Continuing Education and Extension (CEE) works with faculty and departments to extend the instructional, research, and public service resources of UWL to individuals and organizations in western Wisconsin communities and in other parts of the state. Some programs attract national and international audiences.

Graduate and undergraduate credit courses are offered off campus for part-time students, primarily K-12 educators, and health and human service professionals. Online bachelor's degree and master's degree completion programs are offered in collaboration with UW-Extension.

Conferences, workshops and other non-credit instructional programs are conducted for selected professional audiences, as well as the general public. A non-credit certificate program is offered in autism spectrum disorders. Learning in Retirement programs are offered specifically for older adults. Continuing education units (CE units) or health education continuing education contact hours (CECHs) are awarded when appropriate.

Science, humanities, and arts enrichment classes also are offered for upper elementary, middle, and high school students. Test preparation courses are also offered for ACT, GRE, GMAT, and LSAT.

Credit outreach courses and most non-credit instructional programs are offered in partnership with UW-Extension. Distance learning technologies are used for selected audiences.

CEE staff work with faculty and off-campus individuals to host conferences and annual meetings of professional associations and other organizations.

Degree programs

Online undergraduate degree programs:

- Health Information Management & Technology - Bachelor of Science
 - In collaboration with: University of Wisconsin-Extension, UW-Green Bay, UW-La Crosse, UW-Parkside, and UW-Stevens Point
 - Bachelor of Science in Health Information Management & Technology (HIMT) collaborative program (<http://himt.wisconsin.edu>)
