1

Physics Major with Astronomy Emphasis -Bachelor of Arts (BA)

Major requirements

(All colleges, excluding teacher certification programs)

40 credits (57 total credits including MTH)

Code	Title	Credits		
Core				
PHY 203	General Physics I ¹	4		
or PHY 103	Fundamental Physics I			
PHY 204	General Physics II ¹	4		
or PHY 104	Fundamental Physics II			
PHY 155	Solar System Astronomy	4		
PHY 160	Stars, Galaxies and the Universe	4		
PHY 305	General Physics III	3		
PHY 306	Modern Physics	3		
PHY 311	Experimental Physics	2		
PHY 362	Astrophysics	3		
PHY 466	Cosmology and the Structure of The Universe	3		
PHY 491	Capstone in Physics	1		
Electives				
Select nine addit level ^{2, 3}	ional credits from physics courses at the 300/40	00 9		
Total Credits		40		
Code	Title	Credits		
Prerequisite coursework				
MTH 207	Calculus I	5		
MTH 208	Calculus II	4		
MTH 308	Linear Algebra with Differential Equations	4		
or MTH 309	Linear Algebra			
MTH 310	Calculus III: Multivariable Calculus	4		
Total Credits		17		

¹ PHY 203 and PHY 204 are preferred.

- ² Students intending to pursue a graduate degree are strongly advised to take PHY 321 and PHY 332 and should consult with their physics advisor when choosing physics elective courses.
- ³ Excluding PHY 320, PHY 376, PHY 423, PHY 452, PHY 483, PHY 497. If PHY 498 Physics and Astronomy Research is chosen, the research must be astronomy related, and only three credits of PHY 498 may apply towards the major.

Degree requirements

All students must complete the general education, college core, major/ minor, and university degree requirements in order to qualify for a degree. The easiest way to track all of these requirements is to refer to the Advisement Report (AR) found in the Student Information System (WINGS) Student Center. All enrolled students have access to the AR.

- General education (http://catalog.uwlax.edu/undergraduate/ generaleducation/)
- College core (p. 1)
- Baccalaureate degree requirements (p. 1)

College of Science and Health (CSH) Bachelor of Arts core requirements

B.S. and B.A. students graduating from the College of Science and Health are required to take two natural laboratory science courses selected from the general education laboratory science category (GE 05) and/or from BIO 203, BIO 210, BIO 304, CHM 104, GEO 221, GEO 222, PHY 104 or PHY 204, and they either must take two mathematics courses or one math course and one computer science course from the math/logical systems category of the general education requirements (GE 02). One of the two science courses must be from a department outside of the student's major department.

Note: Math courses can be pairs, i.e. 150 and 151; MTH/CS majors can use two science courses from same department.

For the Bachelor of Arts degree, students must complete a major from the college and proficiency in a world language at the 202 level or demonstrate English language proficiency for non-native speakers of English. Contact the CSH Dean's Office for eligibility and regulations.

Students must also complete one of the following options. It is recommended that courses are selected in consultation with your advisor.

- 1. Complete a minor in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts; or
- 2. Complete two certificates in the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts with at least 12 combined credits at the 300/400 level; or
- 3. Complete an individualized option, consisting of 15 credits.
 - a. These courses must be from the College of Arts, Social Sciences, and Humanities/School of Visual and Performing Arts.
 - b. At least 9 credits must be earned at the 300/400 level.
 - c. General education courses may apply provided they are not being used to fulfill minimum general education requirements.
 - d. Internship credits may not count toward the individualized option.

Baccalaureate degree requirements

Candidates for the Bachelor of Arts or the Bachelor of Science degrees must accomplish the following:

- 1. Fulfill the general education requirements.
- 2. Complete at least one ethnic studies (diversity) course.
- Complete the courses prescribed by the Undergraduate Curriculum Committee for the degree desired in the respective school or college.
- 4. Earn a minimum of 120 semester credits with at least a 2.00 cumulative GPA. $^{\rm 1,\,2}$
- 5. At least 40 credits must be earned in 300/400 level courses. Transfer courses earned or transferred at the 300/400 level apply to this requirement.

- Complete major and minor requirements with at least a 2.00 GPA¹,
 ² in each major and minor (and concentration or emphasis, if selected).
- A minimum of 30 semester credits in residence at UWL is required for graduation. (See undergraduate resident requirement (http:// catalog.uwlax.edu/undergraduate/academicpolicies/graduation/ #undergraduate-residence-requirement).)
- 8. Submit an application for graduation via the "Apply for Graduation" link in the WINGS Student Center as soon as the student has registered for his or her final semester or summer term in residence. December and winter intersession graduates should apply by May 1. May and summer graduates should apply by December 1.
- ¹ Grade point average requirements for some programs will be considerably higher than 2.00. Re-entering students may be required to earn credits in excess of the 120 needed for graduation in any curriculum in order to replace credits earned in courses in which the content has changed substantially in recent years. Each case will be judged on its own merit.
- ² The grade point average recorded at the time the degree is awarded will not be affected by future enrollment.

No degree will be awarded unless all requirements are fulfilled and recorded within 30 days after the official ending date of each term.

Sample degree plan

Below is a sample degree plan that can be used as a guide to identify courses required to fulfill the major and other requirements needed for degree completion. A student's actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Also, this sample plan assumes readiness for each course and/or major plan, and some courses may not be offered every term. Review the course descriptions or the class timetable (http://www.uwlax.edu/records/ registration/) for course offering information.

The sample degree plans represented in this catalog are intended for first-year students entering UWL in the fall term. Students should use the Advisement Report (AR) in WINGS (https://wings.uwlax.edu) and work closely with their faculty advisor(s) and college dean's office to ensure declaration and completion of all requirements in a timely manner.

General Education Program

The general education curriculum (Gen Ed) is the common educational experience for all undergraduates at UWL. Sample degree plans include Gen Ed placeholders to ensure completion of the general education requirements. Courses may be rearranged to fit the needs or recommendations of the student's program of study. Gen Ed courses may be taken during winter term (January between the semesters) and summer to reduce the course load during regular terms (fall and spring). Students should consult with their advisor and/or the college academic services director in their college/school for assistance with course and schedule planning. Refer to the general education requirements (http:// catalog.uwlax.edu/undergraduate/generaleducation/) for more specific details.

At least 40 credits of the 120 credits required must be earned at the 300/400-level.

Note: New students and transfer students with less than 12 credits earned are required to take FYS 100 First-Year Seminar (3 cr.) during one of their first two semesters at UWL.

This sample degree plan does not establish a contractual agreement. It identifies the minimum requirements a student must successfully complete, to qualify for a degree, in a format intended to assist the student in planning their academic career. Actual degree plans may differ.
