The Accountancy Program at UW-La Crosse is designed to provide students with a balanced approach of the practical and the theoretical, preparing students for not only their first job but their career. The success of the UW-La Crosse accountancy program is evidenced by the accomplishments of our alumni, the number of internship placements, and the performance of UW-La Crosse students on the CPA exam. During the 2015-2016 academic year, over 50 accountancy majors participated in well-paid internships. Essentially all UW-La Crosse accountancy graduates are placed in accountancy positions, with the lowest placement rate in the last nine years at 94 percent.

Wisconsin and Minnesota, along with most other states, require 150 credits as part of the CPA certification. UW-La Crosse offers a flexible approach to completing the 150 credits. A large number of UW-La Crosse students combine the accounting degree with another undergraduate specialty, such as finance. The advantage of this approach is that students can complete their degree, the 150 hours, and an internship in four-and-one-half years, graduating in December.

Accountancy credit by examination policy
The Department of Accountancy offers students the opportunity to attempt "credit by examination" for ACC 221 Accounting Principles I (3 cr.), ACC 222 Accounting Principles II (3 cr.), and ACC 235 Survey of Accounting (3 cr.). Information about the examination is available from the department chair.

Students in the College of Business Administration must be admitted to business (http://catalog.uwlax.edu/undergraduate/businessadministrationcba/#Admission) and also complete the college core requirements.
