Students learn the heritage language writing system in order to read and write short texts. Additional emphasis is placed on geographical variation within the heritage language. Prerequisite: ENG 110; native or near native speaking skills in the heritage language. Consent of instructor. Offered Fall, Winter, Spring, Summer.

+MLG 299 Cr.3
Foreign Literature in Translation
The primary focus of this course is on major and representative works originally written in French, German, Russian, Spanish and Chinese. The course is team-taught in English by specialists of the respective literatures. Content and theme vary with instructors. Offered Spring.
MLG 398 Cr.1-4
World Languages: Advanced
Advanced study of less commonly taught world languages. Instruction may be offered on an individualized basis or through distance education when a course is available on another campus. Repeatable for credit - maximum eight. Prerequisite: MLG 202 in the appropriate language. Offered Occasionally.

MLG 406 Cr.3
Language Assessment and Testing
This course is designed as an introduction to the field of second language assessment and testing. It surveys the different approaches to second language assessment and testing including language proficiency, language aptitude, summative and formative assessments, the assessment context, assessment tools construction, working with assessment data to improve language lessons. Prerequisite: MLG 306. Offered Occasionally.

MLG 455/555 Cr.1-6
Foreign Language Program Development
This course is designed for teachers or prospective teachers working toward teacher certification or recertification in a second or third language and/or in ESL. Program topics include: grammar, conversation, civilization, literature and methods. Repeatable for credit - maximum 12. Prerequisite: junior standing. Acceptance of an approved program by department and permission of department chair. Consent of department. Offered Occasionally.

MLG 473/573 Cr.3
Teaching World Languages: From Early Childhood to Early Adolescence
Designed to prepare pre-service teachers to teach world languages to children in the birth to pre-puberty range; provides a basic understanding of classroom applications of second language acquisition and learning theories, teaching methods, approaches and techniques appropriate for these age levels, standards based assessment and lesson design, and curriculum development. Focus is on putting theory into practice through demonstration, micro-teaching, curriculum evaluation, materials development and unit lesson planning. (This course is intended for students seeking MC-EA world language certification.) Prerequisite: EDS 351 or EDS 402 or concurrent enrollment. Offered Fall.

MLG 474/574 Cr.3
Teaching World Languages: From Early Childhood to Adolescence
A study of how a modern language is learned and acquired and what methods and techniques are effective with varying groups of learners. Focus is on putting theory into practice through demonstration, microteaching, curriculum evaluation, materials development and unit lesson planning. Prerequisite: EDS 351 or concurrent enrollment; junior standing. Offered Fall.

MLG 491 Cr.3
Films and Literature
Viewing and criticism of sub-titled films and reading their literary sources in translation. Prerequisite: one course in literature from either the Modern Languages or English Department. Offered Occasionally.

Music (MUS) - Courses
+ next to a course number indicates a general education course

Courses

MUS 100 Cr.1
Screaming Eagles Marching Band I
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Not repeatable for credit. Offered Fall.

+MUS 105 Cr.2
Music Appreciation
The Western classical tradition. A survey of the forms and styles within each period since the Baroque. Emphasis on the content of specific masterpieces to enhance perceptive learning. Not applicable to major or minor. Not open to students with credit in MUS 110. Offered Fall, Spring.

MUS 106 Cr.1
Concert Choir I
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Offered Fall, Spring.

+MUS 110 Cr.3
The Listening Experience in Music
An introductory course to music listening, with emphasis on methods of perceiving and understanding musical information. Topics include factors in listening, recognition of musical elements and other concepts which contribute to aural perception, and understanding the influence of musical context. The course content will include representative examples of world music, compositions by women, and representative music from the Western classical tradition. Not applicable to major or minor. Not open to students with credit in MUS 105. Offered Occasionally.

MUS 119 Cr.1
MannerChoir I
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Offered Fall, Spring.

MUS 123 Cr.1
Women’s Chorus I
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Offered Fall, Spring.

MUS 130 Cr.1
Jazz Orchestra I
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits an all small ensembles may be applied to the music major. Repeatable for credit - maximum two. Offered Fall, Spring.
MUS 134 Cr.1
Jazz Ensemble I
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Offered Fall, Spring.

MUS 140 Cr.1
Wind Symphony I
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Offered Fall, Spring.

MUS 144 Cr.1
Symphonic Band I
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Not repeatable for credit. Offered Spring.

MUS 146 Cr.1
Keyboard Competencies I
This course is designed to prepare students to use the piano as a functional vehicle of expression and as an accompanying instrument. Emphasis will be given to developing physical coordination of keyboard performance skills, building basic piano technique and basic keyboard theory, harmonizing melodies with given chord symbols and by ear, and reading simple piano literature in traditional music notation. Lect. 1. Lab. 1. Prerequisite: music major or minor, or concurrent registration in MUS 235. Offered Fall - Even Numbered Years.

MUS 147 Cr.1
Keyboard Competencies II
This course is designed to prepare students to use the piano as a functional vehicle of expression and as an accompanying instrument. From performance level attained in Keyboard I, students will continue developing physical coordination of keyboard performance skills, building basic technique, applying keyboard theory and harmonizing melodies. Primary emphasis will be to increase performance ability at first sight through practice strategies, musical analysis and several pieces of piano literature. Lect. 1. Lab. 1. Prerequisite: MUS 146 or consent of instructor. Offered Fall - Even Numbered Years.

MUS 148 Cr.1
Keyboard Competencies III
This course is designed to prepare students to use the piano as a functional vehicle of expression and as an accompanying instrument. Having achieved basic piano technique and reading skills, the emphasis in this course will be to expand the use of the keyboard in practical music education contexts: accompaniments, multiple staff (score) reading and transposition. Students will have opportunities to articulate practice strategies and to assess performances. Practical situations which call for modification of the printed score will also be addressed. Lect. 1. Lab 1. Prerequisite: MUS 146 or consent of instructor. Offered Spring - Odd Numbered Years.

MUS 149 Cr.1
Keyboard Competencies IV
This course prepares music education students to address standards for keyboard competency as stipulated by the Wisconsin Department of Public Instruction. All activities in the course will be driven by practical situations in the classroom using keyboard skills. These skills include demonstration of keyboard technique (scales, chord progressions), folk song accompaniments, transposition of melodies to other keys, score reading (choral or instrumental ensembles) and performance of accompaniments with appropriate stylistic considerations. Lect. 1. Lab. 1. Prerequisite: MUS 148 or consent of instructor. Offered Spring - Odd Numbered Years.

MUS 152 Cr.1
Opera Workshop
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits in all small ensembles may be applied to music major. Offered Occasionally.

MUS 156 Cr.1
Orchestra I
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Offered Fall, Spring.

MUS 158 Cr.1
Choral Union I
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Offered Fall, Spring.

MUS 160 Cr.1
Vocal Jazz I
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits in all small ensembles may be applied to the music major. Repeatable for credit - maximum two. Offered Fall, Spring.

MUS 161 Cr.1
Ensembles
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits in all small ensembles may be applied to music major. Offered Fall, Spring.
MUS 162 Cr.1

Chamber Choir I
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits in all small ensembles may be applied to the music major. Repeatable for credit - maximum two. Offered Fall, Spring.

MUS 200 Cr.1

Screaming Eagles Marching Band II
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Not repeatable for credit. Prerequisite: MUS 100. Offered Fall.

+MUS 201 Cr.3

Musical Cultures
World music from a global perspective, celebrating both the similarities and differences of musical expressions. Exemplary artistic, folkloric, and popular music cultures of the world are compared to those of the Medieval and Renaissance eras. An introduction to hearing these expressions as cultural phenomena, using objective methods of study that lead to a general understanding of music by visual and aural analysis and by hearing music in its cultural context. Prerequisite: MUS 105 or MUS 110 or music major or minor. Offered Fall.

MUS 202 Cr.2

Music History: 1600-1825
A study of music history and literature in the Western world from 1600-1825. Prerequisite: MUS 105 or MUS 110 or MUS 201. Offered Spring.

+MUS 204 Cr.3

Latin American Music: Its Context and Impact
A survey of Latin American musical styles, their cultural contexts, and their impact in the U.S. An assessment of religious, artistic, and popular music, focusing on major schools and traditions in Latin America. The course develops from a geographical, chronological approach ranging from pre-Columbian to European and African manifestations in the 20 Latin American republics, with emphasis on the Hispanic domination. Then the course traces the U.S. impact of Mexicans in the southwest since the California missions, Puerto Ricans in New York, and Cubans in Miami; the inroads of Latin dances on jazz and rock. Offered Occasionally.

MUS 206 Cr.1

Concert Choir II
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 106; sophomore standing. Offered Fall, Spring.

+MUS 209 Cr.3

History of Jazz Culture
A chronological study of the history of jazz from its African/Creole roots to the present with emphasis on ethnic cultural contributions and innovations through listening and selected readings. Offered Fall, Spring.

MUS 211 Cr.2

Basic Conducting
Development of the physical and mental skills necessary for accurate beat patterns, cueing, fermatas, cut-offs, accelerandos and ritardandos. Emphasis is placed on body posture, body language, eye contact, accurate tempos and dynamics. A basic knowledge of musical terms is required along with the ability to use them to teach the aesthetic qualities of music. Prerequisite: MUS 147, MUS 236. Offered Fall - Odd Numbered Years.

MUS 213 Cr.1

Class Guitar
Concentration in development of skills necessary for the use of guitar in the elementary and middle school classroom, including a variety of ways the instrument may be used to accompany singing as well as in solo capacities. Offered Spring - Odd Numbered Years.

MUS 214 Cr.1

String Techniques I
Group instruction on violin/viola. Offered Spring - Odd Numbered Years.

MUS 215 Cr.1

String Techniques II
Group instruction on cello and double bass. This course is designed to prepare students to perform and demonstrate on these instruments at a middle school ability level, teach and diagnose performance problems in elementary and secondary students, and present technical information and demonstrations on the care and maintenance of string instruments. Offered Spring - Odd Numbered Years.

MUS 219 Cr.1

MannerChoir II
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 119; sophomore standing. Offered Fall, Spring.

MUS 220 Cr.1

High Brass Techniques
Group instruction on trumpet/horn. Offered Spring - Even Numbered Years.

MUS 221 Cr.1

Low Brass Techniques
Group instruction on trombone/tuba. Offered Spring - Even Numbered Years.

MUS 223 Cr.1

Women's Chorus II
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 123; sophomore standing. Offered Fall, Spring.

MUS 225 Cr.1

Percussion Techniques I
Group lessons in snare, tympani and mallet instruments. Primarily for students preparing to teach instrumental music. Two periods per week. Offered Spring - Odd Numbered Years.

MUS 226 Cr.1

Percussion Techniques II
Group lessons in mallets, Latin equipment and drum set. Primarily for students preparing to teach instrumental music. Two periods per week. Offered Spring - Odd Numbered Years.
MUS 227 Cr.1
**Woodwind Techniques I**
Group instruction on clarinet. Primarily for students planning to teach instrumental music. Two periods per week. Offered Fall - Even Numbered Years.

MUS 228 Cr.1
**Woodwind Techniques II**
Group instruction on oboe and flute. Primarily for students planning to teach instrumental music. Two periods per week. Offered Fall - Even Numbered Years.

MUS 229 Cr.1
**Woodwind Techniques III**
Group instruction on bassoon and saxophone. Primarily for students planning to teach instrumental music. Offered Fall - Even Numbered Years.

MUS 230 Cr.1
**Jazz Orchestra II**
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band).

MUS 234 Cr.1
**Jazz Ensemble II**
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band).

MUS 238 Cr.1
**Music Reading and Aural Skills II**
Continuation of MUS 237; subdominant harmonies, secondary dominant harmonies, secondary dominants, modulation to near-related keys, two-voice counterpoint, more complex rhythmic patterns involving syncopation and borrowed divisions of the beat. Two periods per week. Prerequisite: successful completion of MUS 237 with a grade of "C" or better; concurrent enrollment in MUS 236. Offered Spring.

MUS 240 Cr.1
**Wind Symphony II**
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 140; sophomore standing. Offered Fall, Spring.

MUS 244 Cr.1
**Symphonic Band II**
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Not repeatable for credit. Prerequisite: MUS 144. Offered Spring.

MUS 249 Cr.1
**Piano Sight Reading**
This course is intensely focused on reading piano music at sight. While the majority of the course provides opportunities to read/perform new music at sight, strategies to improve initial sight-reading skills will be given on a regular basis. Lect. 1, Lab 1. Prerequisite: MUS 149. Offered Fall - Odd Numbered Years.

MUS 250 Cr.1
**Orchestra II**
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 156; sophomore standing. Offered Fall, Spring.

MUS 256 Cr.1
**Choral Union II**
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 158; sophomore standing. Offered Fall, Spring.

MUS 260 Cr.1
**Vocal Jazz II**
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band).

MUS 233 Cr.3
**Music Theory I**
Basic materials in music theory, rhythm, intervals, triads, harmony, modes. Introduction to four-part writing, and to the analysis of forms and styles. Keyboard harmony. Prerequisite: concurrent enrollment in MUS 237. Offered Fall.

MUS 236 Cr.3
**Music Theory II**
Continuation of Music Theory I. Modulation, seventh chords and altered chords. Nonharmonic tones. Keyboard harmony. Prerequisite: MUS 235 or equivalent; concurrent enrollment in MUS 238. Offered Spring.

MUS 237 Cr.1
**Music Reading & Aural Skills I**
Singing at sight and aural recognition (dictation) of scales and modes, intervals, diatonic melody involving tonic and dominant harmonies, rhythmic patterns in simple and compound meters; introduction to alto and tenor clefs. Two periods per week. Prerequisite: concurrent enrollment in MUS 235. Offered Fall.
MUS 262 Cr.1

**Chamber Choir II**

Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits in all small ensembles may be applied to the music major. Repeatable for credit - maximum two. Prerequisite: MUS 182; sophomore standing. Offered Fall, Spring.

MUS 263 Cr.1

**Introduction to Music Technology**

This course introduces the basic principles of music production with recorders, mixers, microphones, synthesizers, samplers, drum machines, computers, video discs and CD ROM devices. It includes fundamental concepts in recording with analog and digital recorders, mixing, analog and digital synthesis, sampling and MIDI/computer applications for music sequencing, notation and education. Prerequisite: MUS 235. Offered Spring - Even Numbered Years.

MUS 300 Cr.1

**Screaming Eagles Marching Band III**

Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Not repeatable for credit. Prerequisite: MUS 200. Offered Fall.

MUS 301 Cr.2

**Music History: 1825-1900**

A study of music history and literature in the Western world from 1825 to 1900: the Romantic Period. Prerequisite: MUS 105 or MUS 110 or music major. Offered Fall.

MUS 302 Cr.2

**Music History: 20th Century**

A study of music history and literature in the Western world from 1900 to the present: the Contemporary Period. Prerequisite: MUS 106 or MUS 110 or music major. Offered Spring.

MUS/THA 304 Cr.3

**History of Music Theatre**

A survey of music theatre history and literature from origins to the present and its effect on popular culture, this course provides an understanding of the development of music theatre into the present day. Particular attention is given to the writers and composers who greatly influenced and/or continue to influence the development of this art form. Prerequisite: ENG 110 or ENG 112. (Cross-listed with MUS/THA; may only earn credit in one department.) Offered Spring - Odd Numbered Years.

MUS 305 Cr.2

**American Music**

A study of musical development in the United States. Colonial music, folk music, jazz, and the development of music as an art in the late nineteenth and twentieth centuries. Prerequisite: MUS 105 or MUS 110 or music major. Offered Occasionally.

MUS 306 Cr.1

**Concert Choir III**

Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 206; junior standing. Offered Fall, Spring.

MUS/THA 310 Cr.3

**The Singer/Actor**

This course examines the process of acting through song and verse. Its purpose is to explore a variety of theoretical and practical approaches integrating acting, vocal and stylistic techniques which support and strengthen each other. Prerequisite: THA 220 or THA 222; MUS 235, MUS 236, MUS 237, MUS 238. (Cross-listed with MUS/THA; may only earn credit in one department.) Offered Fall - Odd Numbered Years.

MUS 312 Cr.1

**Marching Band and Jazz Ensemble Techniques**

Pedagogical techniques and problem solving for conductors of middle school and high school marching bands and jazz ensembles. Prerequisite: MUS 211; MUS 225 or MUS 226; MUS 220 or MUS 221; MUS 226 or MUS 227 or MUS 228. Offered Fall - Odd Numbered Years.

MUS 313 Cr.1

**Orchestra Techniques**

Practical approaches to the design and development of a successful school string and orchestra program. Topics covered will be special recruitment and teaching techniques to the string section, the relationship between bowing and style, effective use of heterogenous teaching methods, chamber music in the string curriculum and scheduling, repertoire, equipment, style and techniques for the full orchestra, string orchestra, strolling strings and "Pops" orchestra. Prerequisite: MUS 211; MUS 214 or MUS 215. Offered Occasionally.

MUS 316 Cr.2

**Advanced Instrumental Conducting**

The study of advanced problems in instrumental conducting. Topics covered include baton technique, score preparation and analysis, interpretation, rehearsal technique and procedure and the study of appropriate instrumental literature of the band and orchestra in relation to its performance and practice. Prerequisite: MUS 211. Offered Fall - Even Numbered Years.

MUS/THA 317 Cr.3

**Musical Classroom**

Contextual music methodology course designed for elementary classroom teachers. This course is intended to explore the role of the classroom teacher. The emphasis of the course is to incorporate music into the daily class activities through performance and teaching opportunities. The course content will include listening to representative selections of Western classical, American, and Asian music in relation to its historical, social, and cultural contexts. Not applicable to the music major or minor. Most appropriate for teacher education. Offered Fall, Spring.

MUS 318 Cr.2

**Advanced Choral Conducting**

The study of advanced problems in choral conducting. Topics covered will include conducting techniques, score preparation, and analysis, interpretation, rehearsal techniques and procedures, and appropriate choral literature. Prerequisite: MUS 211. Offered Spring - Even Numbered Years.

MUS 319 Cr.1

**MannerChoir III**

Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 219; junior standing. Offered Fall, Spring.

MUS 320 Cr.2

**Orchestration**

A study of the characteristics and capabilities of orchestral and band instruments and the writing of practical transcription and arrangements for various small ensembles, the full band and the orchestra. Prerequisite: MUS 236. Offered Spring - Odd Numbered Years.
MUS 321 Cr.2
Choral Arranging
Scoring and arranging for mixed chorus, choirs, glee clubs and small vocal ensembles; scoring of instrumental accompaniment for vocal groups. Prerequisite: MUS 335. Offered Fall - Even Numbered Years.

MUS 322 Cr.3
Choral Techniques
Basic principles of choral performance. Elements of expression, stylistic characteristic and preparation of choral groups. The voice at different age levels. Examination and evaluation of choral materials. Prerequisite: MUS 211. Offered Spring - Odd Numbered Years.

MUS 323 Cr.1
Women's Chorus III
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 223; junior standing. Offered Fall, Spring.

MUS/THA 324 Cr.3
Cabaret Performance Workshop
Students work together in a workshop format to rehearse and eventually perform a cabaret set consisting of ensemble numbers, duets and solos on a common theme. Each number will be carefully rehearsed and staged. This is a studio course requiring active and regular participation. Repeatable for credit - maximum six. Prerequisite: admission to the music theatre emphasis. (Cross-listed with MUS/THA; may only earn credit in one department.) Offered Fall - Even Numbered Years.

MUS 326 Cr.2
Jazz Improvisation I
The study and application of the theoretical, technical and performance aspects of jazz improvisation. Three periods per week. Prerequisite: MUS 236. Consent of instructor. Offered Fall - Odd Numbered Years.

MUS 327 Cr.2
Jazz Improvisation II
A continuation of the principles and techniques of "Jazz Improvisation I" (MUS 326), but at a higher performance level. Three periods per week. Prerequisite: MUS 326. Consent of instructor. Offered Fall - Odd Numbered Years.

MUS 328 Cr.1
Diction in Music
The study of diction for music majors and minors dealing with the phonetic systems and texts in foreign language. Offered Occasionally.

MUS 329 Cr.1
Recording Techniques
Physical properties of sound, the recording chain and principles of audio recording will be covered. Participants will be responsible for a final recording project. Consent of instructor. Offered Occasionally.

MUS 330 Cr.1
Jazz Orchestra III
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits an all small ensembles may be applied to the music major. Repeatable for credit - maximum two. Prerequisite: MUS 230; junior standing. Offered Fall, Spring.

MUS 333 Cr.2
Electronic Music
Basic principles and theory of the generation and modification of acoustical wave-forms by electronic means. Consent of instructor. Offered Occasionally.

MUS 334 Cr.1
Jazz Ensemble III
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits in all small ensembles may be applied to the music major. Repeatable for credit - maximum two. Prerequisite: MUS 234; junior standing. Offered Fall, Spring.

MUS 335 Cr.3
Music Theory III
Continuation of "Music Theory" I and II (MUS 235 and MUS 236) with further study of modulation, altered chords, and extended chords. Stylistic and formal analysis and composition with emphasis upon eighteenth and nineteenth century styles and techniques. Keyboard harmony, sight reading and ear training. Prerequisite: MUS 236 or equivalent. Offered Fall.

MUS 336 Cr.3
Music Theory IV
Continuation of "Music Theory III" (MUS 335) with analysis of the principal forms of music. Stylistic and formal analysis and composition with emphasis upon twentieth-century idioms. Keyboard harmony, sight reading and ear training. Prerequisite: MUS 335 or equivalent. Offered Spring.

MUS 337 Cr.1
Music Reading & Aural Skills III
Continuation of MUS 238; chromatic harmonies, four-voice dictation, rhythmic patterns involving changing and complex meters. Two periods per week. Prerequisite: completion of MUS 238 with a grade of "C" or better; concurrent enrollment in MUS 335. Offered Fall.

MUS 338 Cr.1
Music Reading & Aural Skills IV
Continuation of MUS 337; higher chords, non-tonal melody, rhythmic patterns involving syncopation in changing and complex meters. Two periods per week. Prerequisite: completion of MUS 337 with a grade of "C" or better; concurrent enrollment in MUS 336. Offered Spring.

MUS 340 Cr.1
Wind Symphony III
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 240; junior standing. Offered Fall, Spring.

MUS 342 Cr.1
Keyboard Accompanying
Instruction and practical experience in keyboard accompanying. Consent of department. Offered Occasionally.

MUS 344 Cr.1
Symphonic Band III
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Not repeatable for credit. Prerequisite: MUS 244. Offered Spring.
MUS 349 Cr.1
Vocal Accompanying
Instruction and practical experience in vocal accompanying. Topics include score reading, rehearsal techniques, simplifying scores, improving pianistic interpretation in performance. Lect. 1, Lab. 1. Prerequisite: MUS 249. Offered Spring - Even Numbered Years.

MUS 351 Cr.2
Piano Pedagogy I
An introduction to teaching piano. Topics include methods and materials currently used for studying piano, business and administrative issues related to operating independent teaching studios, innovative strategies beyond traditional method book instruction and piano literature. Through a comprehensive survey of piano literature and essential pedagogical collections of repertoire, students will establish a foundation for teaching styles of intermediate and advanced piano literature. Lect. 2, Lab. 1. Prerequisite: music major; concurrent registration in MUA 314. Offered Spring - Odd Numbered Years.

MUS 352 Cr.2
Piano Pedagogy II: Instructional Strategies
This course is designed to study and implement strategies for improving effectiveness in piano teaching. A systematic examination and evaluation of piano methods will be covered, as well as discussions regarding teaching content versus teaching process. Topics on teaching effectiveness will include behavioral modifications, task analysis, teaching cycles, and observation and evaluation techniques. Students also receive initial training in systematic methods for making independent changes in both piano practice and piano teaching environments. Lect. 2, Lab. 1. Prerequisite: MUS 351; concurrent registration in MUA 314. Offered Spring - Even Numbered Years.

MUS 356 Cr.1
Orchestra III
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 256; junior standing. Offered Fall, Spring.

MUS 358 Cr.1
Choral Union III
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 258; junior standing. Offered Fall, Spring.

MUS 360 Cr.1
Vocal Jazz III
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major: MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits in all small ensembles may be applied to the music major. Repeatable for credit - maximum two. Prerequisite: MUS 260; junior standing. Offered Fall, Spring.

MUS 362 Cr.1
Chamber Choir III
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major: MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits in all small ensembles may be applied to the music major. Repeatable for credit - maximum two. Prerequisite: MUS 262; junior standing. Offered Fall, Spring.

MUS 371 Cr.3
Methods and Materials in Elementary School Music
This course is designed to prepare music education majors to teach content and skills essential for developing musicianship for children in pre-kindergarten through elementary school. Prerequisite: MUS 335; admission to teacher education. Offered Fall - Even Numbered Years.

MUS 372 Cr.3
General Music in the Middle/Senior High School
This course is designed to prepare music education major students for teaching general music in secondary schools. Sufficient materials, methods, and techniques are explored as to enable the beginning teacher to deal with adolescent musical skills. Prerequisite: admission to teacher education. Offered Spring - Odd Numbered Years.

MUS 373 Cr.3
Choral Music in the Middle/Senior High School
This course is designed to provide the students with the basic principles and techniques of choral preparation and performance in relation to public school choral ensembles. It deals specifically with vocal production in young voices, choral sound, repertoire, stylistic characteristics, and expressive elements. Prerequisite: admission to teacher education. Offered Spring - Odd Numbered Years.

MUS 374 Cr.3
Instrumental Music in the Schools
A practicum in the structure, supervision, and administration of school instrumental music programs. Emphasis placed upon elementary band techniques, junior/senior high school band/orchestra rehearsal procedures, and organization and conducting. Prerequisite: completion of eight hours of techniques classes and conducting; admission to teacher education. Offered Fall - Odd Numbered Years.

MUS 400 Cr.1
Screaming Eagles Marching Band IV
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 300. Offered Fall.

MUS 403 Cr.2
Symphonic Literature
A study of the development of the orchestra, the important orchestral forms and the evolution of orchestral styles through the study of compositions of representative composers. Prerequisite: MUS 301 or MUS 302. Offered Occasionally.

MUS 406 Cr.1
Concert Choir IV
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum four. Prerequisite: MUS 306; senior standing. Offered Fall, Spring.
Course descriptions

MUS 407 Cr.2
Survey of Opera
A historical survey of opera from its origin to the present, emphasizing an understanding of the parameters of opera as an art form. Prerequisite: MUS 105 or MUS 110 or music major; MUS 301 or MUS 302. Offered Occasionally.

MUS 419 Cr.1
MannerChoir IV
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum four. Prerequisite: MUS 319; senior standing. Offered Fall, Spring.

MUS 423 Cr.1
Women's Chorus IV
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum four. Prerequisite: MUS 323; senior standing. Offered Fall, Spring.

MUS 430 Cr.1
Jazz Orchestra IV
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits an all small ensembles may be applied to the music major. Repeatable for credit - maximum four. Prerequisite: MUS 330; senior standing. Offered Fall, Spring.

MUS 432 Cr.2
Counterpoint
Composition of musical themes with analysis and writing of counterpoint in two and three parts. Prerequisite: MUS 335. Offered Occasionally.

MUS 434 Cr.1
Jazz Ensemble IV
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits an all small ensembles may be applied to the music major. Repeatable for credit - maximum four. Prerequisite: MUS 334; senior standing. Offered Fall, Spring.

MUS 437 Cr.2
Form and Analysis
The study of the basic structural principles and patterns of music, of their expansion into the chief homophonic and contrapuntal forms in Western music. Prerequisite: MUS 335. Offered Occasionally.

MUS 439 Cr.2
Composition
The study of compositional techniques and their application to the writing of original music. Individual projects in composition. Prerequisite: MUS 336. Offered Occasionally.

MUS 440 Cr.1
Wind Symphony IV
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum four. Prerequisite: MUS 340; senior standing. Offered Fall, Spring.

MUS 444 Cr.1
Symphonic Band IV
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum two. Prerequisite: MUS 344. Offered Spring.

MUS 456 Cr.1
Orchestra IV
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum four. Prerequisite: MUS 356; senior standing. Offered Fall, Spring.

MUS 458 Cr.1
Choral Union IV
Large ensemble open to students in all schools and colleges with consent of instructor. A maximum of six credits in all large ensembles may be applied to music major. Repeatable for credit - maximum four. Prerequisite: MUS 358; senior standing. Offered Fall, Spring.

MUS 460 Cr.1
Vocal Jazz IV
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits an all small ensembles may be applied to the music major. Repeatable for credit - maximum four. Prerequisite: MUS 460; senior standing. Offered Fall, Spring.

MUS 462 Cr.1
Chamber Choir IV
Small ensemble open to students in all schools and colleges with consent of instructor. Requires concurrent enrollment in a large ensemble for music education majors: MUS 106/206/306/406 (Concert Choir), MUS 119/219/319/419 (MannerChoir), MUS 123/223/323/423 (Womens Chorus), MUS 158/258/358/458 (Choral Union), if choral or general music education major. MUS 100/200/300/400 (Marching Band), MUS 156/256/356/456 (Symphonic Band), MUS 140/240/340/440 (Wind Symphony), if instrumental or general music education major. A maximum of two credits an all small ensembles may be applied to the music major. Repeatable for credit - maximum four. Prerequisite: MUS 362; senior standing. Offered Fall, Spring.

MUS 480 Cr.1-3
Independent Study of Music
Individual projects. Concentration in one area of advanced music study. Open to selected advanced students who have excellent records in the department. Admission by consent of adviser, instructor, and music department staff. Repeatable for credit - maximum six. Consent of department. Offered Occasionally.
Music Applied (MUA) - Courses

MUA 201 Cr.1  
Applied Flute  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 202 Cr.1  
Applied Oboe  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 203 Cr.1  
Applied Clarinet  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 204 Cr.1  
Applied Bassoon  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 205 Cr.1  
Applied Saxophone  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 206 Cr.1  
Applied Horn  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 207 Cr.1  
Applied Trumpet  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 208 Cr.1  
Applied Trombone  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 209 Cr.1  
Applied Euphonium  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 210 Cr.1  
Applied Tuba  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 211 Cr.1  
Applied Percussion  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 214 Cr.1  
Applied Piano  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 215 Cr.1  
Applied Guitar  
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.
MUA 216 Cr.1
Applied Violin
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 217 Cr.1
Applied Viola
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 218 Cr.1
Applied Cello
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 219 Cr.1
Applied Bass
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 221 Cr.1
Applied Voice
Intermediate applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 301 Cr.1
Applied Flute
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 302 Cr.1
Applied Oboe
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 303 Cr.1
Applied Clarinet
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 304 Cr.1
Applied Bassoon
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 305 Cr.1
Applied Saxophone
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 306 Cr.1
Applied Horn
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 307 Cr.1
Applied Trumpet
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 308 Cr.1
Applied Trombone
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 309 Cr.1
Applied Euphonium
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.
MUA 310 Cr.1
Applied Tuba
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 311 Cr.1
Applied Percussion
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 314 Cr.1
Applied Piano
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 315 Cr.1
Applied Guitar
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 316 Cr.1
Applied Violin
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 317 Cr.1
Applied Viola
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 318 Cr.1
Applied Cello
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 319 Cr.1
Applied Bass
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 321 Cr.1
Applied Voice
Advanced applied course requiring audition. Includes one-half hour private lesson per week and one class lesson per week; performance for music department jury at end of semester. Repeatable for credit - maximum six. Prerequisite: open to music majors or minors. Others may enroll on a space available basis based on audition. Non-music majors and non-music minors pay an applied music fee. Offered Fall, Spring.

MUA 471 Cr.1
Recital
Capstone project in applied music. Includes one-half hour private lesson per week and one class lesson per week plus public recital. Requirements vary by emphases. See the music department's "Student Handbook." Repeatable for credit - maximum two. Prerequisite: open to music majors; two semesters of 300 level applied music in the performance area of the recital. Concurrent enrollment in 300 level applied music course recommended. Offered Fall, Spring.

MUA 472 Cr.1
Performance Emphasis Recital
Capstone project in applied music. Includes one-half hour private lesson per week and one class lesson per week plus public recital. Requirements vary by emphases. See the music department's "Student Handbook." Repeatable for credit - maximum two. Prerequisite: open to music majors; two semesters of 300 level applied music in the performance area of the recital. Concurrent enrollment in 300 level applied music course recommended. Offered Fall, Spring.

Nuclear Medicine Technology (NMT) - Courses

Courses
NMT 201 Cr.1
Introduction to Nuclear Medicine Technology
Orientation to the application and professional aspects of nuclear medicine technology; including radiation safety and protection, types of imaging procedures performed, computer applications, related allied health professions and ethics. Lect. 0.5, Lab. 1. Offered Fall.

NMT 314 Cr.2
Cross-Sectional Anatomy
This course revisits anatomy specifically from an imaging perspective. Students will learn to identify normal and abnormal structures on CT and MRI scans and locate topographic landmarks on diagnostic and simulation images. Prerequisite: BIO 313 with a grade of "C" or better. Students with credit in RT 421 cannot earn credit in NMT 314. Offered Fall.

NMT 395 Cr.1
Immunology for the Nuclear Medicine Technologist
A highly focused investigation of the practices of immunology for the student of nuclear medicine technology. Offered Fall.
NMT 398 Cr.2
Research Writing in Nuclear Medicine Technology
This course focuses on students learning how to interpret published data and how to write an article ready for publication in professional journals in the field of nuclear medicine. Students in the Nuclear Medicine Technology Program will learn how to read, review, and comprehend NMT literature through a series of different writing exercises. Students will have opportunities to become comfortable deciphering the most up to date journal publications writing a journal article. Students will draft and revise their own work to become publication ready in "The Journal of Nuclear Medicine Technology. Prerequisite: concurrent enrollment in NMT 398; admission to NMT Program. Offered Spring.

NMT 399 Cr.1
Applied Research Writing in Nuclear Medicine Technology
This applied writing lab focuses on students practicing the art of interpreting data and summarizing NMT data. Learning how to summarize data and to write an article ready for publication in professional journals in the field of nuclear medicine will assist them in becoming successful in the field. The applied setting will offer students an opportunity to understand and perfect the different parts of writing an NMT research proposal. The applied writing lab provides opportunities for students to draft and revise their own work to become publication ready in "The Journal of Nuclear Medicine Technology. Prerequisite: concurrent enrollment in NMT 398; admission to NMT Program. Offered Spring.

NMT 401 Cr.2
Management and Methods of Patient Care I
The survey of hospital administrative procedures including medical terms and medical ethics. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Fall, Spring.

NMT 402 Cr.1-4
Clinical Correlation: Anatomy, Physiology and Pathology
A lecture series of topics of current interest selected and presented by nuclear medicine physicians. Emphasis on clinical interpretation of organ systems pathophysiology as viewed by the practicing nuclear physician. Lect. 1-2. Duration: two semesters. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 403 Cr.2-4
Anatomy, Physiology and Pathology
The anatomy, physiology and pathology of the human organ systems treated in the application of nuclear medicine. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 404 Cr.1-3
Management and Methods of Patient Care II
Skills in problem-solving, critical thinking and clinical decision making are developed, as well as oral and written clinical communication skills. Administrative duties including budgeting, medical and legal considerations, and political issues affecting patient care are discussed. Focus on basic measures necessary to provide quality patient care. Basic principles of record keeping and confidentiality of information are explained. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 405 Cr.2-3
Radiation Protection
Properties of alpha, beta and gamma radiations, their effects upon human beings and methods for protecting patients and staff from unnecessary exposure and possible injury. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 407 Cr.2-5
Clinical Instrumentation and Techniques
Structure, operating characteristics and practice in use of nuclear radiation detection instruments and radioisotope handling devices used in medical diagnosis and therapy. Lect. 1-3, Lab. 3-6. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 409 Cr.1-3
Mathematical Evaluation of Clinical Data
A study of the expected variations in results depending on the choice of radionuclide, instrument and patient. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 411 Cr.1-2
Records and Administrative Procedures
Records and procedures required by federal, state and professional regulatory agencies to insure proper: (1) acquisition, handling, application, storage, and disposal of radioactive materials; (2) awareness of radiation dosages received by patients and staff; and (3) functioning of detection equipment. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 412 Cr.3-9
Clinical Nuclear Practicum I
The supervised use of radionuclides in imaging and scanning of patients for diagnostic purposes. Lect. 1-3, Lab. 6-18. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 413 Cr.3-9
Clinical Nuclear Practicum II
The supervised use of radionuclides in vitro and in vivo in patients for diagnostic purposes. Lect. 1-3, Lab. 6-18. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 415 Cr.1-3
Application of Radionuclides to Medicine
Review of radionuclides and the compounds into which they are formed that are useful in medical research, diagnosis and therapy. Lect. 1-3. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 416 Cr.1-3
Nuclear Medicine Quality Control Practicum
Elution of Mo/Tc generator, preparation and testing of radiopharmaceutical products. Gamma Camera uniformity, relative sensitivity and spatial linearity and resolution testing. The use of flood field and bar phantoms on in vivo imaging detectors in the nuclear medicine imaging laboratory. Lect. .5-1.5, Lab. 1.5-4.5. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 417 Cr.2-5
Nuclear Radiation Physics and Instrumentation
Properties of alpha, beta and gamma radiations; their origins and interactions with matter; their control and shielding; and the statistics of counting. Lect. 1-3, Lab. 3-6. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 418 Cr.1-3
Clinical Procedures Review
Classroom technique to establish clinical practices used in nuclear medicine imaging; develop techniques used in planar and SPECT imaging. The fundamental skills of patient care, radiopharmaceutical preparation and administration. Emphasis is also on computer processing techniques used in coordination with imaging procedures. Lect.5-1.5, Duration: two semesters. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.
NMT 419 Cr.1-3
Clinical Radiation Biology
Cellular and organ responses to radiation sources and radionuclides employed in nuclear medicine. Lect. 1-2, Lab. 0-3. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 420 Cr.1-2
Gamma Cameras
This course consists of lectures and laboratory sessions relating to the gamma camera from a physics point of view. It will convey to the student the principles of gamma camera operation, methods of measuring and maintaining camera performance, and the theory and practice of acquiring tomographic studies. Lect. .5-1, Lab. 1.5-3. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 421 Cr.1
Therapeutic Radionuclides
The chemical, physical and biological properties of the radionuclides used in diagnosis and therapy. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 422 Cr.1-4
Clinical Procedures Review II
Classroom technique to establish clinical practices used in nuclear medicine imaging. To develop techniques used in planar and SPECT CT imaging that has been developed in addition to the previous course "Clinical Procedures Review" (NMT 418). The fundamental skills of patient care, radiopharmaceutical preparation and administration will be reviewed. Emphasis is also in computer processing techniques used in coordination with imaging procedures. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Fall, Spring.

NMT 423 Cr.1-3
Radiopharmacy
A study of the radiopharmacology and the chemistry of radionuclides used in the clinical laboratory. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 427 Cr.1-5
Application of Computers to Nuclear Medicine
A study of data collection, data reduction and data enhancement by computer methods. Lect. 1-2, Lab. 0-9. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 429 Cr.1-2
Introduction to Computerized Tomography
This course is designed to present a more in depth overview of CT Scanning and cross-sectional anatomy. Specific topics include the physics & instrumentation of CT scanning and image production. Comparison of cross-sectional anatomy to PET and CT images. Emphasis will be placed on patient considerations, patient safety, and radiation protection. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Fall, Spring.

NMT 495 Cr.1-3
Special Topics in Nuclear Medicine
Topics of current interest in nuclear medicine with emphasis on new or experimental methods. Hours arranged. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

NMT 499 Cr.3
Independent Study
Independent projects under the direction and supervision of a member of the clinical staff. Hours arranged. Prerequisite: admission to the NMT Program; assignment to a clinical internship site. Offered Annually.

Nutrition (NUT) - Courses

Courses

NUT 200 Cr.3
Human Nutrition
Examination of the basic principles of the science of nutrition including understanding the basic sources of energy and the influences and effects of nutrition on one’s overall health and fitness. Cultural and environmental factors that influence food availability and consumption will also be investigated. Offered Fall, Spring, Summer.

NUT 300 Cr.3
Lifecycle Nutrition
Exploration of nutrition assessment and nutritional requirements/challenges during pregnancy, lactation, infancy, childhood, adulthood and older adulthood, and community nutrition programs targeted for each life stage. Prerequisite: NUT 200. Offered Fall, Spring.

NUT 350 Cr.3
Functional Foods, Herbs, and Supplements
Consumer interest in the relationship between diet and health has increased the demand for information about functional foods, herbs, and supplements. The purpose of this course is to explore current literature and research in these ever-growing and popular topics. Definitions, purpose, safety, efficacy, and risks of each topic will be covered. Additionally, topics of discussion will include specific functional components of food, herbs, and supplements. Prerequisite: NUT 200. Offered Annually.

NUT 400 Cr.3
Food Science and Safety
This course examines the principles of food science including the functional role of carbohydrates, protein and fat. Emphasis will be placed on current topics of food science and safety in the national and local food industry including genetically modified and functional foods. Biological, chemical, and physical factors that affect the safety of food products will be discussed in addition to the role of microorganisms in foodborne illness and food quality. Students in this course will also explore basic principles of food safety including food processing and food service as well as the role of government in food safety. Prerequisite: NUT 200; BIO 100 or BIO 105 or MIC 100 or MIC 230. Offered Fall, Spring.

NUT 450 Cr.2-3
Field Experience in Nutrition
Working with a faculty mentor and site preceptor, students will identify a field site, develop a plan for exposure to appropriate experiences at the field site, participate in nutritionally-related professional activities at the field site, and submit a portfolio detailing field experiences. Prerequisite: nine credits completed in nutrition minor. Consent of instructor. Offered Fall, Winter, Spring, Summer.

NUT 479 Cr.1
Nutrition Teaching Assistantship
Working with a faculty mentor(s), students will aid in course development, delivery, and student assessment. Potential courses include approved courses in the nutrition minor. Prerequisite: grade of "B" or better in the class in which the student will be assisting AND permission from the instructor of the class in which the student will be assisting. Consent of instructor. Offered Fall, Winter, Spring, Summer.
Philosophy (PHL) - Courses

Courses

+PHL 100 Cr.3
**Introduction to Philosophy**
Are you looking for answers to life’s important questions? This course offers the student an introduction to the major views on important philosophic topics such as reality, personal identity, freedom, knowledge, morality, religion, and social justice. Offered Fall, Spring.

+PHL 101 Cr.3
**Introduction to Logic**
An introduction to logic, the science of valid reasoning. This course introduces the student to both formal and informal methods of reasoning and evaluating arguments. Offered Fall, Spring.

+PHL 200 Cr.3
**Introduction to the Literature of Philosophy**
An examination of the expression, development and conflict of the ideas and values in current and time-honored works of philosophy from major world cultures. Topics to be studied include religion, ethics, knowledge, personal identity, justice and freedom. Students cannot earn credit for the philosophy major/minor in both PHL 100 and PHL 200. Offered Fall, Spring.

PHL 201 Cr.3
**Introduction to Ethics**
An exploration of philosophical ethics, with attention paid to the philosophical methods of analysis and argumentation used to drive and evaluate moral theories and judgments. Topics may include the nature of moral truth (e.g., absolute truth, relativism, pluralism), prominent moral theories (e.g., virtue ethics, deontology, utilitarianism), important figures from the history of philosophy (e.g., Aristotle, Kant, J.S. Mill), an examination into the nature of virtues and values, principles of right action, and character. There will be additional introductory emphasis on selected issues in applied ethics from multicultural points of view. Offered Annually.

PHL 205 Cr.3
**History of Ancient Philosophy**
Introduction to principle questions of philosophy and history of their analysis from the pre-Socratic period to the Renaissance. Offered Fall.

PHL 206 Cr.3
**History of Modern Philosophy**
Principal questions of philosophy, and history of their analysis from the Renaissance through the Enlightenment. Offered Spring.

PHL 300 Cr.3
**Topics in Philosophy**
Study of a philosophical topic of special interest. Topics will vary according to the interests of the instructor. For the current content, consult the instructor or the department chair. Repeatable for credit - maximum six. Prerequisite: six credits in philosophy or permission of the department chair. Offered Occasionally.

PHL/PSY 301 Cr.3
**Theory of Knowledge**
An intensive examination of three major questions: (1) What are the principal grounds of knowledge? (2) How certain can we be of what we think we know? (3) Are there limits beyond which we cannot hope to extend knowledge? Strong emphasis is placed on the problems of perception, learning, and knowledge representation. Prerequisite: PHL 100 or PHL 101 or PHL 200 or PSY 100. (Cross-listed with PHL/PSY; may only earn credit in one department.) Offered Alternate Years.

PHL 302 Cr.3
**Symbolic Logic**
This course offers the student a systematic presentation of first-order logic. Techniques for translating and proving valid arguments involving predicates, relations, quantifiers, and identity are emphasized. The student is also introduced to modal logic, systems of three-valued logic, and philosophical problems for classical logic. Prerequisite: PHL 101 or MTH 151 or higher. Offered Spring - Odd Numbered Years.

PHL 303 Cr.3
**Ethical Theory**
We look for the ethical theory having the strongest justification. Topics include: is justification in ethics of a different kind than in matters of fact; are moral expressions definable; are moral claims true or false or only expressions of feeling; do only consequences count; are principles crucial for ethics; can at least some ethical claims be known to be true and justified; what is the best approach for resolving disagreement about ethical claims? Prerequisite: PHL 100 or PHL 101 or PHL 200. Offered Fall.

PHL 307 Cr.3
**19th Century Continental Philosophy**
A study of the major continental philosophical movements of the 19th century. Beginning with Fichte’s response to Immanuel Kant, the course explores Romantic philosophy (Schleiermacher and Schlegel), Idealism (Schelling and Hegel), and post-Hegelian philosophy (Schopenhauer, Kierkegaard, and Nietzsche). The course will take into consideration a number of metaphysical, epistemological, ethical, and aesthetic issues. Questions concerning self, religion, language, the natural environment, beauty, and our relationship with others, will all be broached. Prerequisite: PHL 100 or PHL 200. Offered Occasionally.

PHL 310 Cr.3
**Metaphysics**
Metaphysics is the science of what it is to "be" something. Topics include: (1) how metaphysics differs from natural science, (2) in what sense is anything general, universal, particular, continuing, an event, a process, a substance, a relation, abstract, subjective, or objective, (3) in what ways possible worlds can differ from this one, (4) what kind of thing could have body and a mind, (5) what the difference between a thing and its parts in an arrangement is, (6) what is required for two seemingly different things to turn out to be the same thing, (7) how space and time differ from each other and other things, and (8) what natural laws and numbers are. Prerequisite: PHL 100 or PHL 101 or PHL 205 or PHL 206. Offered Occasionally.

PHL 311 Cr.3
**Philosophy of Language**
A survey of issues concerning the meaning of words. Their referential, syntactic and pragmatic features are explored. Description and causal theories of reference of names, description, indexicals, reflexives and kind terms and their relation to various theories of truth, necessity, and possibility are considered. The nature and roles of linguistic rules of use, competence and their relation to word, speaker and hearer meaning are explored in view of speech act theory. Prerequisite: PHL 100 or PHL 101 or PHL 200. Offered Occasionally.
PHL 313 Cr.3

**Philosophy and Science Fiction**

The genre of science fiction allows one to reflect upon scenarios that are beyond the scope of actual human experience - whether by examining future contingent events, merely possible alternate universes, or employing technological innovations that have not yet been discovered. In this course, we will examine some of the difficult questions posed by philosophers through the scenarios depicted in works of science fiction. Topics include personal identity, time travel, artificial intelligence, and dystopia. Offered Spring.

PHL 320 Cr.3

**American Philosophy**

A survey of the American philosophical canon under the rubric question of what should count as American philosophy. We study Native American philosophies, the Puritans, the Congregationalists and Quakers, the American enlightenment philosophies, the transcendentalists, the evolutionary thinkers, the social philosophers, the American idealists, the pragmatists, and the neo-pragmatists. Offered Occasionally.

ERS/PHL 321 Cr.3

**American Indian Thought**

Reflection on the Native American ways of thinking as manifest in the literature of various select tribes, on the essential characteristics of thinking commonly shared by Native Americans, and on the fundamental difference between the Native American ways of thinking and those of the dominant (white) culture. The "primal world" of Native American thought will be studied as an alternative to the western way of thinking. Prerequisite: ERS 100. (Cross-listed with ERS/PHL 321; may only earn credit in one department.) Offered Occasionally.

PHL 323 Cr.3

**Phenomenology and Existentialism**

This course will approach the topics of conscious experience and human existence from the standpoint of two major schools of European philosophy: phenomenology and existentialism. Questions we will consider are: What is it that makes human existence unique? How is it that we come to experience a meaningful world? How does communication and empathy with others occur? Additional themes to be addressed include what it means to be a self or person, the human experience of anxiety, and our relationship to time and death. Prerequisite: three credits in philosophy. Offered Alternate Years.

PHL 324 Cr.3

**Women and Diversity in Philosophy**

This class explores the philosophical questions regarding the diverse aspects of women's experience. This explores the intersection of sex, race, ethnicity, class, age, disability, and gender. Offered Occasionally.

PHL 326 Cr.3

**Philosophical Concepts in Literature**

This course explores how literary technique is used in philosophical texts and how philosophical issues are addressed in various literary forms. Students discuss issues such as love, death, evil, tragedy, identity, fortune, and the good life. Prerequisite: PHL 100 or PHL 200 or CHI 305 or ENG 200 or ENG 201 or ENG 202 or ENG 203 or ENG 204 or ENG 206 or GER 399 or MLG 299 or RUS 305. Offered Occasionally.

PHL 330 Cr.3

**Philosophy of Food: The Dining Experience**

This course explores the aesthetic, ethical and existential features of the dining experience. Beginning with the pleasure features of food it moves to discussion on the relation of the disgusting and delicious, of the role of taste and food taboo, the proper relation of food and beauty, the question of whether food can constitute art, the relation of food and the sexual, and the role of the aesthetic in unpacking ethical evaluation of food choices. Phenomenological accounts are provided of the experiences of eating disorders and models of thinness and obesity. Next it looks at the metaphysics and epistemology of establishing criteria for nutritional value, the ideology of nutritionism, analysis of functional foods, the defenses/critiques of genetically modified organisms (GMO) and so-called Frankenfoods. Further it investigates ethical discourse on eating behavior, ethical arguments for vegetarianism, veganism, carnism and omnivorism, and gendered accounts of proper eating behavior. Lastly, philosophical arguments about appropriate ethical responses to world hunger are evaluated as well as development of arguments about the proper role of being a world food citizen. Offered Spring.

PHL 331 Cr.3

**Philosophy of Religion**

An examination of religion and religious experience. Topics considered are: theories of the proper description of God, arguments for and against the existence of God, theories of the nature of the soul, arguments for and against the existence of souls and reincarnation, the role and evidential power of religious experience and organized religion in justified belief. Prerequisite: PHL 100 or PHL 101 or PHL 200. Offered Fall.

PHL/PSY 333 Cr.3

**Philosophy of the Arts**

An examination of production, appreciation, and criticism of art. Topics may include the nature of art, the nature of beauty, the function(s) of art (if any), the moral status of works of art, aesthetic evaluation, the antimony of taste, the paradoxes of fiction, tragedy, and horror, and public financing of art. Theories may include the imitation/representation theory, expressionism, formalism, aesthetic experience theory, and institutional theory. Offered Annually.

PHL/PSY 332 Cr.3

**Philosophy of Mind**

A study of the nature of the mind from both philosophical and psychological perspectives. The course will focus on important attempts to solve the mind-body problem, how mind and body are related and also will address the related problems of consciousness, intentionality, free will and personal identity. Prerequisite: PHL 100 or PHL 101 or PHL 200 or PSY 100. (Cross-listed with PHL/PSY; may only earn credit in one department.) Offered Alternate Years.

PHL 334 Cr.3

**Philosophy of Science**

An examination of such topics as the attempt to demarcate science from pseudo-science, the nature of scientific inference, the structure of scientific explanation, scientific reduction and the unity of science, the interplay between theory and observation in science, the realism/anti-realism debate, objectivity of science, and the relationship between science and religion. Offered Fall.

PHL 335 Cr.3

**Multicultural Philosophy in the United States**

This survey course will examine philosophical ideas and systems that are generated from a wide range of cultural traditions found in the United States. The aim of this search will be to broaden and deepen understanding and appreciation of the diversities of philosophies in the United States. Offered Alternate Years.
+PHL 336 Cr.3  
International Multicultural Philosophy  
This survey course will examine philosophical ideas and systems that are generated from a wide range of cultural traditions world wide. The aim of this search will be to broaden and deepen our understanding and appreciation of the multiplicity of philosophical perspectives which are part of an increasingly diverse, interconnected, and globalized world. Prerequisite: PHL 100 or PHL 200. Offered Alternate Years.

PHL 337 Cr.3  
Social and Political Philosophy  
An examination of differing philosophical views about humanity and human nature with respect to our social and political life. Topics may include the question of political legitimacy, the function of the state, the possible rights and obligations of citizens vis-a-vis the state, general concepts of justice, rights, liberty, equality, and community (as well as possible specific conceptions of these terms), and how social goods should be distributed. The application of these topics to contemporary social and political debates. Offered Alternate Years.

PHL 338 Cr.3  
Philosophy of Law  
An examination of topics such as the concept of law, the dispute between natural law theorists and legal positivists, the relations between law and morality, criminal responsibility and legal punishment, the rights of the individual against the state, justice and equality, and legal evidence as compared with scientific evidence. Theoretical discussions will be supplemented with relevant case studies. Prerequisite: sophomore standing or three credits in philosophy. Offered Alternate Years.

PHL 339 Cr.3  
Medical Ethics  
Examination of the principal moral problems that arise in the medical context including abortion, euthanasia, cloning, stem cells, human and animal experimentation, and the allocation of scarce medical resources. May only earn credit in PHL 339 or SOC 340. Offered Occasionally.

PHL 340 Cr.3  
Ethics in the Workplace  
Ethical issues in the conduct of business will be examined by focusing on case studies in business that raise ethical issues. A variety of ethical concepts and decision-making matrices will be used to illuminate the ethical features of business decisions and their effects on employees and society. The goal is to improve ability to identify factors and considerations that can play a role in improving the ethical character of one’s work-life. Offered Occasionally.

PHL 341 Cr.3  
Environmental Ethics  
Philosophical reflections on humanity’s relationship to the natural world. The course will examine classic American perspectives (e.g. Leopold, transcendentalists), Asian perspectives, Native American perspectives, and contemporary environmental philosophies such as social ecology, deep ecology, and ecofeminism. Course discussions will include the historical roots of the contemporary environmental crisis, the development of a personal environmental philosophy, and the role of a citizen in advancing environmental awareness and responsible land and water use. Prerequisite: ENV 201 or 3 credits of philosophy. Offered Alternate Years.

PHL 342 Cr.3  
Philosophy of Love, Sex and Friendship  
An examination into the nature of a variety of kinds of love including love of knowledge, love of friends, erotic love, and parental love. Philosophical consideration of topics such as the nature of desire, the politics of desire, sexual intercourse, adultery, monogamy, polygamy, homosexuality, and the obligations of friends as well as institutions of marriage and parenthood. Offered Alternate Years.

PHL 349 Cr.3  
Asian Philosophy  
Introduction to the main questions found in the Asian philosophical traditions. We will read Indian, Chinese, and Japanese philosophers, with a special emphasis on Hinduism, Buddhism, Confucianism, and Daoism. Questions will be centered in ethics, epistemology, and metaphysics. Conceptual connections will be made with Western philosophical traditions. Offered Alternate Years.

PHL 352 Cr.3  
Chinese Philosophy  
This course will carefully follow the development of Chinese Confucian and Daoist philosophy. Topics considered are: human nature and the cultivation of virtue, the place of the human individual in society and the natural environment, the overarching issue of achieving harmony, and how these ideas are and are not similar to ideas one finds in Western philosophy. Prerequisite: three credits in philosophy. Offered Occasionally.

PHL 355 Cr.3  
Philosophy and Film  
An investigation into the philosophy of film and the philosophy within film. Topics may include personal identity, knowledge, technology, ideology, morality, emotions, and truth. Offered Alternate Years.

PHL 360 Cr.3  
Zen Buddhism  
This course will explore the development of Zen Buddhism through an analysis of Indian, Chinese, Japanese, and Korean texts. Themes we will discuss include the enlightenment experience, the nature of reality and knowledge, the student/teacher relationship, koan practice (i.e. “the sound of one hand clapping”), and the relationship of Zen philosophy to ethics and aesthetics (poetry, painting, etc.). The course will make a point to situate Zen within the overall philosophical environment of China and Japan. Prerequisite: three credits in philosophy. Offered Alternate Years.

PHL 420 Cr.3  
On Humor and Happiness  
What is happiness? Is it something that we should devote our lives pursuing? What is the relationship between happiness and other sorts of experiences we value? Can happiness ever be wrong or mistaken? What makes something funny or amusing? What is the relationship between humor and happiness? Is comedy just tragedy plus time? Is it okay to laugh at morally reprehensible jokes? This class will address those questions and include study of the philosophy of emotions, in particular the emotion of happiness and the experience of laughter as it relates to the various theories of comedy and humor. Prerequisite: sophomore standing or three credits in philosophy. Offered Alternate Years.

PHL 425 Cr.3  
Wilderness Philosophy  
The intention of this course is to investigate the many different ways in which wilderness is defined and understood within environmental philosophy. The approach will be broad and will cover a variety of themes. Our desire is both to clarify the positive characteristics of the wilderness idea while also recognizing its significant flaws and hazards. The moral implications of the wilderness concept will be given special attention. A variety of different philosophical perspectives will be utilized. Prerequisite: ENV 201 or three credits in philosophy. Offered Alternate Years.
PHL 431 Cr.3
Advanced Philosophy of Religion
Selected readings from recent scholarly journals and Medieval philosophy are the focus of the course and background for examination of topics such as: What justifies that a human can be God? Can God make a world permitting possible contradictions such as a world in which there is an unstoppable cannonball and an immovable lamppost? Exactly how do humans, persons, and souls differ if they do? PHL 331 strongly recommended. Offered Spring.

PHL 494 Cr.3
Advanced Topics in Philosophy
Study of a philosophical topic of special interest. Topics will vary according to the interests of students and the instructor. For the current content, consult the instructor or the department chair. No more than six credits in PHL 494, 495, and 497 are applicable to a philosophy major or minor. Repeatable for credit - maximum 6. Prerequisite: junior or senior standing; nine credits in philosophy. Consent of department. Offered Occasionally.

PHL 495 Cr.1-3
Individual Study in Philosophy
Directed reading and research under the supervision of an instructor. No more than six credits in PHL 494, 495, and 497 combined are applicable to a philosophy major or minor. Repeatable for credit - maximum six. Prerequisite: 12 credits in philosophy, Consent of department. Offered Fall, Spring.

PHL 496 Cr.3
Integrative Seminar
Integration of programmatic themes and methods in the major. May be taken for honors credit. Prerequisite: 18 credits including PHL 100 or PHL 200; PHL 101; PHL 201 or PHL 303; PHL 205; PHL 206. Offered Fall.

PHL 497 Cr.1-3
Apprenticeship in Philosophy
This course allows students to combine their individual talent and achievement with academically relevant experiential learning. This course will provide majors and minors in philosophy the opportunity for a variety of significant work, service, and leadership tasks related to philosophy. This is a hands-on course which complements and enhances other academic work. No more than six credits in PHL 300, PHL 494, PHL 495, and PHL 497 are applicable to a philosophy major. Repeatable for credit - maximum six. Prerequisite: open to all students with 18 credit hours in philosophy who are in good standing. Consent of supervising instructor. Consent of department. Pass/Fail grading. Offered Fall, Spring.

Physics (PHY) - Courses

+ next to a course number indicates a general education course

Courses

+PHY 103 Cr.4
Fundamental Physics I
A broad theoretical and experimental introduction to the study of physics using the techniques of algebra and trigonometry. Topics covered are kinematics with constant acceleration, vectors, Newton’s laws of motion, circular motion, work, energy, momentum, rigid body motion, angular momentum, torque, oscillatory motion, gravitation, fluid mechanics, waves, resonance and sound. Additional topics may be selected from the area of thermodynamics. Wherever possible, applications to other fields of science such as chemistry, biology, and medicine will be discussed. Taking MTH 150 prior to this course is recommended. ÿLect. 3, Lab. 2. Offered Fall, Spring, Summer.

PHY 104 Cr.4
Fundamental Physics II
Continuation of PHY 103. Topics covered are electric forces and fields, electric potential, electrical circuit theory and applications, magnetic fields, electromagnetic induction, alternating current circuits, electromagnetic waves and the nature of light, lenses, mirrors, optical instruments, interference and diffraction of light, Einstein’s theory of relativity, and the photoelectric effect. Additional topics may be selected from the area of quantum physics. Wherever possible, applications to other fields of science such as chemistry, biology and medicine will be discussed. ÿLect. 3, Lab. 2. Prerequisite: PHY 103 or PHY 203; MTH 150 recommended. Offered Fall, Spring, Summer.

+PHY 106 Cr.4
Physical Science for Educators
A survey course focusing on applied physical science and the nature of scientific knowledge. Fundamental theories about the nature and interactions of matter and energy are developed using self-paced, small group, inquiry based teaching modules. The scientific knowledge developed is applied to issues of technology in society and everyday use situations. Emphasis is on modeling science teaching practices advocated by state and national science education standards using active learner practices. Lect. 3, Lab. 2. Prerequisite: elementary/middle level education major. Offered Fall, Spring.

+PHY 125 Cr.4
Physics for the Life Sciences
An introductory study of physics concepts using algebra and trigonometry, primarily for life science and allied health students. Description of matter, motion, energy, thermodynamics, waves, light, electricity and topics in modern physics, with application to the life sciences. Taking MTH 150 prior to this course is strongly recommended. Lect. 3, Lab. 2. Prerequisite: MTH 150 strongly recommended. Offered Fall, Spring.

+PHY 142 Cr.3
Navigating Global Nuclear Issues
This course will serve as an introduction to the topic of nuclear weapons, energy and policy in society. This includes the social, economic, cultural and political aspects surrounding the development of nuclear weapons and their place in the world, especially in current events. International organizations will be discussed along with their role in regulation and recommending economic sanctions. We will look at the resurgence of nuclear energy and how it affects everything from the environment to global trade. Finally, the role of terrorism and the impact this has on shaping the human experience will be explored. Offered Fall, Spring.

+ASTPHY 155 Cr.4
Solar System Astronomy
An introduction to astronomy as a science, emphasizing patterns in the night sky, our own solar system, and the possibility of life on other worlds. Throughout the course, comparison of observations with theoretical models will be stressed. Topics studied include the size and scale of the solar system relative to the universe; the scientific method; astronomical observations; motions of the earth, moon, sun, and planets; creating a model of the solar system; what we learn about planets from light and gravity; the structure and formation of the solar system; the planets and their moons; comets, asteroids, and meteoroids; and the possibility of life elsewhere in the universe. Recent results, including those from NASA missions, will be incorporated into the course. Lect. 3, Lab. 2. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Fall.
+AST/PHY 160 Cr.4

Stars, Galaxies and the Universe
An introduction to astronomy as a science, emphasizing celestial objects beyond our solar system. Throughout the course, comparison of observations with theoretical models will be stressed. Topics studied include the size and scale of the universe, using light and gravity to study the cosmos, the sun, the properties of other stars, lives and deaths of stars, star clusters, black holes, the Milky Way galaxy, dark matter, other galaxies, quasars, Big Bang cosmology, dark energy, and gravitational waves. Particular emphasis will be placed on recent discoveries. Lect. 3, Lab. 2. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Spring.

+PHY 203 Cr.4

General Physics I
A broad theoretical and experimental introduction to the study of physics using the techniques of algebra, trigonometry and calculus. Topics covered are one-and two-dimensional kinematics, motion with varying acceleration, vectors, Newton’s laws of motion, circular motion, work, energy, center of mass, momentum, rigid body motion, moment of inertia, angular momentum and torque. Additional topics may include oscillatory motion and gravitation. Wherever possible, applications to other fields of science and engineering will be discussed. ýLect. 3, Lab. 2. Prerequisite: PHY 103 or PHY 203; MTH 208 or concurrent enrollment. Offered Fall.

PHY 204 Cr.4

General Physics II
Continuation of PHY 203. Topics covered are fluid mechanics, sound, electrostatics, electric forces and fields, electric flux, electric potential, capacitance, elementary electrical circuit theory and applications, magnetic fields, magnetic flux and electromagnetic induction. Additional topics may include Maxwell’s equations, alternating current circuits, electromagnetic waves and the nature of light. Wherever possible, applications to other fields of science and engineering will be discussed. ýLect. 4, Disc. 1. Prerequisite: PHY 103 or PHY 203; MTH 208 or concurrent enrollment. Offered Fall.

PHY 250 Cr.3

Modern Physics
The application of principles studied in fundamental or general physics to various areas of research and technology at the forefront of modern physical science. Topics include special relativity, origins of quantum mechanics, atomic spectroscopy, nuclear structure, and nuclear reactions. Select topics in heat, the laws of thermodynamics, kinetic theory, molecular spectroscopy, band theory of solids, semiconductors, and superconductors may also be included. Pre requisite: PHY 103 or PHY 204; MTH 208. Offered Fall.

PHY 302 Cr.3

Optics
The mathematics of wave motion (including mechanical waves and sound waves), electromagnetic theory, propagation of light, geometrical optics with emphasis on formation of images and aberrations, thick lenses, the superposition of waves, physical optics with emphasis on interference, diffraction, and polarization. Prerequisite: PHY 104 or PHY 204; MTH 208 or concurrent enrollment. Offered Fall.

PHY 311 Cr.2

Experimental Physics
Basic techniques of measurement used in all areas of physics and engineering. Selected experiments may include thin lens systems, spectrometers, microwave optics, interference and diffraction, aberrations, interferometers, thin films, polarization, speed of light, charge-to-mass ratio of an electron, electron spin resonance, quantization of energy states, and radioactive decay. Computational techniques include error analysis, graphing and curve fitting. Lab. 4. Prerequisite: PHY 104 or PHY 204; MTH 208 or concurrent enrollment. PHY 311 is recommended to be taken concurrently with either PHY 302 or PHY 250. Offered Fall, Spring.

PHY 320 Cr.3

Statics
Principles of statics and free-body diagrams with applications to simple trusses, frames, and machines. Includes topics in force/movement vectors, resultants, distributed loads, internal forces in beams, properties of areas, moments of inertia and the laws of friction. Prerequisite: PHY 103 or PHY 203; MTH 208 or concurrent enrollment. Offered Fall.

PHY 321 Cr.3

Classical Mechanics
Rigorous mathematical development of classical dynamics using vector calculus. Dynamics of a single particle, oscillations, noninertial frames, central potentials, energy/momentum methods, systems of particles, collisions and plane motion of rigid bodies. Prerequisite: PHY 103 or PHY 203; MTH 310. Offered Fall.

PHY 332 Cr.3

Electrodynamics
Fundamental concepts such as vector fields and vector operators, dipole and multipole fields, current distributions and the field quantities which describe surrounding conditions. Solution of Laplace’s and Poisson’s equations for given sets of boundary conditions. Recognition and use of mathematical abstractions of the fundamental nature of the electromagnetic field. ýThe course culminates with Maxwell’s Equations, the fundamental set of four equations in classical physics which govern the behavior of electric and magnetic fields and their interactions with matter. Prerequisite: PHY 104 or PHY 204; MTH 310; PHY 311 recommended. Offered Spring.

PHY 334 Cr.3

Electrical Circuits
Physical principles underlying modeling of circuit elements and fundamentals of analog electrical circuits are explored through lecture and laboratory. Topics will include the following: current and voltage sources, resistors, I-V characteristics, Ohm’s Law, Kirchoff’s Laws, capacitors, inductors; Thevenin and Norton theorems; circuits in sinusoidal steady state; diodes, transistors (bipolar junction and field-effect); op-amps; and elementary amplifier circuits. Lect. 2, Lab. 2. Prerequisite: PHY 104 or PHY 204; MTH 208; PHY 311 recommended. Offered Spring.

PHY 335 Cr.4

Electronics
This course expands upon the topics covered in PHY 334. Analog circuits are treated in greater detail, including circuit analysis, follower circuits, and operational and transistor amplifiers. Additional analog topics include transistor limitations, comparators, and oscillators. Lectures and laboratories are expanded to include digital electronics, electronic devices and applications. Digital topics include digital circuits, digital logic, flip flops, counter, memory, A/D and D/A conversion. Additional topics may include arithmetic units and microprocessors. ýLect. 3, Lab. 3. Prerequisite: PHY 334. Offered Fall.
PHY 343 Cr.3
Thermodynamics
This course emphasizes basic concepts of thermodynamics, beginning with fundamentals such as temperature, thermal expansion, heat flow, and calorimetry. State equations, tables, and diagrams are used to describe the properties of pure substances. The First and Second Laws of Thermodynamics are investigated, with applications to energy, enthalpy and entropy, gas, vapor, and combined power cycles are studied, along with refrigeration cycles. Gas mixtures and gas-vapor mixtures, with applications to air conditioning and psychrometrics also are studied. Additional topics may include the thermodynamics of chemical reactions, and statistical thermodynamics. Prerequisite: PHY 250; PHY 208; PHY 311 recommended. Offered Spring.

PBI/CHM/PHO 356 Cr.2
Curriculum and Assessment in Math and Science
Student are introduced to state and national content standards and related theories on teaching and learning. They will apply this knowledge to develop a curricular framework. Topics will include: Learning outcomes, student misconceptions, balanced assessment, and lesson planning in the content areas. Prerequisite: declared math or science education major/minor; admission to teacher education. (Cross-listed with PBI/CHM/PHY; may only earn credit in one department.) Offered Fall.

AST/PHY 362 Cr.3
Astrophysics
The application of principles studied in fundamental or general physics to various areas of astrophysical research. This course will emphasize topics like binary stars, stellar structure and evolution, the solar neutrino problem, white dwarfs, neutron stars, pulsars, the interstellar medium, galaxies and dark matter. Prerequisite: PHY 250, PHY 302; PHY/AST 155 or PHY/AST 160; MTH 310 or concurrent enrollment. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Alternate Years.

AST/PHY 363 Cr.1
Astrophysics Laboratory
An introduction to current observational techniques in astronomy and astrophysics. Students will learn the basics of planning professional observations, electronic detection, data acquisition and reduction, and analysis of results. Concerns for both imaging and spectroscopy will be incorporated, as well as aspects of multi-wavelength astronomy. Lab 3. Prerequisite: PHY 104 or PHY 204; MTH 151; PHY/AST 155 or PHY/AST 160. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Alternate Years.

PHY 374 Cr.4
Computational Physics
This course is an introduction to computational physics using MatLab. Students will learn the fundamentals of applying numerical and graphical methods to a variety of physics topics ranging from mechanics, optics, electrodynamics, thermodynamics, and quantum mechanics. Lecture:
3, Lab. 3. Prerequisite: PHY 104 or PHY 204; MTH 309 or concurrent enrollment; PHY 311 or prior experience with MatLab recommended. Offered Occasionally.

PHY 376 Cr.3
Introduction to Nuclear Science
An introduction to the structure and properties of atomic nuclei. This course will explore the production of ionizing radiation, its interactions with matter, and the instrumentation used to detect it. While all types of ionizing radiation will be studied, particular emphasis will be placed on X- and gamma-rays. Special topics related to the use of radiation in health care also will be covered. Prerequisite: PHY 103 or PHY 204; PHY 309 or concurrent enrollment; PHY 311 or prior experience with MatLab recommended. Offered Occasionally.

PHY 386 Cr.3
Radiation Physics
This course, building on knowledge of basic physics, explores the area of radiation physics. Characteristics of X and gamma rays are described as well as their interactions in air and matter. The principles involved in the production of radiation are investigated. Methods and instrumentation of measurement of radiation are also covered. Prerequisite: MTH 150; PHY 104 or PHY 125; PHY 108. While designed for radiation therapy majors, the course is open to other students who have met the prerequisite. Students may not earn credit in both PHY 376 and PHY 386. Offered Fall.

PHY 401 Cr.3
Quantum Mechanics
A comprehensive treatment of the modern theory of quantum mechanics, including Schroedinger equation, operators, free particles, particles in potentials, harmonic oscillator, angular momentum, and the hydrogen atom. The course includes the use of Fourier analysis and eigenvalue equations. Prerequisite: PHY 250, PHY 321; MTH 309, MTH 310. Offered Spring.

PHY 411 Cr.1
Advanced Experimental Physics
This course will cover advanced experimental methods and techniques often encountered in research laboratories. Selected experiments may include x-ray diffraction, elemental and vibrational spectroscopy, microscopy, optical and electrical property measurements, material fabrication techniques, vacuum systems, and experimental apparatus fabrication. Computational techniques may include automated control, error analysis, graphing and curve fitting using LABVIEW and Python. Lab 3. Prerequisite: PHY 250, PHY 311; MTH 310. Concurrent registration in MTH 309 recommended. Offered Occasionally.

PHY 421 Cr.3
Advanced Mechanics
Continuation of PHY 321 covering advanced topics in classical and statistical mechanics. Topics include the Lagrangian and Hamiltonian formulations of mechanics, phase space and Liouville’s equation; coupled oscillations, normal modes, continuous systems, and wave motion. In statistical mechanics, topics include kinetic theory, ensemble representations, partition functions, and classical/quantum statistics. Prerequisite: PHY 309, MTH 310, MTH 321. Offered Occasionally.

PHY 423 Cr.3
Biomechanics of Human Movement
This course will provide a description of biological tissue properties, skeletal and joint mechanics, muscle mechanics, neurological influences related to movement. Kinematics, kinetics, static and dynamic modeling of the human body will be studied and will require problem solving. The principles of the biomechanics theory associated with human movement are presented to introduce and develop an understanding of the mechanical complexity of biological systems and movement performance. Methods and instruments of measurement (electromyography, force/pressure transducers, motion analysis and isokinetic dynamometers) in biomechanic research. Prerequisite: PHY 103 or PHY 203; MTH 310; BIO 312. Offered Fall.
PHY 432 Cr.3

**Advanced Electrodynamics**

This is a detailed course covering advanced topics in electricity and magnetism. Emphasis will be placed upon general, non-static electrodynamics, building upon the static cases studied in detail in PHY 332. Topics will include detailed analysis of radiation, field transformations and kinematics in Einstein’s Special Theory of Relativity, dispersion, wave guides, and Lienard-Wiechert potentials. The mathematical tools for studying these phenomena will include differential equations, vector and tensor analysis, Fourier analysis, and complex analysis. Prerequisite: PHY 332; MTH 353 or concurrent enrollment. PHY 302 recommended. Offered Occasionally.

AST/PHY 450/550 Cr.3-15

**Physics and Astronomy Internship**

Full- or part-time work experience in a physics or astronomy related position with a public or private agency. Not more than five credits are applicable to a major or three credits to a minor in physics. A written application, departmental acceptance, and appointment of adviser must be completed before registration. Repeatable for credit - maximum 15. Prerequisite: minimum GPA of 2.25 (2.50 in physics); PHY 104 or PHY 204, plus six credits in physics or astronomy courses above the 204 level; junior standing. (Cross-listed with AST/PHY; may only earn credit in one department.) Consent of department. Offered Occasionally.

AST/PHY 453/553 Cr.1-3

**Topics in Physics and Astronomy**

Various subjects of interest to specific groups will be on occasion. Specific subtopics will be assigned each time the course is offered. Such titles might include nuclear physics, low temperature physics and the interstellar medium. Repeatable for credit under different subtitles - maximum 12 credits. Prerequisite: PHY 104 or PHY 204; junior standing. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Fall, Spring, Summer.

PHY 460 Cr.3

**Condensed Matter Physics**

This course will include such topics as crystal structure, electrical conductivity, insulators, free electron Fermi gases, energy bands, semiconductors, superconductivity, dielectrics, and ferroelectric crystals. Magnetic phenomena such as diamagnetism, paramagnetism and ferromagnetism will also be studied. Prerequisite: PHY 250; MTH 310. Offered Occasionally.

MTH/PHY 461 Cr.3

**Mathematical Physics**

In depth study of topics from vector analysis, Fourier analysis and special functions with emphasis on modeling physical phenomena involving conservative fields, fluid flow, heat conduction, and wave motion. MTH 461 may be counted towards both a MTH and PHY major. Prerequisite: grade of "C" or better in MTH 353. (Cross-listed with MTH/PHY; may only earn credit in one department.) Offered Spring - Odd Numbered Years.

AST/PHY 466 Cr.3

**Cosmology and the Structure of The Universe**

This course will emphasize topics relating to the history of our universe, from the Big Bang to galaxy evolution and the formation of the structures we see today. Students will study the cosmological distance ladder, black holes in galaxies, galaxy clusters, dark matter, the Big Bang model, the inflationary model, and the cosmological constant. The course will also include aspects of special and general relativity relevant to these subjects. Prerequisite: AST/PHY 160, PHY 250, PHY 302; MTH 309 or concurrent enrollment; MTH 310 or concurrent enrollment. (Cross-listed with AST/PHY; may only earn credit in one department.) Offered Alternate Years.
PHY 491 Cr.1
Capstone in Physics
A senior level course specifically designed for physics majors to review and discuss basic concepts relevant to the physical sciences, and to assess their major in physics. Students will present seminars to physics faculty based on current physics research articles, and also communicate physics concepts to a general audience in a written format. Students are expected to participate in discussions on current developments in the physical sciences, and be actively engaged in the assessment of their major program. Prerequisite: senior standing; physics major. Consent of instructor. Offered Spring.

AST/PHY 497 Cr.1
Physics and Astronomy Seminar
This seminar series is intended for majors and minors in the department of physics as well as other students interested in physics, engineering and astronomy. It will consist of a series of talks given by visiting scientists and engineers as well as senior research students. The course provides an excellent opportunity to find out about the latest developments in physics, astronomy, and engineering and provides an excellent medium by which students can get to know each other and also their professors. All physics majors and minors are urged to sign up for this seminar each semester of their first year. Repeatable for credit - maximum four. A maximum of two credits can be used to satisfy elective requirements. (Cross-listed with AST/PHY; may only earn credit in one department.) Pass/Fail grading. Offered Fall, Spring.

AST/PHY 498 Cr.1-3
Physics and Astronomy Research
Independent work by a student under the supervision of a faculty member. Students can work on a variety of research projects including, but not limited to, the areas of astronomy, condensed matter, computational physics, physics education, low temperature physics, lasers, optics and spectroscopy. Repeatable for credit - maximum nine, with permission of department chair. (Cross-listed with AST/PHY; may only earn credit in one department.) Consent of department. Offered Fall, Spring, Summer.

Political Science (POL) - Courses

+ next to a course number indicates a general education course

Courses

+POL 101 Cr.3
American National Government
An introduction to the underlying principles and values, administrative and political decision-making processes, and institutions of American national government in an international context utilizing a comparative approach. The course includes discussion, analysis and development of critical thinking skills related to public policy-making problems and current issues. The course emphasizes the development of intellectual skills associated with an informed, involved and active citizenry. Offered Fall, Spring, Summer.

+POL 102 Cr.3
State and Local Government
An introduction to the underlying principles of federalism and focus on the new increasing decentralization of government program responsibilities to subnational governments in the United States. This is complemented by a comparison of the complex cultural, economic and intergovernmental settings of subnational governments. Students consider the implications of different environments for citizen participation, government characteristics, policy processes, and values associated with policy outcomes. The course emphasizes constructive citizenship in an environment where subnational governments will increasingly affect their lives. Offered Fall, Spring.

POL 201 Cr.3
Introduction to Political Science
A general introduction to areas of study in political science. Basic concepts and approaches to the study of politics will be applied to current events. Offered Fall.

+POL 202 Cr.3
Contemporary Global Issues
This course offers a contemporary multi-disciplinary perspective regarding the major issues and trends confronting the global society in the 21st century. Emphasis will be given to a critical review and assessment of the origin and present condition of the plethora of situations and problems affecting modern global society. The student will also learn to critically evaluate current and future events. The course will incorporate the views and approaches of the following disciplines: sociology/anthropology, economics, geography, political science, and history. (Cross-listed with ANT/ECO/GE/HIS/POL/SOC 202; may only earn credit in one department.) Offered Fall, Spring.

+POL 205 Cr.3
Women and Politics
An examination of the positions and roles of women in the political arena. This course discusses the nature and extent of women’s political involvement, both in the United States and abroad, with particular emphasis on the cultural and racial diversity of women political participants in the United States. Additional topics will include the legal status of women, differences between male and female political behavior, factors that influence women’s political participation and current political issues related to women. Offered Annually.

POL 212 Cr.3
Search for Economic Justice
An introduction to the underlying principles of federalism and focus on the new increasing decentralization of government program responsibilities to subnational governments in the United States. This is complemented by a comparison of the complex cultural, economic and intergovernmental settings of subnational governments. Students consider the implications of different environments for citizen participation, government characteristics, policy processes, and values associated with policy outcomes. The course emphasizes constructive citizenship in an environment where subnational governments will increasingly affect their lives. Offered Fall, Spring.

POL 215 Cr.3
Politics and Film
An investigation of the political messages and themes represented in popular films. The course aims to understand the use of film as a form of political communication, examine the politics of specific films, and consider what they reflect and communicate about the political world. Emphasis will be placed on developing the critical thinking and literacy skills necessary to interpret and analyze films for their political meanings and implications. Offered Annually.
POL 221 Cr.3
The American Legal System
An introductory survey of the American legal system in operation; utilizing case materials, class discussion, and hypothetical conflict situations to illustrate and study the range of problems, proceedings, actions, and remedies encountered. Offered Annually.

POL 222 Cr.3
Law, Governance and Politics
An examination of the numerous factors and influences acting upon and within the formal legal process, including: judicial interpretations and statutes and constitutions, litigation as a political strategy, legislation and litigation as an instrument of social change, law as a system of values, and law as a mechanism of political power and oppression. Prerequisite: POL 101 or POL 102. Offered Occasionally.

+POL 234 Cr.3
Comparative Politics
The course is devoted to the comparison and the critical analysis of selected topical global societies and regions. A general comparative framework will be utilized to develop a critical assessment of a representative sample of developed and developing contemporary societies. Emphasis will be given to a comparative study of institutions and their functions, various administrative and decision-making processes, and contemporary problems and issues. Finally, implications in the 21st century will also be discussed. Offered Fall, Spring.

+POL 244 Cr.3
International Relations
An introduction to the study of international relations and global politics. The course introduces both the concepts, like anarchy, states, and non-state actors, and the perspectives, like realism and liberalism, that are commonly used to assess areas like global conflict and security, the politics of globalization, and transnational political issues. Offered Spring.

POL 250 Cr.1-2
Leadership and Engagement
Introduces students to the benefits and obligations of being active participants in campus governance, and engaged citizens in their communities. Open to any university student who serves in the UW-L Student Association, Student Senate, Residence Hall Association Council, or is a resident of the service-learning community on campus. Repeatable for credit - maximum four. Pass/Fail grading. Offered Fall, Spring.

+POL 251 Cr.3
Political Theory
An introduction to consequential ideas in political philosophy, including justice, power, freedom, equality, and democracy. The course provides a foundation for understanding the philosophical assumptions and arguments across a range of significant political questions, and investigates the intellectual roots of historical and contemporary political ideas. The course emphasizes the development of intellectual skills needed to analyze political arguments, and highlights the practical implications of answering theoretical questions about politics. Offered Spring.

POL 261 Cr.3
Political Inquiry and Analysis
An introduction to the scope and methods of political science and public administration. This course is designed to acquaint students with the process of developing and exploring political questions and conducting research. Topics include forms of knowledge, objectivity and values, methodological individualism and holism, formulating research questions, and basic research design. Offered Fall, Spring.

POL 301 Cr.3
American Presidency
The American Presidency will emphasize the development of the office, selection and institutional relations with Congress coupled with an assessment of presidential power in the modern era in domestic and foreign policy making. Prerequisite: POL 101 or POL 102. Offered Annually.

POL 302 Cr.3
Legislative Process
Study of the organizations and behavior of legislatures and their membership at both the national and state levels. Legislative influence on the administration of the law and effect of pressure groups on the legislative process will also be studied. Prerequisite: POL 101 or POL 102. Offered Annually.

POL 303 Cr.3
Wisconsin Government and Politics
An in-depth study of the governmental institutions and political system in the State of Wisconsin. Included are an examination of Wisconsin political parties, interest groups, and electoral behavior as well as institutions such as the state legislature, judiciary, governmental structures and administration. Both state and local aspects are discussed. Prerequisite: POL 101 or POL 102. Offered Occasionally.

POL 304 Cr.3
Politics and the Media
A critical examination of the media in its capacity as the 4th Estate. The course will assess the special relationship that has evolved and its implication for American democracy. Special topics to be examined include: role of the media in the democratic process, limits on the media, the role of bias and opinion, the impact of distortion and propaganda, the media and the electoral process, the media’s role in creating news events, and an examination of the media/political relationship in other political systems. Prerequisite: POL 101 or POL 102. Offered Annually.

POL 305 Cr.3
Political Parties
An analysis of political parties and their role in the American political system. Organization, principles and practices of parties are discussed. Prerequisite: POL 101 or POL 102. Offered Annually.

POL 306 Cr.3
Judicial Process
A detailed examination of the participants in American courts and the procedures encountered by litigants at different stages in the judicial hierarchy. Among the topics covered are the role of juries and grand juries, plea bargaining, and the manner in which judges attempt to decide cases. Prerequisite: POL 101 or POL 102 or POL 221. Offered Annually.

POL 307 Cr.3
Political Language and Communications
A critical examination of the language of politics and power in American society, including how political language shapes perceptions and understandings about government and politics; deception as a method of governance; symbolism, ideology, popular political culture and campaign rhetoric as sources of political power. Prerequisite: POL 101 or POL 102. Offered Annually.

POL 308 Cr.3
Interest Group Politics
This course will first examine why interest groups arise, how they maintain their existence, and what sorts of interest groups exist in the United States. It will go on to investigate the strategies used by interest groups to influence public policy and the extent to which they are successful in doing so. Prerequisite: POL 101 or POL 102. Offered Alternate Years.
POL 309 Cr.3  
**Identity Politics**  
Examines the role various identities, such as class and race, play in shaping who gets what, when, and how from the political system. The course draws on theoretical and historical debates to evaluate the political, social, psychological, and economic implications of processes like socialization and mobilization to explain participation and voting behavior by different groups in society. Prerequisite: POL 101 or POL 102. Offered Alternate Years.

POL 310 Cr.3  
**Public Opinion and Political Behavior**  
Political science as a “behavioral science.” A study of human attitudes and behaviors in political situations and the techniques for observing, measuring and classifying them. Prerequisite: POL 101 or POL 102. Offered Alternate Years.

POL 326 Cr.3  
**Mock Trial I: Trial Advocacy**  
Mock Trial is part of an intercollegiate competition run by the American Mock Trial Association. The class consists of two parts: Mock Trial I covers trial skills (opening statements, direct examination, cross-examination, and closing arguments) and modified evidentiary objections. Students will participate as lawyers and witnesses in practice trial problems and in the tournament trial case. Regular classroom participation and a trial book will be required. Repeatable for credit - maximum six. Offered Fall.

POL 329 Cr.2  
**Mock Trial II: Preparation**  
Mock Trial II is an intense period of preparation before the competition itself. The team will compete at a regional tournament and, if successful, the Intercollegiate National Championship. Individual team members will compete for “All American” honors. Repeatable for credit - maximum four. Prerequisite: POL 326. Offered Spring.

POL 330 Cr.3  
**Politics of Developing Areas**  
An introduction to a wide range of issues and problems impacting political development in developing nations. The focus is on political systems of selected countries, the relationships between political processes and other aspects of development and on the factors which accelerate or impede development. Prerequisite: POL 202 or POL 234 or junior standing. Offered Occasionally.

POL 331 Cr.3  
**Politics of Democratization**  
An examination of the processes by which countries attempt to transition from authoritarian to democratic forms of government, along with the political, economic, social, and historical factors related to their potential for success or failure. The course focuses on both theoretical explanations and empirical outcomes across a diverse set of cases from around the world. Prerequisite: POL 202 or POL 234 or junior standing. Offered Annually.

POL 333 Cr.3  
**Asian Government and Politics**  
Comparison and analysis of contemporary governments and politics of the major Asian nations such as Japan, China, and India as well as the Philippines, Korea, Pakistan, Indonesia, and Vietnam. Prerequisite: POL 202 or POL 234 or junior standing. Offered Occasionally.

POL 334 Cr.3  
**Post-Communist Politics**  
An examination of the politics of the countries of the former Soviet Union and Eastern Europe. The course evaluates the historical break with communism and subsequent political, economic, and social transformations across the region. It also investigates theoretical and empirical reasons for these countries’ divergent political and economic outcomes. Prerequisite: POL 202 or POL 234 or junior standing. Offered Annually.

POL 336 Cr.3  
**Middle Eastern Government and Politics**  
An examination of Middle Eastern political systems and practices. General topics covered will include: political institutions, electoral practices, political parties, policy formation, leadership selection and critical contemporary issues. Prerequisite: POL 202 or POL 234 or junior standing. Offered Occasionally.

POL 337 Cr.3  
**African Government and Politics**  
A study of political evolution and practice on the African continent. Emphasis will be given to a regional assessment of political behavior as well as the impact of current problems on selected countries. Special focus will be given to contemporary issues and developments. Prerequisite: POL 202 or POL 234 or junior standing. Offered Occasionally.

POL 338 Cr.3  
**European Government and Politics**  
An examination of the governments and politics of European countries and the European Union. The course surveys the domestic institutions and politics of a variety of European countries, with special emphasis placed on the United Kingdom, Germany, and France. It also examines the origins and evolution of the European Union, with particular attention given to contemporary political challenges facing the EU and its member countries. Prerequisite: POL 202 or POL 234 or junior standing. Offered Annually.

POL 339 Cr.3  
**Contemporary Latin America**  
An examination of the historical interplay between cultural and developmental factors in the politics of Latin America. Issues of development and underdevelopment are examined and related to regional and international political forces. Prerequisite: POL 202 or POL 234 or junior standing. Offered Occasionally.

POL 340 Cr.3  
**American Foreign Policy**  
Examines the decision-making and institutional processes related to the formulation and execution of American foreign policy. The course evaluates the role of actors and institutions both inside and outside of the government to assess their impact on the ability of the United States to contend with contemporary and future foreign policy challenges. Prerequisite: POL 101 or POL 202 or POL 244 or junior standing. Offered Alternate Years.

POL 341 Cr.3  
**America and the World**  
An examination of contemporary geopolitical and transnational challenges facing the United States. The course draws on both theoretical and historical debates regarding the nature of American foreign policy to evaluate its current and future potential in accomplishing its goals to address key bilateral and multilateral issues. Prerequisite: POL 101 or POL 202 or POL 244 or junior standing. Offered Occasionally.
POL 344 Cr.3
Global Governance
Examines the various actors and institutions closely linked to the processes of global governance in a world that lacks a global government. The course evaluates the role of intergovernmental organizations, states, and non-state actors in the complex areas of governance that have emerged to address challenges like global conflict and security, the politics of globalization, and transnational political issues. Prerequisite: POL 202 or POL 244 or junior standing. Offered Alternate Years.

POL 345 Cr.3
International Law
An examination of international law that explores both its evolution and function in contemporary global politics. The course draws on both theoretical and historical debates about the nature of international law to assess its current and future potential for addressing global challenges. Prerequisite: POL 202 or POL 244 or junior standing. Offered Occasionally.

POL 346 Cr.3
Model UN: The United Nations System
An introduction to the United Nations and the UN System, which also includes participation in a regional or national Model United Nations conference. The course examines the aims, structure, and processes of the United Nations and specialized UN agencies, programs and other groups. Emphasis each semester will be placed on countries and issues relevant to the conference agenda. Offered Fall.

POL 350 Cr.3
American Political Theory
The history and development of American political thought, with attention to the thinkers and themes influential to institutions, ideologies, and controversies in American politics. The course will analyze the ideas and principles upon which the United States was founded, and critically assess their application and realization. Prerequisite: POL 251 or junior standing. Offered Alternate Years.

POL 351 Cr.3
Classical Political Theory
The foundations of political theory from the ancient Greeks to the early modern social contract theorists. The course analyzes leading political theorists in their historical contexts, and evaluates their ideas according to the preceding tradition of political theory and their implications for political thought and practice. The survey includes studying the work of philosophers including: Plato, Aristotle, Augustine, Aquinas, Machiavelli, Hobbes, Locke, and Rousseau. Prerequisite: POL 251 or junior standing. Offered Alternate Years.

POL 353 Cr.3
Modern and Contemporary Political Theory
The development of political theory from the 17th century to the present. The course will analyze leading political theorists in their historical contexts, and evaluate ideas according to the preceding tradition of political theory and their implications for political thought and practice. The survey includes studying the work of philosophers including: Hobbes, Locke, Rousseau, Kant, Hegel, Marx, Burke, Mill, Nietzsche, and Foucault. Prerequisite: POL 251 or junior standing. Offered Alternate Years.

POL 355 Cr.3
Political Ideologies
A survey of the ideas and implications of political ideologies that have impacted consciousness and behavior in the 20th and 21st centuries. Topics include liberalism, conservatism, capitalism, communism, socialism, fascism, anarchism, multiculturalism, and feminism. Prerequisite: POL 251 or junior standing. Offered Alternate Years.

POL 361 Cr.3
Research Methods in Politics and Government
An analysis of politics, public policy and government administration utilizing contemporary research methods. Special emphasis is placed on the scientific method and the basic elements of research, research design, measurement, and data analysis utilizing statistical software. Prerequisite: MTH 145. Offered Fall, Spring.

POL 370 Cr.3
Constitutional Law I: Powers of Government
An examination of the United States Constitution, and the role of the judiciary in elaborating its fundamental principles: judicial review, the federal system, the range of national power, and presidential-congressional relations. Prerequisite: POL 101 or POL 102 or POL 221. Offered Alternate Years.

POL 371 Cr.3
Constitutional Law II: The First Amendment
The First Amendment protects freedom of speech, press, religion and assembly. This course will carefully examine U.S. Supreme Court opinions in these areas. Among the topics to be covered are the constitutional relationship between speech and conduct, separation of religion and government, definition of obscenity and pornography, and the latitude available to those who use the media and newspapers to communicate ideas. Prerequisite: POL 101 or POL 102 or POL 221. Offered Alternate Years.

POL 372 Cr.3
Constitutional Law III: Racial, Gender and Targeted Group Discrimination
A careful examination of U.S. Supreme Court rulings on racial and gender discrimination. Prerequisite: POL 101 or POL 102 or POL 221. Offered Alternate Years.

POL 373 Cr.3
Constitutional Law IV: Rights of the Accused
In recent years the U.S. Supreme Court has issued a large number of opinions dealing with the rights of the accused. This subject is primarily addressed in the 4th, 5th and 6th amendments. This course will examine Court rulings in the areas of police searches and arrests, coercion in criminal proceedings, empaneling and deliberation of juries, right to counsel, and the protection against self-incrimination. Prerequisite: POL 101 or POL 102 or POL 221. Offered Alternate Years.

POL 374 Cr.3
Constitutional Law V: Right to Life
A careful examination of the U.S. Supreme Court’s opinions on capital punishment, abortion, and mercy killing, as well as other issues affecting the constitutional right to life. Prerequisite: POL 101 or POL 102 or POL 221. Offered Alternate Years.

POL 375 Cr.3
Constitutional Law VI: Criminal Procedure
This course will carefully examine criminal procedure as interpreted in U.S. Supreme Court rulings pertaining to the 5th and 6th Amendments. Among the topics to be covered are protection against self-incrimination and double jeopardy, trial by jury, plea bargaining, right to counsel, and due process in the courtroom. Prerequisite: POL 101 or POL 102 or POL 221. Offered Alternate Years.

POL 376 Cr.3
Constitutional Law VII: Administrative Law
An introduction to the field of administrative regulation in the United States and its relation to the constitutional foundations, the political structures and the policies of our various governmental units. Prerequisite: POL 101 or POL 102 or POL 211 or POL 221. Offered Alternate Years.
POL 377 Cr.3
**Constitutional Law VIII: 1787 and Original Intent**
The central inquiry in Constitutional Law, and the question which most guides the U.S. Supreme Court, is whether the intentions of the Framers of 1787 should exclusively direct justices in interpreting constitutional provisions, or if it is necessary to adjudicate cases in light of changing legal and social circumstances not known to members of the Philadelphia Convention. We will begin with a study of the 1787 Convention and then read a series of law review articles advocating both of these perspectives. Supreme Court opinions will not be covered in this course. Prerequisite: POL 101 or POL 102 or POL 221, and two courses from POL 370, POL 371, POL 372, POL 373, POL 374, POL 375, POL 376. Offered Alternate Years.

POL 400 Cr.2-3
**Political Forum**
Academics and practicing politicians will be invited to address the students and lead discussion sessions on the important political questions of the time. Reading assignments, lectures and audio-visual presentations will be used to provide background information. Repeatable for credit - maximum six. Offered Occasionally.

ECO/GEO/HIS/POL/PSY/SOC 408 Cr.4
**Teaching and Learning History & Social Studies in the Secondary School**
This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in history and social sciences. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school and learn how to design learning experiences to support all learners. Prerequisite: EDS 351. (Cross-listed with ECO/GEO/HIS/POL/PSY/SOC; may only earn credit in one department.) Offered Fall, Spring.

POL 433 Cr.3
**Women and Politics in Asia**
This course takes a look at the status and treatment of women in the political systems of Asian countries. It examines the role that history, religion, economics but more importantly politics plays in terms of the life of women in this part of the world. The focus of the course is the status of women in the political systems of Asia. Prerequisite: POL 202 or POL 205 or POL 234 or junior standing. Offered Occasionally.

POL 436 Cr.3
**Women and Politics in the Middle East**
This course focuses on the status and treatment of women in the political systems of Middle Eastern countries. It examines the effects of politics as well as history, religion and economics in the lives of women in this region of the world. Prerequisite: POL 202 or POL 205 or POL 234 or junior standing. Offered Occasionally.

POL 437 Cr.3
**Women and Politics in Africa**
This course takes a look at the status and treatment of women in the political systems of African countries. It examines the role that history, religion, economics but more importantly politics plays in terms of the life of women in this part of the world. The focus of the course is the status of women in the political systems of Africa. Prerequisite: POL 202 or POL 205 or POL 234 or junior standing. Offered Occasionally.

POL 439 Cr.3
**Women and Politics in Latin America**
This course analyzes gender and sexuality issues in the political systems of Latin American countries. It examines the role that history, religion, economics but more importantly politics plays in the lives of women in this part of the world. Prerequisite: POL 202 or POL 205 or POL 234 or junior standing. Offered Occasionally.

POL 446 Cr.3
**Model UN: International Diplomacy**
An examination of contemporary international diplomacy, which also includes participation in a regional or national Model United Nations conference. The course examines the government, politics, and foreign policy of assigned countries, with particular emphasis on problems whose solutions may necessitate cooperative multilateral diplomacy. Repeatable for credit - maximum six. Prerequisite: POL 346. Offered Fall.

POL 450 Cr.1-12
**Internship in Political Science**
An academically relevant work experience within the federal, state, or local government structure, or within other political organizations such as political parties, as arranged by the department. The experience will be supervised closely both by the local internship coordinator and the departmental staff. A written report relating the field experience to academic training will be required. Repeatable for credit - maximum 12. Consent of department. Offered Fall, Winter, Spring, Summer.

POL 451 Cr.3
**Internship in Criminal Justice**
An academically relevant field experience for minors in criminal justice. Prerequisite: SOC 324; junior standing; criminal justice minor. Offered Fall, Winter, Spring, Summer.

POL 494 Cr.3
**Capstone Seminar in Politics and Government**
Assessment of political science and public administration majors including a variety of written papers and oral presentations utilizing a seminar format. Prerequisite: POL 261 or POL 361; political science, political science education, or public administration major; senior standing. Offered Fall, Spring.

POL 498/598 Cr.2-3
**Honors/Graduate Reading & Research in Political Science**
Directed honors or graduate reading and research from reading lists under the supervision of the candidate's faculty adviser. Designed to prepare the honors candidate for the terminal examination. Prerequisite: senior standing; honors program candidate or graduate standing. Offered Fall, Spring.

POL 499 Cr.1-3
**Independent Study in Political Science**
Independent study comprised of readings and research in political science, and under the supervision of a faculty adviser. Repeatable for credit - maximum six. Consent of instructor. Offered Fall, Spring.

**Psychology (PSY) - Courses**

+ next to a course number indicates a general education course
Courses

+PSY 100 Cr.3

General Psychology
A comprehensive introduction to contemporary basic principles and theories of behavior and related processes along with supporting scientific evidence and applications. Topics include sensory processes, perception, learning, memory, motivation, emotion, developmental change, measurement, social interaction and abnormal behavior. Offered Fall, Spring, Summer.

PSY 200 Cr.1

Orientation to the Psychology Major
This course is an orientation to psychology as a major. It is designed for sophomore level students who have either declared or are considering psychology as a major. It is also appropriate for second semester freshmen or first semester juniors. The field of psychology as a discipline will be discussed as will career options related to the field. Students will be required to complete a variety of tasks designed to identify and/or clarify career paths and goals and increase their understanding of psychology as both an empirical and applied field. Prerequisite: PSY 100. Pass/Fail grading. Offered Fall, Spring.

PSY 204 Cr.3

Abnormal Psychology
This course introduces students to various clinical presentations of psychopathology that may occur throughout human development. It provides an overview of specific psychological disorders as well as disorder-specific etiological considerations, associated clinical features, defining characteristics, and diagnostic criteria. The course also includes overviews of current treatments for the major disorders, and ethical considerations in mental health care. Prerequisite: PSY 100 or PSY 212; sophomore standing. Offered Fall, Spring, Summer.

PSY 205 Cr.3

Effective Behavior
This course is a general overview of ways that psychological science can be applied to individuals' lives to increase effective behavior. Course themes include exploring ways to improve enactment of roles through the lifespan such as student, parent, worker, and life partner. Topics may include: coping and stress; alcohol and drugs; relationships; and workplace skills and career issues. Prerequisite: PSY 100. Offered Fall, Spring.

PSY 210 Cr.3

Developmental Psychology
Designed for the psychology major as an introduction to developmental psychology, the course emphasizes the historical, theoretical and methodological approaches to human development across the lifespan. Psychological principles, concepts, and historical and recent research in the areas of prenatal, cognitive, language, social/emotional, and physical development are explored. Prerequisite: PSY 100; Psychology Milestone 1 (completion of psychology major online tutorial and meeting with psychology advising coordinator.) Students may only earn credit in PSY 210 or PSY 212. Offered Fall, Spring.

PSY 212 Cr.3

Lifespan Development
An overview of human development from conception through death. It emphasizes major developmental milestones in several domains, including physical, cognitive and social/emotional. It also introduces students to prominent historical, theoretical, and methodological approaches to human development as well as to practical applications. Does not apply to the psychology major. Prerequisite: Students may only earn credit in PSY 210 or PSY 212. This course is not for psychology majors. Offered Fall, Spring.

PSY 241 Cr.3

Social Psychology
This course addresses the effects of the social context on human behavior. Topics may include attitudes; stereotyping and discrimination; aggression and prosocial behavior; and interpersonal relationships. It also examines the implications of social psychological principles in areas such as health, the environment and the legal system. Prerequisite: PSY 100 or SOC 110. Students may only earn credit in SOC 330 or PSY 241. Offered Fall, Spring.

ESS/PSY/WGS 259 Cr.1-3

Girls and Women in Sport
This course is an introduction to the involvement of girls and women with sport. It includes a historical perspective on women's sport participation, cultural images of women athletes, teaching and coaching implications of current research, Title IX, and recreation/leisure approaches to physical activity. Course content may vary according to instructor. (Cross-listed with ESS/PSY/WGS; may only earn credit in one department.) Offered Occasionally.

+PSY 282 Cr.3

Cross-Cultural Psychology
An orientation to the definitions, concepts, theories, and methodologies of cross-cultural psychology. Included is an examination of cultural and ecological factors and their influences on perceptual and cognitive processes, personality, language, and other psychological variables. Prerequisite: PSY 100. Offered Fall, Spring.

+PSY 285 Cr.3

Culture and Mental Health
This course provides an examination of the relationship between culture and mental health. Specific attention is given to the impact of racism, prejudice, and minority status on the lives of various American minority groups and how the effects of these factors reveal themselves within a mental health framework. An eclectic, multidisciplinary approach that draws from clinical and social psychology, as well as sociology, is utilized. Prerequisite: PSY 100; sophomore standing. Offered Annually.

PSY 291 Cr.1-3

Contemporary Topics in Psychology
Introductory exploration of special topics relevant to the field of Psychology. Topics of specific interest to undergraduate students will be offered periodically. Offerings will be determined by staff/student interest and availability of teaching resources. Departmental approval is necessary to apply more than six credits toward the psychology major. Prerequisite: PSY 100. Offered Occasionally.

PHL/PSY 301 Cr.3

Theory of Knowledge
An intensive examination of three major questions: (1) What are the principal grounds of knowledge? (2) How certain can we be of what we think we know? (3) Are there limits beyond which we cannot hope to extend knowledge? Strong emphasis is placed on the problems of perception, learning, and knowledge representation. Prerequisite: PHL 100 or PHL 101 or PHL 200 or PSY 100. (Cross-listed with PHL/PSY; may only earn credit in one department.) Offered Alternate Years.

PSY 302 Cr.3

Environmental Issues: Applied Psychology
This course is an exploration of psychological perspectives on environmental issues. Two trends associated with the relationship between human attitudes and behavior and the natural and built environments will be examined. First, the course will focus on what psychology has to offer in terms of explaining how attitudes and behaviors have contributed to the degradation of the natural environment. Second, it will focus on the synergistic relation between person and planetary well-being characteristic of the "green psychology" movement. Prerequisite: PSY 100 or ENV 201. Offered Occasionally.
Personal Approval: PSY 100; PSY 210 or PSY 212; junior standing. Offered Fall, Spring.

PSY 305 Cr.3
Human Sexuality
This course is an exploration of human sexuality from biological, psychological, and social perspectives throughout the lifespan. Sexual attitudes and behaviors reflecting a broad spectrum of typicality and experience will be discussed. Prerequisite: PSY 100; minimum of 45 credits earned. Offered Fall, Spring.

PSY 307 Cr.3
Intimate Relationships
This course explores the development and life cycle of cross-sex and same-sex intimate relationships (e.g., dating, romantic, and marital partnerships). The course will focus on topics such as: human need for relationships, interpersonal attraction, love, attachment, communication, relationship development and maintenance, sexually, jealousy, conflict and aggression. Conditions influencing relationships such as illness, aging, poverty, trauma, and intimate partner violence will be examined. The course will also highlight factors associated with relationship success and/or dissolution. Students will engage with the theory, research, and practical application of the course material. Prerequisite: PSY 100 or PSY 212; junior standing. Offered Annually.

PSY 308 Cr.1-2
Research Apprenticeship
This course offers research experience under the supervision of a faculty member. The student will assist a faculty member in any phase of the research process including literature searches, formulation of instruments, pilot studies, data collection, data coding, and computer analysis. Repeatable for credit - maximum six. Prerequisite: PSY 331; junior standing. Consent of department, Pass/Fail grading. Offered Fall, Spring.

PSY 309 Cr.1
Volunteer Experience in Psychology
This course provides students with opportunities to gain practical experience through interaction with a variety of age groups. This supervised fieldwork requires 30 hours on site per semester. Repeatable for credit - maximum two. Prerequisite: PSY 100, PSY 210 or PSY 212; Psychology Milestone 1 (completion of psychology new major online tutorial and meeting with psychology advising coordinator.) Pass/Fail grading. Offered Fall, Spring.

PSY 315 Cr.3
Behavior Modification
This course will examine the theory and techniques of systematic behavior management and behavior control. Applied social learning theory, reinforcement, shaping, modeling, cognitive and rational techniques, extinction, aversive procedures, and token economies will be covered. Course will include the planning, execution, and evaluation of a personal behavior self-modification program, and several other opportunities to apply behavioral principles to everyday experiences. Prerequisite: PSY 100; PSY 204; PSY 210 or PSY 212. Offered Annually.

PSY 316 Cr.1-3
Child Abuse and Neglect
This course provides an overview of child abuse and neglect from historical and contemporary perspectives. The course will cover causes, consequences, and contextual factors associated with child maltreatment. Interventions for children, families, caregivers, and community will be covered. Topics include physical and emotional abuse and neglect, sexual abuse, reporting and investigation, and prevention and treatment for victims and abusers. Prerequisite: PSY 210 or PSY 212; junior standing. Offered Occasionally.

PSY 318 Cr.3
Psychology of Women
Theories and research concerning the biological, psychological, and social aspects of female functioning will be evaluated. The course will analyze psychological literature that addresses itself to the experience, development, and behavior of women from different ethnic and cultural backgrounds. Prerequisite: PSY 100; sophomore standing. Offered Fall, Spring.

PSY 319 Cr.3
Men and Masculinities
This course examines everyday life using the theories, methods, and findings from the psychology of men and masculinities. The psychology of men is analyzed from multiple perspectives including biological, social learning, feminist, and social constructionist theories. The course considers the role of patriarchy, biology, the media, and other factors that shape the lives of individuals and social groups. Specific topics include men’s mental and physical health, violence, work, and diversity. Prerequisite: PSY 100 or PSY 212 or WGS 100 or WGS 210 or WGS 230 or EFN 205. Offered Occasionally.

PSY 320 Cr.3
Human Motivation
This course examines contemporary and historical psychological conceptions, principles, and theories of human motivation. Concern is given to physiological, cognitive, emotional, and social factors that influence human’s desires, aspirations, and behaviors. Practical applications to multiple areas including education, industry, health, and everyday situations will be considered. Prerequisite: PSY 100 and PSY 210; or PSY 212. Offered Occasionally.

PSY 321 Cr.3
Research Methods for Psychology Minors
Introduction to the research methods associated with psychological research for psychology minors. Consideration given to formulation of problems, techniques for gathering data, and the presentation and interpretation of research. Focus on an ability to critically evaluate social science research. (Not required of students who major in CST or SOC or WGS). Prerequisite: PSY 100; 45 earned credits. Not open to psychology majors. Offered Fall, Spring.

PSY 331 Cr.4
Experimental Psychology: Lecture and Laboratory
This course provides an introduction to experimental and other research methods as used in psychology. The emphasis is on the scientific method, techniques of data collection, and the principles and theories employed in the study of behavior and mental processes. The laboratory portion develops skills in observation, formulating research ideas and hypotheses, designing and conducting research, data analysis, and scientific report writing. Prerequisite: Psychology Milestone 2 (“C” or better in PSY 100 & MTH 145; complete ENG 110 & CST 110; combined GPA of at least 2.25 in these four courses; completion of 30 cr.); three other credits in PSY. Open to psychology majors only. Offered Fall, Spring.
PSY 334 Cr.3

Health Psychology
This course will examine the role of psychological factors in health, wellness, and illness. The focus will be on the interdependence of physiological, psychological, and sociocultural factors on the experience and treatment of acute and chronic illness. There will be a strong emphasis on the mind/body connection and evidence-based mind/body interventions (e.g., physical, psychological, spiritual, social, emotional, and intellectual). Ethical considerations, multicultural contexts, and public policy issues in treatment and research will be considered. Prerequisite: PSY 100 and six additional credits in PSY; or PSY 100 and BIO 312 or ESS 205. Offered Fall, Spring.

PSY 343 Cr.3

Group Dynamics
This course focuses on the structure and function of groups. Topics covered may include communication, process losses, leadership, problem-solving, improving the effectiveness of groups and intergroup relations. Prerequisite: PSY 100 or SOC 110. Not open for credit to students who have completed or are enrolled in CST 365 and/or SOC 334. Offered Annually.

PSY 347 Cr.3

Empathic Listening Skills
This course is designed to clearly define empathic listening skills within a multicultural context. Students will learn to differentiate listening from psychotherapy and will practice listening skills. Topics include values identification, basic listening skills, in-depth exploration skills, and action planning without counseling. Ideal for those who plan to work in a human services setting. Prerequisite: PSY 100; second semester sophomore standing. Offered Fall, Spring.

PSY 355 Cr.3

Infancy and Early Childhood
This course will provide students with an in-depth examination of human development during infancy and early childhood (conception through approximately age five) from a multidimensional perspective. Normative development in the following areas will be examined: prenatal, physical, perceptual, cognitive, language, social and emotional. Legal and public policy implications will be discussed. Research methodology and theoretical perspectives will be integrated throughout each topic area. Prerequisite: PSY 100 and PSY 210; or PSY 212. Offered Occasionally.

PSY 356 Cr.3

The School-aged Child
This course focuses on basic principles, theories, and research in human development from conception through middle childhood (ages 5-12 approximately). Topics include physical, cognitive, language, social/ emotional and personality development. Both the biological/genetic (nature) and the environmental (nurture) influences on development will be examined within each developmental area. Prerequisite: PSY 100 and PSY 210; or PSY 212. Offered Annually.

PSY 357 Cr.3

Adolescence
Focuses on the developmental tasks of adolescence and the influence of family, peers, school and society. Topics include historical perspectives, cognitive and moral development, self-concept, sexuality, vocational choice, and problems of adolescence. Prerequisite: PSY 100 and PSY 210; or PSY 212. Offered Annually.

PSY 358 Cr.3

Adulthood
An overview of the "journey of adulthood" including both continuity and change. It introduces students to major historical and theoretical perspectives on adult development as well as primary methodological techniques for studying adult development. It examines milestones and transitions in traditional developmental domains (physical, cognitive and social and emotional) and explores individual responses and adjustments to these experiences. Prerequisite: PSY 100 and PSY 210; or PSY 212. Offered Annually.

PSY 359 Cr.1

Aging and the Elderly
The study of aging and older persons from a psychological perspective. It highlights physical, cognitive, emotional and social characteristics of old people and developmental changes associated with aging processes. Special attention is focused on the differences between typical aging and disease-related conditions associated with aging. Attention also is focused on diversity in the experience of aging and on practical applications. Prerequisite: PSY 358 or concurrent enrollment. Offered Occasionally.

PSY 360 Cr.3

Cross Cultural Human Development
This course represents a blend of cross-cultural concepts and human development (across the lifespan) and will seek to explore the influence of culture on various aspects of human development. More specific topics include the role of culture on: socialization, physical growth, cognition, self and personality, sex and gender, social behavior, family relations, and health. Prerequisite: PSY 100 and PSY 210 or PSY 212. Offered Occasionally.

PSY 370 Cr.3

Educational Psychology
This course examines the application of psychological principles to school learning. Topics covered include theories of learning, individual differences, motivation, classroom management, measurement and evaluation, and effective teaching. The content will be discussed in relation to current issues and problems. Prerequisite: PSY 100 and PSY 210 or PSY 212 or ECE 212 or ESS 207 and ESS 225. Offered Fall, Spring, Summer.

PSY 376 Cr.3

Industrial/Organizational Psychology
Psychological principles, concepts and methods applicable to organizational and industrial situations and practices. Topics include personnel selection, placement and evaluation; training; motivation; leadership; and social factors in organizations. Prerequisites: six credits in psychology; junior standing. Offered Annually.

PSY 377 Cr.3

Psychology and Law
This course examines a variety of ways that psychology intersects with the legal system. Topics include criminal profiling, false confessions and eyewitness misidentification, forensic assessment of competency and insanity, jury selection and decision-making, the impact of race in criminal sentencing, the philosophy and psychology of imprisonment, workplace harassment and discrimination, and roles for psychologists in the legal system. Prerequisite: PSY 100 or SOC 110 or SOC 120 or ANT 101. Offered Occasionally.
PSY 391 Cr.1-3
Contemporary Topics in Psychology: Intermediate
Intermediate consideration of contemporary topics related to psychological theories and research methods. Topics of specific interest to undergraduate students will be offered periodically. Offerings will be determined by staff/student interest and availability of teaching resources. Credit, prerequisite and format will vary according to the specific topics selected and the target student group. Departmental approval is necessary to apply more than six credits toward the psychology major. Offered Occasionally.

PSY 403/503 Cr.3
Advanced Psychopathology
This course focuses on selected topics in the area of clinical and abnormal psychology and is designed to provide in-depth knowledge of advanced current issues in the field. It helps prepare students for the field of human services by offering additional information beyond that conveyed in the abnormal psychology course on the diagnosis and treatment of a number of psychological disorders. Prerequisite: PSY 204; junior standing. Offered Occasionally.

PSY 404 Cr.3
Counseling and Personality Theories
A comprehensive conceptual review of theories of psychotherapy and counseling with a focus on the processes of change. The theories examined include the psychodynamic, person-centered, gestalt, behavioral, cognitive-behavioral, solution-focused, marriage and family therapy, and group therapy. Divergence and convergence among the theories will be examined. This course will focus on the presentation of a transtheoretical analysis of these major theoretical views and methods used in psychotherapy. The course will emphasize the pragmatic and integrated qualities of major theories of psychotherapy and counseling. Prerequisite: PSY 100 or PSY 212; PSY 204; PSY major with completed Psychology Milestones 1 & 2 or declared psychology minor, criminal justice minor, or at risk child/youth care minor. Offered Fall, Spring.

PSY 405 Cr.1-2
Teaching Apprenticeship in Psychology
This course provides preparation and experience in a variety of instructional practices, strategies and techniques. Students study theory and research on teaching and practice teaching skills under the guidance of faculty members. Repeatable for credit - maximum six. Prerequisite: junior standing; minimum 3.25 cumulative GPA. Pass/Fail grading. Offered Fall, Spring.

PSY 406 Cr.3
Positive Psychology
Positive psychology explores the enhancement of human experience for individuals, families, and communities rather than a focus on mental illness. The course examines attitudes, traits, behaviors, and environments associated with well-being. Emphasis will be placed on both understanding the concepts as well as the possible avenues for application to students’ lives. The course offers opportunities for self-assessment and the ability to demonstrate individual understanding of the research base supporting the field. Prerequisite: PSY 100; PSY 204; PSY 210 or PSY 212; junior standing. Offered Occasionally.

PSY 407 Cr.3
Children’s Cognition
This course will examine contemporary theories and current research on children’s cognition, focusing on the years from birth to early adolescence. Topics considered will include biological bases of cognitive development, Piagetian and neo-Piagetian theory, sociocultural theories of cognition, information-processing approaches to children’s memory and problem solving, the development of social cognition, and schooling and cognition. Prerequisite: PSY 210 or PSY 212. Offered Annually.

ECO/GEO/HIS/POL/PSY/SOC 408 Cr.4
Teaching and Learning History & Social Studies in the Secondary School
This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in history and social sciences. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school and learn how to design learning experiences to support all learners. Prerequisite: EDS 351. (Cross-listed with ECO/GEO/HIS/POL/PSY/SOC; may only earn credit in one department.) Offered Fall, Spring.

PSY 410/510 Cr.3
Advanced Developmental Psychology
An in-depth study of important topics in developmental psychology. Relevant theories and recent research in social development, cognitive development, moral development, language development, and emotional development will be evaluated. Prerequisite: PSY 210 or PSY 212; PSY 321 or PSY 331; MTH 145; junior standing. Offered Occasionally.

ERS/PSY 415 Cr.3
Multicultural Counseling
This course focuses on the effects of culture on the nature and behavior of individuals, their adaptations to institutions and environments, and their relations within and outside their culture. Specifically, the impact of concepts such as ethnocentrism, stereotypes, racism and prejudice are explored in terms of their relevance to the counseling process. Counseling strategies and skills relevant to providing effective multicultural counseling are investigated. Prerequisite: PSY 100, PSY 204. (Cross-listed with ERS/PSY; may only earn credit in one department.) Offered Annually.

PSY 417 Cr.3
Child and Adolescent Psychopathology
An examination of psychological disorders which first appear during infancy, childhood and adolescence. This course covers the etiology, diagnosis, classification, treatment, and prevention of psychological disorders from different theoretical orientations. Special emphasis is placed on applying basic concepts and empirical data to various professional settings and to social policy issues. Prerequisite: PSY 210 or PSY 212; PSY 204. Offered Fall, Spring.

PSY 420/520 Cr.3
Advanced Research Methods
An advanced course in the quantitative and logical aspects of statistical analysis, interpretation and design of behavioral science research and experimentation. Major emphasis is on the conceptual rather than the computational aspects of quantitative methods. Recommended for those planning graduate work in psychology or related fields. Prerequisite: PSY 100; PSY 210; grade of "B" or better in PSY 321 or PSY 331; grade of "B" or better in MTH 145 or admission to Psychology Honor Program; junior standing. Offered Spring.
PSY/SOC 422 Cr.3
Death, Grief, and Bereavement
A study of the interaction of individuals and families coping with dying and death in various social settings including hospitals, care facilities, and hospices. Topics include psychosocial aspects of grief and mourning, sociological dimensions of bereavement, and various rituals of funeralization in the U.S. and other societies. Special attention is given to case studies and medical/ethical decision-making at the end of life, as well as other aspects of the social organization of death, dying, and bereavement. Prerequisite: PSY 100 or SOC 110 or SOC 120 or ANT 101; junior standing. (Cross-listed with PSY/SOC; may only earn credit in one department.) Offered Annually.

PSY 426/526 Cr.3
Addictive Behaviors
Study of the personality characteristics of individuals experiencing substance abuse, dependency, and compulsive behaviors such as eating disorders and gambling. The focus will be on abuse as a maladaptive response to the demands of life. Special topics will include consumptive patterns, level of dependence, neurological status, assessment, and contemporary treatment techniques. Prerequisite: PSY 100; PSY 204; PSY 210 or PSY 212; junior standing. Offered Annually.

PSY 430 Cr.3
Cognitive Neuroscience
This course focuses on the utilization of a biological approach to understanding mental phenomena and behavior. Biological information includes the development and structure of the central nervous system, neuroanatomy and physiology, the function of basic neural events, neurotransmitters, neuropharmacology, hormones, evolution of behavior, brain development, neuroplasticity, and response to neural damage. Topics associated with how neural events influence human phenomena may include biological rhythms, consciousness, perception, sleep and dreaming, emotions, aggression, stress, learning, memory, and cognition. Prerequisite: PSY 100; PSY 321 or PSY 331 or BIO 312; junior standing. Offered Annually.

PSY 431 Cr.3
The Study of Consciousness
A comprehensive examination of conscious and nonconscious states of awareness. The course will explore contemporary cognitive theories on the nature of consciousness and its role and functioning in human behavior. The course also will cover states of consciousness (i.e., sleep and dreaming) as well as alterations in consciousness through hypnosis and psychedelic drugs. Prerequisite: PSY 100; BIO 312 or PSY 321 or PSY 331 or PHL 333. Offered Occasionally.

PSY 432 Cr.3
Learning and Memory
A study of the fundamental concepts and principles of human and animal learning and contemporary topics in human memory. Special topics include classical and operant (instrumental) conditioning, concept and skill learning, memory storage, and retrieval, forgetting, and the use of information. Prerequisite: PSY 100; PSY 321 or PSY 331. Offered Annually.

PSY 434/534 Cr.3
Clinical Neuropsychology
This course examines the relationship between brain functioning and cognition, behavior, and emotion. The course covers neuroanatomy, neurophysiology, and neuropsychological assessment. The history, rationale, goals, and procedures of neuropsychological assessment will be explored alongside the role that neuropsychologists play in the evaluation and treatment of individuals with disorders (e.g., dementia, stroke, or traumatic brain injury). Prerequisite: PSY 100, PSY 321 or PSY 331 or BIO 312; junior standing. Offered Annually.

PSY 435/535 Cr.3
Cognitive Processes
This course examines theories, models, and related experimental research concerning human mental processes. Topics include acquisition of information, memory, decision-making, problem solving, and language. Prerequisite: PSY 100; PSY 321 or PSY 331; junior standing. Offered Annually.

PSY 436/536 Cr.3
Psychology of Language
An introductory course in psycholinguistics concerned with the comprehension, production and acquisition of language. Other topics include: language and thought, reading, writing, bilingualism, figurative language, metalinguistic skills, and the neuropsychology of language. Prerequisite: PSY 100; PSY 321 or PSY 331; junior standing. Offered Spring - Even Numbered Years.

PSY 439 Cr.3
Sensation & Perception
Survey of the physiology and psychology of the human senses (e.g. vision, audition, smell, taste, and the skin senses) and the role they play in the attainment of knowledge and the regulation of behavior. In addition, the course will examine the various perceptual processes through which we interpret and restructure sensory information as we respond to changes in the environment. Prerequisite: PSY 100; PSY 321 or PSY 331 or BIO 312. Offered Fall, Spring.

PSY 440 Cr.3
Psychopharmacology
A study of the movement of psychoactive drugs into, around and out of the body, with an emphasis on the drug’s site of action, therapeutic effects, side effects and possible clinical uses. Prerequisite: PSY 100: PSY 321 or PSY 331 or BIO 312; junior standing. Offered Annually.

PSY 441/541 Cr.3
Advanced Social Psychology
The course will provide coverage of methodology and statistics most frequently encountered in social psychology and cover topics both of classic and current interest such as stereotypes and prejudice, medical social psychology, environmental psychology, social interdependence, leadership, and power. Prerequisite: completion of Psychology Milestones 1 & 2; Grade of "B" or higher in PSY 241 or SOC 330; MTH 145; junior standing. Offered Occasionally.

ERS/PSY 442 Cr.3
Racism and Oppression
This course focuses on psychological theory and research regarding individual, group, historical, institutional, and societal causes of racism and oppression. The manifestations and consequences of racism and oppression are examined as the challenges inherent in reducing racism and oppression. Both historical and contemporary racism and oppression are examined in a global context. Prerequisite: ERS 100 or PSY 241 or PSY 285 or SOC 330; junior standing. Students with credit in ERS/PSY 443 cannot earn credit in ERS/PSY 442. (Cross-listed with ERS/PSY; may only earn credit in one department.) Offered Occasionally.

ERS/PSY 443 Cr.3
Prejudice and Stigma
This course explores the psychological underpinnings of prejudice and stigma from an empirical, research-based perspective. In addition to covering well-recognized forms of prejudice such as racism, the course examines discrimination more broadly in terms of its impact on those who stigmatize and those who are stigmatized. Prerequisite: PSY 100; PSY 241 or SOC 330; PSY 321 or PSY 331. Students with credit in ERS/PSY 442 may not earn credit in ERS/PSY 443. (Cross-listed with ERS/PSY; may only earn credit in one department.) Offered Occasionally.
PSY 450 Cr.2-3
Fieldwork Experience in Psychology: Undergraduate Internship
An academically relevant field experience for majors in psychology. The field experience will be arranged through Career Services and supervised by psychology instructional coordinator. No more than three credits may be applied to a major in psychology. Prerequisite: PSY 100, PSY 210; cumulative GPA of 2.30; junior standing; completion of Psychology Milestones 1 & 2. Consent of instructor. Pass/Fail grading. Offered Fall, Spring, Summer.

PSY 451/551 Cr.3
Psychological Measurement
Principles and procedures for the psychological measurement of human differences. This course examines the development, quantitative interpretation, uses, distinctive and desired characteristics of tests of intelligence, aptitudes, achievement, occupational interests and personality. Prerequisite: PSY 100; PSY 321 or PSY 331; grade of "C" or better in MTH 145; junior standing. Offered Fall, Spring.

PSY 459 Cr.3
Genes and Behavior
This course provides an overview of how psychologists study genetic influences on human behavior and examines the roles that heredity and environment play in influencing individual differences in behavior. This course will critically evaluate behavioral genetics research on a variety of dimensions of human behavior, ranging from IQ and personality to clinical disorders, such as alcoholism, depression, and schizophrenia. Prerequisite: PSY 100; PSY 210 or PSY 212; PSY 321 or PSY 331 or BIO 312. Offered Occasionally.

PSY 461 Cr.3
History and Systems of Psychology
A study of the philosophical and empirical foundations of modern psychology. Outstanding contributions by individual scholars and the development of major systems of thought within the field. Recommended for students considering graduate school in psychology. Prerequisite: PSY 100; PSY 321 or PSY 331; MTH 145; junior standing. Offered Occasionally.

PSY 481 Cr.1-3
Individual Projects in Psychology
Directed readings, research, or other individualized projects in psychology under the supervision of an instructor. Open to students who are in good standing. Registration requires consent of supervising instructor and department chair. Repeatable for credit - maximum six. Prerequisite: 12 credits in psychology. Consent of department. Offered Fall, Spring.

PSY 482 Cr.1-3
Honors Projects in Psychology
This course allows psychology honors students to complete their independent research projects. Honors students must enroll for a total of three credits (over one or two semesters). Repeatable for credit - maximum three. Prerequisite: PSY 420, PSY 489. Offered Fall, Spring.

PSY 485 Cr.1
Appraising Psychology Seminar
This seminar is designed to actively involve students in the assessment of their psychology education. Students will complete a variety of measures as well as provide in-depth feedback about the psychology major. Students are expected to reflect on themes, debates, and issues in the field of psychology. Prerequisite: senior standing; psychology major/minor. Pass/Fail grading. Offered Spring - Odd Numbered Years.

PSY 489 Cr.3
Honors Seminar
Students develop introductions and methods for independent research projects. Designing sound proposals and grappling with research design issues are the main foci of the course. Projects are completed under the supervision of a faculty adviser (PSY 481). Prerequisite: acceptance into Psychology Honors Program; PSY 100, PSY 331; PSY 420 (may be taken concurrently); MTH 145; junior standing. Offered Spring.

PSY 491 Cr.1-3
Contemporary Topics in Psychology: Advanced
This course provides in-depth consideration of significant new areas of development in the field of psychology. Topics of interest to traditional and nontraditional students will be offered on an irregular basis. Credit, prerequisite, and format will vary according to the specific topic selected and the target student group. Offered Occasionally.

Public Administration (PUB) - Courses

Courses

PUB 210 Cr.3
Introduction to Public Administration
An introduction to the principles of bureaucracy, decision-making organization theory, individual and group behavior, personnel and budgetary policies, and the regulatory process within public agencies at all levels of government in the United States. Offered Fall, Spring.

PUB 320 Cr.3
Public Budgeting and Finance
An examination of the public budgetary process. Included are studies of the various approaches to taxation, decision-making and policy evaluation. Prerequisite: PUB 210. Offered Fall.

PUB 330 Cr.3
Public Policy
An intensive, in-depth analysis of selected public policies - their development, administration, effects and relationship to the broader political system from the perspectives of the policy maker and policy analyst. Prerequisite: POL 102 or junior standing. Offered Fall.

PUB 332 Cr.3
Urban Policy
An in-depth analysis of the forms, functions, and problems of urban governments with special attention to metropolitan areas. Field work and the materials of contemporary urban politics will be used. Prerequisite: POL 102 or junior standing. Offered Fall.

PUB 334 Cr.3
Health Policy
An intensive, in-depth analysis of health policies - their development, administration, effects and relationship to the broader political system. The perspectives of the policy maker and public policy analyst are emphasized. Prerequisite: POL 102 or junior standing. Offered Alternate Years.

PUB 338 Cr.3
Environmental Policy
An in-depth exploration of environmental politics and policy making beginning with American environmentalism in the 1960s and concluding with global environmental politics in the 21st century. Environmental issues, ethics, institutional problems, philosophical approaches, economic analyses and implementation problems will be studied. Prerequisite: POL 102 or junior standing. Offered Spring.
PUB 340 Cr.3
**Public Personnel Administration**
The study of principles and problems of public personnel management and behavior. Prerequisite: PUB 210. Offered Fall.

PUB 342 Cr.3
**Urban Administration**
An examination of the politics and policy problems facing urban administrators. Emphasis will be placed on policy formulation and implementation, particularly the systematic approaches to urban service delivery. Prerequisite: PUB 210. Offered Spring.

PUB 344 Cr.3
**Health Administration**
Examination of the policy, political and management problems facing health administrators and policy analysts. Emphasis will be placed on policy formulation and implementation. Prerequisite: PUB 210. Offered Alternate Years.

PUB 346 Cr.3
**Ethics Management in Government**
The course will include: an introduction to ethics management; a discussion of the U.S. Constitutional and administrative environment in which officials carry out their duties; descriptions and assessments of the tools available to elected and appointed officials who are committed to building ethical organizations; a review of existing ethics management programs in American cities and counties; and a review of legislative and administrative measures taken by Congress, presidents, the judiciary, and the fifty states to foster ethical governance. Prerequisite: PUB 210. Offered Alternate Years.

PUB 399 Cr.3
**Special Topics in Public Administration**
An introduction and study of selected topics in public administration. Local officials, visiting lecturers, or persons specializing in a particular sub-area of public administration will be invited to present a course focusing on a particular topic. To be on an ad hoc basis. Repeatable for credit - maximum six. Offered Occasionally.

PUB 450 Cr.1-12
**Internship in Public Administration**
An academically relevant work experience within the federal, state, or local government structure, or within other political organizations such as nonprofit organizations, as arranged by the department. The experience will be supervised closely both by the local internship coordinator and the departmental staff. A written report relating the field experience to academic training will be required. Repeatable for credit - maximum 12. Consent of department. Offered Fall, Winter, Spring, Summer.

PUB 451 Cr.3
**Civic Engagement and the Wisconsin Idea**
The study of the Wisconsin Idea of Community Service and late twentieth century communitarian and service learning philosophies are examined. The course includes service learning work in non-profit and local governmental agencies as well as the study of the meaning of democracy, citizenship, personal political efficacy, leadership and political culture. Lect. 1, Lab 4. Prerequisite: junior standing. Offered Fall.

PUB 453 Cr.3
**Nonprofit Organizations**
The management of nonprofit organizations has become an increasingly important field of study given the importance and role of nonprofit organizations within our society. This course will provide students with a general overview of management practices that are specific to nonprofit organizations. Specifically, this course will examine the scope, dimensions, and roles of nonprofit organizations, particularly those designated by the IRS as 501(c)(3), in order to understand their distinctive characteristics and functions in society. Prerequisite: POL 102 or junior standing. Offered Alternate Years.

**Radiation Therapy (RT) - Courses**

HP/RT 310 Cr.3
**Pathophysiology**
This course focuses on the pathophysiologic disorders that affect healthy systems across the life span. Theories of disease causation are introduced. Areas of emphasis include cellular and systemic responses, clinical manifestations and the response of tissue to radiation damage. Acquired, immune, infectious, carcinogenic and genetic alterations in body systems are included. Prerequisite: BIO 312, BIO 313; admission to RT, NMT, or the UW School of Nursing. Health professions students’ admission to NMT or UW nursing program, overrides are understood. (Cross-listed with HP/RT may only earn credit from one department.) Offered Fall.

RT 325 Cr.3
**Radiation Therapy Readings, Writing and Research**
This course introduces radiation therapy students to the language of radiation therapy and professional issues in the field by the use of selected readings. The Radiation Therapy Writing in the Major program will be introduced along with the types of writing practiced in the field. Students will learn basic research techniques and begin to apply them to their professional education. This course is designed to be taken concurrently with RT 310. Prerequisite: ENG 110 or ENG 112; MTH 145; concurrent enrollment in RT 310; admission to Radiation Therapy Program. Offered Fall.

RT 330 Cr.2
**Professional Issues in Radiation Therapy**
This course will provide students with knowledge related to the professional issues pertinent to the field of radiation therapy. Course topics will include: professional development, career advancement/ options, radiation therapist scope of practice and practice standards, certification and licensure, radiation therapy professional organizations, legislative issues in radiation therapy, as well as ethics and introductory law in radiation therapy. Prerequisite: admission to Radiation Therapy Program. Offered Fall.

RT 350 Cr.3
**Patient Care Issues**
This course will prepare students to work directly with patients in a health care setting. It will cover such topics as: communication and patient education, assessment, examination and monitoring of patients, body mechanics and patient handling skills, infection control, management of medical emergencies and CPR, nutritional counseling. Prerequisite: admission to Radiation Therapy Program. Offered Spring.
RT 370 Cr.2
Health Care Systems and Human Resources in Radiation Therapy
This course will provide entry-level radiation therapists with the basic health system and human resource knowledge. Course topics will include characteristics of U.S. Health Care System, insurance, health care access, reimbursement in radiation therapy, and applicable human resource topics. Prerequisite: admission to Radiation Therapy Program. Offered Spring.

RT 390 Cr.2
Medical Imaging
This course will provide radiation therapy students with theory and information regarding medical imaging procedures. Radiation therapists play a crucial role in imaging for treatment planning and treatment field verification. The course will provide instruction on analog and digital imaging, as well as various imaging modalities. Prerequisite: PHY 386; concurrent enrollment in RT 391; admission to Radiation Therapy Program. Offered Spring.

RT 391 Cr.1
Applied Concepts in Medical Imaging
This course will serve as a lab for the Medical Imaging (RT 390) course. Students will focus on imaging aspects. Study of the equipment used to produce x-rays will lead to discussion of machine settings and technical factors involved in producing good quality radiographs. Students will learn about film types, characteristics and development as well as other related equipment. Lab time will be provided in which students will learn by discovery and develop competency through practice. Prerequisite: concurrent enrollment in RT 390; admission to Radiation Therapy Program. Offered Spring.

RT 400 Cr.1
Clinical Internship Seminar
This course will prepare students for the clinical internship portion of the program. Course topics will include: professional development, team building skills, radiation therapy terminology, basic clinical concepts, immobilization device construction, CPR, and radiation therapy equipment basics. Prerequisite: admission to Radiation Therapy Program. Offered Spring.

RT 401 Cr.3
Introduction to Radiation Therapy
This course, the first in the clinical internship, will provide the student with an overview of the profession of radiation therapy and its role in health care delivery and cancer management. Students will be oriented to the academic and administrative format of the internship site as well as safety practices of the hospital and radiation therapy department. The radiation therapy process will be identified and discussed along with critical steps in treatment procedures. Students will be prepared for working with patients by learning about charting and documentation as well as appropriate patient/therapist interactions. Prerequisite: RT 310, RT 350; admission to Radiation Therapy Program; assignment to a clinical internship site. Offered Summer.

RT 411 Cr.4
Principles and Practice of Radiation Therapy I
This course, taught during the clinical internship year, addresses the concepts of cancer treatment, focusing primarily on radiation therapy. Methods of improving therapeutic advantage are investigated. Students learn safe and effective use of equipment and accessories along with the rationale for their clinical application. Technical aspects of treatment simulation and delivery are developed. Treatment related side effects and their management and special patient situations are addressed. Prerequisite: RT 310, RT 350, RT 401, RT 471; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Fall.

RT 412 Cr.4
Principles and Practice of Radiation Therapy II
This course, taught during the clinical internship, advances the student’s knowledge of neoplastic disease management. Cancers and some benign conditions of various body sites are discussed in relation to natural history, treatment and prognosis. Technical aspects related to radiation planning and delivery are closely investigated as well as pertinent anatomical considerations, combination therapy, treatment results and the therapist’s role in disease management. Lect. 3, Lab. 2. Prerequisite: RT 411, RT 421, RT 472; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Spring.

RT 421 Cr.3
Cross Sectional, Topographic & Radiographic Anatomy
This course, taught during the clinical internship, revisits anatomy specifically from an imaging perspective. Students will learn to identify structures and pathology on x-rays, CT and MRI scans and locate topographic landmarks on diagnostic and simulation films. Prerequisite: BIO 313, RT 390, RT 401; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Fall.

RT 431 Cr.3
Radiation Therapy Physics
This course, taught during the clinical internship, expands the student’s understanding of physics related to radiation therapy. Topics include the components and operation of linear accelerators and other treatment machines, brachytherapy, specification and modification of beam quality and characteristics, measurement of absorbed dose, treatment machine calibration, beam geometry and treatment with particles. Prerequisite: PHY 386, RT 401; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Fall.

RT 435 Cr.3
Dosimetry and Treatment Planning
This course, taught during the clinical internship, focuses on the characteristics, measurement and manipulation of radiation dose delivery in treatment. This involves advanced concepts of methods of altering dose to optimize the effectiveness of the radiation treatment. Treatment planning for a variety of tumor sites and situations is discussed. Prerequisite: RT 411, RT 421, RT 431; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Spring.

RT 437 Cr.2
Quality Management in Radiation Therapy
This course, taught during the clinical internship, focuses on the purpose and techniques of quality management in a radiation oncology program. The importance of documentation, consistent application of specified protocols and assessment of outcomes are addressed. The responsibilities of the radiation therapist within the radiation oncology team for quality functions are highlighted. Prerequisite: RT 411, RT 431; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Spring.

RT 471 Cr.3
Clinical Practicum I
This course, offered the first summer session of the clinical internship, will orient students to the clinical operation of the internship site. Students will observe staff operations in the radiation therapy clinic, simulation, treatment planning, and treatment delivery areas. Prerequisite: RT 310, RT 350, RT 390; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Summer.
RT 472 Cr.6
Clinical Practicum II
This course, offered fall semester of the clinical internship, will progress students' clinical skills from observation in simulation, treatment planning and treatment delivery to the point of participation and development of basic competencies. Prerequisite: RT 401, RT 471; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Fall.

RT 473 Cr.6
Clinical Practicum III
This course, offered spring semester of the clinical internship, will offer students the opportunity to continue the process of developing competence and confidence in the areas of simulation, treatment planning and treatment delivery. They will demonstrate competence in intermediate and some advanced procedures. Students will also be given opportunity to work in dosimetry, Prerequisite: RT 411, RT 421, RT 431, RT 472; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Spring.

RT 474 Cr.4
Clinical Practicum IV
This course, offered during the final summer session of the clinical internship, will complete the students' clinical education experience. By the end of this course, students will have developed proficiency and confidence in areas of simulation, treatment planning and treatment delivery. They will complete all required competencies. Opportunities to broaden the experience and work with different equipment, techniques and advanced procedures will be offered. Prerequisite: RT 412, RT 435, RT 437, RT 473; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Summer.

RT 481 Cr.3
Seminar in Radiation Therapy
The course, offered during the clinical internship, is a capstone course in which students present patient case information, discuss application of radiation science theory, review and critique journal articles and prepare for the national certification exam. Prerequisite: RT 412, RT 435, RT 437; admission to Radiation Therapy Program; assignment to clinical internship site. Offered Summer.

RT 499 Cr.1-3
Independent Study in Radiation Therapy
Independent study in radiation therapy may include individual readings and writing, projects, or research under the direction of a radiation therapy instructor. Repeatable for credit - maximum six. Prerequisite: admission by consent of the instructor and the radiation therapy program director. Consent of department. Offered Occasionally.

Reading (RDG) - Courses

Courses
RDG 105 Cr.2
Developmental Reading
A course designed to increase reading efficiency by emphasizing improvement in reading comprehension, rate, and vocabulary. Attention is also given to selected study skills including note taking, test taking, and listening. Enjoyment of reading is stressed. Textbook purchase required. Offered Fall, Spring.

RDG 328 Cr.3
Reading in the Content Areas
This course is designed to help prospective and practicing secondary-level teachers guide students to more effectively comprehend assigned reading, use writing as a tool for learning, develop better study habits, and expand their reading interests. Prerequisite: admission to teacher education; junior standing. Offered Fall, Spring.

RDG 475 Cr.1-3
Special Topics Seminar in Reading Education
Special topics in reading not covered by current reading courses. The particular topic selected to be determined by current need and interest. Repeatable for credit - maximum six. Prerequisite: RDG 328; junior standing. Offered Occasionally.

Recreation Management (REC) - Courses

Courses
REC 150 Cr.3
Foundations of Recreation
Review of the sociological, philosophical, economic, and historical aspects of recreation and leisure. An introduction to recreation as a profession and investigation of contemporary issues in recreation and leisure. Offered Fall, Spring.

REC 151 Cr.1
Introduction to Recreation Management
This course serves as an introduction to the field of recreation management focusing on the exploration of career areas in the profession and the service delivery systems which define recreation management. Offered Fall, Spring.

REC 200 Cr.3
Program Leadership of Recreation Activities
An introduction to leadership techniques and theory as it relates to direct leadership of recreation activities. Development of skills for organizing and leading specific recreation activities, including cooperative games and group initiatives. Prerequisite: REC 150 or concurrent enrollment; REC, RTH major/minor. Offered Fall, Spring.

REC 202 Cr.2
Leisure, Nature, and Contemplative Experiences
This course utilizes natural environments as a venue for experientially teaching Recreation Management students the role of leisure in a complete and balanced lifestyle. Weekend field trips will be required. Prerequisite: REC 150; REC or RTH major/minor. Offered Fall, Spring.

REC 300 Cr.3
Program Planning in Recreation
This course provides practical knowledge and experiences on the essential elements and design concepts of program planning. Emphasis is placed on student involvement in planning and directing programs for diverse populations in a variety of physical settings. Prerequisite: REC 150; REC 200 or concurrent enrollment; REC or RTH major/minor. Offered Fall, Spring.
REC 302 Cr.3
Recreation Supervision and Human Resource Management
Study of theories and techniques in leadership, group dynamics, and personnel management as they relate to programming and staff supervision in recreation agencies. Emphasis on personnel management techniques, including job analysis, recruitment, selection training, motivation, career development, and evaluation of paid staff and volunteers. Course includes issues common to full-time entry-level professional positions in recreation. Prerequisite: REC 150; REC or RTH major/minor. Offered Fall, Spring.

REC 304 Cr.3
Maintenance of Recreation Facilities
An introduction to maintenance of recreation facilities, parks and outdoor recreation areas and the efficient operation and management of aquatic facilities. Prerequisite: junior standing; REC or RTH major/minor. Offered Fall, Spring.

REC 305 Cr.2
Operation and Management of Swimming Pools and Spas
The efficient operation and management of swimming pools, spas, and other aquatic facilities. The promotion of attractive aquatic programs. Prerequisite: junior standing; REC, RTH, and/or ESS sport management major/minor. Offered Occasionally.

REC 306 Cr.3
Environmental Ethics, Outdoor Recreation and Natural Resources
This course provides an overview of the natural resources used for outdoor recreational pursuits, an analysis of leisure activities dependent upon natural resources, a presentation of the problems of recreational land use and an introduction to environmental awareness and outdoor safety. Recreation and natural resources at the national, state, local and private levels will be addressed with emphasis on the understanding of how outdoor recreation affects and is affected by natural resources. Offered Fall, Spring.

REC 320 Cr.3
Principles and Practices of Tourism
An introduction to the nature and scope of tourism that is intimately related to recreation. This course provides a basic understanding of tourism from the tourism system perspective. The topics include tourist behavior, special-interest tourism, destination marketing, economic, social-cultural, and environmental impacts of tourism on a destination, and sustainable tourism development. In addition to the business and economic benefits of tourism, it also examines the social aspects of tourism. Prerequisite: REC or RTH major/minor. Open to non-majors with instructor permission. Offered Fall, Spring.

REC 340 Cr.3
Evaluation Methods and Practices
This course is designed to familiarize the student with basic measurement and evaluation methods used in recreation and leisure service field. In addition, the course shows students how to interpret current and future research findings in leisure and recreation journals, use basic quantitative and qualitative survey methods, interpret findings from commonly used research and statistical methods, and form conclusions and recommendations from survey findings. Prerequisite: MTH 145; REC or RTH major/minor. Offered Fall, Winter, Spring, Summer.

REC 351 Cr.3
Civic Engagement in the Recreation Profession
Recreation professionals need to be leaders in their communities and advocates for quality recreation and leisure. This course 1.) explores the recreation profession's role in civic engagement and 2.) identifies ways that the general citizenry can be brought into public discussion on issues about recreation programs and facilities. Prerequisite: junior standing; REC major. Offered Fall, Spring.

REC 375 Cr.1-3
Workshop in Recreation Management
This is a group study of various recreation, leisure, or tourism topics. University professors and/or visiting lecturers will conduct the workshops. Repeatable for credit under different subtitles. Repeatable for credit - maximum 6. May require field trip. Prerequisite: REC or RTH major/minor. No student may earn more than six credits in REC 375, RTH 490, REC 491, and RTH 491. Offered Occasionally.

REC 400/500 Cr.3
Planning for Park and Recreation Facilities
Designed to equip the student with the basic knowledge necessary to understand and implement the planning process in the development of park and recreation facilities. This course is also designed to familiarize the student with federal, state and local statutes, and other related documents (U.S. Census, Wisconsin Administrative Codes, county and municipal ordinances). Prerequisite: REC 300; REC or RTH major/minor. Offered Fall, Spring.

REC 401 Cr.3
Management in Park and Recreation Resources
Designed to equip the student with the basic knowledge and abilities necessary to administer a public, not-for-profit, or a commercial leisure service organization or a division of a leisure service organization. Emphasis will be placed on management functions as they relate to the leisure service organization. Prerequisite: REC 302 or RTH 319; REC or RTH major/minor. Offered Fall, Spring.

REC 402/502 Cr.3
Risk Management in Leisure Service Organizations
This course will identify the primary components of risk management and deals with the legal aspects of tort liability and contracts in leisure service organizations. It is designed to equip students with the basic knowledge necessary to understand and manage legal risks associated with leisure service organizations. Prerequisite: REC 401 or concurrent enrollment; junior standing; REC or RTH major/minor. Offered Fall, Spring.

REC 404/504 Cr.3
Budgeting in the Recreation Enterprise
Emphasis is placed on budget development, implementation and management decision-making within the recreation and park enterprise. This course introduces students to various contextual operational budgets within governmental and non-profit enterprises. Prerequisite: REC 401 or concurrent enrollment; ECO 110; junior standing; REC or RTH major. Offered Fall, Spring.

REC 420/520 Cr.3
Revenue Management in Recreation Enterprises
This course covers prices and pricing from both managerial and behavioral perspectives in recreation, parks, and tourism settings. While the managerial aspects of pricing include pricing policy/strategy and revenue management (defined as selling perishable service products to the right customer at the right time for the right price), the behavioral aspects include psychology of pricing, price fairness, price perceptions, and willingness-to-pay for non-market goods. Prerequisite: REC 320; ACC 221 or ACC 235; junior standing; REC or RTH major. Offered Fall, Spring.

REC 449 Cr.1
Internship/Professional Preparation
In-depth coverage of the requirements for REC 450 internship and preparation of students for a smooth transition to the recreation management profession. Prerequisite: REC major; senior standing; completion of at least two 50 hr experiences in rec or parks; a minimum cumulative GPA of 2.50; and completion or concurrent enrollment in all required recreation management courses except REC 450, therapeutic recreation courses, and interdisciplinary courses (POL 102, ACC 221 or ACC 235, ENG 307, ECO 110, MTH 145). Offered Fall, Spring.
Courses

RUS 101 Cr.4
Elementary Russian I
The first of two introductory courses in Russian. The five language skills: listening, speaking, writing, reading and culture are introduced. Offered Fall - Even Numbered Years.

+RUS 102 Cr.4
Elementary Russian II
The second introductory course in Russian comprehension, speaking, writing, reading and culture. Prerequisite: RUS 101 or placement. Offered Spring.

+RUS 201 Cr.4
Intermediate Russian I
The first of two intermediate-level Russian courses. Students continue to develop all language skills with special emphasis placed on refining speaking and listening comprehension. Prerequisite: RUS 102 or placement. Offered Fall - Even Numbered Years.

+RUS 202 Cr.4
Intermediate Russian II
The second of two intermediate-level Russian courses. Students continue to develop all language skills with special emphasis placed on refining reading and writing in Russian. Prerequisite: RUS 201 or placement. Offered Spring.

+RUS 305 Cr.3
Golden Age Russian Literature and Culture
A course designed to introduce students to the great Russian writers of the 19th century, a period referred to as the Golden Age of Russian literature. Literary works will be discussed in their social, cultural, and historical context. The course will center on works by such writers as Pushkin, Lermontov, Gogol, Turgenev, Dostoevsky, Tolstoy, and Chekhov. Taught in English. Offered Spring - Even Numbered Years.

RUS 398 Cr.1-3
Directed Studies
Individual reading and investigations in advanced Russian study. Course materials will vary according to the needs and interests of students. Repeatable for credit - maximum six. Prerequisite: RUS 202 or equivalent. Offered Occasionally.

School Health Education (SHE) - Courses

Courses

SHE 210 Cr.4
Introduction to Coordinated School Health Programs
This course gives an introduction to coordinated school health programs and the roles teachers play in encouraging healthy practices in the school age population. Skills in identifying health problems, developing an environment conducive to learning and developing health curriculum and instruction to encourage healthy lifestyles are developed. Students will be introduced to National and State Health Standards and national and state models of comprehensive/coordinated school programs. Also included in the course will be the Level I clinical experience in schools. This introductory field experience is designed to help the student identify the role of the school and its staff through observation and participation. It also allows school health education majors to consider the appropriateness of their chosen major in the education framework. Offered Occasionally.

Russian (RUS) - Courses

+ next to a course number indicates a general education course
SHE 252 Cr.2
Introductory Content in Health Education
Disease and intentional and unintentional injury prevention content essential for inclusion in a comprehensive school health curriculum is the course focus. Pre-service teachers will consider effective teaching strategies, resources that support the development and delivery of objectives in these areas, and determine the match to the Wisconsin Academic Standards for Health Education. Prerequisite: HPR 105. Offered Occasionally.

SHE 310 Cr.4
Introduction to Curricular Processes & Instructional Techniques
Beginning concepts in comprehensive school health education curriculum development and instructional techniques are the core of this course. Skills for delivery of effective health instruction are practiced including assessment, planning, implementation, and reflection. This course also includes an introductory field experience that is designed to help the teacher candidates identify the site of the school and its staff through observation and participation. Lect 3, Lab 1. Prerequisite: HED 205; admission to teacher education. Offered Fall, Spring.

SHE 312 Cr.1
Level II Clinical in School Health Education
This clinical experience provides health education majors/minors an increased understanding of how two components, pupil services and healthy school environment, function within the Wisconsin Framework for Comprehensive School Health Programs. Specific attention is given to children and youth who are vulnerable to social, emotional and physical challenges and/or who have an impairment that requires special education. Prerequisite: HED 205; SHE 210. Pass/Fail grading. Offered Fall, Spring.

SHE 402 Cr.1
Level III Clinical in School Health Education
Designed to focus upon the development of the technical elements of curriculum, instructional systems, interaction-motivation, and management styles. Course activities include development of a philosophical base for teaching elements, observation, participation and performance of a variety of teaching behaviors within the teaching elements. Students will analyze their own teaching performance through simulation, guided practice and other teacher-directed evaluation. Prerequisite: admission to teacher education. Pass/Fail grading. Offered Fall, Spring.

SHE 407/507 Cr.3
Health Education in the Elementary School
Introduction of the school health program for the elementary education major and physical education major. Consideration is given to school health services and healthy school living, with a further emphasis on health instruction and health content for the elementary school. Prerequisite: admission to teacher education; junior standing. Offered Occasionally.

SHE 410/510 Cr.6
Application of Curriculum Processes & Instructional Techniques
This senior level experience provides an opportunity to apply the knowledge, skills, and dispositions of the Interstate Teacher Assessment and Support Consortium Standards (InTASC). The primary focus is on a teacher candidate’s growth and development in the InTASC standards. The traditional field experience or participation in a Professional Development School experience will address how the InTASC standards impact teaching and learning. Further analysis of method selection and instructional strategy development is included from a practical as well as philosophical point of view. Lect 4, Lab 2. Prerequisite: SHE 310 or admitted to Elementary-Middle Level Education Program; must be taken last semester prior to student teaching and concurrently with SHE 415; admission to teacher education; junior standing. Offered Fall, Spring.

SHE 415/515 Cr.3
School Leadership for Health Educators
This course will develop teacher candidates’ leadership skills in school health programming. An overview will be included on the following topics: group dynamics, leadership theories and styles, resources and grants, curriculum assessment and analysis, administration and coordination of health curriculum, and professional skills. Prerequisite: SHE 310; must be taken concurrently with SHE 410; admission to teacher education; junior standing. Offered Fall, Spring.

SHE 416/516 Cr.1
Developing Comprehensive School Health Programs
Procedures for comprehensive health education curriculum development - from philosophy through identifying sources, to developing objectives - will be considered in discussion and group interaction. Final projects will include the writing of a partial curriculum. Not applicable for credit in school health education major or minor. Prerequisite: junior standing. Offered Occasionally.

SHE 458/558 Cr.1-2
Imagery Techniques for Health Promotional Skill Development
This course examines the concepts and theories of autogenic training and mental imagery as applied to maximizing inner potentials for performance excellence. The first credit focuses on the learning and experiencing of the developmental phases of relaxation training, mental practice, concentration, confidence building through positive affirmation, and maintaining personal rhythm. The second credit focuses on developing the competencies necessary to develop and implement a mental practice program for those in pursuit of excellence. Prerequisite: junior standing. Offered Occasionally.

SHE 460/560 Cr.1-2
Health Promotion and Preference
This course is designed to enable participants to understand and apply Jungian concepts as one approach to health promotion. The Myers-Briggs Type Indicator (MBTI) is used as a springboard for creating awareness and understanding for the application of typology to health promotion. The focus of the course is experiential in nature and the goal is to gain a better understanding of self and others in relation to health promotion issues (i.e., stress management, heart disease, relationships, and team building). Prerequisite: junior standing. Offered Occasionally.

CHE/SHE 475/575 Cr.1-3
Workshop in Health Education
Group study of varying health education topics, community agencies, and educational institutions. Repeatable for credit under different topics - maximum six credits combined CHE/SHE. (Cross-listed with CHE/SHE.) Departmental option for pass/fail or letter grade. Prerequisite: junior standing. Consent of instructor. Offered Occasionally.

SHE 492 Cr.1
Student Teaching/Intern Seminar
Through this course for student teachers/interns, university coursework is correlated with successful teaching practices in the schools. Students build on their knowledge base, reflect on their teaching, and analyze school culture with their peers. Each seminar aligns with the InTASC Model Core Teaching Standards based on the needs of the student teachers/interns. Prerequisite: to be taken concurrently with SHE 494 or SHE 495. Pass/Fail grading. Offered Fall, Spring.
SHE 494 Cr.3-15
Student Teaching: Early Childhood-Adolescence
Student teaching is a full day, full school semester, professional experience in selected elementary and secondary schools with qualified, approved cooperating teachers. Orientation, seminars and classroom projects required. May be repeated for credit in a subsequent semester for each additional licensure. Prerequisite: completion of all requirements in education, including special methods courses; recommendation by the appropriate education program faculty; 2.75 cumulative GPA and a 2.75 GPA in the major, minor, concentration. Consent of department. Satisfactory/Unsatisfactory grading. Offered Fall, Spring.

SHE 495 Cr.3-15
Teaching Internship
Teaching internship is a full day, full school semester, professional experience in selected elementary and secondary schools with qualified, approved cooperating teachers. Orientation, seminars and classroom projects required. Requires selection for Wisconsin Internship Program placement and a state intern license. Prerequisite: completion of requirements in education, including special methods courses; recommendation by the appropriate education program faculty; 3.00 cumulative GPA and a 3.00 GPA in the major, minor, concentration and professional course work; Praxis II. Consent of department. Satisfactory/Unsatisfactory grading. Offered Fall, Spring.

Science and Health (SAH) - Courses
+ next to a course number indicates a general education course

Courses

SAH 160 Cr.1
Keys to Success for the Science Major
Students in this course will explore the role of science in society as well as in their personal lives. The course will provide an orientation to the study of science, math, and computer science including academic, internship, and research opportunities that are available at UW-L. Students will also learn about careers in these areas and how to become viable candidates for employment, graduate school, or professional school. Eleven-week course. Prerequisite: one semester of college course work, and freshman or sophomore standing. Offered Spring.
+SAH 307 Cr.3
Changing the Culture, Women in Science
This course will focus on the relationship between science and culture, specifically with regard to women. A comprehensive approach will be taken to explore both women’s roles in science and women as objects of scientific investigation. Issues that will be addressed include cultural and historical attitudes toward women in science, cultural and historical barriers fought against and overcome by women, and contributions of women to multiple scientific disciplines. Women as objects of psychological and physiological investigation will be explored, and knowledge will be applied to an assessment of how cultural and gender biases have impacted women’s health and lives. Prerequisite: junior standing. Offered Spring.

Sociology (SOC) - Courses
+ next to a course number indicates a general education course

Courses

SOC/WGS 105 Cr.3
Introduction to LGBT Studies
This course will examine the cultural, legal, and political dimensions of LGBT life in the U.S. It will begin by exploring the social invention of heterosexuality and how personal and institutional interpretations of sexuality have historically informed the lives of LGBT people. The course also addresses class, racial and gender biases that especially confront queer communities of color in the U.S. Finally, the course looks at continued instances of hate crimes and homophobia against the backdrop of rights-based activism and the role that art and politics play in this interplay. (Cross-listed with SOC/WGS; may only earn credit in one department.) Offered Alternate Years.
+SOC 110 Cr.3
Introduction to Sociology
An analysis of the complex relationship between society, the individual and the physical environment. It examines such questions as: how social patterns develop and persist over time; how the individual is shaped by social, cultural and environmental factors; why societies are constantly changing; and how individuals, through social interaction, shape their social world. Cross-cultural comparisons will be emphasized, showing how society and the physical environment affect the life choices of individuals. Offered Annually.
+SOC 120 Cr.3
Social Problems
Social analysis, critical thinking, and problem solving are introduced as basic social science skills. These skills are applied to major contemporary social problems related to deviant behavior, social inequality, social change, and problems associated with major societal institutions. A variety of individual and collective responses and social policy strategies at local, national, and international levels are examined. Offered Fall.
SOC 200 Cr.3
Foundations of Sociological Analysis
Designed for sociology majors, this course focuses on: (1) learning to think sociologically, including deeper comprehension of core sociological perspectives and concepts; (2) understanding the scientific methods in sociology; (3) the formulation of sociological research questions; (4) the resources and skills needed to effectively write a critical literature review; and (5) professionalization including how to build a curriculum vitae/resume, careers in sociology, presenting at professional conferences, and applying to graduate school. Sociology majors should take this course as soon as possible after completing SOC 110, as the skills taught in this course will benefit students in their upper division sociology courses. Prerequisite: SOC 110; sociology major. Offered Annually.
+ANT/SOC 202 Cr.3
Contemporary Global Issues
This course will offer a contemporary multi-disciplinary perspective regarding the major issues and trends confronting the Global Society as it enters the 21st century. Emphasis will be given to a critical review and assessment of the origin and present condition of the plethora of situations and problems affecting modern Global Society. The student will also learn to critically evaluate current and future events. The course will incorporate the views and approaches of the following disciplines: sociology/anthropology, economics, geography, political science and history. Cross-listed with ANT/ECO/GEO/HIS/POL/SOC 202; may only earn credit in one department. Offered Annually.
SOC 212 Cr.3
Marriage and Family
The major focus of this course is on understanding the contemporary institutions of marriage and family, and the changes that these institutions have experienced. The influences that gender, race/ethnicity, sexuality, socioeconomic class and age have on marriage and family experiences will be included in the investigation. Offered Spring.

SOC 216 Cr.3
Society and Schools
A social analysis and review of research on the school as a learning environment, a social organization and a societal institution. Specific topics include classroom interaction, school social climate, social inequalities in the schools, and selected educational controversies. Offered Occasionally.

+SOC 225 Cr.3
Racial and Ethnic Minorities
This course offers a critical examination of the social dynamics shaping race and ethnicity in the United States. Students will examine both historic and contemporary issues related to race and ethnicity including the social construction of race, sources of prejudice, institutional and individual-level discrimination, power relations and stratification, and strategies for addressing racial and ethnic inequality. Emphasis is placed on the use of empirical evidence to evaluate popular beliefs about race and ethnicity in the United States. Offered Annually.

SOC 240 Cr.3
The Sociology of Sport and Leisure
An investigation of the interrelationship between sports/leisure time activities and society’s social structure; its institutions and culture. Special emphasis is on the role social structure plays in the formation of values and attitudes related to sports and leisure time activities. Offered Occasionally.

SOC 250 Cr.3
Methods of Social Research I
This course introduces students to principles and procedures for the quantitative measurement of social phenomena. It emphasizes interpretation and uses of quantitative techniques in sociological data analysis. The primary goal is to provide students with skills and practical application of techniques used to understand how sociologists measure, evaluate and use individual and social indicators such as socioeconomic status, residential segregation, and crime statistics. The department strongly encourages students to take SOC 200 and SOC 250 concurrently. Prerequisite: SOC 110; sociology major. Offered Annually.

+SOC 261 Cr.3
Technology in Society
This course critically examines the relationship between technology and society. The course explores the social, cultural, and historical forces that shape the development of technology and its applications over time as well as the recursive effects of technology on society and culture. The course will cover how technology interacts with globalization, the environment, population health, social interaction, and warfare. Offered Fall.

ANT/SOC 307 Cr.3
International Development and Culture Change
This course provides students with an overview of socio-cultural theories of international development and culture change. The course examines the cultural construction of “development” as a product of the colonial era, the Cold War, and what has been called the neo-liberal global economy. The goal of the course is to provide students with a comprehensive study of the strengths and limitations of contemporary development theory and method in anthropology and sociology, including such topics as conservation and the environment, indigenous peoples, gender and development, and the role of social movements and non-governmental organizations in the developmental process. Prerequisite: ANT 101 or ANT/SOC 202 or SOC 110 or SOC 120. (Cross-listed with ANT/SOC; may only earn credit in one department.) Offered Occasionally.

SOC 310 Cr.3
Social Stratification
The nature, study, theories and types of social stratification systems are examined along with the forces contributing to their maintenance and disruption. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. Offered Alternate Years.

SOC 311 Cr.3
Rural and Urban Communities
Basic sociological concepts and principles are applied to understand social life within rural and urban communities. Focus will be on the political economy, the culture, and social problems of people as they live in different types of communities. Prerequisite: SOC 110 or SOC 120. Offered Every Third Semester.

SOC 313 Cr.3
Law and Society
Analysis of the origins and functions of law in society. The focus of the course will be upon modern American society and the relationship of law to social change and its impact upon such concerns as civil rights, environmental protection, sex-role differentiation, treatment of handicapped and the mentally ill. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. Offered Annually.

SOC 315 Cr.3
Religion and Society
Explores the social and cultural context in which religion functions; the effects of religion upon behavior and attitudes; the social organization of denominations, sects, cults and movements; the relationships between religion and other social institutions; religion and social inequality; social change and the future of religion. Special attention is given to world religions and ethical and public policy issues concerning religion, society, and the individual. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. Offered Alternate Years.

SOC/WGS 316 Cr.3
Gender, Sexuality, and Social Change in Religion
This course examines the various gender roles, norms, mobility, restrictions and empowerment that people experience within religious traditions, for example: Christianity, Judaism, Islam, Hinduism and Buddhism. Global case studies and engaging narratives focused on the intersections of gender, sexuality, race, and religion will be considered. Special attention will be paid to feminist laypersons and religious leaders who are reformulating traditional understandings and practices, and in turn, negotiating their agency within secular and spiritual spaces. Prerequisite: WGS 100 or WGS 230 or SOC 110 or SOC 120. (Cross-listed with SOC/WGS; may only earn credit in one department.) Offered Occasionally.
SOC 317 Cr.3
Sociology of Media
This course will critically examine the relationship between media, culture, and society. In this course, we examine the impact of media in society across multiple areas including the history and structure of media organizations, media economics, methods used in media research, the relationship between political power and the media, and the distinction between news and entertainment. We will give special attention to theoretical approaches used to examine media in each of these substantive areas. Multiple forms of media will be examined including printed presses, radio, television, electronic news, virtual and online communities, film and social networking platforms. Prerequisite: SOC 110 or SOC 120 or ANT 101. Offered Occasionally.

SOC 318 Cr.3
Surveillance and Society
Surveillance is now a prominent feature in the contemporary, post-9/11 world. In this class we will explore the concept of surveillance, its development, and the various ways that surveillance exists within the social world. This will include an examination of how surveillance intersects with, and is used by, the government and law enforcement, corporations, institutions such as the economy and schools, and you. A major organizing question of the course is this: How is the practice of surveillance changing our social life and our notions of public and private spheres? Prerequisite: SOC 110 or SOC 120. Offered Spring - Odd Numbered Years.

SOC 319 Cr.3
Sociology of City Life
This course explores the political, social, cultural, economic, and religious aspects of city life. The metropolis offers unique insight into highly fascinating and unusual social worlds where urban inhabitants explore their identities and push the boundaries of self exploration, transcendence, and identity formation. The city is the site of human creativity and struggle, lust and love, risk and adventure, fear and uncertainty, resistance and subversion, joy and triumph, and the endless possibility of self realization. Yet, the city has changed in crucial ways with an accelerated gentrification process, sharp increases in poverty and inequality, shocking violence, increased hyper segregation, rapid immigration, growing unemployment and heightened distrust in public officials. This class goes deep into the depths of city life to explore its many wonders. Prerequisite: SOC 110 or SOC 120. Offered Every Third Semester.

SOC 320 Cr.3
Demography
This course is designed as a basic survey of the field of demography. Sources of population data will be explored along with causes and consequences of population growth, composition and distribution. This course will focus on the concepts, measurements, trends and theories of the major demographic processes of fertility, mortality and migration. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. Offered Alternate Years.

SOC 321 Cr.3
Delinquency
This course is an overview of the sociological study of delinquency, with special emphasis on competing theoretical perspectives. In the process of learning about theoretical perspectives aimed at explaining delinquency, this course will pay special attention to gender delinquency, gangs, current events regarding delinquency and the U.S. juvenile justice system. Prerequisite: SOC 110 or SOC 120 or ANT 101. Offered Spring.

SOC 322 Cr.3
Criminology
This course provides an overview of the sociological study of crime in the United States, with a special emphasis on patterns of criminality, competing theoretical explanations of crime, and societal responses to crime. As part of the examination of crime in the U.S., the course explores the definitions, measurement, and patterns of various types of criminal behavior; theory and research on crime; the roles of the victim and offender and the implications of public policy. Specific crimes covered include homicide, hate/bias crime, assault, and white-collar crime. Prerequisite: SOC 110 or SOC 120 or ANT 101. Offered Fall.

SOC 323 Cr.3
Corrections and Penology
This course provides an interdisciplinary review of criminal punishment and correctional systems in the U.S. This course examines dominant punishment philosophies such as deterrence, incapacitation, retribution and rehabilitation. Both institutional and community-based approaches to corrections are covered and particular attention is devoted to understanding the social context of current practices, the nature of correctional populations, and the management of correctional systems. Prerequisite: SOC 110 or SOC 120 or ANT 101. Offered Alternate Years.

SOC 324 Cr.3
Criminal Justice
This course provides an overview of the United States criminal justice system. Issues relating to various segments of the criminal justice system, such as the administration of justice, the police, courts, and correctional systems are explored. Prerequisite: SOC 110 or SOC 120 or ANT 101. Offered Fall.

SOC 325 Cr.3
Sociology of Mental Illness
An examination of mental health and illness, and mental health care systems in the U.S. and other industrialized and non-industrialized societies, including: the processes involved in identifying and recruiting patients into the mental health care system; a social analysis of psychotherapy, including talk therapies, medications, electro-convulsive treatment and psychosurgery; and social organization of mental hospitals and of community mental health centers; socio-legal issues related to mental illness; and a review and synthesis of social psychological and sociological theories relevant to understanding mental health and illness. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101 or PSY 100. Offered Fall - Every Third Year.

SOC 326 Cr.3
Sociopharmacology
The study of the social structural factors related to drug use with emphasis on change at the societal level in dealing with the drug problem. This course examines the current and historical patterns of drug use in society. The emphasis will be on understanding the sequence of initiation, use, and misuse of psychoactive drugs. This course will focus on the social problems and social policy aspects of drugs. Question addressed include: How does society choose which drugs to treat as social problems? What are the potential versus real life effects of current laws and policies intended to curb drug use? What are the treatment and prevention strategies used today? What kinds of programs are successful and why? Prerequisite: SOC 110 or SOC 120 or ANT 101. Offered Every Third Semester.
SOC 328 Cr.3
Environmental Sociology
This course provides a framework for understanding the relationship between human societies and their physical environment. This course will focus on how environmental sociologists explain the social origins of environmental degradation, how environmental harms are unequally distributed among different communities and nations, and the role of environmental movements in protecting the physical environment. Prerequisite: SOC 110 or SOC 120 or SOC 202 or ENV 201. Offered Spring.

SOC 330 Cr.3
Social Psychology
Social psychology from a sociological perspective. Primary attention is given to social behavior and communication patterns in terms of their genesis and change in the context of social groups and social relationships. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101 or PSY 100. Students may only earn credit in SOC 330 or PSY 241. Offered Alternate Years.

SOC 334 Cr.3
Sociology of Small Groups
An introduction to the understanding and interpreting of human behavior in small groups. The focus of the course will be to provide students with some analytical tools to understand the social dynamics of small groups as well as the techniques for improving the interpersonal effectiveness of the student in small group situations. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. May only earn credit in SOC 334 or CST 365 or PSY 343. Offered Alternate Years.

SOC 335 Cr.3
Collective Behavior
A systematic study of social processes which emerge in unstructured social situations; principles of behavior as expressed in crowds, mobs, panics, fads, fashions, social movements, personal organization and behavior in unstructured social situations. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. Offered Alternate Years.

SOC/WGS 337 Cr.3
Globalization, Women, and Work
This course examines the global and often exploitative experiences of women, migrating from one part of the world to another for work. As women leave their countries of origin, many find themselves working as nannies, sex workers, house cleaners and modern-day slaves in sweatshops. These work environments often create vulnerability, discrimination, and abuse of women within the private and public institutions of their host countries. The course will also use in-depth personal narratives and a focus on grassroots social movements to witness how women resist workplace policies and domestic laws to campaign for their rights, despite cultural and political constraints. Prerequisite: WGS 100 or WGS 230 or WGS 230 or ERS 205 or ERS 253 or HIS 310, or SOC 225, or WGS 230. Cross-listed with ERS/WGS; may only earn credit in one department. Offered Alternate Years.

SOC/WGS 338 Cr.3
Sociological Aspects of Work and Life
This course will explore the sociological impact of work and life demands in contemporary American society. Special emphasis will be given to how gender, sexual orientation, social class, race and ethnicity, and family structure affect individuals’ ability to balance the demands of work and life. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. Cross-listed with SOC/WGS; may only earn credit in one department. Offered Occasionally.

SOC 340 Cr.3
Bioethics and Society
A sociological examination of medical/ethical decision-making that includes an analysis of psychosocial aspects of patient care and public policy in medical ethics. Approaches to medical ethics are reviewed in terms of a case-based ethical problem-solving model that includes sociological and demographic factors. The course may be team-taught with colleagues in medical bioethics and will include the social sources of bioethics, social organization of bioethics in health care, and bioethical case studies. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101 or PHL 100. May only earn credit in SOC 340 or PHL 339. Offered Occasionally.

ERS/SOC 343 Cr.3
American Indian Contemporary Issues
This course is an interdisciplinary examination of American Indian contemporary experience in the United States. It will introduce students to some of the critical issues in American Indian studies by examining the place of American Indians within the American imagination, politics and society. The course concentrates on issues of tribal sovereignty, economics, social class and structure, and the difficulties of maintaining a tribal identity in the 21st century. Prerequisite: one of the following: EFN 205, ERS 100, ERS 253, HIS 310, SOC 225, or WGS 230. Cross-listed with ERS/SOC; may only earn credit in one department. Offered Fall.

SOC 350 Cr.3
Methods of Social Research II
An overview of the issues and methods involved in the process of scientific investigation of social phenomena. The limitations of, and ethical issues involved in, social research are examined. Data collection methods, both quantitative and qualitative, including surveys, observation, and secondary data analysis are investigated. Students propose and complete a research project, applying material learned in Sociological Research Methods I, including student application of various research techniques and computer-assisted data analysis. Prerequisite: SOC 200, SOC 250. Offered Fall, Spring.

ANT/SOC 354 Cr.3
Peoples and Cultures of Latin America
This course is designed to give students an anthropological perspective on contemporary peoples living in Central and South America, the Spanish-speaking Caribbean, and Mexico. The course provides an overview of Latin American pre-histories, analyzing how the past influences present-day societies. The course then examines particular cultural aspects of the region, such as religion and ideologies, race, ethnicity, and gender, popular culture and the media, culture change, and social movements. Discussions throughout the course will also focus on the Latin American diaspora and how Latin American cultures are shaping, and shaped by, other cultures around the globe. Prerequisite: ANT 101 or ANT/SOC 202 or SOC 110 or SOC 120. Cross-listed with ANT/SOC, may only earn credit in one department. Offered Occasionally.

ANT/ERS/SOC 362 Cr.3
Hmong Americans
This is an introductory course to Hmong American history, culture, and contemporary life. The course reviews Hmong history within the context of U.S. foreign policy in Southeast Asia from 1945 to 1975 and examines the sociocultural transformations that have been taking place in Hmong American communities across the U.S. since 1976. Prerequisite: ANT 101 or ANT 195 or ANT/SOC 202 or ARC 100 or SOC 110 or SOC 120. Cross-listed with ANT/ERS/SOC; may only earn credit in one department. Offered Occasionally.
ERS/SOC 363 Cr.3

American Indians and the Environment
This course introduces students to American Indian environmental issues. Topics include treaty-based hunting, fishing and gathering rights, air and water quality regulatory authority, environmental racism, toxic and nuclear waste disposal on Indian lands, mining and hydroelectric dams, sacred sites, and Indian vs. Western perceptions of the environment. Special attention will be given to current environmental controversies in Wisconsin Indian country. Prerequisite: one of the following: EFN 205; ERS 100, ERS 253; ERS/SOC 343; SOC 225, SOC 328. (Cross-listed with ERS/SOC; may only earn credit in one department.) Offered Occasionally.

SOC 370 Cr.3

Sociology of Gender
Explores the social construction, variation and consequences of gender categories across time and space. Examines how gender identities are developed and how gender structures our experiences in education, work, families, the media and other institutions. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. Offered Alternate Years.

SOC/WGS 375 Cr.3

Lesbian Studies
Examines the social construction of sexual orientation and its meaning for women and women’s equality. The course draws on a range of sources, including scientific research, history, literature, psychological theory, and popular culture. Prerequisite: WGS 100 or WGS 210 or WGS 230 or EFN 205. (Cross-listed with SOC/WGS; may only earn credit in one department.) Offered Occasionally.

SOC 390 Cr.3

Early Sociological Theory
Critical survey of scholars who contributed to the rise of scientific sociology, focusing on the historical circumstances, the personalities and the ideas of the prominent early sociologists prior to the mid-twentieth century. Particular attention is given to August Comte, Herbert Spencer, Karl Marx, Emile Durkheim, Max Weber, George Herbert Mead, and C. Wright Mills. Prerequisite: SOC 200. Offered Annually.

SOC 395 Cr.3

Contemporary Sociological Theory
Modern sociological theories at the macro- and micro-levels are summarized, compared and applied. Macro-level theories include social evolution, general systems, functionalist, and social conflict theories. Micro-level theories include interaction, self, role, phenomenological, exchange, rational choice, and interaction ritual theories. The linkage of micro- and macro-level theory in sociology is addressed in network and organizational theories. Selected concepts and perspectives are applied to sociological practice projects. Prerequisite: SOC 200. Offered Spring.

ANT/ARC/SOC 399 Cr.3

SOC/ARC/ANT Forum
Investigation of areas and topics of current sociological/archaeological/anthropological interest not covered in the regular curriculum ranging from local to transnational issues. Repeatable for credit - maximum 12. (Cross-listed with ANT/ARC/SOC, may only earn 12 credits total in ANT, ARC, and SOC.) Offered Occasionally.

SOC 401 Cr.3

Sociology of Violence
This course provides an interdisciplinary overview of the patterns and correlates of interpersonal and collective violence with an emphasis on social structural/sociological explanations of violent behavior. We will explore the characteristics, causes, and consequences of violence focusing primarily on the United States. In addition, the course will examine social policies and programs related to violence intervention and prevention. Examples of the types of violence examined are physical assault, intimate partner violence, homicide, sexual assault, terrorism, and genocide. Prerequisite: SOC 110 or SOC 120 or SOC 202; junior standing. Offered Alternate Years.

SOC 404 Cr.3

Global Inequality
This course explores explanations for inequality between countries. Macro-sociological theories and comparative methods are used to analyze cross-cultural and cross-national differences and similarities in basic institutions, including family, education, and political economy. The main course objective is that students develop an understanding of the consequences of living in a world of global inequality. Prerequisite: SOC 110 or SOC 120 or SOC 202 or ANT 101 or ANT 202. Offered Every Third Semester.

SOC 405 Cr.3

Quantitative Social Research Seminar
This course guides students through the completion of an independent quantitative sociological research project. Students conduct research on a topic related to their own interest within the field of sociology using standard quantitative methods such as survey research, evaluation research, or secondary data analysis. Each student formulates a sociologically relevant research hypothesis, designs the appropriate research methodology, reviews relevant theoretical and empirical literature, and gathers and analyzes data in a step-by-step process. The results of the research process are presented in a formal research paper. Prerequisite: SOC 350; SOC 390 or SOC 395. Offered Annually.

ECO/GEO/HIS/POL/PSY/SOC 408 Cr.4

Teaching and Learning History & Social Studies in the Secondary School
This course will be integrated with a field experience. In the context of a real classroom, teacher candidates will learn how to plan for and assess student learning in history and social sciences. With a focus on content knowledge, teacher candidates will plan a variety of meaningful learning experiences, assess student learning, and monitor and modify instruction to best support the individual learners in the classroom. The teacher candidate will design, enact, and assess activities that advance student understanding to more complex levels. Teacher candidates will gain experience in monitoring the obstacles and barriers that some students or groups of students face in school and learn how to design learning experiences to support all learners. Prerequisite: EDS 351. (Cross-listed with ECO/GEO/HIS/POL/PSY/SOC; may only earn credit in one department.) Offered Fall, Spring.

SOC 409 Cr.1-3

Readings and Research in Sociology
Directed readings or research under the supervision of an instructor. Repeatable for credit - maximum six. Prerequisite: junior standing. Consent of instructor. Offered Fall, Spring.

SOC 410 Cr.3

Sociology Honors Project
The development and completion of an honors research project under the supervision of a faculty member. Prerequisite: acceptance into the Sociology Honors Program. Consent of instructor. Offered Annually.
SOC 414 Cr.3
Policy and Society
This course offers a critical analysis of social policy development and impacts in the United States today. Students will apply sociological theories to explain how demographic changes, collective behavior and other social changes converged to allow specific social policies to be designed, proposed and implemented. Students will also examine the impacts of such policies on the various social groups directly and indirectly affected and compare policies in the U.S. to similar policies in other countries. Social policies such as welfare reform, Social Security and federal agricultural policies are among the topics prospectively covered in this course. Prerequisite: SOC 110 or SOC 120 or ANT 101 or ANT/SOC 202; junior standing recommended. Offered Every Third Semester.

SOC 416 Cr.3
Qualitative Explorations
This course is designed to familiarize students with the major techniques of qualitative data collection and analysis used by sociologists and other social scientists. These include feminist methods, participant observation, in-depth interviewing, biographical methods, content analysis, archival research, and a variety of nonreactive techniques. This course will also address the links among theory, data, and methods and provide an appreciation for the qualitative tradition in social sciences. Students will learn how to conduct field research. The course will follow a seminar format emphasizing reading, group discussion, in- and out-of class exercises, oral presentations, original research and writing. Prerequisite: SOC 350; SOC 390 or SOC 395. Offered Annually.

SOC 420 Cr.3
Health Care and Illness
A survey of the social organization of medical professions, socialization of personnel, sick role dynamics, social construction of illness, lay referral networks, political factors in health care delivery, and problems of various age groups and families in coping with illness in several societies. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. Offered Fall - Even Numbered Years.

PSY/SOC 422 Cr.3
Death, Grief, and Bereavement
A study of the interaction of individuals and families coping with dying and death in various social settings including hospitals, care facilities, and hospices. Topics include psychosocial aspects of grief and mourning, sociological dimensions of bereavement, and various rituals of funeralization in the U.S. and other societies. Special attention is given to case studies and medical/ethical decision-making at the end of life, as well as other aspects of the social organization of death, dying, and bereavement. Prerequisite: PSY 100 or SOC 110 or SOC 120 or ANT 101; junior standing. (Cross-listed with PSY/SOC; may only earn credit in one department.) Offered Annually.

SOC 429 Cr.3
Sociology of Deviance
This course provides an overview of the sociological study of deviance. Various definitions of deviance are examined within the context of individuals, behaviors, and groups who are considered deviants as well as those who apply the deviant labels. The course explores a variety of theoretical perspectives of deviance and social construction of deviance, the enforcement of social norms, and the social control systems that are established to respond to deviance. A variety of forms of deviance are covered, including: mental illness, drug and alcohol use, sexual deviance, and suicide. Prerequisite: SOC 110 or SOC 120 or ANT 101. Offered Spring.

SOC 450 Cr.3-15
Internship in Sociology
An academically relevant field experience for majors and minors in sociology/anthropology. The field experience will be supervised by the sociology/anthropology staff. No more than six credits may be applied to a major in sociology and no more than three credits toward sociology minor or anthropology minor. Repeatable for credit - maximum 15. Prerequisite: SOC 110; junior standing; cumulative GPA of at least 2.50. Pass/Fail grading. Offered Annually.

SOC 451 Cr.3
Internship in Criminal Justice
An academically relevant field experience for minors in criminal justice. Prerequisite: SOC 324; junior standing; criminal justice minor. Pass/Fail grading. Offered Annually.

SOC 485 Cr.1-2
Research Apprenticeship in Sociology
The student will assist a faculty member in any phase of the research process including literature searches, research design, data gathering and data analysis. Repeatable for credit - maximum four. Prerequisite: SOC 200, SOC 250. Consent of instructor. Pass/Fail grading. Offered Fall, Spring.

SOC 486 Cr.1-2
Teaching Apprenticeship in Sociology
This course provides preparation and experience in a variety of instructional practices, strategies, and techniques. Students study theory and research on teaching and practice teaching skills under the guidance of faculty members. Repeatable for credit - maximum four. Prerequisite: SOC 200, SOC 250; junior standing; minimum 3.25 GPA. Consent of instructor. Pass/Fail grading. Offered Fall, Spring.

SOC 499 Cr.3
Seminar in Sociology
Intensive study of some specific area or problem of sociology. Repeatable for credit - maximum six. Prerequisite: SOC 350 or SOC 390 or SOC 395. Offered Occasionally.

Spanish (SPA) - Courses
+ next to a course number indicates a general education course

Courses

SPA 101 Cr.4
Elementary Spanish I
The first of two introductory courses in Spanish. The five language skills are introduced: listening, speaking, writing, reading and culture. (Not open to students with more than two years of high school Spanish.) Offered Summer.
+SPA 102 Cr.4
Elementary Spanish II
The second introductory course in Spanish comprehension, speaking, writing, reading, and culture. Prerequisite: SPA 101 or placement based on UW System Spanish Placement Test score. Offered Fall, Spring.
+SPA 103 Cr.4
Elementary Spanish I and II
This is an introductory course that covers in one semester the essential content of first-year Spanish. It is designed for students with two or more years of high school Spanish or with previous experience learning a foreign language. Special emphasis is placed on facilitating the development of oral communication. Prerequisites: a minimum of two years of high school foreign language and departmental placement. Not open to students who have taken SPA 101 or SPA 102. Offered Fall, Spring.
Intermediate Spanish I
The first of two intermediate-level Spanish courses. Students continue to develop all language skills with special emphasis placed on refining speaking and listening comprehension. Prerequisite: SPA 102 or placement based on UW System Placement Test scores. Offered Fall, Spring.

Intermediate Spanish II
The second of two intermediate-level Spanish courses. Students continue to develop all language skills with special emphasis placed on refining reading and writing in Spanish. Prerequisite: SPA 201 or placement based on UW System Placement Test scores. Offered Fall, Spring.

Oral Proficiency Through Grammar Review
This is a Spanish language course for intermediate-level learners who have completed SPA 202 or equivalent. Its aim is to help students continue to develop communicative competence. Although students will practice reading and writing, emphasis will be placed on speaking and grammar review. The target level for student proficiency is Intermediate-High/Advanced Low on the ACTFL scale. Prerequisite: SPA 202 or equivalent, or appropriate departmental placement. Offered Fall, Spring.

Integrated Skills Development I
Development of Spanish proficiency in speaking, reading, writing and listening with emphasis on reading and writing. Students will advance their cultural knowledge by working with a variety of texts. Lect. 3, Lab. 2. Offered Fall, Spring.

Integrated Skills Development II
Development of Spanish proficiency in speaking, reading, writing and listening with emphasis on listening and speaking. Students will advance their cultural knowledge by working with a variety of texts. Lect. 3, Lab. 2. Prerequisite: SPA 202. Offered Fall, Spring.

Introduction to Hispanic Literature
An introductory literature course designed both for students desiring to develop an appreciation of Hispanic literature and those planning to pursue more advanced courses requiring a critical background. The course may include works from the following genres: narrative, poetry, drama and essay. Prerequisite: SPA 300 or (SPA 303 and SPA 304). Offered Fall, Spring.

Spanish for the Health Professions
A course designed to help students develop the skills necessary to work in the healthcare professions. Students will learn essential vocabulary; gain an understanding of cultural differences; engage in role plays and interviews that will help them develop communication skills; write reports and summaries centered around medical issues, and practice translating and interpreting. Prerequisite: SPA 300 or (SPA 303 and SPA 304). Offered Spring.

Cultures and Civilizations of the Spanish Speaking World
A study of Spanish-speaking cultures and civilizations using a topical, thematic-based curriculum and following a research- and standards-based approach to the pedagogy of culture. A main focus of the course is the development of intercultural competence with the goal of helping students achieve a greater level of critical awareness of their own culture and those of the Spanish-speaking world. Prerequisite: SPA 300 or (SPA 303 and SPA 304). Offered Annually.
SPA 351 Cr.4
**Films in Spanish**
The study of films of the Spanish-speaking world. Film viewing, discussion and writing assignments will all be in Spanish. Lect. 3, Lab. 2. Prerequisite: SPA 300 or (SPA 303 and SPA 304). Offered Spring.

SPA 390 Cr.3
**Topics in Hispanic Cultures**
A course designed to investigate areas of current social and cultural interest in Hispanic/Latin American culture. Topics will vary. Prerequisite: SPA 300 or (SPA 303 and SPA 304). Offered Spring - Odd Numbered Years.

SPA 402 Cr.3
**Spanish Literature II**
Principal authors from the generation of 1898 to the present. Prerequisite: SPA 300 or (SPA 303 and SPA 304); SPA 305. Offered Occasionally.

SPA 403 Cr.3
**Studies in Hispanic Literature**
A course designed to allow flexibility in the study of current topics of interest in Spanish or Latin American literature. Prerequisite: SPA 305 or equivalent. Offered Occasionally.

SPA 410 Cr.3
**Advanced Conversation**
Oral work based on Spanish life, culture, and literature. Prerequisite: SPA 300 or (SPA 303 and SPA 304). Offered Occasionally.

SPA 420 Cr.3
**Latin American Literature I**
A course designed to study the main literary works of Latin America from pre-Colombian times through the 19th century. Prerequisite: SPA 300 or (SPA 303 and SPA 304); SPA 305. Offered Occasionally.

SPA 421 Cr.3
**Latin American Literature II**
A course designed to explore new trends and themes in the writings of contemporary Spanish American authors. Prerequisite: SPA 300 or (SPA 303 and SPA 304); SPA 305. Offered Occasionally.

SPA 425 Cr.3
**Latino Literature of the United States**
Backgrounds, literary influence and major works of an emerging new literature of the United States, written by Hispanic minorities. Works are read in the original language or in translation. Prerequisite: SPA 300 or (SPA 303 and SPA 304); SPA 305. Offered Occasionally.

SPA 427/527 Cr.1
**Spanish Grammar for Teachers**
A review of selected essential concepts of Spanish grammar with a focus on developing effective strategies for teaching them to beginning Spanish students. Prerequisites: SPA 300 or (SPA 303 and SPA 304); one additional 300-level course in Spanish; junior standing. Offered Spring.

SPA 440 Cr.3
**The Spanish Novel**
A study of the Spanish novel. Masterpieces from the picaresque to the contemporary novel will be read. Prerequisite: SPA 300 or (SPA 303 and SPA 304); SPA 305. Offered Occasionally.

SPA 441 Cr.3
**The Spanish Theater**
A study of Spanish drama. Works to be read will be chosen from masterpieces from the Renaissance and Baroque periods to the modern theatre. Prerequisite: SPA 300 or (SPA 303 and SPA 304); SPA 305. Offered Occasionally.

SPA 450 Cr.1-4
**National/International Intern Program**
A course in Spanish individually tailored to fit career needs: cultural awareness, technical vocabulary in Spanish to prepare students who elect internship credits in other departments. Spanish majors or minors, or other students having the equivalency of SPA 202 may elect to take these credits off campus. Repeatable for credit - maximum four. Offered Occasionally.

SPA 460 Cr.3
**Introduction to Hispanic Linguistics**
This course is designed as an introduction to the field of Hispanic Linguistics. It surveys the different levels of language analysis. In other words, we survey the study of words and their meaning, the structure of sentence and their use in context for communication, the study of sounds and their place in proper communication, among other language-function-related topics. Prerequisite: SPA 305 or SPA 331. Offered Annually.

SPA 470 Cr.3
**Introduction to Spanish Translation**
An introduction to the theoretical and technical aspects of translation from English to Spanish and Spanish to English with special attention paid to methods, techniques, research, documentation, and problems involved in written translation. It is also designed as a course aimed at improving language skills for intermediate-high and advanced students of Spanish through the use of translation as research mechanism, a means for critical analysis, and as a skill-building tool. Emphasis is on written discourse culled from journals, newspapers, and commercial texts, with some consideration of specialized material from the fields of business, literature, technology, and the social sciences. Prerequisite: SPA 300 or (SPA 303 and SPA 304); SPA 330. Offered Fall - Odd Numbered Years.

SPA 471 Cr.3
**Introduction to Principles of Spanish Interpreting**
This course consists of an introduction to the theoretical and technical aspects of oral interpretation from English to Spanish and Spanish to English, with special attention paid to methods, cognitive models, theory, techniques, and problems associated with ethics and procedure. It is also designed as a course aimed at improving language skills for intermediate-high and advanced students of Spanish through the use of interpreting for critical discourse analysis. Emphasis is on the state of the profession in the community interpreting fields of medical and legal settings, with some consideration of specialized material from the fields of business and social services. Prerequisite: SPA 300 or (SPA 303 and SPA 304); SPA 330. Offered Fall - Even Numbered Years.

SPA 491 Cr.3
**Films and Literature**
Viewing and criticism of sub-titled films and reading their literary sources in translation. Prerequisite: one course in literature from either the Modern Language or English Departments. Offered Occasionally.

SPA 495 Cr.2
**Senior Seminar in Hispanic Studies**
A seminar for students who possess the background and ability to engage in individual research related to social, cultural or literary aspects of the Hispanic world. Readings, oral presentations of ongoing research and a seminar paper are required. Prerequisite: SPA 300 or (SPA 303 and SPA 304); SPA 305; plus one 400 level literature course or concurrent enrollment. Offered Occasionally.

SPA 498/598 Cr.1-3
**Independent Study**
Fieldwork, research and individual projects in a specific area of Spanish language, civilization or literature. Registration with the consent of instructor and the department chair. Repeatable for credit - maximum six. Prerequisite: two advanced courses and junior standing. Consent of instructor. Offered Occasionally.
SPA 499/599 Cr.1-3  
**Independent Study**  
Fieldwork, research, individual projects in a specific area of Spanish language, civilization or literature. Registration with the consent of instructor and the department chairperson. Repeatable for credit - maximum six. Prerequisite: two advanced courses and junior standing. Consent of instructor. Offered Occasionally.

### Special Education (SPE) - Courses

#### Courses

**SPE 207 Cr.3**  
**Teaching and Learning about Deafness and Communication I**  
Students will use American Sign Language to learn about instructing students with a hearing loss in the elementary school setting. The course focuses on providing service within special education parameters. Students will explore deaf culture, intricacies of instructing students who have a hearing loss, including appropriate instructional strategies, accommodations, modifications, and assistive technology. Prerequisite: sophomore standing. Offered Fall, Spring, Summer.

**SPE 214 Cr.3**  
**Teaching and Learning about Deafness and Communication II**  
Students will use American Sign Language to learn about instructing students with a hearing loss in the intermediate and middle school setting. The course focuses on providing service within special education parameters. Students will expand knowledge of deaf culture, intricacies of instructing intermediate and middle school level students who have a hearing loss, including appropriate instructional strategies, accommodations, modifications, and assistive technology. Prerequisite: SPE 207 or SPE 475 (Topic: Teaching and Learning American Sign Language). Offered Fall, Spring, Summer.

**SPE 401/501 Cr.3**  
**Introduction to Exceptional Individuals**  
This course is a general survey of exceptional individuals (disabled and gifted) from birth to 21 years of age. It provides an introduction to special education including history, law, definitions and classification systems, characteristics, etiology, provision of services and educational interventions and procedures related to the various disabilities covered under the law. Prerequisite: ECE 327 or EDS 351 or EDS 402 or SHE 310 or concurrent enrollment; admission to teacher education; junior standing. Offered Fall, Spring, Summer.

**SPE 424/524 Cr.3**  
**Classroom Management and Positive Behavior Practices**  
This course is designed to provide intervention methods and strategies for classroom management as well as positive behavior intervention. The course provides theoretical foundations and practical applications for preventing behavior problems, and for intervening when problems occur. Prerequisite: SPE 401 or ESS 231; admission to Special Education Program or Adapted Physical Education Program; junior standing. Offered Fall, Spring.

**SPE 430/530 Cr.1**  
**Seminar in Special Education**  
This course provides students, currently student teaching, to have directed discussions regarding issues that are occurring in the special education or inclusionary general classroom settings. Students will meet on-campus to analyze and discuss their experiences with their peers. This course is designed for persons seeking initial teaching licensure in general education and cross-categorical special education. Prerequisite: completion of all special education certification courses; completion of all general education licensure requirements for student teaching; to be taken concurrently with SPE 483 or SPE 484. Pass/Fail grading. Offered Fall, Spring.

**SPE 431/531 Cr.3**  
**Language Development and Communication Disorders**  
This course is an introductory course to the stages of normal language development from infancy through later adolescence including the language factors (phonology, morphology, syntax, semantics, pragmatics) in receptive and expressive language. The course also focuses on the specific language characteristics and problems of students with disabilities and the impact on language-based academics. Prerequisite: junior standing. Offered Fall.

**SPE 440/540 Cr.3**  
**Collaboration and Transition: From School to Community**  
This course is designed to prepare teachers to collaborate and problem-solve as members of educational teams composed of professionals, agency representatives, and parents. This course focuses on the development of transition plans for adolescents with specific learning disabilities, emotional/behavioral disabilities, and cognitive disabilities; and the plan’s impact on educational curriculum and instructional practices, career development and placement practices. Responsibilities of the teacher as a collaborative team member will be covered. Prerequisite: junior standing. Offered Spring.

**SPE 446/546 Cr.3**  
**Methods in Cross-Categorical Special Education-Middle Childhood/Early Adolescence**  
This course focuses on curriculum, methods and strategies used in educating students with disabilities (emotional/behavioral disabilities, specific learning disabilities, and cognitive disabilities) at the middle childhood/early adolescence age level in a variety of educational placements. Topics covered within this course include academic instruction appropriate for students at the middle childhood/early adolescence age level. Prerequisite: SPE 401; admission to SPE Program; junior standing. Offered Spring.

**SPE 447/547 Cr.3**  
**Methods in Cross-Categorical Special Education- Early Adolescence/Adolescence**  
This course focuses on curriculum, methods and strategies used in educating students with disabilities (Emotional/Behavioral Disabilities, Specific Learning Disabilities, and Cognitive Disabilities) at the early adolescence/adolescence age level in a variety of educational placements. Topics covered within this course include academic instruction appropriate for students at the early adolescence/adolescence age level. Prerequisite: SPE 401; admission to SPE Program; junior standing. Offered Spring.
SPE 452/552 Cr.3
Individual Educational Assessment
This course addresses educational assessment as it relates to the needs of students with specific learning disabilities, emotional/behavioral disabilities, and cognitive disabilities in the context of educational needs. Specific approaches for the evaluation of special education eligibility, teaching and instruction, and monitoring student progress are discussed, including norm-referenced tests, curriculum-based assessment, ecological assessment, and observational technique. Prerequisite: SPE 401; admission to SPE Program; junior standing. Offered Fall.

SPE 461/561 Cr.1
Clinical in Special Education
This course is a field experience for students seeking special education licensure. Students are placed in a public school special education or inclusionary general education classroom setting in which they will experience daily activities with children identified with disabilities including specific learning, emotional/behavior, and cognitive disabilities and become familiar with special education teacher responsibilities. This experience consists of a partial-day classroom experience in school setting under the direct supervision of a teacher certified to teach students with mild disabilities at the middle childhood/early adolescence or early adolescence/adolescence age level. This experience provides a setting in which students are to develop observation and small group teaching experiences. This course is designed for persons seeking initial teaching licensure in general classroom instruction and cross-categorical special education. Prerequisite: SPE 401; admission to SPE Program; junior standing. Pass/Fail grading. Offered Fall, Spring.

SPE 475/575 Cr.1-3
Special Topics Seminar in Special Education
This course is designed to allow students to explore current topics, trends, and issues in the field of special education. Topic(s) to be studied are selected by the instructor based on interest and need. Repeatable for credit - maximum six. (Maximum three credits applicable to master’s degree). Prerequisite: junior standing. Offered Occasionally.

SPE 483/583 Cr.11
Student Teaching Cross-Categorical Special Education: Middle Childhood-Early Adolescence
This student teaching experience is a full-day (18-week) experience in a public school special education or inclusionary general education classroom setting. Students are placed in a state approved special education program, serving students identified with disabilities (specific learning disabilities, emotional/behavioral disabilities, and/or cognitive disabilities) at middle childhood/early adolescence age level. This experience provides a setting in which students are to demonstrate teaching and assessment abilities related to students with special needs. Students work under the immediate supervision of a certified teacher and a university supervisor. This course is designed for persons seeking initial licensure in special education at the middle childhood/early adolescence level. Prerequisite: concurrent enrollment in SPE 430. Completion of special ed. courses and all education requirements, including special methods courses; appropriate education faculty recommendation; 2.75 cum GPA and 2.75 GPA in major, minor, concentrations & professional coursework; passing scores in Praxis II content areas; passing scores in WI Foundations of Reading Test. Consent of department. Satisfactory/Unsatisfactory grading. Offered Fall, Spring.

SPE 484/584 Cr.11
Student Teaching Cross-Categorical Special Education: Early Adolescence-Adolescence
This student teaching experience is a full-day (18-week) experience in a public school special education or inclusionary general education classroom setting. Students are placed in a state approved special education program serving students identified with disabilities (specific learning disabilities, emotional/behavioral disabilities, and/or cognitive disabilities) at the early adolescence/adolescence age level. This experience provides a setting in which students are to demonstrate teaching and assessment abilities related to students with special needs. Students work under the immediate supervision of a certified teacher and a university supervisor. This course is designed for persons seeking initial licensure in early adolescence/adolescence and cross-categorical special education at early adolescence/adolescence age level. Prerequisite: concurrent enrollment in SPE 430. Completion of special ed. courses and all education requirements, including special methods courses; appropriate education faculty recommendation; 2.75 cum GPA and 2.75 GPA in major, minor, concentrations & professional coursework; passing scores in Praxis II content areas; passing scores in WI Foundations of Reading Test. Consent of department. Satisfactory/Unsatisfactory grading. Offered Fall, Spring.

SPE 499 Cr.1-3
Individual Study
Reading and research in an area of student interest under the direction of an education instructor. Open to elementary and secondary education students with excellent records. Repeatable for credit - maximum three. Prerequisite: consent of advisor. Consent of instructor. Consent of department. Offered Occasionally.

Teaching English to Speakers of Other Languages (TSL) - Courses

Courses

TSL 350 Cr.1-6
ESL Program Development
This course is designed for teachers or prospective teachers working toward teacher certification or re-certification in ESL. Program topics, which focus on special needs of ESL learners and teachers, include methods, curriculum development, culture, language acquisition, applied linguistics, sociolinguistics, and sociopolitical concerns. Repeatable for credit - maximum 12. Offered Spring.

TSL 400/500 Cr.4
Teaching English to Speakers of Other Languages (TESOL) Policies and Program Models
An introduction to the teaching of English to speakers of other languages (ESOL) in the United States, topics include the history of bilingual and ESOL educational policies and practices in the U.S., historical and current program models for teaching English language learners (ELLs), and content-based instruction. Students learn how to plan for ELL instruction in general education and ESOL classes. In addition, students develop skills to advocate for ELLs in educational settings. Prerequisite: MLG 340 or admission to teacher education program. Offered Fall.
Theatre Arts (THA) - Courses

+ next to a course number indicates a general education course

Courses

+THA 110 Cr.2

Theatre Appreciation
A study of theatre as an art form. Emphasis on the role of the audience as collaborators in the performance and their understanding and appreciation of the elements of a theatrical production. Offered Fall, Spring, Summer.

+THA 120 Cr.3

Acting for Non-Majors
This course emphasizes the development of the actor’s instrument by introducing the student to the basic imaginative, physical, and vocal skills necessary for acting. It also enhances the student’s understanding of the cooperative nature of acting. It prepares them to create, discuss, rehearse, and perform. The student will apply these techniques in an interactive studio setting. Offered Spring.

+THA 130 Cr.3

Multicultural U.S. Plays: Acting the Text
In this performance-based course students will study and perform dramatic literature from multiple cultures within the U.S. society. Plays will be selected from African-American, Asian-American, Native American, Hispanic-American, Lesbian/Gay/Transgendered/Bisexual and other cultures for study. Students will research cultural context, analyze the plays, develop basic skills in performance, and prepare and perform scenes from the plays under study, in order to enhance student awareness and exchange ideas about the multicultural nature of the U.S. No acting experience required. Offered Spring.

+THA 201 Cr.3

Dramatic Literature and Theatre Arts
From text to theatre, how does dramatic literature translate into live performance? To read plays is but one aspect of the art of drama. To create a theatrical performance from a playscript is to appreciate the full artistic potential of dramatic literature. International and multicultural theatre ranging from the classical to the contemporary will be the basis for explorations into the significance and beauty of the dramatic arts. An interdisciplinary approach in both content and method will be used as the dramatic literature is considered in the context of history and culture, literature and art. Offered Fall.

THA 210 Cr.3

Foundations of Theatrical Production
This course introduces the student to the fundamentals of theatre by exploring the theories and practices of production elements, script analysis and the specific goals, procedures and policies of the theatre arts department. Offered Fall.

THA 220 Cr.3

Acting I: Fundamentals
Theory and practice of the fundamentals of stage acting, including improvisational techniques, audition techniques, acting terminology and development of dramatic action. Offered Spring.

THA 221 Cr.3

Movement for the Stage
Theory and practice in training the actor’s body to serve as a skillful and expressive means of communication. Emphasis on the student’s awareness of movement as a foundation for character development. Offered Fall - Even Numbered Years.

THA 222 Cr.3

Voice and Diction for the Stage
Theory and practice of the fundamentals of vocal production: breathing control, articulation, projection, quality, and expressiveness for the actor. Offered Fall - Odd Numbered Years.

THA 231 Cr.3

Stagecraft
Theory and practice of scenic construction. A study of the stage and its equipment; the planning, building and painting of scenery and the practical aspects of stage lighting. Prerequisite: THA 210. Offered Spring - Odd Numbered Years.

THA 232 Cr.3

Costume Crafts
Theory and practice of basic costume construction. Emphasis on the construction of stage costumes and accessories, including, but not limited to, basic pattern adaptation, millinery techniques, costume jewelry techniques and mask construction. Prerequisite: THA 210 for theatre majors and minors. Offered Spring - Even Numbered Years.
THA 240 Cr.3
Rendering for Theatre
This course will focus on the study of the elements and principles of rendering and their application to theatrical design. Students will focus on application of various rendering techniques used by scenic, costume, lighting and makeup designers in the creative process of interpreting a play script and translating it into visual form. Prerequisite: THA 210. Offered Fall - Odd Numbered Years.

THA 241 Cr.3
Stage Makeup
The theory and practice of the fundamentals of painted theatrical makeup, including various theatrical makeup materials and their applications. The course will rely heavily on the imagination and creative skills of the student and will include research in physical analysis, character analysis, and color theory. Each student will serve as the makeup designer for all projects in this course. Offered Fall - Even Numbered Years.

THA 250 Cr.3
Theatre Studies I: Origins to the Middle Ages
Survey of Western theatre history, dramatic literature and theory in cultural context from origins through the middle ages. Particular attention is paid to the relationship of theatre to religion and to ancient theatre as the foundation for later Western theatre. Recommended to be taken before THA 251, THA 350, and THA 351. Offered Fall - Odd Numbered Years.

THA 251 Cr.3
Theatre Studies II: Renaissance Thru Mid 19th Century
Survey of Western theatre history, dramatic literature and theory in cultural context from the Renaissance through late 19th century. Attention is focused on the relationship of theatre to the emergence of the early modern period, the rise of nationalism, the Enlightenment, and the growing middle class. Recommended to be taken after THA 250, and before THA 350 and THA 351. Offered Fall - Odd Numbered Years.

THA 260 Cr.1
Participation in Theatre Arts Activities
A course for any university student who wishes to gain academic credit for participation in theatre arts. Students receive individual counsel, criticism and evaluation. Repeatable for credit - no maximum. Consent of instructor. Offered Fall, Spring, Summer.

THA 270 Cr.1-2
Music Theatre Vocal Study
Intensive study of the artistry of singing solo vocal musical theatre repertoire. Study will promote growth in and understanding of: musical theatre vocal technique, breath, body alignment, healthful use of the speaking voice, projection, diction and elocution for the stage. Technical work will be applied through study and performance of musical theatre repertoire. Attendance at a weekly studio class and final performance required. This course is intended for theatre majors pursuing an emphasis in music theatre after completion of their applied voice requirement in their music minor. Repeatable for credit. Prerequisite: completion of applied voice requirement in music minor; theatre arts major-music theatre emphasis. Offered Fall, Spring.

THA 271 Cr.1-2
Singing for the Stage
Intensive study of the artistry of singing solo vocal musical theatre repertoire. Study will promote growth in and understanding of: musical theatre vocal technique, breath, body alignment, healthful use of the speaking voice, projection, diction and elocution for the stage. Technical work will be applied through study and performance of musical theatre repertoire. Attendance at a weekly studio class and final performance required. This course is available to theatre performance majors NOT pursuing an emphasis in music theatre. Repeatable for credit. Consent of instructor. Offered Fall, Spring.

THA 290 Cr.3
Stage Management for the Arts
This course will provide an introduction to Stage Management for the arts as well as a working understanding of the job of a stage manager. Emphasis on practical theory as well as the history of stage management will be combined with critical theories of running a production. The course will culminate in preparing students to stage-manage for a realized production. Offered Fall - Odd Numbered Years.

MUS/THA 304 Cr.3
History of Music Theatre
A survey of music theatre history and literature from origins to the present and its effect on popular culture, this course provides an understanding of the development of music theatre into the present day. Particular attention is given to the writers and composers who greatly influenced and/or continue to influence the development of this art form. Prerequisite: ENGL 110 or ENGL 112. (Cross-listed with MUS/THA; may only earn credit in one department.) Offered Spring - Odd Numbered Years.

MUS/THA 310 Cr.3
The Singer/Actor
This course examines the process of acting through song and verse. Its purpose is to explore a variety of theoretical and practical approaches integrating acting, vocal and stylistic techniques which support and strengthen each other. Prerequisite: THA 220 or THA 222; MUS 235, MUS 236, MUS 237, MUS 238. (Cross-listed with MUS/THA; may only earn credit in one department.) Offered Fall - Odd Numbered Years.

THA 320 Cr.3
Acting II: Characterization
Theory and practice of realistic acting techniques and textual analysis in the development of characterization. Monologues and scenes from realistic drama to be performed. Prerequisite: THA 220. Offered Fall.

THA 321 Cr.3
Acting III: Styles
Theory and practice of advanced techniques of acting with emphasis on styles of acting from Greek to the present. Monologues and scenes from various theatrical periods to be performed. Prerequisite: THA 220, THA 320. Offered Spring.

MUS/THA 324 Cr.3
Cabaret Performance Workshop
Students work together in a workshop format to rehearse and eventually perform a cabaret set consisting of ensemble numbers, duets and solos on a common theme. Each number will be carefully rehearsed and staged. This is a studio course requiring active and regular participation. Repeatable for credit - maximum six. Prerequisite: admission to the music theatre emphasis. (Cross-listed with MUS/THA; may only earn credit in one department.) Offered Fall - Even Numbered Years.
THA 330 Cr.3  
**Scene Painting**  
Theory and practice of scene painting techniques for the theatre. By studying theories utilized by professional scenic artists, students will learn to interpret a designer's rendering or scaled elevation. Practical exercises will introduce students to the techniques necessary to reproduce the aesthetics of designer's renderings or scaled elevations as actual scenic pieces. Offered Fall - Even Numbered Years.

THA 331 Cr.3  
**Theatre Technology**  
The research and application of current technology in the theatre, including the exploration of new materials and construction techniques. The course will include an introduction to computer-Assisted drafting and design, the operation and maintenance of new technologies in the theatre facility, and the examination of health, safety, and liability issues. Prerequisite: THA 210, THA 231. Offered Fall - Even Numbered Years.

THA 340 Cr.3  
**Scenery Design**  
A course in the principles and practices of designing stage scenery. Emphasis is on developing the creative abilities of the designer. Prerequisite: THA 210, THA 231, THA 240. Offered Spring - Even Numbered Years.

THA 341 Cr.3  
**Lighting Design**  
An introductory course in the principles and practices of designing and executing stage lighting. Emphasis is on developing the creative abilities of the designer. Prerequisite: THA 210, THA 231, THA 240. Offered Spring - Odd Numbered Years.

THA 342 Cr.3  
**Sound Design and Engineering**  
The course provides the student with a working knowledge of sound design and engineering. It emphasizes the creation of sound for theatre, the theory and technique of sound design and the set up and maintenance of sound reinforcement and sound reproduction equipment. Prerequisite: THA 210. Offered Fall - Even Numbered Years.

THA 350 Cr.3  
**Theatre Studies III: Realism to the Present**  
Survey of Western theatre history, dramatic literature and theory in cultural context from the rise of realism in the late 19th century to the present day. Particular attention is paid to realism and the explosion of styles in reaction to it, along with the study of political, environmental, feminist, multicultural, and postmodern theatre and performance art. Recommended to be taken after THA 250, THA 251, and before THA 351. Offered Fall - Even Numbered Years.

THA 351 Cr.3  
**World Theatre**  
Survey of historical and contemporary theatre in cultural context from various cultures/geographic regions around the world. These areas include India and the near east, China, Japan, and the far east, Africa, Latin America, and the middle east. Particular attention is paid to local custom, religious practice and theatrical practice. Prerequisite: THA 110. Offered Spring - Odd Numbered Years.

THA 360 Cr.1-3  
**Theatre Arts Practicum**  
Specialized, intensive study and participation in theatre. Projects are designed in consultation with a faculty adviser in the department. Repeatable for credit - no maximum. Consent of instructor. Offered Fall, Spring, Summer.

THA 390 Cr.2  
**Advanced Stage Management**  
This course will provide advanced study of the specific skills required of a stage manager on a theatrical production through discussion and hands-on projects designed to improve the student's understanding and execution of leadership, organizational and creative components of stage management. Repeatable for credit - maximum four. Prerequisite: THA 290. Offered Fall.

THA 420 Cr.1-3  
**Directing**  
Theory and practice of directing for the stage. Emphasis on analysis, preparation and presentation of dramatic scenes. Prerequisite: THA 210, THA 220; six credits from THA 250, THA 251, THA 350, THA 351. Offered Fall - Even Numbered Years.

THA 421 Cr.3  
**Performance Studio**  
This is an advanced performance studio that provides an opportunity for students to research, explore, and create performance within a specific style or genre. The course will provide directing and/or acting students with both theoretical and practical experiences in the art of theatre performance and will occasionally feature a guest artist. Examples of offerings include: improvisation, traditional (comedy of manners, commedia dell'arte) and non-traditional styles (absurdism, post-modernism, expressionism), auditioning and others. Repeatable for credit - no maximum. Prerequisite: THA 321 and/or THA 420. Offered Occasionally.

THA 422 Cr.3  
**Acting IV: Audition Techniques**  
This upper level acting course works specifically on the art and technique of auditioning. It will further develop and expand the range and skills of the performance student by exploring the audition process. Students will learn basic stage and camera audition techniques, develop an extensive repertoire of audition monologues and research career opportunities. It prepares the students for a variety of audition styles and situations. Prerequisite: THA 220, THA 320, THA 321. Offered Fall - Odd Numbered Years.

THA 440 Cr.3  
**Costume Design/History**  
A course in the principles and practices of designing stage costumes. Emphasis on the creative capabilities of the designer with a working knowledge of historical periods used in stage costuming. Prerequisite: THA 210. Offered Spring - Odd Numbered Years.
THA 450 Cr.3-15
Internship in Theatre Arts
An academically relevant work experience focusing on career development through professional contexts. Students pursue practical applications of course work in community or professional theatre or related areas. A written project relating the internship experience to the academic preparation will be required. Credit depends on the demands and complexity and the duration of the work the student performs. Evaluation is a joint effort of the cooperating firm or group, the department supervisor, and the Cooperative Education Internship liaison. Note: three to six credit hours may count toward a theatre arts major in the College of Liberal Studies. Prerequisite: 15 credits in THA; junior standing. Consent of department. Offered Fall, Spring, Summer.

THA 470 Cr.1-3
Symposium in Theatre Arts
Study in a selected area of theatre arts. Varying topics will be offered at intervals, with a specific title assigned to each. For current content and credit assignment, consult the instructor or department chair. Repeatable for credit - no maximum. Offered Occasionally.

THA 471 Cr.3
Playwriting
A study of the fundamentals of playwriting, with emphasis on creating stageworthy plots, characters, dialogue and spectacle, and finding venues for having plays produced. Course will culminate in the writing of a one-act or full-length play. Offered Occasionally.

THA 472/572 Cr.3
Theatre Management
The principles and methods involved in the operation of the non-commercial theatre: organization, play selection, building an audience, publicity, advertising, graphic reproduction, ticket sales, box office routines, house management, touring, and business records. Prerequisite: THA 110, with the exception of theatre arts majors and minors; junior standing. Offered Spring - Even Numbered Years.

THA 474 Cr.3
Advanced Studies in Arts Administration
This course will provide advanced study in specific competencies required of an arts administrator including legal issues, arts policy, and audience development through discussion and hands-on projects. Prerequisite: THA 376 or THA 472. Offered Spring - Odd Numbered Years.

THA 481 Cr.1-3
Independent Study
Directed individual study under an assigned faculty member. Student is responsible for submitting study proposal for approval before registration. Repeatable for credit - no maximum. Prerequisite: junior standing. Consent of instructor. Offered Fall, Spring, Summer.

THA 482 Cr.1-3
Special Topics Theatre Arts
Workshops, directed individual readings, or projects involving significant content and/or activities not available through regular offerings within the Department of Theatre Arts. Repeatable for credit - no maximum. Consent of instructor. Offered Occasionally.

THA 490 Cr.3
Capstone Project in Theatre Arts
The Capstone project is an independent project that reflects the student’s knowledge and abilities in theatre arts. It should integrate knowledge from coursework with practical experience in theatre production, and may focus on research, design, technical theatre, performance, directing, management or other area within theatre arts. The project should involve significant research, preparation, and presentation. The project may involve work in production, or in more traditional research. The student is responsible for developing and submitting a proposal for approval one semester in advance, under advisement of a faculty member in Theatre Arts. Prerequisite: senior standing. Consent of instructor. Offered Fall, Spring.

Therapeutic Recreation (RTH) - Courses

RTH 203 Cr.3
Outdoor Recreation Skills for Persons with Special Need
This course is an introduction to a variety of outdoor recreation skills. Personal proficiency development in outdoor recreation skills and activities are emphasized as they relate to persons with disabilities. Prerequisite: REC 150; not open to those with credit for REC 202. Offered Occasionally.

RTH 204 Cr.2
Multicultural Crafts and Folk Art
An exploration of the therapeutic dimensions of art making, through the traditional crafts and folk arts of many cultures. Students will learn to master several different folk art techniques and adapt them to personal use. Offered Occasionally.

RTH 215 Cr.1
Adapted Aquatic Activities
This course is designed to familiarize the student with training, teaching and assisting techniques when implementing, planning and conducting recreational aquatic activities for persons with disabilities. Water games and general activities which can be conducted in the aquatic environment will be included in this course. Offered Spring.

RTH 250 Cr.3
Introduction to Therapeutic Recreation
This course is designed as an introduction to the history and foundations of therapeutic recreation. Models of health care/human services and therapeutic recreation are presented. Students will gain knowledge of services and settings; professional, legal and community resources; professional and ethical behavior. Prerequisite: REC 150 (may be taken concurrently if student has earned 30 credits or more). Offered Fall, Spring.

RTH 252 Cr.3
Innovative Activities in Therapeutic Recreation
This course acquaints students who will work with persons with disabilities and special needs in therapeutic recreation settings with various recreation activities to enhance functional skills and foster meaningful recreation participation. Activity selection, analysis, planning, and modifications will be combined with various leadership styles. Prerequisite: RTH 250 or concurrent enrollment; RTH major or minor. Offered Fall, Spring.
RTH 260 Cr.1-2
Assistive Devices & Resources in Therapeutic Recreation
This course is designed to familiarize the student with the current new devices/equipment/supplies and resource centers available to clientele in need of special assistive devices/supplies. This course is also designed to familiarize the practitioner with devices which can be utilized in recreational program pursuits, as well as assisting the special populations in activities of daily living. Prerequisite: RTH major. Offered Occasionally.

RTH 314 Cr.2
Wheelchair Sports and Recreation
An introduction to wheelchair sports, recreation and leisure activities. Emphasis is given to the history of wheelchair sports and rules with special emphasis on participation in traditional and nontraditional wheelchair sport activities. Students will be introduced to a number of wheelchair sports including basketball, soccer, volleyball, football, rugby, tennis, bowling, softball, etc. Prerequisite: RTH 325 or RTH 326 or RTH 327. Offered Spring.

RTH 319 Cr.3
Leadership and Supervision in Therapeutic Recreation
This course is designed to study leadership and supervisory management as applied to the therapeutic recreation profession. The following topics are addressed: analysis of traditional leadership styles and theories; application of staffing, directing, and controlling functions of supervisory management; analysis of common issues related to full-time entry level managers in therapeutic recreation including diversity management and hiring people with disabilities. Prerequisite: junior standing; REC or RTH major/minor. Offered Fall, Spring.

RTH 325 Cr.2
Inclusive Recreation
This course is designed to provide the student with information regarding the general techniques and guidelines for planning and implementing recreational activities for persons with disabilities in non-institutional settings. The course will present general background, characteristics of disabling conditions, legislation, and program adaptations. Prerequisite: REC 200. Offered Fall, Spring.

RTH 326 Cr.3
Therapeutic Recreation Populations I
This course provides knowledge of illnesses and disabilities, including etiology, characteristics, abilities, potentials and limitations. Programming guidelines include adaptations and techniques for inclusion in therapeutic recreation services and the community. The following groups are included: persons with spinal cord injury, traumatic brain injury, aging, stroke, cancer, diabetes, visual impairment, hearing impairment, cardiac dysfunction, HIV/ AIDS, COPD, amputation, corrections, cultural competence, and others. RTH 326 may precede or follow RTH 327. Prerequisite: RTH 250 or concurrent enrollment. Offered Fall, Winter, Spring, Summer.

RTH 327 Cr.3
Therapeutic Recreation Populations II
This course provides knowledge of illness and disabilities, including etiology, characteristics, abilities, potentials and limitations. Programming guidelines include adaptations and techniques for inclusion in therapeutic recreation services and the community. The following groups are included: persons with intellectual disabilities, cerebral palsy, muscular dystrophy, pediatrics, autism, epilepsy, spina bifida, ADHD, depression, schizophrenia, multiple sclerosis, chemical dependency, and others. RTH 327 may precede or follow RTH 326. Prerequisite: RTH 250 or concurrent enrollment. Offered Fall, Winter, Spring, Summer.

RTH 330 Cr.3
Therapeutic Recreation and Mental Health
This course is designed to provide students with information regarding therapeutic recreation services to persons behavioral health issues and their families. Emphasis on characteristics of diagnostic groups, activities to facilitate change in different behavioral domains, therapeutic interventions for adults and children, treatment settings and services, and trends in program delivery. Prerequisite: RTH 250; RTH 326 or RTH 327; RTH or CYC major/minor. Offered Fall.

RTH 332 Cr.3
Therapeutic Recreation for Persons With Physical Disabilities
This course is designed to provide students with information relating to therapeutic recreation services for individuals with physical disabilities. Programming considerations will include treatment concerns, community inclusion, wheelchair sports and leisure activities. Prerequisite: RTH 250; RTH 326 or RTH 327; RTH major/minor. Offered Occasionally.

RTH 333 Cr.3
Therapeutic Recreation and Corrections
This course provides an overview of the use of leisure and recreation for individuals in correctional settings. The following topics are addressed: settings, psychiatric disorders, laws/ juvenile codes, intervention strategies, activity adaptations, current trends and the criminal justice system. Functional improvement, leisure education and recreation participation are the focus of therapeutic recreation services. Prerequisite: RTH 250 or RTH 326 or RTH 327; RTH or CYC major/minor. Offered Fall.

RTH 345 Cr.3
Recreational Therapy for Older Adults
This course teaches students to facilitate psychosocial intervention to address needs, strategies, techniques, and approaches for older adults with chronic health conditions through health promotion and leisure activities. Prerequisite: RTH 250. Offered Spring.

RTH 355 Cr.3
Medical Language
An introduction to medical terminology with emphasis on word roots, combining forms, prefixes and suffixes through the various systems. There is also a unit on basic pharmacology. Prerequisite: ESS 205; RTH 326 or RTH 327. Offered Fall, Summer.

RTH 400/500 Cr.3
Child Life Theory and Practice
This course introduces future certified child life specialists and others to theories and techniques of providing services to reduce anxiety of children and families in hospitals and alternative settings. This course develops understanding and affirmation of the values of supporting individual development, family-centered care, play, therapeutic relationships, developmentally appropriate communication, professional collaboration, defined clinical competencies, and research findings that examine the practice of child life. Prerequisite: PSY 210 or PSY 212 or CYC 301; junior standing. Offered Spring.

RTH 401/501 Cr.2
Child Life Facilitation of Psychosocial Support
This course introduces future certified child life specialists and others to providing psychosocial support and intervention techniques that help children and families cope with stress from hospitalization or life events that disrupt normal development. Techniques for using play, recreation, creative arts modalities, and supportive activities including volunteer provision are explored. Prerequisite: PSY 210 or PSY 212 or CYC 301; junior standing; REC or RTH major/minor. Offered Fall.
RTH 402/502 Cr.3
**Helping Children Cope with Grief and Loss**
This online course provides in-depth knowledge of pediatric practice in the area of grief and death to students majoring in Therapeutic Recreation. The course will examine personal responses to grief and death; multicultural responses to grief and death; ethical and moral issues related to death and dying; how children deal with death and dying of a sibling or parent; and how children deal with their own impending death. The course will provide the current thoughts and practices necessary for students to prepare for the job market. Prerequisite: PSY 210 or PSY 212 or CYC 301; junior standing. Offered Fall.

RTH 403/503 Cr.3
**Helping Children Cope with and Manage Pain**
The intent of this online course is to provide in-depth knowledge of pediatric practice in the area of coping and pain management for students majoring in Therapeutic Recreation. The course will examine: current thoughts and practices on the subject of pain and how it affects the body; tools that assess pain; ways to help children cope with their own pain; and techniques that supplement common pain medications. The course will provide the current thoughts and practices necessary for students to prepare for the job market. Prerequisite: PSY 210 or PSY 212 or CYC 301; junior standing. Offered Spring.

RTH 404/504 Cr.3
**Coping with Pediatric Disabling Conditions**
This online course provides in-depth knowledge of pediatric practice in the area of coping with disabling conditions for students majoring in Therapeutic Recreation. The course will examine: common disabling conditions and diseases that affect infants, children, and adolescents; how these conditions affect the child and the family; and how chronically ill children are impacted at each stage of their development. The course will provide the current thoughts and practices necessary for students to prepare for the job market. Prerequisite: PSY 210 or PSY 212 or CYC 301; junior standing. Offered Summer.

RTH 456/556 Cr.3
**Program Design and Administration of Therapeutic Recreation**
This course is designed to present a rationale and foundation for systematic program design, program implementation and program evaluation in various therapeutic recreation settings. Prerequisite: MTH 145; RTH 326 or RTH 327; junior standing; RTH major or inclusive recreation minor. Offered Fall, Spring.

RTH 462/562 Cr.3
**Inclusive Recreation Program Administration**
This course is designed to provide the student with information relating to recreation in inclusive settings. General Administration concepts, management concepts, advocacy, legislation, and therapeutic recreation as a related service in the schools will receive special emphasis in this course. Prerequisite: RTH 456; junior standing. Offered Fall, Spring.

RTH 470/570 Cr.3
**Facilitation Techniques in Therapeutic Recreation**
This course presents an overview of concepts and interaction techniques used in the provision of goal-oriented therapeutic recreation services. Included are counseling techniques, leadership and instructional techniques appropriate for use in treatment, leisure education and recreation participation. Prerequisite: MTH 145; RTH 326 or RTH 327; RTH 456 or concurrent enrollment; junior standing; RTH or CYC major/minor. Offered Fall, Spring.

RTH 474/574 Cr.3
**Experiential Education: Facilitation Techniques in Ropes Course**
This course is designed to present in-depth information, skills and knowledge of the concepts and facilitation techniques used in experiential education. This course is primarily designed using the ropes and challenge course on the UW-L campus. Students must provide a statement of health and complete an assumption of risk/waiver. Prerequisite: junior standing. Offered Occasionally.

RTH 476/576 Cr.3
**Assessment & Treatment Planning-Therapeutic Recreation**
Overview of individual client assessments used in therapeutic recreation practice; development of individualized treatment/program plans in a therapeutic recreation context; review resources, standards and issues related to client assessment and program planning in therapy, leisure education and recreation participation programs. Prerequisite: RTH 456, RTH 470; junior standing; RTH major. Offered Fall, Spring.

RTH 480/580 Cr.3
**Leisure Education**
This course is designed to provide a philosophical understanding and overview of leisure education as well as to emphasize the approaches and strategies that can be utilized in enabling people to enhance the quality of their own lives in leisure. The focus will be leisure education as a major component of therapeutic recreation services. Topics included are leisure theory, leisure education conceptual models, leisure education programming techniques, facilitation of leisure education groups for various ages. Gerontology students should have completed one core gerontology course and have permission from the director of therapeutic recreation. Prerequisite: RTH 456, RTH 470; junior standing; RTH or GTL major/minor. Offered Fall, Spring.

RTH 483/583 Cr.3
**Leisure Counseling in Therapeutic Recreation**
A course designed to demonstrate how leisure counseling has become an important phase of therapeutic recreation services. Students will practice intermediate level counseling skills. They will be able to conceptualize and implement leisure counseling services from assessment stage, implementation stages (both individual and group), to evaluation and referral stages. Students will learn strategies for dealing with different types of leisure-related problems. Prerequisite: RTH 470, RTH 480; junior standing; RTH or CYC major/minor. Offered Occasionally.

RTH 490 Cr.1-3
**Workshop in Therapeutic Recreation**
Group study of varying therapeutic recreation topics. University professors as well as visiting lecturers will be invited to address the students and conduct specialized phases of the workshops. Repeatable for credit under different subtitles. Prerequisite: RTH major plan. No student may earn more than six credits in REC 375, RTH 490, REC 491, and RTH 491. Offered Occasionally.

RTH 491/591 Cr.1-3
**Workshop in Therapeutic Recreation**
Group study of varying therapeutic recreation topics. University professors as well as visiting lecturers will be invited to address the students and conduct specialized phases of the workshops. Repeatable for credit under different subtitles. No student may earn more than six credits in REC 375, RTH 490, REC 491, and RTH 491. Offered Occasionally.
Courses

+WGS 100 Cr.3

Gender, Race and Class in American Institutions
This course provides an introduction to how gender, race and class have intertwined over time to produce women’s social roles and status in American culture. The course will examine the social invention of heterosexuality and how personal and institutional interpretations of sexuality have historically informed the lives of LGBT people. The course also addresses class, racial and gender biases that especially confront queer communities of color in the U.S. Finally, the course looks at continued instances of hate crimes and homophobia against the backdrop of rights-based activism and the role that art and politics play in this interplay. (Cross-listed with SOC/WGS; may only earn credit in one department.) Offered Alternate Years.

SOC/WGS 105 Cr.3

Introduction to LGBT Studies
This course will examine the cultural, legal, and political dimensions of LGBT life in the U.S. It will begin by exploring the social invention of heterosexuality and how personal and institutional interpretations of sexuality have historically informed the lives of LGBT people. The course also addresses class, racial and gender biases that especially confront queer communities of color in the U.S. Finally, the course looks at continued instances of hate crimes and homophobia against the backdrop of rights-based activism and the role that art and politics play in this interplay. (Cross-listed with SOC/WGS; may only earn credit in one department.) Offered Alternate Years.

HED/WGS 201 Cr.1

Social Justice and Peer Education
This course both educates students on social justice issues they face while in college and prepares them to be able to give presentations to peers in residence halls, classrooms, athletic teams, and student organizations with the goal of effecting social change. Subject matter will respond to campus needs. Repeatable for credit - maximum three. Prerequisite: WGS 100 or WGS 210 or WGS 230 or EFN 205 or ERS 100; CST 110 recommended. (Cross-listed with HED/WGS; may only earn a max of three credits.) Pass/Fail grading. Offered Fall, Spring.

+WGS 210 Cr.3

Women’s Voices / Women’s Culture
An examination of how women have expressed female experience in a variety of forms, including fiction, autobiography, oral traditions, and song. By analyzing women’s words and forms of self-expression, students will explore what is individual and what is common in women’s lives, and will learn tools for understanding female experience and culture. Offered Occasionally.

WGS 212 Cr.3

Search for Economic Justice
Using humanistic and social scientific approaches, students will explore movements for economic empowerment as a critical dimension of justice in the increasingly global world. Through a mixture of face-to-face, online, and experiential methods, students will examine connections between the individual and larger systems and between the local and the global. They will critically analyze economic and political structures and movements as they pertain to gender, race, ethnicity, and class. The course will be informed by the perspectives of English, economics, political science, anthropology, and women’s, gender, and sexuality studies. Students may only earn credit in one of the following: ANT 212, ECO 212, POL 212, WGS 212. Offered Annually.
WGS 225 Cr.3
Women and Leadership
This course investigates women's leadership and develops students' leadership skills. Students will examine women's under-representation in formal public positions of power while also evaluating the strengths women can and do bring to leadership, and the emerging possibilities for women's leadership capacity in a rapidly changing world. Special attention will be paid to women's changing roles in the workplace. Students will critically evaluate leadership models, especially as they pertain to gender, race, and class. Offered Alternate Years.

+WGS 230 Cr.3
Women's Diversity: Race, Class, and Culture
This course explores the diversity of women's experience in America as it has been affected by race, ethnicity, class, and other factors, and the effects of gender on women of different groups. Issues that have united and divided women in movements for social change are also addressed. Offered Fall, Spring.

WGS 240 Cr.3
Contemporary Women's Issues
Contemporary women's issues will provide the student with an overview of women's studies scholarship from the late 1960's to the present. Contemporary theory, social change movements, and women's lives will be integrated in order to examine the relationship between theory and practice in women's studies. Offered Occasionally.

WGS 250 Cr.1-3
Topics in Women's Studies
Intermediate and interdisciplinary analysis of a social issue, idea or institution from the perspective of women and Women's Studies. Repeatable for credit. Department approval is necessary to apply more than three credits toward the WGS minor. Offered Occasionally.

WGS 255 Cr.1
Women in the Military
This course will provide students with an understanding of the struggles and successes of women's lives in the U.S. Military. Beginning with an historic overview of women's changing roles in the military, it will proceed to analyze the reasons for the limitations to women's equal participation. Finally, the course will recognize the accomplishments of women in the military. Offered Spring - Even Numbered Years.

ESS/PSY/WGS 259 Cr.1-3
Girls and Women in Sport
This course is an introduction to the involvement of girls and women with sport. It includes a historical perspective on women's sport participation, cultural images of women athletes, teaching and coaching implications of current research, Title IX, and recreation/leisure approaches to physical activity. Course content may vary according to instructor. (Cross-listed with ESS/PSY/WGS; may only earn credit in one department.) Offered Occasionally.

WGS 300 Cr.1-3
Independent Study
Topics to be selected by the individual instructor or by the student and instructor together. The topics must relate to women's experiences and/or issues. Repeatable for credit - maximum six. Prerequisite: WGS 100. Consent of department. Offered Fall, Winter, Spring, Summer.

HIS/WGS 301 Cr.3
Women in the Modern United States: 1890-Present
This course introduces students to key issues in modern women's history in the United States. It explores women's experiences as workers, activists, consumers, citizens, and family members. It also examines the various ways in which generations of Americans have defined "woman's place" and "women's issues," and raises questions about the possibility for defining common "women's issues" today. (Cross-listed with HIS/WGS; may only earn credit in one department.) Offered Alternate Years.

HIS/WGS 305 Cr.3
History of Motherhood in the United States
This course considers motherhood in nineteenth and twentieth century United States history from a variety of perspectives. It explores women's experiences as mothers, across lines of class, race, and relationship status. It also examines the politics of motherhood in US history, and considers both the restrictive and the empowering dimensions of ideologies of motherhood. (Cross-listed with HIS/WGS; may only earn credit in one department.) Offered Alternate Years.

WGS 308 Cr.3
Gender, Justice, and Film
Along with other forms of media, film helps to create, introduce, and reinforce cultural values, norms, and understandings. Using an interdisciplinary approach, this course will provide students with tools with which to critically analyze film as a cultural product, with a specific focus on representations of gender and justice. Films to be viewed and analyzed will focus on issues such as interpersonal and gendered violence, parenting, immigration, economic justice, criminal justice policy, leadership, and the social construction of race, class, gender, and sexuality. While films will be the primary text in the course, each will be supplemented with the empirical and theoretical literature on the subject at hand. Prerequisite: one from the following: WGS 100, WGS 210, WGS 212, WGS 220, CST 110, EDS 206, EFN 205, ERS 100, SOC 110, SOC 120. Offered Annually.

HIS/WGS 315 Cr.3
History of Feminist Thought
An examination of the history of feminist ideas in the United States and the historical context, both western and international, from which they emerged. (Cross-listed with HIS/WGS; may only earn credit in one department.) Offered Alternate Years.

SOC/WGS 316 Cr.3
Gender, Sexuality, and Social Change in Religion
This course examines the various gender roles, norms, mobility, restrictions and empowerment that people experience within religious traditions, for example: Christianity, Judaism, Islam, Hinduism and Buddhism. Global case studies and engaging narratives focused on the intersections of gender, sexuality, race, and religion will be considered. Special attention will be paid to feminist laypersons and religious leaders who are reformulating traditional understandings and practices, and in turn, negotiating their agency within secular and spiritual spaces. Prerequisite: WGS 100 or WGS 230 or SOC 110 or SOC 120. (Cross-listed with SOC/WGS; may only earn credit in one department.) Offered Occasionally.

WGS 320 Cr.3
Violence Against Women
This course will examine from an interdisciplinary perspective, the connections between violence against women and the power distributions within our society. Three specific types of violence against women will be examined in-depth: sexual assault, incest and battering. Prerequisite: one of the following: WGS 100, WGS 210, WGS 230, EFN 205. Offered Alternate Years.

WGS 321 Cr.3
Gendered Violence Prevention
Gendered violence takes many forms such as sexual harassment, sexual assault and rape, and intimate partner violence. In this course, students will review the empirical and theoretical literature on one or more of these forms (topics will vary) as well as the empirical and theoretical literature on prevention strategies. Students will then use that knowledge to design and develop a prevention program aimed at gendered violence. Prerequisite: one from the following: WGS 100, WGS 210, WGS 230, CHE 200, CHE 240, EDS 206, EFN 205, ERS 100, PSY 100, SOC 110, SOC 120. Offered Alternate Years.
WGS 325 Cr.3

Black Feminist Thought
This course is designed to introduce students to Black Feminist theory. During this semester, we will explore how African-American women have been socially located in American society. We will read various texts (books, articles, etc.) to explore how theory works to explain power, oppression and liberation in the lives of African-American women. To accomplish this goal, we will focus our discussions on themes such as activism, identity, difference, representation, and possibilities of upward mobility as they pertain to the lived experiences of African American women. Offered Annually.

WGS 330 Cr.1-3

Topics: Women, Gender, and Society
Interdisciplinary analysis of a social issue, idea, or institution from the perspective of women and women's studies. Repeatable for credit - maximum nine. Department approval is necessary to apply more than three credits toward the WS minor. Prerequisite: one of the following: WGS 100, WGS 210, WGS 212, WGS 230, EDS 206, EFN 205, SOC 110, SOC 120 or approval of instructor. Offered Occasionally.

WGS 331 Cr.3

Images of African American Women
This course is designed to not only introduce students to representations of African American women but to also socially and spatially locate African American women in American society. We will discuss the origins of negative images of black femininity and how these images have evolved over time. In addition, this course will examine various types of images (i.e. television, movies, print ads, etc.) and deconstruct how they challenge, reinforce and reproduce entrenched images of African American women. This course will also discuss how African American women have challenge negative stereotypes and develop their own ways of constructing more accurate and complex. Offered Occasionally.

WGS 333 Cr.3

The Gendered Body in History and Today
This class explores historical and contemporary concepts of gender and the body. We will look at how these ideas also connect to other systems of privilege and inequality, and discuss ways that people have thought about social roles, social sanctions, and empowerment through ideas about the body. Topics will include the history of medical ideas about gendered bodies, cultural concepts of disability, race, and transgender identities, socially sanctioned violence against bodies, cultural representation of body ideals, gendered bodies in relation to health, sexual and spiritual ideals. Prerequisite: one of the following: WGS 100, WGS 210, WGS 212, WGS 230, EDS 206, EFN 205, SOC 110, SOC 120 or approval of instructor. Offered Spring.

SOC/WGS 337 Cr.3

Globalization, Women, and Work
This course examines the global and often exploitative experiences of women, migrating from one part of the world to another for work. As women leave their countries of origin, many find themselves working as nannies, sex workers, house cleaners and modern-day slaves in sweatshops. These work environments often create vulnerability, discrimination, and abuse of women within the private and public institutions of their host countries. The course will also use in-depth personal narratives and a focus on grassroots social movements to witness how women resist workplace policies and domestic laws to campaign for their rights, despite cultural and political constraints. Prerequisite: WGS 100 or WGS 210 or WGS 230 or EFN 205 or ERS 100. (Cross-listed with SOC/WGS; may only earn credit in one department.) Offered Alternate Years.

SOC/WGS 338 Cr.3

Sociological Aspects of Work and Life
This course will explore the sociological impact of work and life demands in contemporary American society. Special emphasis will be given to how gender, sexual orientation, social class, race and ethnicity, and family structure affect individuals’ ability to balance the demands of work and life. Prerequisite: SOC 110 or SOC 120 or SOC 200 or ANT 101. (Cross-listed with SOC/WGS; may only earn credit in one department.) Offered Occasionally.

WGS 340 Cr.3

Women, Learning and Knowledge
An analysis of how a women’s learning experience has been and continues to be limited by conceptions of gender, race, and class. Through an examination of how knowledge is acquired and how society defines knowledge, students will come to a better understanding of how women can “reclaim” their educations. Prerequisite: one of the following: WGS 100, WGS 210, WGS 230, EFN 205. Offered Alternate Years.

WGS 360 Cr.3

Hip Hop Culture, Race, and Gender
This course is designed to examine the history of Hip Hop and how it has evolved over time from a culture that gave voice to youth culture in New York City to a global phenomenon that, in many ways, has lost its way due to commercialism. In this course, we will discuss the origins of Hip Hop culture and its four basic elements (break dancing, rap, djing, and graffiti art). We examine how rap has evolved over time and how consumerism and capitalism have influenced Hip Hop culture. During the class, we will discuss various controversies that have arisen around the music, including criticism of its attitudes toward violence, femininity, masculinity, homosexuality, and educational achievement. Students will have the opportunity to analyze and deconstruct music lyrics, music videos and movies. Offered Occasionally.

HIS/WGS 370 Cr.3

The History of Black Women’s Activism
An historical overview of the thoughts, actions, and creative products of black women activists in the United States, from slavery to the present. Students will examine historical analyses, speeches, essays, economic activities, organizational styles, political issues, and various forms of artistic expression that women of African descent have produced in order to query, resist, and defy the interlocking oppressions of racism, sexism, and class-ism in the United States. Prerequisite: WGS 100 or WGS 210 or WGS 230 or EFN 205 or ERS 100. (Cross-listed with HIS/WGS; may only earn credit in one department.) Offered Alternate Years.

WGS 373 Cr.3

Gender and Human Rights
This course will provide an overview of transnational women’s human rights movements in a variety of locations around the world; locations will vary with the instructor. Included in this overview will be the study of women’s political participation as a human rights issue; women’s bodily integrity as a human right; violence against women and reproductive sexual health and rights; human rights as a framework for social and economic and gender justice; and human rights as (quasi) legal accountability; UN agreements, treaties and venues of redress. Prerequisite: WGS 100 or WGS 210 or WGS 230 or EFN 205 or ERS 100. Offered Fall - Odd Numbered Years.
WGS 374 Cr.3  
**Women, Poverty and Public Policy**  
The course analyzes the historical underpinnings to the creation and evolution of welfare with special attention paid to the ways gender, race, and class oppression have shaped welfare in the past and today. Wage differentials, occupational segregation, unpaid work, and gender violence are discussed in relation to the construction of poverty. How poverty affects the lives of poor women and their children also is explored. Current welfare policy will be analyzed and suggestions for reform based on current research is developed by the class. Prerequisite: One of the following: WGS 100, WGS 210, WGS 230, POL 205, PSY 318, EFN 205. Offered Alternate Years.

SOC/WGS 375 Cr.3  
**Lesbian Studies**  
Examines the social construction of sexual orientation and its meaning for women and women's equality. The course draws on a range of sources, including scientific research, history, literature, psychological theory, and popular culture. Prerequisite: WGS 100 or WGS 210 or WGS 230 or EFN 205. (Cross-listed with SOC/WGS; may only earn credit in one department.) Offered Occasionally.

WGS 386 Cr.3  
**Women of Color and Autobiography**  
This course is designed to introduce students to non-fiction writing, focusing specifically on the autobiographical work of women of color. We will read a variety of different forms of autobiographical text. During this course, we will examine how intersections of race, gender, space, and identity are explored in these women’s narratives. Through the readings, we will investigate the ethical and political obligations of minority writers. Also, we will investigate the interplay of identity formation and writing. Additionally, we will place these women’s narratives into historical and social contexts to understand how these factors influence these women’s texts. While reading these texts, we will write our own narratives as a method to investigate the lives of women. Offered Occasionally.

WGS 390 Cr.3  
**Social Justice Research Methods**  
This course answers the question that most caring people want answered: How can we fix this problem? Students will engage in the process of strategizing, whatever the issue (gender bias, racism, homophobia, environmental degradation, disability bias), and whatever the setting (a workplace, neighborhood, campus, or beyond). Course activities organize around the processes behind social change: strategic analysis, organizing, action planning, and evaluation, developing students’ ability to create the knowledge necessary for complex problem-solving. Students learn and use the quantitative, qualitative, and critical research methods necessary to inform decisions at each step along a generalized pathway to change. Students going on to graduate school and students entering the workforce in a variety of fields like social work, community organizing, communication, and management will benefit from this course. Prerequisite: WGS 100 or WGS 210 or WGS 230 or EFN 205 or ERS 100; plus nine additional credits in courses approved for WGS. Offered Fall.

WGS 450 Cr.1-6  
**Internship in Women’s Studies**  
The internship is an academically relevant field experience for minors in women’s studies which combine women’s studies scholarship with practical experience. The field experience will be supervised by the women’s studies staff. A maximum of three credits will be counted toward the minor. Repeatable for credit - maximum six. Prerequisite: junior standing; six credits of WGS courses; minimum 2.50 cumulative GPA. Offered Fall, Winter, Spring, Summer.

WGS 499 Cr.3  
**Women’s Studies Seminar**  
Intensive interdisciplinary study of particular areas in women’s studies. Topics will be chosen by the instructor and the students. Prerequisite: one of the following: WGS 100, WGS 210, WGS 230; at least two other courses approved for the women’s studies major or minor; declared women’s studies major or minor. Offered Fall.
Faculty and Academic Staff
