

# Microbiology Major: Business Concentration - Bachelor of Science (BS)

## Major requirements

(All colleges, excluding teacher certification programs)

59 credits (35 credits for biology/microbiology, 24 credits for the business core; 86 total credits including requirements outside of BIO/MIC)

Code	Title	Credits
<b>Biology core <sup>1</sup></b>		
BIO 105	General Biology	4
Select one of the following:		3-4
BIO 203	Organismal Biology	
BIO 210	Animal Biology	
BIO 304	Plant Biology	
BIO 306	Genetics	
BIO 312	Human Anatomy and Physiology I	
BIO 315	Cell Biology	
<b>Microbiology core <sup>1</sup></b>		
MIC 230	Fundamentals of Microbiology	4
MIC 310	Immunology	3
MIC 350	Bacterial Diversity	3-4
or MIC 407	Pathogenic Bacteriology	
MIC 410	Immunology Laboratory	2
MIC 416	Prokaryotic Molecular Genetics	4
MIC 425	Bacterial Physiology	4
MIC 461	Capstone in Microbiology	1
<b>Business core (24 credits)</b>		
ACC 221	Accounting Principles I	3
ACC 222	Accounting Principles II	3
BLAW 205	The Legal and Ethical Environment of Business	3
ECO 110	Microeconomics and Public Policy	3
ECO 120	Global Macroeconomics	3
FIN 355	Principles of Financial Management	3
MGT 308	Organizational Behavior	3
MKT 309	Principles of Marketing	3
<b>Microbiology/biology electives (see elective lists below) <sup>1</sup></b>		<b>5-7</b>
Select at least three credits from List I.		
One course from List II strongly recommended.		
A maximum of two credits from List III.		
<b>Additional requirements</b>		
Select one course in math, STAT 145 or above		4-5
Select one course in physics:		4
PHY 125	Physics for the Life Sciences	
PHY 104	Fundamental Physics II	
PHY 204	General Physics II	
Select a minimum of 19 credits of chemistry including:		19
CHM 103	General Chemistry I	

CHM 104	General Chemistry II	
Select one of the following:		
CHM 300 & CHM 302	Fundamental Organic Chemistry and Fundamental Organic Chemistry Laboratory	
CHM 303 & CHM 304 & CHM 302	Organic Chemistry Theory I and Organic Chemistry Theory II and Fundamental Organic Chemistry Laboratory	
CHM 303 & CHM 304 & CHM 305	Organic Chemistry Theory I and Organic Chemistry Theory II and Organic Chemistry Laboratory	
Select one of the following:		
CHM 325	Fundamental Biochemistry	
CHM 417 & CHM 418	Biochemistry I: Macromolecules and Biochemistry II: Metabolism and Genetic Information	
Total Credits		86

<sup>1</sup> The combination of biology core, microbiology core, and elective credits must total 35.

The physics series PHY 103 Fundamental Physics I (4 cr.)/PHY 104 Fundamental Physics II (4 cr.) or PHY 203 General Physics I (4 cr.)/PHY 204 General Physics II (4 cr.) may be required for students pursuing graduate or professional degrees.

## Electives

Code	Title	Credits
<b>List I</b>		
MIC 350	Bacterial Diversity	3
MIC 380	Food Microbiology	4
MIC 407	Pathogenic Bacteriology	4
MIC 420	Introductory Virology	3
MIC 421	Virology Laboratory	2
MIC 427	Industrial and Fermentation Microbiology	3
MIC 428	Fermentation Microbiology Laboratory	2
MIC 434	Aquatic Microbial Ecology	3
MIC 454	Mechanisms of Microbial Pathogenicity	2
MIC 460	Symposium Microbiology	1-3
<b>List II</b>		
BIO 406	Parasitology	4
BIO 412	Mycology	4
BIO 413	Medical Mycology	3
BIO 449	Advanced Microscopy and Biological Imaging	3
CLI 484	Laboratory Management	2
MIC 440	Bioinformatics	2
MIC 442	Plant Microbe Interactions	3
<b>List III</b>		
BIO 202	Introduction to Biological Data Analysis and Interpretation	2
MIC 489	Independent Study in Microbiology	1-2
MIC 499	Independent Research in Microbiology	1-2

## Degree requirements

All students must complete the general education, college core, major/minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to

the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (<http://catalog.uwlax.edu/undergraduate/generaleducation/>)
- College core (p. 2)
- Baccalaureate degree requirements (p. 2)

## College of Science and Health (CSH) Bachelor of Science core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 304, BIO 210, CHM 104, ESC 221, ESC 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

**Note:** Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

**For the Bachelor of Science degree**, in addition to all other College of Science and Health core requirements, students from non-exempted programs<sup>1</sup> must complete one of the following options. It is recommended that courses are selected in consultation with students' academic advisor.

1. Complete a second major; or
2. Complete a minor outside the major; or
3. Complete an individualized option, consisting of 18 credits
  - a. At least 12 credits must be earned at the 300/400 level outside the major department.
  - b. The remaining six credits should come from
    - i. 100 level or higher courses outside the major (General education courses may apply provided they are not being used to fulfill minimum general education requirements.); or
    - ii. 300/400 level courses inside major not being used to fulfill major requirements.
  - c. Internship credits may not count toward the individualized option.

<sup>1</sup> The list of exempted CSH programs is below.

## Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

1. Fulfill the general education requirements.
2. Complete at least one ethnic studies (diversity) course.
3. Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college. (No substitutions for graduation may be made in course

requirements for a major or minor after the fourth week of the last semester of the senior year.)

4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA.<sup>1, 2</sup>
5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned at the 300/400 level apply to this requirement. Courses earned at the 100/200 level that transferred to UWL as 300/400 level courses **do not** apply to this requirement.
6. Complete major and minor requirements with at least a 2.00 GPA<sup>1, 2</sup> in each major and minor (and concentration or emphasis, if selected).
7. A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (<http://catalog.uwlax.edu/undergraduate/academicpolicies/graduation/#undergraduate-residence-requirement>)).
8. Submit an application for graduation via the 'Apply for Graduation' link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.

- <sup>1</sup> Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- <sup>2</sup> The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

**No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.**

## Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (<http://www.uwlax.edu/Records/registration/>) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (<https://wings.uwlax.edu/psprod/?cmd=login&/#38;languageCd=ENG&>) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

### General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning.

At least 40 credits of the 120 credits required must be earned at the 300/400-level. Refer to the general education requirements (<http://>

catalog.uwlax.edu/undergraduate/generaleducation/) for more specific details.

**Note:** New students and transfer students with 15 or fewer credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

*This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student plan their academic career. Actual degree plans may differ.*

Year 1		
Fall	Credits Spring	Credits
BIO 105 (Gen Ed Natural Lab Science)	4 BIO 203 <sup>1</sup>	4
MTH 150 (Gen Ed Math)	4 CHM 103 (Gen Ed Natural Lab Science)	5
Gen Ed Arts	2-3 ENG 110 or 112 (Gen Ed Literacy- Written)	3
CST 110 (Gen Ed Literacy-Oral)	3 ECO 110 (Gen Ed Self & Society)	3
FYS 100 (Gen Ed First-Year Seminar)	3	
	16	15
Year 2		
Fall	Credits Spring	Credits
MIC 230	4 MIC 310	3
CHM 104	5 CHM 300 <sup>2</sup>	4
